Signed at Washington, June 30, 1924; ratification advised by the Senate, December 12, 1924; ratified by the President, December 30, 1924; ratified by France, March 1, 1927; ratifications exchanged at Washington, March 12, 1927; proclaimed, March 12, 1927.*

June 30, 1924.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

## A PROCLAMATION.

Convention with France to prevent smuggling of intoxicating liquors into the United States.

WHEREAS a Convention between the United States of America and the French Republic to aid in the prevention of the smuggling of alcoholic liquors into the United States was concluded and signed by their respective Plenipotentiaries at Washington on the thirtieth day of June, one thousand nine hundred and twenty-four, the original of which Convention, being in the English and French languages, is word for word as follows:

Contracting Powers.

The President of the United States of America and the President of the French Republic being desirous of avoiding any difficulties which might arise between them in connection with the laws in force in the United States on the subject of alcoholic beverages have decided to conclude a Convention for that purpose, and have appointed as their Plenipotentiaries:

Le Président des Etats-Unis d'Amérique et le Président de la République française, désireux d'éviter toutes difficultés qui pourraient survenir entre leurs pays relativement aux lois en vigueur aux Etats-Unis sur le sujet des boissons alcooliques, ont décidé de conclure une convention à cette fin et ont désigné pour être leurs plénipotentiaires:

Plenipotentiaries.

The President of the United States of America: Mr. Charles Evans Hughes, Secretary of State of the United States; and

The President of the French Republic: Mr. J. J. Jusserand, Ambassador of the French Republic to the United States;

Who, having communicated their full powers found in good and due form, have agreed as follows:

Le Président des Etats-Unis d'Amérique: M. Charles Evans Hughes, Secrétaire d'Etat des Etats-Unis; et

Le Président de la République française: M. J. J. Jusserand, Ambassadeur de la République française aux Etats-Unis;

Lesquels, après s'être communiqué leurs pleins pouvoirs trouvés en bonne et due forme, sont convenus des articles suivants:

### ARTICLE I.

Territorial jurisdiction retained.

The High Contracting Parties respectively retain their rights and claims, without prejudice by reason of this agreement, with respect to the extent of their territorial jurisdiction.

### ARTICLE I.

Les Hautes Parties Contractantes réservent respectivement leurs droits et revendications quant à l'étendue de leur juridiction territoriale, sans que l'arrangement actuel y porte préjudice.

## ARTICLE II.

Boarding of French private vessels outside limits for inquiry, etc., not objected to.

(1) The President of the French Republic agrees that France will raise no objection to the boarding of private vessels under the French flag outside the limits of territorial waters by the authorities of the United States, its territories or possessions in order that enquiries may be addressed to those on board and an examination be made of the ship's papers for the purpose of ascertaining whether the vessel or those on board are endeavoring to import or have imported alcoholic beverages into the United States, its territories or possessions in violation of the laws there in force. When such enquiries and examination show a reasonable ground for suspicion, a search of the vessel may be effected.

Search of vessel on reasonable ground for suspicion.

Seizure of vessel believed to be violating American prohibition laws.

(2) If there is reasonable cause for belief that the vessel has committed or is committing or attempting to commit an offense against the laws of the United States, its territories or possessions prohibiting the importation of alcoholic beverages, the vessel may be seized and taken into a port of the United States, its territories or possessions for adjudication in accordance with such laws.

Distance from coast limited for boarding, etc., vessels.

(3) The rights conferred by this article shall not be exercised at a greater distance from the coast of the United States its territories or possessions than can be traversed in one hour by the vessel suspected of endeavoring to commit the offense. In cases, however, in which the liquor is intended to be conveyed to the United States its territories or possessions by a vessel other than the one boarded and searched, it shall be the speed of such other vessel and not the speed of the vessel boarded, which shall determine the distance from the coast at which the right under this article can be exercised.

Extension if liquor conveyed by other vessel.

## ARTICLE II.

(1) Le Président de la République française accepte que la France n'élève aucune objection à ce que les navires privés, sous pavillon français, soient abordés, en dehors des limites des eaux territoriales, par les autorités des Etats-Unis leurs territoires ou possessions, afin que des questions puissent être posées aux personnes se trouvant à bord et qu'un examen soit fait des papiers de bord, en vue de vérifier si le navire ou les personnes à bord, s'efforcent d'importer ou ont importé des boissons alcooliques aux Etats-Unis leurs territoires ou possessions contrairement aux lois qui y sont en vigueur. Lorsque de telles questions et examen donneront des causes raisonnables de suspicion, une visite du navire pourra être effectuée.

(2) S'il existe une cause raisonnable de croire que le navire a commis ou est en train de commettre ou d'essayer de commettre une infraction aux lois des Etats-Unis leurs territoires ou possessions prohibant l'importation des boissons alcooliques, le navire pourra être saisi et conduit dans un port des Etats-Unis, leurs territoires ou possessions, pour qu'il en soit décidé conformément aux dites lois.

(3) Les droits conférés par cet article ne seront pas exercés à une distance de la côte des Etats-Unis leurs territoires ou possessions, supérieure à celle qui peut être traversée en une heure par le navire suspecté de tâcher de commettre cette infraction. Dans le cas, toutefois, où l'intention serait que le liquide fût transporté aux Etats-Unis leurs territoires ou possessions par un navire autre que celui qui aurait été abordé ou visité, ce serait la vitesse de cet autre navire et non celle du navire abordé qui servirait à déterminer la distance à partir de la côte jusqu'où le droit dérivant de cet article pourrait être exercé.

ARTICLE III.

No penalty or forfeiture under the laws of the United States shall be applicable or attach to alcoholic liquors or to vessels or persons by reason of the carriage of such liquors, when such liquors are listed as sea stores or cargo destined for a port foreign to the United States, its territories or possessions on board French vessels voyaging to or from ports of the United States, or its territories or possessions or passing through the territorial waters thereof, and such carriage shall be as now provided by law with respect to the transit of such liquors through the Panama Canal, provided that such liquors shall be kept under seal continuously while the vessel on which they are carried remains within said territorial waters and that no part of such liquors shall at any time or place be unladen within the United States, its territories or possessions.

ARTICLE III.

Aucune pénalité ou confiscation d'après les lois des Etats-Unis ne sera applicable aux liqueurs alcooliques ou aux navires ou personnes, en raison du transport de telles liqueurs, quand lesdites liqueurs seront inscrites comme approvisionnements de mer ou comme cargaison destinée à un port en dehors des Etats-Unis leurs territoires ou possessions, à bord de navires français voyageant vers un port des Etats-Unis leurs territoires ou possessions, ou en venant, ou traversant leurs eaux territoriales; et un tel transport sera considéré comme il est actuellement prescrit par la loi pour ce qui regarde le transit de telles liqueurs par le Canal de Panama, pourvu que lesdites liqueurs soient maintenues sous scellé, de manière continue, pendant le temps que le navire demeurera dans lesdites eaux territoriales et qu'aucune partie desdites liqueurs ne soit en aucun lieu ou moment débarquée aux Etats-Unis ou leurs territoires ou possessions.

Liquors listed as sea stores or cargo for a foreign port not subject to penalties, etc.

To be kept under seal while in American waters.

ARTICLE IV.

Any claim by a French vessel for compensation on the grounds that it has suffered loss or injury through the improper or unreasonable exercise of the rights conferred by Article II of this Treaty or on the ground that it has not been given the benefit of Article III shall be referred for the joint consideration of two persons, one of whom shall be nominated by each of the High Contracting Parties.

Effect shall be given to the recommendations contained in any such joint report. If no joint report can be agreed upon, the claim shall be referred to an umpire selected by the two Governments; should they fail to agree on the choice of that umpire, it shall be referred to the Permanent Court of Arbitration at The Hague described in the Convention for the Pacific Settlement of

ARTICLE IV.

Toute demande par un navire français, de compensation, fondée sur une perte ou dommage qu'il aurait subis par suite d'un exercice indû ou déraisonnable des droits conférés par l'article II de ce traité ou sur le fait qu'il n'aurait pas été admis au bénéfice de l'article III, sera référée pour examen conjoint à deux personnes, chacune des Hautes Parties Contractantes désignant l'une d'elles.

Suite sera donnée aux recommandations contenues dans tout semblable rapport conjoint. Si l'entente n'a pu se faire sur aucun rapport conjoint, la réclamation sera soumise à un tiers arbitre choisi par les deux Gouvernements; si l'accord ne pouvait se faire entre eux sur le choix de cet arbitre, elle sera soumise à la Cour permanente d'arbitrage de La Haye décrite dans la con-

The proceedings shall be regulated by so much of Chapter IV of the said Convention and of Chapter III thereof (special regard being had for Articles 70 and 74, but excepting Articles 53 and 54) as the Tribunal may consider to be applicable and to be consistent with the provisions of this agreement. All sums of money which may be awarded by the Tribunal on account of any claim shall be paid within eighteen months after the date of the final award without interest and without deduction, save as hereafter specified. Each Government shall bear its own expenses. The expenses of the Tribunal shall be defrayed by a ratable deduction of the amount of the sums awarded by it, at a rate of five per cent. on such sums, or at such lower rate as may be agreed upon between the two Governments; the deficiency, if any, shall be defrayed in equal moieties by the two Governments.

La procédure sera réglée d'après telles parties du chapitre IV et du chapitre III de ladite convention (attention spéciale étant prêtée aux articles 70 et 74, mais les articles 53 et 54 étant exclus) que le tribunal pourra considérer comme applicables et comme cadrant avec les dispositions de cet arrangement. Toutes les sommes d'argent qui pourront être accordées par le tribunal à cause d'une réclamation seront payées dans les 18 mois après la date de la décision finale, sans intérêts et sans déduction, sauf ainsi qu'il va être spécifié. Chaque Gouvernement pourvoira à ses propres dépenses. Les dépenses du tribunal seront couvertes par une déduction proportionnelle du total des sommes allouées par lui, au taux de cinq pour cent sur lesdites sommes, ou à tels taux moins élevés sur lesquels les deux Gouvernements pourraient tomber d'accord; le déficit, s'il y en avait, serait couvert par moitiés égales par les deux Gouvernements.

## VOTOS DEL CONGRESS

El Segundo Congreso Postal Panamericano recomienda a todos los países que forman esta Unión:

I. Que gestionen, en cuanto les fuere posible, el pronto establecimiento de un servicio de correo aéreo, como medio eficaz para obtener un rápido intercambio de correspondencia, dando así un paso más en el acercamiento espiritual, que es uno de los fines de la Union Postal Panamericana.

II. Que constituyendo el servicio de encomiendas postales un medio que facilita las relaciones comerciales entre los países contratantes, sería conveniente derogar cuantos requisitos signifiquen una restricción para la efectividad de dicho servicio; y suprimir la exigencia de facturas y visados consulares, así como los certificados de origen para las encomiendas cuyo valor no exceda de 150 francos oro o su equivalente en dólares.

III. En vista de que los anuncios constituyen un medio de divulgación útil y conveniente, que tiende a aumentar el conocimiento de los pueblos, el Congreso opina que los envíos de esa naturaleza deberían ser transportados en el servicio postal internacional sin estar sujetos a derechos aduaneros o a requisitos que tiendan a limitar sus fines.

IV. Que las administraciones de la Unión Postal Panamericana creen, a serles posible, una Oficina de Información en la Sede de las Centrales de Correos, con un salón de lectura en el cual se pondrán a disposición del público, diarios, revistas y publicaciones en general de los distintos países de la Unión, remitidos gratuitamente ya sea por los Gobiernos, Empresas Editoras o autores.

México, D. F., a 9 de Noviembre de 1926.

## RESOLUTIONS OF THE CONGRESS

Resolutions of the Congress.

The second Pan-American Postal Congress recommends, to all the countries which forms this Union:

Recommendations submitted.

I. That they take steps, as far as possible, for the prompt establishment of an air-mail service, as an effective means of obtaining a rapid exchange of correspondence, thus taking another step toward spiritual harmony, which is one of the aims of the Pan-American Postal Union.

Air-mail establishment.

II. That, since the parcel-post service constitutes a means which facilitates commercial relations among the contracting countries, it would be convenient to abolish as many requirements as signify a restriction for the effectiveness of the said service; and to abolish the requirement of consular invoices and visas, as well as certificates of origin for parcels whose value does not exceed 150 gold francs or their equivalent in dollars.

Modification of parcel-post requirements.

III. In view of the fact that advertisements constitute a useful and convenient means of spreading information which tends to increase the knowledge of the peoples, the Congress is of the opinion that articles of this kind should be transported in the international postal service without being subject to customs duties or requirements which tend to limit their aims.

Transporting advertisements.

IV. That the Administrations of the Pan-American Postal Union should create, if possible, an Information Office in the Central Post Offices, with a reading room in which will be placed, at the disposal of the public, newspapers, magazines, and publications in general of the various countries of the Union furnished gratuitously by the Governments, publishers or authors.

Creation of Information Offices.

Allowance to sender.

1. Except in cases of loss or damage through force majeure (causes beyond control) as that term is defined by the legal decisions or rulings of the country in the service of which the damage or loss occurs, when a registered or insured parcel has been lost, rifled or damaged the sender, or other rightful claimant, is entitled to an indemnity corresponding to the actual amount of loss, rifling or damage, based on the actual value at the time and place of mailing of the loss, rifled, or damaged article, unless the loss, rifling, or damage has arisen from the fault or negligence of the sender or the addressee or of the representative of either or from the nature of the article, provided that the indemnity shall not exceed the sum for which the required registration or insurance fee was paid in the country of origin.

Agreement of, for delivery in country not a party hereto.

In the absence of special agreement to the contrary between the countries involved (which agreement may be made through correspondence) no indemnity will be paid by either country for the loss, reifling, or damage of transit registered or insured parcels, that is, registered or insured parcels originating in one of the two contracting countries or a third country addressed for delivery in some other country not a party to this Convention.

Loss by force majeure.

2. Neither Administration is bound to pay indemnity in case of loss or damage due to force majeure under any particular definitions of that term unless the other Administration will assume liability reciprocally under the same definitions of the term, although either country may at its option and without recourse to the other country, pay indemnity for losses or damages occurring through force majeure under any definition of that term.

Parcels forwarded to a third country.

3. In case a registered or insured parcel originating in one country and addresses for delivery in the other country is forwarded or returned from the country of original address to a third country, the rightful claimant shall be entitled to only such indemnity, if any, for any loss, rifling, or damage which occurs subsequent to the redespatch of the parcel in the country of original address, as the country in which the loss, rifling, or damage occurred is willing or obligated to pay under any agreement in force between the countries directly involved in the forwarding or return. Neither country adhering to this Convention which improperly forwards a registered or insured parcel to a third country, shall be responsible therefor to the extent of the liability of the country of origin to the sender within the limit of indemnity fixed by this Convention.

Claim to be filed.

4. No application for indemnity will be entertained unless a claim or an initial inquiry, oral or written, shall be filed by claimant or his representative within a year commencing with the day following the posting of the registered or insured parcel.

No compensation for indirect loss, etc.

5. No compensation shall be given for loss, injury, or damage consequential upon, i. e., indirectly arising from, the loss, nondelivery, damage, misdelivery, or delay of any registered or insured parcel transmitted under this Convention.

Matter not entitled to indemnity.

6. No indemnity will be paid for registered or insured parcels which contain matter of no intrinsic value nor for perishable matter or matter prohibited transmission in the parcel-post mails exchanged between the contracting Administrations, or which did not conform to the stipulations of this Convention, or which were not posted in the manner prescribed, but the country responsible for the loss, rifling, or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

Reimbursement of postage, etc., on loss of parcels.

7. Either of the Administrations may at its option reimburse the rightful claimant in the event of complete loss, irreparable damage of

entire contents or rifling of entire contents for the amount of postage or special charges borne by a registered or insured parcel, if claimed. The registration or insurance fees are not in any case returned.

If original documents destroyed, no responsibility admitted.

8. No responsibility will be admitted for registered or insured parcels which can not be accounted for in consequence of the destruction of official documents through causes beyond control.

Reservation in case of false statements, etc.

9. In case the sender, addressee, or owner of a registered or insured parcel, or his representative, shall at any time knowingly allege the contents to be above their real value, or whenever any false, fictitious, or fraudulent evidence is knowingly and wilfully introduced, the Administration responsible for the indemnity reserves the right without any refund of fee or postage to decline to pay indemnity or to pay such indemnity as may in its discretion be considered equitable in the light of the evidence produced. The enforcement of this rule shall not prejudice any legal proceedings to which such fraudulent evidence may have rendered the claimant liable.

Administration of origin to pay indemnity within a year.

10. When a registered or insured article has been lost, rifled, or damaged, the Administration of origin shall pay indemnity to the rightful claimant as soon as possible and at the latest within a period of one year counting with the day following that on which the application is made, which payment shall be made on account of the Administration of destination, if that Administration is responsible for the loss, rifling, or damage, and has been duly notified.

Deferring payments.

11. However, the Administration of origin may, in the cases indicated in the foregoing section, exceptionally defer payment of indemnity for a longer period than that stipulated if, at the expiration of that period, it has not been able to determine the disposition made of the article in question or the responsibility incurred.

Payment by country of origin if country of destination delays nine months.

12. Except in cases where payment is exceptionally deferred as provided in the foregoing section, the country of origin is authorised to pay indemnity on behalf of the country of destination if that country has, after being duly informed of the application for indemnity, let nine months pass without settling the matter.

Country responsible.

13. The obligation of paying the indemnity shall rest with the country to which the mailing office is subordinate. That country can make a claim on the country responsible, that is to say, against the Administration on the territory or in the service of which the loss, reifling, or damage took place.

Repayment to country which pays.

14. The country responsible for the loss, rifling or damage and on whose account payment is made is bound to repay to the country making payment on its behalf, without delay and within not more than nine months after receiving notice of payment, the amount of indemnity paid.

Reimbursement on gold basis.

15. Reimbursements for indemnity from one country to the other shall be made on the gold basis.

17. Until the contrary is proved, responsibility for a registered or insured parcel rests with the country which having received the parcel without making any observation and being furnished all necessary particulars for inquiry is unable to show its proper disposition.

Despatching office responsible if loss discovered by receiving office.

18. Responsibility for loss, rifling, or damage of a registered or insured parcel discovered by the receiving office of exchange at the time of opening the receptacles and duly notified to the despatching office of exchange by bulletin of verification, shall fall upon the Administration to which the despatching office of exchange is sub-

ordinate unless it is proved that the loss, rifling, or damage occurred in the service of the receiving Administration.

Sender responsible for properly packing, etc.

19. The responsibility of properly enclosing, packing, and sealing registered and insured parcels rests upon the sender, and the postal service of neither country will assume liability for the loss, rifling, or damage arising from defects which may not be observed at the time of posting.

ARTICLE II.

(1) His Majesty the King of the Belgians agrees that Belgium will raise no objection to the boarding of private vessels under the Belgian flag outside the limits of territorial waters by the authorities of the United States, its territories or possessions in order that enquiries may be addressed to those on board and an examination be made of the ship's papers for the purpose of ascertaining whether the vessel or those on board are endeavoring to import or have imported alcoholic beverages into the United States, its territories or possessions in violation of the laws there in force. When such enquiries and examination show a reasonable ground for suspicion, a search of the vessel may be effected.

(2) If there is reasonable cause for belief that the vessel has committed or is committing or attempting to commit an offense against the laws of the United States, its territories or possessions prohibiting the importation of alcoholic beverages, the vessel may be seized and taken into a port of the United States, its territories or possessions for adjudication in accordance with such laws.

(3) The rights conferred by this article shall not be exercised at a greater distance from the coast of the United States, its territories or possessions than can be traversed in one hour by the vessel suspected of endeavoring to commit the offense. In cases, however, in which the liquor is intended to be conveyed to the United States, its territories or possessions by a vessel other than the one boarded and searched, it shall be the speed of such other vessel and not the speed of the vessel boarded, which shall determine the distance from the coast at which the right under this article can be exercised.

ARTICLE II.

Boarding of Belgium vessels outside limits for inquiry, etc., not objected to.

(1) Sa Majesté le Roi des Belges accepte que la Belgique n'élève aucune objection à ce que les navires privés, sous pavillon belge, soient abordés, en dehors des limites des eaux territoriales, par les autorités des Etats-Unis, leurs territoires ou possessions, afin que des questions puissent être posées aux personnes se trouvant à bord et qu'un examen soit fait des papiers de bord, en vue de vérifier si le navire ou les personnes à bord, s'efforcent d'importer ou ont importé des boissons alcooliques aux Etats-Unis, leurs territoires ou possessions contrairement aux lois qui y sont en vigueur. Lorsque de telles questions et examen donneront des causes raisonnables de suspicion, une visite du navire pourra être effectuée.

Search of vessel on reasonable ground for suspicion.

Seizure of vessel believed to be violating American prohibition laws.

(2) S'il existe une cause raisonnable de croire que le navire a commis ou est en train de commettre ou d'essayer de commettre une infraction aux lois des Etats-Unis, leurs territoires ou possessions prohibant l'importation des boissons alcooliques, le navire pourra être saisi et conduit dans un port des Etats-Unis, leurs territoires ou possessions, pour qu'il en soit décidé conformément aux dites lois.

Distance from coast limited for boarding, etc., vessels.

(3) Les droits conférés par cet article ne seront pas exercés à une distance de la côte des Etats-Unis, leurs territoires ou possessions, supérieure à celle qui peut être traversée en une heure par le navire suspecté de tâcher de commettre cette infraction. Dans le cas, toutefois, où l'intention serait que le liquide fût transporté aux Etats-Unis, leurs territoires ou possessions par un navire autre que celui qui aurait été abordé ou visité, ce serait la vitesse de cet autre navire et non celle du navire abordé qui servirait à déterminer la distance à partir de la côte jusqu'où le droit dérivant de cet article pourrait être exercé.

Extension if liquor conveyed by other vessel.

## ARTICLE III.

Liquors listed as sea stores or cargo for a foreign port not subject to penalties, etc.

