AN ACT

July 31, 1950
[H. R. 940]
[Public Law 628]

To authorize construction of the Eklutna project, hydroelectric generating plant and transmission facilities in connection therewith, and for other purposes.

Eklutna project,
Alaska.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in order to encourage and promote the economic development of the Territory of Alaska, to foster the establishment of essential industries in said Territory, and to further the self-sufficiency of national defense installations located therein, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized to construct, operate, and maintain the Eklutna project in the vicinity of Anchorage, Alaska, consisting of a low dam at Lake Eklutna, a diversion tunnel and penstock, a power plant with an installed capacity of thirty thousand kilowatts, transmission lines to Anchorage and other load centers, and related works (except recreational facilities) substantially in accordance with the plans and recommendations in the report adopted by the Secretary of the Interior on January 18, 1949, on file with the Committee on Public Lands of the House of Representatives and the Committee on Interior and Insular Affairs of the Senate at an estimated cost of \$20,365,400. The capital investment properly allocable to each unit of said project, as determined by the Federal Power Commission, shall be amortized over a reasonable period of years, and interest shall be charged on the unamortized balance of the full capital investment in said project at a rate of 2½ per centum per annum and shall be covered into the Treasury of the United States to the credit of miscellaneous receipts. All minerals discovered in the course of constructing the Eklutna project are hereby reserved to the United States and may be sold or otherwise disposed of in such manner as may be prescribed by the Secretary, if he finds and so reports to the Congress in writing that the only economically practicable method of recovering the ore so reserved is to provide for the salvage of any minerals that may be contained in the excavated materials removed from the tunnel during the normal process of construction. The net proceeds from any such sale or other disposition shall be covered into the Treasury of the United States to the credit of miscellaneous receipts. The waters of Eklutna Lake and its tributaries which are required for the operation of the Eklutna project are hereby reserved for that purpose.

Disposal of electric
power.

SEC. 2. Electric power and energy generated at the Eklutna project, except that portion required in the operation of such project, shall be disposed of in such a manner as to encourage the most widespread use thereof at the lowest possible rates to consumers consistent with sound business principles and the maintenance of adequate electric service, the rate schedules to become effective upon confirmation and approval by the Federal Power Commission. Such rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities
