CHAPTER 3. *Penalties Applicable to Prisoners of War.*

1. GENERAL PROVISIONS.

ARTICLE 45.

Prisoners of war shall be subject to the laws, regulations, and orders in force in the armies of the detaining Power.

An act of insubordination shall justify the adoption towards them of the measures provided by such laws, regulations and orders.

The provisions of the present chapter, however, are reserved.

ARTICLE 46.

Les prisonniers de guerre ne pourront être frappés par les autorités militaires et les tribunaux de la Puissance détentrice d'autres peines que celles qui sont prévues pour les mêmes faits à l'égard des militaires des armées nationales.

A identité de grade, les officiers, sous-officiers ou soldats prisonniers de guerre subissant une peine disciplinaire ne seront pas soumis à un traitement moins favorable que celui prévu, en ce qui concerne la même peine, dans les armées de la Puissance détentrice.

Sont interdites toute peine corporelle, toute incarcération dans des locaux non éclairés par la lumière du jour et, d'une manière générale, toute forme quelconque de cruauté.

Sont également interdites les peines collectives pour des actes individuels.

ARTICLE 47.

Les faits constituant une faute contre la discipline, et notamment la tentative d'évasion, seront constatés d'urgence; pour tous les prisonniers de guerre, gradés ou non, les arrêts préventifs seront réduits au strict minimum.

Les instructions judiciaires contre les prisonniers de guerre seront conduites aussi rapidement que le permettront les circonstances; la détention préventive sera restreinte le plus possible.

Dans tous les cas, la durée de la détention préventive sera déduite de la peine infligée disciplinairement ou judiciairement, pour autant que cette déduction est admise pour les militaires nationaux.

ARTICLE 48.

Les prisonniers de guerre ne pourront, après avoir subi les peines judiciaires ou disciplinaires qui leur auront été infligées, être traités différemment des autres prisonniers.

ARTICLE 46.

Punishments other than those provided for the same acts for soldiers of the national armies may not be imposed upon prisoners of war by the military authorities and courts of the detaining Power. Uniformity of treatment.

ARTICLE 48.

Prisoners of war may not be treated differently from other prisoners after having suffered the judicial or disciplinary punishment which has been imposed on them. Imposition of different punishments.

Toutefois, les prisonniers punis à la suite d'une tentative d'évasion pourront être soumis à un régime de surveillance spécial, mais qui ne pourra comporter la suppression d'aucune des garanties accordées aux prisonniers par la présente Convention.

## ARTICLE 49.

Privileges of rank.

Aucun prisonnier de guerre ne peut être privé de son grade par la Puissance détentricrice.

Les prisonniers punis disciplinairement ne pourront être privés des prérogatives attachées à leur grade. En particulier, les officiers et assimilés qui subiront des peines entraînant privation de liberté ne seront pas placés dans les mêmes locaux que les sous-officiers ou hommes de troupe punis.

## ARTICLE 50.

Escaped prisoners of war.

Les prisonniers de guerre évadés qui seraient repris avant d'avoir pu rejoindre leur armée ou quitter le territoire occupé par l'armée qui les a capturés ne seront passibles que de peines disciplinaires.

Les prisonniers qui, après avoir réussi à rejoindre leur armée ou à quitter le territoire occupé par l'armée qui les a capturés, seraient de nouveau faits prisonniers ne seront passibles d'aucune peine pour leur fuite antérieure.

## ARTICLE 51.

Policy towards attempted escape.

La tentative d'évasion, même s'il y a récidive, ne sera pas considérée comme une circonstance aggravante dans le cas où le prisonnier de guerre serait déféré aux tribunaux pour des crimes ou délits contre les personnes ou contre la propriété commis au cours de cette tentative.

Après une évasion tentée ou consommée, les camarades de l'évadé qui auront coopéré à l'évasion ne pourront encourir de ce chef qu'une punition disciplinaire.

However, prisoners punished as a result of attempted escape may be subjected to special surveillance, which, however, may not entail the suppression of the guarantees granted prisoners by the present Convention.

## ARTICLE 49.

No prisoner of war may be deprived of his rank by the detaining Power.

Prisoners given disciplinary punishment may not be deprived of the prerogatives attached to their rank. In particular, officers and persons of equivalent status who suffer punishment involving deprivation of liberty shall not be placed in the same quarters as noncommissioned officers or privates being punished.

## ARTICLE 50.

Escaped prisoners of war who are retaken before being able to rejoin their own army or to leave the territory occupied by the army which captured them shall be liable only to disciplinary punishment.

Prisoners who, after having succeeded in rejoining their army or in leaving the territory occupied by the army which captured them, may again be taken prisoners, shall not be liable to any punishment on account of their previous flight.

## ARTICLE 51.

Attempted escape, even if it is a repetition of the offense, shall not be considered as an aggravating circumstance in case the prisoner of war should be given over to the courts on account of crimes or offenses against persons or property committed in the course of that attempt.

After an attempted or accomplished escape, the comrades of the person escaping who assisted in the escape, may incur only disciplinary punishment on this account.

ARTICLE 52.

Les belligérants veilleront à ce que les autorités compétentes usent de la plus grande indulgence dans l'appréciation de la question de savoir si une infraction commise par un prisonnier de guerre doit être punie disciplinairement ou judiciairement.

Il en sera notamment ainsi lorsqu'il s'agira d'apprécier des faits connexes à l'évasion ou à la tentative d'évasion.

Un prisonnier ne pourra, à raison du même fait ou du même chef d'accusation, être puni qu'une seule fois.

ARTICLE 53.

Aucun prisonnier de guerre frappé d'une peine disciplinaire, qui se trouverait dans les conditions prévues pour le rapatriement, ne pourra être retenu pour la raison qu'il n'a pas subi sa peine.

Les prisonniers à rapatrier qui seraient sous le coup d'une poursuite pénale pourront être exclus du rapatriement jusqu'à la fin de la procédure, et, le cas échéant, jusqu'à l'exécution de la peine; ceux qui seraient déjà détenus en vertu d'un jugement pourront être retenus jusqu'à la fin de leur détention.

Les belligérants se communiqueront les listes de ceux qui ne pourront être rapatriés pour les motifs indiqués à l'alinéa précédent.

2.—Peines disciplinaires.

ARTICLE 54.

Les arrêts sont la peine disciplinaire la plus sévère qui puisse être infligée à un prisonnier de guerre.

La durée d'une même punition ne peut dépasser trente jours.

Ce maximum de trente jours ne pourra pas davantage être dépassé dans le cas de plusieurs faits dont un prisonnier aurait à répondre disciplinairement au moment où il est statué à son égard, que ces faits soient connexes ou non.

ARTICLE 52.

Belligerents shall see that the competent authorities exercise the greatest leniency in deciding the question of whether an infraction committed by a prisoner of war should be punished by disciplinary or judicial measures. Leniency to be exercised.

This shall be the case especially when it is a question of deciding on acts in connection with escape or attempted escape.

A prisoner may not be punished more than once because of the same act or the same count.

ARTICLE 53.

Prisoners to be repatriated who might be threatened with a penal prosecution may be excluded from repatriation until the end of the proceedings and, if necessary, until the completion of the punishment; those who might already be imprisoned by reason of a sentence may be detained until the end of their imprisonment.

Belligerents shall communicate to each other the lists of those who may not be repatriated for the reasons given in the preceding paragraph.

Subject to the provisions given in the last paragraph of Article 11, food restrictions allowed in the armies of the detaining Power are applicable, as an increase in punishment, to prisoners of war given disciplinary punishment.

Toutefois, ces restrictions ne pourront être ordonnées que si l'état de santé des prisonniers punis le permet.

However, these restrictions may be ordered only if the state of health of the prisoners punished permits it.

## ARTICLE 56.

On the other hand, packages and money sent may be not delivered to the addressees until the expiration of the punishment. If the packages not distributed contain perishable products, these shall be turned over to the camp infirmary or kitchen.

ARTICLE 59.

Réserve faite de la compétence des tribunaux et des autorités militaires supérieures, les peines disciplinaires ne pourront être prononcées que par un officier muni de pouvoirs disciplinaires en sa qualité de commandant de camp ou de détachement, ou par l'officier responsable qui le remplace.

3.—Poursuites judiciaires.

ARTICLE 60.

Lors de l'ouverture d'une procédure judiciaire dirigée contre un prisonnier de guerre, la Puissance détentrice en avertira aussitôt qu'elle pourra le faire, et toujours avant la date fixée pour l'ouverture des débats, le représentant de la Puissance protectrice.

Au cas où, en temps de guerre, un des belligérants ne serait pas partie à la Convention, ses dispositions demeureront néanmoins obligatoires entre les belligérants qui y participent.

In case, in time of war, one of the belligerents is not a party to the Convention, its provisions shall nevertheless remain in force as between the belligerents who are parties thereto.

ARTICLE 83.

ARTICLE 83.

Les Hautes Parties Contractantes se réservent le droit de conclure des conventions spéciales sur toutes questions relatives aux prisonniers de guerre qu'il leur paraîtrait opportun de régler particulièrement.

The High Contracting Parties reserve the right to conclude special conventions on all questions relative to prisoners of war, on which it seems to them expedient to have particular regulations.

Right to special conventions reserved.

Les prisonniers de guerre resteront au bénéfice de ces accords jusqu'à l'achèvement du rapatriement, sauf stipulations expresses contraires contenues dans les susdits accords ou dans des accords ultérieurs, ou également sauf mesures plus favorables prises par l'une ou l'autre des Puissances belligérantes à l'égard des prisonniers qu'elles détiennent.

Prisoners of war shall receive the benefit of these agreements until the completion of repatriation, except in the case of express stipulations to the contrary contained in the above-mentioned agreements or in later agreements, or also except in the case of more favorable measures taken by one or the other of the belligerent Powers respecting the prisoners which they hold.

Benefits to prisoners.

En vue d'assurer l'application, de part et d'autre, des stipulations de la présente Convention, et de faciliter la conclusion des conventions spéciales prévues ci-dessus, les belligérants pourront autoriser, dès le début des hostilités, des réunions de représentants des autorités respectives chargées de l'administration des prisonniers de guerre.

ARTICLE 85.

The High Contracting Parties shall communicate to one another through the Swiss Federal Council, the official translations of the present Convention, as well as of the laws and regulations which they may come to adopt to assure the application of the present Convention.

SECTION II. ORGANIZATION OF CONTROL.

ARTICLE 86.

The High Contracting Parties recognize that the regular application of the present Convention will find a guaranty in the possibility of collaboration of the protecting Powers charged with safeguarding the interests of belligerents; in this respect, the protecting Powers may, besides their diplomatic personnel, appoint delegates from among their own nationals or from among the nationals of other neutral Powers. These delegates must be subject to the approval of the belligerent near which they exercise their mission.

Representatives of the protecting Power or its accepted delegates shall be permitted to go to any place, without exception, where prisoners of war are interned. They shall have access to all places occupied by prisoners and may interview them, as a general rule without witnesses, personally or through interpreters.

Belligerents shall so far as possible facilitate the task of representatives or accepted delegates

délégués agréés de la Puissance protectrice. Les autorités militaires seront informées de leur visite.

Les belligérants pourront s'entendre pour admettre que des personnes de la propre nationalité des prisonniers soient admises à participer aux voyages d'inspection.

ARTICLE 87.

En cas de désaccord entre les belligérants sur l'application des dispositions de la présente Convention, les Puissances protectrices devront, dans la mesure du possible, prêter leurs bons offices aux fins de règlement du différend.

A cet effet, chacune des Puissances protectrices pourra, notamment, proposer aux belligérants intéressés une réunion de représentants de ceux-ci, éventuellement sur un territoire neutre convenablement choisi. Les belligérants seront tenus de donner suite aux propositions qui leur seront faites dans ce sens. La Puissance protectrice pourra, le cas échéant, soumettre à l'agrément des Puissances en cause une personnalité appartenant à une Puissance neutre ou une personnalité déléguée par le Comité international de la Croix-Rouge, qui sera appelée à participer à cette réunion.

For this purpose, each of the protecting Powers may, in particular, suggest to the interested belligerents a meeting of representatives thereof, possibly upon a neutral territory suitably chosen. Belligerents shall be bound to accede to proposals in this sense which are made to them. The protecting Power may, if occasion arises, submit for the approval of the Powers concerned a person belonging to a neutral Power or a person delegated by the International Committee of the Red Cross, who shall be summoned to take part in this meeting.

their condition requiring treat-  
ment and their mental or physical  
fitness appearing to have suffered  
considerable diminution;

2° les malades et blessés in-  
curables dont l'aptitude intellec-  
tuelle ou corporelle paraît avoir  
subi une diminution considérable;

2. Incurable sick and wounded  
whose mental or physical fitness  
appears to have suffered consider-  
able diminution;

3° les malades et blessés guéris  
dont l'aptitude intellectuelle ou  
corporelle paraît avoir subi une  
diminution considérable.

3. Cured sick and wounded  
whose mental or physical fitness  
appears to have suffered consider-  
able diminution.

B.—HOSPITALISATION EN PAYS  
NEUTRE.

B. HOSPITALIZATION IN A NEUTRAL  
COUNTRY.

Seront hospitalisés:

There shall be placed in hospi-  
tals:

1° les malades et blessés dont  
la guérison est présumable dans le  
délai d'un an, cette guérison ap-  
paraissant comme plus sûre et  
plus rapide si les malades et  
blessés sont mis au bénéfice des  
ressources qu'offre le pays neutre  
que si leur captivité proprement  
dite est prolongée;

1. Sick and wounded whose  
cure within a period of one year is  
to be expected, such cure appear-  
ing more certain and more rapid  
if the sick and wounded are given  
the benefit of the resources offered  
by the neutral country than if  
their captivity properly so-called  
is prolonged;

Annex—Continued.

2° les prisonniers de guerre dont la santé intellectuelle ou physique paraît, d'après les prévisions médicales, menacées sérieusement par le maintien en captivité, tandis que l'hospitalisation en pays neutre pourrait probablement les soustraire à ce risque.

2. Prisoners of war whose mental or physical health appears, according to medical opinion, to be seriously menaced by continuance in captivity, while hospitalization in a neutral country would probably remove this danger.

C.—RAPATRIEMENT DES HOSPITALISÉS EN PAYS NEUTRE.

C. REPATRIATION OF THOSE HOSPITALIZED IN A NEUTRAL COUNTRY.

Seront rapatriés les prisonniers de guerre hospitalisés en pays neutre qui appartiennent aux catégories suivantes:

There shall be repatriated the prisoners of war hospitalized in a neutral country who belong to the following categories:

1° ceux dont l'état de santé se présente comme étant ou devenant tel qu'ils rentrent dans les catégories des rapatriables pour raisons de santé;

1. Those whose state of health appears to be or to be becoming such that they fall within the categories of persons eligible to repatriation for reasons of health;

2° les guéris dont l'aptitude intellectuelle ou physique paraît avoir subi une diminution considérable.

2. The recovered whose mental or physical fitness seems to have suffered a considerable diminution.

II.—*Principes spéciaux pour le rapatriement direct ou l'hospitalisation en pays neutre.*

II. *Special Principles for Direct Repatriation or Hospitalization in a Neutral Country.*

A.—RAPATRIEMENT.

A. REPATRIATION.

Seront rapatriés:

There shall be repatriated:

1° tous les prisonniers de guerre atteints, à la suite de lésions organiques, des altérations suivantes, effectives ou fonctionnelles: perte de membre, paralysie, altérations articulaires ou autres, pour autant que le défaut est d'au moins un pied ou une main, ou qu'il équivaut à la perte d'un pied ou d'une main;

1. All prisoners of war who, as the result of organic injuries, have the following impairments, actual or functional; loss of a member, paralysis, articular or other defects, provided that the loss is at least a foot or a hand, or is equivalent to the loss of a foot or a hand;

2° tous les prisonniers de guerre blessés ou lésés dont l'état est tel qu'il fait d'eux des infirmes dont on ne peut pas, médicalement, prévoir la guérison dans le délai d'un an;

2. All wounded or injured prisoners of war whose condition is such that it renders them invalids whose cure, within a period of one year, can not be anticipated from a medical standpoint;

3° tous les malades dont l'état est tel qu'il fait d'eux des infirmes dont on ne peut pas, médicalement, prévoir la guérison dans le délai d'un an;

3. All the sick whose condition is such that it renders them invalids whose cure, within a period of one year, can not be anticipated from a medical standpoint;

à cette catégorie appartiennent en particulier:

*a)* les tuberculoses progressives d'organes quelconques qui, d'après les prévisions médicales, ne peuvent plus être guéries ou au moins considérablement améliorées par une cure en pays neutre;

*b)* les affections non tuberculeuses des organes respiratoires présumées incurables (ainsi, avant tout, l'emphysème pulmonaire fortement développé avec ou sans bronchite, les dilatations bronchiques, l'asthme grave, les intoxications par les gaz, etc.);

*c)* les affections chroniques graves des organes de la circulation (par exemple: les affections valvulaires avec tendances aux troubles de compensation, les affections relativement graves du myocarde, du péricarde et des vaisseaux, en particulier les anévrismes inopérables des gros vaisseaux, etc.);

*d)* les affections chroniques graves des organes digestifs;

*e)* les affections chroniques graves des organes urinaires et sexuels (avant tout, par exemple: tous les cas de néphrites chroniques confirmées avec séméiologie complète, et tout particulièrement lorsqu'il existe déjà des altérations cardiaques et vasculaires, de même les pyélites et cystites chroniques, etc.);

*f)* les maladies chroniques graves du système nerveux central et périphérique (ainsi, avant tout, la neurasthénie et l'hystérie graves, tous les cas incontestables d'épilepsie, le Basedow grave, etc.);

*g)* la cécité des deux yeux, ou celle d'un œil lorsque la vision de l'autre reste inférieure à 1 malgré l'emploi de verres correcteurs; la diminution de l'acuité visuelle au cas où il est impossible de la ramener par la correction à l'acuité de  $\frac{1}{2}$  pour un œil du moins; les autres affections oculaires rentrant dans la présente catégorie (glaucome, iritis, choroidite, etc.);

The following, in particular, belong to this category:

*a)* Progressive tuberculosis of any organs which, according to medical opinion, can no longer be cured or at least considerably improved by a course of treatment in a neutral country.

*b)* Nontubercular affections of the respiratory organs presumed incurable (such as, above all, strongly developed pulmonary emphysema, with or without bronchitis, bronchiectasis, serious asthma, gas poisoning, etc.);

*c)* Serious chronic affections of the organs of circulation (for example: valvular affections with tendencies to disorders of compensation, relatively serious affections of the myocardium, pericardium of the vessels, especially inoperable aneurisms of the large vessels, etc.);

*d)* Serious chronic affections of the digestive organs;

*e)* Serious chronic affections of the urinary and sexual organs (particularly, for example; all cases of confirmed chronic nephritis with complete semeiology, and most especially when cardiac and vascular impairments already exist; likewise, pyelites and chronic cystitis, etc.);

*f)* Serious chronic diseases of the central and peripheral nervous system (such as, particularly, serious neurasthenia and hysteria, all unquestionable cases of epilepsy, serious cases of Basedow's disease, etc.);

*g)* Blindness in both eyes, or in one eye when the vision of the other remains below 1 in spite of the use of corrective glasses; reduction in acuteness of vision in case it is impossible to restore it by correction to the acuteness of  $\frac{1}{2}$  for one eye at least; other ocular affections coming in the present class (glaucoma, iritis, choroiditis, etc.);

Annex—Continued.

*h*) la surdit  totale bilat rale, ainsi que le surdit  totale unilat rale au cas o  l'oreille incompl tement sourde ne per oit plus la voix parl e ordinaire   un m tre de distance;

*i*) tous les cas incontestables d'affections mentales;

*k*) les cas graves d'intoxication chronique par les m taux ou par d'autres causes (saturnisme, hydrargyrisme, morphinisme, coca nisme, alcoolisme, intoxication par les gaz, etc.);

*l*) les affections chroniques des organes locomoteurs (arthrite d formante, goutte, rhumatismes avec alt rations d celables cliniquement),   la condition qu'elles soient graves;

*m*) tous les n oplasmes malins, s'ils ne sont pas justiciables d'interventions op ratoires relativement b nignes sans danger pour la vie de l'op r ;

*n*) tous les cas de malaria avec alt rations organiques appr ciables (augmentation chronique importante du volume du foie, de la rate, cachexie, etc.);

*o*) les affections cutan es chroniques graves, pour autant que leur nature ne constitue pas une indication m dicale d'hospitalisation en pays neutre;

*p*) les avitaminoses graves (b riberi, pellagra, scorbut chronique).

*h*) Total deafness in both ears, as well as total deafness in one ear in case the partially deaf ear does not discern the ordinary spoken voice at a distance of one meter:

*i*) All unquestionable cases of mental affections;

*k*) All serious cases of chronic poisoning by metals or other causes (lead poisoning, mercury poisoning, morphinism, coca nism, alcoholism, gas poisoning, etc.);

*l*) Chronic affections of the organs of locomotion (arthritis deformans, gout, rheumatism with impairments clinically discoverable), provided they are serious;

*m*) All malignant growths, if they are not amenable to relatively minor operations without endangering the life of the patient;

*n*) All cases of malaria with noticeable organic changes (important chronic increase in size of the liver, of the spleen, cachexia, etc.);

*o*) Serious chronic cutaneous affections, in so far as their nature does not constitute a medical indication for hospitalization in a neutral country;

*p*) Serious avitaminoses (beriberi, pellagra, chronic scurvy).

#### B.—HOSPITALISATION.

Les prisonniers de guerre doivent  tre hospitalis s s'ils sont atteints des affections suivantes:

1<sup>o</sup> toutes les formes de tuberculose d'organes quelconques, si, d'apr s les connaissances m dicales actuelles, elles peuvent  tre gu ries, ou du moins consid rablement am lior es par les m thodes applicables en pays neutre (altitude, traitement dans les sanatoria, etc.);

2<sup>o</sup> toutes les formes—n cessitant un traitement—d'affections des organes respiratoires, circulatoires, digestifs, g nito-urinaires, nerveux, des organes des sens, des appareils locomoteur et cutan ,   condition, toutefois, que

#### B. HOSPITALIZATION.

Prisoners of war must be hospitalized if they have the following affections:

1. All forms of tuberculosis of any organs whatever if, according to present medical knowledge, they may be cured, or at least considerably improved by methods applicable in a neutral country (altitude, treatment in sanatoria, etc.);

2. All forms—necessitating treatment—of affections of the respiratory, circulatory, digestive, genito-urinary, and nervous organs, of organs of the senses, of the locomotor and cutaneous apparatus; provided, however, that

ces formes d'affections n'appartiennent pas aux catégories prescrivant le rapatriement direct, ou qu'elles ne soient pas des maladies aiguës proprement dites ayant une tendance à la guérison franche. Les affections envisagées dans ce paragraphe sont celles qui offrent par l'application des moyens de cure disponibles en pays neutre des chances de guérison réellement meilleures pour le patient que si celui-ci était traité en captivité.

Il y a lieu de considérer tout spécialement les troubles nerveux dont les causes efficientes ou déterminantes sont les événements de la guerre ou de la captivité même, comme la psychasthénie des prisonniers de guerre et autres cas analogues.

Tous les cas de ce genre dûment constatés doivent être hospitalisés, pour autant que leur gravité ou leurs caractères constitutionnels n'en font pas des cas de rapatriement direct.

Les cas de psychasthénie des prisonniers de guerre qui ne sont pas guéris après trois mois d'hospitalisation en pays neutre ou qui, après ce délai, ne sont pas manifestement en voie de guérison définitive, devront être rapatriés.

3° tous les cas de blessures, de lésions et leurs conséquences qui offrent des chances de guérison meilleures en pays neutre qu'en captivité, à condition que ces cas ne soient pas, ou bien justiciables du rapatriement direct, ou bien insignifiants;

4° tous les cas de malaria dûment constatés et ne présentant pas d'altérations organiques décelables cliniquement (augmentation de volume chronique du foie, de la rate, cachexie, etc.), si le séjour en pays neutre offre des perspectives particulièrement favorables de guérison définitive;

5° tous les cas d'intoxication (en particulier par les gaz, les métaux, les alcaloïdes) pour lesquels les perspectives de guérison en pays neutre sont spécialement favorables.

the forms of these affections do not belong to the categories requiring direct repatriation, or are not acute diseases properly so-called susceptible to a complete cure. The affections contemplated in this paragraph are those which offer really better chances of cure for the patient by the application of means of treatment available in a neutral country than if he were treated in captivity.

Annex—Continued.

Nervous troubles, the efficient or determinant causes of which are the events of the war or even of the captivity itself, such as the psychasthenia of prisoners of war and other analogous cases, should be given special consideration.

All duly verified cases of this kind should be hospitalized, provided that the seriousness or constitutional character thereof does not make them cases for direct repatriation.

Cases of psychasthenia of prisoners of war which are not cured after three months of hospitalization in a neutral country or which, after this period has expired, are not obviously on the road to final recovery, should be repatriated.

3. All cases of wounds or lesions and their consequences which offer better chances of cure in a neutral country than in captivity, provided that these cases are not either eligible for direct repatriation or else are insignificant;

4. All cases of malaria, duly verified and not presenting organic changes clinically discoverable (chronic enlargement of the liver, of the spleen, cachexia, etc.), if the stay in a neutral country offers particularly favorable prospects of final cure;

5. All cases of poisoning (particularly by gases, metals, alkaloids) for which the prospects of cure in a neutral country are especially favorable.

Annex—Continued.

Seront exclus de l'hospitalisation:

1° tous les cas d'affections mentales dûment constatées;

2° toutes les affections nerveuses organiques ou fonctionnelles réputées incurables; (Ces deux catégories appartiennent à celles donnant droit au rapatriement direct.)

3° l'alcoolisme chronique grave;

4° toutes les affections contagieuses dans la période où elles sont transmissibles (maladies infectieuses aiguës, syphilis primaire et secondaire, trachôme, lèpre, etc.).

### III.—*Observations générales.*

Les conditions fixées ci-dessus doivent, d'une façon générale, être interprétées et appliquées dans un esprit aussi large que possible.

Cette largeur d'interprétation doit être appliquée particulièrement aux états névropathiques ou psychopathiques causés ou déterminés par les événements de la guerre ou de la captivité même (psychasthénie des prisonniers de guerre), ainsi qu'aux cas de tuberculose à tous les degrés.

Il va de soi que les médecins de camp et les commissions médicales mixtes peuvent se trouver en présence d'une foule de cas non mentionnés parmi les exemples donnés sous chiffre II, ou de cas ne s'adaptant pas à ces exemples. Les exemples mentionnés ci-dessus ne sont donnés que comme exemples typiques; une liste analogue d'exemples d'altérations chirurgicales n'a pas été établie parce que, abstraction faite des cas incontestables par leur nature même (amputations), il est difficile de dresser une liste de types particuliers; l'expérience a démontré qu'un exposé de ces cas particuliers n'était pas sans inconvénients dans la pratique.

On résoudra tous les cas ne s'adaptant pas exactement aux exemples cités en s'inspirant de l'esprit des principes directeurs ci-dessus.

There shall be excluded from hospitalization:

1. All duly verified cases of mental affections;

2. All organic or functional nervous affections reputed to be incurable; (These two categories belong to those giving a right to direct repatriation.)

3. Serious chronic alcoholism;

4. All contagious affections during the period in which they are transmissible (acute infectious diseases, primary and secondary syphilis, trachoma, leprosy, etc.).

### III. *General Observations.*

The conditions given above should, generally speaking, be interpreted and applied in as broad a spirit as possible.

This breadth of interpretation should be especially applied to neuropathic or psychopathic conditions caused or brought to a head by the events of the war or even of the captivity itself (psychasthenia of prisoners of war), and also to cases of tuberculosis in all degrees.

It is needless to state that camp physicians and the mixed medical commissions may find themselves confronted with a great number of cases not mentioned among the examples given under Section II, or cases not fitting in with these examples. The examples mentioned above are given only as typical examples; an analogous list of examples of surgical alterations has not been drawn up because, with the exception of cases incontestable by their very nature (amputations), it is difficult to make a list of particular types; experience has shown that a recital of these particular cases was not without disadvantages in practice.

All cases not fitting exactly into the examples cited shall be decided by invoking the spirit of the above governing principles.

2. In the absence of special agreement to the contrary between the countries involved (which agreement may be made through correspondence) no indemnity will be paid by either country for the loss, rifling, or damage of *transit* registered or insured parcels originating in one of the two contracting countries addressed for delivery in some other country not a party to this Convention or originating in a third country addressed for delivery to one of the two contracting countries.

3. In case an insured parcel originating in one country and addressed for delivery in the other country is forwarded or returned from the country of original address to a third country, the rightful claimant shall be entitled to only such indemnity, if any, for any loss, rifling, or damage which occurs subsequent to the redispach of the parcel in the country of original address, as the country in which the loss, rifling, or damage occurred is willing or obligated to pay under any agreement in force between the countries directly involved in the forwarding or return. Either country adhering to this Convention which improperly forwards an insured parcel to a third country, shall be responsible therefor to the extent of liability of the country of origin to the sender within the limit of indemnity fixed by this Convention.

6. No indemnity will be paid for insured parcels which contain matter of no intrinsic value nor for perishable matter or matter prohibited transmission in the parcel post mails exchanged between the contracting Administrations, or which did not conform to the stipulations of this Convention, or which were not posted in the manner prescribed, but the country responsible for the loss, rifling, or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

This stipulation does not apply to crimes or offences committed after the extradition.

## ARTICLE 8.

The extradition of fugitive criminals under the provisions of this Treaty shall be carried out in the United States and in the territory of His Britannic Majesty respectively, in conformity with the laws regulating extradition for the time being in force in the territory from which the surrender of the fugitive criminal is claimed.

Extradition to conform with existing laws.

Time limitation.

## ARTICLE 12.

All articles seized which were in the possession of the person to be surrendered at the time of his apprehension, and any articles that may serve as a proof of the crime or offence shall be given up when the extradition takes place, in so far as this may be permitted by the law of the High Contracting Party granting the extradition.

Articles seized with fugitive.

## ARTICLE 13.

All expenses connected with the extradition shall be borne by the High Contracting Party making the application.

Such accession shall be effected by a notice to that effect given by the appropriate diplomatic representative of His Majesty at Washington which shall specify the authority to which the requisition for the surrender of a fugitive criminal who has taken refuge in the Dominion concerned, or India, as the case may be, shall be addressed. From the date when such notice

Accession by Great Britain.

comes into effect the territory of the Dominion concerned or of India shall be deemed to be territory of His Britannic Majesty for the purposes of the present Treaty.

Requisitions.

The requisition for the surrender of a fugitive criminal who has taken refuge in any of the above-mentioned Dominions or India, on behalf of which His Britannic Majesty has acceded, shall be made by the appropriate diplomatic or consular officer of the United States of America.

Separability of designated Dominions, etc.

Either High Contracting Party may terminate this Treaty separately in respect of any of the above-mentioned Dominions or India. Such termination shall be effected by a notice given in accordance with the provisions of Article 18.

British mandates.

Any notice given under the first paragraph of this Article in respect of one of His Britannic Majesty's Dominions may include any territory in respect of which a mandate on behalf of the League of Nations has been accepted by His Britannic Majesty, and which is being administered by the Government of the Dominion concerned; such territory shall, if so included, be deemed to be territory of His Britannic Majesty for the purposes of the present Treaty. Any notice given under the third paragraph of this Article shall be applicable to such mandated territory.

ARTICLE 15.

Fugitives in British territory.

The requisition for the surrender of a fugitive criminal who has taken refuge in any territory of His Britannic Majesty other than Great Britain and Northern Ireland, the Channel Islands, or the Isle of Man, or the Dominions or India mentioned in Article 14, shall be made to the Governor, or chief authority, of such territory by the appropriate consular officer of the United States of America.

Such requisition shall be dealt with by the competent authorities of such territory: provided, nevertheless, that if an order for the committal of the fugitive criminal to prison to await surrender shall be made, the said Governor or chief authority may, instead of issuing a warrant for the surrender of such fugitive, refer the matter to His Majesty's Government in the United Kingdom of Great Britain and Northern Ireland.

ARTICLE 16.

Applicability to designated British protectorates.

This Treaty shall apply in the same manner as if they were Possessions of His Britannic Majesty to the following British Protectorates, that is to say, the Bechuanaland Protectorate, Gambia Protectorate, Kenya Protectorate, Nigeria Protectorate, Northern Rhodesia, Northern Territories of the Gold Coast, Nyasaland, Sierra Leone Protectorate, Solomon Islands Protectorate, Somaliland Protectorate, Swaziland, Uganda Protectorate and Zanzibar, and to the following territories in respect of which a mandate on behalf of the League of Nations has been accepted by His Britannic Majesty, that is to say, Camerouns under British mandate, Togoland under British mandate, and the Tanganyika Territory.

ARTICLE 17.

Extending provisions to other territory.

If after the signature of the present Treaty it is considered advisable to extend its provisions to any British Protectorates other than those mentioned in the preceding Article or to any British-protected State, or to any territory in respect of which a mandate on behalf of the League of Nations has been accepted by His Britannic Majesty, other than those mandated territories mentioned in Articles 14 and 16, the stipulations of Articles 14 and 15 shall be deemed to

apply to such Protectorates or States or mandated territories from the date and in the manner prescribed in the notes to be exchanged for the purpose of effecting such extension.

ARTICLE 18.

The present Treaty shall come into force ten days after its publication, in conformity with the forms prescribed by the laws of the High Contracting Parties. It may be terminated by either of the High Contracting Parties by a notice not exceeding one year and not less than six months.

Effective date.

Duration.

In the absence of an express provision to that effect, a notice given under the first paragraph of this Article shall not affect the operation of the Treaty as between the United States of America and any territory in respect of which notice of accession has been given under Article 14.

Separability clause.

The present Treaty shall be ratified, and the ratifications shall be exchanged at London as soon as possible.

Ratification.

On the coming into force of the present treaty the provisions of Article 10 of the treaty of the 9th August, 1842, of the Convention of the 12th July, 1889, of the supplementary Convention of the 13th December, 1900, and of the supplementary Convention of the 12th April, 1905, relative to extradition, shall cease to have effect, save that in the case of each of the Dominions and India, mentioned in Article 14, those provisions shall remain in force until such Dominion or India shall have acceded to the present treaty in accordance with Article 14 or until replaced by other treaty arrangements.

Certain treaty provisions abrogated. Vol. 8, p. 576; Vol. 26, p. 1508; Vol. 32, p. 1864; Vol. 34, p. 2903.

In faith whereof the above-named plenipotentiaries have signed the present Treaty and have affixed thereto their seals.

Enhver fordel, likegyldig av hvad art, som den ene av de Høie Kontraherende Parter fremtidig måtte innrømme ved traktat, lov, resolusjon, forordning, kotyme eller på annen måte en hvilken som helst vare, som er vokset, fremstillet eller fabrikert i hvilket som helst annet fremmed land skal samtidig og betingelsesløst uten anmodning og uten kompensasjon bli tilstått samme slags vare vokset, fremstillet eller fabrikert i den annen Høie Kontraherende Parts landområde.

Alle varer, som nu eller fremtidig, lovlig kan innføres fra fremmede land til havner i De Forente Stater eller som, nu eller fremtidig, lovlig kan utføres derfra med De Forente Staters skib skal likeledes kunne innføres til disse havner eller utføres derfra med norske skib uten å være forpliktet til å erlegge nogen andre eller høiere avgifter eller gebyrer av nogen som helst art enn om sådanne varer var innført eller utført med De Forente Staters skib; og til gjengjeld skal alle varer, som lovlig er eller kommer til å bli innført fra fremmede land til havner i Norge eller lovlig er eller kommer til å bli utført derfra med norske skib, likeledes kunne innføres til disse havner eller utføres derfra med De Forente Staters skib uten å være forpliktet til å erlegge nogen andre eller høiere avgifter eller gebyrer av nogen som helst art enn om sådanne varer var innført eller utført med norske skib.