No penalty or forfeiture under the laws of the United States shall be applicable or attach to alcoholic liquors or to vessels or persons by reason of the carriage of such liquors, when such liquors are listed as sea stores or cargo destined for a port foreign to the United States, its territories or possessions on board Belgian vessels voyaging to or from ports of the United States, or its territories or possessions or passing through the territorial waters thereof, and such carriage shall be as now provided by law with respect to the transit of such liquors through the Panama Canal, provided that such liquors shall be kept under seal continuously while the vessel on which they are carried remains within said territorial waters and that no part of such liquors shall at any time or place be unladen within the United States, its territories or possessions.

To be kept under seal while in American waters.

## ARTICLE III.

Aucune pénalité ou confiscation d'après les lois des Etats-Unis ne sera applicable aux liqueurs alcooliques ou aux navires ou personnes, en raison du transport de telles liqueurs quand lesdites liqueurs seront inscrites comme approvisionnements de mer ou comme cargaison destinée à un port en dehors des Etats-Unis, leurs territoires ou possessions, à bord de navires belges voyageant vers un port des Etats-Unis, leurs territoires ou possessions, ou en venant, ou traversant leurs eaux territoriales; et un tel transport sera considéré comme il est actuellement prescrit par la loi pour ce qui regarde le transit de telles liqueurs par le Canal de Panama, pourvu que lesdites liqueurs soient maintenues sous scellé, de manière continue, pendant le temps que le navire demeurera dans lesdites eaux territoriales et qu'aucune partie desdites liqueurs ne soit en aucun lieu ou moment débarquée aux Etats-Unis ou leurs territoires ou possessions.

## ARTICLE IV.

Action on claims for loss, etc.

Any claim by a Belgian vessel for compensation on the grounds that it has suffered loss or injury through the improper or unreasonable exercise of the rights conferred by Article II of this Convention or on the ground that it has not been given the benefit of Article III shall be referred for the joint consideration of two persons, one of whom shall be nominated by each of the High Contracting Parties.

*Ante*, p. 2457.

Reference to Permanent Court of Arbitration.

Effect shall be given to the recommendations contained in any such joint report. If no joint report can be agreed upon, the claim shall be referred to an umpire selected by the two Governments; should they fail to agree on the choice of that umpire, it shall be referred to the Permanent Court of Arbitration at The Hague described in the Convention for the Pacific Settle-

Vol. 36, p. 2221.

## ARTICLE IV.

Toute demande par un navire belge, de compensation, fondée sur une perte ou dommage qu'il aurait subis par suite d'un exercice indû ou déraisonnable des droits conférés par l'article II de cette convention ou sur le fait qu'il n'aurait pas été admis au bénéfice de l'article III, sera référée pour examen conjoint à deux personnes, chacune des Hautes Parties Contractantes désignant l'une d'elles.

Suite sera donnée aux recommandations contenues dans tout semblable rapport conjoint. Si l'entente n'a pu se faire sur aucun rapport conjoint, la réclamation sera soumise à un tiers arbitre choisi par les deux Gouvernements; si l'accord ne pouvait se faire entre eux sur le choix de cet arbitre, elle sera soumise à la Cour permanente d'arbitrage de La Haye décrite dans la conven-

ment of International Disputes, concluded at The Hague October 18, 1907. The Arbitral Tribunal shall be constituted in accordance with Article 87 (Chapter IV) and with Article 59 (Chapter III) of the said Convention. The proceedings shall be regulated by so much of Chapter IV of the said Convention and of Chapter III thereof (special regard being had for Articles 70 and 74, but excepting Articles 53 and 54) as the Tribunal may consider to be applicable and to be consistent with the provisions of this agreement. All sums of money which may be awarded by the Tribunal on account of any claim shall be paid within eighteen months after the date of the final award without interest and without deduction, save as hereafter specified. Each Government shall bear its own expenses. The expenses of the Tribunal shall be defrayed by a ratable deduction of the amount of the sums awarded by it, at a rate of five per cent. on such sums, or at such lower rate as may be agreed upon between the two Governments; the deficiency, if any, shall be defrayed in equal moieties by the two Governments.

tion pour le réglement pacifique des différends internationaux, conclue à La Haye le 18 octobre 1907. Le tribunal arbitral sera constitué conformément à l'article 87 (chapitre IV) et à l'article 59 (chapitre III) de ladite convention. La procédure sera réglée d'après telles parties du chapitre IV et du chapitre III de ladite convention (attention spéciale étant prêtée aux articles 70 et 74, mais les articles 53 et 54 étant exclus) que le tribunal pourra considérer comme applicables et comme cadrant avec les dispositions de cet arrangement. Toutes les sommes d'argent qui pourront être accordées par le tribunal à cause d'une réclamation seront payées dans les 18 mois après la date de la décision finale, sans intérêts et sans déduction, sauf ainsi qu'il va être spécifié. Chaque Gouvernement pourvoira à ses propres dépenses. Les dépenses du tribunal seront couvertes par une déduction proportionnelle du total des sommes allouées par lui, au taux de cinq pour cent sur lesdites sommes, ou à tels taux moins élevés sur lesquels les deux Gouvernements pourraient tomber d'accord; le déficit, s'il y en avait, serait couvert par moitiés égales par les deux Gouvernements.

Prompt notification recommended.

ART. 8.—Le prompt et sincère accomplissement des prescriptions qui précèdent étant d'une importance primordiale, les Gouvernements reconnaissent la nécessité de donner aux autorités qualifiées des instructions pour l'application de ces prescriptions.

Application of restrictions.

*Post*, p. 2518.

ART. 10.—La notification des cas importés de peste, de choléra ou de fièvre jaune n'entraîne pas, vis-a-vis des provenances de la circonscription dans laquelle ils se sont produits, l'application des mesures prévues au chapitre II ci-après.

Mais lorsqu'un premier cas reconnu non importé de peste ou de fièvre jaune s'est manifesté, que les cas de choléra forment foyer [1], que le typhus exanthématique ou la variole existent sous forme épidémique, ces mesures peuvent être appliquées.

Limiting restrictions, etc.

Conditions.

Mais cette restriction limitée à la circonscription atteinte ne doit être acceptée qu'à la condition formelle que le Gouvernement du pays dont cette circonscription fait partie prenne les mesures néces-

saires: 1° pour combattre l'extension de l'épidémie; et 2° pour appliquer les mesures prescrites à l'article 13 ci-après.

Notice when danger from infection has ceased.

ART. 12.—Le Gouvernement de tout pays où est située une région atteinte informera les autres Gouvernements ainsi que l'Office International d'Hygiène publique, dans les conditions spécifiées à l'article 3, lorsque le danger d'infection, provenant de cette région, aura cessé et lorsque toutes les mesures prophylactiques auront été prises. A partir de cette information, les mesures prévues au chapitre II ne pourront plus être appliquées aux provenances de la région dont il s'agit, sauf circonstances exceptionnelles dont il devra être justifié.

5° En cas de typhus exanthématique, pour assurer, avant leur embarquement, l'épouillage de toutes personnes suspectes;

Sanitary service at ports.

ART. 14.—Les Gouvernements s'engagent à entretenir dans leurs grands ports et dans les environs, et autant que possible dans les autres ports et les environs, des services sanitaires possédant une organisation et un outillage capables d'assurer l'application des mesures prophylactiques concernant les maladies visées par la présente Convention, notamment les mesures prévues aux articles 6, 8 et 13.

Sanitary inspection of ships on arrival.

ART. 15.—Les autorités sanitaires peuvent procéder à la visite médicale et, si les circonstances l'exigent, à un examen approfondi de tout navire, quelle que soit sa provenance.

Les mesures ou les opérations sanitaires auxquelles peut être soumis un navire à l'arrivée sont déterminées par la constatation de l'état de fait existant à bord et des particularités sanitaires du voyage.

Procedure.

*Ante* p. 2498.

*Supra.*

Il appartient à chaque Gouvernement, ayant égard aux renseignements fournis conformément aux dispositions de la section I du chapitre Ier et de l'article 14 de la présente Convention, ainsi qu'aux obligations lui incombant en vertu de la section II du chapitre Ier, de fixer le régime auquel seront soumis dans ses ports les provenances de tout

port étranger, et notamment de décider si, au point de vue dudit régime, un port étranger doit être considéré comme atteint.

Les mesures, telles qu'elles sont prévues au présent chapitre, doivent être interprêtées comme constituant un maximum, dans les limites duquel les Gouvernements peuvent réglementer le traitement des navires à l'arrivée.

*Section I.*—COMMUNICATIONS DES MESURES PRESCRITES.

Communication of prescribed measures.

ART. 16.—Tout Gouvernement est tenu de communiquer immédiatement à la mission diplomatique ou, à défaut, au consul du pays atteint, résidant dans sa capitale, ainsi qu'à l'Office International d'Hygiène publique, qui devra les porter aussitôt à la connaissance des autres Gouvernements, les mesures qu'il croit devoir prescrire à l'égard des provenances de ce pays. Ces informations seront tenues également à la disposition des autres représentants diplomatiques ou consulaires établis sur son territoire.

Il est également tenu de faire connaître, par les mêmes voies, le retrait de ces mesures ou les modifications dont elles seraient l'objet.

A défaut de mission diplomatique ou de consulat dans la capitale, les communications sont faites directement au Gouvernement du pays intéressé.

Merchandise and baggage.

*Section II.*—MARCHANDISES ET BAGAGES.—IMPORTATION ET TRANSIT.

Entry, etc.

ART. 17.—Sous réserve des stipulations du dernier alinéa de l'article 50, les marchandises et bagages arrivant par terre ou par mer ne peuvent être prohibés à l'entrée ou pour le transit, ni retenus aux frontières ou dans les ports. Les seules mesures qu'il soit permis de prescrire à leur égard sont spécifiées dans les paragraphes suivants:

Prescriptive measures.

In case of plague.

*a.* En cas de peste, on peut soumettre à la désinsectisation et, s'il y a lieu, à la désinfection les linges de corps, hardes et vêtements récemment portés (effets à usage), les literies ayant récemment servi.

Les marchandises en provenance d'une circonscription atteinte et susceptibles de renfermer des rats pesteux ne peuvent être déchargées qu'à la condition de prendre, autant que possible, les précautions nécessaires pour empêcher que les rats ne puissent s'en échapper et pour qu'ils soient détruits.

Cholera.

*b.* En cas de choléra, on peut soumettre à la désinfection les linges de corps, hardes et vètements récemment portés (effets à usage), les literies ayant récemment servi.

Par dérogation aux dispositions du présent article, les poissons, coquillages et légumes frais peuvent être prohibés, à moins qu'ils n'aient été l'objet d'un traitement de nature à détruire le vibrion cholérique.

Typhus.

*c.* En cas de typhus exanthématique, on peut soumettre à la désinsectisation les linges de corps, hardes et vêtements portés (effets à usage), les literies ayant servi, ainsi que les chiffons non transportés comme marchandises en gros.

Smallpox.

*d.* En cas de variole, on peut soumettre à la désinfection les linges de corps, hardes et vêtements récemment portés (effets à usage), les literies ayant récemment servi, ainsi que les chiffons non transportés comme marchandises en gros.

Methods of disinfection, etc.

ART. 18.—Le mode et le lieu de la désinfection, ainsi que les procédés à employer pour assurer la destruction des rats ou des insectes (puces, poux, moustiques, etc.), sont fixés par l'autorité du pays de destination. Ces opérations doivent être faites de manière à ne détériorer les objets que le moins possible. Les hardes et autres objets de peu de valeur peuvent être détruits par le feu, ainsi que les chiffons, sauf s'ils sont transportés comme marchandises en gros.

Il appartient à chaque État de régler la question relative au payement éventuel de dommages-intérêts résultant de la désinfection, de la dératisation ou de la désinsectisation, ainsi que de la destruction des objets ci-dessus visés. Compensation for damage.

Si, à l'occasion de ces opérations, des taxes sont perçues par l'autorité sanitaire, soit directement, soit par l'intermédiaire d'une société ou d'un particulier, ces taxes doivent être fixées d'après un tarif publié d'avance et établi de façon qu'il ne puisse résulter de l'ensemble de son application une source de bénéfices pour l'État ou pour l'administration sanitaire. ### *Section III.*—DISPOSITIONS RELATIVES AUX ÉMIGRANTS.

Emigrants.

ART. 21.—Dans les pays d'émigration, les autorités sanitaires doivent procéder à l'examen sanitaire des émigrants avant leur départ. Medical inspection, etc., before departure.

Il est recommandé que des arrangements spéciaux interviennent entre pays d'émigration, d'immigration et de transit, en vue d'établir les conditions auxquelles cet examen doit satisfaire, afin que soient réduites au minimum les possibilités de refoulement à la frontière des pays de transit et de destination, pour des raisons sanitaires.

Il est également recommandé que ces arrangements fixent les mesures préventives contre les maladies infectieuses auxquelles devraient être soumis les émigrants au pays de départ.

ART. 22.—Il est recommandé que les villes ou les ports d'embarquement des émigrants possèdent une organisation hygiénique et sanitaire appropriée et, en particulier: 1° un service de surveillance et d'assistance médicale, ainsi que le matériel sanitaire et prophylactique nécessaire; 2° un établissement, surveillé par l'État, où les émigrants puissent subir les formalités sanitaires, être logés temporairement et être soumis à toutes les visites médicales nécessaires ainsi qu'à l'examen de leurs boissons et de leurs aliments; 3° un local, situé dans le port, où seront effectuées les visites médicales au moment des opérations définitives d'embarquement. Sanitary administrations at ports, etc., of embarkation.

ART. 23.—Il est recommandé que les navires à émigrants soient munis d'une provision suffisante de vaccins (antivariolique, anticholérique, etc.) pour pouvoir procéder, si nécessaire, aux vaccinations en cours de route. Vaccines on emigrant ships.

3° Ou à bord duquel on a constaté la présence de rats pesteux.

Est considéré comme *suspect* le navire:

1° Sur lequel un cas de peste humaine s'est déclaré dans les six premiers jours après l'embarquement; Suspected.

2° Ou pour lequel les recherches concernant les rats ont mis en évidence l'existence d'une mortalité insolite dont la cause n'est pas déterminée.

Le navire suspect reste considéré comme tel jusqu'au moment où, dans un port convenablement outillé, il a été soumis à l'application des mesures prescrites par la présente Convention.

Uninfected.

Est considéré comme *indemne*, bien que venant d'un port atteint, le navire qui n'a pas eu à bord de peste humaine ou murine soit au moment du départ, soit pendant la traversée, soit au moment de l'arrivée, et à bord duquel les recherches concernant les rats n'ont pas fait constater l'existence d'une mortalité insolite.

Measures for plagued infected ships.

ART. 25.—Les navires infectés de peste sont soumis au régime suivant:

Personal.

1° Visite médicale;

2° Les malades sont immédiatement débarqués et isolés;

3° Toures les personnes qui ont été en contact avec les malades et celles que l'autorité sanitaire du port a des raisons de considérer comme suspectes sont débarquées, si possible. Elles peuvent être soumises soit à l'observation, soit à la surveillance, soit à une observation suivie de surveillance (1), sans que la durée totale de ces mesures puisse dépasser six jours, à dater de l'arrivée du navire.

Il appartient à l'autorité sanitaire du port d'appliquer celle de ces mesures qui lui paraît préférable selon la date du dernier cas, l'état du navire et les possibilités locales. On peut, pendant le même laps de temps, empêcher le débarquement de l'équipage, sauf pour raisons de service portées à la connaissance de l'autorité sanitaire;

Disinsectising, and disinfecting soiled linen, etc.

Rat destruction.

6° L'autorité sanitaire peut prescrire une dératisation avant le déchargement, si elle estime que, d'aprés la nature de la cargaison et sa disposition, il est possible d'effectuer la destruction totale des rats sans déchargement. Dans ce cas, le navire ne pourra pas être soumis à une nouvelle dératisation après déchargement. Dans les autres cas, la destruction complète des rongeurs devra être effectuée sur le navire en cales vides. Pour les navires sur lest, cette opération sera faite le plus tôt possible avant le chargement.

La dératisation devra être effectuée de manière à éviter le plus possible des dommages au navire et, éventuellement, à la cargaison. L'opération ne devra pas durer plus de vingt-quatre heures. Tous frais afférents aux opérations de dératisation, ainsi que toutes indemnités éventuelles, seront réglés conformément aux principes établis à l'article 18.

Discharge of cargo.

Si le navire ne doit décharger qu'une partie de sa cargaison et si les autorités du port considèrent qu'il n'est pas possible de procéder à une dératisation complète, ledit navire pourra rester dans le port le temps nécessaire pour décharger cette partie de sa cargaison, pourvu que toutes les précautions, y compris l'isolement, soient prises à la satisfaction de l'autorité sanitaire, pour empêcher les rats de passer du navire à terre, à la faveur du déchargement des marchandises ou autrement.

---

(1) Dans tous les cas où la présente Convention prévoit la surveillance, l'autorité sanitaire peut appliquer l'observation, à titre exceptionnel, aux personnes qui ne présentent pas des garanties sanitaires suffisantes.

Les personnes soumises à l'observation ou à la surveillance doivent se prêter à toutes recherches cliniques ou bactériologiques que l'autorité sanitaire juge nécessaires.

Le déchargement s'effectuera sous le contrôle de l'autorité sanitaire, qui prendra toutes les mesures nécessaires afin d'éviter que le personnel employé soit infecté. Ce personnel sera soumis à une observation ou à une serveillance qui ne pourront pas dépasser six jours à partir du moment où il aura cessé de travailler au déchargement.

Uninfected ships.

ART. 27.—Les navires indemnes de peste sont admis à la libre pratique immédiate, sous la réserve que l'autorité sanitaire du port d'arrivée peut prescrire à leur égard les mesures suivantes:

Ils reçoivent, dans le premier cas, des certificats de dératisation et, dans le second, des certificats d'exemption de la dératisation.

Les Gouvernements doivent faire connaître, par l'intermédiare de l'Office International d'Hygiène publique, ceux de leurs ports possédant l'outillage et le personnel nécessaires pour effectuer la dératisation des navires.

Issue of deratisation, and deratisation exemption, certificates.

Les certificats de dératisation, on d'exemption de la dératisation, seront délivrés exclusivement par les autorités sanitaires des ports mentionnés ci-dessus. La durée de validité de ces certificats sera de six mois. Toutefois, une tolérance supplémentaire d'un mois est autorisée pour les navires rejoignant leur port d'attache.

La dératisation devra être effectuée de manière à éviter le plus possible des dommages au navire et, éventuellement, à la cargaison. L'opération ne devra pas durer plus de vingt-quatre heures. Pour les navires sur lest, elle devra être effectuée avant le chargement. Tous frais afférents aux opérations de dératisation, ainsi que toutes indemnités éventuelles, seront réglés conformément aux principes établis à l'article 18;

Yearly statement to Public Hygiene Office.

Les certificats de dératisation et les certificats d'exemption de la dératisation seront rédigés, autant que possible, de façon uniforme.

Des modèles pour ces certificats seront préparés par l'Office International d'Hygiène publique.

L'autorité compétente de tout pays s'engage à fournir chaque année, à l'Office International d'Hygiène publique, un état des mesures prises en application du présent article, ainsi que le nombre des navires qui ont été soumis à la dératisation ou auxquels ont été accordés des certificats d'exemption de la dératisation, dans les ports mentionnés au deuxième alinéa du présent article.

L'Office International d'Hygiène publique est invité à prendre, conformément à l'article 14, toutes dispositions pour assurer l'échange d'informations relatives aux mesures prises en application du présent article, ainsi qu'aux résultats obtenus.

Treatment of arrivals from a country having preventive measures.

ART. 46.—Il est recommandé que les Gouvernement tiennent compte, dans le traitement à appliquer aux provenances d'un pays, des mesures que ce dernier a prises pour combattre les maladies infectieuses et pour en empêcher la transmission à d'autres pays.

Special arrangements.

Les navires en provenance de ports qui satisfont aux conditions indiquées aux articles 14 et 51 n'ont pas droit, seulement par ce fait, à des avantages spéciaux au port d'arrivée; mais les Gouvernements s'engagent à tenir le plus grand compte des mesures déjà prises dans ces ports, en sorte que, pour les navires qui en proviennent, toutes les mesures à prendre au port d'arrivée soient réduites au minimum. A cet effet et en vue de causer le moins de gêne possible à la navigation, au commerce et au trafic, il est recommandé que des arrangements spéciaux, dans le cadre prévu à l'article 57 de la présente Convention, soient conclus dans tous les cas où cela pourra paraître avantageux.

N'est pas considéré comme ayant fait escale dans un port le navire qui, sans avoir été en communication avec la terre ferme, a débarqué seulement des passagers et leurs bagages ainsi que la malle postale, ou embarqué seulement la malle postale ou des passagers, munis ou non de bagages, qui n'ont pas communiqué avec ce port ni avec une circonscription contaminée. S'il s'agit de fièvre jaune, le navire doit, en outre, s'être tenu autant que possible à au moins 200 mètres de la terre habitée et à une distance des pontons telle qu'elle rende peu probable l'accès des *Stegomyia*.

ART. 48.—L'autorité du port qui applique des mesures sanitaires délivre gratuitement au capitaine, ou à toute autre personne intéressée, toutes les fois que la demande en est faite, un certificat spécifiant la nature des mesures, les méthodes employées, les parties du navire traitées et les raisons pour lesquelles les mesures ont été appliquées.

En outre, il est recommandé que tous les grands ports de navigation maritime soient outillés de telle façon qu'au moins les navires indemnes puissent y subir, dès leur arrivée, les mesures sanitaires prescrites et ne soient pas envoyés, à cet effet, dans un autre port.

Tout navire infecté ou suspect qui arrive dans un port non outillé pour le recevoir doit, à ses risques et périls, se diriger vers l'un des ports ouverts aux navires de sa catégorie.

Le navire peut aussi embarquer du combustible, des vivres et de l'eau tout en restant isolé.

Sanitary tariff.

ART. 55.—Chaque Gouvernement s'engage à n'avoir qu'un seul et même tarif sanitaire, qui devra être publié et dont les taxes devront être modérées. Ce tarif sera appliqué dans les ports à tous les navires, sans distinction entre le pavillon national et les pavillons étrangers; et aux ressortissants étrangers dans les mêmes conditions qu'aux nationaux.

