

Collected Works (Nonserial) F 250

1. General rule. Class the following types of publications in the **Collected works (nonserial)** number found at the head of major topics:

- Multipart items consisting of monographic works by more than one author.
- Collected works of one author, e.g., the complete works of one author on the topic, including monographs, essays, etc.
- Collections of abstracts (cf. F 480)

2. Selected works of one author. Class the selected works of one author on a topic in the **General works** number.

3. Using the General works number. If there is no provision for nonserial collected works under a topic, do not establish a new number. Use the **General works** number instead.

4. Serial publications. Class serial publications in the periodicals number.