With respect to the amount and collection of duties on imports and exports of every kind, each of the two High Contracting Parties binds itself to give to the nationals, vessels and goods of the other the advantage of every favor, privilege or immunity which it shall have accorded to the nationals, vessels and goods of a third State, whether such favored State shall have been accorded such treatment gratuitously or in return for reciprocal compensatory treatment. Every such favor, privilege or immunity which shall hereafter be granted the nationals, vessels or goods of a third State shall simultaneously and unconditionally, without request and without compensation, be extended to the other High Contracting Party, for the benefit of itself, its nationals, vessels, and goods.

The stipulations of this Article do not extend to the treatment which is accorded by the United States to the commerce of Cuba under the provisions of the Commercial Convention concluded by the United States and Cuba on December 11, 1902, or any other commercial convention which hereafter may be concluded by the United States with Cuba. Such stipulations, moreover, do not extend to the commerce of the United States with the Panama Canal Zone or with any of the dependencies of the United States or to the commerce of the dependencies of the United States with one another under existing or future laws.

Med hensyn til størrelsen og opkrevningen av alle slags innførsels- og utførselsavgifter så binder hver av de to Høie Kontraherende Parter sig til å innrømme borgere, skib og varer tilhørende den annen part fordelene ved enhver begunstigelse, privilegium eller immunitet, som måtte være tilstått undersåtter, skib og varer tilhørende en tredje stat, enten en sådan begunstiget stat måtte være tilstått en sådan behandling uten videre eller som vederlag for en tilsvarende kompensasjonsbehandling. Enhver sådan begunstigelse, privilegium eller immunitet, som fremtidig måtte tilståes en tredje stats undersåtter, skib eller varer skal samtidig og betingelsesløst, uten anmodning og uten vederlag, tilståes den annen Høie Kontraherende Part til fordel for den selv, dens borgere, skib og varer.

Bestemmelsene i denne artikkel skal ikke vedrøre den behandling som De Forente Stater har tilstått Cubas handel i den mellom De Forente Stater og Cuba den 11. desember 1902 avsluttede handelskonvensjon, eller nogen annen handelskonvensjon som fremtidig måtte bli avsluttet av De Forente Stater med Cuba. Disse bestemmelser vedrører heller ikke De Forente Staters handel med Panamakanalsonen, eller med noget av De Forente Staters biland, eller den innbyrdes handel mellom De Forente Staters biland i henhold til nuværende eller fremtidige lover.

Når en konsulaer tjenestemann påtar sig hvervet som bobestyrer for en avdød landsmann, så underkaster han sig som sådan den retts eller den myndighets jurisdiksjon som har foretatt opnevningen, i alle spørsmål vedrørende bobestyrelsen i samme utstrekning som en borger av det land i hvilket han er opnevnt.

#### ARTIKKEL XXIV

En konsulaer tjenestemann for den ene eller den annen av de Høie Kontraherende Parter skal innen sitt distrikt i alle anliggender vedrørende administrasjonen og fordelingen av et under de stedlige myndigheters jurisdiksjon stående dødsbo være berettiget til å opptre personlig eller ved representant for alle sådanne arvinger eller legatarer i dødsboet, hvad enten umyndige eller myndige, som ikke bor i landet og som er borgere av det land som nevnte konsulaere tjenestemann repre-

them, unless such heirs or legatees themselves have appeared, either in person or by duly authorized representative.

A consular officer of either High Contracting Party may in behalf of his non-resident countrymen collect and receipt for their distributive shares derived from estates in process of probate or accruing under the provisions of so-called Workmen's Compensation Laws or other like statutes, for transmission through channels prescribed by his Government to the proper distributees.

## ARTICLE XXV

A consular officer of either High Contracting Party shall have the right to inspect within the ports of the other High Contracting Party within his consular district, the private vessels of any flag destined or about to clear for ports of the country appointing him in order to observe the sanitary conditions and measures taken on board such vessels, and to be enabled thereby to execute intelligently bills of health and other documents required by the laws of his country, and to inform his Government concerning the extent to which its sanitary regulations have been observed at ports of departure by vessels destined to its ports, with a view to facilitating entry of such vessels therein.

In exercising the right conferred upon them by this Article, consular officers shall act with all possible despatch and without unnecessary delay.

## ARTICLE XXVI

Each of the High Contracting Parties agrees to permit the entry free of all duty of all furniture, equipment and supplies intended

senterer, med samme virkning som om han innehadde fullmakt fra dem til å representere dem, medmindre nevnte arvinger eller legatarer selv har optrådt enten personlig eller ved behørig befuldmektiget representant.

En konsulaer tjenestemann for den ene eller den annen av de Høie Kontraherende Parter skal på vegne av sine landsmenn, som ikke bor i landet, kunne motta og kvittere for de andeler som tilfaller dem fra bo under skiftebehandling eller som måtte tilkomme dem i henhold til bestemmelsene i de såkalte Workmen's Compensation lover eller annen lignende lovgivning, for innsendelse til de rette mottagere ad de veier som er foreskrevet av hans regjering.

## ARTIKKEL XXV

En konsulaer tjenestemann for den ene eller den annen av de Høie Kontraherende Parter skal ha rett til i den annen Høie Kontraherende Parts havner å inspisere private skib av hvilken som helst nasjonalitet, når sådanne skib er bestemt for eller er i ferd med å utklareres til havner i det land, som har utnevnt ham for å forvise sig om sundhetstilstanden og sundhetsforholdsreglene ombord på sådanne skib, så at han derved skal kunne bli i stand til behørig å utferdige sundhetspass og andre dokumenter som hans lauds lover foreskriver og til å underrette sin regjering om den utstrekning i hvilken skib, som er bestemt for dens havner har iaktatt dens sundhetsforskrifter i avreishavnen, for derved å lette sådanne skibs innklarering til vedkommende havn.

Ved utøvelsen av den rett som er tillagt dem ved denne artikkel, skal konsulaere tjenestemenn opptre så ekspedit som mulig og uten unødige forsinkelser.

## ARTIKKEL XXVI

Enhver av de Høie Kontraherende Parter samtykker i å tillate innført tollfritt all slags innbo, utstyr og nødvendighetsgjenstan-

for official use in the consular offices of the other, and to extend to such consular officers of the other and their families and suites as are its nationals, the privilege of entry free of duty of their baggage and all other personal property, accompanying the officer, his family or suite, to his post, provided, nevertheless, that no article, the importation of which is prohibited by the law of either of the High Contracting Parties, may be brought into its territories. Personal property imported by consular officers, their families or suites during the incumbency of the officers shall be accorded on condition of reciprocity the customs privileges and exemptions accorded to consular officers of the most favored nation.

Limitation, if consul

It is understood, however, that this privilege shall not be extended to consular officers who are engaged in any private occupation for gain in the countries to which they are accredited, save with respect to Governmental supplies.

Salvage of ship-  
wrecked vessels.

ARTICLE XXVII

All proceedings relative to the salvage of vessels of either High Contracting Party wrecked upon the coasts of the other shall be directed by the consular officer of the country to which the vessel belongs and within whose district the wreck may have occurred, or by some other person authorized thereto by the law of that country. Pending the arrival of such officer, who shall be immediately informed of the occurrence, or the arrival of such other person, whose authority shall be made known to the local authorities by the consular officer, the local authorities shall take all necessary measures for the protection of persons and the preservation of wrecked property. The local authorities shall not otherwise interfere than for the maintenance of order, the protection of the interests of the salvors, if these do not

Personlige eiendeler innført av konsulaere tjenestemenn, deres familier eller følge under tjenestemennenes funksjonstid skal på betingelse av gjensidighet tilståes de tollprivilegier og -fritagelser som er tilstått konsulaere tjenestemenn fra den mestbegunstigede nasjon.

Det er imidlertid forutsetningen at dette privilegium ikke utstrekkes til å gjelde konsulaere tjenestemenn, som driver nogen slags privat erhvervsvirksomhet i det land, hvor de er ansatt, undtagen forsåvidt angår gjenstander bestemt til tjenstlig bruk.

ARTIKKEL XXVII

Alle foranstaltninger til bergning, av et av de Høie Kontraherende Parters skib som har lidt skibbrudd på den annen parts kyst skal ledes av den konsulaere tjenestemann av det land, hvem skibet tilhører og innen hvis konsulatdistrikt skibbruddet har funnet sted, eller av en annen person som dertil er bemyndiget av nevnte lands lover. I påvente av at den konsulaere tjenestemann, som straks skal varsles om det inntrufne, kommer tilstede, eller ankomsten av sådan annen person, med hvis bemyndigelse den konsulaere tjenestemann skal gjøre de stedlige myndigheter bekjent, skal disse treffe alle fornødne forholdsregler til beskyttelse av personer og opbevaring av forlist eiendom. De stedlige myndigheter skal kun gripe inn for å oprettholde orden, sikre bergernes interesser, når disse ikke

belong to the crews that have been wrecked and to carry into effect the arrangements made for the entry and exportation of the merchandise saved. It is understood that such merchandise is not to be subjected to any customhouse charges, unless it be intended for consumption in the country where the wreck may have taken place.

The intervention of the local authorities in these different cases shall occasion no expense of any kind, except such as may be caused by the operations of salvage and the preservation of the goods saved, together with such as would be incurred under similar circumstances by vessels of the nation.

#### ARTICLE XXVIII

Subject to any limitation or exception hereinabove set forth, or hereafter to be agreed upon the territories of the High Contracting Parties to which the provisions of this Treaty extend shall be understood to comprise all areas of land, water, and air over which the Parties respectively claim and exercise dominion as sovereign thereof, except the Panama Canal Zone and Svalbard.

#### ARTICLE XXIX

The present Treaty shall remain in full force for the term of three years from the date of the exchange of ratifications, on which date it shall begin to take effect in all of its provisions.

If within one year before the expiration of the aforesaid period of three years neither High Contracting Party notifies to the other an intention of modifying by change or omission, any of the provisions of any of the Articles in this Treaty or of terminating it upon the expiration of the aforesaid period, the Treaty shall remain in full force and effect after the aforesaid period and until one year from such a time

tilhører det skibbrudne mannskap, samt for å gjennomføre de foranstaltninger som er truffet for de bergede varers innførsel og utførsel. Der er enighet om at sådanne varer ikke skal være underkastet nogen som helst avgifter til tollvesenet, medmindre de er bestemt til forbruk i det land, hvor skibbruddet har funnet sted.

De stedlige myndigheters inngripen i disse forskjellige tilfelle skal ikke foranledige omkostninger av nogen slags, undtagen sådanne som måtte foranlediges av arbeidene med bergningen og opbevaringen av det bergede gods, tillikemed sådanne omkostninger som innenlandske skib under lignende omstendigheter vilde pådra sig.

#### ARTIKKEL XXVIII

Med forbehold av de forannevnte innskrenkninger eller undtagelser, ellers sådanne som herefter måtte bli omforenet, skal de Høie Kontraherende Parters territorier, som omfattes av bestemmelsene i denne traktat innbefatte alle land-, vann- og luftområder over hvilke de respektive parter gjør fordring på og utøver suverenitet, med undtagelse av Panamakanalsonen og Svalbard.

#### ARTIKKEL XXIX

Denne traktat skal stå ved makt i et tidsrum av tre år fra dagen for ratifikasjonenes utveksling, på hvilken dato alle dens bestemmelser skal tre i kraft.

Såfremt ingen av de Høie Kontraherende Parter innen ett år för utløpet av det forannevnte tidsrum av tre år underretter den annen part om sin hensikt å endre eller utskille enkelte bestemmelser i nogen av denne traktats artikler eller å bringe den til ophör i sin helhet ved utløpet av den förnevnte tidsperiode, så skal traktaten i enhver henseende vedbli å gjelde efter den omhandlede periode inntil ett år

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS a treaty of arbitration between the United States of America and Greece was concluded and signed by their respective Plenipotentiaries at Washington on the nineteenth day of June, one thousand nine hundred and thirty, the original of which treaty, being in the English and French languages, is word for word as follows:

Arbitration with Greece.  
Preamble.

The President of the United States of America and the President of the Hellenic Republic

Determined to prevent so far as in their power lies any interruption in the peaceful relations that have always existed between the two nations;

Desirous of reaffirming their adherence to the policy of submitting to impartial decision all justiciable controversies that may arise between them; and

Eager by their example not only to demonstrate their condemnation of war as an instrument of national policy in their mutual relations, but also to hasten the time when the perfection of international arrangements for the pacific settlement of international disputes shall have eliminated forever the possibility of war among any of the Powers of the world;

Have decided to conclude a treaty of arbitration and for that purpose they have appointed as their respective Plenipotentiaries

The President of the United States of America:

Mr. Henry L. Stimson, Secretary of State of the United States of America; and

Le Président des Etats-Unis d'Amérique et le Président de la République hellénique

Résolus à prévenir autant qu'il est en leur pouvoir toute interruption dans les relations pacifiques qui ont toujours existé entre les deux nations;

Désireux d'affirmer de nouveau leur adhésion à la politique consistant à soumettre à une décision impartiale toutes contestations susceptibles de décisions judiciaires qui viendraient à s'élever entre eux;

Soucieux, par leur exemple, non seulement de manifester que, dans leurs relations réciproques, ils condamnent la guerre comme instrument de politique nationale, mais encore de hâter le moment où la conclusion d'accords internationaux pour le règlement pacifique des conflits entre les Etats aura écarté pour toujours les possibilités de guerre entre les nations du monde;

Ont décidé de conclure un traité d'arbitrage, et à ces fins ont désigné pour leurs plénipotentiaires respectifs, savoir:

Le Président des Etats-Unis d'Amérique:

M. Henry L. Stimson, Secrétaire d'Etat des Etats-Unis d'Amérique; et

Le rapport de la Commission sera complété dans le délai d'un an compté du jour où elle aura déclaré que son enquête a commencé, à moins que les Hautes Parties Contractantes ne réduisent ou prolongent ce délai par accord mutuel. Le rapport sera rédigé en trois exemplaires dont un sera présenté à chaque gouvernement et le troisième retenu par la Commission pour ses dossiers.

Les Hautes Parties Contractantes se réservent le droit d'agir indépendamment dans la question ayant fait la matière du différend, une fois que le rapport de la Commission leur aura été soumis.

THE UNITED STATES OF AMERICA AND FINLAND.

Parcel post convention with Finland.  
Preamble.

*A. Ordinary and Insured Parcels.*

ARTICLE 1.

*Limits of Weight and Size.*

1. No parcel shall exceed 44 pounds (20 kilograms) in weight nor the following dimensions:

Limits of weight and size.

Length, 4 feet (120 centimeters) provided that parcels over 42 inches (105 centimeters) but not over 44 inches (110 centimeters) long do not exceed 24 inches (60 centimeters) in girth; that parcels over 44 inches (110 centimeters) but not over 46 inches (115 centimeters) long do not exceed 20 inches (50 centimeters) in girth; that parcels over 46 inches (115 centimeters) but not over 4 feet long do not exceed 16 inches (40 centimeters) in girth:

2. As regards the exact calculation of the weight and dimensions of parcels, the view of the despatching office shall be accepted, except in cases of obvious error.

ARTICLE 2.

*Postage and Fees.*

1. The Administration of origin is entitled to collect from the sender of each parcel such postage and fees for requests for information as to the disposal of a parcel made after it has been posted, and also, in the case of insured parcels, such insurance fees and fees for return receipts, as may from time to time be prescribed by its regulations.

Postage, etc.

2. Except in the case of returned or redirected parcels, the postage and such of the fees mentioned in the preceding section as are applicable, must be prepaid.

Prepayment.

## ARTICLE 3.

*Preparation of Parcels.*

Preparation of parcels.

1. The name and address of the sender and of the addressee must be legibly and correctly written in every case when possible on the parcel itself, or on a label gummed thereto, and, in the case of parcels addressed by tag only because of their shape or size, must also be written on a separate slip which slip must be enclosed in the parcel; such address slips should be enclosed in all parcels.

Parcels will not be accepted when sent by or addressed to initials, unless the initials are the adopted trade name of the senders or addressees.

Addresses in ordinary pencil are not allowed, but copying ink or indelible pencil on a surface previously dampened may be used.

2. The sender shall prepare one customs declaration for each parcel sent from either country, upon a special form provided for the purpose, which customs declaration shall give a general description of the parcel, an accurate statement in detail of its contents and value, date of mailing, the weight, the sender's name and address, and the name and address of the addressee, and shall be securely tied to the parcel. The customs declarations of insured parcels must be marked or labelled or stamped "Insured".

3. The Administrations accept no responsibility for the correctness of the customs declarations.

4. Every parcel shall be packed in a manner adequate for the length of the journey and for the protection of the contents. Ordinary parcels may be closed by means of wax, lead seals, or otherwise.

Insured parcels must be closed and securely sealed with wax or otherwise, but the country of destination shall have the right to open them as well as ordinary parcels (including the right to break the seals) in order to inspect the contents. Parcels which have been so opened shall be closed again and officially sealed, except that in the case of ordinary parcels they need not be sealed if they were not sealed by the sender in the first instance.

Either Administration may require a special impress or mark of the sender in the sealing of insured parcels mailed in its service, as a means of protection.

5. On the address side, each insured parcel must bear a label with the word "Insured", or be stamped or marked with the same word in close proximity to the number given the parcel, and it must also bear an indication of the amount of the insured value, mentioned fully and legibly in the currency of the country of origin and in Roman letters. This amount must be converted into gold francs by the sender or by the office of origin and the result of the conversion is added below the original description.

6. The labels or stamps on insured parcels must be so placed that they can not serve to conceal injuries to the covers. They must not be folded over two sides of the cover so as to hide the edge.

7. Any liquid or any substance which easily liquefies must be packed in a double receptacle. Between the first receptacle (bottle, flask, pot, box, etc.) and the second (box of metal, strong wood, strong corrugated cardboard or strong fibreboard or receptacle of equal strength) shall be left a space which shall be filled with sawdust, bran, or some other absorbent material, in sufficient quantity to absorb all the liquid contents in the case of breakage.

8. Powders and dyes in powder form must be packed in metal containers which containers must be enclosed in substantial outer covers, so as to afford the utmost protection to the accompanying mail matter.

ARTICLE 4.

*Prohibitions.*

1. The following articles are prohibited transmission by parcel post: Prohibitions.

a) A letter or a communication having the nature of an actual and personal correspondence. Nevertheless, it is permitted to enclose in a parcel an open invoice, confined to the particulars which constitute an invoice, and also a simple copy of the address of the parcel, that of the sender being added.

c) Any live animals (except leeches).

d) Any article of which the admission is not authorized by the Customs or other laws or regulations in force in either country.

e) Any explosive or inflammable article, and, in general, any article of which the conveyance is dangerous.

2. When a parcel contravening any of these prohibitions is handed over by one Administration to the other, the latter shall proceed in accordance with its laws and its inland regulations.

3. The two Postal Administrations shall furnish each other with a list of prohibited articles; but they will not thereby undertake any responsibility whatever towards the police, the Customs Authorities, or the senders of parcels.

ARTICLE 5.

*Customs Duties.*

The parcels shall be subject in the country of destination to all customs duties and all customs regulations in force in that country for the protection of its customs revenue, and the customs duties properly chargeable thereon shall be collected on delivery, in accordance with the customs regulations of the country of destination. Customs duties.

ARTICLE 6.

1. The insured parcels and the ordinary parcels are entered in separate parcel bills. The parcel bills are prepared in duplicate. The original is sent in the regular mails, while the duplicate is inserted Billing of parcels.

in one of the parcel sacks. The sack containing the parcel bill is designated by the letter "F", traced in a conspicuous manner on the label.

2. The ordinary parcels included in each despatch are to be entered on the parcel bills to show the total number of parcels and the total net weight thereof.

Insured parcels shall be entered individually on the parcel bills. The entries concerning each parcel shall show the insurance number and the office (and state or country) of origin. The bulk net weight of all the insured parcels must also be shown.

3. Returned or redirected parcels must be entered individually on the parcel bills and must be followed by the word "Returned" or "Redirected", as the case may be. A statement of the charges which may be due on these parcels should be shown in the "Observations" column.

4. The total number of sacks comprising each despatch must also be shown on the parcel bills.

5. Parcels sent a decouvert must be entered separately on the parcel bills.

6. Each despatching office of exchange shall number the parcel bills in the upper left-hand corner, commencing each year a fresh series for each office of exchange of destination. The last number of the year shall be shown on the parcel bill of the first despatch of the following year.

7. The exact method of advising parcels or the receptacles containing them sent by one Administration in transit through the other together with any details of procedure in connection with the advice of such parcels or receptacles for which provision is not made in this Convention, shall be settled by mutual agreement through correspondence between the two Administrations.

#### ARTICLE 8.

##### *Certificates of Mailing.*

Certificates of mailing.

The sender will, on request at the time of mailing an ordinary (uninsured) parcel, receive a certificate of mailing from the post office where the parcel is mailed, on a form provided for the purpose, and each country may fix a reasonable fee therefor.

No certificate of mailing, other than the insurance receipt, will be furnished the sender of insured parcels.

#### ARTICLE 9.

Ordinary parcels.

##### *Responsibility not Accepted for Ordinary Parcels.*

Responsibility not accepted.

Neither the sender nor the addressee of an ordinary (uninsured) parcel shall be entitled to compensation for the loss of the parcel or for the abstraction of or damage to its contents.

#### ARTICLE 10.

##### *Insurance.*

Insurance.

1. The sender of a parcel may have the same insured by paying in addition to the postage such insurance fee as is prescribed by the country of origin, and in the event of loss, rifling or damage, indemnity shall be paid for the actual amount, based on the actual value at the time and place of mailing, of the loss, rifling, or damage up to a sum not exceeding one hundred dollars, when mailed in the United States of America, or five thousand mark, when mailed in Finland.

No insured parcel shall be indemnified for an amount above the real value of its contents.

Both Administrations reserve the right to arrange by mutual agreement through correspondence for a higher or lower limit of indemnity than that mentioned in this Convention.

2. The insurance of all parcels containing coin, bank notes, paper money, bullion, jewelry, or any other precious article exchanged between the two Administrations is obligatory.

If a parcel containing coin, bank notes, paper money, bullion, jewelry, or any other precious article, is mailed uninsured, it shall be placed under insurance by the post office which first observes the fact of its having been mailed uninsured and treated in accordance with the regulations of the country placing the matter under insurance.

3. The Administration of origin is entitled to fix its own fees for different limits of indemnity within the maximum provided.

#### ARTICLE 11.

##### *Return Receipts and Inquiries.*

1. The sender of an insured parcel may obtain an advice of delivery upon payment of such additional charge, if any, as the country of origin of the parcel shall stipulate.

Return receipts and inquiries.

2. A fee may be charged, at the option of the country of origin, on a request for information as to the disposal of an ordinary parcel and also of an insured parcel made after it has been posted if the sender has not already paid the special fee to obtain an advice of delivery.

A fee may also be charged, at the option of the country of origin, in connection with any complaint of any irregularity which *prima facie* was not due to the fault of the Postal Service.

3. When an advice of delivery is desired, the sender or office of origin shall write or stamp on the parcel and the customs declaration in a conspicuous manner, the words "Return receipt requested", "Advice of delivery requested", or the letters "A. R."

#### ARTICLE 12.

##### *Indemnity.*

1. Except in cases of loss or damage through *force majeure* (causes beyond control) as that term is defined by the legal decisions or rulings of the country in the service of which the loss or damage occurs, when an insured parcel has been lost, rifled, or damaged, the sender, or other rightful claimant, is entitled to an indemnity corresponding to the actual amount of loss, rifling or damage, based on the actual value at the time and place of mailing of the lost, rifled, or damaged article, unless the loss, rifling, or damage has arisen from the fault or negligence of the sender or the addressee or of the representative of either or from the nature of the article, provided that the indemnity shall not exceed the sum for which the required insurance fee was paid in the country of origin.

Indemnity.

While, as stated in the preceding paragraph, the Administrations are not obligated to pay indemnity in the case of loss or damage due to *force majeure*, either Administration may, at its option and without recourse to the other Administration, pay indemnity for loss or damage due to *force majeure* even in the cases where the Administration of the country in the service of which the loss or damage occurred recognizes that the damage was due to *force majeure*.

Indemnity—Continued.

2. In the absence of special agreement to the contrary between the countries involved (which agreement may be made through correspondence) no indemnity will be paid by either country for the loss, rifling, or damage of *transit* registered or insured parcels originating in one of the two contracting countries addressed for delivery in some other country not a party to this Convention or originating in a third country addressed for delivery to one of the two contracting countries.

3. In case an insured parcel originating in one country and addressed for delivery in the other country is forwarded or returned from the country of original address to a third country, the rightful claimant shall be entitled to only such indemnity, if any, for any loss, rifling, or damage which occurs subsequent to the redespach of the parcel in the country of original address, as the country in which the loss, rifling, or damage occurred is willing or obligated to pay under any agreement in force between the countries directly involved in the forwarding or return. Either country adhering to this Convention which improperly forwards an insured parcel to a third country, shall be responsible therefor to the extent of liability of the country of origin to the sender within the limit of indemnity fixed by this Convention.

4. No application for indemnity will be entertained unless a claim or an initial inquiry, oral or written, shall be filed by claimant or his representative within a year commencing with the day following the posting of the insured parcel.

5. No compensation shall be given for loss, injury, or damage consequential upon, i. e., indirectly arising from, the loss, non-delivery, damage, misdelivery, or delay of any insured parcel transmitted under this Convention, nor for parcels seized by the Customs because of false declaration of contents.

6. No indemnity will be paid for insured parcels which contain matter of no intrinsic value nor for perishable matter or matter prohibited transmission in the parcel post mails exchanged between the contracting Administrations, or which did not conform to the stipulations of this Convention, or which were not posted in the manner prescribed, but the country responsible for the loss, rifling, or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

7. Either of the Administrations may at its option reimburse the rightful claimant in the event of complete loss, irreparable damage of entire contents or rifling of entire contents for the amount of postage or special charges borne by an insured parcel, if claimed. The insurance fees are not in any case returned.

8. No responsibility will be admitted for insured parcels which can not be accounted for in consequence of the destruction of official documents through causes beyond control.

9. In case the sender, addressee, or owner of an insured parcel, or his representative, shall at any time knowingly allege the contents to be above their real value, or whenever any false, fictitious, or fraudulent evidence is knowingly and wilfully introduced, the Administration responsible for the indemnity reserves the right without any refund of fee or postage to decline to pay indemnity or to pay such indemnity as may in its discretion be considered equitable in the light of the evidence produced. The enforcement of this rule shall not prejudice any legal proceedings to which such fraudulent evidence may have rendered the claimant liable.

10. When an insured article has been lost, rifled, or damaged, the Administration of origin shall pay indemnity to the rightful claim-

ant as soon as possible and at the latest within a period of one year counting with the day following that on which the application is made, which payment shall be made on account of the Administration of destination, if that Administration is responsible for the loss, rifling, or damage, and has been duly notified.

Indemnity—Continued.

11. However, the Administration of origin may, in the cases indicated in the foregoing section, exceptionally defer payment of indemnity for a longer period than that stipulated if, at the expiration of that period, it has not been able to determine the disposition made of the article in question or the responsibility incurred.

12. Except in cases where payment is exceptionally deferred as provided in the foregoing section, the country of origin is authorized to pay indemnity on behalf of the country of destination if that country has, after being duly informed of the application for indemnity, let nine months pass without settling the matter.

13. The obligation of paying the indemnity shall rest with the country to which the mailing office is subordinate. That country can make a claim on the country responsible, that is to say, against the Administration on the territory or in the service of which the loss, rifling, or damage took place.

14. The country responsible for the loss, rifling, or damage and on whose account payment is made is bound to repay to the country making payment on its behalf, without delay and within not more than nine months after receiving notice of payment, the amount of indemnity paid.

15. Reimbursements for indemnity from one country to the other shall be made on the gold basis.

16. Repayments are to be made free of cost to the creditor country by means of either a money order or a draft, or in money valid in the creditor country, or by such other means as may be mutually agreed upon by correspondence.

17. Until the contrary is proved, responsibility for an insured parcel rests with the country which, having received the parcel without making any observation and being furnished all necessary particulars for inquiry, is unable to show its proper disposition.

If the loss, abstraction, or damage has occurred in the course of conveyance without its being possible to ascertain in which service the irregularity took place, the Postal Administrations concerned bear the loss in equal shares.

18. Responsibility for loss, rifling, or damage of an insured parcel discovered by the receiving office of exchange at the time of opening the receptacles and duly notified to the despatching office of exchange by bulletin of verification, shall fall upon the Administration to which the despatching office of exchange is subordinate unless it be proved that the loss, rifling, or damage occurred in the service of the receiving Administration.

19. The responsibility of properly enclosing, packing, and sealing insured parcels rests upon the sender, and the postal service of neither country will assume liability for loss, rifling, or damage arising from defects which may not be observed at the time of posting.

#### ARTICLE 13.

#### *Transit Parcels.*

1. Each Administration guarantees the right of transit over its territory, to or from any country with which it has parcel post communication, of parcels originating in or addressed for delivery in the territory of the other contracting Administration.

Transit parcels.

2. Each Administration shall inform the other to which countries parcels may be sent through it as intermediary.

3. To be accepted for onward transmission, parcels sent by one of the contracting Administrations through the service of the other Administration must comply with the conditions prescribed from time to time by the intermediary Administration.

## ARTICLE 14.

*Check by Office of Exchange.*

Check by office of  
exchange.

1. On the receipt of a Parcel Mail, the receiving Office of Exchange shall check it. The insured parcels must be carefully compared with the accompanying bills. Any discrepancies or irregularities noted shall be immediately reported to the despatching office of exchange by means of a bulletin of verification. If report is not made promptly, it will be assumed that the mail and the accompanying bills were in every respect in proper order.

2. In the case of any discrepancies or irregularities in a mail, such record shall be kept as will permit of the furnishing of information regarding the matter in connection with any subsequent investigation or claim for indemnity which may be made.

3. If a parcel bill is missing a duplicate shall be made out and a copy sent to the despatching office of exchange from which the despatch was received.

4. Insured parcels bearing evidence of violation or damage must have the facts noted on them and be marked with the stamp of the office making the note, or a document drawing attention to the violation or damage must be forwarded with the parcels.

## ARTICLE 15.

Customs formalities,  
etc. *Fees for Customs Formalities and for Delivery, Demurrage Charges.*

Fees.

1. The Administration of the country of destination may collect from the addressee for the fulfilment of Customs formalities a charge not exceeding ten cents (five marks) for each parcel.

2. The Administration of delivery may collect from the addressee for delivery a fee not exceeding ten cents (five marks) for each parcel and an additional delivery charge of like amount for each time a parcel is presented at the residence of the addressee after one unsuccessful presentation.

3. Each Administration may impose reasonable storage or demurrage charges in case the addressee fails to accept delivery of any parcel within such reasonable time as is prescribed by the Administration of the country of destination.

4. In the event of the return of the parcel to the country of origin, the charges mentioned above shall be cancelled.

## ARTICLE 16.

*Redirection.*

Redirection.

1. Any parcel redirected within the country of destination or delivered to an alternate addressee at the original office of address shall be liable to such additional charges as may be prescribed by the Administration of that country.

2. When a parcel is redirected to either country, new postage as well as new insurance fees, in the case of insured parcels (which,

when redirected, must be despatched in the same kind of mails as received) may, if not prepaid, be collected upon delivery and retained by the Administration making the collection. The Administration making delivery shall fix the amount of such fees and postage when not prepaid.

3. Insured parcels shall not be forwarded or returned to another country unless they are forwarded or returned as insured mail. Senders may indorse insured parcels "Do not forward to a third country", in which event the parcels shall not be forwarded to any other country. Unless such parcels are indorsed to indicate that the senders do not wish them forwarded to any country other than that of mailing or within the country of original address, they may be forwarded to a third country if they are forwarded as insured mail. Insured parcels may be returned to the sender in a third country in accordance with a return address on the parcels, if they can be returned as insured mail. In the case of the loss, rifling, or damage of an insured parcel forwarded or returned to a third country, indemnity will be paid only in accordance with the stipulations of Article 12, Section 3, of this Convention.

ARTICLE 17.

*Postal Charges other than those Prescribed not to be Collected.*

Postal charges not prescribed.

The parcels to which this Convention applies shall not be subjected to any postal charges other than those contemplated by the different articles hereof.

Not subject to collection.

ARTICLE 18.

*Recall and Change of Address.*

So long as a parcel has not been delivered to the addressee, the sender may recall it or cause its address to be altered. The requests for return or change of address, which must conform to the rules laid down by the domestic regulations of the contracting Administrations, are to be addressed to the Central Administration at Washington when they relate to parcels sent to the United States of America, and to the Director General of Posts and Telegraphs, Office of Enquires at Helsinki (Helsingfors), when they relate to parcels sent to Finland.

Recall and change of address.

ARTICLE 19.

*Nondelivery.*

1. In the absence of a request by the sender to the contrary, a parcel which can not be delivered shall be returned to the sender without previous notification. New postage as well as new insurance fees, in the case of insured parcels (which must be returned in the same kind of mail as received), may be collected from the sender and retained by the Administration making the collection.

Nondelivery.

2. The sender of a parcel may request, at the time of mailing, that, if the parcel cannot be delivered as addressed, it shall be either (a) treated as abandoned, or (b) tendered for delivery at a second address in the country of destination. No other alternative is admissible. If the sender avails himself of this facility, his request must appear on the parcel and on the Customs Declaration tied to the parcel and must be in conformity with or analogous to one of the following forms:

- "If not deliverable as addressed-----Abandon."
- "If not deliverable as addressed-----Deliver to-----."

3. Except as otherwise provided, undeliverable parcels in both countries will be returned to the senders at the expiration of thirty days from the date of receipt at the post office of destination, while refused parcels will be returned at once, the parcels in each case to be marked to show the reason for non-delivery.

4. Articles liable to deterioration or corruption, and these only, may, however, be sold immediately even on the outward or return journey, without previous notice or judicial formality, for the benefit of the right party.

If for any reason a sale is impossible, the spoilt or worthless articles shall be destroyed. The sale or destruction shall be recorded and report made to the Administration of origin.

5. Undeliverable parcels which the sender has marked "Abandon" may be sold at auction at the expiration of thirty days, but in case such disposition is made of insured parcels, proper record will be made and the Administration of origin notified as to the disposition made of the parcels. The Administration of origin shall also be notified when for any reason an insured parcel which is not delivered is not returned to the country of origin.

#### ARTICLE 20.

##### *Customs Charges to be Cancelled.*

Customs charges to  
be cancelled.

Provided the formalities prescribed by the Customs authorities concerned are fulfilled, the customs charges, properly so-called, on parcels sent back to the country of origin, or redirected to another country shall be cancelled both in the United States of America and in Finland.

#### ARTICLE 21.

##### *Retransmission.*

Retransmission.

1. Missent ordinary parcels shall be forwarded to their destination by the most direct route at the disposal of the reforwarding Administration, but must not be marked with customs or other charges by the reforwarding Administration. Missent insured parcels shall not be reforwarded to their destination unless they can be forwarded as insured mail. If they can not be forwarded as insured mail, they shall be returned to the country of origin.

2. When this retransmission involves the return of the parcels to the office of origin, the retransmitting office of exchange shall credit that office with the allowances received after having called attention to the error by means of a Verification Note.

In the contrary case, and if the amount allowed by the despatching office to the retransmitting office is insufficient to cover the expenses of retransmission which it had to defray, it shall recover the difference by making a suitable amendment to the parcel bill of the despatching office of exchange. The reason for this amendment shall be notified to the said office by means of a Verification Note.

