Cotton acreage allotments.

Reallocation to farms.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That section 344 (f) of the Agricultural Adjustment Act of 1938, as amended, is amended by adding at the end thereof the following:

“(4) Any part of the acreage allotted for 1950 to individual farms in any county under the provisions of this section which will not be planted to cotton and which is voluntarily surrendered to the county committee shall be deducted from the allotments to such farms and may be reapportioned by the county committee to other farms in the same county receiving allotments to the extent necessary to provide such farms with the allotments authorized under paragraph (5) of this subsection. If any acreage remains after providing such allotments, it may be apportioned in amounts determined by the county committee to be fair and reasonable to other farms in the same county receiving allotments which the county committee determines are inadequate and not representative in view of their past production of cotton and to new farms in such county. No allotment shall be made, or increased, by reason of this paragraph to an acreage in excess of 40 per centum of the acreage on the farm which is tilled annually or in regular rotation, as determined under regulations prescribed by the Secretary. Any transfer of allotment under this paragraph shall not operate to reduce the allotment for any subsequent year for the farm from which acreage is transferred, except in accordance with paragraph (1) (B) and the proviso in paragraph (2) of this subsection:
