SUBJECT HEADINGS

Announcements:

Enslaved persons

Special list 2212a consisted of 55 proposals to revise the heading *Slaves* to *Enslaved persons* as well as other headings that used the wording *Slaves*. This is the culmination of a project started in 2022. The meeting thanks the African-American SACO Funnel for their careful, thorough research and hard work to make these proposals.

Artists' books and Artists' books--Specimens

This list includes a change to how the heading *Artists' books* is applied. *Artists' books* will only be used for works on books that are produced by artists and intended as visual art objects. Actual specimens of such books are entered under *Artists' books--Specimens*. This follows the pattern already established by *Miniature books*.

Other decisions:

Arbeit (The German word)

The proposal lacks English in the citation for the work being cataloged, which is a requirement in SHM H 202 sec. 1.a.(6). The proposal may be resubmitted.

Art--Study and teaching (Early childhood)

The subdivision --*Study and teaching (Early childhood)* is free-floating under subjects. The proposal was not necessary.

Borderlands (Video games)

Individually named video games should be established in the Name Authority File. The proposal is not approved.

Calligraphy, Korean--History and criticism

The meeting determined there was significant overlap between the proposal and the existing heading *Calligraphy, Korean--History*, and the cataloger should use that heading. The proposal is not approved.

Children--Counseling of

The proposal seeks to add several Used For references to the heading. SHM H 373 sec. 3 states, "In headings based on another heading, do not make UF references that repeat alternative spellings or variants that are already covered by a UF reference in the basic heading." The base heading in this case is *Counseling*, which has a UF *Counselling*. The proposal is not approved.

Cinematic television programs

The proposal does not provide a clear description of the common themes or stylistic patterns of cinematic television programs beyond subjective assessments of quality. In addition, the cataloger should reconsider the proposed UFs which are also subjective. The proposal may be resubmitted.

Detector selection

The proposal lacks a broader term, which is a requirement in SHM H 370 sec. 1.a. The meeting also found that the number and diversity of the references provided led to a lack of clarity on the meaning of the concept. The proposal may be resubmitted.

Imperialism in board games

There is no precedent in LCSH for establishing headings of the type **[topic] in board games**, and the meeting did not wish begin a new pattern of this type. The headings *Board games* and *Imperialism* should be assigned instead. The proposal was not approved.

Intimacy (Psychology) in the theater

The proposal seeks to add the UF *Stage intimacy* to the existing heading. Used For references are not typically added to this pattern of heading. Additionally, the meeting determined that the concept the UF is seeking to represent, that of the emerging field of intimacy direction, is deserving of a unique heading, possibly under the broader term *Performing arts--Production and direction*. The proposal may be resubmitted.

Judicial police

The meeting acknowledges the need for the proposed term; however, the proposal does not provide adequate authority research. See SHM H 202 for the research requirements for proposals of new concepts. The proposal may be resubmitted.

Kunizhev family

Proposals to establish family name headings should provide the location of the family (preferably cited from the work being cataloged). SHM H 1631 sec. 3 provides further detailed instructions. The proposal may be resubmitted.

Nineteen twenty-three, A.D.

According to SHM H 620 sec. 2.c., a specific year heading is not assigned when the work has a topical focus. The work being cataloged is about Germany in 1923 and the appropriate heading *Germany--History--1918-1933* has been assigned to it. The proposal was not approved.

Oeyŏn yŏlto (Korea)

The proposal lacks English in the citation for the work being cataloged, which is a requirement in SHM H 202 sec. 1.a.(6). The proposal may be resubmitted.

Patel family

Proposals to establish family name headings should provide the location of the family (preferably cited from the work being cataloged). SHM H 1631 sec. 3 provides further detailed instructions. The proposal may be resubmitted.

Reichstagsgebäude (Berlin, Germany)

The proposal seeks to cancel the subject authority record for the Reichstagsgebäude building in Berlin, Germany, in favor of the identical name authority record. Authority records for buildings are established in LCSH and not the Name Authority File according to the guidelines in SHM H 405. The proposal was not approved.

Singh family

Proposals to establish family name headings should provide the location of the family (preferably cited from the work being cataloged). The proposal includes a 675 (sources not found) for the *Dictionary of American Family Names*; however, the family name is found in this source. Additionally, the cataloger needs to provide justification for the RT *Sinha family* and submit a proposal to add the RT *Singh family* to that heading. The proposal may be resubmitted.

Social justice and sports

The proposal does not provide adequate information to justify the new heading. SHM H 310 provides further detailed instructions on proposing headings in the form [**Topic A**] and [**Topic B**]. The proposal may be resubmitted.

Speculative fiction films

The proposal does not provide a clear definition of speculative fiction films. The proposal may be resubmitted.

Trigub family

Proposals to establish family name headings should provide the location of the family (preferably cited from the work being cataloged). SHM H 1631 sec. 3 provides further detailed instructions. The proposal may be resubmitted.

Uzbekistan--Intellectual life--1970-1991

Proposals for new period subdivisions should include 670 citations that indicate why the particular dates were chosen and what their relevance is in relation to the history or conditions of the

particular region, country, or locality. The proposal may be resubmitted after appropriate 670 fields have been added to the records to document the choice of dates.

Wan shou si (Beijing, China)

It is unclear from the proposal if the structure is in use as a temple or if it is considered a ruin. If it is in use as a temple, the heading should be contributed to the Name Authority File. The meeting also found sources that indicate the structure might serve other functions. The proposal may be resubmitted if the heading belongs in LCSH and with additional information on the current use of the structure.

Wasan family

Proposals to establish family name headings should include citations for the *Dictionary of American Family Names* and *A Century of Population Growth* in either 670 (sources found) or 675 (sources not found) fields in the proposal. SHM H 1631 provides further detailed instructions. The proposal may be resubmitted.

West (U.S.)--In video games

The meeting prefers not to establish a new free-floating subdivision at this time. The cataloger could consider using the heading *Western stories in video games*. The proposal was not approved.

Wishart family

Proposals to establish family name headings should provide the location of the family (preferably cited from the work being cataloged). SHM H 1631 sec. 3 provides further detailed instructions. The proposal may be resubmitted.

GENRE/FORM TERMS

Manuscripts, Hebrew

The meeting prefers not to establish genre/form terms that are differentiated solely by language. The cataloger should assign the genre/form term *Manuscripts* and document the language of the text elsewhere in the record. The proposal was not approved.

MEDIUM OF PERFORMANCE TERMS

Changes were made as indicated on the approved list.