3. When a parcel has been wrongly allowed to be despatched in consequence of an error on the part of the postal service and has for this reason to be returned to the country of origin, the procedure followed shall be the same as if the parcel had to be sent back to the despatching office in consequence of missending.

4. A redirected parcel shall be accompanied by the Customs Declaration prepared at the office of origin. In case the parcel, for any reason whatsoever, has to be repacked or the original Customs Dec-

laration replaced by a substitute declaration, it is essential that the name of the office of origin of the parcel and the original serial number appear on the parcel and that the name of the office of origin of the parcel appears on the Customs Declaration.

ARTICLE 22.

*Receptacles.*

Each Administration shall provide the bags necessary for the despatch of its parcels. The bags shall be returned empty to the country of origin by the next mail. Empty bags shall be made up in bundles of ten (nine bags enclosed in one) and the total number of such bags shall be advised on the parcel bill.

Receptacles.

ARTICLE 23.

*Charges.*

1. For each parcel despatch by one country to the other, the despatching Administration shall pay to the receiving Administration a terminal credit as follows:

Charges.

a) For parcels originating in Finland, addressed to the United States of America, 70 centimes per kilogram based on the bulk net weight of each despatch.

b) For parcels originating in the United States of America, addressed to Finland, 40 centimes per kilogram based on the bulk net weight of each despatch.

These terminal credits may be reduced or increased on three months' previous notice given by one country to the other. These reductions or increases shall hold good for at least one year.

2. The amounts to be allowed in respect to parcels sent from one Administration to the other for onward transmission to a possession of either country or to a third country shall be fixed by the intermediate Administration.

3. On every parcel returned or redirected unpaid by one of the two Administrations to the other, the returning or retransmitting Administration shall be entitled to recover from the other Administration:

a) The charges prescribed by Section 1 above;

b) The charges for reforwarding or return.

## PROTOCOL OF EXCHANGE

The undersigned, the Secretary of State of the United States of America and the Envoy Extraordinary and Minister Plenipotentiary of Greece at Washington, met this day for the purpose of exchanging the ratifications of the extradition treaty between the United States of America and Greece, signed at Athens on May 6, 1931.

Protocol of exchange.

It being found on a comparison of the respective ratifications that the words "insurance and other companies," in Article 2, paragraph 10, of the English text of the treaty as contained in the Greek instrument of ratification, are not contained in that article and paragraph as it appears in the English text of the instrument of ratification of the United States of America, the Secretary of State of the United States of America declared that it was intended by the Government of the United States to have these words appear in the English text of the United States original of the treaty, as their equivalent appears in the Greek text thereof, that their omission from the English text was an inadvertence and that the United States original of the treaty and the United States ratified exchange copy of the treaty should be understood as including those words, the same as if they had been actually written in the English text thereof.

*Ante*, p. 2187.

This declaration being accepted by the Minister of Greece, the exchange took place this day in the usual form.

IN WITNESS WHEREOF, the aforesaid Plenipotentiaries have signed the present Protocol of Exchange and have affixed their seals thereto.

EXCHANGES OF NOTES REGARDING CERTAIN ISLANDS OFF THE COAST OF BORNEO

Exchange of notes.

*The British Ambassador (Howard) to the Secretary of State (Stimson)*

No. 679

BRITISH EMBASSY,  
*Washington, D.C. 2nd January, 1930.*

SIR,

By the convention concluded between the President of the United States of America and His Britannic Majesty for the purpose of delimiting the boundary between the Philippine archipelago on the one hand and the State of North Borneo which is under British protection on the other hand, the sovereignty over certain islands which have for many years past been administered by the British North Borneo Company has been definitely recognized as pertaining to the United States of America. These islands which formed the subject of the arrangement effected by an exchange of notes between His Majesty's Government and the United States Government on July 3rd and July 10th, 1907, are:—

1. Sibaung, Boaan, Lihiman, Langaan, Great Bakkungaan, Taganak, and Baguan in the group of islands known as the Turtle Islands.
2. The Mangsee Islands.

His Majesty's Government in the United Kingdom understand that the Government of the United States of America are prepared to conclude an arrangement in regard to these islands, supplementary to the above-mentioned convention, in the following terms:

FIRSTLY. That the said company be left undisturbed in the administration of the islands in question unless or until the United States Government give notice to His Majesty's Government of their desire that the administration of the islands should be transferred to them. The transfer of administration shall be effected within one

year after such notice is given on a day and in a manner to be mutually arranged.

SECONDLY. That when the administration of any island is transferred in accordance with the foregoing the said Company will deliver to the United States Government all records relating to administration prior to the date of transfer.

THIRDLY. The United States of America shall not be responsible for the value of any buildings which have been or may be erected or other permanent improvements which have been or may be made in any island the administration of which is subject to transfer but any buildings or improvements erected or made by the administrative authorities prior to the transfer of administration may be removed provided the interests of the United States of America are not thereby injured. In the event, however, of the Island of Taganak being so transferred, the United States Government will give favourable consideration to the question of the compensation to be paid to the said company in respect of the capital expenditure incurred by the company in connection with the lighthouse situated on the island, and the United States Government will provide for the future maintenance of the lighthouse.

FOURTHLY. That such privilege of administration shall not carry with it territorial rights, such as those of making grants or concessions in the islands in question to extend beyond the temporary occupation of the company; and any grant, concession, or license made by the company shall cease upon the termination of the company's occupation.

The United States Government, however, take note of the desire of His Majesty's Government that the following titles to land in certain of the islands which were in good faith granted by the Government of North Borneo prior to the arrangement of 1907, be allowed to stand on the terms on which they were issued by that Government.

N° 151

BRITISH EMBASSY,  
*Intervale, N.H. July 3. 1907,*

SIR,

I have the honour to inform you that His Majesty's Government, acting at the request and on behalf of the British North Borneo Company, are prepared to acquiesce in the last proposal stated in your

letter to Sir H. M. Durand of the 19th of December last, respecting the administration of certain islands on the East Coast of Borneo. I am therefore instructed by His Majesty's Principal Secretary of State for Foreign Affairs to place the proposed arrangement formally on record without further delay.

His Majesty's Government understand the terms of the arrangement to be as follows.

"Firstly: that the said Company be left undisturbed in the administration of the islands in question without any agreement specifying details, the United States Government simply waiving in favour of the said Company the right to such administration in the meantime, in other words, that the existing status be continued indefinitely at the pleasure of the two Governments concerned.

"Secondly: that such privilege of administration shall not carry with it territorial rights, such as those of making grants or concessions in the islands in question to extend beyond the temporary occupation of the company; and any grant, concession or license, made by the company shall cease upon the termination of the company's occupation.

"Thirdly: That the temporary waiver of the right of administration on the part of the United States Government shall cover all the islands to the westward and southwestward of the line traced on the map which accompanied Sir H. M. Durand's memorandum of the 23rd of June, 1906, and which is annexed to and to be deemed to form part of this Note.

"Fourthly: That the British North Borneo Company, through His Majesty's Government, shall agree to the exemption of the United States Government from any claim or allegation that the latter Government has incurred any responsibility in respect of acts done in or from any island within the said line.

"Fifthly: That the understanding shall continue until the said two Governments may by Treaty delimit the boundary between their respective domains in that quarter, or until the expiry of one year from the date when notice of termination be given by either to the other.

"Sixthly: That in case of denunciation, the United States Government shall not be responsible for the value of any buildings or other permanent improvements which may have been erected or made by the company upon the islands, but permission is hereby given to the company to remove, at its own expense, any buildings or improvements erected by it, provided the interests of the United States be not injured thereby."

I have therefore the honour to request you to be so good as to inform me whether the United States adhere to the terms of the arrangement above described, and I shall be glad to receive an assurance from you at the same time that this Note will be considered by the United

States Government as sufficient ratification of the above arrangement on the part of His Majesty's Government. Exchange of notes—

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS a treaty of arbitration between the United States of America and the Republic of China was concluded and signed by their respective Plenipotentiaries at Washington on the twenty-seventh day of June, one thousand nine hundred and thirty, the original of which treaty, being in the English, Chinese and French languages, is word for word as follows:

Arbitration with  
China.  
Preamble.

Contracting Powers.

The United States of America  
and the Republic of China,

Purpose declared.

Determined to prevent so far as  
in their power lies any inter-  
ruption in the peaceful relations  
now happily existing between the  
two nations;

Desirous of reaffirming their  
adherence to the policy of sub-  
mitting to impartial decision all  
justiciable controversies that may  
arise between them; and

Eager by their example not  
only to demonstrate their con-  
demnation of war as an instru-  
ment of national policy in their  
mutual relations, but also to  
hasten the time when the perfec-  
tion of international arrange-  
ments for the pacific settlement  
of international disputes shall  
have eliminated forever the pos-  
sibility of war among any of the  
Powers of the world;

Les Etats-Unis d'Amérique et  
la République de Chine,

Résolus à prévenir autant qu'il  
est en leur pouvoir toute inter-  
ruption dans les relations pacifi-  
ques heureusement existant entre  
les deux nations;

Désireux d'affirmer de nouveau  
leur adhésion à la politique con-  
sistant à soumettre à une décision  
impartiale toutes contestations  
susceptibles de décisions judi-  
ciaires qui viendraient à s'élever  
entre eux; et

Soucieux, par leur exemple, non  
seulement de manifester que, dans  
leurs relations réciproques, ils  
condamnent la guerre comme in-  
strument de politique nationale,  
mais encore de hâter le moment  
où la conclusion d'accords inter-  
nationaux pour le règlement pa-  
cifique des conflits entre les Etats  
aura écarté pour toujours les pos-  
sibilités de guerre entre les nations  
du monde;

2. Seuls les fonctionnaires qui possèdent la compétence technique nécessaire seront autorisés à exercer le contrôle précité et si ce contrôle est exercé en vertu de l'alinéa (c) ci-dessus, il ne le sera que dans la mesure nécessaire pour s'assurer que le navire sera en état de prendre la mer sans danger pour la vie humaine.

3. Au cas où le contrôle exercé en vertu du présent Article semblerait avoir pour conséquence soit d'entraîner des poursuites légales contre le navire, soit d'interdire son départ, le consul du pays auquel il appartient devra être informé aussitôt que possible des circonstances de l'incident.

## ANNEX I.

## ANNEX I.

Maximum load lines  
of merchant ships.

**Rules for determining Maximum Load Lines of  
Merchant Ships.**

**Part I.—General.**

Rules for determin-  
ing.

The Rules necessarily assume that the nature and stowage of the cargo, ballast, &c., are such as to secure sufficient stability for the ship.

Definitions.

**Rule I.—Definitions.**

“Steamer”.

*Steamer.*—The term “steamer” includes all ships having sufficient means for mechanical propulsion, except where provided with sufficient sail area for navigation under sails alone.

Ship with insufficient  
sails.

A ship fitted with mechanical means of propulsion and with sail area insufficient for navigation under sails alone may be assigned a load line under Part III of these Rules.

Towed lighter, etc.

A lighter, barge or other ship without independent means of propulsion, when towed, is to be assigned a load line under Part III of these Rules.

“Sailing ship”.

*Sailing Ship.*—The term “sailing ship” includes all ships provided with sufficient sail area for navigation under sails alone, whether or not fitted with mechanical means of propulsion.

Flush deck ship.

*Flush Deck Ship.*—A flush deck ship is one which has no superstructure on the freeboard deck.

Superstructure.

*Superstructure.*—A superstructure is a decked structure on the freeboard deck extending from side to side of the ship. A raised quarter deck is considered a superstructure.

Freeboard.

*Freeboard.*—The freeboard assigned is the distance measured vertically downwards at the side of the ship amidships from the upper edge of the deck line to the upper edge of the load line mark.

Freeboard deck.

*Freeboard Deck.*—The freeboard deck is the deck from which the freeboard is measured, and is the uppermost complete deck having permanent means of closing all openings in weather portions of the deck in accordance with Rules VIII to XVI. It is the upper deck in flush deck ships and ships with detached superstructures.

In ships having discontinuous freeboard decks within superstructures which are not intact, or which are not fitted with Class 1 closing appliances, the lowest line of the deck below the superstructure deck is taken as the freeboard deck.

## ANNEXE I.

**Règles pour la détermination des Lignes de Charge maxima des Navires de Commerce.****1<sup>re</sup> Partie.—Généralités.**

Les Règles suivantes supposent avant tout que la nature et l'arrimage de la cargaison, du lest, etc., sont tels qu'ils assurent au navire une stabilité suffisante.

**Règle I.—Définitions.**

*Vapeur.*—L'expression "vapeur" comprend tout navire pourvu d'un moyen suffisant de propulsion mécanique à l'exception des navires qui ont une surface de voilure telle qu'elle soit suffisante pour pouvoir naviguer à la voile seule.

Un navire pourvu d'un moyen de propulsion mécanique et d'une surface de voilure ne lui permettant pas de naviguer à la voile seule peut avoir une ligne de charge assignée conformément à la Table de franc-bord pour les vapeurs.

Une allège, un chaland ou tout autre navire sans moyen de propulsion, lorsqu'il est remorqué, doit avoir une ligne de charge assignée conformément à la Table de franc-bord pour les vapeurs.

*Voilier.*—L'expression "voilier" comprend tout navire qui possède une surface de voilure suffisante pour naviguer à la voile seule qu'il soit ou non muni d'appareils de propulsion mécanique.

*Navire à pont découvert.*—Un navire à pont découvert est un navire qui n'a pas de superstructure sur le pont de franc-bord.

*Superstructure.*—Une superstructure est une construction pontée sur le pont de franc-bord et qui s'étend sur toute la largeur du navire; une demi-dunette est considérée comme une superstructure.

*Franc-bord.*—Le franc-bord assigné est la distance mesurée verticalement sur les flancs du navire et au milieu de sa longueur à partir de l'arête supérieure de la ligne de pont jusqu'à l'arête supérieure de la ligne de charge.

*Pont de franc-bord.*—Le pont de franc-bord est celui à partir duquel le franc-bord est mesuré: c'est le pont complet le plus élevé possédant, pour toutes les ouvertures situées sur la partie exposée, des moyens permanents de fermeture répondant aux prescriptions des Règles VIII à XVI. Le pont de franc-bord est le pont supérieur dans les navires à pont découvert et dans les navires ayant des superstructures détachées.

Dans les navires ayant des ponts<sup>10</sup> de franc-bord discontinus, à l'intérieur de superstructure,<sup>11</sup> qui ne sont pas entièrement closes, ou qui ne sont pas munies de dispositifs de fermeture de la Classe 1, la partie la plus basse du pont, au-dessous du pont de superstructure, doit être considérée comme le pont de franc-bord.

[<sup>10</sup> Au lieu de "des ponts" mettre "un pont."]

[<sup>11</sup> Au lieu de "superstructure" mettre "superstructures."]

Amidships.  
Post, p. 2262.

*Amidships.*—Amidships is the middle of the length of the summer load water-line, as defined in Rule XXXII.

Rule II.—*Deck Line.*

Deck line.

The deck line is a horizontal line twelve inches in length and one inch in breadth. It is to be marked amidships on each side of the ship, and its upper edge is to pass through the point where the continuation outwards of the upper surface of the freeboard deck intersects the outer surface of the shell. (See figure 1.) Where the deck is partly sheathed amidships, the upper edge of the deck line is to pass through the point where the continuation outwards of the upper surface of the actual sheathing at amidships intersects the outer surface of the shell.

Post, p. 2268.

Load line disc.

Rule III.—*Load Line Disc.*

The load line disc is twelve inches in diameter and is intersected by a horizontal line eighteen inches in length and one inch in breadth, the upper edge of which passes through the centre of the disc. The disc is to be marked amidships below the deck line.

Lines used with disc.

Rule IV.—*Lines to be used in connection with the Disc.*

Post, p. 2350.

The lines which indicate the maximum load line in different circumstances and in different seasons (see Annex II) are to be horizontal lines, nine inches in length and one inch in breadth, which extend from, and are at right angles to, a vertical line marked 21 inches forward of the centre of the disc (see figure 1).

Post, p. 2268.

The following are the lines to be used:—

Summer.

*Summer Load Line.*—The Summer load line is indicated by the upper edge of the line which passes through the centre of the disc and also by a line marked S.

Winter.

*Winter Load Line.*—The Winter load line is indicated by the upper edge of a line marked W.

Winter North Atlantic.

*Winter North Atlantic Load Line.*—The Winter North Atlantic load line is indicated by the upper edge of a line marked WNA.

Règle II.—*Ligne de pont.*

La ligne de pont est une ligne horizontale ayant 300 millimètres de longueur et 25 millimètres d'épaisseur. Elle doit être marquée au milieu du navire et de chaque bord. Son arête supérieure doit coïncider avec la ligne d'intersection de la face supérieure du pont de franc-bord prolongée avec la surface extérieure du bordé (voir figure 1). Lorsque le pont est partiellement recouvert de bois au milieu du navire, l'arête supérieure de la ligne de pont doit coïncider avec la ligne d'intersection du prolongement avec la surface extérieure du bordé de la face supérieure du revêtement du pont au milieu du navire.<sup>12</sup>

Règle III.—*Disque de franc-bord.*

Le disque de franc-bord a un diamètre de 300 millimètres. Il est coupé par une ligne horizontale de 450<sup>13</sup> millimètres de longueur et de 25 millimètres d'épaisseur, dont l'arête supérieure passe par le centre du disque. Le disque doit être marqué au milieu du navire, au-dessous de la ligne de pont.

Règle IV.—*Lignes employées conjointement avec le disque.*

Les lignes indiquant la ligne de charge maximum dans les différentes circonstances et pour les différentes saisons (voir Annexe II) sont des lignes horizontales ayant 230<sup>14</sup> millimètres de longueur et 25 millimètres d'épaisseur, disposées perpendiculairement à une ligne verticale placée à 540 millimètres à l'avant du centre du disque (voir figure 1).

Les lignes employées sont les suivantes:

*Ligne de charge d'été.*—La ligne de charge d'été est indiquée par l'arête supérieure de la ligne passant par le centre du disque et par l'arête supérieure d'une ligne marquée E.

*Ligne de charge d'hiver.*—La ligne de charge d'hiver est indiquée par l'arête supérieure d'une ligne marquée H.

*Ligne de charge pour l'Atlantique Nord.*—La ligne de charge d'hiver dans l'Atlantique Nord est indiquée par l'arête supérieure d'une ligne marquée H.A.N.

*Ligne de charge tropicale.*—La ligne de charge tropicale est indiquée par l'arête supérieure d'une ligne marquée T.

[<sup>12</sup> Lire: "coïncider avec la ligne d'intersection du prolongement de la face supérieure du revêtement du pont au milieu du navire avec la face extérieure du bordé."]

[<sup>13</sup> Au lieu de "450" mettre "460."]

[<sup>14</sup> Au lieu de "230" mettre "250."]

Fresh water lines.

*Fresh Water Load Lines.*—The Fresh Water load line in Summer is indicated by the upper edge of a line marked F. The difference between the Fresh Water load line in summer and the Summer load line is the allowance to be made for loading in Fresh Water at the other load lines. The Tropical Fresh Water load line is indicated by the upper edge of a line marked T.F.\*

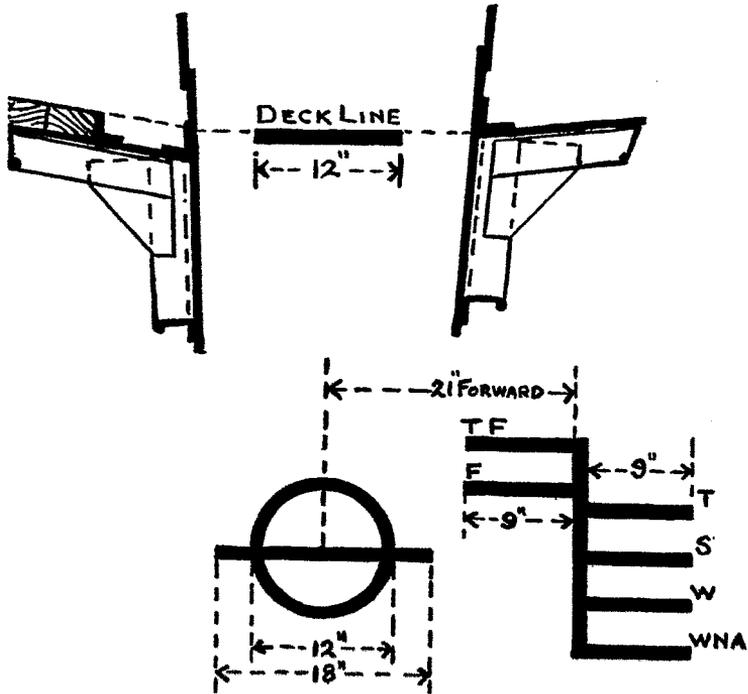

FIGURE 1.

Rule V.—*Mark of Assigning Authority.*

Mark of Assigning Authority.

The Authority by whom the load lines are assigned may be indicated by letters measuring about  $4\frac{1}{2}$  inches by 3 inches marked alongside the disc and above the centre line.

\*Where sea-going steamers navigate a river or inland water, deeper loading is permitted corresponding to the weight of fuel, &c., required for consumption between the point of departure and the open sea. [Footnote in the certified copy.]

*Lignes de charge d'eau douce.*—La ligne de charge d'eau douce en été est indiquée par l'arête supérieure d'une ligne marquée D. La différence entre la ligne de charge d'eau douce en été et la ligne de charge d'été représente la correction qui doit être apportée lorsqu'on prend un chargement qui correspond en eau douce à <sup>15</sup> une des autres lignes de charge.\* La ligne de charge tropicale en eau douce est indiquée par l'arête supérieure d'une ligne marquée T.D.

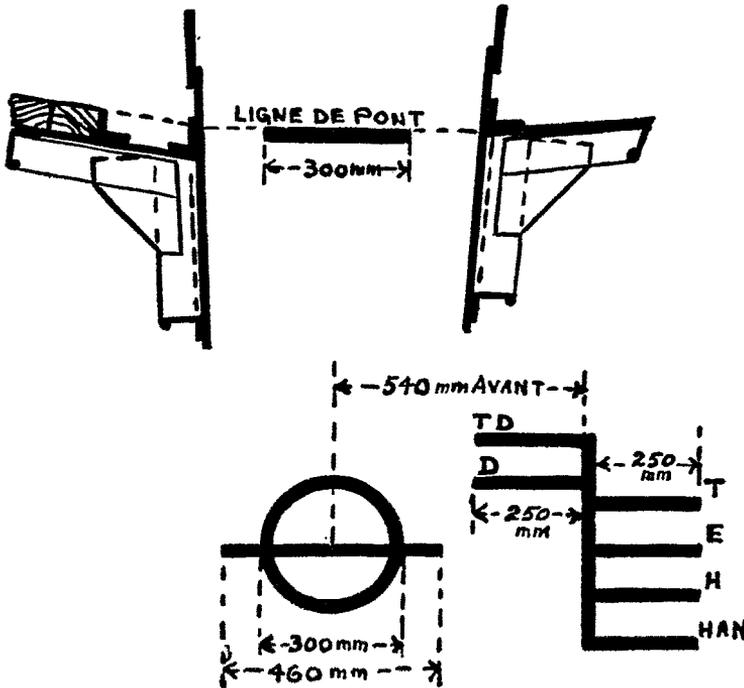

FIGURE 1.

Règle V.—*Marque de l'Autorité habilitée pour l'assignation des francs-bords.*

L'Autorité habilitée pour l'assignation des francs-bords peut être indiquée par des lettres ayant environ 115 millimètres de hauteur et 75 millimètres de largeur inscrites de part et d'autre du disque et au-dessus de la ligne passant par son centre.

[<sup>15</sup> Au lieu de "prend un chargement qui correspond en eau douce à" mettre "prend, en eau douce, un chargement qui correspond à."]

\* Lorsque des navires de mer naviguent dans une rivière ou dans des eaux intérieures, il est permis d'augmenter le chargement du navire d'une quantité qui correspond au poids du combustible, &c., nécessaire à la consommation entre le point de départ et la mer libre. [Footnote in the certified copy.]

Rule VI.—*Details of Marking.*

**Details of marking.** The disc, lines and letters are to be painted in white or yellow on a dark ground or in black on a light ground. They are also to be carefully cut in or centre-punched on the sides of iron and steel ships, and on wood ships they are to be cut into the planking for at least one-eighth of an inch. The marks are to be plainly visible, and, if necessary, special arrangements are to be made for this purpose.

Rule VII.—*Verification of Marks.*

**Verification.** The International Load Line Certificate is not to be delivered to the ship until a surveyor of the Assigning Authority (acting under the provisions of Article 9 of this Convention) has certified that the marks are correctly and permanently indicated on the ship's sides.

Part II.—*Conditions of Assignment of Load Lines.*

**Assignment of load lines.**

**Conditions.**

The assignment of load lines is conditional upon the ship being structurally efficient and upon the provision of effective protection to ship and crew.

**Rules applicable to freeboards.**

Rules VIII to XXXI apply to ships to which minimum freeboards are assigned. In ships to which greater freeboards than the minimum are assigned, the protection is to be relatively as effective.

**Openings in freeboard and superstructure decks.**

*Openings in Freeboard and Superstructure Decks.*Rule VIII.—*Cargo and other Hatchways not protected by Superstructures.*

**Cargo and other hatchways.**

The construction and fitting of cargo and other hatchways in exposed positions on freeboard and superstructure decks are to be at least equivalent to the standards laid down in Rules IX to XVI.

Rule IX.—*Hatchway Coamings.*

**Hatchway coamings.**

The height of hatchway coamings on freeboard decks is to be at least 24 inches above the deck. The height of coamings on superstructure decks is to be at least 24 inches above the deck if situated within a quarter of the ship's length from the stem, and at least 18 inches if situated elsewhere.

Règle VI.—*Détails du marquage.*

Le disque, les lignes et les lettres doivent être peints en blanc ou en jaune sur fond sombre, ou en noir sur fond clair. Elles doivent être soigneusement entaillées ou centrées au pointeau sur les flancs des navires en fer et en acier. Sur les navires en bois, elles doivent être entaillées dans les bordages à une profondeur d'au moins 3 millimètres. Les marques doivent être bien visibles et, si cela est nécessaire, des dispositions spéciales doivent être prises à cet effet.

Règle VII.—*Vérification des marques.*

Le certificat international de franc-bord ne doit pas être délivré avant qu'un expert de l'Autorité habilitée pour l'assignation des francs-bords (agissant en vertu des dispositions de l'Article 9 de la présente Convention) ait certifié que ces marques sont indiquées de façon correcte et durable sur les murailles du navire.

2<sup>ème</sup> Partie.—*Conditions d'Assignation des Lignes de Charge.*

Les lignes de charge ne peuvent être assignées qu'à la condition que le navire soit de construction efficace et que l'on ait pris des dispositions propre d'assurer<sup>16</sup> sa protection et celle de l'équipage.

Les règles VIII à XXXI s'appliquent aux navires auxquels les francs-bords minima sont assignés. Pour les navires auxquels des francs-bords plus grands sont assignés, la protection doit avoir la même efficacité relative.

*Ouvertures dans les ponts de franc-bord et de superstructures.*Règle VIII.—*Panneaux de charge et autres panneaux non protégés par des superstructures.*

La construction et l'installation des panneaux de charge et des autres ouvertures dans les parties exposées des ponts de franc-bord et de superstructures doivent être au moins équivalentes à la construction et l'installation type définies par les Règles IX à XVI.

Règle IX.—*Hiloires de panneaux.*

Les hiloires de panneaux situées sur les ponts de franc-bord doivent avoir une hauteur au moins égale à 610 millimètres au-dessus du pont. Les hiloires situées sur les ponts de superstructures doivent avoir une hauteur au moins égale à 610 millimètres au-dessus du pont si elles se trouvent dans le quart avant de la longueur du navire à partir de l'étrave et au moins égale à 457 millimètres<sup>17</sup> si elles se trouvent ailleurs.

<sup>16</sup> Au lieu de "propre d'assurer" mettre "propres à assurer."  
<sup>17</sup> But see "Exchanges of Notes," p. 2394.]

Coamings are to be of steel, are to be substantially constructed and, where required to be 24 inches high, are to be fitted with an efficient horizontal stiffener placed not lower than 10 inches below the upper edge, and fitted with efficient brackets or stays from the stiffener to the deck, at intervals of not more than 10 feet. Where end coamings are protected, these requirements may be modified.

Rule X.—*Hatchway Covers.*

Hatchway covers.

Covers to exposed hatchways are to be efficient, and where they are made of wood, the finished thickness is to be at least  $2\frac{1}{2}$  inches in association with a span of not more than 5 feet. The width of each bearing surface for these hatchway covers is to be at least  $2\frac{1}{2}$  inches.

Rule XI.—*Hatchway Beams and Fore-and-Afters.*

Hatchway beams and fore-and-afters.

Where wood hatchway covers are fitted the hatchway beams and fore-and-afters are to be of the scantlings and spacing given in Table 1 where coamings 24 inches high are required, and as given in Table 2 where coamings 18 inches high are required. Angle bar mountings on the upper edge are to extend continuously for the full length of each beam. Wood fore-and-afters are to be steel shod at all bearing surfaces.

Les hiloires doivent être en acier et de solide construction. Lorsque la hauteur exigée est de 610 millimètres elles doivent être munies d'un renfort horizontal efficace placé à une distance au plus égale à 254 millimètres<sup>18</sup> au-dessous de l'arête supérieure de l'hiloire, et par des goussets ou des montants établis<sup>19</sup> entre ce renfort et le pont et<sup>20</sup> à des intervalles ne dépassant pas 3m05. Lorsque les hiloires à l'extrémité des panneaux sont protégés,<sup>21</sup> les exigences ci-dessus peuvent être modifiées.

Règle X.—*Panneaux de fermeture.*

Les panneaux de fermeture des hiloires exposées doivent être efficaces et lorsqu'ils sont en bois l'épaisseur nette doit être d'au moins 60 millimètres pour une portée au plus égale à 1m52. La largeur de chaque surface de portage pour tous ces panneaux de fermeture doit être au moins égale à 63 millimètres.<sup>18</sup>

Règle XI.—*Barrots mobiles et galiotes de panneaux.*

Quand on emploie des panneaux en bois les barrots mobiles et les galiotes de panneaux doivent avoir les échantillons et l'écartement donnés dans la Table 1, si la hauteur exigée pour les hiloires est de 610 millimètres et ceux indiqués dans la Table 2, si la hauteur exigée est de 457 millimètres.<sup>18</sup> Les cornières de renfort armant le bord supérieur doivent s'étendre sans interruption sur toute la longueur de chaque barrot; les galiotes en bois doivent être garnies d'une tôle d'acier à tous les points de portage.

[<sup>18</sup> But see "Exchanges of Notes," p. 2394.]

A=Plain angle. BP=Bulb plate. P=Plate. D=Depth. B=Breadth.

Depths for hatchway beams are at the middle of the length and are measured from the top mounting to the lower edge. Depths for fore-and-afters are measured from the underside of the hatch covers to the lower edge. Sizes for intermediate lengths and spacing are obtained by interpolation. Where plates are specified, two angles of the size given for mountings, are to be fitted at the upper and at the lower part of the beam. Where bulb plates are specified, two angles, of the size given for mountings are to be fitted at the upper part of the beam or fore-and-after. Where bulb angles are specified, one angle, of the size given for mountings, is to be fitted at the upper part of the section. Where the specified flanges of an angle are of different dimensions, the larger flange is to be horizontal.

\* In ships not exceeding 100 feet in length, the depths of beams which are formed of plates and angles may be 80 per cent. of the depths given above; the depths of beams and steel fore-and-afters formed of bulb angle or bulb plate section may be 80 per cent. of the depths given above; the thickness of plates, bulb angles and bulb plates should correspond to the thickness tabulated for the reduced depths with a minimum thickness of .30 inch; the depths and breadths of wood fore-and-afters may be 80 per cent. of those given in the tables for side fore-and-afters, but the centre fore-and-afters must be not less than 6½ inches wide. In ships between 100 feet and 200 feet in length, the sizes of the beams and fore-and-afters are to be determined by linear interpolation. [Footnote in the certified copy.]

C=Cornière ordinaire. TB=Tôle à boudin. T=Tôle. H=Hauteur. L=Largeur.

La hauteur des barrots mobiles est la hauteur au milieu de leur longueur. Elle est mesurée depuis l'armature supérieure jusqu'au bord inférieur. La hauteur des galiotes est mesurée depuis la face inférieure des panneaux de fermeture jusqu'au bord inférieur. Pour des longueurs et écartements intermédiaires les dimensions sont obtenues par interpolation. Lorsque l'emploi de tôles est exigé, deux cornières ayant les dimensions spécifiées pour les armatures doivent être placées à la partie haute et à la partie basse du barrot mobile. Lorsque des tôles à boudin sont exigées, deux cornières ayant les dimensions exigées pour les armatures doivent être placées à la partie supérieure du barrot mobile ou de la galiote. Lorsque des cornières à boudin sont exigées, une cornière ayant les dimensions exigées pour les armatures doit être placée à la partie haute. Lorsque les largeurs exigées pour les pannes d'une cornière sont différentes, la panne la plus large doit être disposée horizontalement.

\* Dans les navires dont la longueur ne dépasse pas 30m50 la hauteur des barrots mobiles constitués par des tôles et des cornières peut être égale à 60 pour cent de la hauteur donnée à la table; la hauteur des galiotes en acier constitués par une cornière à boudin ou par une tôle à boudin peut être égale à 80 pour cent de la hauteur donnée à la table; l'épaisseur des tôles, cornières à boudin et tôles à boudin doit être celle qui correspond, dans la table, à la hauteur réduite, sans toutefois que cette épaisseur puisse être inférieure à 7 m/m5. Les hauteurs et les largeurs des galiotes en bois peuvent être, pour les galiotes latérales, égales à 80 pour cent des dimensions données à la table; mais les galiotes centrales ne doivent pas avoir une largeur inférieure à 165 millimètres. Dans les navires dont la longueur est comprise entre 30m50 et 61 mètres les dimensions des barrots et des galiotes doivent être déterminées par interpolation linéaire. [Footnote in the certified copy.]

A=Plain angle. BP=Bulb plate. P=Plate. D=Depth. B=Breadth.

Depths for hatchway beams are at the middle of the length and are measured from the top mounting to the lower edge. Depths for fore-and-afters are measured from the under side of the hatch covers to the lower edge. Sizes for intermediate lengths and spacing are obtained by interpolation. Where plates are specified, two angles, of the sizes given for mountings, are to be fitted at the upper and at the lower part of the beam. Where bulb plates are specified, two angles, of the size given for mountings, are to be fitted at the upper part of the beam or fore-and-after. Where bulb angles are specified, one angle, of the size given for mountings, is to be fitted at the upper part of the section. Where the specified flanges of an angle are of different dimensions, the larger flange is to be horizontal.

\* In ships not exceeding 100 feet in length, the depths of beams which are formed of plates and angles may be 60 per cent. of the depths given above; the depths of beams and steel fore-and-afters formed of bulb angle or bulb plate section may be 80 per cent. of the depths given above; the thickness of plates, bulb angles and bulb plates should correspond to the thickness tabulated for the reduced depths with a minimum thickness of .30 inch; the depths and breadths of wood fore-and-afters may be 80 per cent. of those given in the tables for side fore-and-afters, but the centre fore-and-afters must be not less than 6½ inches wide. In ships between 100 feet and 200 feet in length, the sizes of the beams and fore-and-afters are to be determined by linear interpolation. [Footnote in the certified copy.]

C = Cornière ordinaire. TB = Tôle à boudin. T = Tôle. H = Hauteur. L = Largeur.

