[CHAPTER 1114]

AN ACT

To authorize the Palisades Dam and Reservoir project, to authorize the north side pumping division and related works, to provide for the disposition of reserved space in American Falls Reservoir, and for other purposes.

September 30, 1950
[S. 2195]
[Public Law 864]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Palisades Dam and Reservoir project, Idaho, heretofore authorized under the provisions of the Federal reclamation laws by the presentation to the President and the Congress of the report of December 9, 1941 (House Document Numbered 457, Seventy-seventh Congress, first session), by the Secretary of the Interior (herein called the Secretary), is hereby reauthorized under the Federal reclamation laws for construction and operation and maintenance substantially in accordance with that report as supplemented and modified by the Commissioner's supplemental report and the recommendations incorporated by reference therein, as approved and adopted by the Secretary on July 1, 1949, and as including, upon approval by the President of a suitable plan therefor, facilities for the improvement of fish and wildlife along the headwaters of the Snake River, such facilities to be administered by the Fish and Wildlife Service: *Provided,* That, notwithstanding recommendations to the contrary contained in said report (a) the Secretary shall reserve not to exceed fifty-five thousand acre-feet of active capacity in Palisades Reservoir for a period ending December 31, 1952, for replacement of Grays Lake storage, but no facilities in connection with the proposed wildlife management area at Grays Lake shall be built and no allocation of construction costs of the Palisades Dam and Reservoir by reason of providing replacement storage to that area shall be made until the development and operation and maintenance of the wildlife management area has been authorized by Act of Congress, and (b) the nonreimbursable allocation on account of recreation shall be limited to the costs of specific recreation facilities in an amount not to exceed \$148,000.

Reauthorization.

SEC. 2. There are hereby authorized for construction and operation and maintenance under the Federal reclamation laws: (a) the north side pumping division of the Minidoka project, this to be substantially in accordance with the Commissioner's report and the recommendations incorporated by reference therein, as approved and adopted by the Secretary on July 1, 1949: *Provided,* That, notwithstanding recommendations to the contrary contained in said report, (1) lease or sale of that portion of the power service system extending from the substations to the pumping plants may be made to any entity on terms and conditions that will permit the United States to continue to provide power and energy to the pumping facilities of the division, and, in the event of lease or sale to a body not entitled to preference in the purchase of power under the Federal reclamation laws, will preserve a reasonable opportunity for subsequent lease or sale to a body that is entitled to such privilege, (2) no allocation of construction costs of the division shall be made on a nonreimbursable basis by reason of wildlife benefits, and (3) there shall be, in lieu of a forty-year period, a basic repayment period of fifty years for repayment,

in the manner provided in the recommendations, of the irrigation costs assigned for repayment by the water users; and (b) for the furnishing of electric power for irrigation pumping to that division and for other purposes, power generating and related facilities at American Falls Dam. These generating and related facilities, to the extent the Secretary finds to be proper for pay-out and rate-making purposes, may be accounted for together with other power facilities operated by the Secretary that are interconnected with the American Falls Dam power facilities, excluding any power facilities the net profits of which are governed by subsection I of section 4 of the Act of December 5, 1924 (43 Stat. 703). The authorizations set forth in the preceding sections 1 and 2 shall not extend to the construction of transmission lines, substations, or distribution lines unless such facilities are for the purposes of interconnecting the power plants herein authorized, or for the delivery of power and energy for use in connection with the construction, operation, and maintenance of the projects herein authorized.

43 U. S. C. § 501.

Contract authoriza-
tions.

SEC. 3. The Secretary is hereby authorized to contract, under the Federal reclamation laws, with water users and water users' organizations as to the use for their benefit of the heretofore reserved storage capacity in American Falls Reservoir. Not to exceed three hundred and fifteen thousand acre-feet of that capacity shall be made available to those who have heretofore had the use of reserved capacity under lease arrangements between the United States and the American Falls Reservoir district of Idaho, the distribution of this capacity among contractors to be determined by the Secretary after consultation with the interested water users' organizations or their representatives. Of the balance of the reserved capacity, forty-seven thousand five hundred and ninety-three acre-feet are hereby set aside for use under contract for the benefit of the lands comprising unit A of the north side pumping division of the Minidoka project, and seventy-one thousand acre-feet are hereby set aside for use under contract for the benefit of those lands in the Michaud area which may hereafter be found to be feasible of development under irrigation. Contracts for the repayment of construction charges in connection with reserved capacity shall be made without regard to the second proviso of the tenth paragraph (Minidoka project, Idaho) under the heading "Bureau of Reclamation" of the Act of June 5, 1924 (43 Stat. 390, 417). Such contracts shall require the repayment of all costs determined by the Secretary to be allocable to the reserved capacity, less, in the case of the three hundred and fifteen thousand acre-feet of capacity above described, three hundred and eighty-six four-hundred-and-thirty-fourths of the revenues realized, after deduction of what the Secretary determines to be an appropriate share for operation, maintenance, and replacements, from the leasing of that capacity for irrigation purposes up to the time water first becomes available in Palisades Reservoir and, in the case of the capacity set aside for the north side pumping division, all other revenues realized from or connected with the reserved capacity and which the Secretary determines to be available as a credit against the cost allocable to that division.

Repayment of con-
struction charges.

43 U. S. C. § 600.

Continuation of
construction.

SEC. 4. (a) The continuation of construction of Palisades Dam beyond December 31, 1951, or such later controlling date fixed by the Secretary as herein provided, is hereby made contingent on there being a finding by the Secretary by the controlling date that contracts have been entered with various water users' organizations of the Upper Snake River Valley in Idaho that, in his opinion, will provide for an average annual savings of one hundred and thirty-five thousand acre-feet of winter water. If in the Secretary's judgment the failure

of the requisite organizations so to contract by the controlling date at any time is for reasons beyond the control of those organizations, he may set a new controlling date but not beyond December 31, 1952.

(b) Repayment contracts made in connection with the use of capacity in either American Falls or Palisades Reservoir may include, among other things, such provisions as the Secretary determines to be proper to give effect to recommendations referred to in section 1 of this Act, and particularly those concerning the continued effectiveness of the arrangements as to the minimum average annual water savings.

Repayment contracts.

SEC. 5. There is hereby authorized to be appropriated, out of any funds in the Treasury not otherwise appropriated, the sums of not to exceed \$76,601,000 for the Palisades Dam and Reservoir project, Idaho, \$11,395,000 for the Minidoka project north side pumping division, Idaho, and \$6,600,000 for the American Falls power plant.

Appropriation authorized.