International coasting traffic.

*Ante*, p. 2505.

Ces mesures devront être notifiées immédiatement au pays voisin intéressé.

Par dérogation aux dispositions du présent article, pourront être retenues aux frontières terrestres, en observation, pendant une période qui ne dépassera pas sept jours à compter de l'arrivée, les personnes ayant été en contact avec un malade atteint de peste pneumonique.

Les personnes ayant été en contact avec un malade atteint de typhus exanthématique pourront être soumises à l'épouillage.

Trains from infected areas.

ART. 59.—Il importe que, dans les trains en provenance d'une circonscription atteinte, les voyageurs soient soumis, en cours de route, au point de vue de leur état de santé, à une surveillance de la part du personnel des chemins de fer.

L'intervention médicale se borne à une visite des voyageurs et aux soins à donner aux malades et, s'il y a lieu, à leur entourage. Si cette visite se fait, elle est combinée, autant que possible, avec la visite douanière, de manière que les voyageurs soient retenus le moins longtemps possible.

ART. 60.—Les voitures de chemins de fer qui circulent dans les pays où existe la fièvre jaune doivent être aménagées de façon à se prêter aussi peu que possible au transport du *Stegomyia*. Cars in yellow fever countries.

Les dispositions du présent alinéa ne sont pas applicables aux émigrants, sous réserve des dispositions de l'article 21. Special measures in exceptional cases. *Ante*, p. 2503.

Ces mesures peuvent comprendre l'établissement, aux frontières, de stations sanitaires équipées de manière à pouvoir assurer la surveillance et éventuellement l'observation des personnes dont il s'agit, ainsi que l'examen médical, la désinfection, la désinsectisation et la vaccination.

Autant que possible, ces mesures exceptionnelles devraient faire l'objet d'arrangements spéciaux entre pays limitrophes.

ART. 63.—Les voitures affectées au transport des voyageurs, de la poste et des bagages, ainsi que les wagons de marchandises, ne peuvent être retenus aux frontières. No detention of railway cars.

Toutefois, s'il arrive qu'une de ces voitures soit contaminée ou ait été occupée par un malade atteint de peste, de choléra, de typhus exanthématique ou de variole, elle sera retenue le temps nécessaire pour être soumise aux mesures prophylactiques indiquées dans chaque cas. Infected cars.

Sanitary, Maritime and Quarantine Board of Egypt.

### I.—CONSEIL SANITAIRE MARITIME ET QUARANTENAIRE D'ÉGYPTE.

Former stipulations confirmed.

ART. 163.—Sont confirmées les stipulations de l'Annexe III de la Convention sanitaire de Venise du 30 janvier 1892, concernant la composition, les attributions et le fonctionnement du Conseil sanitaire maritime et quarantenaire d'Égypte, telles qu'elles résultent des décrets khédiviaux des 19 juin 1893 et 25 décembre 1894, ainsi que de l'arrêté ministériel du 19 juin 1893.

Lesdits décrets et arrêtés demeurent annexés à la présente Convention.

Composition.

Nonobstant les prévisions desdits décrets et arrêtés, les Hautes Parties Contractantes sont convenues de ce qui suit:

I. Le nombre des délégués égyptiens au sein du Conseil sanitaire maritime et quarantenaire sera porté à cinq:

1° Le Président du Conseil, nommé par le Gouvernement égyptien, et qui ne votera qu'en cas de partage des voix;

2° Un docteur en médicine européen, inspecteur général du Service sanitaire maritime et quarantenaire;

3° Trois délégués nommés par le Gouvernement égyptien.

Veterinary service transferred.

II. Le Service vétérinaire du Conseil sanitaire maritime et quarantenaire sera transféré au Gouvernement égyptien.

Conditions.

Les conditions suivantes seront observées:

1° Le Gouvernement égyptien percevra sur les bestiaux importés au maximum les taxes sanitaires actuellement perçues par le Conseil sanitaire maritime et quarantenaire.

2° Le Gouvernement égyptien s'engage, en conséquence, à verser annuellement au Conseil sanitaire maritime et quarantenaire une somme représentant la moyenne de l'excédent des recettes sur les dépenses dudit service durant les trois dernières années budgétaires précédant la date de la mise en vigueur de la présente Convention.

3° Les mesures à prendre pour désinfecter les bateaux à bestiaux, les peaux et débris d'animaux seront assurées, comme dans le passé, par l'entremise dudit Conseil sanitaire maritime et quarantenaire.

4° Le personnel étranger actuellement au service vétérinaire du Conseil sanitaire maritime et quarantenaire d'Egypte sera admis à bénéficier des compensations accordées par la loi n° 28 de 1923, relative aux conditions de service et de mise á la retraite ou licenciement des fonctionnaires, employés ou agents de nationalités étrangères.

L'échelle de ces compensations sera celle prévue par la loi susdite. Les autres détails seront fixés par un accord entre le Gouvernement égyptien et le Conseil sanitaire maritime et quarantenaire.

Sanitary administration at Souakim.

III. Vu la grande distance qui sépare le port de Souakim du siège du Conseil sanitaire maritime et quarantenaire d'Egypte, à Alexandrie, et le fait que les pèlerins et passagers qui débarquent dans le port de Souakim n'intéressent, au point de vue sanitaire, que le territoire du Soudan, l'administration sanitaire du port de Souakim sera détachée dudit Conseil.

Payment of ordinary expenses.

ART. 164.—Les dépenses ordinaires résultant des dispositions de la présente Convention, relatives notamment à l'augmentation du personnel relevant du Conseil sanitaire maritime et quarantenaire d'Egypte, sont couvertes à l'aide d'un versement annuel complémentaire, par le Gouvernement égyptien, d'une somme de quatre mille livres égyptiennes, qui pourrait être prélevée sur l'excédent du service des phares resté à la disposition de ce Gouvernement.

Toutefois, il sera déduit de cette somme le produit d'une taxe quarantenaire supplémentaire de 10 P. T. (piastres tarif) par pèlerin, à prélever à El-Tor.

Au cas où le Gouvernement égyptien verrait des difficultés à supporter cette part dans les dépenses, les Puissances représentées au Conseil sanitaire maritime et quarantenaire s'entendraient avec ce Gouvernement pour assurer la participation de ce dernier aux dépenses prévues.

Revision, etc., of regulations.

ART. 165.—Le Conseil sanitaire maritime et quarantenaire d'Egypte est chargé de mettre en concordance avec les dispositions de la présente Convention les règlements actuellement appliqués par lui concernant la peste, le choléra et la fièvre jaune, ainsi que le règlement relatif aux provenances des ports arabiques de la Mer Rouge, à l'époque du pèlerinage.

Il revisera, s'il y a lieu, dans le même but, le règlement général de police sanitaire maritime et quarantenaire présentement en vigueur.

Ces règlements, pour devenir exécutoires, doivent être acceptés par les diverses Puissances représentées au Conseil.

Miscellaneous.

### II.—DISPOSITIONS DIVERSES.

Use of sanitary taxes, etc.

ART. 166.—Le produit des taxes et des amendes sanitaires perçues par le Conseil sanitaire maritime et quarantenaire ne peut, en aucun cas, être employé à des objets autres que ceux relevant dudit Conseil.

Instructions to captains.

ART. 167.—Les Hautes Parties Contractantes s'engagent à faire rédiger, par leurs administrations sanitaires, une instruction destinée à mettre les capitaines des navires, surtout lorsqu'il n'y a pas de médecin à bord, en mesure d'appliquer les prescriptions contenues dans la présente Convention en ce qui concerne la peste, le choléra et la fièvre jaune.

ART. 172.—Chacune des Hautes Parties Contractantes pourra déclarer, soit au moment de sa signature, soit au moment du dépôt des ses ratifications ou de son adhésion, que son acceptation de la présente Convention n'engage pas, soit l'ensemble, soit tel de ses protectorats, colonies, possessions ou territoires sous mandat, et pourra, ultérieurement et conformément à l'article précédent, adhérer

Sanitary Inspector General.

*De l'Inspecteur général sanitaire.*

les conditions prévues par l'article 19 du décret en date du 19 juin 1893.

*Ante*, p. 2533.

Il inspecte, au moins une fois par an chacun des offices, agences ou postes sanitaires.

En outre, le Président détermine, sur la proposition du Conseil et selon les besoins du service, les inspections auxquelles l'Inspecteur général devra procéder.

En cas d'empêchement de l'Inspecteur général, le Président désignera, d'accord avec le Conseil, le fonctionaire appelé à le suppléer.

Chaque fois que l'Inspecteur général a visité un office, une agence, un poste sanitaire, une station sanitaire ou un campement quarantenaire, il doit rendre compte à la Présidence du Conseil, par un rapport spécial, du résultat de sa vérification.

Dans l'intervalle de ses tournées, l'Inspecteur général prend part, sous l'autorité du Président, à la direction du service général. Il supplée le Président en cas d'absence ou d'empêchement.

## TITRE II.

Title II.

### Service des ports, stations quarantenaires, stations sanitaires.

Service at ports and stations.

ART. 10.—La police sanitaire, maritime et quarantenaire, le long du littoral égyptien de la Méditerranée et de la Mer Rouge, aussi bien que sur les frontières de terre du côté du désert, est confiée aux directeurs des offices de santé, directeurs des stations sanitaires ou campements quarantenaires, chefs des agences sanitaires ou chefs des postes sanitaires et aux employés placés sous leurs ordres.

Policing of Egyptian coasts.

ART. 11.—Les directeurs des offices de santé ont la direction et la responsabilité du service tant de l'office à la tête duquel ils sont placés que des postes sanitaires qui en dépendent.

Authority of directors of health officers.

Ils doivent veiller à la stricte exécution des règlements de police sanitaire, maritime et quarantenaire. Ils se conforment aux instructions qu'ils reçoivent de la Présidence du Conseil et donnent à tous les employés de leur office, aussi bien qu'aux employés des postes sanitaires qui y sont rattachés, les ordres et les instructions nécessaires.

Ils sont chargés de la reconnaissance et de l'arraisonnement des navires, de l'application des mesures quarantenaires, et ils procèdent, dans les cas prévus par les règlements, à la visite médicale, ainsi qu'aux enquêtes sur les contraventions quarantenaires.

Ils correspondent seuls pour les affaires administratives avec la Présidence, à laquelle ils transmettent tous les renseignements sanitaires qu'ils ont recueillis dans l'exercice de leurs fonctions.

ART. 12.—Les directeurs des offices de santé sont, au point de vue du traitement, divisés en deux classes:

Salaries of directors.

Les offices de 1re classe, qui sont au nombre de quatre:

Alexandrie;
Port-Saïd;
Bassin de Suez et campement aux Sources de Moise;
Tor;

Les offices de 2e classe, qui sont au nombre de trois:

Damiette;
Souakim;
Kosseir.

ART. 13.—Les chefs des agences sanitaires ont les mêmes attributions, en ce qui concerne l'agence, que les directeurs en ce qui concerne leur office.

Chiefs of agencies.

ART. 14.—Il y a une seule agence sanitaire, à El Ariche.

El Ariche agency.

ART. 15.—Les chefs des postes sanitaires ont sous leurs ordres les employés du poste qu'ils dirigent. Ils sont placés sous les ordres du directeur d'un des offices de santé.

Duties of chiefs of sanitary posts.

Ils sont chargés de l'exécution des mesures sanitaires et quarantenaires indiquées par les règlements.

Ils ne peuvent délivrer aucune patente et ne sont autorisés à viser que les patentes des bâtiments partant en libre pratique.

Restrictions.

Ils obligent les navires qui arrivent à leur échelle avec une patente brute ou dans des conditions irrégulières à se rendre dans un port où existe un office sanitaire.

Ils ne peuvent eux-mêmes procéder aux enquêtes sanitaires, mais ils doivent appeler à cet effet le directeur de l'office dont ils relèvent.

En dehors des cas d'urgence absolue, ils ne correspondent qu'avec ce directeur pour toutes les affaires administratives. Pour les affaires sanitaires et quarantenaires urgentes, telles que les mesures à prendre au sujet d'un navire arrivant, ou l'annotation à inscrire sur la patente d'un navire en partance, ils correspondent directement avec la Présidence du Conseil; mais ils doivent donner sans retard communication de cette correspondance au directeur dont ils dépendent.

Shipwrecks.

Ils sont tenus d'aviser, par les voies les plus rapides, la Présidence du Conseil des naufrages dont ils auront connaissance.

Sanitary posts.

ART. 16.—Les postes sanitaires sont au nombre de six, énumérés ci-après:

Postes du Port-Neuf, d'Aboukir, Brullos et Rosette, relevant de l'office d'Alexandrie;

Postes de Kantara et du port intérieur d'Ismaïlia, relevant de l'office de Port-Saïd.

Le Conseil pourra, suivant les nécessités du service, et suivant ses ressources, créer de nouveaux postes sanitaires.

Stations and camps intrusted to directors.

ART. 17.—Le service permanent ou provisoire des stations sanitaires et campements quarantenaires est confié à des directeurs, qui ont sous leurs ordres des employés sanitaires, des gardiens, des portefaix et des gens de service.

Authority conferred.

ART. 18.—Les directeurs sont chargés de faire subir la quarantaine aux personnes envoyées à la station sanitaire ou au campement. Ils veillent, de concert avec les médecins, à l'isolement des différents quarantenaires et empêchent toute compromission. A l'expiration du délai fixé, ils donnent la libre pratique ou la suspendent conformément aux règlements, font pratiquer la désinfection des marchandises et des effets à usage, et appliquent la quarantaine aux gens employés à cette opération.

Supervision of health matters.

ART. 19.—Ils exercent une surveillance constante sur l'exécution des mesures prescrites, ainsi que sur l'état de santé des quarantenaires et du personnel de l'établissement.

Responsibility, etc.

ART. 20.—Ils sont responsables de la marche du service, et en rendent compte, dans un rapport journalier, à la Présidence du Conseil sanitaire, maritime et quarantenaire.

Physicians at stations and camps.

ART. 21.—Les médecins attachés aux stations sanitaires et aux campements quarantenaires relèvent des directeurs de ces établissements. Ils ont sous leurs ordres le pharmacien et les infirmiers.

Ils surveillent l'état de santé des quarantenaires et du personnel et dirigent l'infirmerie de la station sanitaire ou du campement.

La libre pratique ne peut être donnée aux personnes en quarantaine qu'après visite et rapport favorable du médecin.

Director also an accounting officer.

ART. 22.—Dans chaque office sanitaire, station sanitaire ou campement quarantenaire, le directeur est aussi "agent comptable".

Il désigne, sous sa responsabilité personnelle effective, l'employé préposé à l'encaissement des droits sanitaires et quarantenaires.

Chiefs of agencies and posts.

Les chefs d'agences ou postes sanitaires sont également agents comptables: ils sont chargés personnellement d'effectuer la perception des droits.

Agents for collecting dues.

Les agents chargés du recouvrement des droits doivent se conformer, pour les garanties à présenter, la tenue des écritures, l'époque des

versements, et généralement tout ce qui concerne la partie financière de leur service, aux règlements émanant du Ministère des Finances.

ART. 23.—Les dépenses du Service sanitaire, maritime et quarantenaire seront acquittées par les moyens propres du Conseil, ou d'accord avec le Ministère des Finances, par le service des caisses qu'il designera. Defrayal of expenses.

# PROTOCOLE DE SIGNATURE

Protocol of signatures.

Les Plénipotentiaires soussignés se sont réunis à la date de ce jour à l'effet de procéder à la signature de la Convention Sanitaire Internationale. Meeting of plenipotentiaries.

Les Plénipotentiaires de l'Empire allemand, se référant à l'article 25, font des réserves expresses quant à la faculté attribuée par la Convention aux divers gouvernements d'imposer l'observation en cas de peste bubonique. Reservations made. German Empire.

Les Plénipotentiaires du Brésil déclarent être autorisés à signer la Convention *ad referendum* sous les réserves inscrites dans le procès-verbal de la dernière séance plénière. Brazil.

Les Plénipotentiaires du Chili déclarent s'associer aux réserves formulées par les Plénipotentiaires du Brésil et du Portugal. Chile.

Les Plénipotentiaires de la Chine font des réserves expresses, au nom de leur Gouvernement, quant à l'engagement figurant à l'article 8, 2e alinéa, de rendre obligatoire la déclaration des maladies visées dans la Convention. China.

Au nom de leur Gouvernement, les Plénipotentiaires d'Égypte renouvellent les réserves expresses qu'ils ont formulées quant à la présence à la Conférence d'un Délégué représentant le Soudan. Ils déclarent, par ailleurs, que cette présence ne saurait porter atteinte aux droits de souveraineté de l'Égypte. Egypt.

Les Plénipotentiaires de l'Espagne déclarent faire au nom de leur Gouvernement une réserve identique à celle des Plénipotantiaires des États-Unis d'Amérique relative à l'article 12. Spain. *Post*, p. 2547.

Les Plénipotentiaires des États-Unis d'Amérique déclarent formellement que la signature par eux de la Convention sanitaire internationale de ce jour ne doit pas être interprétée en ce sens que les États-Unis d'Amérique reconnaissent un régime ou une entité faisant fonction de Gouvernement d'une Puissance signataire ou adhérente alors que ce régime ou cette entité n'est pas reconnu par les États-Unis comme le Gouvernement de cette Puissance. Ils déclarent en outre que la participation des États-Unis d'Amérique à la Convention sanitaire internationale de ce jour n'entraîne aucune obligation contractuelle des États-Unis envers une Puissance signataire ou adhérente représentée par un régime ou une entité que les États-Unis ne reconnaissent pas comme correspondant au Gouvernement de cette Puissance, jusqu'au moment où elle sera représentée par un Gouvernement reconnu par les États-Unis. United States. *Post*, p. 2547.

Les Plénipotentiaires des États-Unis d'Amérique déclarent, d'autre part, que leur Gouvernement se réserve le droit de décider si, au point de vue des mesures à appliquer, une circonscription étrangère doit être considérée comme infectée, et de déterminer les mesures qui devront être appliquées dans des circonstances spéciales aux arrivées dans ses propres ports.

L'œuvre considérable accomplie par la Conférence Sanitaire Internationale et les nombreuses dispositions nouvelles qu'elle contient n'ayant pu être soumises par le télégraphe à Sa Majesté la Reine des Rois et à Son Altesse Impériale et Royale le Prince Tafari Makonnen, Héritier et Régent de l'Empire, le Délégué de l'Empire d'Éthiopie Ethiopian Empire.

déclare qu'il doit s'abstenir de signer la Convention, avant d'avoir reçu les instructions nécessaires.

British Empire.

Les Plénipotentiaires britanniques déclarent que leur signature ne lie aucune des parties de l'Empire britannique, membre distinct de la Société des Nations, qui ne signerait pas séparément la Convention ou qui n'y donnerait pas son adhésion.

Ils déclarent, en outre, réserver le droit de ne pas appliquer les dispositions du 2e alinéa de l'article 8 pour tous les Protectorats, Colonies, Possessions ou Pays sous mandat britannique qui seraient parties à la Convention et qui, pour des raisons d'ordre pratique, ne pourraient pas être en état de donner leur plein effet à ces dispositions relatives à la déclaration obligatoire des maladies visées au dit article.

Canada.

Le Délégué du Canada réserve pour son Gouvernement le droit de décider si, au point de vue des mesures à appliquer, une circonscription étrangère doit être considérée comme infectée et de déterminer les mesures qui devront être appliquées dans des circonstances spéciales aux arrivées dans les ports canadiens. Sous cette réserve, le Délégué du Canada déclare que son Gouvernement est prêt à prendre en considération les obligations de l'article 12 de la Convention et les renseignements officiels qu'il pourra recevoir au sujet de l'existence des maladies dans les pays étrangers.

India.

Le Délégué de l'Inde déclare qu'il est autorisé à signer la Convention Sanitaire Internationale sous la réserve que, pour des raisons d'ordre pratique, l'Inde n'est pas actuellement en état d'accepter l'obligation résultant de l'article 8 en ce qui concerne la déclaration obligatoire des maladies visées audit article, sauf dans les grandes villes ou en cas d'épidémie.

Les Plénipotentiaires britanniques déclarent et tiennent à faire constater que la réserves des Plénipotentiaires de la Perse sur l'article 90 ne peuvent en aucune façon modifier le statu quo actuel, en attendant un accord à intervenir entre les Gouvernements persan et britannique.

Finland.

Les Plénipotentiaires de la République finlandaise déclarent que, l'immunisation contre le choléra ne constituant pas une garantie suffisante, leur Gouvernement se réserve, nonobstant les dispositions de l'article 30, de soumettre à l'observation, le cas échéant, les personnes immunisées.

D'autre part, étant donné que le trafic par la frontière finlandaise ne peut emprunter que deux voies ferrées à l'Est, très voisines l'une de l'autre, et une seule voie ferrée à l'Ouest, ce qui ne permet pas d'envisager la fermeture partielle de la frontière, la Finlande, afin d'éviter la fermeture totale en cas d'épidémie, se réserve d'établir l'observation, le cas échéant, nonobstant les dispositions de l'article 58.

Japan.

Les Plénipotentiaires du Japon déclarent que leur Gouvernement se réserve la faculté: 1° de transmettre par l'entremise du bureau d'Orient de Singapour les notifications et renseignements dont l'envoi à l'Office International d'Hygiène publique est prescrit par la Convention; 2° de prendre les mesures que les autorités sanitaires jugent nécessaires en ce qui concerne les porteurs de vibrions cholériques.

Lithuania.

Les Plénipotentiaires de la Lithuanie déclarent que, tout en adhérant à la Convention, ils font des réserves expresses quant à sa mise en pratique entre la Lithuanie et la Pologne, tant que des relations normales entre les deux pays n'auront pas été rétablies.

Ces réserves présentent une importance particulière en ce qui concerne les dispositions des articles 9, 16, 57 et 66.

The Netherlands.

Les Plénipotentiaires des Pays-Bas déclarent au nom de leur Gouvernement que celui-ci se réserve, en ce qui concerne les Indes néerlandaises, de faire appliquer les mesures prévues à l'article 10, alinéa 2, également aux provenances de circonscriptions atteintes de *peste murine*.