La hauteur des barrots mobiles est la hauteur au milieu de leur longueur. Elle est mesurée depuis l'armature supérieure jusqu'au bord inférieur. La hauteur des galiotes est mesurée depuis la face inférieure des panneaux de fermeture jusqu'au bord inférieur. Pour des longueurs et écartements intermédiaires les dimensions sont obtenues par interpolation. Lorsque l'emploi de tôles est exigé, deux cornières ayant les dimensions spécifiées pour les armatures doivent être placées à la partie haute et à la partie basse du barrot mobile. Lorsque des tôles à boudin sont exigées, deux cornières ayant les dimensions exigées pour les armatures doivent être placées à la partie supérieure du barrot mobile ou de la galiote. Lorsque des cornières à boudin sont exigées, une cornière ayant les dimensions exigées pour les armatures doit être placée à la partie haute. Lorsque les largeurs exigées pour les pannes d'une cornière sont différentes, la panne la plus large doit être disposée horizontalement.

\* Dans les navires dont la longueur ne dépasse pas 30m50 la hauteur des barrots mobiles constitués par des tôles et des cornières peut être égale à 60 pour cent de la hauteur donnée à la table; la hauteur des barrots mobiles et des galiotes en acier constitués par une cornière à boudin ou par une tôle à boudin peut être égale à 80 pour cent de la hauteur donnée à la table; l'épaisseur des tôles, cornières à boudin et tôles à boudin doit être celle qui correspond, dans la table, à la hauteur réduite, sans toutefois que cette épaisseur puisse être inférieure à 7 m/m5. Les hauteurs et les largeurs des galiotes en bois peuvent être, pour les galiotes latérales, égales à 80 pour cent des dimensions données à la table; mais les galiotes centrales ne doivent pas avoir une largeur inférieure à 165 millimètres. Dans les navires dont la longueur est comprise entre 30m50 et 61 mètres les dimensions des barrots et des galiotes doivent être déterminées par interpolation linéaire. Chaque décharge indépendante peut être munie d'une soupape automatique de non-retour avec un moyen de fermeture direct, manœuvrable d'un point situé au-dessus du pont de franc-bord, ou de deux soupapes automatiques de non-retour sans moyen de fermeture direct, pourvu que la plus élevée soit placée de telle sorte qu'elle puisse être toujours<sup>31</sup> accessible pour être visitée dans les circonstances normales de service. La soupape à commande de fermeture directe doit toujours être facilement accessible et elle doit comporter un indicateur d'ouverture et de fermeture. La fonte ne doit pas être employée dans la fabrication de ces soupapes lorsqu'elles sont fixées sur la muraille du navire.

Conditional upon the type and the location of the inboard ends of such openings, similar provisions may be prescribed by the Assigning Authority as to discharges from spaces within enclosed superstructures.

Where scuppers are fitted in superstructures not fitted with Class 1 closing appliances they are to have efficient means for preventing the accidental admission of water below the freeboard deck.

Rule XXVIII.—*Side Scuttles.*

Side scuttles.

Side scuttles to spaces below the freeboard deck or to spaces below the superstructure deck of superstructures closed by Class 1 or Class 2 closing appliances are to be fitted with efficient inside deadlights permanently attached in their proper positions so that they can be effectively closed and secured watertight.

Where, however, such spaces in superstructures are appropriated to passengers other than steerage passengers or to crew, the side scuttles may have portable deadlights stowed adjacent to the side scuttles, provided they are readily accessible at all times on service.

The side scuttles and deadlights are to be of substantial and approved construction.

Rule XXIX.—*Guard Rails.*

Guard rails.

Efficient guard rails or bulwarks are to be fitted on all exposed portions of freeboard and superstructure decks.

Rule XXX.—*Freeing Ports.*

Freeing ports.

Where bulwarks on the weather portions of freeboard or superstructure decks form "wells," ample provision is to be made for rapidly freeing the decks of water and for draining them. The minimum freeing port area on each side of the ship for each well on the freeboard deck and on the raised quarter-deck is to be that given by the following scale; the minimum area for each well on any other superstructure deck is to be one-half the area given by the scale. Where the length of the well exceeds .7 L, the scale may be modified.

Des prescriptions similaires peuvent être exigées par l'Administration <sup>32</sup> en ce qui concerne les décharges provenant des espaces situés dans les superstructures fermés en tenant compte du type de ces décharges et de l'emplacement de leurs extrémités à l'intérieur du navire.

Quand des dalots sont placés dans des superstructures non munies d'installation de fermeture de la Classe 1, ils doivent être pourvus de moyens efficaces pour empêcher l'introduction accidentelle de l'eau au-dessous du pont de franc-bord.

#### Règle XXVIII.—*Hublots.*

Les hublots des locaux situés au-dessous du pont de franc-bord ou ceux des locaux situés au-dessous du pont de <sup>33</sup> superstructures fermées au moyen de dispositifs de fermeture de la Classe 1 ou de la Classe 2, doivent être munis de contre-hublots intérieurs efficaces, maintenus à leur emplacement d'une manière permanente, de façon à ce qu'ils puissent être effectivement fermés et qu'ils assurent l'étanchéité.

Lorsque, toutefois, de tels locaux situés dans les superstructures sont destinés aux passagers autres que les passagers d'entrepont ou à l'équipage, les hublots peuvent avoir des contre-hublots amovibles placés à côté des hublots sous réserve qu'ils soient rapidement utilisables en tout temps.

Les hublots et les contre-hublots doivent être de construction solide et approuvée.

#### Règle XXIX.—*Garde-corps.*

Des garde-corps ou des pavois de construction efficace doivent être établis dans toutes les parties exposées des ponts de franc-bord et de superstructures.

#### Règle XXX.—*Sabords de décharge.*

Lorsque des pavois se trouvant sur les parties exposées des ponts de franc-bord ou de superstructures forment des "puits," des dispositions largement suffisantes doivent être prises pour permettre d'évacuer rapidement l'eau des ponts et en assurer l'écoulement. La section minimum des sabords de décharge à prévoir de chaque bord et dans chaque puits sur le pont de franc-bord et sur le pont de demi-dunette, doit être celle indiquée dans le tableau suivant. Sur le pont de toute autre superstructure la section minimum des sabords de chaque puits doit être égale à la moitié de la section indiquée dans le tableau. Lorsque la longueur d'un puits est plus grande que 0,7 L le tableau peut être modifié.

The lower edges of the freeing ports are to be as near the deck as practicable and preferably not higher than the upper edge of the gunwale bar. Two-thirds of the freeing port area required is to be provided in the midship half of the well. In ships with less than the standard sheer the freeing port area is to be suitably increased.

All such openings in the bulwarks are to be protected by rails or bars spaced about 9 inches apart. If shutters are fitted to freeing ports, ample clearance is to be provided to prevent jamming. Hinges are to have brass pins.

Rule XXXI.—*Protection of Crew.*

Protection of crew.

Gangways, lifelines or other satisfactory means are to be provided for the protection of the crew in getting to and from their quarters. The strength of houses for the accommodation of crew on flush deck steamers is to be equivalent to that required for superstructure bulkheads.

The length used with the Rules and Freeboard Table is the length in feet on the summer load water-line from the foreside of the stem to the afterside of the rudder post. Where there is no rudder post,

Les seuils inférieurs des sabords de décharge doivent être aussi près du pont qu'il sera pratiquement possible et, de préférence ne doivent pas dépasser le can supérieur de la cornière gouttière. Les deux-tiers de la section totale réglementaire des sabords de décharge doivent se trouver dans la demi-longueur du puits au milieu. Dans les navires dont la tonture est inférieure à la tonture réglementaire, la section totale des sabords de décharge doit être convenablement augmentée.

Toutes ces ouvertures dans les pavois doivent être protégées par des tringles ou barres, espacées d'environ 23 centimètres.

Si les sabords de décharge sont munis de volets battants, un jeu largement suffisant doit être prévu pour empêcher tout coingage. Les charnières doivent avoir des axes en laiton.

### Règle XXXI.—*Protection de l'équipage.*

Des passerelles, des filières ou autres dispositifs satisfaisants doivent être prévus pour protéger l'équipage lorsqu'il entre dans son logement ou en sort. La solidité des roufs affectés au logement de l'équipage sur les navires à vapeur à pont découvert doit être équivalente à celle exigée pour les cloisons des superstructures.

### 3<sup>ème</sup> Partie.—Lignes de charge pour les vapeurs.

#### Règle XXXII.—*Longueur (L).*

La longueur employée dans les règles et dans les Tables de franc-bord est la longueur en mètres, mesurée au niveau de la flottaison correspondant au franc-bord d'été, depuis la face avant de l'étrave

[<sup>34</sup> But see "Exchanges of Notes," p. 2395.]

the length is measured from the foreside of the stem to the axis of the rudder stock. For ships with cruiser sterns, the length is to be taken as 96 per cent. of the total length on the designed summer load water-line or as the length from the fore side of the stem to the axis of the rudder stock if that be the greater.

Rule XXXIII.—*Breadth (B).*

Breadth.

The breadth is the maximum breadth in feet amidships to the moulded line of the frame in iron or steel ships, and to the outside of the planking in wood or composite ships.

Rule XXXIV.—*Moulded Depth.*

Moulded depth.

The moulded depth is the vertical distance in feet, measured amidships, from the top of the keel to the top of the freeboard deck beam at side. In wood and composite ships the distance is measured from the lower edge of the keel rabbet. Where the form at the lower part of the midship section is of a hollow character, or where thick garboards are fitted, the depth is measured from the point where the line of the flat of the bottom continued inwards cuts the side of the keel.

Rule XXXV.—*Depth for Freeboard (D).*

Depth of freeboard.

The depth used with the Freeboard Table is the moulded depth plus the thickness of stringer plate, or plus  $\frac{T(L-S)}{L}$  if that be greater, where—

T is the mean thickness of the exposed deck clear of deck openings,  
and

S is the total length of superstructures as defined in Rule XL.

Where the topsides are of unusual form, D is the depth of a midship section having vertical topsides, standard round of beam and area of

jusqu'à la face arrière de l'étambot.<sup>35</sup> Dans le cas où il n'y a pas d'étambot arrière la longueur est mesurée depuis la face avant de l'étrave jusqu'à l'axe de la mèche du gouvernail.

Pour les navires ayant des arrières<sup>36</sup> on doit prendre pour longueur soit 96 pour cent de la longueur totale<sup>37</sup> mesurée sur un plan<sup>38</sup> de la flottaison en charge au franc-bord d'été soit la longueur mesurée de croiseurs,<sup>39</sup> la face avant de l'étrave jusqu'à l'axe de la mèche de gouvernail, si cette longueur est plus grande.

Règle XXXIII.—*Largeur (B).*

La largeur est la largeur maximum en mètres mesurée au milieu du navire jusqu'à la face extérieure de la membrure dans les navires en fer ou en acier et jusqu'à la surface extérieure du bordé dans les navires en bois ou dans ceux de construction composite.

Règle XXXIV.—*Creux sur quille au livet.*

Le creux sur quille au livet est la distance verticale en mètres mesurée au milieu du navire depuis le dessus de quille jusqu'à la face supérieure du barrot au livet du pont de franc-bord. Dans les navires en bois et dans ceux de construction composite le creux est mesuré à partir de l'arête inférieure de la râblure de quille. Lorsque les formes de la partie inférieure du maître couple sont creuses, ou lorsqu'il existe des galbords épais, le creux au livet est mesuré depuis le point où le prolongement vers l'axe de la ligne tangente à la partie plate des fonds coupe le côté de la quille.

Règle XXXV.—*Creux pour le franc-bord (C).*

Le creux employé pour le calcul du franc-bord est le creux au livet augmenté de l'épaisseur de la tôle gouttière ou augmenté de  $\frac{T \times (L-S)}{L}$ <sup>40</sup> si cette dernière correction est plus grande. Dans cette formule:

T est l'épaisseur moyenne du pont découvert en dehors des ouvertures de pont,  
S est la longueur totale des superstructures telle qu'elle est définie à la Règle XL.

Lorsque les œuvres-mortes sont d'une forme particulière, C est le creux d'un maître couple qui aurait des murailles verticales, un

topside section equal to that in the actual midship section. Where there is a step or break in the topsides (*e.g.*, as in the Turret Deck ship) 70 per cent. of the area above the step or break is included in the area used to determine the equivalent section.

In a ship without an enclosed superstructure covering at least .6 L amidships, without a complete trunk or without a combination of intact partial superstructures and trunk extending all fore and aft, where D is less than  $\frac{L}{15}$ , the depth used with the Table is not to be taken as less than  $\frac{L}{15}$ .

Rule XXXVI.—*Coefficient of Fineness (c).*

Coefficient of fineness.

The coefficient of fineness used with the Freeboard Table is given by—

$$c = \frac{35\Delta}{L.B.d_1},$$

where  $\Delta$  is the ship's moulded displacement in tons (excluding bossing) at a mean moulded draught  $d_1$  which is 85 per cent. of the moulded depth.

The coefficient  $c$  is not to be taken as less than .68.

Rule XXXVII.—*Strength.*

Structural strength.

The Assigning Authority is to be satisfied with the structural strength of ships to which freeboards are assigned.

Ships which comply with the highest standard of the rules of a Classification Society recognised by the Administration, shall be regarded as having sufficient strength for the minimum freeboards allowed under the Rules.

Ships which do not comply with the highest standard of the rules of a Classification Society recognised by the Administration, shall be assigned such increased freeboards as shall be determined by the Assigning Authority, and for guidance the following strength moduli are formulated:—

Material.

*Material.*—The strength moduli are based on the assumption that the structure is built of mild steel, manufactured by the open hearth process (acid or basic), and having a tensile strength of 26 to 32 tons per square inch, and an elongation of at least 16 per cent. on a length of 8 inches.

bouge normal et une section transversale de la partie haute égale à la section réelle du navire.

Lorsqu'il y a un retrait ou une brisure dans la muraille des œuvres-mortes (comme, par exemple, dans un navire turreted) 70 pour cent de la section au-dessus du retrait ou de la brisure sont inclus dans la surface servant à déterminer la section équivalente.

Dans le cas d'un navire n'ayant pas au milieu de la longueur une superstructure fermée s'entendant <sup>41</sup> au moins sur 0,6 L, ou d'un navire n'ayant ni un trunk complet ni une suite de superstructures partielles intactes et trunk s'entendant <sup>41</sup> entièrement de l'avant à l'arrière du navire, lorsque C est inférieur à  $\frac{L}{15}$ , le creux à employer avec la Table ne doit pas être inférieure à  $\frac{L}{15}$ .

Règle XXXVI.—*Coefficient de finesse (c).* <sup>42</sup>

Le coefficient de finesse employé avec les Tables de franc-bord est donné par la formule:

$$c = \frac{\Delta}{1,025 L \cdot B \cdot T_1}$$

dans laquelle  $\Delta$  est le déplacement en tonnes du navire hors membres (à l'exclusion des bossages) à un tirant d'eau moyen sur quille T <sup>43</sup> égal à 85 pour cent du creux au livet.

Le coefficient c ne doit pas être <sup>44</sup> inférieur à 0,68.

Règle XXXVII.—*Solidité.*

L'Autorité habilitée pour l'assignation des francs-bords doit s'assurer que la solidité des navires est suffisante pour les francs-bords qui leur sont donnés.

Les navires construits conformément au "standard" le plus élevé des règles d'une Société de Classification reconnue par l'Administration devront être considérés comme ayant une solidité suffisante pour le franc-bord minimum prévu par les Règles.

Les navires qui ne répondent pas au "standard" le plus élevé des règles d'une Société de Classification reconnue par l'Administration doivent subir une augmentation de leurs francs-bord <sup>45</sup> qui sera déterminée par l'Autorité habilitée pour l'assignation des francs-bords. Les modules de résistance ci-après ont été établis pour servir de guide dans ce cas:

*Matériaux.*—Les modules de résistance sont basés sur l'hypothèse que la coque est construite en acier doux obtenu au four Martin (acide ou basique) et ayant une résistance à la traction de 41 à 50 kilogrammes par millimètre carré et un allongement d'au moins 16 pour cent sur une longueur de 203 millimètres.

Strength deck.

*Strength Deck.*—The strength deck is the uppermost deck which is incorporated into and forms an integral part of the longitudinal girder within the half-length amidships.

Depth.

*Depth to Strength Deck (Ds).*—The depth to strength deck is the vertical distance in feet amidships from the top of the keel to the top of the strength deck beam at side.

Draught.

*Draught (d).*—The draught is the vertical distance in feet amidships from the top of the keel to the centre of the disc.

Longitudinal modulus.

*Longitudinal Modulus.*—The longitudinal modulus  $\frac{I}{y}$  is the moment of inertia  $I$  of the midship section about the neutral axis divided by the distance  $y$  measured from the neutral axis to the top of the strength deck beam at side, calculated in way of openings but without deductions for rivet holes. Areas are measured in square inches and distances in feet.

Below the strength deck, all continuous longitudinal members other than such parts of under deck girders as are required entirely for supporting purposes, are included. Above the strength deck, the gunwale angle bar and the extension of the sheerstrake are the only members included.

The required longitudinal modulus for effective material is expressed by  $f.d.B.$ , where  $f$  is the factor obtained from the following table:—

*Pont de résistance.*—Le pont de résistance est le pont le plus élevé faisant corps avec la poutre longitudinale sur la demi-longueur du navire au milieu.

*Creux au pont de résistance (C<sup>46</sup>).*—Le creux jusqu'au pont de résistance est la distance verticale en mètres mesurée au milieu du navire depuis le dessus de la quille jusqu'à la face supérieure du barrot de pont au livet.

*Tirant d'eau (T).*—Le tirant d'eau est la distance verticale en mètres mesurée au milieu depuis le dessus de la quille jusqu'au centre du disque.

*Module longitudinal.*—Le module longitudinal  $\frac{I}{y}$ <sup>47</sup> est le quotient du moment d'inertie I du maître couple par rapport à l'axe neutre, par la distance y<sup>48</sup> de l'axe neutre à la partie supérieure du barrot du pont de résistance en abord: ce module doit être calculé par le travers des ouvertures, mais sans déductions pour les trous de rivets. Les sections sont mesurées en millimètres carrés et les distances en mètres.

Au-dessous du pont de résistance, tous les éléments longitudinaux continus doivent entrer en ligne de compte, à l'exception des hiloires de pont destinées uniquement à leur<sup>49</sup> servir de supports.

Au-dessus du pont de résistance, la cornière gouttière et la partie supérieure du carreau sont les seuls éléments dont il faille tenir compte.<sup>50</sup> Le module longitudinal réglementaire pour les matériaux travaillant est exprimé par f.T.B, où f est un coefficient donné par la table suivante:<sup>51</sup>

For intermediate lengths, the value of  $f$  is determined by interpolation.

This formula applies where  $L$  does not exceed 600 feet;  $B$  is between  $\frac{L}{10} + 5$  and  $\frac{L}{10} + 20$ , both inclusive, and  $\frac{L}{D_s}$  is between 10 and 13.5, both inclusive.

Frame.

*Frame.*—For the purpose of the frame modulus, the frame is regarded as composed of a frame angle and a reverse angle each of the same size and thickness.

Frame modulus.

*Frame Modulus.*—The modulus  $\frac{I}{y}$  of the midship frame below the lowest tier of beams is the moment of inertia  $I$  of the frame section about the neutral axis divided by the distance  $y$  measured from the neutral axis to the extremity of the frame section, calculated without deduction for rivet and bolt holes. The modulus is measured in inch units.

The required frame modulus is expressed by  $\frac{s(d-t)(f_1 + f_2)}{1,000}$ , where—

$s$  is the frame spacing in inches.

$t$  is the vertical distance in feet measured at amidships from the top of the keel to a point midway between the top of the inner bottom at side and the top of the heel bracket (see Figure 2); where there is no double bottom,  $t$  is measured to a point midway between the top of the floor at centre and the top of the floor at side.

$f_1$  is a coefficient depending on  $H$ , which, in ships fitted with double bottoms, is the vertical distance in feet from the middle of the beam bracket of the lowest tier of beams at side to a point midway between the top of the inner bottom at side and the top of the heel bracket (see Figure 2). Where there is no double bottom,  $H$  is measured to a point midway between the top of the floor at centre and the top of the floor at side. Where the frame obtains additional strength from the form of the ship, due allowance is made in the value of  $f_1$ .

Pour les longueurs intermédiaires la valeur de  $f$  est déterminé <sup>52</sup> par interpolation.

Cette formule s'applique lorsque la longueur, ne dépasse pas 182m,88, lorsque  $B$  est compris entre  $\frac{L}{10} + 1,52$  et  $\frac{L}{10} + 6,10$  ( $y$  compris ces deux valeurs) et lorsque  $\frac{L}{C_s}$  est compris entre 10 et 13,5 ( $y$  compris ces deux valeurs.)

*Membrane.*—Pour le calcul du module de membrure, la membrure est considérée comme composée d'une cornière et d'une cornière renversée qui sont toutes deux de même échantillon.

*Module de membrure.*—Le module de membrure  $\frac{I^{53}}{y}$  de la membrure milieu au-dessous de la rangée inférieure de barrots est le quotient du moment d'inertie  $I$  de la section de la membrure par rapport à son axe neutre par la distance  $y^{54}$  de l'axe neutre à l'extrémité de la section de la membrure; ce module doit être calculé sans déduction pour les trous de rivets et de boulons. Le module de membrure est mesuré en centimètres cubes.

Le module de membrure réglementaire est exprimé par:

$$\frac{s (T - t) (f_1 + f_2)}{1000}, \text{ où}$$

$s$  est l'écartement des membrures en mètres.

$t$  est la distance verticale mesurée en mètres au milieu du navire depuis le dessus de quille jusqu'à un point situé à mi-distance entre le sommet du double-fond en abord et le sommet du gousset de pied de membrure (voir figure 2). Lorsqu'il n'y a pas de double-fond,  $t$  est mesuré jusqu'à un point situé à mi-distance entre le sommet de la varangue au centre et le sommet de la varangue en abord.

$f_1$  est un coefficient dépendant de  $H$ ; dans les navires avec double fond,  $H$  est la distance verticale mesurée en mètres depuis le milieu du gousset de barrot de la rangée inférieure, en abord, jusqu'à un point situé à mi-hauteur entre le sommet du double fond en abord et le sommet du gousset de pied des membrures (voir figure 2). Lorsqu'il n'y a pas de double fond,  $H$  est mesuré jusqu'à un point situé à mi-hauteur entre le sommet de la varangue au centre et le sommet de la varangue en abord. Lorsque la membrure possède un supplément de résistance résultant des formes du navire <sup>55</sup>  $f_1$  peut être modifié en conséquence.

$f_2$  is a coefficient depending on  $K$ , which is the vertical distance in feet from the top of the lowest tier of beams at side to a point 7 feet 6 inches above the freeboard deck at side, or, if there is a superstructure, to a point 12 feet 6 inches above the freeboard deck at side (see Figure 2). The values of  $f_1$  and  $f_2$  are obtained from the following tables:—

H in feet.....	0	7	9	11	13	15	17	19	21	23	25
$f_1$ .....	9	11	12.5	15	19	24	29.5	36	43	51	59

$f_2$ .....	0	0.5	1.0	2.0	3.0	4.5	6.5	9.0	12.0		

Intermediate values are obtained by interpolation.

This formula applies where  $D$  is between 15 feet and 60 feet, both inclusive,  $B$  is between  $\frac{L}{10} + 5$  and  $\frac{L}{10} + 20$ , both inclusive,  $\frac{L}{D_s}$  is between 10 and 13.5, both inclusive; and the horizontal distance from the outside of the frame to the centre of the first row of pillars does not exceed 20 feet.

In single deck ships of ordinary form, where  $H$  does not exceed 18 feet, the frame modulus determined by the preceding method is multiplied by the factor  $f_3$ , where

$$f_3 = .50 + .05 (H - 8).$$

Where the horizontal distance from the outside of the frame to the centre of the first row of pillars exceeds 20 feet, the Assigning Authority is to be satisfied that sufficient additional strength is provided.

$f_2$  est un coefficient dépendant de K; K est la distance verticale en mètres mesurée en abord depuis la face supérieure des barrots de la rangée inférieure jusqu'à un point situé à 2m29<sup>56</sup> au-dessus du pont de franc-bord ou, s'il y a une superstructure jusqu'à un point situé à 3m81 au-dessus du pont de franc-bord (voir figure 2). Les valeurs intermédiaires seront obtenues par interpolation.

Cette formule s'applique lorsque C est compris entre 4m57 et 18m29 (y compris ces deux valeurs), lorsque B est compris entre  $\frac{L}{10} + 1,52$  et  $\frac{L}{10} + 6,10$  (y compris ces deux valeurs) lorsque  $\frac{L}{C_s}$  est compris entre 10 et 13,5 (y compris ces deux valeurs), enfin lorsque la distance mesurée horizontalement entre la partie extérieure de la membrure et le centre de la première rangée d'épontilles ne dépasse pas 6m10.

Dans les navires à un seul pont de forme ordinaire, lorsque H ne dépasse pas 5m49 le module de membrure déterminé par la méthode précédente doit être multiplié par le facteur  $f_3$ :

$$f_3 = 0,50 + 0,05 \left( \frac{H}{0,305} - 8 \right)$$

Lorsque la distance mesurée horizontalement entre la partie extérieure de la membrure et le centre de la première rangée d'épontilles dépasse 6m10 l'Autorité habilitée pour l'assignation des francs-bords doit se rendre compte qu'un supplément de résistance suffisant a été prévu.

Rule XXXVIII.—*Height of Superstructure.*

Height.

The height of a superstructure is the least vertical height measured from the top of the superstructure deck to the top of the freeboard deck beams minus the difference between D and the moulded depth (see Rules XXXIV and XXXV).

*Ante. p. 2294.*

FIGURE 2.<sup>69</sup>*Superstructures.**Règle XXXVIII.—Hauteur de Superstructure.*

La hauteur d'une superstructure est la plus petite distance verticale mesurée depuis le dessus du pont de superstructures jusqu'au can supérieur des barrots du pont de franc-bord diminuée de la différence entre C est <sup>60</sup> le creux sur quille au livet (voir Règles XXXIV et XXXV).

Rule XXXIX.—*Standard Height of Superstructure.*

Standard height.

The standard height of a raised quarter deck is 3 feet for ships up to and including 100 feet in length, 4 feet for ships 250 feet in length and 6 feet for ships 400 feet in length and above. The standard height of any other superstructure is 6 feet for ships up to and including 250 feet in length and 7 feet 6 inches for ships 400 feet in length and above. The standard height at intermediate lengths is obtained by interpolation.

Rule XL.—*Length of Superstructure (S).*

Length.

The length of a superstructure is the mean covered length of the parts of the superstructure which extend to the sides of the ship and lie within lines drawn perpendicular to the extremities of the Summer load water-line, as defined in Rule XXXII.

Rule XLI.—*Enclosed Superstructure.*

Enclosed superstructure.

A detached superstructure is regarded as enclosed only where—

- (a) the enclosing bulkheads are of efficient construction (see Rule XLII);
- (b) the access openings in these bulkheads are fitted with Class 1 or Class 2 closing appliances (see Rules XLIII and XLIV);
- (c) all other openings in sides or ends of the superstructure are fitted with efficient weathertight means of closing; and
- (d) independent means of access to crew, machinery, bunker and other working spaces within bridges and poops are at all times available when the bulkhead openings are closed.

Rule XLII.—*Superstructure Bulkheads.*

Bulkheads.

Bulkheads at exposed ends of poops, bridges and forecastles are deemed to be of efficient construction where the Assigning Authority is satisfied that, in the circumstances, they are equivalent to the following standard for ships with minimum freeboards under which standard the stiffeners and plating are of the scantlings given in Table 3, the stiffeners are spaced 30 inches apart, the stiffeners on poop and bridge front bulkheads have efficient end connections, and those on after bulkheads of bridges and forecastles extend for the whole distance between the margin angles of the bulkheads.

Règle XXXIX.—*Hauteur réglementaire de superstructure.*

La hauteur réglementaire d'une demi-dunette est de 0m91 pour les navires dont la longueur est inférieure ou égale à 30m50 de 1m22 pour les navires de 76m20 et de 1m83 pour les navires de 122m et au-dessus. La hauteur réglementaire de toute autre superstructure est de 1m83 pour les navires dont la longueur est inférieure ou égale à 76m20 et de 2m29 pour les navires dont la longueur est égale ou supérieure à 122 m. La hauteur réglementaire pour les longueurs intermédiaires est obtenue par interpolation.

Règle XL.—*Longueur de superstructure (S).*

La longueur d'une superstructure est la longueur moyenne couverte des parties de la superstructure qui s'étendent jusqu'aux murailles du navire et qui sont comprises à l'intérieur des perpendiculaires menées aux extrémités de la ligne de charge d'été, définie à la Règle XXXII.

Règle XLI.—*Superstructure fermée.*

Une superstructure détachée n'est regardée comme fermée que si :

- (a) les cloisons limitant cette superstructure sont solidement construites (voir Règle XLII);
- (b) les ouvertures d'accès dans ces cloisons sont munies de dispositifs de la Classe 1 ou de la Classe 2 (voir Règles XLIII et XLIV);
- (c) toutes les autres ouvertures dans les côtés ou dans les extrémités de la superstructure sont munies de moyens de fermeture efficacement étanches aux intempéries;
- (d) des accès indépendant aux postes d'équipage, chambre des machines, soutes et autres espaces nécessaires pour le service du bord dans les châteaux et dans les dunettes sont à tout moment utilisables lorsque les ouvertures de cloison sont fermées.

Règle XLII.—*Cloisons des Superstructures.*

Les cloisons placées aux extrémités exposées des dunettes, châteaux et gaillards des navires ayant le franc-bord minimum sont considérés comme de construction efficace si l'Autorité habilitée pour l'assignation des francs-bords s'est assurée qu'en l'espèce elles sont équivalentes aux cloisons types définis ci-après. Dans ces cloisons types les renforts et les tôles ont les échantillons donnés dans la Table 3, l'écartement des renforts est de 0m76, les renforts des cloisons-fronteaux de la dunette et du château sont efficacement attachés à leurs extrémités et ceux des cloisons placées aux extrémités arrière des châteaux et des gaillards s'étendent sur toute la distance qui sépare les cornières de bordure de ces cloisons.

*Dispositifs de fermeture des ouvertures pratiquées dans les cloisons des superstructures détachées.*

Règle XLIII.—*Dispositifs de fermeture de la Classe 1.*

Ces dispositifs doivent être en fer ou en acier, et dans tous les cas attachés solidement et d'une façon permanente à la cloison, entourés d'un cadre, raidis et installés d'une manière telle que l'ensemble de la structure soit d'une solidité équivalente à celle de la cloison intacte; ils doivent être étanches aux intempéries

appliances, and the latter are so arranged that they can be closed and secured from both sides of the bulkhead or from the deck above. The sills of the access openings are at least 15 inches above the deck.

Rule XLIV.—*Class 2 Closing Appliances.*

Class 2 closing appliances.

These appliances are (a) strongly framed hard wood hinged doors, which are not more than 30 inches wide nor less than 2 inches thick; or (b) shifting boards fitted for the full height of the opening in channels riveted to the bulkhead, the shifting boards being at least 2 inches thick where the width of opening is 30 inches or less, and increased in thickness at the rate of 1 inch for each additional 15 inches of width, or (c) portable plates of equal efficiency.

Closing openings in superstructure decks.

*Temporary Appliances for Closing Openings in Superstructure Decks.*

Rule XLV.

Temporary appliances for.

Temporary closing appliances for middle line openings in the deck of an enclosed superstructure consist of—

- (a) a steel coaming not less than 9 inches in height efficiently riveted to the deck;
- (b) hatchway covers as required by Rule X, secured by hemp lashings; and
- (c) hatchway supports as required by Rules XI and XII and Table 1 or 2.

Effective length of detached superstructures.

*Effective Length of Detached Superstructures.*

Rule XLVI.—*General.*

General rule. Ante, p. 2306.

Where exposed bulkheads at the ends of poops, bridges, and forecastles are not of efficient construction (*see* Rule XLII) they are considered as non-existent.

Where in the side plating of a superstructure there is an opening not provided with permanent means of closing, the part of the superstructure in way of the opening is regarded as having no effective length.

Where the height of a superstructure is less than the standard its length is reduced in the ratio of the actual to the standard height. Where the height exceeds the standard, no increase is made in the length of the superstructure.

lorsqu'ils sont fermés. Les appareils prévus pour maintenir en place <sup>61</sup> ces fermetures doivent être attachés d'une façon permanente à la cloison ou aux fermetures elles-mêmes et ces dernières doivent être disposées de telle sorte qu'elles puissent être fermées et assujetties de l'un et l'autre côté de la cloison ou du pont situé au-dessus. Les seuils des ouvertures d'accès doivent s'élever au moins à 380 millimètres au-dessus du pont.

Règle XLIV.—*Dispositifs de fermeture de la Classe 2.*

Ces dispositifs sont: (a) des portes à charnière en bois dur munies d'un encadrement solide; elles ne doivent pas avoir plus de 0m76 de large ni moins de 50 millimètres d'épaisseur; ou (b) des madriers mobiles placés sur toute la hauteur de l'ouverture dans des fers en U rivés à la cloison. Les madriers mobiles doivent avoir au moins 50 millimètres d'épaisseur lorsque la largeur de l'ouverture est inférieure ou égale à 0m76; leur épaisseur sera augmentée de 25 millimètres pour chaque augmentation de 380 millimètres sur la largeur; ou (c) des tôles démontables d'une efficacité équivalente.

*Dispositifs pour la fermeture temporaire des ouvertures dans les ponts de superstructures.*

Règle XLV.

Les dispositifs de fermeture temporaire pour les ouvertures pratiquées dans l'axe du pont d'une superstructure fermée consistent en:

- (a) une hiloire en acier solidement rivée au pont et dont la hauteur ne devra pas être inférieure à 229 millimètres;<sup>62</sup>
- (b) des panneaux de fermeture conformes à la Règle X, et tenus en place par des saisines en chanvre;
- (c) des supports de panneaux conformes aux Règles XI et XII et aux Tables 1 ou 2.

*Longueur effective des superstructures détachées.*

Règle XLVI.—*Généralités.*

Lorsque les cloisons exposées aux extrémités des dunettes, châteaux et gaillards ne sont pas d'une construction efficace (voir Règle XLII) elles sont considérées comme non existantes.

Lorsqu'une ouverture non munie d'un dispositif de fermeture permanent est pratiquée dans le bordé extérieur d'une superstructure, la partie de la superstructure placée par le travers de l'ouverture est considérée comme n'ayant aucune longueur effective.

Lorsque la hauteur d'une superstructure est plus petite que la hauteur réglementaire, sa longueur est réduite dans le rapport de la hauteur réelle à la hauteur réglementaire. Lorsque la hauteur de la superstructure dépasse la hauteur réglementaire, la longueur de la superstructure n'est pas augmentée.

Rule XLVII.—*Poop.*

Poop.

Where there is an efficient bulkhead and the access openings are fitted with Class 1 closing appliances, the length to the bulkhead is effective. Where the access openings in an efficient bulkhead are fitted with Class 2 closing appliances and the length to the bulkhead is .5 L or less, 100 per cent. of that length is effective; where the length is .7 L or more, 90 per cent. of that length is effective; where the length is between .5 L and .7 L, an intermediate percentage of that length is effective; where an allowance is given for an efficient adjacent trunk (*see* Rule LI), 90 per cent. of the length to the bulkhead is to be taken as effective. 50 per cent. of the length of an open poop or of an open extension beyond an efficient bulkhead is effective.

Post, p. 2314.

Rule XLVIII.—*Raised Quarter Deck.*

Raised quarter deck.

Where there is an efficient intact bulkhead, the length to the bulkhead is effective. Where the bulkhead is not intact, the superstructure is considered as a poop of less than standard height.

Rule XLIX.—*Bridge.*

Bridge.

Where there is an efficient bulkhead at each end, and the access openings in the bulkheads are fitted with Class 1 closing appliances, the length between the bulkheads is effective.

Where the access openings in the forward bulkhead are fitted with Class 1 closing appliances and the access openings in the after bulkhead with Class 2 closing appliances, the length between the bulkheads is effective; where an allowance is given for an efficient trunk, adjacent to the after bulkhead (*see* Rule LI), 90 per cent. of the length is effective. Where the access openings in both bulkheads are fitted with Class 2 closing appliances, 90 per cent. of the length between the bulkheads is effective. Where the access openings in the forward bulkhead are fitted with Class 1 or Class 2 closing appliances and the access openings in the after bulkhead have no closing appliances, 75 per cent. of the length between the bulkheads is effective. Where the access openings in both bulkheads have no closing appliances, 50 per cent. of the length is effective. 75 per cent. of the length of an open extension beyond the after bulkhead, and 50 per cent. of that beyond the forward bulkhead, are effective.

Post, p. 2314.

Rule L.—*Forecastle.*

Forecastle.

Where there is an efficient bulkhead and the access openings are fitted with Class 1 or Class 2 closing appliances, the length to the bulkhead is effective. Where no closing appliances are fitted and the sheer forward of amidships is not less than the standard sheer, 100 per cent. of the length of the forecastle forward of .1 L from

Règle XLVII.—*Dunette.*

Lorsqu'il y a une cloison efficace et lorsque les ouvertures d'accès sont munies de fermetures de la classe 1, la longueur jusqu'à la cloison est effective. Lorsque les ouvertures d'accès pratiquées dans une cloison efficace sont munies de fermetures de la classe 2 et lorsque la longueur jusqu'à la cloison est égale ou inférieure à 0,5 L, 100 pour cent de cette longueur sont effectifs; lorsque la longueur est <sup>63</sup> égale ou supérieure à 0,7 L, 90 pour cent de cette longueur sont effectifs; lorsque la longueur est <sup>63</sup> comprise entre 0,5 et 0,7 L, un pourcentage intermédiaire de cette longueur est effectif, et lorsqu'une déduction est accordée pour un trunk efficace contigu (voir Règle LI), 90 pour cent de cette longueur sont effectifs. 50 pour cent de la longueur d'une dunette ouverte ou d'un prolongement ouvert de la dunette au-delà d'une cloison efficace sont effectifs.

Règle XLVIII.—*Demi-dunette.*

Lorsqu'il y a une cloison efficace intacte, la longueur jusqu'à la cloison est effective. Lorsque la cloison n'est pas intacte la superstructure est considérée comme une dunette de hauteur moindre que la hauteur réglementaire.

Règle XLIX.—*Château.*

Lorsqu'il y a une cloison efficace à chaque extrémité et lorsque les ouvertures d'accès dans ces cloisons sont munies de fermetures de la classe 1, la longueur comprise entre les cloisons est effective.

Lorsque les ouvertures d'accès dans la cloison avant sont munies de fermetures de la classe 1 et lorsque les ouvertures dans la cloison arrière sont munies de fermetures de la classe 2 la longueur entre les cloisons est effective et lorsqu'une déduction est accordée pour un trunk efficace attenant à la cloison arrière (voir Règle LI), 90 pour cent de la longueur sont effectifs. Lorsque les ouvertures d'accès dans les 2 <sup>64</sup> cloisons sont munies de fermetures de la classe 2, 90 pour cent de la longueur entre les cloisons sont effectifs. Lorsque les ouvertures d'accès dans la cloison avant sont munies de fermetures de la classe 1 ou de la classe 2 et lorsque les ouvertures d'accès de la cloison arrière n'ont pas de fermetures, 75 pour cent de la longueur entre les cloisons sont effectifs. Lorsque les ouvertures d'accès de deux cloisons n'ont pas de dispositifs de fermetures, 50 pour cent de la longueur sont effectifs. 75 pour cent de la longueur d'un prolongement ouvert de château au-delà de la cloison arrière et 50 pour cent de la longueur d'un prolongement ouvert au-delà de la cloison avant sont effectifs.

Règle L.—*Gaillard.*

Lorsqu'il y a une cloison efficace et lorsque les ouvertures d'accès sont munies de dispositifs de fermeture de la Classe 1 ou 2, la longueur jusqu'à la cloison est effective. Lorsqu'il n'y a pas de dispositifs de fermeture et lorsque la tonture en avant de la demi-longueur du navire n'est pas inférieure à la tonture réglementaire, 100 pour cent de la

the forward perpendicular is effective; where the sheer forward is half the standard sheer or less, 50 per cent. of that length is effective; and where the sheer forward is intermediate between the standard and half the standard sheer, an intermediate percentage of that length is effective. 50 per cent. of the length of an open extension beyond the bulkhead or beyond  $.1 L$  from the forward perpendicular is effective.

Rule LI.—*Trunk.*

*Trunk.*

A trunk or similar structure which does not extend to the sides of the ship is regarded as efficient provided that—

- (a) the trunk is at least as strong as a superstructure;
- (b) the hatchways are in the trunk deck, and comply with the requirements of Rules VIII to XVI, and the width of the trunk deck stringer provides a satisfactory gangway and sufficient lateral stiffness;
- (c) a permanent working platform fore and aft fitted with guard rails is provided by the trunk deck, or by detached trunks connected to other superstructures by efficient permanent gangways;
- (d) ventilators are protected by the trunk, by watertight covers or by equivalent means;
- (e) open rails are fitted on the weather portions of the free-board deck in way of the trunk for at least half their length;
- (f) the machinery casings are protected by the trunk, by a superstructure of standard height, or by a deck house of the same height and of equivalent strength.

Where access openings in poop and bridge bulkheads are fitted with Class 1 closing appliances, 100 per cent. of the length of an efficient trunk reduced in the ratio of its mean breadth to  $B$  is added to the effective length of the superstructures. Where the access openings in these bulkheads are not fitted with Class 1 closing appliances 90 per cent. is added.

The standard height of a trunk is the standard height of a bridge.

Where the height of the trunk is less than the standard height of a bridge, the addition is reduced in the ratio of the actual to the standard height; where the height of hatchway coamings on the trunk deck is less than the standard height of coamings (*see* Rule IX), a reduction from the actual height of trunk is to be made which corresponds to the difference between the actual and the standard height of coamings.

longueur du gaillard sur l'avant de 0,1 L, mesuré à partir de la perpendiculaire avant, sont effectifs; lorsque la tonture à l'avant est égale ou inférieure à la moitié de la tonture réglementaire, 50 pour cent de cette longueur sont effectifs; lorsque la tonture à l'avant est intermédiaire entre la tonture réglementaire et la demi-tonture réglementaire un pourcentage intermédiaire de cette longueur est effectif. 50 pour cent de la longueur d'un prolongement ouvert du gaillard en arrière de la cloison ou au delà de 0,1 L, en arrière de la perpendiculaire avant, sont effectifs.

Règle LI.—*Trunk.*

Un trunk ou toute autre construction semblable qui ne s'étend pas jusqu'aux murailles du navire est considéré comme efficace à condition que:

- (a) le trunk soit au moins aussi solide qu'une superstructure;
- (b) les panneaux soient sur le pont du trunk et satisfassent aux prescriptions des Règles VIII à XVI, que la largeur de la gouttière de pont du trunk constitue une passerelle satisfaisante et apporte une rigidité transversale<sup>65</sup> suffisante;
- (c) une plateforme de manœuvre permanente s'étendant de l'avant et à l'arrière et munie de garde-corps soit constituée par le pont du trunk ou par des trunks détachés reliés aux autres superstructures par des passerelles permanentes efficaces;
- (d) les manches à air soient protégées par le trunk, au moyen de couvercles<sup>66</sup> étanches ou de dispositifs équivalents;
- (e) des rambardes soient placées sur les parties exposées du pont de franc-bord par le travers du trunk sur sa demi-longueur au moins;<sup>67</sup>
- (f) les encaissements de la machine soient protégés par le trunk, au moyen d'une superstructure de hauteur réglementaire ou au moyen d'un rouf de même hauteur et de solidité équivalente.

Lorsque les ouvertures d'accès dans les cloisons de la dunette ou du château sont munies de fermetures de la classe 1, 100 pour cent de la longueur d'un trunk efficace, réduits dans le rapport de la largeur moyenne de ce trunk à B, sont ajoutés à la longueur effective des superstructures. Lorsque les ouvertures d'accès de ces cloisons ne sont pas munies de fermetures de la classe 1, 90 pour cent sont ajoutés.

La hauteur réglementaire d'un trunk est égale à la hauteur réglementaire d'un château.

Lorsque la hauteur du trunk est moindre que la hauteur réglementaire d'un château, l'augmentation est réduite dans le rapport de la hauteur réelle à la hauteur réglementaire; lorsque la hauteur des hiloires de panneaux sur le pont du trunk est moindre que la hauteur réglementaire des hiloires de panneaux (voir Règle IX), une réduction doit être faite sur la hauteur réelle du trunk, réduction qui doit correspondre à la différence entre la hauteur réelle et la hauteur réglementaire des hiloires de panneaux.

Enclosed superstructure with middle line openings. *Effective Length of Enclosed Superstructures with Middle Line Openings.*

Rule LII.—*Enclosed Superstructure with Middle Line Openings in the deck not Provided with Permanent Means of Closing.*

Effective length, having no permanent means of closing. *Ante*, p. 2270.

Where there is an enclosed superstructure with one or more middle line openings in the deck not provided with permanent means of closing (*see* Rules VIII to XVI), the effective length of the superstructure is determined as follows:—

*Ante*, p. 2210.

- (1) Where efficient temporary closing appliances are not provided for the middle line deck openings (*see* Rule XLV), or the breadth of opening is 80 per cent. or more of the breadth  $B_1$ , of the superstructure deck at the middle of the opening, the ship is considered as having an open well in way of each opening, and freeing ports are to be provided in way of this well. The effective length of superstructure between openings is governed by Rules XLVII, XLIX, and L.

*Ante*, p. 2312.

- (2) Where efficient temporary closing appliances are provided for middle line deck openings and the breadth of opening is less than  $.8 B_1$ , the effective length is governed by Rules XLVII, XLIX, and L, except that where access openings in 'tween deck bulkheads are closed by Class 2 closing appliances, they are regarded as being closed by Class 1 closing appliances in determining the effective length. The total effective length is obtained by adding to the length determined by (1) the difference between this length and the length of the ship modified in the ratio of—

$$\frac{B_1 - b}{B_1}$$

where  $b$  = breadth of deck opening;

where  $\frac{B_1 - b}{B_1}$  is greater than .5 it is taken as .5.

*Deductions for Superstructures.*

Rule LIII.—*Deductions for Superstructures.*

Deductions.

Where the effective length of superstructures is 1.0  $L$ , the deduction from the freeboard is 14 inches at 80 feet length of ship, 34 inches at 280 feet length, and 42 inches at 400 feet length and above; deductions at intermediate lengths are obtained by interpolation. Where the total effective length of superstructures is

*Longueur effective des superstructures fermées avec ouvertures dans l'axe.**Règle LII.—Superstructures fermées avec ouvertures axiales dans le pont, non pourvues de moyens de fermeture permanents.*

Lorsqu'il y a une superstructure fermée avec une ou plusieurs ouvertures axiales dans le pont, non pourvues de moyens de fermeture permanents (voir Règles VIII à XVI), la longueur effective de la superstructure est déterminée comme il suit:

- (1) Lorsque des dispositifs de fermeture temporaires efficaces ne sont pas prévus pour les ouvertures axiales dans le pont (voir Règle XLV) ou lorsque la largeur de l'ouverture est égale ou supérieure à 80 pour cent de la largeur  $B_1$  du pont de superstructures du <sup>68</sup> milieu de l'ouverture, le navire est considéré comme ayant un puits ouvert par le travers de chaque ouverture et des sabords de décharge doivent être prévus par le travers de ce puits. La longueur effective d'une superstructure, entre les ouvertures, est déterminée d'après les Règles XLVII, XLIX et L.
- (2) Lorsque des dispositifs de fermeture temporaires efficaces sont prévus pour les ouvertures axiales dans le pont et lorsque la largeur des ouvertures est inférieure à  $0,8 B_1$ , la longueur effective est déterminée d'après les Règles XLVII, XLIX et L; toutefois lorsque les ouvertures d'accès dans les cloisons d'entrepont sont fermées par des dispositifs de fermeture de la classe 2, elles sont considérées, pour le calcul de la longueur effective, comme étant fermées par des dispositifs de la classe 1. La longueur effective totale s'obtient en ajoutant à la longueur déterminée au paragraphe (1) ci-dessus la différence entre cette longueur et la longueur du navire corrigée dans le rapport:

$$\frac{B_1 - b}{B_1}$$

où  $b$  est la largeur de l'ouverture dans le pont.

Lorsque  $\frac{B_1 - b}{B_1}$  est supérieur à 0,5 la valeur maximum admise est 0,5.<sup>69</sup>

*Déductions pour superstructures.**Règle LIII.—Déductions pour superstructures.*

Lorsque la longueur effective de superstructures est égale à  $L$ , la déduction à apporter au franc-bord est de 356 millimètres pour une longueur de navire égale à 24m40, elle est de 864 millimètres pour une longueur de 85m30 et de 1067 millimètres pour une longueur de 122 mètres et au-dessus. Les déductions à apporter pour les valeurs intermédiaires de la longueur sont obtenues par interpolation.

Sheer.

*Sheer.*Rule LIV.—*General.*General  
measurements.

The sheer is measured from the deck at side to a line of reference drawn parallel to the keel through the sheer line at amidships.

In ships designed to trim by the stern in service, the sheer may be measured in relation to the load line, provided an additional mark is placed at .25 L forward of amidships, to indicate the assigned load line. This mark is to be similar to the load line disc amidships.

In flush deck ships and in ships with detached superstructures the sheer is measured at the freeboard deck.

*Ante*, p. 2294.

In ships with topsides of unusual form in which there is a step or break in the topsides, the sheer is considered in relation to the equivalent depth amidships (*see* Rule XXXV).

In ships with a superstructure of standard height which extends over the whole length of the freeboard deck, the sheer is measured at the superstructure deck; where the height exceeds the standard, the sheer may be considered in relation to the standard height.

Where a superstructure is intact or access openings in its enclosing bulkheads are fitted with Class 1 closing appliances, and the superstructure deck has at least the same sheer as the exposed freeboard deck, the sheer of the enclosed portion of the freeboard deck is not taken into account.

Rule LV.—*Standard Sheer Profile.*

Standard sheer profile.

The ordinates (in inches) of the standard sheer profile are given in the following Table, where L is the number of feet in the length of the ship:—

Station.	Ordinate.	Factor.
A.P.-----	.1 L + 10	1
1/6 L from A.P.-----	.0445 L + 4.45	4
1/3 L from A.P.-----	.011 L + 1.1	2

F.P.-----	.2 L + 20	1

A.P.—After end of Summer load water-line. F.P.—Fore end of Summer load water-line.

*Tonture.*Règle LIV.—*Généralités.*

La tonture est mesurée depuis le pont en abord jusqu'à une ligne de référence tracée parallèlement à la quille au milieu du navire et tangente à la ligne de tonture.

Dans les navires prévus pour naviguer avec un tirant d'eau arrière plus grand que le tirant d'eau avant, la tonture peut être mesurée d'après la ligne de charge à condition qu'une marque additionnelle soit placée à 0,25 L en avant du milieu pour indiquer la ligne de charge assignée. Cette marque doit être semblable au disque de franc-bord au milieu du navire.

Dans les navires à pont découvert et dans les navires à superstructures détachées la tonture est mesurée au pont de franc-bord.

Dans les navires dont les parties hautes des murailles sont d'une forme particulière avec un retrait ou une brisure, la tonture est évaluée d'après le creux équivalent au milieu du navire (voir Règle XXXV).

Dans les navires ayant une superstructure de hauteur réglementaire, s'étendant sur toute la longueur du pont de franc-bord, la tonture est mesurée au pont de la superstructure. Lorsque la hauteur est supérieure à la hauteur réglementaire la tonture peut être évaluée d'après la hauteur réglementaire. Lorsqu'une superstructure est intacte ou lorsque les ouvertures des cloisons qui la limitent sont munies de fermetures de la classe 1 et lorsque le pont de superstructures <sup>70</sup> a au moins la même tonture que le pont de franc-bord exposé, il n'est pas tenu compte de la tonture dans la partie couverte du pont de franc-bord.

Règle LV.—*Ligne de tonture réglementaire.*

Les ordonnées en millimètres <sup>71</sup> de la ligne de tonture réglementaire sont données dans la table suivante, où L est la longueur du navire en mètres:

Position.	Ordonnées.	Facteur.
P.A.R.-----	0,833 L + 25,4	1
1/6 L de P.A.R.-----	0,37 L + 11,3	4

1/6 L de P.A.V.-----	0,74 L + 22,6	4
P.A.V.-----	1,666 L + 50,8	1

P.A.R.=Extrémité arrière de la ligne de flottaison correspondant au franc-bord d'été.

P.A.V.=Extrémité avant de la ligne de flottaison correspondant au franc-bord d'été.

[<sup>71</sup>Au lieu de "millimètres" mettre "centimètres."]

Rule LVI.—*Measurement of Variations from Standard Sheer Profile.*

Variations.

Where the sheer profile differs from the standard, the seven ordinates of each profile are multiplied by the appropriate factors given in the table of ordinates. The difference between the sums of the respective products, divided by 18, measures the deficiency or excess of sheer. Where the after half of the sheer profile is greater than the standard and the forward half is less than the standard, no credit is allowed for the part in excess and the deficiency only is measured.

Where the forward half of the sheer profile exceeds the standard, and the after portion of the sheer profile is not less than 75 per cent. of the standard, credit is allowed for the part in excess; where the after part is less than 50 per cent. of the standard no credit is given for the excess sheer forward. Where the after sheer is between 50 per cent. and 75 per cent. of the standard, intermediate allowances may be granted for excess sheer forward.

Rule LVII.—*Correction for Variations from Standard Sheer Profile.*

Correction for sheer.

The correction for sheer is the deficiency or excess of sheer (*see* Rule LVI), multiplied by  $.75 - \frac{S}{2L}$ , where S is the total length of superstructure, as defined in Rule XL.

Rule LVIII.—*Addition for Deficiency in Sheer.*

Addition for deficiency.

Where the sheer is less than the standard, the correction for deficiency in sheer (*see* Rule LVII) is added to the freeboard

Rule LIX.—*Deduction for Excess Sheer.*

Deduction for excess.

In flush deck ships and in ships where an enclosed superstructure covers .1 L before and .1 L abaft amidships, the correction for excess of sheer (*see* Rule LVII) is deducted from the freeboard; in ships with detached superstructures where no enclosed superstructure covers amidships, no deduction is made from the freeboard; where an enclosed superstructure covers less than .1 L before and .1 L abaft amidships, the deduction is obtained by interpolation. The maximum deduction for excess sheer is 1½ inches at 100 feet and increases at the rate of 1½ inches for each additional 100 feet in the length of the ship.

Règle LVI.—*Mesure des écarts avec la ligne de tonture réglementaire.*

Lorsque la ligne de tonture diffère de la ligne de tonture réglementaire, les sept ordonnées de chacune des 2<sup>72</sup> lignes sont multipliées par les facteurs correspondants donnés dans la table des ordonnées. La différence entre les sommes des produits respectifs divisée par 18 mesure le manque ou l'excès de tonture. Lorsque la moitié arrière de la ligne de tonture est plus haute que la ligne de tonture réglementaire et lorsque la moitié avant est moins haute que cette ligne de tonture réglementaire aucune amélioration de franc-bord n'est accordée pour la partie la plus haute et la diminution correspondant à la partie basse est seule mesurée.

Lorsque la moitié avant de la ligne de tonture est plus haute que la ligne de tonture réglementaire et lorsque la partie arrière de la tonture n'est pas moindre que 75 pour cent de la tonture réglementaire, on doit tenir compte de la partie en excédent. Lorsque la partie arrière a une tonture moindre que 50 pour cent de la valeur de la tonture réglementaire, on ne doit pas tenir compte de l'excès de tonture à l'avant. Lorsque la tonture à l'arrière est comprise entre 50 et 75 pour cent de la tonture réglementaire, une correction intermédiaire peut être donnée pour excès de tonture à l'avant.

Règle LVII.—*Correction pour les écarts avec la ligne de tonture réglementaire.*

La correction pour la tonture est égale au manque ou à l'excès de tonture (voir Règle LVI) multiplié par  $0,75 - \frac{S}{2L}$ , S étant la longueur totale de superstructures, telle qu'elle est définie par la Règle XL.

Règle LVIII.—*Addition pour manque de tonture.*

Lorsque la tonture est moindre que la tonture réglementaire, la correction pour manque de tonture (voir Règle LVII) est ajoutée au franc-bord.

Règle LIX.—*Déduction pour excès de tonture.*

Dans les navires à pont découvert et dans ceux dont la superstructure fermée couvre 0,1 L sur l'avant et 0,1 L sur l'arrière du milieu du navire, la correction pour excès de tonture (voir Règle LVII) est déduite du franc-bord; dans les navires à superstructures détachées où aucune superstructure fermée ne couvre le milieu du navire, aucune déduction n'est faite du franc-bord; lorsqu'une superstructure fermée couvre moins de 0,1 L sur l'avant et de 0,1 L sur l'arrière du milieu du navire, la déduction est obtenue par interpolation.

La déduction maximum pour excès de tonture est de 38 millimètres à 30 mètres 50 et augmente à raison de 38 millimètres pour chaque augmentation de 30 m. 50 de la longueur du navire.

Round of beam.

*Round of Beam.*Rule LX.—*Standard Round of Beam.*

Standard.

The standard round of beam of the freeboard deck is one-fiftieth of the breadth of the ship.

Rule LXI.—*Round of Beam Correction.*

Correction.

Where the round of beam of the freeboard deck is greater or less than the standard, the freeboard is decreased or increased respectively by one-fourth of the difference between the actual and the standard round of beam, multiplied by the proportion of the length of the freeboard deck not covered by enclosed superstructures. Twice the standard round of beam is the maximum for which allowance is given.

Minimum freeboards.

*Minimum Freeboards.*Rule LXII.—*Summer Freeboard.*

Summer.

The minimum freeboard in Summer is the freeboard derived from the Freeboard Table after corrections for departures from the standards and after deduction for superstructures.

The freeboard in salt water measured from the intersection of the upper surface of the freeboard deck with the outer surface of the shell is not to be less than 2 inches.

Rule LXIII.—*Tropical Freeboard.*

Tropical.

The minimum freeboard in the Tropical Zone is the freeboard obtained by a deduction from the Summer freeboard of  $\frac{1}{4}$  inch per foot of Summer draught measured from the top of the keel to the centre of the disc.

The freeboard in salt water measured from the intersection of the upper surface of the freeboard deck with the outer surface of the shell is not to be less than 2 inches.

Rule LXIV.—*Winter Freeboard.*

Winter.

The minimum freeboard in Winter is the freeboard obtained by an addition to the Summer freeboard of  $\frac{1}{4}$  inch per foot of Summer draught, measured from the top of the keel to the centre of the disc.

Rule LXV.—*Winter North Atlantic Freeboard.*

Winter North Atlantic.

The minimum freeboard for ships not exceeding 330 feet in length on voyages across the North Atlantic, North of latitude  $36^{\circ}$  N., during the winter months, is the Winter freeboard plus two inches; for ships over 330 feet in length it is the Winter freeboard.

*Bouge.*Règle LX.—*Bouge réglementaire.*

Le bouge réglementaire des barrots du pont de franc-bord est égal à un cinquantième de la largeur du navire.

Règle LXI.—*Correction pour le bouge.*

Lorsque le bouge du pont de franc-bord est plus grand ou plus petit que le bouge réglementaire, le franc-bord est diminué ou augmenté respectivement d'un quart de la différence entre le bouge réel et le bouge réglementaire des barrots multiplié par la fraction de la longueur du pont de franc-bord qui n'est pas couverte par des superstructures fermées. La diminution de franc-bord accordée pour le bouge ne peut dépasser celle qui correspond à un bouge double du bouge réglementaire.

*Francs-bords minima.*Règle LXII.—*Franc-bord d'été.*

Le franc-bord d'été minimum est celui qui est déduit de la Table de franc-bord après correction pour les écarts avec les "standards" et après déduction pour les superstructures.

Le franc-bord en eau salée mesuré à partir de l'intersection de la surface supérieure du pont de franc-bord avec la surface extérieure de la coque ne doit pas être inférieur à 51 millimètres.<sup>73</sup>

Règle LXIII.—*Franc bord tropical.*

Le franc-bord minimum dans la zone tropicale est le franc-bord obtenu en déduisant du franc-bord d'été  $\frac{1}{8}$  du tirant d'eau d'été mesuré du dessus de quille jusqu'au centre du disque.

Le franc-bord en eau salée mesuré à partir de l'intersection de la surface supérieure du pont de franc-bord avec la surface extérieure du bordé de muraille ne doit pas être inférieur à 51 millimètres.<sup>74</sup>

Le franc-bord minimum pour les navires dont la longueur est inférieure ou égale à 100m50<sup>74</sup> et qui effectuent pendant les mois d'hiver des voyages à travers l'Atlantique Nord au nord du parallèle 36° Nord est égal au franc-bord d'hiver augmenté de 51 millimètres;<sup>75</sup> pour les navires plus longs que 100m50<sup>74</sup> il est égal au franc-bord d'hiver.

Fresh water.

The minimum freeboard in fresh water of unit density is the freeboard obtained by deducting from the minimum freeboard in salt water  $\frac{\Delta}{40 T}$  inches, where

$\Delta$  = displacement in salt water in tons at the Summer load water-line, and

$T$  = tons per inch immersion in salt water at the Summer load water-line.

In a ship with an enclosed superstructure covering at least .6 L amidships, with a complete trunk, or with a combination of intact partial superstructures and trunk which extends all fore and aft, where D is less than  $\frac{L}{15}$ , the freeboard is reduced at the above rate.

Where the height of superstructures or trunk is less than the standard height, the reduction is in the ratio of the actual to the standard height.

(v) Where the actual depth to the surface of the freeboard deck amidships is greater or less than D, the difference between the depths (in inches) is added to or deducted from the freeboard.

Part IV.—Load Lines for Sailing Ships.

Rule LXVIII.—*Lines to be Used in Connection with the Disc.*

Winter and Tropical load lines are not marked on sailing ships. The maximum load line to which sailing ships may be laden in salt water in Winter and in the Tropical Zone is the centre of the disc (see Figure 3).

Dans les navires qui possèdent une superstructure fermée s'étendant au moins sur une longueur de  $0,6 L$  avec un trunk complet ou une suite de superstructures partielles intactes et trunks qui s'étendent sans discontinuité de l'avant à l'arrière, si  $C$  est plus petit que  $\frac{L}{15}$ , le franc-bord est réduit de la quantité ci-dessus.<sup>78</sup>

Lorsque la hauteur des superstructures ou du trunk est plus petite que la hauteur réglementaire, la réduction est dans le rapport de la hauteur réelle à la hauteur réglementaire.

Rule LXIX.—*Conditions of Assignment of Load Line.*

Conditions of assignment.

The conditions of assignment are those contained in Part II of these Rules.

Rule LXX.—*Computation of Freeboard.*

Computation of freeboard.

Freeboards are computed from the Freeboard Table for Sailing Ships in the same manner as the freeboards for steamers are computed from the Freeboard Table for Steamers, except as follows:—

Rule LXXI.—*Depth for Freeboard (D).*

Depth.  
*Ante*, p. 2294.

In sailing ships having a greater rate of rise of floor than  $1\frac{1}{2}$  inches per foot, the vertical distance from the top of keel (Rule XXXIV), is reduced by half the difference between the total rise of floor at the half-breadth of the ship and the total rise at  $1\frac{1}{2}$  inches per foot.  $2\frac{1}{2}$  inches per foot of half-breadth is the maximum rate of rise for which a deduction is made.

Where the form at the lower part of the midship section is of a hollow character, or thick garboards are fitted, the depth is measured from the point where the line of the flat of the bottom continued inwards cuts the side of the keel.

The depth used with the Freeboard Table is to be taken as not less than  $\frac{L}{12}$ .

Coefficient of fineness.

Rule LXXII.—*Coefficient of fineness (c).*

The coefficient used with the Freeboard Table is to be taken as not less than .62 and not greater than .72.

Superstructure.

Rule LXXIII.—*Superstructures in Wood Ships.*

Wood ships.

In wood ships the construction and closing arrangements of superstructures for which deductions are made from the freeboard are to be to the satisfaction of the Assigning Authority.

Rule LXXIV.—*Deductions for Superstructures.*

Deductions.

Where the effective length of superstructures is  $1.0 L$ , the deduction from the freeboard is 3 inches at 80 feet length of ship, and 28 inches at 330 feet length and above; deductions at intermediate lengths are obtained by interpolation. Where the total effective length of super-

Règle LXIX.—*Conditions dans lesquelles les lignes de charge sont assignées.*

Les conditions dans lesquelles les lignes de charge sont assignées sont celles qui sont contenues dans la 2<sup>ème</sup> Partie des présentes Règles.

Règle LXX.—*Calcul du franc-bord.*

Les francs-bords sont calculés d'après la Table de franc-bord pour les voiliers de la même façon que les francs-bords des vapeurs sont calculés d'après la Table de francs-bords des vapeurs, sauf en ce qui concerne les points suivants.

Règle LXXI.—*Creux pour le franc-bord (C).*

Dans les voiliers ayant un relevé de varangues supérieur à 125 millimètres par mètre la distance verticale mesurée depuis le dessus de quille (Règle XXXIV) est réduite de la demi-différence entre le relevé total des varangues en un point situé à la demi-largeur du navire et le relevé total correspondant à une inclinaison de 125 millimètres par mètre. La réduction maximum à apporter ne peut dépasser celle qui correspond à un relevé de varangue de 208 millimètres par mètre de la demi-largeur du navire.

Lorsque les formes de la partie inférieure du maître couple sont creuses ou qu'il existe des galbords épais, le creux est mesuré depuis le point où le prolongement vers l'axe de la ligne tangente à la partie plate du fond coupe le côté de la quille.

La profondeur employée avec la Table de franc-bord ne doit pas être inférieure à  $\frac{L}{12}$ .

Règle LXXII.—*Coefficient de finesse (c).*

Le coefficient employé avec la Table de franc-bord ne doit pas être inférieur à 0,62 ni supérieur à 0,72.

Règle LXXIII.—*Superstructures dans les navires en bois.*

Dans les navires en bois la construction et les dispositifs de fermeture des superstructures pour lesquelles des réductions sont apportées au franc-bord, doivent être réalisés à la satisfaction de l'Autorité habilitée pour l'assignation des francs-bords.

Règle LXXIV.—*Déduction pour superstructures.*

Lorsque la longueur effective des superstructures est égale à L, la déduction à apporter au franc-bord est de 76 millimètres pour les navires dont la longueur est de 24m40 et de 711 millimètres pour les navires dont la longueur est égale ou supérieure à 100m50.<sup>79</sup> La

Rule LXXV.—*Minimum Freeboards.*

Minimum freeboards.

No addition to the freeboard is required for Winter freeboard, nor is a deduction permitted for Tropical freeboard.

An increase in freeboard of 3 inches is made for voyages across the North Atlantic North of latitude 36° N. during the winter months.

In computing the fresh water freeboard for a wood ship, the draught is measured from the lower edge of the rabbet of keel to the centre of the disc.

#### Règle LXXV.—*Francs-bords minima.*

Aucune augmentation du franc-bord n'est exigée pour l'hiver et aucune réduction n'est permise pour la zone tropicale.

Une augmentation du franc-bord égale à 75<sup>80</sup> millimètres est apportée pour les voyages effectués à travers l'Atlantique Nord au nord du parallèle de 36° N. pendant les mois d'hiver.

Dans les calculs de franc-bord en eau douce pour un navire en bois, le tirant d'eau est mesuré depuis le can inférieur de la râblure de quille jusqu'au centre du disque.

Rule LXXVII.—*Freeboard for Wood Sailing Ships.*

Wood sailing ships.

The freeboard for a wood sailing ship is the final freeboard the ship would obtain if she were of iron and steel, with the addition of such penalties as the Assigning Authority may determine, having regard to the classification, construction, age and condition of the ship.

Wood ships of primitive build such as dhows, junks, prahus, &c., are to be dealt with by the Administration so far as is reasonable and practicable under the Rules for Sailing Ships.

Steamers carrying timber deck cargoes.

Part V.—Load Lines for Steamers carrying Timber Deck Cargoes.

Definitions.

*Definitions.*

“Timber deck cargo”. *Timber Deck Cargo.*—The term “timber deck cargo” means a cargo of timber carried on an uncovered part of a freeboard or superstructure deck. The term does not include wood pulp or similar cargo.

“Timber load line”. *Timber Load Line.*—A timber load line is a special load line to be used only when the ship is carrying a timber deck cargo in compliance with the following conditions and regulations:—

Marks on the ship's sides.

Rule LXXVIII.—*Marks on the Ship's Sides.*

Timber load lines.

*Timber Load Lines.*—The lines which indicate the maximum timber load lines in different circumstances and at different seasons are to be horizontal lines, 9 inches in length and 1 inch in breadth, which extend from, and are at right angles to, a vertical line marked 21 inches abaft the centre of the disc (see Figure 4). They are to be marked and verified similarly to the ordinary load lines (see Rules V to VII).

(iv) Lorsque le creux réel mesuré jusqu'à la surface du pont de franc-bord au milieu du navire est supérieur ou inférieur à C, la différence entre les creux (en millimètres) est ajoutée ou retranchée au franc-bord.

Règle LXXVII.—*Franc-bord pour les voiliers en bois.*

Le franc-bord pour un voilier en bois est égal au franc-bord qui, tous calculs faits, lui serait accordé s'il était en fer ou en acier, augmenté de telles quantités que l'autorité habilitée pour l'assignation des francs-bords pourra fixer eu égard à la classe, la construction, l'âge et l'état du navire. Les navires en bois de construction primitive, tels que les boutres, les jonques, prahus, &c., doivent, être traités par l'Administration autant qu'il sera raisonnable et possible suivant les Règles pour les voiliers.

5<sup>ème</sup> Partie.—*Lignes de charge pour les vapeurs transportant du bois en pontée.*

*Définitions.*

*Chargement de bois en pontée.*—L'expression "chargement de bois en pontée" signifie un chargement de bois transporté sur une partie non couverte du pont de franc-bord ou du pont de superstructure. Cette expression ne comprend pas les chargements de pulpe de bois ni les chargements similaires.

*Ligne de charge pour les navires transportant des chargements de bois en pontée.*—Une ligne de charge pour les navires transportant des chargements de bois en pontée est une ligne de charge spéciale qui est utilisée seulement quand le navire transporte un chargement de bois en pontée conformément aux conditions et aux règles suivantes:

Règle LXXVIII.—*Marques sur les flancs du navire.*

*Lignes de charge pour les navires transportant des chargements de bois en pontée.*—Les lignes qui indiquent les lignes de charge maxima pour les navires transportant des chargements de bois en pontée dans les différentes circonstances et dans les différentes saisons consistent en des lignes horizontales de 250 millimètres de longueur et de 25 millimètres d'épaisseur disposées perpendiculairement à une ligne verticale tracée à 540 millimètres sur l'arrière du centre du disque (voir figure 4). Elles doivent être marquées et contrôlées dans les mêmes conditions que les lignes de charge ordinaires (voir les Règles V à VII).

Fresh water.

The *Fresh Water Timber Load Line* in Summer is indicated by the upper edge of a line marked LF. The difference between the Fresh Water Timber load line in Summer and the Summer Timber load line is the allowance to be made for loading in fresh water at the other Timber load lines. Conditions supplémentaires d'assignation et Règles permettant l'augmentation d'enforcement.<sup>83</sup>

Règle LXXIX.—*Construction du Navire.*

La structure du navire doit être d'une solidité suffisante eu égard au tirant d'eau accru et au poids de la pontée.

Règle LXXX.—*Superstructures.*

Le navire doit avoir un gaillard ayant au moins la hauteur réglementaire et une longueur d'au moins 7 pour cent de la longueur du navire et, en plus, une dunette ou une demi-dunette pourvue d'un capot solide en acier ou d'un rouf installé à l'arrière.

Rule LXXXII.—*Double Bottom Tanks.*

Double bottom  
tanks.

Double bottom tanks where fitted within the midship half length of the ship are to have adequate longitudinal subdivision.

Rule LXXXIII.—*Bulwarks.*

Bulwarks.

The ship must be fitted either with permanent bulwarks at least 3 feet 3 inches high, specially stiffened on the upper edge and supported by strong bulwark stays attached to the deck in the way of the beams and provided with necessary freeing ports, or with efficient rails of the same height as the above and of specially strong construction.

Rule LXXXIV.—*Deck Openings covered by Timber Deck Cargo.*

Deck openings covered  
by timber deck  
cargo.

Openings to spaces below the freeboard deck are to be securely closed and battened down. All fittings, such as hatchway beams, fore-and-afters, and covers, are to be in place. Where hold ventilation is needed, the ventilators are to be efficiently protected.

Rule LXXXV.—*Stowage.*

Stowage.

The wells on the freeboard deck are to be filled with timber stowed as solidly as possible, to at least the standard height of a bridge.

On a ship within a seasonal winter zone in winter, the height of the deck cargo above the freeboard deck is not to exceed one-third of the extreme breadth of the ship.

All timber deck cargo is to be compactly stowed, lashed and secured. It must not interfere in any way with the navigation and necessary work of the ship, or with the provision of a safe margin of stability at all stages of the voyage, regard being given to additions of weight, such as those due to absorption of water and to losses of weight such as those due to consumption of fuel and stores.

Rule LXXXVI.—*Protection of Crew, Access to Machinery Space, &c.*

Protection of crew,  
machinery space, etc.

Safe and satisfactory access to the quarters of the crew, to the machinery space and to all other parts used in the necessary work of the ship, is to be available at all times. Deck cargo in way of openings which give access to such parts is to be so stowed that the openings can be properly closed and secured against the admission of

Règle LXXXII.—*Ballasts de double fond.*

Les water ballasts situés dans la mi-longueur du navire,<sup>84</sup> au milieu doivent avoir une subdivision longitudinale adéquate.

Règle LXXXIII.—*Pavois.*

Le navire doit être muni soit de pavois fixes d'une hauteur d'au moins 990 millimètres, particulièrement renforcés à la partie supérieure et consolidés par de solides jambettes fixées au pont par le travers des barrots et pourvus des sabords de décharge nécessaires, soit de rambardes convenables de la même hauteur que celle qui est indiquée ci-dessus pour les pavois.<sup>85</sup>

Règle LXXXIV.—*Ouvertures dans le pont recouvertes par la pontée de bois.*

Les ouvertures des espaces situés au-dessous du pont de franc-bord doivent être bien fermées et les tringles mises en place. Toutes les installations telles que les barrots mobiles, les galiotes et panneaux mobiles doivent être en place. Lorsque les cales sont appelées à être ventilées les manches à air doivent être efficacement protégées.

Règle LXXXV.—*Arrimage.*

Les puits dans <sup>86</sup> les ponts de franc-bord doivent être remplis de bois, arrimé aussi massivement que possible et de manière à atteindre au moins au niveau <sup>87</sup> de la hauteur réglementaire d'un château. A bord d'un navire qui se trouve en hiver dans une zone d'hiver périodique la hauteur de la pontée au-dessus du pont de franc-bord ne doit pas être supérieure au tiers de la plus grande largeur du navire.

Toute pontée de bois doit être arrimée d'une manière massive, saisie et assujettie. Elle ne doit gêner en aucune façon ni la navigation ni la manœuvre du navire, ni compromettre la conservation pendant toute la durée du voyage d'une marge suffisante de stabilité, eu égard aux augmentations de poids telles que celles résultant du mouillage de la cargaison, ainsi qu'aux réductions de poids provenant par <sup>88</sup> la consommation du combustible et des approvisionnements.

Règle LXXXVI.—*Protection de l'équipage, accès à la tranche des machines, &c.*

Un moyen d'accès sûr et satisfaisant doit permettre d'atteindre, à tout moment les locaux de l'équipage, la tranche des machines et toutes les autres parties qui sont obligatoirement utilisées pour la manœuvre. Aux endroits qui permettent d'atteindre ces parties, la pontée doit être arrimée de telle façon que les ouvertures y donnant

water. Efficient protection for the crew in the form of guard rails or life lines, spaced not more than 12 inches apart vertically, is to be provided on each side of the deck cargo to a height of at least 4 feet above the cargo. The cargo is to be made sufficiently level for gangway purposes.

Rule LXXXVII.—*Steering Arrangements.*

Steering  
arrange-  
ments.

Steering arrangements are to be effectively protected from damage by cargo, and, as far as practicable, are to be accessible. Efficient provision is to be made for steering in the event of a breakdown in the main steering arrangements.

Rule LXXXVIII.—*Uprights.*

Uprights.

Uprights when required by the nature of the timber are to be of adequate strength and may be of wood or metal; the spacing is to be suitable for the length and character of timber carried, but is not to exceed 10 feet. Strong angles or metal sockets efficiently secured to the stringer plate or equally efficient means are to be provided for securing the uprights.

Rule LXXXIX.—*Lashings.*

Lashings.

Timber deck cargo is to be efficiently secured throughout its length by independent overall lashings spaced not more than 10 feet apart.

Eye plates for these lashings are to be riveted to the sheer-strake at intervals of not more than 10 feet, the distance from an end bulkhead of a superstructure to the first eye plate being not more than 6 feet 6 inches. Additional eye plates may be fitted on the stringer plate.

Overall lashings are to be in good condition and are to be not less than  $\frac{3}{4}$  inch close link chain or flexible wire rope of equivalent strength, fitted with sliphooks and stretching screws, which are to be accessible at all times. Wire rope lashings are to have a short length of long link chain to permit the length of lashings to be regulated.

When timber is in lengths less than 12 feet, the spacing of the lashings is to be reduced to suit the length of timber or other suitable provision made.

accès puissent être convenablement fermées et disposées <sup>89</sup> de manière à empêcher toute rentrée d'eau. Des moyens de protection efficaces pour l'équipage, sous la forme de garde-corps, ou de filières s'élevant au moins à 1m20 <sup>90</sup> au-dessus de la pontée et espacées verticalement de 30 centimètres au plus les uns des autres, doivent être installés de chaque côté de la pontée. Le dessus de la pontée doit être suffisamment nivelé pour servir de passavant.

Règle LXXXVII.—*Dispositions concernant l'appareil à gouverner.*

Les dispositifs utilisés pour gouverner doivent être convenablement protégés contre les avaries que pourra <sup>91</sup> leur occasionner la pontée et, autant que cela est possible et raisonnable, <sup>92</sup> pouvoir être accessibles. Des dispositions doivent être prises pour que l'on puisse gouverner en cas d'avarie aux appareils principaux.

Règle LXXXVIII.—*Montants.*

Lorsque la nature du bois exige l'installation de montants, ces derniers doivent être d'une solidité appropriée et peuvent être en bois ou en métal. Leur écartement doit être en rapport avec la longueur et la nature du bois transporté, mais il ne doit pas être supérieur à 3m05. Des cornières ou des taquets <sup>93</sup> fixés convenablement à la tôle gouttière ou d'autres dispositifs efficaces doivent être prévus pour maintenir les montants.

Règle LXXXIX.—*Saisines.*

#### Rule XCI.—Computation of Freeboard.

Computations.

Where the Assigning Authority is satisfied that the ship is suitable and that the conditions and arrangements are at least equal to the foregoing requirements for the carriage of timber deck cargo, the Summer freeboards computed in accordance with the Rules and Tables in Part III may be modified to give special timber freeboards, by substituting the following percentages for those in Rule LIII:—

The Winter Timber freeboard is to be obtained by adding to the Summer Timber freeboard one-third of an inch per foot of the moulded Summer Timber draught.

Lorsque la longueur des pièces de bois est moindre que 3m60<sup>96</sup> l'espacement des saisines peut être réduit en proportion ou bien être remplacé par d'autres dispositions convenables.<sup>97</sup>

Lorsque l'espacement des saisines est égal ou inférieur à 1m50,<sup>98</sup> les dimensions des saisines en chaîne peuvent être réduites à 12,7 millimètres, ou on peut employer un fil d'acier de résistance équivalente.<sup>99</sup>

Toutes les installations exigées pour fixer les saisines doivent être d'une résistance appropriée à celle de ces saisines.

Les montants installés sur les ponts de superstructures doivent être espacés de 3m05 et être maintenus transversalement par des saisines<sup>1</sup> de résistance largement suffisantes.

#### Règle XC.—Plans.

Des plans montrant les dispositions et les installations pour l'arrimage et la tenue des pontées conformément aux présentes règles, doivent être soumis à l'Autorité habilitée pour l'assignation des francs-bords.

*Ante*, p. 2292.

Rule CIII.—*Deduction for Detached Superstructures.*

Detached superstructures, deduction.

When the total effective length of superstructure is less than 1.0 L, the deduction is a percentage of that for a superstructure of length 1.0 L, and is obtained from the following table:—

TOTAL Effective Length of Superstructures.

	0	.1 L	.2 L	.3 L	.4 L	.5 L	.6 L	.7 L	.8 L	.9 L	1.0 L
All types----	% 0	% 7	% 14	% 21	% 31	% 41	% 52	% 63	% 75.3	% 87.7	% 100

Rule CIV.—*Deduction for Excess Sheer.*

Excess sheer.

Where the sheer is greater than the standard, the correction for excess sheer (*see* Rule LVII of Part III, Load Lines for Steamers) is deducted from the freeboard for all tankers. Rule LIX of Part III does not apply except that the maximum deduction for excess sheer is 1½ inches at 100 feet and increases at the rate of 1½ inches for each additional 100 feet in the length of the ship.

*Francs-bords.*

Règle CII.—*Calcul du franc-bord.*

Quand l'Autorité habilitée pour l'assignation des francs-bords aura constaté que les exigences ci-dessus indiquées sont remplies, le franc-bord d'été pourra être calculé d'après la Table de franc-bord des navires à citernes. Toutes les corrections devront être faites suivant la 3<sup>ème</sup> partie du Règlement à l'exception de celles pour les vapeurs à pont découvert, pour les superstructures détachées, pour l'excès de tonture et pour les voyages d'hiver à travers l'Atlantique Nord.

Règle CIII.—*Réduction pour superstructures détachées.*

Lorsque la longueur totale effective des superstructures est moindre que L, la déduction est un pourcentage de celle prévue pour une longueur de superstructure égale à L. Elle est obtenue par le tableau suivant:<sup>12</sup>

LONGUEUR totale effective des superstructures.

—	0	0,1 L	0,2 L	0,3 L	0,4 L	0,5 L	0,6 L	0,7 L	0,8 L	0,9 L	L

Règle CIV.—*Déduction pour excès de tonture.*

Quand la tonture est plus grande que la tonture réglementaire, la correction pour excès de tonture (voir Règle LVII de la 3<sup>ème</sup> Partie, Lignes de Charge pour les Vapeurs) est déduite du franc-bord pour tous les navires à citernes. La Règle XLIX<sup>13</sup> ne s'applique pas sauf que<sup>14</sup> la déduction maximum pour excès de tonture est de 38 millimètres pour une longueur de 30m50 et elle augmente de 38 millimètres chaque fois que la longueur du navire augmente de 30m50.

nized by United States  
not to be so construed.

The Plenipotentiaries of the United States of America formally declare that the signing of the International Load Line Convention by them, on the part of the United States of America, on this date, is not to be construed to mean that the Government of the United States of America recognizes a régime or entity which signs or accedes to the Convention as the Government of a country when that régime or entity is not recognized by the Government of the United States of America as the Government of that country.

No contractual obli-  
gation.

The Plenipotentiaries of the United States of America further declare that the participation of the United States of America in the International Load Line Convention signed on this date does not involve any contractual obligation on the part of the United States of America to a country, represented by a régime or entity which the Government of the United States of America does not recognize as the Government of that country, until such country has a Government recognized by the Government of the United States of America.

## I.

La Conférence prend note des déclarations suivantes faites par la délégation ci-après indiquée.

Les Plénipotentiaires des États-Unis d'Amérique déclarent formellement que la signature de la Convention Internationale sur les Lignes de Charge portant la date de ce jour, ne doit pas être considérée comme signifiant que le Gouvernement des États-Unis d'Amérique reconnaisse un régime ou une institution signataire ou adhérent à la présente Convention lorsque ce régime ou cette institution n'est pas reconnu comme étant le Gouvernement de ce pays par le Gouvernement des États-Unis d'Amérique.

En outre, les Plénipotentiaires des États-Unis d'Amérique déclarent, que le fait que les États-Unis d'Amérique sont partie à la Convention Internationale sur les Lignes de Charge, signée à la date de ce jour, n'entraîne pour les États-Unis d'Amérique aucune obligation contractuelle envers un pays représenté par un régime ou une institution que le Gouvernement des États-Unis d'Amérique ne reconnaît pas comme étant le Gouvernement de ce pays et ce, jusqu'à ce que ce pays ait un Gouvernement reconnu par les États-Unis d'Amérique.

## II.

La Conférence adopte également les recommandations suivantes:

*Navires de moins de 150 tonneaux de jauge brute effectuant des voyages internationaux.*

La Conférence recommande que les réglementations qui peuvent être établies par l'un quelconque des Gouvernements contractants pour les navires de moins de 150 tonneaux de jauge brute effectuant

practicable and reasonable, be framed in accordance with the principles and rules laid down in this Convention, and should whenever possible be made after consultation and agreement with the Governments of the other countries concerned in such international voyages.

*Strength.*

Standards of strength.

As under the Rules attached to this Convention, ships which comply with the highest standard laid down in the rules of a classification society recognised by the Administration are regarded as having sufficient strength for the minimum freeboards allowed under the rules, the Conference recommends that each Administration should request the Society or Societies which it has recognised to confer from time to time with the Societies recognised by other Administrations, with a view to securing as much uniformity as possible in the application of the standards of strength on which freeboard is based.

*Annual Surveys.*

The Conference recommends that, if possible, each Administration should make arrangements for the periodical inspections referred to in paragraph (3) (c) of Article 14 to be held at intervals of approximately twelve months so far as concerns the maintenance of the fittings and appliances referred to in Condition B of paragraph 3 of that Article (*i.e.*, the fittings and appliances for the (i) protection of openings, (ii) guard rails, (iii) freeing ports and (iv) means of access to crews' quarters)

*Information regarding Damage to Tankers.*

Information as to  
tanker damage.

The Conference recommends that the Governments of the countries to which tankers belong shall keep records of all structural and deck damage to these ships caused by stress of weather, so that information with regard to these matters may be available.

des voyages internationaux soient, autant qu'il est possible et raisonnable de le faire, établies conformément aux principes et aux règles fixées dans la Convention et, si possible, après avoir consulté les Gouvernements des autres pays intéressés dans ces voyages internationaux et obtenu leur accord.

#### *Solidité.*

Suivant les règles annexées à la présente Convention, les navires qui satisfont aux "Standards" les plus élevés établis dans les règles d'une Société de Classification reconnue par l'Administration sont considérés comme ayant une solidité suffisante pour obtenir le franc-bord minimum qui peut être accordé d'après ces Règles. La Conférence recommande que chaque Administration demande à la Société ou aux Sociétés qu'elle a reconnues de conférer de temps en temps avec les Sociétés reconnues par les autres Administrations, afin de réaliser une uniformité aussi grande que possible dans l'application des "Standards" de solidité sur lesquels le franc-bord est basé.

#### *Visites annuelles.*

La Conférence recommande que, si possible, chaque Administration prenne ses dispositions pour assurer que la visite périodique, indiquée dans le paragraphe 3° (c) de l'Article 14, ait lieu à des intervalles d'environ douze mois en ce qui concerne la tenue en bon état des installations et des appareils visés dans la clause B du paragraphe 3 de cet Article (c'est-à-dire: les installations et les appareils pour (i) la protection des ouvertures, (ii) les garde-corps, (iii) les sabords de décharge, (iv) les moyens d'accès aux logements de l'équipage).<sup>6</sup>

La Conférence recommande que, lorsque ce sera possible, chaque Administration prenne des dispositions pour organiser environ tous les douze mois les visites périodiques dont il est question dans le paragraphe 3 (c) de l'Article 14 visant la tenue en état des dispositifs et installations énoncées dans la clause B du paragraphe 3 de cet Article, c'est-à-dire (i) la protection des ouvertures, (ii) les garde-corps, (iii) les sabords de décharge, (iv) les moyens d'accès aux logements de l'équipage.

#### *Renseignements concernant les avaries aux navires à citernes.*

La Conférence recommande que les Gouvernements des pays à qui appartiennent des navires à citernes recueillent les renseignements sur toutes les avaries aux coques et aux ponts survenues à ces navires et occasionnées par le gros temps afin que l'on puisse dispenser<sup>7</sup> de renseignements concernant cette question.

## EXCHANGES OF NOTES

British Ambassador. *The British Ambassador (Lindsay) to the Secretary of State (Stimson)*

No. 48

BRITISH EMBASSY,  
*Washington, D.C., February 8th, 1932*

SIR,

I have the honour to refer to my note No. 183 of May 29th, 1931<sup>1</sup> regarding the International Load Line Convention of 1930 and, under instructions from His Majesty's Principal Secretary of State for Foreign Affairs, to transmit to you herewith copies of a proposal made by the Netherlands Government relating to modifications in the text of the Rules in Annex I to the Convention. The proposal is transmitted for the information of the United States Government in preparing the regulations necessary to give effect to the Convention.

I am to state that His Majesty's Government in the United Kingdom are entirely in agreement with the proposed modifications, which they consider represent the most practical way of simplifying the application of the rules in those countries in which metric measures are in use, but they do not consider that the proposal necessitates any amendment of the Convention.

I have the honour to be, with the highest consideration, Sir,  
Your most obedient, humble servant,

R. C. LINDSAY.

THE HONOURABLE  
HENRY L. STIMSON,  
*Secretary of State of the United States,  
Washington, D.C.*

Proposal.

## PROPOSAL.

Modifications of  
French draft of Rules  
annex.

THE following modifications as to the French draft of the Rules annex to International Convention respecting Load Lines, London, the 5th July, 1930, are proposed to simplify the application in those countries in which metric measures are in use:—

Règle IX,	instead of	"457 millimètres,"	read	"460 millimètres."
"	"	"254	"	"255
Règle X,	"	"63	"	"65
Règle XI,	"	"457	"	"460

<sup>1</sup> Not printed.

(The same in Table 2.)

Règle XIII, instead of "63 millimètres," read "65 millimètres."  
 Règle XVIII, " " "229 " " " "230 " " "  
 " " "457 " " " "460 " " "  
 Règle XIX, " " "457 " " " "460 " " "  
 Règle XXI, " " "229 " " " "230 " " "  
 Règle XXV, " " "457 " " " "460 " " "

Règle XXX. The table should read:—

Longueur des pavois par le travers du puits en mètres.	Section des sabords de décharge de chaque bord en mètres carrés.

12	0,970
14	1,031
16	1,092

20	1,213
Au-dessus de 20	0,061 mètre carré pour chaque augmentation d'un mètre de longueur additionnelle de pavois.

Règle XXXVI to be read:—

"Coefficient de finesse (*c*).

"Le coefficient de finesse employé avec les tables de franc-bord est donné par la formule:

$$c = \frac{\Delta}{L.B.T.}$$

dans laquelle  $\Delta$  est le déplacement en eau douce en tonnes du navire hors membres (à l'exclusion des bossages) à un tirant d'eau moyen sur quille T égal à 85 pour cent du creux au livet.

"Le coefficient ne doit pas être inférieur à 0,68."

(This is more in conformity with the common practice in countries applying the metric system and gives exactly the same result as the formula in the English text.)

Règle XXXVII. The first table should be read:—

The results from the proposed tables are practically the same as those of the present, the differences being negligible. In the case of the freeboard tables, they never are more than 2,5 millimètres, or one-tenth of an inch; this maximum only is attained in a few cases.

As to the height of coamings, &c., it should be kept in mind that in any case both the English and the French text are in force, and, therefore, it will not be possible that any surveyor will make difficulties either when a ship that has been constructed in a country where the English measures are applied does not comply, as to some measures, which should be slightly larger, according to the French text or alternatively.

Finally, it is proposed to draw up the freeboards on the certificates when in metric measures in mètres with two decimals, *e.g.*:—

"Tropicale..... (a) 0,13 mètre au-dessus de (b).

"Été..... (b) 1,92 mètres.

Arête supérieure de la ligne  
passant par le centre du  
disque.

"Hiver..... (c) 0,13 mètre au-dessous de (b).

"Hiver dans l'Atlantique  
nord..... (d) 0,18 mètre au-dessous de (b)."

Such is simpler than and preferable to a freeboard mentioned on the certificate in millimètres.

DEPARTMENT OF STATE,  
Washington, June 1, 1932.

EXCELLENCY:

Consideration has been given to the proposal enclosed with your note No. 48 of February 8, 1932, made by the Netherlands Government relating to modifications in the French text of certain of the rules in Annex 1 to the International Load Line Convention of 1930, and I am now enabled to inform you that as the proposed modifications in no way alter the English text of the convention or affect the equivalence of the French text with the English text, this Government is in agreement with His Majesty's Government in the United Kingdom that the modifications represent the most practical way of simplifying the application of the rules in those countries in which metric measures are in use, and that the proposal does not necessitate any amendment of the convention.

Attention is invited, however, to a typographical error found in the third table of Regulation XXXVII in the Netherland proposal where the factor  $f_2$  corresponding to a value of K of 4.5 meters should be changed from 3134 to read 4134.

Accept, Excellency, the renewed assurances of my highest consideration.

Secretary of State. *The Secretary of State (Stimson) to the British Ambassador (Lindsay)*

The Secretary of State presents his compliments to the British Chargé d'Affaires *ad interim*, and referring to the Ambassador's note No. 215 of June 28, 1932, transmitting copies of a sheet showing corrections which the Netherland Government has made to the figures contained in its proposal transmitted with the Ambassador's note No. 48 of February 8, 1932, relating to modifications in the French text of the rules in Annex I to the London Load Line Convention of 1930, informs him that these modifications have had the consideration of the appropriate Departments of the Government of the United States and that no objection to them is perceived.

The Secretary of State would be thankful if he might be informed from time to time in regard to the other countries which accept the corrections proposed by the Netherland Government.

The Secretary of State would be further obliged if he might be informed of the procedure His Majesty's Government in Great Britain will take in respect of such corrections in the French text of the convention and rules, as have been or may be agreed upon in order to bring that text more in accord with the English text. It would be especially desirable to know whether it is the intention of the British Government to furnish to the governments certified copies of the convention and rules as so modified.

In this relation it is recalled that attached to the certified copy of the convention and rules originally furnished by the British Government is a long list of errata in the French text. The procedure of the governments in proclaiming or promulgating the convention and rules would be greatly facilitated and simplified if corrected certified copies could be furnished to them.

*The British Minister (Osborne) to the Secretary of State (Stimson)*

British Ambassador.

No. 313

His Majesty's Minister presents his compliments to the Secretary of State and with reference to his note 581.61 B 1/224 of August 9th last relative to the International Load Line Convention, has the honour, under instructions from His Majesty's Principal Secretary of State for Foreign Affairs, to inform him that Belgium, Denmark, Estonia, France, Greece, Italy, Poland, the Free City of Danzig, Spain, and the Union of Soviet Socialist Republics, have expressed their willingness to accept the proposals of the Netherlands Government in connection with the French text of the Rules in Annex 1 to that Convention.

Mr. Osborne is also instructed to inform Mr. Stimson that, since the errors found in the original text of the Convention and Rules were all of minor importance, and as the modifications in the French text recently proposed by the Netherlands Government represent merely the most practical way of simplifying the application of the Rules in Annex 1 to the Convention in those countries in which metric measures are in use, the competent authorities do not propose to arrange for the circulation of certified corrected copies of the Convention and Rules. In this connection, he is to add that the errors which were found to exist in the English text of the Convention and to which attention was called at the time of the circulation of certified copies, were corrected in the copy of the Convention which was scheduled to the Merchant Shipping (Safety and Load Line Conventions) Act of 1932.

*Forbudte Genstande.*

1. Det er forbudt at forsende følgende Genstande i Pakkerne:

a) Breve eller Meddelelser, der har Karakter af Breve. Dog er det tilladt i en Pakke at indlægge en aaben Faktura, der ikke indeholder andre Angivelser end de for en Faktura almindelige, samt en Genpart af Pakkens Adresse, hvortil kan føjes Afsenderens Adresse.

b) Indlæg, der bærer en anden Adresse end den paa Pakken angivne.

c) Levende Dyr, undtagen Iglar.

d) Enhver Genstand, hvis Forsendelse er forbudt af Toldvæsenet eller ved gældende Love eller Reglementer i et af de to Lande.

e) Alle eksplosive eller brandfarlige Genstande samt iøvrigt alle Genstande, hvis Befordring medfører Fare, derunder Genstande, som paa Grund af deres Beskaffenhed eller Indpakning kan frembyde Fare for Posttjenestemændene, eller som kan tilsnævse eller beskadige andre Pakker.

f) Usædelige eller usømmelige Genstande.

g) Endvidere er det forbudt i Pakker uden angiven Værdi at forsende Mønt, Pengesedler af enhver Art, alle Værdipapirer, der lyder paa Ihænderhaver, Platin, Guld og Sølv (saavel forarbejdet som uforarbejdet), Ædelstene, Juveler og anden Pretiosa.

Hvis en Pakke, som indeholder Mønt, Pengesedler af enhver Art, alle Værdipapirer, der lyder paa Ihænderhaver, Platin, Guld og Sølv (saavel forarbejdet som uforarbejdet), Ædelstene, Juveler og anden Pretiosa, er afsendt som Pakke uden angiven Værdi, skal den af Bestemmelseslandet behandles som Værdipakke.

2. Saafremt en Pakke, hvis Indhold er i Strid med disse Forbudsbestemmelser, overleveres fra det ene Land til det andet, skal sidstnævnte gaa frem i Overensstemmelse med sine Love og indenrigske Bestemmelser. Eksplosive eller brandfarlige Genstande samt Dokumenter, Billeder og andre Genstande, der strider imod almindelig Velanstændighed, kan tilintetgøres paa Stedet af det Postvæsen, der forefinder dem i Posten.

Den Omstændighed, at en Pakke indeholder et Brev eller en Meddelelse, der har Karakter af et Brev, kan dog ikke i noget Tilfælde medføre, at Pakken tilbagesendes til Afsenderen. Brevet sættes i Porto efter almindelige Regler, der opkræves hos Adressaten.

De to Poststyrelser underretter hinanden om alle forbudte Genstande ved Hjælp af den af Verdenspostforeningens internationale Bureau offentliggjorte Fortegnelse over forbudte Genstande. De paatager sig dog ikke herved noget Ansvar over for Toldvæsen, Politimyndigheder eller Afsenderne.

## ARTICLE VI.

## Insurance.

*Insurance.*

## Maximum amount.

Parcels may be insured up to the amount of 500 francs gold or its equivalent in the currency of the country of origin. However, the Chiefs of the Postal Administrations of the two contracting countries may, by mutual consent, increase or decrease this maximum amount of insurance.

## Limitation.

A parcel cannot give rise to the right to an indemnity higher than the actual value of its contents, but it is permissible to insure it for only part of that value.

## ARTICLE VII.

## Indemnity.

*Indemnity.*

## Allowance to sender.

1. Except in the cases mentioned in the Section following, the Administrations are responsible for the loss of insured parcels mailed in one of the two contracting countries for delivery in the other and for the loss, abstraction of or damage to their contents, or a part thereof.

## Amount restricted.

The sender, or other rightful claimant, is entitled on this account to an indemnity corresponding to the actual amount of the loss, abstraction or damage. The amount of indemnity is calculated on the basis of the actual value (current price, or, in the absence of current price, at the ordinary estimated value) at the time and place of mailing, of the parcel, provided in any case that the indemnity shall not exceed the amount for which the parcel was insured and on which the insurance fee has been collected, or the maximum of 500 francs gold.

## Reimbursement of postage, etc., on loss of parcels.

In the case where indemnity is payable for the loss of a parcel or for the destruction or abstraction of the whole of the contents thereof, the sender is entitled to the return of the postal charges, if claimed. However, the insurance fees are not in any case returned.

## Transit originating in a third country destined for either contracting Power.

In the absence of special agreement to the contrary between the countries involved no indemnity will be paid by either country for the loss of transit insured parcels originating in a country not participating in this Agreement and destined for one of the two contracting countries.

## Parcels forwarded to a third country.

When an insured parcel originating in one country and addressed for delivery in the other country is reforwarded from there to a third country or is returned to a third country at the request of the sender or addressee, the party entitled to the indemnity, in case of loss, rifling or damage occurring subsequent to the reforwarding or return of the parcel by the original country of destination, can lay claim, in such cases, only to the indemnity which the country where the loss, rifling or damage occurred consents to pay, or which that country is obligated to pay in accordance with the agreement made between the countries directly interested in the reforwarding or return. Either of the two countries signing the present Agreement which wrongly forwards an insured parcel to a third country is responsible to the sender to the same extent as the country of origin, that is, within the limit of the present Agreement.

## Responsibility for error.

## ARTIKEL VI.

*Værdiangivelse.*

Paa Pakker kan angives Værdi indtil et Beløb af 500 Guldfrancs eller det hertil i Afsendelseslandets Mønt svarende Beløb. Poststyrelserne i de to kontraherende Lande kan dog efter fælles Overenskomst forhøje eller nedsætte dette Maksimum for Værdiangivelse.

Forsendelsen af en Pakke giver ikke Ret til Erstatning udover den virkelige Værdi af dens Indhold, men det er tilladt at angive en lavere Værdi.

## ARTIKEL VII.

*Erstatning.*

1. Med Undtagelse af de i næste Punkt nævnte Tilfælde er Poststyrelserne ansvarlige for Bortkomst af Pakker med angiven Værdi, der er indleveret i det ene af de kontraherende Lande og bestemt til Udlevering i det andet, og for Bortkomst, Berøvelse eller Beskadigelse af Pakkernes Indhold, helt eller delvist.

Afsenderen eller en anden dertil legitimeret Person er som Følge heraf berettiget til en Erstatning, der svarer til Bortkomstens, Indholdsberøvelsens eller Beskadigelsens virkelige Beløb. Erstatningsbeløbet beregnes paa Grundlag af den virkelige Værdi (Fakturapris eller, hvis en saadan ikke opgives, almindelig Vurderingspris) paa det Tidspunkt og det Sted, hvor Pakken indleveredes, dog med det Forbehold, at Erstatningen ikke i noget Tilfælde kan overstige den paa Pakken angivne Værdi, for hvilken Værdigebyr er betalt, og højst kan udgøre 500 Guldfrancs.

I Tilfælde, hvor der skal betales Erstatning for en bortkommen Pakke eller for Ødelæggelse eller Berøvelse af hele dens Indhold, er Afsenderen, saafremt han fremsætter Begæring derom, berettiget til at faa Portoen tilbagebetalt. Værdigebyret tilbagebetales dog ikke i noget Tilfælde.

Med mindre der foreligger særlig Overenskomst om det modsatte mellem de interesserede Lande, betales der ikke Erstatning af noget af de kontraherende Lande for transiterende Pakker med angiven Værdi, der er bestemt til et af de to kontraherende Lande, og som hidrører fra et Land, der ikke er Deltager i denne Overenskomst.

Naar en Pakke med angiven Værdi, der er indleveret i det ene Land og bestemt til Udlevering i det andet Land, omadresseres fra sidstnævnte Land til et tredje Land eller tilbagesendes til et tredje Land paa Afsenderens eller Adressatens Begæring, kan den, der er berettiget til Erstatning, i Tilfælde af Bortkomst, Indholdsberøvelse eller Beskadigelse, som er sket efter Omekspeditionen eller Tilbagesendelsen fra det oprindelige Bestemmelsesland, i saadanne Tilfælde kun kræve den Erstatning, som det Land, i hvilket Bortkomsten, Indholdsberøvelsen eller Beskadigelsen er sket, indvilliger i at yde, eller som dette Land er forpligtet til at yde i Overensstemmelse med den mellem de i Omekspeditionen eller Tilbagesendelsen direkte interesserede Lande bestaaende Overenskomst. Hvert af denne Overenskomsts to Signatarlande, som ved en Fejl videresender en Pakke med angiven Værdi til et tredje Land, er ansvarlig overfor Afsenderen i samme Udstrækning som Afsendelseslandet, d. v. s. inden for de i nærværende Overenskomst fastsatte Grænser.

Responsibility released in certain cases.  
Unconditional acceptance.

Loss, etc., through *force majeure*.

Destruction of official documents.

Damage through fault of sender, addressee, etc.

Prohibited articles.

Declaration above real value.

Seized articles because of false declaration.

No claim within a year.

Matter of no intrinsic value, etc.

Indirect loss, etc.

Indemnity payment.

Deferred in exceptional cases.

Payment by country of origin if country of destination delays 9 months.

Country responsible.

Repayment.

2. The Administrations are relieved of all responsibility.

(a) In case of parcels of which the addressee has accepted delivery without reservation.

(b) In case of loss or damage through *force majeure* (causes beyond control) although either Administration may at its option and without recourse to the other Administration pay indemnity for loss or damage due to *force majeure* even in cases where the Administration of the country in the service of which the loss or damage occurred recognizes that the damage was due to *force majeure*.

(c) When they are unable to account for parcels in consequence of the destruction of official documents through *force majeure*.

(d) When the damage has been caused by the fault or negligence of the sender or the addressee or the representative of either, or when it is due to the nature of the article.

(e) For parcels which contain prohibited articles.

(f) In case the sender of an insured parcel, with intent to defraud, shall declare the contents to be above their real value; this rule, however, shall not prejudice any legal proceedings necessitated by the legislation of the country of origin.

(g) For parcels seized by the customs because of false declaration of contents.

(h) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the insured parcel.

(i) For parcels which contain matter of no intrinsic value or perishable matter or which did not conform to the stipulations of this Agreement or which were not posted in the manner prescribed, but the country responsible for the loss, rifling or damage may pay indemnity in respect of such parcels without recourse to the other Administration.

3. No compensation shall be given for indirect loss or loss of profits of any parcel transmitted under this Agreement.

4. The payment of compensation for an insured parcel shall be made to the rightful claimant as soon as possible and at the latest within a period of one year counting from the day following that on which the application is made.

However, the paying Postal Administration may exceptionally defer payment of indemnity for a longer period than that stipulated if, at the expiration of that period, it has not been able to determine the disposition made of the article in question or the responsibility incurred.

5. Except in cases where payment is exceptionally deferred as provided in the second paragraph of the foregoing Section, the Postal Administration which undertakes the payment of compensation is authorized to pay indemnity on behalf of the office which, after being duly informed of the application for indemnity, has let nine months pass without settling the matter.

6. The obligation of paying the indemnity shall rest with the Postal Administration to which the mailing office is subordinate, provided that in cases where the indemnity is paid to the addressee in accordance with the second paragraph of the first section, it shall rest with the Postal Administration of destination.

The paying Administration retains the right to make a claim against the Administration responsible.

2. Poststyrelserne er fritaget for ethvert Ansvar:

a) Med Hensyn til Pakker, som Adressaten har modtaget uden Bemærkninger.

Alle Spørgsmaal angaaende Begæringer om Tilbagesendelse af Pakker samt, for saa vidt angaar Pakker med angiven Værdi, angaaende Modtagelsesbeviser og Behandling af Erstatningskrav ordnes, hvis der ikke er truffet Bestemmelse om dem i nærværende Overenskomst, efter Bestemmelserne i Verdenspostkonventionen og dennes Ekspeditionsreglement for saa vidt disse er anvendelige og ikke strider imod de foregaaende Bestemmelser. Hvis der overhovedet ikke findes nogen Bestemmelse om et Spørgsmaal, anvendes henholdsvis Danmarks eller De Forenede Staters indre Lovgivning eller de Bestemmelser, der maatte træffes af Landene.

2. Enkelthederne med Hensyn til Anvendelsen af nærværende Overenskomst fastsættes af de to Poststyrelser i et Ekspeditionsreglement, hvis Bestemmelser kan ændres eller suppleres efter fælles Aftale ved Skriftveksling. En lignende Aftale ved Skriftveksling kan træffes angaaende Udveksling af Pakker med Postopkrævning.

For Pakker fra De Forenede Stater i Amerika gælder følgende Dimensionsbestemmelser: Største Længde er 4 feet paa Betingelse af, at Pakker af Længde over 42 men ikke over 44 inches ikke maaler mere end 24 inches i Omkreds, at Pakker af Længde over 44, men ikke over 46 inches ikke maaler mere end 20 inches i Omkreds, at Pakker af Længde over 46 men ikke over 48 inches ikke maaler mere end 16 inches i Omkreds, og at Pakker af Længde indtil 3½ feet ikke maaler mere end 6 feet i Længde og Omkreds tilsammen.

For Pakker fra Danmark gælder følgende Dimensionsbestemmelser: Største Længde er 125 cm og største Rumfang 55 dm<sup>3</sup>.

De ovenfor angivne Bestemmelser om største Vægt og Udstrækning kan ændres paa ethvert Tidspunkt efter Aftale ved Skriftveksling.

## ARTICLE 2.

*Preparation of Parcels.*

Preparation of parcels.

1. The name and address of the sender and of the addressee must be legibly and correctly written in every case when possible on the parcel itself or on a label or tag firmly attached thereto. It is not allowed to write with initials the name and address of the sender or addressee, unless the initials are the adopted trade name of the senders or addressees which is generally understood. Addresses in pencil are also not allowed, except those written with copying ink on a surface previously dampened.

A slip bearing the name and address of the sender and addressee must be enclosed in the parcel when the address is written on a label or tag which is not gummed to the parcel. It is advisable that such slips be enclosed in all parcels.

2. Every parcel must be packed in a manner adequate for the length of the journey and the character of the contents, and in such a way as to prevent the contents from damaging other parcels or objects or injuring the postal agents. The packing must protect the contents sufficiently that, in case of rifling, the traces thereof may be easily discovered.

No packing is required for ordinary parcels consisting of a single article, such as pieces of wood, metal, etc., which are not usually packed by the trade.

Any liquid or any substance which easily liquefies must be packed in a double receptacle. Between the first receptacle (bottle, flask, pot, box, etc.) and the second (box of metal, of strong wood, of strong corrugated cardboard or of strong fiberboard or receptacle of equal strength) shall be left a space which shall be filled with sawdust, bran or some other absorbent material, in sufficient quantity to absorb all the liquid contents in the case of breakage.

Powders and dyes in powder form must be packed in lead-sealed metal containers which must be enclosed in substantial outer covers, so as to obviate all damage to the accompanying mail matter.

3. Insured parcels must be sealed by means of wax, by lead or other seals. Ordinary parcels may be sealed at the option of the sender, or careful tying is sufficient as a mode of closing. Either Administration may require a special design or mark of the sender in the sealing of insured parcels mailed in its service, as a means of protection.

The customs of the country of destination, for the purpose of customs examination, shall have the right to break the seals. After customs examination is concluded, the parcels shall be officially resealed.

4. On the address side, each insured parcel must bear a label with the words "Insured" or "*Valeur déclarée*", or be stamped or marked with the same words in close proximity to the number given the parcel, and it must also bear an indication of the amount of the insured value, mentioned fully and legibly in the currency of the country of origin and in Roman letters. This amount must be converted into gold francs by the sender or by the office of origin and the result of conversion is added below the original description. The amount of the insured value must also be indicated on the customs declaration.

5. The seals, as well as any kind of labels or stamps, affixed to insured parcels, must be so placed as not to hide injuries to the package. Moreover, the labels or stamps must not be folded over two sides of the package so as to cover the edge.

## ARTIKEL 2.

*Pakkernes Beskaffenhed.*

1. Afsenderens og Adressatens Navn og Adresse skal skrives tydeligt i videst muligt Omfang paa selve Pakken eller paa en Seddel eller et Mærke, der er solidt fæstet til Pakken. Det er ikke tilladt at angive Afsenderens eller Adressatens Navn og Adresse ved Initialer, med mindre Initialerne er Afsenderens eller Adressatens indregistrerede Firmabetegnelse. Adresseangivelser, der er anført med Blyant, er heller ikke tilladt, medmindre der er anvendt Blækstift og Stedet for Anbringelsen forud er fugtet.

En Seddel, der bærer Angivelse af Afsenderens og Adressatens Adresser, skal indlægges i Pakken, naar dennes Adresse er skrevet paa en Seddel eller et Mærke, der ikke er klæbet paa Pakken. Det tilraaedes iøvrigt at indlægge saadanne Sedler i alle Pakker.

2. Enhver Pakke skal være indpakket paa en under Hensyn til Befordringens Længde og Indholdets Beskaffenhed forsvarlig Maade og saaledes, at Indholdet ikke kan foraarsage Skade paa andre Pakker eller Genstande eller medføre Ulemper for Posttjenestemændene. Indpakningen maa være tilstrækkelig til Beskyttelse af Indholdet, saaledes at der i Tilfælde af Indholdsberøvelse let kan konstateres Spor heraf.

Der kræves ikke Indpakning for almindelige Pakker, der kun bestaar af en enkelt Genstand, f. Eks. et Stykke Træ, Metal o. s. v., som det er Handelssædvane ikke at indpakke.

Alle Vædsker eller Stoffer, der let bliver flydende, skal indesluttet i dobbelte Beholdere. Imellem den indre Beholder (Flaske, Dunk, Kasse o. s. v.) og den ydre (Kasse af Metal, stærkt Træ, stærkt Bølgepap eller stærkt Fibermateriale eller en Beholder af tilsvarende Styrke) skal der være et Mellemrum, som skal udfyldes med Søvsmuld, Klid eller andet absorberende Stof i en saadan Mængde, at det i Tilfælde af Lækage er tilstrækkeligt til at absorbere hele det flydende Indhold.

Pulver og Farve i Pulverform skal indesluttet i Metalbeholdere, der tilloddes og derefter indpakkes i stærkt ydre Materiale, saaledes at al Beskadigelse af andre Postforsendelser derved forebygges.

3. Pakker med angiven Værdi skal forsegles med Benyttelse af Lak, Bly eller andet Materiale. Det staar Afsenderen frit for at forsegle almindelige Pakker, men omhyggelig Omsnøring er tilstrækkeligt Lukke. Hver af Poststyrelserne kan af Beskyttelseshensyn kræve, at Afsenderen til Forsegling af Pakker med angiven Værdi skal benytte et Signet med særligt Tegn eller Mærke.

Toldmyndighederne i Bestemmelseslandet har ved Toldundersøgelsen Ret til at bryde Seglene. Efter Toldbehandlingens Afslutning skal Pakkerne forsegles paany med Tjenestesejl.

4. Alle Pakker med angiven Værdi skal paa Adressesiden bære en Etiket med Ordene "Angiven Værdi" eller "Valeur déclarée" eller stemples eller mærkes med samme Angivelse i umiddelbar Nærhed af Registernummeret. De maa ligeledes bære Angivelse af Værdiangivelsens Beløb anført tydeligt i Afsendelseslandets Mønt og gentaget helt ud med latinske Bogstaver. Dette Beløb skal af Afsenderen eller Afsendelsesposthuset omsættes til Guldfrancs, og Francsbeløbet tilføjes neden under den oprindelige Værdiangivelse. Værdiangivelsens Beløb skal ligeledes angives i Tolddeklarationen.

5. Segl og alle Etiketter og Mærker paa Pakker med angiven Værdi skal anbringes saaledes, at de ikke skjuler Beskadigelser af Indpakning. Endvidere maa Etiketter eller Mærker ikke bøjes over to Sider af Pakken, saaledes at Kanten dækkes.

## ARTICLE 3.

*Customs Declarations.*Customs declara-  
tions.

1. The sender shall prepare one customs declaration for each parcel sent from either country, upon a special form provided for the purpose by the country of origin.

The customs declaration shall give a general description of the parcel, an accurate statement in detail of its contents and value, date of mailing, actual weight, the sender's name and address, and the name and address of the addressee, and shall be securely attached to the parcel. However, as an exception to the foregoing, when more than one parcel is mailed simultaneously by the same sender in one country to the same addressee at the same address in the other country, the sender need prepare only one customs declaration for the entire shipment, which customs declaration shall show, in addition to the particulars set forth in the preceding sentence, the total number of parcels comprising the shipment, and shall be securely attached to one of the parcels. The parcels comprising the entire shipment shall be clearly marked in such case with a fractional number, the numerator of which will indicate, in Arabic figures, the number of the parcel, and the denominator the number of parcels comprising the shipment; for example, if a single shipment were composed of 15 parcels, each parcel would be numbered, respectively, 1/15, 2/15, 3/15, etc.

2. The Administrations accept no responsibility for the correctness of the customs declarations.

## ARTICLE 4.

*Return receipts.*

Return receipts.

1. As to a parcel for which a return receipt is asked, the office of origin impresses on the parcel the letters or words "A. R." or "*Avis de Réception*". The office of origin or any other office appointed by the dispatching Administration shall fill out a return receipt form and attach it to the parcel. If the form does not reach the office of destination, that office makes out a duplicate.

2. The office of destination, after having duly filled out the return receipt form, returns it free of postage to the address of the sender of the parcel.

3. When the sender applies for a return receipt after a parcel has been posted, the office of origin duly fills out a return receipt form and attaches it to a form of inquiry which is entered with the details concerning the transmission of the parcel and then forwards it to the office of destination of the parcel. In the case of the due delivery of the parcel, the office of destination withdraws the inquiry form, and the return receipt is treated in the manner prescribed in the foregoing paragraph.

## ARTICLE 5.

*Receptacles.*

Receptacles.

1. The Postal Administrations of the two contracting countries shall provide the respective bags necessary for the dispatch of their parcels and each bag shall be marked to show the name of the office or country to which it belongs.

2. Bags must be returned empty to the dispatching office by the next mail. Empty bags to be returned are made up in bundles of ten, enclosing nine bags in one. The total number of bags returned shall be entered on the relative parcel bills.

3. In case ten per cent of the total number of bags used during the year have not been returned, the value of the missing bags must be repaid to the Administration of origin.

## ARTIKEL 3.

*Tolddeklarationer.*

1. Afsenderen skal for hver Pakke, der afsendes fra et af de to Lande, udfylde een Tolddeklaration paa en af Afsendelseslandet til dette Formaal fremstillet særlig Formular.

Tolddeklarationen skal indeholde en almindelig Betegnelse af Pakken, en nøjagtig, detailleret Angivelse af dens Indhold og Værdi, Indleveringsdato, virkelige Vægt, Afsenderens Navn og Adresse samt Adressatens Navn og Adresse, og skal befæstes solidt til Pakken. Dog gælder det som en Undtagelse fra det foregaaende, at Afsenderen, naar der samtidig indleveres mere end een Pakke fra samme Afsender i det ene Land til samme Adressat og Adresse i det andet Land, kun behøver at udfylde een Tolddeklaration for hele Sendingen, hvilken Tolddeklaration foruden de i foregaaende Punktum opregnede Angivelser skal angive det samlede Antal Pakker, som Sendingen omfatter, og skal befæstes solidt til en af Pakkerne. Pakkerne, der udgør Sendingen, skal i saadanne Tilfælde tydeligt mærkes med et Nummer i Brøkform, saaledes at Tælleren i arabiske Tal skal angive Pakkens Nummer og Nævneren Antallet af Pakker, Sendingen omfatter. Hvis en Sending f. Eks. bestaar af 15 Pakker, skal disse henholdsvis nummereres  $1/15$ ,  $2/15$ ,  $3/15$  o. s. v.

2. Poststyrelserne paatager sig ikke noget Ansvar med Hensyn til Tolddeklarationernes rigtige Udfyldning.

## ARTIKEL 4.

*Modtagelsesbeviser.*

1. En Pakke, for hvilken der er begæret Modtagelsesbevis, forsynes af Afsendelseskontoret med Angivelsen "A. R." eller "Avis de réception". Afsendelseskontoret eller et andet af Poststyrelsen i Afsendelseslandet udpeget Kontor skal udfylde en Modtagelsesbevisformular og befæste den til Pakken. Hvis Formularen ikke kommer frem til Bestemmelseskontoret, skal dette Kontor udfærdige en Genpart.

2. Efter rigtigt at have udfyldt Modtagelsesbevisformularen tilbagesender Bestemmelseskontoret den portofrit til Afsenderen af Pakken.

3. Naar Afsenderen fremsætter Begæring om Modtagelsesbevis efter at en Pakke er indleveret, udfylder Afsendelseskontoret en Modtagelsesbevisformular i Forbindelse med en Efterspørgselsblanket, i hvilken de nødvendige Oplysninger om Pakken gives, og fremsender derefter Formularerne til Pakkens Bestemmelseskontor. I Tilfælde af, at Pakken er rigtigt udleveret, tilbageholder Bestemmelseskontoret Efterspørgselsblanketten og behandler Modtagelsesbeviset paa den i foregaaende Punkt foreskrevne Maade.

## ARTIKEL 5.

*Paksække.*

1. Poststyrelserne i de to kontraherende Lande skal hver for sig fremskaffe de til Afsendelsen af deres Pakker nødvendige Sække, og hver Sæk skal mærkes med Navnet paa det Postvæsen eller det Land, som den tilhører.

2. Tomme Paksække skal tilbagesendes til Afsendelseskontoret med første Post. Tomme Sække samles i Sendinger paa 10 Stk., saaledes at de 9 indlægges i den 10'. Det samlede Antal tilbagesendte Sække skal opføres i de paagældende Pakkepostkarter.

## NATIONAL FIRE PREVENTION WEEK—1931

August 5, 1931.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

## A PROCLAMATION

National Fire Pre-  
vention Week.  
Preamble.

It has become customary for the President of the United States to request an annual observance of Fire Prevention Week throughout the nation to stimulate the interest and cooperation of officials, organizations, and citizens in diminishing the losses of life and property from fire.

Last year fires in the United States caused a direct property loss estimated at nearly \$500,000,000, an increase of \$40,000,000 over 1929. These direct losses affected home owners, farmers, business men, and workingmen. There were many more millions of indirect losses in rentals, broken contracts, unemployment, and interruption to business.

Deaths and injuries to men, women, and children exceeded 35,000 in 1930. The majority of the losses of life and property were the result of carelessness and lack of preventive measures.

The purpose of National Fire Prevention Week is to focus attention on the hazards of fire and to promote preventive measures to reduce this devastating waste.

Week of October 4,  
1931, designated as.

NOW, THEREFORE, I, HERBERT HOOVER, President of the United States of America, do hereby proclaim the week of October 4, 1931, to be observed as Fire Prevention Week and earnestly solicit the assistance of each citizen to help lessen the loss and needless waste and suffering from fires which are largely preventable.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 5<sup>th</sup> day of August, in the year of our Lord nineteen hundred and thirty-one, and of [SEAL] the Independence of the United States of America the one hundred and fifty-sixth.

CONSERVATION OF OUR WATERFOWL

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

August 25, 1931.

A PROCLAMATION

The long-continued and severe drought of the past two years has inflicted not only economic hardships by seriously curtailing crop and stock production, but also has resulted in an emergency condition as regards the present and future safety and abundance of the waterfowl of the continent. In large areas of the United States and Canada, through lack of the water on breeding grounds essential to rearing the young birds, the drought has entailed widespread destruction among the former hordes of the wild fowl that migrate to our several States.

Curtailment of hunting season.

Vol. 40, p. 755.  
U. S. C., p. 436.

Emergency cooperation for protecting waterfowl urged.

This devastation has constituted so great a menace to our wild-life resources and to their future enjoyment by our people as to impel the Secretary of Agriculture to adopt a regulation compatible with the Migratory Bird Treaty Act (40 Stat. 755), whereby during the coming fall there will be an open hunting season on these birds of only one month.

NOW, THEREFORE, I, HERBERT HOOVER, President of the United States of America, do hereby urge that all persons take cognizance of this emergency, and I call upon all game and conservation officials, State and local, all members of game-protective organizations, land-owners, sportsmen, and public-spirited citizens generally to lend their cooperation to effect full observance of this regulation, to the end that adequate numbers of waterfowl may return to their breeding grounds next spring and that there may be no repetition of the calamity of extermination that has already overtaken some species of our American birds.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 25 day of August, in the year of our Lord nineteen hundred and thirty-one, and of the [SEAL] Independence of the United States of America the one hundred and fifty-sixth.

## THANKSGIVING DAY—1931

November 3, 1931.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

## A PROCLAMATION

Thanksgiving Day.  
Preamble.

We approach the season when, according to custom dating from the garnering of the first harvest by our forefathers in the New World, a day is set apart to give thanks even amid hardships to Almighty God for our temporal and spiritual blessings. It has become a hallowed tradition for the Chief Magistrate to proclaim annually a national day of thanksgiving.

Our country has cause for gratitude to the Almighty. We have been widely blessed with abundant harvests. We have been spared from pestilence and calamities. Our institutions have served the people. Knowledge has multiplied and our lives are enriched with its application. Education has advanced, the health of our people has increased. We have dwelt in peace with all men. The measure of passing adversity which has come upon us should deepen the spiritual life of the people, quicken their sympathies and spirit of sacrifice for others, and strengthen their courage. Many of our neighbors are in need from causes beyond their control and the compassion of the people throughout the nation should so assure their security over this winter that they too may have full cause to participate in this day of gratitude to the Almighty.

Thursday, November 26, 1931, so designated.

NOW, THEREFORE, I, HERBERT HOOVER, President of the United States of America, do hereby designate Thursday, November 26, 1931, as a National Day of Thanksgiving, and do recommend that our people rest from their daily labors and in their homes and accustomed places of worship give devout thanks for the blessings which a merciful Father has bestowed upon us.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 3<sup>d</sup> day of November, in the year of our Lord nineteen hundred and thirty-one,

NATIONAL FIRE PREVENTION WEEK—1932

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

September 2, 1932.

A PROCLAMATION

In recommending the customary public observance of Fire Prevention Week, I wish to urge that it be made this year an occasion of special significance.

National Fire Prevention Week, 1932. Preamble.

The deplorable loss of thousands of human lives and the property waste of approximately half a billion dollars caused each year by fires should be scrupulously avoided. The American per capita loss now is nearly double that of 20 years ago and constitutes a challenge to our efforts that no citizen can afford to ignore. It is a drain on our created resources which we should strive to eliminate, as it is largely preventable.

The observance of National Fire Prevention Week should serve to arouse the attention and stimulate the action of all citizens in preventing fire waste.

NOW, THEREFORE, I, HERBERT HOOVER, President of the United States of America, do hereby proclaim the week of October 9, 1932, to be observed as Fire Prevention Week. To the many organizations that have taken an interest in this subject I especially appeal that they unite on a definite plan of cooperation to the end that all citizens may be aroused to their individual responsibilities.

Week of October 9, 1932, designated as.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

THANKSGIVING DAY—1932

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

November 3, 1932.

A PROCLAMATION

WHEREAS at this season of the year our people for generations past have always turned their thoughts to thankfulness for the blessings of Almighty God,

Thanksgiving Day, 1932.  
Preamble.

Now, THEREFORE, I, HERBERT HOOVER, President of the United States, do set aside and declare Thursday, November 24, 1932, as a day of national thanksgiving, and I do urge that they repair to their places of public worship, there to give thanks to the beneficent Providence from whom comes all our good; and I do further recommend, inasmuch as this year marks the two hundredth anniversary of the birth of George Washington, the father of our country, whose immeasurable services to our liberties and our security are blessings perennially renewed upon us, that our people refresh their memory of his first Thanksgiving Proclamation, which I append and incorporate in this present proclamation.

Thursday, November 24, 1932, designated as.

George Washington's first Thanksgiving Proclamation incorporated.

*By the President of the United States of America.*

**A PROCLAMATION.**

Text.

*Whereas* it is the duty of all Nations to acknowledge the providence of Almighty God, to obey his will, to be grateful for his benefits, and humbly to implore his protection and favor—and *Whereas* both Houses of Congress have by their joint Committee requested me “to recommend to the People of the United States a day of public thanksgiving and prayer to be observed by acknowledging with grateful hearts the many signal favors of Almighty God, especially by affording them an opportunity peaceably to establish a form of government for their safety and happiness.”

Now therefore I do recommend and assign Thursday the 26th day of November next to be devoted by the People of these States to the service of that great and glorious Being, who is the beneficent Author of all the good that was, that is, or that will be—That we may then all unite in rendering unto him our sincere and humble thanks—for his kind care and protection of the People of this country previous to their becoming a Nation—for the signal and manifold mercies, and the favorable interpositions of his providence, which we experienced in the course and conclusion of the late war—for the great degree of tranquillity, union, and plenty, which we have since enjoyed—for the peaceable and rational manner in which we have been enabled to establish constitutions of government for our safety and happiness, and particularly the national One now lately instituted—for the civil and religious liberty with which we are blessed, and the means we have of acquiring and diffusing useful knowledge; and in general for all the great and various favors which he hath been pleased to confer upon us.

And also that we may then unite in most humbly offering our prayers and supplications to the great Lord and Ruler of Nations and beseech him to pardon our national and other transgressions—to enable us all, whether in public or private stations, to perform our several and relative duties properly and punctually—to render our national government a blessing to all the People, by constantly being a government of wise, just, and constitutional laws, discreetly and faithfully executed and obeyed—to protect and guide all Sovereigns and Nations (especially such as have shewn kindness unto us) and to bless them with good government, peace, and concord—To promote the knowledge and practice of true religion and virtue, and the increase of science among them and Us—and generally to grant unto all mankind such a degree of temporal prosperity as he alone knows to be best.

Preamble.  
Statutory authorization.  
Vol. 46, p. 696.

WHEREAS Congress enacted and the President, on the 17th day of June, 1930, approved a law known as the Tariff Act of 1930, section 318 of which provides, in part:

"Whenever the President shall by proclamation declare an emergency to exist by reason of a state of war, or otherwise, he may authorize the Secretary of the Treasury to extend during the continuance of such emergency the time herein prescribed for the performance of any act . . . ,"  
and

WHEREAS it is essential that the authority conferred upon the President therein be at this time exercised to the extent hereinafter set forth:

Emergency declared.

NOW, THEREFORE, I, HERBERT HOOVER, President of the United States of America, acting under and by virtue of the authority aforesaid, do hereby find and determine, and by this proclamation do proclaim, an emergency to exist, for sufficient reasons me thereunto moving.

And I do further proclaim and make known that, in my judgment, it is necessary and proper, because of the emergency, that all merchandise imported during the calendar year 1930 and entered for warehousing under section 557 of the Tariff Act of 1922 or section 557 of the Tariff Act of 1930 (except grain entered for warehousing under section 557 of the Tariff Act of 1930) shall be permitted to remain in warehouse for a further period, and I, therefore, hereby authorize the Secretary of the Treasury, until further notice, to extend the warehousing period for such merchandise so that it may remain in warehouse for periods not exceeding two years after the expiration of the three years prescribed in sections 557 and 559 of the Tariff Acts of 1922 and 1930: *Provided, however*, that in each and every case the Secretary of the Treasury shall require that the principal on the warehouse entry bond, in order to obtain the benefits under the extension granted, shall furnish to the collector of customs for the district in which the merchandise is warehoused the assent of the sureties on such bond, agreeing to remain bound under the terms and provisions of the bond to the same extent as if no extension were granted, or shall furnish an additional bond with acceptable sureties to cover the extended period.

And I do further proclaim and make known that, in my judgment, it is necessary and proper, because of the emergency, that all wool imported or withdrawn from bonded warehouse during the calendar year 1930 conditionally free of duty, under bond, for use in the manufacture of rugs, carpets, or other floor coverings, under the provisions of paragraph 1101 of the Tariff Act of 1922, and that all wool or hair of the camel imported or withdrawn from bonded warehouse during the calendar year 1930 conditionally free of duty, under bond, for use in the manufacture of press cloth, camel's-hair belting, rugs, carpets, or other floor coverings, or in the manufacture of knit or felt boots or heavy fulled lumbermen's socks, under the provisions of paragraph 1101 of the Tariff Act of 1930, shall be permitted a further period during which proof that the wool or hair has been so used may be furnished; and I, therefore, hereby authorize the Secretary of the Treasury, until further notice, to extend the period during which proof of use may be furnished, so that such proof may be furnished during periods not exceeding two years after the expiration of the three years prescribed in said paragraphs 1101: *Provided, however*, that in each and every case the Secretary of the Treasury shall require that the principal on the bond, in order to obtain the benefits under the extension granted, shall furnish to the collector of customs for the district in which the bond was given the assent of the sureties on such bond, agreeing to remain bound under the terms and provisions of the bond to the same extent as if no extension were granted, or shall furnish an additional bond with acceptable sureties to cover the extended period.

And I do further proclaim and make known that, in my judgment, it is necessary and proper, because of the emergency, that, as to articles manufactured or produced in the United States with the use of imported or substituted merchandise for drawback purposes under section 313 of the Tariff Act of 1930, a further period for exportation (or shipment to the Philippine Islands) of the completed article should be permitted in those cases where the imported merchandise involved was imported during the calendar year 1930; and I, therefore, hereby authorize the Secretary of the Treasury to extend the period for exportation (or shipment to the Philippine Islands) of the completed article in such cases, so as to include not exceeding five years after importation of the imported merchandise instead of three years as prescribed in section 313(h) of the Tariff Act of 1930.

ANNOUNCING THE DEATH OF THE HONORABLE CALVIN COOLIDGE

January 5, 1933.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

TO THE PEOPLE OF THE UNITED STATES:

Announcing death of  
ex-President Calvin  
Coolidge.

It becomes my sad duty to announce officially the death of Calvin Coolidge, which occurred at his home in the City of Northampton, Massachusetts, on the fifth day of January, nineteen hundred and thirty-three, at twelve twenty-five o'clock in the afternoon.

Mr. Coolidge had devoted his entire life to the public service, and his steady progress from Councilman to Mayor of Northampton and thence upward as Member of the State Senate of Massachusetts, Lieutenant-Governor and Governor of Massachusetts, to Vice-President and President of the United States, stands as a conspicuous memorial to his private and public virtues, his outstanding ability, and his devotion to the public welfare.

His name had become in his own lifetime a synonym for sagacity and wisdom; and his temperateness in speech and his orderly deliberation in action bespoke the profound sense of responsibility which guided his conduct of the public business.

From the American people he evoked an extraordinary warmth of affectionate response to his salient and characteristic personality. He earned and enjoyed their confidence in the highest degree. To millions of our people his death will come as a personal sorrow as well as a public loss.

Suitable military and  
naval honors directed.

As an expression of the public sorrow, it is ordered that the flags of The White House and of the several departmental buildings be displayed at half staff for a period of thirty days, and that suitable military and naval honors under orders of the Secretary of War and the Secretary of the Navy may be rendered on the day of the funeral.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this fifth day of January, in the year of our Lord nineteen hundred and thirty-three, and of [SEAL] the Independence of the United States of America the one hundred and fifty-seventh.

WHEREAS the commission has found it shown by said investigation that the principal competing country for sperm oil, crude, is Canada, and that the principal competing country for spermaceti wax is the United Kingdom, and that the duties expressly fixed by statute do not equalize the differences in the costs of production of the domestic articles and the like or similar foreign articles when produced in said principal competing countries, and has specified in its report the decreases in the rates of duty expressly fixed by statute found by the commission to be shown by said investigation to be necessary to equalize such differences; and

With reference to your note dated September 1, 1925, concerning the reciprocal exemption from taxation of income derived from the operation of merchant vessels, I have the honor to state, under instructions from Tokio, that my Government is happy to signify its willingness to agree with the views of the Treasury Department as stated in your note under acknowledgment; namely, that the reciprocal exemption shall be carried out from and including July 18, 1924, the date on which the Japanese Law No. 6 was promulgated, without adopting the methods suggested in my note dated June 18, 1925; and, further, that the exemption from taxation accorded by Section 213(b)(8) of the Revenue Act of 1924 applies only to such income as is derived from sources within the "United States" as that term is defined in Section 2 of the said Act, and from sources within the Virgin Islands.

In bringing the above to your knowledge, I am happy to note that a unanimity of views has been reached between our two Governments on this subject, and shall be glad if you will be good enough to take steps with the Treasury Department to the end that an arrangement looking to the reciprocal exemption in question be put into force.

MINISTÈRE DES AFFAIRES ÉTRANGÈRES,  
LE CAIRE, le 24 Mai 1930.

MONSIEUR LE MINISTRE,

Proposal of Egyptian Government.

Me référant à la correspondance échangée entre Votre Excellence et ce Ministère au sujet de la conclusion d'un accord commercial provisoire entre les Etats-Unis d'Amérique et l'Égypte, j'ai l'honneur d'informer Votre Excellence que le Gouvernement égyptien consent à appliquer sans condition le traitement de la nation la plus favorisée à tous les produits du sol et de l'industrie originaires des Etats-Unis d'Amérique importés en Égypte et destinés soit à la consommation soit à la réexportation ou au transit. Provisoirement, le dit traitement sera également appliqué aux produits qui seront importés en Égypte par la voie de pays n'ayant pas avec l'Égypte des arrangements commerciaux.

Condition of perfect reciprocity.

Ce régime est accordé à condition de parfaite réciprocité et sous réserve du régime accordé par l'Égypte aux produits soudanais et du régime qui serait accordé aux produits de certains pays limitrophes en vertu de conventions régionales et sous réserve du traitement qu'accordent les Etats-Unis d'Amérique ou qu'ils accorderaient à l'avenir au commerce de Cuba ou de n'importe quels territoires ou possessions des Etats-Unis d'Amérique, de la zone du Canal de Panama et du traitement accordé ou qui serait accordé à l'avenir au commerce des Etats-Unis d'Amérique avec l'un des pays limitrophes ou possessions ou du commerce de ces territoires ou possessions les uns avec les autres.

Exception.

Le présent arrangement ne s'appliquera pas aux prohibitions ou restrictions d'un caractère sanitaire ou destinées à protéger les vies humaines, animales ou végétales, ni aux règlements d'application des lois de police et des recettes.

Effective date.

Le présent arrangement entrera en vigueur aussitôt que Votre Excellence aura bien voulu me confirmer l'accord de son Gouvernement à son sujet. Il pourra prendre fin par consentement mutuel comme il pourra être dénoncé par chacune des parties contractantes moyennant un préavis de trois mois. Si cependant, l'une des parties se trouve empêchée par une législation future d'exécuter les termes de l'arrangement, les obligations qui en découlent prendront fin en conséquence.

Je saisis l'occasion de vous renouveler, Monsieur le Ministre, l'assurance de ma haute considération.

No. 230. LEGATION OF THE UNITED STATES OF AMERICA,  
CAIRO, May 24, 1930.

MR. MINISTER,

I have the honor to acknowledge the receipt of Your Excellency's Note No. 1.7/3 (32), of May 24, 1930, the agreed English text of which is as follows:

Referring to correspondence exchanged between Your Excellency and this Ministry with regard to the conclusion of a provisional commercial agreement between the United States of America and Egypt, I have the honor to inform Your Excellency that the Egyptian Government is willing to apply unconditional most favored nation treatment to all products, of the soil and of industry, originating in the United States of America imported into Egypt and destined either for consumption or re-exportation or in transit. The said treatment will also be applied provisionally to products imported into Egypt through countries which have not completed commercial agreements with Egypt.

This régime is accorded by Egypt on condition of perfect reciprocity and with the exception of the régime accorded to Sudanese products, or the régime which might be applied by Egypt to products of certain border countries by virtue of regional conventions and with the exception of the treatment which the United States accords or may hereafter accord to the commerce of Cuba or of any of the territories or possessions of the United States or the Panama Canal Zone or the treatment, which is or may hereafter be accorded to the commerce of the United States with any of its territorial boundaries or possessions or to the commerce of its territories or possessions with one another.

The present arrangement does not apply to prohibitions or restrictions of a sanitary character or designed to protect human, animal, or plant life or regulations for the enforcement of police or revenue laws.

The present agreement will enter into force so soon as Your Excellency is good enough to confirm the consent of your Government thereto and shall continue in force until ninety days after notice of its termination shall have been given by either party unless sooner terminated by mutual agreement. If, however, either party should be prevented by the future action of its Legislature from carrying out the terms of the agreement the obligations thereof shall thereupon lapse.

I avail myself of the occasion to renew to you, Mr. Minister, the assurance of my high consideration.

In reply I have the honor to inform Your Excellency of my Government's acquiescence in the terms of the above mentioned Note thus establishing a Provisional Commercial Accord, and avail myself of the occasion to renew to you, Mr. Minister, the assurance of my high consideration.

Tengo la honra de referirme a la atena nota de Vuestra Excelencia de 5 del corriente relativa a la exencion de impuesto en los Estados Unidos sobre ingresos derivados de las operaciones de buques españoles, dándome traslado de la comunicación que sobre el asunto habia sido recibida del Departamento del Tesoro cuyos extremos eran copiados a continuación.

Es para mi una satisfacción poder expresar a Vuestra Excelencia el agrado con que he visto que las últimas declaraciones del Ministro de Hacienda español, expuestas en mi Nota de 11 de Febrero de 1930, concuerdan con las proposiciones que el Señor Secretario del Tesoro Norteamericano se servía hacer en la carta de 2 de Agosto de 1929 que por mi conducto dirigió a la Compañía Trasatlantica.

En vista de lo expuesto, ruego a Vuestra Excelencia se sirva dar las instrucciones oportunas a las autoridades correspondientes para que tengan en cuenta este acuerdo respecto a las Compañías Navieras españolas en el sentido de que los beneficios de los ciudadanos españoles que consisten exclusivamente en ganancias derivadas de operaciones de buques abanderados en España, serán exentos de tributos en los Estados Unidos por las leyes de este país, y especialmente en relación con lo expuesto por Vuestra Excelencia en su Nota de 26 de Septiembre de 1929, respecto al caso de la Compañía Trasatlantica.

Tan pronto recibí la mencionada atenta Nota de Vuestra Excelencia de 5 del corriente mes de Abril, me apresuré a remitir la correspondiente copia al Ministerio de Estado de Madrid, y mientras recibo respuesta, cumplo el grato deber de expresar a Vuestra Excelencia mi agradecimiento por la buena voluntad que desde un principio he podido apreciar, tanto en el Departamento del Tesoro como en ese Departamento del muy digno cargo de Vuestra Excelencia para llegar a una solución favorable en este asunto, que no puede menos de estrechar las buenas relaciones existencias entre nuestros dos países.

ROYAL SPANISH EMBASSY  
WASHINGTON, *April 16, 1930.*

MR. SECRETARY:

I have the honor to refer to Your Excellency's kind note of the 5th instant relative to the exemption from taxation in the United States on revenue derived from operations of Spanish vessels, giving me a transcript of the communication which had been received in the matter from the Treasury Department, points of which were quoted thereunder.

It is a satisfaction for me to be able to express to Your Excellency the pleasure with which I have seen that the recent statements of the Spanish Minister of Finance, expressed in my note of February 11, 1930, accord with the proposals which the American Secretary of the Treasury was good enough to make in the letter of August 2, 1929 which he addressed to the Compañía Trasatlántica, through my intermediary.

