Here are entered works on the ancient country and
kingdom of Macedonia, which later became a Roman
province, as well as works on the region in the central
Balkan Peninsula of somewhat indefinite boundaries,
but including the Macedonia region of Greece, most
of the middle Vardar Valley in the Macedonian
Republic of the former Yugoslavia, and southwest
Bulgaria west of the Mesta River. Works on the
jurisdiction and the regions resulting from the division
own names.

## Manned space flight

Here are entered general and technical works on
manned space travel. Works giving accounts of
space flights are entered under Space flights. Works
on the physics and technical details of locomotion
beyond the earth's atmosphere are entered under
Space flight. General works on the scientific,
technological, and engineering disciplines needed for
the exploration of outer space are entered under
Astronautics. General works on travel to the planets
or to the stars are entered under Interplanetary
voyages or Interstellar travel.