Ils déclarent, en outre, que leur Gouvernement se réserve, en ce qui concerne les Indes néerlandaises, de donner à l'article 27–2° une

interprétation dans ce sens que la destruction des rats visée à cet article peut être appliquée aux navires qui ont une cargaison provenant d'une circonscription atteinte de peste murine, si l'autorité sanitaire juge que cette cargaison est susceptible de renfermer des rats et qu'elle est arrimée de manière à empêcher les recherches prévues au dernier alinéa de l'article 24.

Persia.

Les Plénipotentiaires de la Perse déclarent que rien ne justifie le maintien dans la Convention d'une disposition spéciale visant le Golfe Persique. Le fait que la Convention contient l'article 90, constituant la Section V du Titre II, les empêche de la signer sans faire les réserves les plus expresses. Les Plénipotentiaires de la Perse déclarent en outre que le *statu quo* ne saurait aucunement lier leur Gouvernement. Ils réservent, d'autre part, pour leur Gouvernement le droit de ne pas appliquer les dispositions de l'article 8 relatives á la déclaration obligatoire des maladies visées audit article.

Portugal.

Le Plénipotentiaire du Portugal déclare qu'il est autorisé par son Gouvernement á signer la Convention *ad referendum* sous les réserves inscrites dans le procès-verbal de la dernière séance plénière.

Turkey.

Le Plenipotentiaire de la Turquie déclare que la Turquie n'a renoncé par aucun traité à être représentée au Conseil sanitaire, maritime et quarantenaire d'Egypte. D'autre part, tenant compte des stipulations de la Convention des Détroits, signée à Lausanne, et des conditions spéciales des détroits du Bosphore et des Dardenelles, il réserve le droit pour l'Administration sanitaire de la Turquie de placer une garde sanitaire à bord de tout navire de commerce passant les détroits sans médécin et provenant d'un port infecté, afin d'éviter que le navire ne touche un port turc. Il est entendu, toutefois, que les retards et les frais que pourrait entraîner cette garde seront minimes.

Soviet Socialist Republic.

Les Plénipotentiaires de l'Union des Républiques Soviétistes Socialistes, rappelant la déclaration qu'ils ont faite, le 26 mai, à la séance de la première Commission au sujet de l'article 7 du projet de Convention, déclarent n'avoir pas d'objections à faire au sujet de la disposition relative au droit de l'Office International d'Hygiène Publique de conclure des arrangements avec d'autres organismes sanitaires; mais ils sont d'avis que ce droit résulte de l'arrangement de Rome de 1907 qui détermine les fonctions de l'Office. Ils estiment donc que la disposition ci-dessus visée, qui n'est que confirmation de ce droit, aurait dû figurer seulement dans le procès-verbal et ne pas constituer un article de la Convention elle-même.

Les Plénipotentiaires de l'Union des Républiques Soviétistes Socialistes rappellent que, lors de la discussion de l'article 12 de la Convention, ils ont voté contre la disposition qui prévoit le droit pour les Gouvernements de prolonger, dans des cas exceptionnels, l'application des mesures sanitaires, malgré la déclaration de l'Etat intéressé que le danger de la maladie n'existe plus.

Ils estiment que cette disposition pourrait toucher à un des principes fondamentaux des conventions antérieures et devenir la cause de malentendus pouvant surgir de son application.

Ils déclarent, en conséquence, que, dans l'esprit de la Convention, cette disposition ne peut être envisagée que dans des cas exceptionnels, quand le Gouvernement dont relève la circonscription atteinte ne remplit pas les obligations prévues par la Convention à ce sujet.

Les Plénipotentiaires des Républiques Soviétistes Socialistes rappellent les réserves qu'ils ont déjà faites dans la deuxième Commission au sujet des fonctions et des attributions du Conseil sanitaire, maritime et quarantenaire d'Égypte. Ils tiennent surtout à souligner qu'en particulier les Articles 70 et 164 donnent à ce Conseil le droit d'établir différents réglements de police sanitaire, maritime et quarantenaire sous la condition que ces réglements, pour devenir exécutoires, doivent être acceptés par les diverses Puissances représentées au Conseil.

Comme l'Union des Républiques Soviétistes Socialistes n'a pas encore de Représentant dans le Conseil sanitaire, maritime et quarantenaire d'Égypte, la Délégation de l'Union tient à réserver le droit de son Gouvernement d'accepter ou de ne pas accepter les mesures élaborées par ce Conseil.

Formal acknowledgment of reservations.

Les soussignés donnent acte des réserves ci-dessus exprimées et déclarent que leurs pays respectifs se réservent le droit d'en invoquer le bénéfice à l'égard des pays au nom desquels elles ont été formulées.

Notices to diplomatic, etc., officers.

The notifications contemplated in Articles I and II are to be addressed to the Diplomatic Missions or failing them to consular offices in the capital of the infected country and shall be held at the disposition of consular officers established in its territory.

To International Office of Public Hygiene.

These notifications shall also be addressed to the International Office of Public Hygiene which shall communicate them immediately to all diplomatic missions, or failing them, to the Consulates, in Paris, as well as to the principal public health authorities of the participating countries. Those prescribed under Article I shall be addressed by telegram.

Priority of telegrams.

The telegrams addressed by the International Office of Public Hygiene to the Governments of countries participating in the pres-

ent Convention or to the principal public health authorities of these countries, and the telegrams transmitted by these Governments and by these authorities under this Convention, are treated like State telegrams and enjoy the priority accorded to such telegrams by Article V of the International Telegraphic Convention of July 10/22, 1875.

ARTICLE 4.

Notices, etc., as to progress of the epidemic.

The notification and the information contemplated in Articles 1 and 2 shall be followed by subsequent communications sent regularly to the International Office of Public Hygiene so as to keep the Governments informed of the progress of the epidemic.

Requests from Public Hygiene Office.

The Governments undertake to reply to any request for information which is made to them by the International Office of Public Hygiene in regard to epidemic diseases mentioned in the Convention, which occur in their territory, and in regard to circumstances likely to affect the transmission of these diseases from one country to another.

ARTICLE 6.

Special provisions relative to rats.

Since rats[1] are the principal agents by which bubonic plague is spread, the Governments undertake to make use of all means in their power to diminish this danger and constantly to keep themselves informed of the condition of the rats in their ports as regards plague infection, by frequent and periodical examinations; and in particular to carry out the systematic collection and the bacteriological examination of rats in every plague-infected area, during a period of not less than six months from the finding of the last plague-infected rat.

The methods and the results of these examinations shall be communicated in ordinary circumstances at regular intervals, and in the case of plague every month, to the International Office of Public Hygiene in order that Governments may be kept uninterruptedly informed by that Office of the condition of ports in regard to plague amongst rats.

On the first discovery of plague among rats on land, in a port free from infection during the previous six months, the communications shall be sent by the most rapid ways.

ARTICLE 7.

Arrangements with other sanitary organizations.

In order to facilitate the fulfilment of duties put upon it by this Convention, and having regard to the benefits derived from the information furnished by the epidemiological intelligence service of the League of Nations, including its Eastern Bureau at Singapore, and of other analogous bureaus, as well as by the Pan-American Sanitary Bureau, the International Office of Public Hygiene is empowered to make the needful arrangements with the Health Com-

mittee of the League of Nations, as well as with the Pan-American Sanitary Bureau and other similar organizations.

International Office of Public Hygiene status not disturbed.

Vol. 35, p. 2061.

ARTICLE 8.

Prompt notification recommended.

As it is of primary importance that the foregoing provisions be promptly and scrupulously complied with, the Governments recognize the necessity of giving instructions to the appropriate services in regard to the application of these provisions.

As notification is of no value unless every Government be itself informed, in good time, of cases of plague, cholera, yellow fever, typhus, or smallpox, and also of suspected cases of these diseases which occur in its territory, countries participating in the Convention undertake to make it compulsory to declare such cases.

ARTICLE 9.

Special arrangements by neighboring countries.

It is recommended that neighboring countries should make special arrangements, with the object of organizing direct exchange of information between the head of the department concerned as regards territories that are contiguous or have close commercial relations. These arrangements shall be communicated to the International Office of Public Hygiene.

SECTION II. *Conditions which warrant considering that the measures prescribed by the convention are or have ceased to be applicable to arrivals from particular areas.*

ARTICLE 10.

Application of restrictions.

The notification of imported cases of plague, cholera or yellow fever shall not lead to the adoption of the measures prescribed in the following Chapter II in regard to arrivals from the area in which they occurred.

*Post*, p. 2559.

But the measures may be adopted when a first case of plague or yellow fever has occurred which is recognized as a non-important case, or when the cases of cholera from a *foyer*,[2] or when exanthematous typhus or smallpox exists in epidemic form.

In order that the measures prescribed in Chapter II may be limited to places which are actually stricken, Governments must restrict their application to arrivals from defined local areas in which the diseases coming under the present Convention have appeared under the conditions indicated in the second paragraph of Article 10.

Conditions.

But this limitation of an infected local area must be accepted only on the express condition that the Government of the country in which this area is comprised shall take the measures necessary (1) for checking the spread of the epidemic and (2) for applying the measures prescribed by Article 13 below.

[2] A "*foyer*" exists when the occurrence of new cases outside the immediate surroundings of the first cases proves that the spread of the disease has not been limited to the place where it began.

ARTICLE 12.

Notice when danger from infection has ceased.

The Government of a country in which an infected area is situated will inform other Governments and the International Office of Public Hygiene in the manner specified in Article 3, when the danger of infection from that area has ceased, and when all the preventive measures have been taken. From the time of this information the measures prescribed in Chapter II will no longer be applicable to arrivals from the area in question, except in exceptional circumstances, which must be established.

SECTION III. *Measures at the ports and on the departure of vessels*

Departure of vessels from ports.

ARTICLE 13.

Preventing affected persons from departing, etc.

The competent authority shall be obliged to take effectual measures—

(1) To prevent the embarkation of persons showing symptoms of plague, cholera, yellow fever, exanthematous typhus or smallpox, and of persons in such relations with the sick as to render them liable to transmit the infection of these diseases;

(2) In the case of plague, to prevent rats gaining access to ships;

(3) In the case of cholera, to see that the drinking water and foodstuffs taken on board is wholesome, and that water taken in as ballast is disinfected if necessary;

(4) In the case of yellow fever, to prevent mosquitoes gaining access to ships;

(5) In the case of exanthematous typhus, to secure the delousing of all suspects before their embarkation;

(6) In the case of smallpox, to subject to disinfection worn garments and rags before they are compressed.

ARTICLE 14.

Sanitary service at ports.

Governments undertake to maintain in and around their large ports and, as far as possible, in and around their other ports, a sanitary service possessing an organization and equipment capable of carrying out the application of the prophylactic measures in the case of the diseases coming under this Convention and especially the measures laid down in Articles 6, 8 and 13.

Annual statements of, to office of Public Hygiene.

The said Governments will supply at least once a year to the International Office of Public Hygiene a statement showing in the case of each of their ports the condition of its sanitary organization commensurate with the provisions of the preceding paragraph. The Office will forward such information through the proper channels to the principal health authorities of the participating countries either directly or through some other international sanitary organization in accordance with the arrangements concluded under Article 7.

CHAPTER II.

MEASURES OF DEFENCE AGAINST THE DISEASES MENTIONED IN CHAPTER I.

Defense against disease.

ARTICLE 15.

Sanitary inspection of ships on arrival.

Any ship, whatever port it comes from, may be subjected by the sanitary authority to a medical inspection, and if circumstances require it, to a thorough examination.

The sanitary measures and actions to which a ship may be subjected on arrival shall be determined by the actual condition found to exist on board and the sanitary particulars of the voyage.

Procedure.
*Ante*, pp. 2556, 2559.

It rests with each Government, taking into account the information furnished under the provisions of Section I, Chapter I, and of Article 14 of this Convention, as well as the obligations placed upon it by Section II, Chapter I, to determine what procedure is applicable in its own ports to arrivals from any foreign port, and in particular to decide whether, from the point of view of the procedure to be applied, a particular foreign port should be considered as infected.

The measures as provided in this Chapter must be regarded as constituting a maximum within the limits of which Governments may regulate the procedure to be applied to ships on their arrival.

### SECTION I.—*Notification of measures prescribed.*

Communication of prescribed measures.

Every Government is bound to communicate immediately to the Diplomatic Mission or, failing that, to the Consul of the infected country, residing in its capital, as well as to the International Office of Public Hygiene which shall immediately make them known to the other Governments, the measures which it considers necessary to prescribe with regard to arrivals from that country. Such information will in like manner be held at the disposition of other diplomatic or consular representatives established in its territory.

It also is bound to communicate, through the same channels, the withdrawal of these measures or any modifications thereof.

In the absence of a Diplomatic Mission or a Consulate in the capital, the communications shall be made direct to the Government of the country concerned.

Merchandise and baggage.

### SECTION II.—*Merchandise and baggage—Importation and transit.*

#### ARTICLE 17.

Entry, etc.

Subject to the provisions of the last paragraph of Article 50, the entry of merchandise and baggage arriving by land or by sea for import or for transit may not be prohibited nor may merchandise or baggage be detained at land frontiers or in ports. The only measures which may be prescribed with regard to such merchandise and baggage are specified in the following paragraphs:

Prescriptive measures.

In case of plague.

(a) In the case of plague, body linen, wearing apparel and bedding which have been in recent use may be subjected to disinsectisation, and, if necessary, to disinfection.

Merchandise coming from an infected local area and likely to harbor plague-infected rats may be unloaded only on condition that the precautions necessary to prevent the escape of rats and to ensure their destruction are taken as far as practicable.

Cholera.

(b) In the case of cholera, body linen, wearing apparel and bedding which have been in recent use may be subjected to disinfection.

In derogation of the provisions of this Article, the importation of fresh fish, shellfish and vegetables may be prohibited unless they have undergone a treatment calculated to destroy cholera vibrios.

Typhus.

(c) In the case of exanthematous typhus, body linen, wearing apparel and bedding which have been in recent use, as well as rags not carried as merchandise in large quantities, may be subjected to disinsectisation.

Smallpox.

(d) In the case of smallpox, body linen, wearing apparel and bedding which have been in recent use, as well as rags not carried as merchandise in large quantities, may be subjected to disinfection.

#### ARTICLE 18.

Methods of disinfection, etc.

It rests with the authority of the country to which the merchandise and things are consigned to decide in what manner and at what place

disinfection shall be carried out and what shall be the methods adopted to secure the destruction of rats or insects (fleas, lice, mosquitos, et cetera). These operations must be performed in such a fashion as to injure articles as little as possible. Clothes and other articles of small value, including rags not carried in merchandise in large quantities, may be destroyed by fire.

Compensation for damage.

It rests with each State to settle questions of compensation for damage caused by disinfection, deratisation or disinsectisation, or by the destruction of the things referred to above.

Sanitary charges.

If, on account of these measures, charges are levied by the sanitary authority, either directly or indirectly through a company or an individual, the rates of these charges must be in accordance with a tariff made public beforehand and so drawn up that the State and the sanitary authority shall, on the whole, derive no profit from its application.

ARTICLE 19.

Exemption of letters, etc.

Post parcels restriction.

Letters and correspondence, printed matter, books, newspapers, business documents, et cetera, shall not be subject to any sanitary measure. Post parcels shall be subjected to restriction only if their contents include articles on which the measures provided by Article 17 of the present Convention may be enforced.

ARTICLE 20.

Sanitary certificates.

When merchandise or baggage has been subjected to the operations prescribed in Article 17, any interested party can require the sanitary authorities to issue a free certificate showing the measures that have been taken.

Emigrants.

SECTION III.—*Provisions relating to emigrants.*

ARTICLE 21.

Medical inspection, etc., before departure.

The sanitary authorities in a country of emigration must subject its emigrants to a medical examination before their departure.

It is recommended that special arrangements be made between the countries of emigration, immigration and transit, with a view to laying down the conditions under which this examination shall be considered satisfactory by them, so that rejections on medical grounds at the frontier of the countries of transit and destination may be reduced to a minimum.

It is also recommended that these arrangements should determine what preventive measures against infectious diseases shall be applied to emigrants in the country of departure.

ARTICLE 22.

Sanitary administrations at ports, etc., of embarkation.

It is recommended that, at the towns or ports of embarkation for emigrants, there should be an adequate health and sanitary administration having especially (1) a service for medical examination and treatment, as well as the necessary medical and prophylactic equipment; (2) an establishment supervised by the State where emigrants may be subjected to the health formalities, temporarily housed, and undergo all necessary medical examinations and have their food and drinking supplies examined; (3) premises situated at the port where medical examinations shall be made at the time of the final embarkation.

ARTICLE 23.

Vaccines on emigrant ships.

It is recommended that emigrant ships be provided with a sufficient quantity of vaccines (anti-smallpox, anti-cholera, et cetera), in order to permit, if necessary, of vaccinations during the voyage.

Measures at ports, etc.

SECTION IV.—*Measures at ports and marine frontiers.*

Plague.

A. PLAGUE.

ARTICLE 24.

Ships classified. Infected.

A ship shall be regarded as *infected:*

(1) if it has a case of human plague on board;

(2) or if a case of human plague broke out more than six days after embarkation;

(3) or if plague-infected rats are found on board.

Suspected.

A ship shall be regarded as *suspected:*

(1) if a case of human plague broke out in the first six days after embarkation;

(2) or if investigations regarding rats have shown the existence of an unusual mortality without determining the cause thereof.

The ship shall continue to be regarded as suspicious until it has been subjected to the measures prescribed by this Convention at a suitably equipped port.

Uninfected.

A ship shall be regarded as *uninfected,* notwithstanding its having come from an infected port if there has been no human or rat plague on board either at the time of departure, or during the voyage, or at the time of arrival, and the investigations regarding rats have not shown the existence of an unusual mortality.

ARTICLE 25.

Measures for plague infected ships. Personal.

Plague-infected ships shall undergo the following measures:

(1) Medical inspection;

(2) The patients shall immediately be landed and isolated;

(3) All persons who have been in contact with the patients and those whom the health authority of the port has reason to consider suspect shall be disembarked if possible. They may be subjected to observation or surveillance, or to a period of observation followed by surveillance,[3] provided that the total duration of these measures does not exceed six days from the time of arrival of the ship.

It rests with the sanitary authority of the port, after taking into consideration the date of the last case, the condition of the ship and the local possibilities, to take that one of these measures which seems to it preferable. During the same period the crew may be prevented from going ashore except on duty made known to the sanitary authority;

Disinsectising, and disinfecting soiled linen, etc.

(4) Bedding which has been used, and such soiled linen, wearing apparel and other articles as are, in the opinion of the sanitary authority, infected shall be disinsectised and, if there be occasion, disinfected;

Of the ship.

(5) The parts of the ship which have been occupied by persons suffering from plague or which, in the opinion of the sanitary authority, are infected, shall be disinsectised and, if there be occasion, disinfected;

[3] In all cases where the present Convention refers to "Surveillance" the sanitary authority may substitute "Observation" as an exceptional measure in the case of persons who do not offer adequate sanitary guarantees.

Persons under observation or surveillance must submit to all clinical or bacteriological investigations which are considered necessary by the sanitary authority.

(6) The sanitary authority may order deratisation before the discharge of cargo, if it is of opinion, having regard to the nature of the cargo, and the way in which it is loaded, that it is possible to effect a total destruction of rats without removing it. In this case, the ship cannot be subjected to a new deratisation after discharge. In other cases the complete destruction of rats on board must be effected when the holds are empty. In the cases of ships in ballast, this shall be done as soon as possible before taking cargo. Rat destruction.

Destruction of rats shall be carried out so as to avoid, as far as possible, damage to the ship and cargo (if any). The operation must not last longer than twenty-four hours. All charges made in respect to these operations of deratisation as also all contingent indemnity claims, shall be settled in accordance with the principles laid down in Article 18.

If a ship is only to discharge a part of its cargo, and if the port authorities consider that it is impossible to undertake complete deratisation, the said ship shall be allowed to remain in the port for the time required to discharge that part of its cargo, provided that all precautions, including isolation, are taken to the satisfaction of the sanitary authority to prevent rats from passing from ship to shore, either with unladen goods or otherwise. Discharge of cargo.

The discharge of cargo shall be carried out under the supervision of the sanitary authority, who shall take all measures necessary to prevent the men employed on this duty from becoming infected. The men shall be subjected to observation or to surveillance for a period not exceeding six days from the time when they have ceased to work at the unloading of the ship.

ARTICLE 26.

Plague-suspected ships shall undergo the measures indicated in Nos. 1, 4, 5 and 6 of Article 25. Plague suspected ships.

In addition, the crew and passengers may be subjected to surveillance which shall not exceed six days, reckoned from the date of the ship's arrival. The crew may be prevented during the same period from going ashore except on duty made known to the Sanitary Authority. Surveillance of crew and passengers.

ARTICLE 27.

Ships uninfected with plague shall be given free pratique immediately, with the reservation that the sanitary authority of the port of arrival may prescribe the following measures with regard to them: Uninfected ships.

(1) Medical inspection to determine whether the condition of the ship corresponds to the definition of a healthy ship;

(2) Destruction of rats on board under the conditions specified in 6 of Article 25 in exceptional cases and for well-founded reasons which will be communicated in writing to the Captain of the ship;

(3) The crew and passengers may be subjected to surveillance during a period which shall not exceed six days reckoned from the date on which the ship left the contaminated port. The crew may be prevented during the same period from going ashore except on duty made known to the sanitary authority. Surveillance of crew and passengers.

ARTICLE 28.

All ships, except those employed in national coastwise service, must be periodically deratised, or be permanently kept in such a condition that rat population is reduced to the minimum. In the first case they receive Deratisation Certificates, and in the second Deratisation Exemption Certificates. All ships to be periodically deratised.

Governments shall make known through the International Office of Public Hygiene those of their ports possessing the equipment and personnel necessary for the deratisation of ships.

Issue of deratisation, and deratisation exemption certificates.

A deratisation certificate or a deratisation exemption certificate shall be issued only by the sanitary authority of the aforesaid ports. The certificate shall be valid for six months. One additional month however may be allowed in the case of a ship proceeding to its home port.

