

Relationship labels

Relationship elements used with ITEM (bibliographic records only)

Authority records: Currently Item to Entity relationships are not recorded in NACO practice. Links from items to entities (and vice versa) are not currently possible in NARs because authorized access points for items are not yet made in PCC practice.

Bibliographic records: Item to Agent relationships are currently recorded in PCC bibliographic records; inverse Agent to Item relationships are not recorded.

Bibliographic records: Item to WEMI relationships are currently recorded in PCC bibliographic records in linking fields; inverse WEMI to Item relationships are not recorded. [MGDs NOT DONE this round].
