(as of October 2018)

Chair, Cornell	Steven Folsom
UIUC	Myung-ja Han
LC	Kirk Hess
W3C/DC	Karen Coyle
OCLC	John Chapman
NLM, PoCo Liaison	Nancy Fallgren
Harvard	Christine Fernsebner-Eslao
Temple	Holly Tomren
Princeton	Luiza Wainer
University of Alberta	Ian Bigelow
Yale	Tim Thompson

Prompts for discussion

- Prioritize/shape the next year (No. 2 and 3 LDAC of charge work plan)
  - Partially dependent on the conclusion of the Role of RDA discussion, are there application profile related tasks for LDAC, (see also: SCS's RDA policy questions)?
    - How does this work interface with the PCC Linked Data Best Practice Group (profiles in MARC)
    - How does this work interface with the LD4P2 profile work? (profiles in LOD)
    - How does this work interface with the 3R SCS Policy Statements?
  - Framework for evaluating/endorsing particular vocabularies?
  - Identify training needs?
- Wrapping up the previous year's work (No. 1 of LDAC charge work plan)
  - Which chairs are we referring to when we say, "Chairs will begin drafting responses based on PoCo discussions."?
- May I add the LDAC Google space to a more general Google Drive?