Action of port sanitary authority.

If no valid certificate is produced, the sanitary authority at the ports mentioned in the second paragraph of this Article may after inquiry and inspection:

Deratisation, and issue of deratisation certificate, by.

(a) Directly perform the deratisation of the vessel, or cause it to be done under its direction and supervision. When completed to its satisfaction it shall issue a dated *Deratisation Certificate*. It shall decide on each case what process shall be employed practically to exterminate the rats on board, particulars of the mode of deratising applied and of the number of rats destroyed must be entered on the Certificate. Destruction of rats must be accomplished in a manner that will as far as possible save the ship and cargo (if any) from injury. The operation must not last longer than 24 hours. In the case of vessels in ballast, it must be done before loading. All charges on account of these operations of deratization and all claims, if any, for damages shall be settled according to the terms of Article 18.

Issue of deratisation exemption certificates.

(b) Issue a Deratisation Exemption Certificate stating the date and grounds if it is satisfied that the ship is maintained in such a condition that the rat population is reduced to a minimum.

The deratisation and deratisation exemption certificates shall be drawn up as far as possible in a uniform manner. Forms of such certificates will be prepared by the International Office of Public Hygiene.

Yearly statement to Public Hygiene Office.

The competent authority of each country undertakes each year to furnish the International Office of Public Hygiene with a statement of the measures taken under this article and the number of ships which have been subjected to deratisation, or which have been granted deratisation exemption certificates, at the ports referred to in the second paragraph of this Article.

The International Office of Public Hygiene is requested to take in accordance with Article 14 all steps for the interchange of information as to the action taken under this Article and the results obtained.

Sanitary rights not affected.
*Ante*, p. 2562.

The provisions of this Article do not affect the rights accorded to sanitary authorities by Articles 24–27 of this Convention.

Rat destruction in ports, etc.

The Governments shall see that all requisite and practicable measures are taken by the competent authorities to accomplish the destruction of rats in ports and the dependent and neighboring parts as well as on lighters and coastwise vessels.

Cholera.

## B. CHOLERA.

### ARTICLE 29.

Ships classified.

Infected.

A ship shall be regarded as *infected* if there is a case of cholera on board, or if there has been a case of cholera during the five days previous to the arrival of the ship in port.

Suspected.

A ship shall be regarded as *suspected* if there has been a case of cholera at the time of departure or during the voyage, but no fresh case in the five days previous to arrival. The ship shall continue to be regarded as suspect until it has been subjected to the measures prescribed by the present Convention.

Uninfected.

A ship shall be considered *uninfected* notwithstanding that it came from an infected port or that it may have on board persons

proceeding from an infected area if there has been no case of cholera at the time of departure, during the voyage, or on arrival.

Cases presenting the clinical symptoms of cholera in which no cholera vibrios have been found, or in which vibrios not strictly showing the characteristics of cholera vibrio have been found, shall be subject to all measures required in the case of cholera.

Germ carriers discovered on the arrival of the ship shall be submitted after disembarkation to all the obligations which may be imposed on such a case by the laws of the country of arrival on its own nationals.

ARTICLE 30.

Measures for infected ships.

Cholera infected ships shall be subjected to the following measures:

Personal.

(1) Medical inspection:

(2) The patients shall be immediately landed and isolated;

(3) The crew and passengers may also be landed and either be kept under observation or subjected to surveillance during a period not exceeding five days reckoned from the date of arrival.

However, persons who can show that they have been immunized from cholera by vaccination effected less than six months, and more than six days before, may be subjected to surveillance but not to observation.

Disinfection of soiled linen, etc.

(4) Bedding which has been used, soiled linen, wearing apparel and other articles, including foodstuffs, which in the opinion of the sanitary authority of the port have been recently contaminated, shall be disinfected;

Of the ship.

(5) The parts of the vessel which have been occupied by cholera patients or which are considered by the health authorities as being contaminated, shall be disinfected;

Unloading.

(6) Unloading shall be carried out under the supervision of the sanitary authority, who will take all measures necessary to prevent the infection of the men engaged in unloading. They shall be subjected to observation or to surveillance which shall not exceed five days from the time when they cease unloading;

Water disinfection, etc.

(7) When the drinking water stored on board is considered suspicious it shall be turned off after being disinfected and replaced after disinfection of the tanks by a supply of water of good quality;

(8) The health authority may prohibit the turning off without previous disinfection of water ballast if it has been taken in at an infected port;

(9) It may be forbidden to let run or throw human dejections or the residuary waters of the vessel into the waters of the port, unless they are first disinfected.

ARTICLE 31.

Suspected ships.

Vessels suspected of cholera shall be subjected to the measures prescribed under Nos. (1), (4), (5), (7), (8) and (9) of Article 30.

Surveillance of crew and passengers.

The crew and passengers may be subjected to a surveillance not to exceed five days from the arrival of the vessel. It is recommended that the landing of the crew be prevented during the same period except for purposes connected with the service and made known to the sanitary authority of the port.

ARTICLE 32.

Examination, etc., of apparent cases.

If the ship has been declared infected or suspected only because of cases on board presenting the clinical features of cholera, and two bacteriological examinations, made with an interval of not less than 24 hours between them, have not revealed the presence of cholera or any other suspicious vibrios, it shall be classed as uninfected.

ARTICLE 33.

Uninfected ships.

Vessels uninfected with cholera shall be granted pratique, immediately.

The health authority of the port of arrival may order in their case the measures provided under Nos. (1), (7), (8) and (9) of Article 30.

Surveillance of crew and passengers.

The crew and the passengers may be subjected to a surveillance not to exceed five days from the date of arrival of the ship. The landing of the crew may be forbidden during the same period except for purposes connected with the service and made known to the sanitary authority of the port.

ARTICLE 34.

Anticholera vaccination recommended.

Since anti-cholera vaccination is a method of proved efficacy in checking cholera epidemics, and consequently in lessening the likelihood of the spread of the disease, it is recommended that sanitary administrations will, in the largest measure possible, and as often as practicable, apply specific vaccination in cholera hotbeds and grant certain advantages as regards restrictive measures to persons who agree to be vaccinated.

Yellow fever.

C. YELLOW FEVER.

ARTICLE 35.

Ships classified. Infected.

A ship shall be regarded as *infected* if there is a case of yellow fever on board, or if there was one at the time of departure or during the voyage.

Suspected.

A ship shall be regarded as *suspected* if it had no case of yellow fever but arrives after a voyage of less than six days from an infected port or from an uninfected port in close relation with endemic centers of yellow fever, or if when it arrived having been more than six days out there is reason to believe that it may carry winged *Stegomyia* (*Aedes Egypti*) from the said port.

Uninfected.

A ship shall be regarded as *uninfected*, notwithstanding its having come from a yellow fever infected port, if having had no case of yellow fever on board and arrived after more than six days on the way there is no reason to believe that it carries winged *Stegomyia*, or when it proves to the satisfaction of the sanitary authority of the port of arrival:

(a) That during its stay in the port of departure it kept at a distance of more than 200 metres from the inhabited land and at such a distance from the pontoons as to make the access of *Stegomyia* improbable;

(b) Or that at the time of departure it was subjected to effective fumigation in order to destroy mosquitoes.

ARTICLE 36.

Measures for infected ships.

Ships infected with yellow fever shall undergo the following measures:

Personal.

(1) Medical inspection;

(2) The patients shall be landed, and those of them who are in the first five days of the disease shall be isolated so as to prevent contamination by mosquitoes;

(3) The other persons who land shall be subjected to observation or surveillance not exceeding six days reckoned from the time of landing;

(4) The ship will be moored at least 200 metres from the inhabited land and at such a distance from the pontoons as will render the access of *Stegomyia* improbable; Mooring distance.

(5) Mosquitoes at all stages of evolution shall be destroyed on board as far as possible before discharge of cargo. If unloading takes place before the destruction of mosquitoes, the personnel in charge of that work will be subjected to observation or to surveillance for not more than six days from the time when they ceased unloading. Mosquito destruction.

ARTICLE 37.

Ships suspected of yellow fever may be subjected to the measures specified in (1), (3), (4) and (5) of Article 36. Suspected ships.

Nevertheless, if the voyage has lasted less than six days if the ship meets the conditions specified under letters (a) and (b) in the subsection of Article 35 relating to uninfected ships, it shall only be subjected to the measures prescribed by Article 36, (1) and (3) and to fumigation.

When 30 days have elapsed after the departure of the ship from the infected port, and no case has occurred during its voyage, the ship may be granted free pratique subject to preliminary fumigation should the sanitary authority deem it necessary.

ARTICLE 38.

Ships uninfected with yellow fever shall be granted free pratique after medical inspection. Uninfected ships.

ARTICLE 39.

The measures prescribed in Articles 36 and 37 concern only those regions in which the *Stegomyia* exists, and they shall be applied with due consideration to the climatic conditions prevailing in the countries concerned and also the Stegomyian index. Countries exempt.

In other regions they shall be applied to the extent considered necessary by the sanitary authority.

ARTICLE 40.

The masters of ships which have touched at ports infected with yellow fever are specially advised to cause a search to be made for mosquitoes and their larvae during the voyage and to secure their systematic destruction in all accessible parts of the ship, particularly in the store rooms, galleys, boiler rooms, water tanks and other places specially likely to harbor *Stegomyia*. Ships touching at infected ports.

D. EXANTHEMATOUS TYPHUS. Typhus.

ARTICLE 41.

Ships which, during the voyage have had or at the time of their arrival, have a case of typhus on board, may be subjected to the following measures: Measures if case of typhus on ship.

(1) Medical inspection; Personal.

(2) The patients shall immediately be landed, isolated and deloused;

(3) Other persons reasonably suspected to harbor lice, or to have been exposed to infection, shall also be deloused, and may be subjected to surveillance for a time to be specified, but which shall never be more than 12 days, reckoned from the date of delousing;

(4) Bedding which has been used, and such linen, wearing apparel, and other articles as the sanitary authority, of the port considers to be infected shall be disinfected; Disinfection of bedding, etc.

Of ship.

(5) The parts of the ship which have been occupied by persons ill with typhus, and that the sanitary authority regard as infected, shall be disinfected.

The ship shall immediately be given free pratique.

Surveillance after disembarkation of persons from typhus infected area.

It rests with each Government to take after disembarkation the measures which it considers appropriate to secure the surveillance of persons who arrive on a ship which had no case of exanthematous typhus on board, but who left an area where typhus is epidemic less than 12 days before.

Smallpox.

## E. SMALLPOX.

### ARTICLE 42.

Measures if case of smallpox on ship.

Ships which have had a case of smallpox on board either during the voyage, or at the time of arrival, may be subjected to the following measures:

Personal.

(1) Medical inspection;

(2) The patients shall immediately be landed and isolated;

(3) Other persons reasonably suspected to have been exposed to infection on board, and who, in the opinion of the sanitary authority, are not sufficiently protected by recent vaccination, or by a previous attack of smallpox, may be subjected to vaccination followed by surveillance, the period of surveillance being specified in each case according to the circumstances, but never to exceed 14 days, reckoned from the date of arrival;

Disinfection of bedding, etc.

(4) Bedding which has been used, soiled linen, wearing apparel, and other articles which the sanitary authority of the port considers to be infected, shall be disinfected;

Of ship.

(5) Only those parts of the ship which have been occupied by persons ill with smallpox and which the sanitary authority regards as infected shall be disinfected.

The ship shall immediately be given free pratique.

Surveillance after disembarkation of persons from area of smallpox epidemic.

It rests with each Government to take after disembarkation the measures which it considers appropriate to secure the surveillance of persons who are not protected by vaccination and arrive on a ship that had no smallpox on board, but left an area where smallpox is epidemic less than 14 days before.

### ARTICLE 43.

Vaccination recommendations.

It is recommended that ships calling in countries where smallpox is epidemic, shall take all precautions possible to secure the vaccination or revaccination of the crew.

It is also recommended that governments should make vaccination and revaccination as general as possible, especially in ports and border regions.

Common provisions.

## F. COMMON PROVISIONS.

### ARTICLE 44.

Health reports from captain and ship's physician.

The captain and the ship's physician must answer all questions that are put to them by the sanitary authority with regard to the health of the ship during the voyage.

When the captain and the physician declare that there has not been any case of plague, cholera, yellow fever, exanthematous typhus or smallpox, and no unusual mortality among rats on the ship since the time of its departure, the sanitary authority may require them to make a solemn or sworn declaration.

ARTICLE 45.

Application of restrictive measures.
*Ante*, pp. 2562-2568.

In applying the measures set forth in the preceding subsections A., B., C., D. and E, the sanitary authority will take into account the presence of a physician on board and the actual preventive measures taken in the course of the voyage, especially for the destruction of rats.

The sanitary authorities of the countries that find it convenient to come to an agreement on the matter may exempt from medical inspection and other measures uninfected ships carrying a physician specially commissioned by their country.

ARTICLE 46.

Treatment of arrivals from a country having preventive measures.

It is recommended that Governments take into account, as to the treatment to be applied to arrivals from another country, measures taken in the latter country to combat infectious diseases and to prevent their transmission to other countries.

Ships arriving from ports which fulfill the conditions set out in Articles 14 and 51, do not derive from that alone any right to special advantages at the port of arrival, but the Governments agree to take into the fullest consideration the measures already taken in those ports, so that all the measures taken at the port of arrival with regard to ships coming from those ports shall be reduced to a minimum. To that end and in order to put shipping, commerce and traffic to as little inconvenience as possible, it is recommended that special arrangements in accordance with Article 57 of this Convention be made in all cases where it would seem advantageous to do so.

Special arrangements.
*Post*, p. 2571.

ARTICLE 47.

Ships from affected area where sanitary measures were imposed not subject thereto at another port.

Ships arriving from an infected area which have been submitted to sufficient sanitary measures to the satisfaction of the sanitary authority, shall not undergo those measures again on their arrival at another port, whether or not the latter belongs to the same country, provided nothing has happened since which would call for the application of the sanitary measures above referred to and the ships have not called at an infected port, except for coaling.

A ship shall not be considered as having stopped at a port, when without having been in communication with the shore it has landed passengers only and their luggage and the mail, or has taken on board only mails or passengers, with or without their luggage, who have not communicated with the port or with a contaminated area. In the case of yellow fever the vessel must, in addition, have kept wherever possible not less than two hundred metres from inhabited land and at such a distance from the pontoons as to make access of *Stegomyia* improbable.

ARTICLE 48.

Certificate from port authority imposing sanitary measures.

The port authority who imposes sanitary measures shall, whenever requested, deliver to the captain, or any other interested person, a certificate specifying the nature of the measures and the methods employed, the parts of the ship treated, and the reasons why the measures have been applied.

It may also in the same way, on demand, issue free of charge to passengers who have arrived by an infected ship a certificate stating the date of their arrival and the measures to which they and their luggage have been subjected.

General provisions.

## SECTION V.—*General Provisions.*

### ARTICLE 49.

Recommendations. Free bills of health.

It is recommended—

(1) That bills of health be issued free in all ports;

Reduced consular visa fees.

(2) That fees for consular visas be reduced by way of reciprocity, so as not to represent more than the cost of the service rendered;

Bills of health in additional languages.

(3) That the bill of health be made out in at least one of the languages known to maritime world, in addition to that of the country where it is issued;

Elimination of visas and bills of health.
*Post*, p. 2571.

(4) That special agreements in the spirit of Article 57 of this Convention be made with a view to doing away gradually with consular visas and bills of health.

### ARTICLE 50.

Sanitary port organizations.

It is desirable that the number of ports furnished with an organization and equipment sufficient for the reception of a ship, whatever its health conditions may be, should be in each country commensurate with the importance of the trade and shipping. However, without prejudice to the right of Governments to make agreements for the establishment of common sanitary stations, every country must provide at least one port on each of its seacoasts with the above-mentioned organization and equipment.

For uninfected ships.

Furthermore, it is recommended that all large seaports should be so equipped that uninfected ships at least may undergo immediately upon their arrival, the prescribed sanitary measures without being sent to another port for this purpose.

## PROTOCOL OF SIGNATURE.

Meeting of plenipotentiaries.

The undersigned Plenipotentiaries met on the date of this day for the purpose of signing the International Sanitary Convention.

Reservations made. German Empire.

The Plenipotentiaries of the German Empire referring to Article 25 make express reservations as to the power granted by the Convention to several governments to enforce the observation in case of bubonic plague.

The Plenipotentiaries of Brazil declare they are empowered to sign the Convention and referendum under the reservations entered in the minutes of the last plenary session. Brazil.

The Plenipotentiaries of Chili declare that they join in the reservations made by the Plenipotentiaries of Brazil and Portugal. Chile.

The Plenipotentiaries of China express reservations in the name of their Government concerning the engagement appearing in Article 8, 2nd Section, that it would be compulsory to declare the diseases coming under the Convention. China.

In the name of their Government the Plenipotentiaries of Egypt renew the express reservations made by them concerning the presence at the Convention of a delegate representing the Soudan. They furthermore declare that the said presence could not in any way affect the rights of sovereignty of Egypt. Egypt.

The Plenipotentiaries of Spain declare they make in the name of their Government a reservation identical with that of the Plenipotentiaries of the United States of America concerning article 12. Spain.

The Plenipotentiaries of the United States of America formally declare that their signing the International Sanitary Convention of this date is not to be construed to mean that the United States of America recognizes a régime or entity acting as Government of a signatory or adhering Power when that régime or entity is not recognized by the United States as the Government of that Power. They further declare that the participation of the United States of America in the International Sanitary Convention of this date does not involve any contractual obligation on the part of the United States to a signatory or adhering Power represented by a régime or entity which the United States does not recognize as representing the Government of that Power, until it is represented by a Government recognized by the United States. United States. *Ante*, p. 2547.

The Plenipotentiaries of the United States of America declared, furthermore, that their Government reserves to itself the right to decide whether from the standpoint of the measures to be applied a foreign district is to be considered as infected and to decide what measures shall be applied to arrival in its own ports under special circumstances.

The great work accomplished by the International Sanitary Convention and the many new provisions carried could not be referred by telegraph to Her Majesty the Queen of the Kings and to His Imperial and Royal Highness Prince Tafari Makonnen, Heir to and Regent of the Empire and the Delegate of the Ethiopian Empire declares that he must refrain from signing the Convention before he receives the necessary instructions. Ethiopian Empire.

The British Plenipotentiaries declare that their signing does not bind any part of the British Empire that is a distinct member of the League of Nations and would not sign separately or adhere to the Convention. British Empire.

They further declared that they reserve the right not to apply the provisions of the 2nd subsection of article 8 to all the Protectorates, Colonies, Possessions or Countries under the British mandate which might be parties to the Convention and which on practical grounds might be unable to give full effect to those provisions relative to the compulsory declaration of the diseases referred to in the said article.

The Delegate of Canada reserves for his Government the right to decide whether from the viewpoint of the measures to be applied a foreign district is to be considered as infected and to decide what measures shall be applied to arrivals in Canadian ports under special circumstances. Subject to that reservation the Delegate from Canada declares that his Government is ready to take into consideration the obligations of article 12 of the Convention and the Canada.

official information it may receive concerning the existence of the diseases in foreign countries.

India.

The Delegate of India declares that he is authorized to sign the International Sanitary Convention under the reservation that on grounds of a practical nature India is not in a position to assume the obligations resulting from article 8 in so far as it has to do with the obligatory declaration of the diseases named in said article, except in large cities or in cases of epidemic.

The British Plenipotentiaries declare and wish to have it made a record that the reservation of the Plenipotentiaries of Persia about article 90 cannot in any way modify the present status quo pending an agreement to be arrived at between the Persian and British Governments.

Finland.

The Plenipotentiaries of the Finnish Republic declare that immunization from cholera does not constitute a sufficient guarantee and that their Government reserves to itself notwithstanding the provisions of article 30, the right to make, if the occasion arises, immune persons undergo observation.

On the other hand, considering that the traffic of the Finnish border could only go over two railways in the east very close to each other and a single railway in the west which does not make it permissible to contemplate a partial closing of the frontier, Finland in order to avoid the complete closing in case of epidemic reserves to itself the right to set up observation if occasion arises notwithstanding the provisions in article 58.

Japan.

The Plenipotentiaries of Japan declare that their Government reserves to itself the right: 1. To forward through the Eastern bureau of Singapore the notices and information, the mailing of which to the International Office of Public Hygiene is required by the Convention; 2. To take such measures as the sanitary authorities may deem necessary with regard to carriers of cholera vibrios.

Lithuania.

The Plenipotentiaries of Lithuania declare that though adhering to the Convention, they make special reservations as to its being put into practice between Lithuania and Poland as long as normal relations between the two countries shall not have been restored.

These reservations are of particular importance with respect to the provisions in articles 9, 196, 57 and 66.

The Netherlands.

The Plenipotentiaries of The Netherlands declare in the name of their Government that it reserves to itself with regard to the Dutch East Indies to enforce the measures provided in article 10, sub-section 2 in the same degree to arrivals from districts afflicted with *murine plague*.

They further declare that their Government reserves to itself with respect to the Dutch East Indies the right to put on article 27–2 a construction to the effect that the destruction of rats referred to in that article may be applied to vessels taking a cargo from a district afflicted with murine plague when the sanitary authority believes that the cargo is likely to carry rats and is stowed in such a way as to make it impossible to affect the search provided in the last sub-section of article 24.

Persia.

The Plenipotentiaries of Persia declare that there is nothing warranting any special provision concerning the Persian Gulf being retained in the Convention. The fact that there is in the Convention article 90 constituting Section V of Title II, prevents their signing without making the most express reservations. The Plenipotentiaries of Persia further declare that the status quo could not in any way bind their Government. Again they reserve for their Government the right not to apply the provisions of article 8 relative to the obligatory declaration of the diseases coming under the said article.

Portugal.

The Plenipotentiary of Portugal declares that he is authorized by his Government to sign the Convention *ad referendum* with the reservations entered in the minutes of the last plenary session.

Turkey.

The Plenipotentiary of Turkey declares that Turkey would not relinquish by any treaty the right of being represented in the Sanitary, Maritime and Quarantine Board of Egypt. On the other hand taking into consideration the stipulations in the Convention of the Straits signed at Lausanne and the special conditions of the Straits of Bosphorus and Dardanelles, he reserves the right for the Sanitary Administration of Turkey to put a sanitary guard on board any merchant vessel going through the Straits without a physician and coming from an infected port so as to prevent that vessel from calling at any Turkish port. It is understood, however, that the delay and expenses that such a guard may entail will be very slight.

Soviet Socialist Republic.

The Plenipotentiaries of the Union of the Soviet Socialist Republics, calling to mind the declarations made by them on May 26, at the session of the first Commission concerning article 7 of the draft of Convention declare they have no objection to offer to the provisions relative to the right of the International Office of Public Hygiene to make arrangements with other sanitary agencies; but they are of the opinion that that right flows from the arrangement of Rome of 1907 which defines the functions of the Office. They therefore believe that the provision hereinabove referred to is but a confirmation of that right and should only appear in the minutes and not be made an article of the Convention itself.

The Plenipotentiaries of the Union of the Soviet and Socialist Republics call to mind that at the time article 12 of the Convention was under consideration they cast their votes against the provision granting the Governments the right to prolong in exceptional cases the application of sanitary measures notwithstanding the declaration of the State concerned that there is no longer any danger of the disease.

They hold that that provision may infringe upon one of the fundamental principles of the previous conventions and become a cause of misunderstanding that could arise from its application.

They therefore declare that in the spirit of the Convention that provision can only be considered in exceptional cases when the Government to which the afflicted district belongs does not meet the obligations laid down by the Convention in that respect.

The Plenipotentiaries of the Soviet Socialist Republics call to mind that the reservations already made by them in second Commission concerning the functions, duties and powers of the sanitary, maritime and quarantine board of Egypt. They particularly wish to emphasize the fact that articles 70 and 164 in particular confer upon that board the right to set up different sanitary, maritime and quarantine police regulations on condition that those regulations in order to be capable of execution must be accepted by the different Powers represented in the Council. Inasmuch as the Union of the Soviet Socialist Republics is not yet represented in the sanitary, maritime and quarantine board of Egypt, the Delegation of the Union wishes to reserve the rights of its Government to accept or not to accept the measures worked out by that board.

Formal acknowledgment of reservations.

The undersigned make a formal acknowledgment of the reservations hereinabove set forth and declare that their own countries reserve to themselves the right to invoke the benefit thereof as against the countries in whose name they were made.

His Majesty the King of Spain

His Serene Highness the Prince of Monaco
by Count de MALEVILLE,
His Minister at Paris;
The Governor General representing the sovereign authority of Soudan
by His Excellency Marquis CREWE, Ambassador of His Britannic Majesty at Paris,

Reservations.

The instrument of ratifications of His Majesty the King of Spain contains the following reservations:

*First reservation on Article 12 of the Convention.*

By Spain.

"The Government of His Catholic Majesty declares that ratification of the International Sanitary Convention is not to be construed to mean that Spain recognizes a régime or entity acting as Government of a signatory or adhering Power when that régime or entity is not recognized by Spain as the Government of that Power; it further declares that the participation of Spain in the International Sanitary Convention does not involve any contractural obligation on the part of Spain to a signatory or adhering Power represented by a régime or entity which Spain does not recognize as representing the Government of that Power until it is represented by a Government recognized by Spain."

*Second Reservation.*

"The Government of His Catholic Majesty reserves to itself the right to decide whether, from the standpoint of the measures to be applied to a foreign district, it is to be considered as infected and to decide what measures shall be applied under special circumstances to arrivals in its own ports."

*Reservations to Article 49 of the Convention.*

"The Government of His Catholic Majesty, while approving in principle the recommendations in Article 49 of the Convention and feeling desirous of hereafter succeeding in freely delivering bills of health and reducing consular fees for the visa of said bills of health, under the head of reciprocity, so that they shall represent only the cost of the service rendered, can not refrain from calling attention to the fact that at present the law in force in Spain does not make it possible to grant those concessions which in any event could only be granted in accordance with the law of Spain."

"It is further declared that the instrument of ratifications by His Catholic Majesty does not apply to the Spanish territories in the Gulf of Guinea which shall form the subject of a special adhesion as provided in Articles 171 and 172 of the Convention when the sanitary measures that are contemplated shall have been promulgated for those territories."

By Great Britain.

In accordance with Article 172 of the Convention, the instrument of ratifications by His Majesty the King of Great Britain, Ireland and the British territories beyond the seas, Emperor of India, states that the said ratification applied:

"Only to Great Britain and Northern Ireland, the Dominion of New Zealand (including the mandate territory of West Samoa) and the Union of South Africa (but not the mandate territory of Southern and Western Africa) without prejudice, however, to the right hereafter to ratify with regard to the Dominion of Canada, the Commonwealth of Australia, and the Empire of India, or the right of hereafter adhering to everything in which the Dominions, Colonies, Possessions or mandate Territories hereby excluded from this ratification are concerned."

By France.

In accordance with Article 172 of the Convention, the instrument of ratifications by the President of the French Republic says that they apply:

"To France, Algeria, French West Africa, French East Africa, the French Colonies and Protectorates in Indo-China, or of the other French colonies and possessions, the mandate States of Syria, Great Lebanon, 'Alaouites' and Jebe Druze, the mandate territories of Togo and of Cameroon."

Nem jár kártérités, ha a csomag elveszését, kifosztását vagy megsérülését erőhatalom okozta, amely fogalmat annak az országnak törvényes határoza tai vagy szabályai szerint kell megállapitani, amelynek szolgálatában az elveszés történt. Hasonlóképen nem jár kártérités, ha az elveszés, kifosztás vagy megsérülés a feladó, vagy a cimzett, illetve ezek megbizottja hibája vagy hanyagsága folytán álltelö, vagy ha az a tárgy természetéből származott. A kártérités nem haladhatja meg azt az összeget, amely után a felvevő országban a biztositási dijat lefizették.

Neither Administration is bound to pay indemnity in case of loss or damage due to force majeure under any particular definitions of that term unless the other Administration will assume liability reciprocally under the same definitions of the term, although either country may at its option and without recourse to the other country, pay indemnity for losses or damages occurring through force majeure under any definition of that term.

3. In case an insured parcel originating in one country and addressed for delivery in the other country is forwarded or returned from the country of original address to a third country, the rightful claimant shall be entitled to only such indemnity, if any, for any loss, rifling, or damage which occurs subsequent to the redispatch of the parcel in the country of original address, as the country in which the loss, rifling, or damage occurred is willing or obliged to pay under any agreement in force between the countries directly involved in the forwarding or return. Either country adhering to this Convention which improperly forwards an insured parcel to a third country, shall be responsible therefor to the extent of the liability of the country of origin to the sender within the limit of indemnity fixed by this Convention.

A jelen szerződésben résztvevő országok, amennyiben valamely értéknyilvánitással ellátott csomagot szabályellenesen egy harmadik országba továbbküldtek, ezért a csomagért—az eme szerződésben megállapitott—kártérités keretén belül—olyen felelősséggel tartoznak, mint amilyennel a felvevő ország tartozik a feladóval szemben.

Reimbursement of postage, etc., on loss of parcels.

7. Either of the Administrations may at its option reimburse the rightful claimant in the event of complete loss, irreparable damage of entire contents, or rifling of entire contents, for the amount of postage or special charges borne by an insured parcel, if claimed. A biztositási dijat semmi esetben sem téritik vissza.

8. Az igazgatások nem szavatolnak az olyan értéknyilvánitással ellátott küldeményekért, amelyekről a szolgálati okmányoknak erőhatalomból kifolyólag történt megsemmisitése folytán nem tudnak számot adni.

Abban az esetben, ha valamely értéknyilvánitással ellátott csomag feladója, cimzettje vagy tulajdonosa bármely időpontban a csomag tartalmát a tényleges értéknél nagyobbnak jelenti be, vagy bármikor tudatosan és szán dékosan hamis, költött vagy csalárd bizonyitékot szolgástat, a kártérितésért felelős igazgatás fenntartja magának a jogot, hogy—a postai dijak vagy

12. A felvevő igazgatás ama esetek kivételével, amikor a fizetést a megelőző pont értelmében ki lehet tolni, jogosult a rendeltetési igazgatás terhére a kártéritést kifizetni, ha ez az igazgatás, miután a kártéritési igényről szabályszerüen értesitették, kilenc hónap alatt az ügyet nem intézte el.

13. The obligation of paying the indemnity shall rest with the country to which the mailing office is subordinate. That country can make a claim on the country responsible, that is to say, against the Administration on the territory or in the service of which the loss, rifling, or damage took place.

Country responsible.

13. A kártérités kifizetésének kötelezettsége azt az országot terheli, amelynek fennhatósága alá tartozik a felvevő hivatal. Ennek az országnak kereseti joga van a felelős országgal szemben, tehát ama igazgatással szemben, emelynek területén vagy szolgálatában az elveszés, kifosztás vagy sérülés történt.

Note from Secretary of State to German Ambassador.

DEPARTMENT OF STATE,
*Washington, December 31, 1928.*

EXCELLENCY:

Proposition for agreement.

I have the honor to refer to your note of November 26, 1928, regarding the concluding of an agreement between the United States and Germany for the extension of the jurisdiction of the Mixed Claims Commission, United States and Germany, to include claims of the same character as those of which the Commission now has jurisdiction under the agreement between the two Governments signed August 10, 1922, which were not filed in time to be submitted to the Commission under the terms of the notes exchanged at the time of signing that agreement but which were filed with the Department of State prior to July 1, 1928.

Vol. 42, p. 2200.

You state that your Government is prepared to do its share to bring about a settlement of these so-called late claims, but that it considers that the preparation and adjudication of the claims should be governed by the same legal principles as have so far been applied in the proceedings of the Mixed Claims Commission, and that means should be found by which a prompt and speedy preparation and adjudication of the claims involved may be fully guaranteed. Your Government suggests that as an appropriate means to this end, fixed and final terms should be agreed upon for the filing of claims and defense material, including the necessary evidence, and that a requirement should be made that all claims to be adjudicated by the Commission should be presented for judgment within a fixed period of time. You add that, owing to the fact that the adjudication of the late claims will necessitate the continuance of the expensive machinery of the Mixed Claims Commission for some months, which would not otherwise be necessary or which would not have been necessary to the same extent if the claims had been presented within the time prescribed by the agreement of August 10, 1922, your Government considers that the claimants for whom a remedy will thus be afforded should participate to an appropriate extent in the expenses which will result from the prolongation of the life of the Commission. This, you suggest, might be accomplished by the collection of a fee for the final filing of each claim, thus eliminating to the greatest possible extent claims which are unfounded or which are presented in unjustified amounts, and an additional fee for preparing and adjudicating the claim.

I desire to express my appreciation of the willingness of your Government to cooperate with my Government in an effort to complete the adjudication of the claims defined above. My Government, equally with your Government, is anxious that the work of the Mixed Claims Commission should be completed at the earliest date practicable and will use its best endeavors to that end. With respect to your suggestion that the claimants who will be benefited by an extension of time for the presentation of so-called late claims should share to an appropriate extent the additional expense incident to the prolongation of the labors of the Mixed Claims Commission, my

Government considers that it would not be feasible to require the deposit of a fee as a condition precedent to the adjudication of the claims. In an effort, however, to meet the views of your Government that it should be relieved of this additional expense, the President would be willing to recommend to the Congress that the one-half of one per cent. which the Secretary of the Treasury is authorized by the "Settlement of War Claims Act of 1928" to deduct from awards made by the Mixed Claims Commission before payment thereof to the claimants as reimbursement for the expenses of the United States incident to the adjudication of the claims, shall, in so far as regards the late claims, be made available to your Government for defraying such expenses as may be incurred by your Government in connection with the adjudication of such late claims. I, therefore, suggest the following as the terms of the agreement between the two Governments:

Terms suggested.

(1) That all the late claims of American nationals against Germany, notice of which was filed with the Department of State prior to July 1, 1928, of the character of which the Mixed Claims Commission, United States and Germany, now has jurisdiction under the claims agreement concluded between the United States and Germany on August 10, 1922, shall be presented to the Commission with the supporting evidence within six calendar months from the first day of February, 1929;

American late claims to be presented within six months from February 1, 1929.

(2) That the answer of the German Government to each claim presented shall, together with supporting evidence, be filed with the Commission within six calendar months from the date on which the claim is presented to the Commission, as provided for in paragraph 1;

German answer to be in six months after presentation.

(3) That the subsequent progress of the claims before the Commission, including the submission of additional evidence and the filing of briefs, shall be governed by rules prescribed by the Commission, it being understood that both Governments are equally desirous of expediting the completion of the work of the Commission;

Procedure.

(4) That the preparation and adjudication of the claims shall be governed by the same legal principles as have so far been applied in the proceedings before the Mixed Claims Commission;

Adjudication.

(5) That the President will recommend to the Congress that the one-half of one per cent. which the Secretary of the Treasury is authorized by the "Settlement of War Claims Act of 1928" to deduct from awards made by the Mixed Claims Commission before payment thereof to the claimants for application to the expenses of the United States incident to the adjudication of the claims, shall, in so far as regards the late claims, be made available to the German Government for defraying such expenses as may be incurred by that Government in connection with the adjudication of such late claims.

Recommendation for deduction from award to German expenses.

Upon the receipt from you of a note expressing the concurrence of your Government in the conditions outlined in paragraphs 1 to 5 inclusive, the agreement contemplated by paragraph (j) of Section 2 of the "Settlement of War Claims Act of 1928" will be regarded as consummated.

Effect of concurrence in agreement.

ARTICLE I.

Les Hautes Parties Contractantes réservent respectivement leurs droits et revendications quant à l'étendue de leur juridiction territoriale, sans que l'arrangement actuel y porte préjudice.

ARTICLE II.

The President of the Hellenic Republic agrees that Greece will raise no objection to the boarding of private vessels under the Greek flag outside the limits of territorial waters by the authorities of the United States, its territories or possessions in order that enquiries may be addressed to those on board and an examination be made of the ship's papers for the purpose of ascertaining whether the vessel or those on board are endeavoring to import or have imported alcoholic beverages into the United States, its territories or possessions in violation of the laws there in force. When such enquiries and examination show a reasonable ground for suspicion, a search of the vessel which shall have given ground for such suspicion, may be effected.

Lorsque de telles questions et examen donneront des causes raisonnables de suspicion, une visite du navire que aura donné ces causes pourra être effectuée.

ARTICLE III.

§2. Toutes ces installations et stations doivent, autant que possible, observer les dispositons réglementaires relatives aux secours à prêter en cas de détresse et aux mesures à prendre pour empêcher le brouillage. Elles doivent aussi, autant que possible, observer les dispositions réglementaires en ce qui concerne les types d'ondes et les fréquences à utiliser, selon le genre de service que lesdites stations assurent.

§3. Toutefois, lorsque ces installations et stations font un échange de correspondance publique ou participent aux services spéciaux régis par les Règlements annexés à la présente Convention, elles doivent se conformer, en général, aux prescriptions réglementaires pour l'exécution de ces services.

# RÈGLEMENT GÉNÉRAL ANNEXÉ À LA CONVENTION RADIOTÉLÉGRAPHIQUE INTERNATIONALE.

General regulations.

## ARTICLE PREMIER.

### *Définitions.*

Definitions.

Supplementary.

*Ante*, p. 2761.

Dans le présent Règlement, complémentairement aux définitions mentionnées à l'Article premier de la Convention:

le terme "station mobile" désigne une station mobile quelconque;

le terme "stations mobiles" désigne l'ensemble des stations mobiles, quel que soit leur emplacement;

le terme "station de bord" désigne une station placée à bord d'un navire qui n'est pas amarré en permanence;

le terme "station d'aéronef" désigne une station placée à bord d'un aéronef;

le terme "station côtière" désigne une station terrestre affectée aux communications avec les stations de bord. Ce peut être une station fixe affectée aussi aux communications avec les stations de bord; elle n'est alors considérée comme station côtière que pendant la durée de son service avec les stations de bord;

le terme "station aéronautique" désigne une station terrestre affectée aux communications avec les stations d'aéronef. Ce peut être une station fixe affectée aussi aux communications avec les stations d'aéronef; elle n'est alors considérée comme station aéronautique que pendant la durée de son service avec les stations d'aéronef;

le terme "station" désigne une station quelconque, sans égard pour son affectation;

le terme "station terrestre" a une signification générale; il est utilisé quand les relations envisagées portent en même temps sur les communications avec les stations de bord, sur les communications avec les stations d'aéronef et sur les communications avec d'autres stations mobiles quelconques. Il désigne alors tout à la fois une station côtière pour ce qui est des communications avec les stations de bord, une station aéronautique pour ce qui est des communications avec les stations d'aéronef, et une station sur terre ferme quelconque destinée aux communications avec les autres stations mobiles quelconques;

le terme "service de radiodiffusion" désigne un service assurant la diffusion de communications radiotéléphoniques destinées à être reçues par le public, directement ou par l'intermédiaire de stations-relais;

le terme "service fixe" désigne un service assurant des communications radioélectriques de toute nature entre points fixes, à l'exclusion du service de radiodiffusion et des services spéciaux;

le terme "service mobile" désigne un service de radiocommunicas tion exécuté entre stations mobiles et stations terrestres et par le-stations mobiles communiquant entre elles, à l'exclusion des services spéciaux;

le terme "services spéciaux" désigne les services de radiophares, de radiogoniométrie, les émissions de signaux horaires, d'avis aux navigateurs, d'ondes étalonnées, les émissions destinées à des buts scientifiques, etc.;

le terme "radiophare" désigne une station spéciale dont les émissions sont destinées à permettre à une station de réception de déterminer son relèvement, ou une direction, par rapport au radiophare;

le terme "station radiogoniométrique" désigne une station pourvue d'appareils spéciaux, destinés à déterminer la direction des émissions d'autres stations;

le terme "station de radiodiffusion" désigne une station utilisée pour la diffusion des émissions radiotéléphoniques destinées à être reçues par le public;

le terme "station expérimentale privée" désigne 1° une station privée destinée à des expériences en vue du développement de la technique ou de la science radioélectrique, 2° une station utilisée par un "amateur", c'est-à-dire par une personne dûment autorisée, s'intéressant à la technique radioélectrique dans un but uniquement personnel et sans intérêt pécuniaire.

le terme "Administration" désigne une Administration gouvernementale.

ARTICLE 2.

Licenses.

*Licence.*

Requirements.

§1. Aucune station radioélectrique émettrice ne pourra être établie ou exploitée par un particulier ou par une entreprise privée sans licence spéciale délivrée par le Gouvernement du Pays dont relève la station en question.

§2. Le titulaire d'une licence doit s'engager à garder le secret des correspondances, tant au point de vue télégraphique que téléphonique. En outre, il doit résulter de la licence qu'il est interdit de capter les correspondances radioélectriques autres que celles que la station est autorisée à recevoir et que, dans le cas où de telles correspondances sont involontairement reçues, elles ne doivent être ni reproduites par écrit, ni communiquées à des tiers, ni utilisées dans un but quelconque.

§3. Afin de faciliter la vérification des licences, il est recommandé d'ajouter, s'il y a lieu, au texte rédigé dans la langue nationale, une traduction de ce texte en une langue dont l'usage est très répandu dans les relations internationales.

ARTICLE 3.

Choice and calibration of apparatus.

*Choix et étalonnage des appareils.*

§1. Le choix des appareils et des dispositifs radioélectriques à employer par une station est libre, à condition que les ondes émises soient conformes aux stipulations de ce Règlement.

§2. (1) Les Administrations doivent prendre les mesures nécessaires pour s'assurer que les fréquencemètres (ondemètres) employés pour le réglage des appareils de transmission soient étalonnés d'une façon aussi précise que possible, par comparaison avec leurs instruments-étalons nationaux.

(2) En cas de contestation internationale, les comparaisons sont faites par une méthode de mesure absolue des fréquences.

ARTICLE 4.

Classification and use of radio emissions.

*Classification et emploi des émissions radioélectriques.*

§1. (1) Les émissions radioélectriques sont réparties en deux classes:

A. Ondes entretenues.

B. Ondes amorties,

définies comme suit:

*Classe A:* Ondes dont les oscillations successives sont identiques en régime permanent.

*Classe B:* Ondes composées de trains successifs dans lesquels l'amplitude des oscillations, après avoir atteint un maximum, décroît ensuite graduellement.

(2) Les ondes de la Classe A comprennent les types ci-après, qui sont définis comme suit:

*Type A1:* Ondes entretenues non modulées. Ondes entretenues dont l'amplitude ou la fréquence varie sous l'effet d'une manipulation télégraphique.

*Type A2:* Ondes entretenues modulées à fréquence audible. Ondes entretenues dont l'amplitude ou la fréquence varie suivant une loi périodique de fréquence audible combinée avec une manipulation télégraphique.

*Type A3:* Ondes entretenues modulées par la parole ou par la musique. Ondes entretenues dont l'amplitude ou la fréquence varie suivant les vibrations caractéristiques de la parole ou de la musique.

(3) La classification qui précède, en ondes A1, A2, et A3, n'empêche pas l'emploi, dans des conditions fixées par les Administrations intéressées, d'ondes modulées et/ou manipulées, par des procédés ne rentrant pas dans les définitions des types A1, A2, et A3.

(4) Ces définitions ne sont pas relatives aux systèmes des appareils d'émission.

(5) Les ondes seront désignées en premier lieu par leur fréquence en kilocycles par seconde (kc/s). A la suite de cette désignation sera indiquée, entre parenthèses, la longueur approximative en mètres. Dans le présent Règlement, la valeur approximative de la longueur d'onde en mètres est le quotient de la division du nombre 300000 par la fréquence exprimée en kilocycles par seconde.

§2. Les ondes émises par une station doivent être maintenues à la fréquence autorisée, aussi exactment que le permet l'état de la technique, et leur rayonnement doit être aussi exempt qu'il est pratiquement possible de toute émission qui n'est pas essentielle au type de la communication effectuée.

§3. Les Administrations intéressées fixent la tolérance admissible pour l'écart entre la fréquence moyenne des émissions et la fréquence notifiée; elles s'efforcent de profiter des progrès de la technique, pour réduire progressivement cette tolérance.

§4. La largeur d'une bande de fréquences occupée par l'émission d'une station doit répondre raisonnablement aux progrès techniques, pour le type de communication dont il s'agit.

§5. Dans le cas où des bandes de fréquences sont attribuées à un service déterminé, les stations de ce service doivent employer des fréquences suffisamment éloignées des limites de ces bandes, pour ne pas produire de brouillage nuisible dans le travail des stations appartenant aux services auxquels sont attribuées les bandes de fréquences immédiatement voisines.

## ARTICLE 5.

*Distribution et emploi des fréquences (longueurs d'onde) et des types d'émission.*

Allocation and use of frequencies (wave lengths) and types of emissions.

§1. Les Administrations des Pays contractants peuvent attribuer une fréquence quelconque et un type d'ondes quelconque à toute station radioélectrique sous leur autorité, à la seule condition qu'il n'en résulte pas de brouillages avec un service quelconque d'un autre Pays.

§2. Toutefois, ces Administrations sont d'accord pour attribuer, aux stations qui, en raison de leur nature même, sont supposées capables de causer de sérieux brouillages internationaux, des fréquences et des types d'ondes en conformité avec les règles de répartition et d'emploi des ondes, telles qu'elles sont indiquées ci-dessous.

§3. Les Administrations sont aussi d'accord pour considérer le tableau de répartition des bandes de fréquences (voir §7) comme un guide donnant, pour les différents services, les limites devant être respectées pour toutes les stations nouvelles et auxquelles devront être adaptées toutes les stations existantes, dans un délai

aussi court qu'il sera pratiquement possible de l'obtenir, sans diminuer la qualité du service que ces stations existantes assurent, et compte tenu de l'état actuel de leurs installations.

§4. Cependant, les fréquences de toutes les stations de radiodiffusion travaillant actuellement avec des fréquences inférieures à 300 kc/s (longueurs d'onde supérieures à 1000m) devront, en principe, être ramenées, au plus tard un an après la mise en vigueur du présent Règlement, soit dans la bande comprise entre 160 et 224 kc/s (longueurs d'onde 1875 à 1340m) soit dans la bande comprise entre 550 et 1500 kc/s (longueurs d'onde 545 à 200m).

§5. Aucune nouvelle station de radiodiffusion ne sera autorisée à travailler dans la bande de fréquences comprise entre 160 et 224 kc/s (longueurs d'onde 1875–1340m), à moins qu'il n'en résulte pas d'inconvénient pour les services de radiocommunication existants, y compris les services de radiodiffusion effectués par les stations qui utilisent déjà des fréquences entrant dans la dite bande, et les stations dont les fréquences seraient ramenées à l'intérieur de cette même bande, par application des dispositions du §4, ci-dessus.

§6. La puissance des stations de radiodiffusion existantes qui utilisent des fréquences inférieures à 300 kc/s (longueurs d'onde supérieures à 1000m) ne doit pas être augmentée, à moins qu'il n'en résulte pas d'inconvénient pour les services de radiocommunication existants.

§7. Le tableau ci-contre donne la répartition des fréquences (longueurs d'onde approximatives) entre les divers services.

[1]) L'onde de 143 kc/s (2100m) est l'onde d'appel des stations mobiles utilisant des ondes longues entretenues.

[2]) L'onde de 333 kc/s (900m) est l'onde internationale d'appel des services aériens.

[3]) L'onde de 500 kc/s (600m) est l'onde internationale d'appel et de détresse. Elle peut être employée pour d'autres usages à condition de ne pas brouiller les signaux d'appel et de détresse.

[4]) Les services mobiles peuvent utiliser la bande 550–1300 kc/s (545–230m) à condition de ne pas brouiller les services d'un Pays qui utilise cette même bande exclusivement pour la radiodiffusion.

NOTE.—Il est reconnu que les ondes courtes (fréquences de 6000 à 23000 kc/s approximativement—longueurs d'onde de 50 à 13m environ) ont une grande efficacité pour les communications à grande distance. Il est recommandé de réserver, en règle générale, cette bande d'ondes pour cet objet, dans les services entre points fixes.

Usages designated.

§8. (1) L'usage des ondes du type B d'une fréquence inférieure à 375 kc/s (longeur d'onde supérieure à 800m) sera interdit à partir du 1er Janvier 1930, sous réserve des dispositions du §1 du présent Article, et sauf pour les stations terrestres existantes.

(2) Aucune nouvelle installation d'émetteurs d'ondes du type B ne pourra être faite sur des navires ou des aéronefs à partir du 1er Janvier 1930, sauf quand ces émetteurs, travaillant à pleine puissance, dépenseront moins de 300 watts mesurés à l'entrée du transformateur d'alimentation à fréquence audible.

(3) L'usage des ondes du type B de toutes fréquences sera interdit à partir du 1er Janvier 1940, sauf pour les émetteurs remplissant les conditions de puissance indiquées en (2) ci-dessus.

(4) Aucune nouvelle installation d'émetteurs du type B ne pourra être faite désormais dans une station terrestre ou fixe. Les ondes de ce type seront interdites dans toutes les stations terrestres à partir du 1er Janvier 1935.

Uses--Continued.

§9. L'emploi du type d'ondes A3 n'est pas autorisé entre 100 et 160 kc/s (3000 et 1875m).

§10. L'emploi du type d'ondes A2 n'est pas autorisé entre 100 et 150 kc/s (3000 et 2000m), sauf dans la bande 100–125 kc/s (3000–2400m) pour les signaux horaires exclusivement.

§11. Dans la bande 460–550 kc/s (650–545m) aucun type d'émission susceptible de rendre inopérants les signaux de détresse, d'alarme, de sécurité ou d'urgence, émis sur 500 kc/s (600m), n'est autorisé.

§12. En principe, toute station qui assure un service entre points fixes sur une onde de fréquence inférieure à 110 kc/s (longueur d'onde supérieure à 2725m) doit employer une seule fréquence, choisie parmi les bandes attribuées au dit service (§7 ci-dessus), pour chacun des émetteurs qu'elle comporte, susceptibles de fonctionner simultanément. Il n'est pas permis à une station de faire usage, pour un service entre points fixes, d'une fréquence autre que celle attribuée comme il est dit ci-dessus.

§13. En principe, les stations emploient les mêmes fréquences et les mêmes types d'émission pour les transmissions de messages par la méthode unilatérale que pour leur service normal. Toutefois, des arrangements régionaux peuvent être réalisés, en vue de dispenser les stations intéressées de se soumettre à cette règle.

§14. Afin de faciliter l'échange des messages météorologiques synoptiques, dans les régions européennes, deux fréquences entre 37,5 et 100 kc/s (longueurs d'onde entre 8000 et 3000m), seront attribuées à ce service par des arrangements régionaux.

§15. Pour faciliter la transmission et la distribution rapides des renseignements utiles à la découverte des crimes et à la poursuite des criminels une fréquence entre 37,5 et 100 kc/s (longueur d'onde entre 8000 et 3000m), sera réservée, pour cet objet, par des arrangements régionaux.

§16. (1) Les fréquences assignées par les Administrations à toutes nouvelles stations fixes, terrestres ou de radiodiffusion dont elles ont autorisé ou entrepris l'installation doivent être choisies de manière à éviter, autant qu'il est possible, de brouiller les services internationaux effectués par les stations existantes, dont les fréquences ont déjà été notifiées au Bureau international. Dans le cas d'un changement de la fréquence d'une station existante fixe, terrestre ou de radiodiffusion, la nouvelle fréquence assignée à cette station doit satisfaire à la condition mentionnée ci-dessus.

(2) Les Gouvernements intéressés s'entendent, en cas de besoin, pour la fixation des ondes à attribuer aux stations dont il s'agit ainsi que pour la détermination des conditions d'emploi des ondes ainsi attribuées. Si aucun arrangement en vue d'éviter les brouillages ne peut être réalisé, les prescriptions de l'Article 20 de la Convention peuvent être appliquées.

§17. (1) Chaque Administration avise promptement le Bureau international, lorsqu'elle décide ou autorise l'établissement d'une station de radiocommunication dont l'exploitation nécessite l'attribution, en vue d'un service régulier, d'une fréquence déterminée, inférieure à 37,5 kc/s (d'une longueur d'onde supérieure à 8000m), dans le cas où l'emploi de cette fréquence pourrait causer des brouillages internationaux sur des régions étendues. Cet avis doit parvenir au Bureau international quatre mois avant la construction de la station envisagée, de manière à permettre de régler les objections qu'une quelconque des Administrations pourrait soulever contre l'adoption de la fréquence proposée.

(2) Dans le cas d'une station fixe à ondes courtes, destinée à effectuer un service régulier et dont le rayonnement serait susceptible de causer des brouillages internationaux, l'Administration intéressée

doit, en règle générale, avant l'achèvement de la station et en tout cas avant qu'elle soit ouverte au service, notifier au Bureau international la fréquence assignée à cette station. Uses—Continued.

(3) Une telle notification n'est faite, toutefois, que lorsque l'Administration intéressée a acquis la certitude que le service dont il s'agit pourra être établi dans un délai raisonnable.

§18. (1) Chaque Administration peut attribuer aux stations d'amateurs des fréquences choisies dans les bandes allouées aux amateurs, dans le tableau de répartition (§7 ci-dessus). Amateur stations.

(2) La puissance maximum que ces stations peuvent utiliser est fixée par les Administrations intéressées, en tenant compte des qualités techniques des opérateurs et des conditions dans lesquelles les dites stations doivent travailler.

(3) Toutes les règles générales fixées dans la Convention et dans ce Règlement s'appliquent aux stations d'amateurs. En particulier, la fréquence des ondes émises doit être aussi constante et aussi exempte d'harmoniques que l'état de la technique le permet.

(4) Au cours de leurs émissions, ces stations doivent transmettre leur indicatif d'appel à de courts intervalles.

## ARTICLE 6.

### *Service des stations expérimentales privées.*

Service of private experimental stations.

§1. L'échange de communications entre stations expérimentales privées, de Pays différents, est interdit, si l'Administration de l'un des Pays intéressés a notifié son opposition à cet échange.

§2. Lorsque cet échange est permis, les communications doivent, à moins que les Pays intéressés n'aient pris d'autres arrangements entre eux, s'effectuer en langage clair et se limiter aux messages ayant trait aux expériences et à des remarques d'un caractère personnel pour lesquelles, en raison de leur manque d'importance, le recours au service télégraphique public ne saurait entrer en considération.

§3. Dans une station expérimentale privée, autorisée à effectuer des émissions, toute personne manœuvrant les appareils, pour son propre compte ou pour celui de tiers, doit avoir prouvé qu'elle est apte à transmettre les textes en signaux du Code Morse et à lire, à la réception radioélectrique auditive, les textes ainsi transmis. Elle ne peut se faire remplacer que par des personnes autorisées, possédant les mêmes aptitudes.

§4. Les Administrations prennent telles mesures qu'elles jugent nécessaires pour vérifier les capacités, au point de vue technique, de toute personne manœuvrant les appareils.

## ARTICLE 7.

### *Certificats des opérateurs.*

Operators' certificates.

§1. (1) Le service de toute station mobile, radiotélégraphique ou radiotéléphonique, doit être assuré par un opérateur radiotélégraphiste, possesseur d'un certificat délivré par le Gouvernement dont dépend cette station. Toutefois, dans les stations mobiles pourvues d'une installation de radiotéléphonie de faible puissance (d'une puissance ne dépassant pas 300 watts alimentation), utilisable seulement pour le téléphonie, le service peut être assuré par un opérateur titulaire du seul certificat de radiotéléphoniste.

(2) Dans le cas d'indisponibilité absolue de l'opérateur, au cours d'une traversée, d'un vol ou d'un voyage, le Commandant ou la personne responsable de la station mobile peut autoriser, mais à titre temporaire seulement, un opérateur possédant un certificat délivré par un autre Gouvernement contractant, à assurer le service

radioélectrique. Lorsqu'il devra être fait appel, comme opérateur provisoire, à une personne ne possédant pas de certificat suffisant, son intervention devra se limiter aux cas d'urgence. De toutes façons, l'opérateur ou la personne susvisés devront être remplacéx aussitôt que possible, par un opérateur en possession du certificat prévu au §1 (1) ci-dessus.

§2. Il y a deux classes de certificats et des certificats spéciaus, pour les opérateurs radiotélégraphistes et une classe de certificat pour les opérateurs radiotéléphonistes.

Certificates of radiotelegraph operators.

*Certificats de radiotélégraphiste.*

§3. (1) Chaque Gouvernement reste libre de fixer le nombre des examens jugés nécessaires pour accéder au certificat de 1re classe.

(2) Le certificat de 1re classe constate obligatoirement que l'opérateur possède les aptitudes requises pour l'obtention du certificat de radiotéléphoniste. Chaque Gouvernement demeure libre d'exiger ou non ces mêmes aptitudes pour le certificat de 2e classe.

Qualifications.

(3) Les conditions minima à imposer pour l'obtention de ces certificats sont les suivantes:

First class.

*A. Première classe.*

Le certificat de 1re classe constate la valeur professionnelle et technique de l'opérateur en ce qui concerne:

b) La connaissance théorique et pratique du fonctionnement des appareils accessoires, tels que groupes électrogènes, accumulateurs, etc., utilisés pour la mise en œuvre et le réglage des appareils indiqués au littera a).

c) Les connaissances pratiques nécessaires pour effectuer, par les moyens du bord, les réparations d'avaries pouvant survenir aux appareils, en cours de voyage.

d) La transmission correcte et la réception auditive correcte de groupes de code (mélange de lettres, de chiffres et de signes de ponctuation), à une vitesse de 20 (vingt) groupes par minute, et d'un texte en langage clair maternel, à une vitesse de 25 (vingt-cinq) mots par minute. Chaque groupe de code doit comprendre cinq caractères, chaque chiffre ou signe de ponctuation comptant pour deux caractères. Le mot moyen du texte en langage clair maternel doit comporter cinq caractères.

e) La connaissance détaillée des Règlements s'appliquant à l'échange des communications radioélectriques, la connaissance des documents relatifs à la taxation des radiotélégrammes, la connaissance de la partie des Règlements sur la sécurité de la vie humaine en mer se rapportant à la radiotélegraphie, et, pour la navigation aérienne, la connaissance des dispositions spéciales régissant le service radioélectrique de la navigation aérienne.

f) La connaissance de la géographie générale des cinq parties du monde, notamment des principales liaisons électriques par fil et "sans fil".

Second class.

*B. Deuxième classe.*

Le certificat de 2e classe constate la valeur professionnelle de l'opérateur en ce qui concerne:

a) La connaissance théorique et pratique élémentaire de l'électricité et de la radiotélégraphie, ainsi que la connaissance du réglage et du fonctionnement des appareils utilisés dans le service mobile.

b) La connaissance théorique et pratique élémentaire du fonctionnement des appareils accessoires tels que groupes électrogènes, accumulateurs, etc., utilisés pour la mise en œuvre et le réglage des appareils mentionnés au littera a).

c) Les connaissances pratiques suffisantes pour pouvoir effectuer les petites réparations, en cas d'avaries survenant aux appareils.

d) La transmission correcte et la réception auditive correcte de groupes de code (mélange de lettres, de chiffres et de signes de ponctuation), à une vitesse de 16 (seize) groupes par minute, et d'un texte en langage clair maternel, à une vitesse de 20 (vingt) mots par minute. Chaque groupe de code doit comprendre cinq caractères, chaque chiffre ou signe de ponctuation comptant pour deux caractères. Le mot moyen du texte en langage clair maternel doit comporter cinq caractères.

e) La connaissance des Règlements s'appliquant à l'échange des communications radioélectriques, la connaissance des documents relatifs à la taxation des radiotélégrammes, la connaissance de la partie des Règlements sur la sécurité de la vie humaine en mer, se rapportant à la radiotélégraphie, et, pour la navigation aérienne, la connaissance des dispositions spéciales régissant le service radioélectrique de la navigation aérienne.

f) La connaissance des notions de géographie générale s'appliquant aux communications par fil et "sans fil."

### *C. Certificat spécial.*

Special certificate.

(1) Le service radiotélégraphique des petits navires (auxquels la Convention sur la sauvegarde de la vie humaine en mer n'est pas applicable) peut être assuré pas des opérateurs pourvus d'un certificat spécial répondant aux conditions suivantes:

a) Les opérateurs de celles de ces stations mobiles qui participent au service international de la correspondance publique et au travail général des stations mobiles, doivent être capables d'assurer les communications radioélectriques à la vitesse de transmission et de réception prévue pour l'obtention du certificat de 2e classe.

b) Lorsque ces stations ne participent pas au dit service, mais agissent naturellement en cas de détresse, et qu'elles travaillent sur une onde particulière, en ne gênant pas les autres services radioélectriques, il appartient à chaque Gouvernement intéressé de fixer les conditions d'obtention du certificat.

(2) A titre exceptionnel, il est concédé provisiorement au Gouvernement de la Nouvelle-Zélande d'accorder un certificat spécial, dont il fixe les conditions d'obtention, aux opérateurs de petits bâtiments de sa nationalité, qui ne s'éloignent pas des côtes du dit Pays, et ne participent au service international de la correspondance publique et au travail général des stations mobiles que d'une manière restreinte.

§4. (1) Avant de devenir chef de poste d'une station mobile à bord d'un navire de la première catégorie (Article 20, §2), un opérateur de 1re classe doit avoir au moins une année d'expérience comme opérateur à bord d'un navire ou dans une station côtière.

(2) Pour devenir chef de poste d'une station mobile à bord d'un navire de deuxième catégorie (Article 20, §2), un opérateur de première classe doit avoir au moins six mois d'expérience comme opérateur à bord d'un navire ou dans une station côtière.

(3) Pour assurer le service comme opérateur de 1re classe sur un aéronef, l'opérateur doit justifier d'un nombre d'heures de vol dans le service radioélectrique, fixé par l'Administration qui délivre le certificat.

§5. Les opérateurs qui ont passé avec succès l'examen pour l'obtention du certificat de 2e classe reçoivent de leur Gouvernement un certificat provisoire qui les autorise à embarquer comme chef de poste sur les bâtiments de la troisième catégorie (Article 20, §2). Après avoir justifié d'un service de six mois à bord d'un navire, ils peuvent recevoir le certificat définitif de 2e classe, les autorisant à exercer les mêmes fonctions sur des bâtiments de la deuxième catégorie.

Certificate of radiotelephone operators.

*Certificat de radiotéléphoniste.*

§6. (1) Il n'y a qu'une classe de certificat pour les opérateurs de la radiotéléphonie.

(2) Ce certificat constate la valeur professionnelle de l'opérateur en ce qui concerne:

a) La connaissance du réglage et du fonctionnement des appareils de radiotéléphonie.

b) L'aptitude à la transmission et à la réception, d'une façon claire, de la conversation par l'appareil téléphonique.

c) La connaissance des Règlements s'appliquant à l'échange des communications radiotéléphoniques et de la partie des Règlements radiotélégraphiques concernant la sécurité de la vie humaine.

(3) Les titulaires du certificat de radiotéléphoniste ne peuvent être utilisés que sur les navires, aéronefs, etc., pourvus d'une installation de radiotéléphonie à faible puissance (300 watts alimentation, au maximum) et seulement pour le service téléphonique.

(4) Les opérateurs radiotéléphonistes du service aéronautique doivent justifier d'un minimum d'heures de vol à bord d'un aéronef fixé par les Administrations intéressées.

(5) Le titulaire d'un certificat de radiotélégraphiste de 1re classe, ainsi que le titulaire d'un certificat de radiotélégraphiste de 2e classe pourvu du certificat de radiotéléphoniste, peuvent assurer le service radiotéléphonique sur toute station mobile.

§7. Chaque Administration prend les mesures nécessaires pour soumettre les opérateurs à l'obligation du secret des correspondances et pour éviter, dans la plus grande mesure possible, l'emploi frauduleux des certificats.

§8. Les Gouvernements intéressés prendront les dispositions nécessaires pour que le bénéfice des certificats délivrés sous le précedent régime soit maintenu aux titulaires de ces certificats, susceptibles de satisfaire, d'une manière générale, aux nouvelles conditions de délivrance.

§9. Les dispositions du présent Article deviendront obligatoires dans un délai maximum de trois ans après la mise en vigueur du présent Règlement.

## ARTICLE 8.

Authority of the master.

*Autorité du Commandant.*

§1. Le service radioélectrique d'une station mobile est placé sous l'autorité supérieure du Commandant ou de la personne responsable du navire, de l'aéronef ou de tout autre véhicule portant la station mobile.

§2. Le Commandant ou la personne responsable, ainsi que toutes les personnes qui peuvent avoir connaissance du texte ou simplement de l'existence des radiotélégrammes, ou de tout renseignement quelconque obtenu au moyen du service radioélectrique, sont soumis à l'obligation de garder et d'assurer le secret des correspondances.

## ARTICLE 9.

*Procédure générale dans le service mobile.*

General procedure in the mobile service.

§1. Dans le service mobile, la procédure détaillée ci-après est obligatoire, sauf le cas d'appel de détresse ou de correspondance de détresse, auquel sont applicables les dispositions de l'Article 19.

*Post*, p. 2801.

§2. (1) Avant de procéder à toute transmission, la station émettrice doit s'assurer qu'il ne se produira pas de brouillage excessif avec d'autres communications s'effectuant dans son rayon d'action, sur l'onde qu'elle va employer; s'il y a probabilité qu'un tel brouillage sera occasionné, elle attend le premier arrêt dans la transmission qu'elle pourrait troubler.

(2) Si, malgré cette précaution, une transmission radioélectrique en cours est entravée par l'appel, celui-ci doit cesser à la première demande d'une station terrestre ouverte au service international de la correspondance publique ou d'une station aéronautique quelconque. La station qui demande cette cessation doit indiquer la durée approximative de l'attente imposée à la station dont elle arrête l'appel.

§3. Dans les relations radiotélégraphiques du service mobile, la marche ci-après est suivie pour appeler une station:

(1) a) La station appelante effectue l'appel en transmettant, au plus, trois fois l'indicatif d'appel de la station appelée et le mot DE suivi de trois fois, au plus, son propre indicatif d'appel.

b) Pour produire cet appel, la station appelante utilise l'onde sur laquelle veille la station appelée.

(2) La station appelée répond en transmettant, au plus, trois fois l'indicatif d'appel de la station appelante, le mot DE, son propre indicatif d'appel et, si elle est prête à recevoir le trafic, la lettre K (invitation à transmettre), suivie, si elle le juge utile, de l'abréviation appropriée et d'un chiffre indiquant la force des signaux reçus.

(3) Si la station appelée est empêchée de recevoir, elle remplace, dans la formule de réponse, la lettre K par le signal ▪ ▬ ▪ ▪ ▪ (attente), suivi d'un nombre indiquant en minutes la durée probable de l'attente. Si cette durée probable excède 10 minutes, l'attente doit être motivée.

(4) Lorsqu'il y a plusieurs radiotélégrammes à transmettre dans le même sens, ils peuvent être transmis par séries, avec le consentement de la station qui doit les recevoir.

(5) Cette dernière station, en donnant son assentiment, indique le nombre de radiotélégrammes qu'elle est prête à recevoir en une série et fait suivre cette indication de la lettre K.

(6) En principe, tout radiotélégramme contenant plus de 100 mots est considéré comme formant une série, ou met fin à une série en cours.

(7) En règle générale, les longs radiotélégrammes, tant ceux en langage clair que ceux en langage convenu ou chiffré, sont transmis par tranches, chaque tranche contenant 50 mots dans le cas du langage clair et 20 mots ou groupes lorsqu'il s'agit de langage convenu ou chiffré.

(8) A la fin de chaque tranche, le signal ▪ ▪ ▬ ▬ ▪ ▪ (?), signifiant: "Avez-vous bien reçu le radiotélégramme jusqu'ici?" est transmis. Si la tranche a été correctement reçue, la station réceptrice donne la lettre K et la transmission du radiotélégramme est poursuivie.

(9) a) La transmission d'un radiotélégramme se termine par le signal ▪ ▬ ▪ ▬ ▪ (fin de transmission), suivi de l'indicatif d'appel de la station transmettrice et de la lettre K.

Mobile service procedure—Continued.

b) Dans le cas de la transmission par série, l'indicatif d'appel de la station transmettrice et la lettre K ne sont donnés qu'à la fin de la série.

(10) a) L'accusé de réception d'un radiotélégramme est donné au moyen de la lettre R suivie du numéro du radiotélégramme; cet accusé de réception est précédé de la formule ci-après: indicatif d'appel de la station qui a transmis, mot DE, indicatif d'appel de la station qui a reçu.

b) L'accusé de réception d'une série de radiotélégrammes est donné au moyen de la lettre R suivie du nombre des radiotélégrammes reçus, ainsi que des numéros du premier et du dernier télégramme composant la série. Cet accusé de réception est précédé de la formule définie ci-dessus.

(11) La fin du travail entre deux stations est indiquée par chacune d'elles, au moyen du signal ▪ ▪ ▪ ▬ ▪ ▬ (fin de travail), suivi de son propre indicatif d'appel.

§4. (1) Si la station appelante a l'intention de transmettre son trafic avec un type d'onde ou/et sur une fréquence autres que ceux employés pour effectuer l'appel, elle fait suivre son propre indicatif d'appel des indications de service définissant le type d'onde ou/et la fréquence qu'elle se propose d'utiliser pour sa transmission. L'absence de ces indications de service signifie qu'elle n'a pas l'intention de changer de type d'onde ni de fréquence.

(2) Si la station appelée désire que la station appelante transmette avec un type d'onde ou/et sur une fréquence autres que ceux utilisés pour l'appel, elle ajoute à la formule de réponse les indications de service définissant le type d'onde ou/et la fréquence dont elle demande l'emploi. L'absence de ces indications de service signifie qu'elle ne désire pas que le type d'onde ou/et la fréquence utilisés pour l'appel soient changés.

(3) Si la station appelante a indiqué qu'elle va utiliser pour la transmission un type d'onde ou/et une fréquence autres que ceux avec lesquels elle a effectué l'appel, la station appelée, dans la formule de réponse, fait précéder la lettre K des abréviations permettant d'indiquer qu'à partir de ce moment, elle écoute sur le type d'onde ou/et la fréquence annoncés et qu'elle emploiera elle-même les dits type d'onde ou/et fréquence pour toute la durée de la communication.

(4) Si la station appelante est une station terrestre pouvant, conformément aux dispositions du présent Règlement, employer une onde autre que celles qu'il est possible à la station mobile d'émettre elle peut, après avoir établi le contact, utiliser cette onde pour transmettre son trafic. Dans ce cas, la marche à suivre est celle définie ci-après:

a) La station terrestre appelle la station mobile en employant l'onde sur laquelle celle-ci veille et, après avoir obtenu réponse l'informe au moyen de l'abréviation appropriée d'avoir à l'écouter par la suite sur l'onde qu'elle compte utiliser.

b) Si la station mobile peut recevoir l'onde annoncée, elle donne la lettre K. Dans le cas contraire, elle informe la station terrestre, à l'aide de l'abréviation appropriée, de ce qu'il ne lui est pas possible de recevoir l'onde proposée et les deux stations s'entendent pour adopter une autre onde de travail.

(5) La station terrestre conserve l'onde qu'elle a employée jusqu' après la transmission du signal ▪ ▪ ▪ ▬ ▪ ▬ (fin de travail), suivi de son indicatif d'appel. Ce signal, suivi de l'indicatif d'appel, et répété par la station mobile sur l'onde internationale d'appel attribuée à son service.

Mobile service procedure—Continued.

(6) Lorsque la station terrestre qui reçoit une demande de changer le type d'onde ou/et la fréquence ne peut pas ou ne désire pas donner suite à cette demande, elle ne transmet pas le signal K, mais propose, en employant les abréviations appropriées, l'emploi d'un autre type d'onde ou/et d'une autre fréquence.

§5. (1) Sur l'onde de 500 kc/s (600 m) (ou sur une onde autorisée, dans le cas de communications avec une station d'aéronef), les périodes de travail continu entre deux stations ne doivent pas dépasser dix minutes environ; après chacune de ces périodes, un temps d'arrêt doit être observé, afin de permettre, éventuellement, à une autre station de lancer un appel de priorité ou de transmettre un message de priorité.

(2) Sur les autres ondes affectées au service mobile maritime, la durée des périodes de travail continu est sous le contrôle de la station côtière. Dans le cas de communications entre deux stations de bord, c'est la station réceptrice qui détermine la durée des périodes de travail continu.

(3) Dans les communications entre stations d'aéronef, la durée des périodes de travail continu est soumise au contrôle de la station d'aéronef qui reçoit, sous réserve de l'intervention, pour cet objet, de la station aéronautique. Dans les relations entre stations aéronautiques et stations d'aéronef, c'est la station aéronautique qui contrôle la durée des périodes de travail continu.

§6. Lorsqu'une station reçoit un appel sans être certaine que cet appel lui est destiné, elle ne doit pas répondre avant que l'appel n'ait été répété et compris. Lorsque, d'un autre côté, une station reçoit un appel qui lui est destiné, mais a des doutes sur l'indicatif d'appel de la station appelante, elle doit répondre immédiatement en utilisant le signal ▪ ▪ ▬ ▬ ▪ ▪ en lieu et place de l'indicatif d'appel de cette dernière station.

§7. (1) Lorsqu'il est nécessaire de faire des signaux d'essai, aux fins de régler l'appareil avant de procéder à l'appel ou à la transmission, ces signaux ne doivent pas être produits pendant plus de 10 secondes environ, et ils doivent être constitués par une série de V, suivie de l'indicatif d'appel de la station qui opère.

(2) Si une station émet des signaux d'essai à la demande d'une autre station, pour permettre à celle-ci de régler son appareil récepteur, ces signaux doivent également être constitués par une série de V, dans laquelle s'intercale plusieurs fois l'indicatif d'appel de la station émettrice.

## ARTICLE 10.

### *Appel général à toutes les stations mobiles.*

General call to all mobile stations.

§1. Les stations qui désirent entrer en communication avec des stations mobiles, sans toutefois connaître les noms des stations mobiles qui sont dans leur rayon d'action, peuvent employer de signal de recherche CQ, remplaçant l'indicatif de la station appelée dans la formule d'appel, cette formule étant suivie de la lettre K (appel général à toutes les stations mobiles, avec demande de réponse).

§2. Dans les régions où le trafic est intense, l'emploi de l'appel CQ suivi de la lettre K est interdit, sauf en combinaison avec des signaux d'urgence.

§3. L'appel CQ non suivi de la lettre K (appel général à toutes les stations mobiles, sans demande de réponse) est employé pour les radiotélégrammes d'information générale, pour les signaux horaires, pour les informations météorologiques régulières, pour les avis généraux de sécurité et pour les informations de toute nature destinés à être lus par quiconque peut les recevoir.

## ARTICLE 11.

Interferences.

### *Brouillage.*

§1. (1) L'échange de signaux superflus est interdit aux stations mobiles. Des essais et des expériences ne sont tolérés, dans ces stations, qu'autant qu'ils ne troublent point le service d'autres stations.

(2) Chaque Administration apprécie, en vue de leur autorisation, si les essais ou les expériences proposés sont susceptibles de troubler le service des autres stations.

§2. Les essais et réglages, dans une station quelconque, doivent être conduits de façon à ne pas troubler le service des autres stations engagées dans une correspondance autorisée. Les signaux d'essai et de réglage doivent être choisis de telle manière qu'aucune confusion ne puisse se produire avec un signal, une abréviation, etc., d'une signification particulière, définie par le Règlement.

§3. Une station quelconque effectuant des émissions pour des essais, des réglages ou des expériences doit transmettre son indicatif d'appel à de fréquents intervalles, au cours de ces émissions.

§4. L'Administration ou l'exploitation privée qui formule une plainte en matière de brouillage doit, pour étayer et justifier celle-ci, déclarer qu'elle emploie régulièrement des appareils de réception d'un type équivalant au type le meilleur, utilisé dans la pratique courante du service dont il s'agit.

## ARTICLE 12.

Reporting of infractions.

### *Rapport sur les infractions.*

§1. Si une Administration a connaissance d'une infraction à la Convention ou à ce Règlement, commise dans une des stations du service mobile qu'elle a autorisées, elle constate les faits, fixe les responsabilités, et prend les mesures nécessaires.

§2. Les infractions aux règles du service mobile sont signalées, par les stations qui les constatent, à l'Administration dont elles-mêmes relèvent, et ce au moyen d'états conformes au modèle reproduit à l'Appendice 2.

*Post*, p. 2829.

§3. Dans le cas d'infractions réitérées de la part d'une même station, des représentations doivent être faites à l'Administration du Pays dont dépend cette station.

a) trois lettres, dans le cas de stations fixes et de stations terrestres;

b) quatre lettres, dans le cas de stations de bord;

c) cinq lettres, dans le cas de stations d'aéronef;

d) la lettre ou des lettres indiquant la nationalité et d'un seul chiffre suivi d'un groupe de trois lettres au plus, pour les stations expérimentales privées.

§3. Dans le service radioaérien, après que la communication a été établie au moyen de l'indicatif d'appel de cinq lettres, la station d'aéronef peut employer un indicatif abrégé constitué:

a) en radiotélégraphie, par les première et dernière lettres de l'indicatif complet de cinq lettres;

b) en radiotéléphonie, par tout ou partie du nom du propriétaire de l'aéronef (Compagnie ou particulier), suivi des deux dernières lettres de la marque d'immatriculation.

§4. (1) Les 26 lettres de l'alphabet peuvent être employées pour former les indicatifs d'appel; les lettres accentuées sont exclues.

(2) Toutefois, les combinaisons suivantes de lettres ne peuvent être employées comme indicatifs d'appel:

a) combinaisons commençant par A ou par B, ces deux lettres étant réservées pour la partie géographique du Code international de signaux;

b) combinaisons qui pourraient être confondues avec les signaux de détresse ou avec d'autres signaux de même nature;

d) en ce qui concerne les stations d'aéronef, combinaisons comportant la lettre W comme deuxième lettre.

§5. (1) Chaque Pays choisit les indicatifs d'appel de ses stations dans la série internationale qui lui est allouée et notifie au Bureau international l'indicatif d'appel attribué à chacune d'elles.

(2) Le Bureau international veille à ce qu'un même indicatif d'appel ne soit pas attribué à plus d'une station, et à ce que les indicatifs d'appel qui pourraient être confondus avec les signaux de détresse ou d'autres signaux de même nature ne soient attribués à aucune station.

## ARTICLE 15.

### *Inspection des stations.* Inspection of stations.

§1. Les stations mobiles ayant leur port d'attache dans une Colonie, une Possession ou un Protectorat peuvent être considérées comme dépendant de l'Autorité de cette Colonie, de cette Possession ou de ce Protectorat, en ce qui concerne l'octroi des licences.

§2. Les Administrations compétentes des Pays où une station mobile fait escale peuvent exiger la production de la licence; celle-ci doit être conservée de telle façon qu'elle puisse être fournie sans délai. Lorsque la licence n'est pas produite ou que des anomalies manifestes sont constatées, ces Administrations peuvent procéder à l'inspection des installations radioélectriques, en vue de s'assurer qu'elles répondent aux conditions imposées par le présent Règlement.

§3. (1) Lorsqu'une Administration s'est trouvée dans l'obligation de recourir à la mesure prévue au §2 ci-dessus, elle en informe immédiatement l'Administration dont dépend la station mobile en cause. Pour le surplus, il est procédé, le cas échéant, ainsi que le prescrit l'Article 12.

(2) Le délégué de l'Administration qui a inspecté la station doit, avant de quitter celle-ci, faire part de ses constatations au Commandant ou à la personne responsable (Article 8) ou à leur remplaçant.

§4. En ce qui concerne les conditions techniques et d'exploitation auxquelles doivent satisfaire, pour le service radioélectrique international, les stations mobiles titulaires d'une licence, les Gouvernements contractants s'engagent à ne pas imposer aux stations mobiles étrangères qui se trouvent temporairement dans leurs eaux territoriales ou s'arrêtent temporairement sur leur territoire des conditions plus rigoureuses que celles qui sont prévues dans le présent Règlement. Ces prescriptions n'affectent en rien les dispositions qui, étant du ressort de la Convention sur la sauvegarde de la vie humaine en mer, ne sont pas déterminées dans le présent Règlement.

## ARTICLE 16.

Conditions to be observed by mobile stations.

*Conditions à remplir par les stations mobiles.*

§1. (1) Les stations mobiles doivent être établies de manière à se conformer, en ce qui concerne les fréquences et les types d'ondes, aux dispositions générales faisant l'objet de l'Article 5. Suivant ces dispositions, l'emploi, par les stations mobiles, des ondes amorties (type B), d'une fréquence inférieure à 375 kc/s (longueur d'onde supérieure à 800m), sera interdit à partir du 1er Janvier 1930.

(2) En outre, aucune nouvelle installation d'émetteurs d'ondes du type B ne pourra être faite dans les stations mobiles à partir du 1er Janvier 1930, sauf quand ces émetteurs, travaillant à pleine puissance, dépenseront moins de 300 watts mesurés à l'entrée du transformateur d'alimentation à fréquence audible.

(3) Enfin, l'emploi des ondes du type B de toutes fréquences sera interdit à partir du 1er Janvier 1940, sauf pour les émetteurs remplissant les mêmes conditions de puissance que ci-dessus.

§2. (1) Toute station installée à bord d'un navire ou d'un aéronef effectuant un parcours maritime, navire ou aéronef obligatoirement pourvus d'appareils radioélectriques à la suite d'un accord international, doit pouvoir émettre et recevoir sur l'onde de 500 kc/s (600m), types A2 ou B. Les stations de bord doivent, en outre, pouvoir utiliser l'onde de 375 kc/s (800m), type A2 (ou B, sous réserve des dispositions du §1, ci-dessus).

(2) Les stations d'aéronef doivent pouvoir émettre et recevoir l'onde de 333 kc/s (900m) types A2 ou A3 (ou B, sous réserve des dispositions du §1 ci-dessus).

§3. (1) En plus des ondes fixes visées ci-dessus, les stations mobiles équipées pour émettre des ondes des types A1, A2 ou A3 peuvent employer toutes les ondes autorisées à l'Article 5.

(2) L'emploi des ondes du type B n'est autorisé que pour les fréquences (longueurs d'onde) ci-après:

| Kc/s | mètres |
|---|---|
| 375 | 800 |
| 410 | 730 |
| 425 | 705 |
| 454 | 660 |
| 500 | 600 |
| 665 | 450 |
| 1000 | 300 |
| 1364 | 220 |

(3) L'usage de l'onde du type B de 665 kc/s (450m) est interdit dès maintenant dans les régions où cette onde peut gêner la radiodiffusion.

(4) L'emploi de l'onde du type B de 1000 kc/s (300m) pour le trafic est interdit, dès maintenant, entre 18 h 00 et 00 h 00, heure

locale, et sera complètement interdit, à toutes heures, à partir du 1er Janvier 1930, au plus tard. Toutefois, cette même onde du type B de 1000 kc/s (300m) pourra continuer indéfiniment et sans restrictions horaires, à être utilisée par les stations à bord des bateaux de pêche, pour les relèvements radiogoniométriques entre elles, à condition de ne pas gêner la radiodiffusion.

§4. Tous les appareils de stations mobiles établis pour la transmission d'ondes du type A1, entre 125 et 150 kc/s (2400–2000m) doivent permettre l'emploi de trois fréquences au minimum, choisies dans cette bande, et pouvoir assurer le passage rapide de l'une à l'autre de ces fréquences.

§5. (1) Toutes les stations à bord des navires obligatoirement pourvus d'appareils radioélectriques, doivent être à même de recevoir l'onde de 500 kc/s (600m) et, en outre, toutes les ondes nécessaires à l'accomplissement du service qu'elles effectuent.

(2) A partir du 1er Janvier 1932, elles devront être à même de recevoir facilement et efficacement, sur les mêmes fréquences, les ondes des types A1 et A2.

§6. Les appareils d'émission utilisés dans le service mobile doivent être pourvus de dispositifs permettant d'en réduire la puissance. Cette disposition ne s'applique pas aux émetteurs dont la puissance d'alimentation ne dépasse pas 300 watts.

§7. Les appareils récepteurs doivent être tels, que le courant qu'ils induisent dans l'antenne soit aussi réduit que possible et n'incommode pas les stations du voisinage.

§8. Les changements de fréquence dans les appareils émetteurs et récepteurs de toute station mobile doivent pouvoir être effectu ésaussi rapidements que possible. Toutes les installations doivent être telles, que, la communication étant établie, le temps nécessaire au passage de l'émission à la réception et vice versa soit aussi réduit que possible.

## ARTICLE 17.

### *Ondes d'appel et d'écoute.*

Call and listening waves.

§1. (1) Dans la bande comprise entre 360 et 515 kc/s (830–580m), les seules ondes admises en type B sont les suivantes: 375, 410, 425, 454 et 500 kc/s (800, 730, 705, 660 et 600m).

(2) L'onde générale d'appel, qui doit être employée par toute station mobile portée par un navire obligatoirement équipé, et par les stations côtières, est l'onde de 500 kc/s (600m) (A1, A2 ou B).

(3) En dehors de l'onde de 500 kc/s (600m) l'usage des ondes de tous types comprises entre 485 et 515 kc/s (620–580m) est interdit.

(4) L'onde de 500 kc/s (600m) est l'onde internationale d'appel et de détresse. Elle peut être utilisée, mais avec discrétion, pour d'autres buts, si elle ne trouble pas les signaux de détresse, d'urgence de sécurité ou d'appel.

(5) Les stations côtières doivent être en mesure de faire usage au moins d'une onde en plus de celle de 500 kc/s (600m). Cette onde additionnelle est soulignée dans la nomenclature, pour indiquer qu'elle est l'onde normale de travail de la station. Les ondes additionnelles ainsi choisies peuvent être les mêmes que celles des stations de bord, ou peuvent être différentes. En tous cas, les ondes de travail des stations côtières doivent choisies de manière à éviter les brouillages avec les stations voisines.

(6) En dehors des ondes normales de travail soulignées dans la Nomenclature, les stations côtières et de bord peuvent employer, dans la bande autorisée, les ondes supplémentaires qu'elles jugent convenables. Ces ondes sont mentionnés dans la Nomenclature, sans être soulignées.

Call and listening waves—Continued.

§2. (1) En vue d'augmenter la sécurité de la vie humaine sur mer (navires) et au-dessus de la mer (aéronefs), toutes les stations du service mobile *maritime* doivent, pendant la durée le leurs vacations, prendre les mesures utiles pour assurer l'écoute sur l'onde de détresse (500 kc/s = 600m) deux fois par heure, pendant trois minutes commençant à la 15ᵉ minute et à la 45ᵉ minute de chaque heure, temps moyen de Greenwich.

(2) Les stations qui assurent un service de correspondance radiotélégraphique, de presse, etc., avec les navires en mer doivent observer le silence pendant le intervalles indiqués ci-dessus. Seules les émissions envisagées à l'Article 19, §§25 à 27 peuvent être effectuées pendant ces intervalles.

(3) Toutefois, et à titre exceptionnel, les stations terrestres et de bord équipées pour correspondre à l'aide d'ondes entretenues peuvent continuer le travail pendant ces intervalles, si elles sont en mesure de maintenir en même temps une écoute satisfaisante sur l'onde de détresse, ainsi qu'il est prévu à l'alinéa (1) du présent paragraphe.

§3. Les règles ci-après doivent être suivies dans l'exploitation des stations du service mobile employant des ondes du type A1 de la bande de 100 à 160 kc/s (3000–1875m), laquelle est attribuée au service mobile.

a) Toute station côtière assurant une communication sur une onde longue entretenue doit faire l'écoute sur l'onde de 143 kc/s (2100m) à moins qu'il n'en soit indiqué autrement dans la Nomenclature. La station côtière transmet tout son trafic sur l'onde ou sur les ondes qui lui sont spécialement attribuées.