In view of the foregoing, I request Your Excellency to be so good as to give the appropriate instructions to the corresponding authorities in order that they may take into account this decision with respect to the Spanish Shipping Companies in the sense that the profits of Spanish citizens which consist exclusively in earnings derived from vessels documented in Spain shall be exempt from taxation in the United States by the laws of this country, and particularly with respect to that set forth by Your Excellency in your note of September 26, 1929, regarding the case of the Compañía Trasatlántica.

As soon as I received the above-mentioned note of the 5th of the current month of April from Your Excellency, I hastened to transmit the correspondence in copy to the Ministry of State at Madrid, and while I await a reply, it is my pleasing duty to express to Your Excellency my gratitude for the good will which from the beginning I have been able to value, both in the Treasury Department and in the Department under Your Excellency's worthy direction, to arrive at a favorable solution of this matter, which cannot do less than strengthen the good relations existing between our two countries.

EXCELLENCY:

I have the honor to refer to previous correspondence concerning the desire of Spanish nationals to be exempted from income taxation in this country on revenue derived from the operation of Spanish ships and to inform you that a communication in the matter has been received from the Treasury Department, the pertinent portions of which are quoted hereunder:

"Under date of March 31, 1930, this office expressed the opinion that Spain meets the reciprocal exemption provisions of the Revenue Acts of 1921, 1924, and 1926, and stated that accordingly the income of Spanish nationals which consists exclusively of earnings derived

from operation of ships documented under the laws of Spain would be exempted from taxation by the United States under those Acts. It was further stated that inasmuch as sections 212(b) and 231(b) of the Revenue Act of 1928, relating to exemption of the income of nonresident aliens and foreign corporations, are substantially the same as section 213(b)(8) of the Revenue Acts of 1921, 1924, and 1926, the exemption would be extended to the taxable years governed by the Revenue Act of 1928.

“In order to put the arrangement into effect this Department, under date of April 25, 1930, issued Treasury Decision 4289 which amended article 89 of Regulations 62, 65, and 69, and article 1042 of Regulations 74, pertaining to the reciprocal exemption from income tax of earnings derived by nonresident aliens and foreign corporations from the operation of ships documented under the laws of foreign countries. The effect of that Treasury decision is to include Spain in the list of countries which exempt from tax so much of the income of citizens of the United States nonresident in such foreign countries and of corporations organized in the United States as consists of earnings derived from the operation of a ship or ships documented under the laws of the United States, and to exclude Spain from the list of countries which do not grant such exemption.

“In addition to the formal Treasury decision issued by this Department the Collector of Internal Revenue, Customhouse, New York, New York, was specifically advised under date of April 23, 1930, as to the ruling contained in the letter from this Department addressed to your Department under date of March 31, 1930, and was informed that the *Compania Transatlantica* (Spanish Royal Mail Line) would not be held liable for income tax on income which consists exclusively of earnings derived from the operation of ships documented under the laws of Spain for the taxable years arising under the Revenue Acts of 1921, 1924, 1926, and 1928.”

DEPARTMENT OF STATE,  
WASHINGTON, August 11, 1924.

EXCELLENCY:

Referring to the Embassy's note No. 138 of February 11, 1924, and to previous correspondence relating to a proposed arrangement between the Internal Revenue authorities of the United States and Great Britain with a view to granting relief from double income taxation in cases where the profits arising from the business of shipping are chargeable to both British income tax and to income tax payable in the United States, I have the honor to inform you of the receipt of a letter on the subject from the Secretary of the Treasury.

Double income tax on shipping profits. Reciprocal exemption, United States, Great Britain and Northern Ireland.

It appears therefrom that Section 213(b)(8) of the Revenue Act of 1921 which has been reenacted as Section 213(b)(8) of the Revenue Act of 1924 exempts from tax so much of the income of a nonresident alien or foreign corporation as is derived from the operation of a ship or ships documented under the laws of a foreign country if that foreign country in turn exempts from tax so much of the income of a citizen of the United States nonresident in such country and of a corporation organized in the United States as is derived from the operation of a ship or ships documented under the laws of the United States. The question of the exemption from tax of income derived from the operation of British vessels has, as the Embassy has observed, previously been discussed by officials of the Treasury Department with Sir Percy Thompson, Deputy Chairman of the British Board of Inland Revenue, who came to the United States for that purpose. I am informed that these discussions proved fruitless because Sir Percy Thompson did not feel at liberty to recede from the British position that the taxability of a corporation as a resident of the United Kingdom should depend not upon the place of incorporation but upon the place "where its real business is carried on and that \* \* \* is carried on where the control and management of the company abide". (*American Thread Company v. Joyce*, 6 T.C., 163, 164.)

Vol. 42, p. 239; Vol. 43, p. 269; Vol. 44, p. 25; Vol. 45, pp. 847, 849.

The navigation laws of the United States require that a corporation owning a vessel of the United States be a corporation organized in the United States and that its president and managing directors be citizens of the United States, but there is no requirement that the president and managing directors be residents of this country. It was conceivable therefore that the president and managing directors might reside in the United Kingdom, hold their meetings there, and there exercise control of the corporation. In such a case the corporation would, under British law, have been deemed a resident of the United Kingdom and as such subject to tax upon all its income.

It is equally clear, however, that such a corporation would be a corporation organized in the United States and deriving income from the operation of a ship or ships documented under the laws of the United States, and would as such be entitled to exemption from British tax upon income derived from the operation of vessels of the United States, if the exemption offered by Great Britain were to be deemed equivalent to that offered under American law.

It is understood that the proposal which the British Government now makes in its suggested draft of a Declaration in Council does not require that the American corporation shall operate its business outside the United Kingdom in order to be entitled to exemption from British income tax. The British Government proposes, according to the understanding of the Secretary of the Treasury, to exempt from British income tax (including super-tax) "any profits accruing from the business of shipping carried on with ships documented under the laws of the United States to a citizen of the United States resident outside the United Kingdom or to a corporation organized in the United States". Upon the explicit understanding that the American corporation is thus exempted regardless of whether it does business in the United Kingdom or has an office or place of business therein or whether directors' meetings are held in the United Kingdom and the control of the corporation is there exercised, the Secretary of the Treasury is of the opinion that the offer communicated in the Embassy's note of February 11, 1924, satisfies the requirements of Section 213(b)(8) of the Revenue Act of 1924, so far as the United Kingdom is concerned.

The Secretary of the Treasury asks that I make clear the fact that the Treasury Department intends to construe Section 213(b)(8) of the Revenue Act of 1924 as not affording exemption to British subjects or others resident in the British dominions, colonies, dependencies, or possessions, or to corporations organized under and existing by virtue of the laws of the British dominions, colonies, dependencies, or possessions, unless the laws of such dominions, colonies, dependencies, or possessions grant an equivalent exemption to citizens of the United States and to corporations organized in the United States. The exemption from tax of income derived from the operation of ships of British registry will be confined to individuals resident in the United Kingdom, other than citizens of the United States, and to corporations organized under and existing by virtue of the laws of the United Kingdom.

Accept, Excellency, the renewed assurances of my highest consideration.

WHEREAS it is provided by subsection (1) of section eighteen of the Finance Act, 1923, that if His Majesty in Council is pleased to declare—

- (a) that any profits or gains arising from the business of shipping which are chargeable to British income tax are also chargeable to income tax payable under the law in force in any foreign state; and
- (b) that arrangements, as specified in the declaration, have been made with the government of that foreign state with a view to the granting of relief in cases where such profits and gains are chargeable both to British income tax and to the income tax payable in the foreign state;

to the relief to be granted from British income tax, have effect as if enacted in that Act, but only if and so long as the arrangements, so far as they relate to the relief to be granted from the income tax payable in the foreign state, have the effect of law in the foreign state:

AND WHEREAS it is provided by section two hundred and thirteen of the Act of Congress of the United States of America known as the Revenue Act of 1921, that the term "gross income", for the purpose of income tax chargeable under the law of the United States of America, shall not include the income of a non-resident alien or foreign corporation which consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organised in the United States:

AND WHEREAS His Majesty's Government have intimated to the Government of the United States of America that they propose to take the necessary steps under the said section eighteen of the Finance Act, 1923, for providing that any profits accruing from the business of shipping carried on with ships documented under the laws of the United States to a citizen of the United States resident outside the United Kingdom or to a corporation organised in the United States shall be, and as from the first day of May, nineteen hundred and twenty-three, be deemed to have been, exempt from income tax (including super-tax) chargeable in the United Kingdom:

AND WHEREAS the Government of the United States of America have signified to His Majesty's Government that they are prepared to regard the exemption to be provided as aforesaid as an equivalent exemption within the meaning of section two hundred and thirteen of the Act of Congress of the United States known as the Revenue Act of 1921:

NOW, THEREFORE, His Majesty is pleased, by and with the advice of His Privy Council, to declare, and it is hereby declared—

The appropriate authorities of this Government have been giving consideration to the matter and feel that some uncertainty exists with regard to the provision in the third paragraph of the Order in Council to the effect that the exemption shall be deemed to take effect on May 1, 1923, whereas your note transmitting the Order in Council dated November 7, 1924, states that it will take effect "from that date".

I shall be grateful if you will be so good as to furnish me a statement regarding the exact date from which exemption is granted to American citizens or corporations under British laws in order that the exemption of British subjects or corporations under the laws of the United States may be made effective from the same date.

EXCELLENCY:

I have the honor to refer to your note No. 159 dated February 13, 1925, concerning the arrangement for the reciprocal exemption of shipping profits from income tax and to state that a communication has now been received from the appropriate authority of this Government in which it is stated that careful consideration has been given to the Order in Council dated November 7, 1924, and to the statements contained in your note above mentioned, and that it has

been decided that Great Britain satisfies the equivalent exemption provisions of Section 213 (b) (8) of the Revenue Act of 1921. Reference is also made to the Act of Congress approved June 2, 1924, known as the Revenue Act of 1924, which contains the provision relating to taxation for 1924 and subsequent years. The provisions of Section 213 (b) (8) of the Revenue Act of 1924 are identical in terms with the corresponding section of the Revenue Act of 1921. It is therefore held that Great Britain satisfies the equivalent exemption provisions of Section 213 (b) (8) of the Revenue Act of 1924.

Effective date.

It has also been determined that the exemption from Federal tax under this holding shall be deemed to be effective from May 1, 1923, the date stipulated by your Government as the date from which the exemption applies under British laws to the income of American citizens not resident in the United Kingdom and corporations organized in the United States, derived from the operation of ships documented under the laws of the United States.

Reference is also made to the last paragraph of Mr. Grew's note dated August 11, 1924, setting forth the construction to be placed upon Section 213 (b) (8). In the last paragraph of your note No. 1106 dated November 18, 1924, you stated that "the Irish Free State in common with the other British Dominions" was not to be considered as affected by the Order in Council. Accordingly the exemption from Federal taxation in the United States will be applied on the basis of this understanding.

Accept, Excellency, the renewed assurances of my highest consideration.

DEPARTMENT OF STATE,  
WASHINGTON, August 21, 1926.

SIR:

With further reference to your note of July 17, 1926, in regard to the question of the mutual recognition of ship measurement certificates, with which you forwarded three copies in English of the Esthonian Regulations for tonnage measurement of ships, I have the honor to inform you that the authorities of this Government concerned are satisfied that the vessels of Esthonia may be deemed to be of the tonnage noted in the Certificate of Registry or other national papers, and that it will not, therefore, be necessary under existing law for such vessels to be remeasured in any port in the United States. It is, of course, requisite that the Government of Esthonia extend the same recognition to the Certificates of Registry or other national papers of the vessels of the United States.

Proposal of the United States regarding ship measurement certificates.

I shall be obliged if you will bring the foregoing to the attention of your Government and will inform me of the reply so that appropriate instructions may be given to the officers charged with the enforcement of the navigation laws of this country.

Accept, Sir, the renewed assurances of my high consideration.

NEW YORK, November 30, 1926.

SIR:

In reply to your note of August 21, 1926 in regard to the question of the mutual recognition of ship measurement certificates between the United States and Estonia, I have the honor to inform you in the name of my Government, that the concerned authorities of Estonia have found, that in substance there are no hindrances for the recognition, without remeasurement, of tonnage of ships of the United States in Estonian ports, as noted in the Certificate of Registry issued by the authorities of the United States or other national papers. In view of this the Government of Estonia has decided, on reciprocal basis, to recognize the tonnage of ships of the United States as stated herein-before.

*Arrangement between the United States of America and Italy concerning the relief from double income tax on shipping profits. Effected by exchange of notes dated March 10, 1926, and May 5, 1926.*

March 10, 1926.

*The Italian Ambassador (Martino) to the Secretary of State  
(Kellogg)*

ROYAL ITALIAN EMBASSY

The Italian Ambassador presents his compliments to His Excellency the Secretary of State and, referring to his note of June 24th, 1925, has the honor to bring to his knowledge the following.

Double income tax  
on shipping profits.

From a communication received from the Italian Steamship Companies operating in ports of the United States it appears that the provisions contained in Royal Decree 891 issued on June 12, 1925, the text of which was submitted to the Department by the above mentioned note, did not seem to the competent Departments of the American Government to correspond exactly to the provisions contained in Section 213(b)(8) of the Revenue Act of 1921 and was therefore considered insufficient to obtain to the Italian Companies exemption from the payment of the Income Tax, retroactively to 1921, on the basis of reciprocity.

Reciprocal exemption,  
United States and  
Italy.

Vol. 42, p. 239.

In order to establish the required adequate basis of reciprocity, the Italian Government issued on March 4th, 1926 a Royal Decree N.340, the text of which is literally translated as follows:

“Companies organized in the United States and citizens of the United States not domiciled in Italy exercising maritime traffic in Italian ports, by means of ships flying the United States flag are exempt, with effect starting from January 1st, 1921, from the Imposta di Ricchezza Mobile, Income Tax, on income derived exclusively from such traffic, provided the United States likewise exempt from Income Tax, Imposta di Ricchezza Mobile, the income originating in the United States to Italian citizens not domiciled in the United States and to Italian Companies, and derived exclusively from the exercise of one or more ships flying the Italian flag.”

The provisions set forth in this Decree being exactly equivalent to those contained in Section 213, the Italian Government is confident that the competent American Authorities will extend to the Italian Steamship Companies operating in United States ports the treatment contemplated by Section 213 of the Revenue Act of 1921, and this with effect starting from January 1st, 1921.

The Italian Ambassador would much appreciate receiving some assurance in the matter.

WASHINGTON D. C., *March 10th, 1926.*

*The Secretary of State (Kellogg) to the Italian Ambassador  
(Martino)*

Agreement by United  
States.

The Secretary of State presents his compliments to His Excellency, the Royal Italian Ambassador, and has the honor to acknowledge the receipt of his note of April 24, 1926, in further relation to a decree issued by the Italian Government on March 4, 1926, exempting American shipping interests from the income tax of Italy, in which the Ambassador requests to be informed what decision has been taken by the Treasury Department concerning the exemption of Italian shipping interests from the payment of income tax.

In reply, the Secretary of State has the honor to inform the Italian Ambassador that he is in receipt of a communication from the Treasury Department concerning this matter, a copy of which is enclosed, from which it will be observed that the Treasury Department holds that in view of the Royal Italian Decree No. 340 of March 4, 1926, Italy satisfies the equivalent exemption provision of Section 213 (b) (8) of the Revenue Acts of 1921, 1924 and 1926, and that consequently so much of the income from sources within the United States received by a non-resident alien or a foreign corporation as consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of Italy is exempt from the Federal income tax.

DEPARTMENT OF STATE,  
WASHINGTON, September 13, 1926.

SIR.

The Department informs you of the receipt of a communication from the Treasury Department regarding the draft of a Royal Decree, with English translation, to be issued by Her Majesty the Queen of the Netherlands, relative to the prevention of double taxation on income derived exclusively from the operation of ships, which was left at the Treasury Department on July 29, 1926. The English translation of the proposed decree reads as follows:

Double income tax on shipping profits.  
Reciprocal exemption, United States and the Netherlands.

"We, Wilhelmina, by the Grace of God, Queen of The Netherlands, Princess of Orange-Nassau etc. etc.

"Whereas it is provided in the Unique Section of the Law of June 26, 1926, (Statute book No. 209), that we reserve Ourselves under No. 2 to make provisions, on a basis of reciprocity, preventing double taxation on earnings derived from the operation of ships, corresponding with equivalent provisions existing in the laws of foreign nations; and

"Whereas under Section 213, litt. b, No. 8 of the Revenue Act of the United States no tax is imposed on the income of an alien individual non-resident in the United States or of a foreign corporation which consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organized in the United States, do hereby proclaim and make known:

#### "UNIQUE SECTION

"CITIZENS OF THE UNITED STATES NON-RESIDENT IN THE NETHERLANDS AND CORPORATIONS ORGANIZED IN THE UNITED STATES WHICH EFFECTUATE IN THE NETHERLANDS THE SEA TRANSPORT WITH SHIPS DOCUMENTED UNDER THE LAW OF THE UNITED STATES ARE (WITH RETROACTIVE POWER TILL JANUARY 1, 1921) NOT SUBJECT TO TAXATION AS FAR AS INCOME DERIVED EXCLUSIVELY FROM SUCH INDUSTRY IS CONCERNED."

The Treasury Department states that it interprets the proposed decree as exempting from tax the income from sources within the Netherlands received by citizens of the United States non-resident in the Netherlands and by corporations organized in the United States, which consists exclusively of earnings derived from the operation of ships documented under the laws of the United States, such exemption applying to income received on or after January 1, 1921. It notes that the exemption is granted to corporations organized in the United States without limiting such exemption in any way.

## DOUBLE TAX—SHIPPING PROFITS—NETHERLANDS.

The Treasury Department states that the decree as submitted to it meets the equivalent exemption requirements of Section 213(b)(8) of the United States Revenue Acts of 1921, 1924 and 1926.

I shall be pleased to have you inform me when the decree is issued. Accept, Sir, the renewed assurances of my high consideration.

THE NETHERLAND LEGATION,

SIR:

Agreement by the  
Netherlands.

I had the honor to receive you note of September 13, 1926 by which you informed me of the receipt of a communication from the Treasury Department regarding the draft of a Royal Decree, with English translation, to be issued by Her Majesty the Queen of the Netherlands, relative to the prevention of double taxation on income derived exclusively from the operation of ships, which was left at the Treasury Department on July 29, 1926.

In this note you stated that the English translation of the proposed decree reads as follows:

"We, Wilhelmina, by the Grace of God, Queen of The Netherlands, Princess of Orange-Nassau etc. etc.

"Whereas it is provided in the Unique Section of the Law of June 26, 1926, (Statute book No. 209), that we reserve Ourselves under No. 2 to make provisions, on a basis of reciprocity, preventing double taxation on earnings derived from the operation of ships, corresponding with equivalent provisions existing in the laws of foreign nations; and

"Whereas under Section 213, litt. b, No. 8 of the Revenue Act of the United States no tax is imposed on the income of an alien individual non-resident in the United States or of a foreign corporation which consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of a foreign country which grants an equivalent exemption to citizens of the United States and to corporations organized in the United States, do hereby proclaim and make known:

You further informed me that the Treasury Department states that it interprets the proposed decree as exempting from tax the income from sources within the Netherlands received by citizens of the United States non-resident in the Netherlands and by corporations organized in the United States, which consists exclusively of earnings derived from the operation of ships documented under the laws of the United States, such exemption applying to income

received on or after January 1, 1921, and that it notes that the exemption is granted to corporations organized in the United States without limiting such exemption in any way.

You also advised me that the Treasury Department states that the decree as submitted to it meets the equivalent exemption requirements of Section 213(b)(8) of the United States Revenue Acts of 1921, 1924, and 1926, and you finally stated that you should be pleased to have me inform you when the decree is issued.

In reply thereto I have in compliance with instructions from my Government the honor to inform you that the Treasury Department's above mentioned interpretation of the Royal Decree in question is correct and that the Decree in the form in which it was submitted was published on October 8, 1926 after having been promulgated on October 1, 1926.

Please accept, Sir, the renewed assurances of my highest consideration.

SIR:

Agreement by United States.

With further reference to your Embassy's note of June 11, 1927, relative to the proposed reciprocal exemption from taxation by the Governments of the United States and France of the income of French and American nationals derived from shipping, I have the honor to inform you that I am now in receipt of a communication from the Treasury Department dated July 7, 1927, concerning the matter, from which I quote the following:

"I have the honor to acknowledge receipt of your letters dated June 18, 1927 (SO 811.512351 Shipping/10) and June 23, 1927 (SO 811.512351 Shipping/11), with further reference to previous correspondence relative to the proposed reciprocal exemption from taxation by the Governments of the United States and France of the income of French and American nationals respectively, derived from the operation of ships. Attached to your letter of June 18, 1927,

there is a copy of a despatch dated May 24, 1927, from the American Embassy at Paris, enclosing a copy and translation of a decree of the French Government dated May 20, 1927, exempting the income of American ship owners from taxation. Attached to your letter of June 23, 1927, there is a copy of the decree issued by the French Government on May 20, 1927, and published in the *Official Journal* of the French Republic of May 23 and 24, 1927.

You request to be informed whether the decree is satisfactory, in order that you may advise the Charge d'Affaires of the French Embassy that French citizens, not residents in United States and French corporations will be exempt from income taxes on profits derived from shipping.

The decree adopted May 20, 1927, follows the wording of the decree submitted to this Department with your letter of March 26, 1927. You were advised on April 9, 1927, that the decree if adopted in the form submitted would meet the equivalent exemption requirements of section 213 (b) (8) of the Revenue Acts of 1921, 1924, and 1926. The Charge d'Affaires states in his note that the decree goes into immediate effect in France.

I have the honor to advise you that in view of the fact that the French Government has adopted the decree in the form submitted and it is now in effect, it is held that France satisfies the equivalent exemption provision of section 213 (b) (8) of the Revenue Acts of 1921, 1924 and 1926."

It will be observed that the Treasury Department holds that in view of the fact that the French Government has adopted a decree of exemption which is now in effect, the French Government has satisfied the equivalent exemption provision of Section 213 (b) (8) of the Revenue Acts of 1921, 1924, and 1926.

Accept, Sir, the renewed assurances of my high consideration.

LÉGATION DE GRÈCE,  
WASHINGTON, le 29 Fevrier 1928

Double income tax  
on shipping profits.

Le Ministre de Grèce en présentant ses compliments les plus empressés à Son Excellence Monsieur le Secrétaire d'Etat, a l'honneur de porter à sa connaissance qu'il a été autorisé par son Gouvernement d'entrer en pourparlers pour le conclusion d'un accord concernant l'exemption des ressortissants des deux pays sur les profits découlant des entreprises maritimes, sur le base de la réciprocité.

Greek exemption  
laws.

La Législation Grèque contient à ce sujet les exemptions suivantes.

1. L'article 30, Paragraph 8 de la loi No. 3338 du 15 Juin 1925. "L'ordonnance du paragraphe 7 de l'article 3 de la présente loi, a une vigueur rétroactive en ce qui concerne l'impôt des revenus nets des années 1919-1920 jusqu'à l'année 1924-1925, ainsi-que celui des profits extraordinaires des années 1915 et les suivantes, et aussi en ce qui concerne la taxe aditionelle des Sociétés Anonymes de l'année 1921 et les suivantes."

2. L'ordonnance de l'article 3 paragraphe 7 de la loi sub. No. 3338, mentionnés plus haut, est ainsi conclue. "Au paragraphe 3 de l'article 18 de la loi 1640 sur la taxation des revenus nets est ajouté comme sixième cas l'exemption suivante. Cas sixième "A titre de réciprocité les profits réalisés en Grèce par les bateaux battant pavillon étranger."

Les deux ordonnances mentionnées plus haut garantissent l'exemption des entreprises maritimes étrangères à titre de réciprocité.

La taxe sur le revenue net est en vigueur à partir de 1919-20, soit à partir de la date pour laquelle l'effet rétroactif a été stipulé par la loi. L'impôt des profits extraordinaires a été en vigueur à partir de 1915 jusqu'a 1923, et l'impôt additionel des Sociétés Anonymes à partir de l'année 1921 jusqu'a l'année 1924.

MONSIEUR FRANK B. KELLOGG

[Translation—Extract]

LEGATION OF GREECE,  
WASHINGTON, February 29, 1928.

The Minister of Greece, in presenting his most cordial compliments to His Excellency the Secretary of State, has the honor to inform him that he has been authorized by his Government to set on foot negotiations for the conclusion of an agreement relative to the exemption of nationals of both countries [from the income tax] on

the profits derived from maritime enterprises, on the basis of reciprocity.

Greek law contains the following exemptions on this subject:

1. Article 30, paragraph 8 of Law No. 3338 of June 15, 1925:

"The ordinance in paragraph 7 of Article 3 of this law has retroactive effect with respect to the income tax of the years 1919-1920 up to 1924-1925, as well as that of excess profits of the year 1915 and the following years, and also with respect to the additional tax on corporations of the year 1921 and the following years."

2. The ordinance of Article 3, paragraph 7 of Law No. 3338 above mentioned, ends as follows:

"To paragraph 3 of Article 18 of Law 1640 concerning the taxation of income there is added as the sixth case the following exemption. Sixth case: 'In virtue of reciprocity, profits made in Greece by vessels flying a foreign flag.'"

The two ordinances mentioned above guarantee the exemption of foreign shipping concerns in virtue of reciprocity.

The income tax has been in force since 1919-1920, that is to say, since the date for which retroactive effect was stipulated in the law. The tax on excess profits was in force from 1915 until 1923, and the additional tax on corporations from 1921 until 1924.

[Extract]

DEPARTMENT OF STATE,  
WASHINGTON, April 26, 1928.

The Secretary of State presents his compliments to the Greek Minister and has the honor to refer to the Minister's note of February 29, 1928, setting forth the provisions of the Greek income tax law exempting from taxation earnings made in Greece by ships flying a foreign flag.

The Secretary of State has the honor to inform the Greek Minister that before it can be determined whether these exemptions are equivalent to the exemptions that may be accorded by the United States under Section 213(b)(8) of the Revenue Acts of 1921 and 1924 it will be necessary for the appropriate authorities of the Government to be informed as to whether:

- (a) during the years 1921-1924, inclusive, taxes have been collected by the Greek Government from the revenues of American citizens not residing in Greece or of corporations organized under the laws of the United States, derived from the operation of ships documented under the laws of the United States;
- (b) the exemption provided in Article 3, Paragraph 7 of the Law, No. 3338 applies to the profits derived by a citizen of the United States not residing in Greece, and to corporations organized under the laws of the United States, or whether in the case of such citizen the exemption only applies if he resides in the United States;
- (c) the exemption applies in cases where citizens of the United States or corporations organized under the laws of the United States maintain agencies, branch offices, or representatives in Greece, in connection with the operation of ships documented under the laws of the United States.

In this connection the Secretary of State has the honor to state that he has been informed by the appropriate authorities of the Government that if it is eventually determined that the pertinent exemptions in the Greek income tax law are equivalent to the exemption provision of Section 213(b)(8) of the Revenue Acts of 1921 and 1924 it will be unnecessary for the United States to conclude any agreement with Greece relative to the exemption of earnings derived from the operation of ships documented under the laws of the two countries.

. . . if the Greek Minister will supply the additional information needed the appropriate authorities of the Government will be able to arrive at a definite decision with reference to the general question of the exemption of earnings made in the United States by ships flying the Greek flag.

*The Greek Minister (Simopoulos) to the Secretary of State (Stimson)*

No. 422

LEGATION OF GREECE,  
WASHINGTON, April 2, 1929.

The Minister of Greece presents his compliments to His Excellency the Secretary of State and, referring to the Department's Note of April 26, 1928, No. 811.512368 Shipping/4, has the honor to inform that the exemptions of the Greek law are equivalent to the exemptions that may be accorded by the United States under Section 213(B)(8) of the Revenue Acts of 1921 and 1924.

Concerning the Department's inquiry as to whether "A" during the years 1921-1924 inclusive, taxes have been collected by the Greek Government from the revenues of American citizens residing in Greece or of corporations organized under the laws of the United States, derived from the operation of ships documented under the laws of the United States, the Minister of Greece is authorized to state that for the years 1921-1924 inclusive, no taxes have been collected by the Greek Government from the revenues of American citizens whether residing in Greece or not, or of shipping corporations organized under the laws of the United States for revenues deriving from operation of American ships in Greece.

With regard to question "B" whether the exemption provided in Article 3, Paragraph 7 of the Law No. 3338 applies to the profits derived by citizens of the United States not residing in Greece, and to corporations organized under the laws of the United States or whether in the case of such citizens the exemption only applies if he resides in the United States, the Minister of Greece is authorized to state that the exemption provided in Article 3, Paragraph 7 of the Greek Law No. 3338 is applied on the profits derived by a citizen of the United States whether residing in Greece or not as well as to the shipping companies organized under the American laws.

As to question "C" whether the exemption applies in cases where citizens of the United States or corporations organized under the laws of the United States maintain agencies, branch offices, or representatives in Greece, in connection with the operation of ships documented under the laws of the United States, the Minister of Greece is authorized to state that the exemption is applied generally not only for the American citizens and the American shipping enterprise but on the American ships in Greece.

Accordingly it is determined that the pertinent exemptions in the Greek Income Tax Law are equivalent to the exemption provisions of Section 213 (b) (8) of the Revenue Acts of 1921 and 1924.

The Minister of Greece should be exceedingly obliged if His Excellency the Secretary of State were kind enough to arrive at a definite decision with reference to the general question of exemption of earnings made in the United States by ships flying the Greek flag on the basis of reciprocity and in case that an agreement on this matter would be necessary the Minister of Greece is duly authorized to sign it.

DEPARTMENT OF STATE,  
 WASHINGTON, *June 10, 1929.*

The Secretary of State presents his compliments to the Minister of Greece and has the honor to inform the Minister, with reference to his note No. 422 of April 2, 1929, relative to the provisions of the Greek net income tax law whereby ships flying a foreign flag may be exempted from taxation on the profits made in Greece, that the Secretary of the Treasury has notified the Department of State as follows:

Agreement by United States.

“Inasmuch as Greece has not taxed the income of a citizen of the United States not residing in Greece and of a corporation organized in the United States derived from the operation of ships flying the American flag from 1921 and does not tax such income under the present law, Greece satisfies the equivalent exemption provisions of section 213 (b) (8) of the Revenue Acts of 1921, 1924, and 1926 and sections 212 (b) and 231 (b) of the Revenue Act of 1928. It is held, therefore, that the income of a nonresident alien individual and a foreign corporation from sources within the United States which consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of Greece is not required to be included in gross income and is exempt from income, excess-profits and war-profits taxes for 1921 and subsequent years. If any tax on such income has been paid it will be refunded upon proper claims therefor being made by taxpayers who are entitled to the exemption, provided the period of limitation for making refunds has not expired.”

SIR:

I have the honor to refer further to your note of May 22, 1922, in which you refer to Section 213 (b) (8) of the Revenue Act of 1921, providing for the exemption from taxation of the income of a nonresident alien or foreign corporation which consists of earnings derived from the operation of ships documented under the laws of

I have the honor to state that in order to establish between the United States and Denmark and the United States and Iceland the reciprocal income tax exemption provided for in Section 213 (b) (8) of the Revenue Act of 1921, it will be necessary for the Danish Government to declare that the income from sources in Denmark and Iceland of a citizen of the United States or of an American corporation which consists exclusively of earnings derived from the operation of ships documented under the laws of the United States is not subject to income taxation in Denmark or in Iceland. SIR:

By my letter of August 12th (No. 230) regarding an exchange of notes between the Government of Denmark and the Government of the United States for the reciprocal exemption of shipowners from income tax, I stated it to be the understanding of the Danish Government that this exemption when established would be as from January 1st 1921, notwithstanding the fact that the actual exchange of notes can not be arranged for until some time hence because the conditions stated in your note to me of August 9th must first be brought to the knowledge of the Danish Government.

SIR:

By the note which I had the honor to address to the Acting Secretary of State on February 28, 1922, and Your Excellency's note of November 14, 1922, it was established that reciprocal exemption of income and excess and war profits taxes existed for a non-resident Norwegian or Norwegian corporation in the United States, and for a non-resident American or American corporation in Norway, with regard to income consisting exclusively of earnings derived from the operation of ships under their respective flags; see Norwegian Taxation Laws of August 18, 1911, and the United States Revenue Act of 1921, section 213(b) (8).

Double income tax  
on shipping profits.  
Reciprocal exemption,  
United States and  
Norway.

By new taxation laws enacted in Norway on August 11, 1924, an amendment has been made to the exemption provisions of the laws of August 18, 1911. I hereby enclose a copy of the new laws and a translation into English of the amended provisions according to which persons, companies and corporations belonging in a foreign country are exempt from taxes on property in and income from ship[s] engaged in traffic on a Norwegian port or between Norwegian ports and from taxes from income arising from the sale of tickets for the transportation of persons out of the kingdom; provided that Norwegian persons, companies and corporations are exempt in the country in question from taxes on corresponding activities.

By the new law provisions, the reciprocal exemption of income and excess and war profits taxes in Norway and the United States with regard to income derived from the operation of ships under their respective flags is reaffirmed.

Accept, Sir, the renewed assurances of my highest consideration.

HIS EXCELLENCY  
HONORABLE CHARLES E. HUGHES,

[Enclosure]

Translation of following provisions of the Norwegian Laws of August 11, 1924, amending Article 15 in fine of the Law of Taxation for the Country Communities, and Article 10 in fine of the Law of Taxation for the Cities of August 18, 1911, which two Law Provisions are identical:

“Persons, companies and corporations belonging in a foreign country are exempt from taxes on property in and income from ship[s]

engaged in traffic on a Norwegian port or between Norwegian ports and from taxes on income arising from the sale of tickets for the transportation of persons out of the kingdom; provided that Norwegian persons, companies and corporations are exempt in the country in question from taxes on corresponding activities. If this be not the case, the King can decide that foreign persons, companies and corporations shall pay taxes on property and/or income on activities as mentioned. In so far as sale of tickets for transportation of persons out of the kingdom is concerned, this does not apply but when the sale is effected through an agent or commissioner under the Law on Emigration of May 22, 1869, see Law of June 5, 1897, and Law No. 1 of September 16, 1921. The King will also issue regulations concerning the extent of the taxation and the assessment and collection of the taxes."

DEPARTMENT OF STATE,  
WASHINGTON, *January 23, 1925.*

SIR:

I have the honor to refer to your note of November 26, 1924, concerning the new taxation laws enacted in Norway on August 11, 1924, which, in your opinion, reaffirm the reciprocal exemption of income and excess and war profits taxes in Norway and the United States with regard to income derived from the operation of ships under their respective flags.

It appears from the enclosures transmitted with your note that the Norwegian laws of August 11, 1924, in translation, provide in part as follows:

"Persons, companies and corporations belonging in a foreign country are exempt from taxes on property in and income from ship[s] engaged in traffic on a Norwegian port or between Norwegian ports and from taxes on income arising from the sale of tickets for the transportation of persons out of the kingdom; provided that Norwegian persons, companies and corporations are exempt in the country in question from taxes on corresponding activities. \* \* \*"

I have the honor to inform you that it has been held by the appropriate authorities of this Government that the provision of the Norwegian laws of August 11, 1924, above quoted, satisfies the equivalent exemption provision of Section 213 (b) (8) of the Revenue Act of 1924, and that, therefore, the income of a non-resident alien or foreign corporation, which consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of Norway, is exempt from Federal income taxes imposed by the Revenue Act of 1924.

Accept, Sir, the renewed assurances of my highest consideration.

WASHINGTON, *March 24, 1925.*

SIR:

In the note which Your Excellency's predecessor was good enough to address me on January 23, 1925, it was stated that the appropriate authorities of the Government of the United States had held that the provisions of the Norwegian laws of August 11, 1924, satisfy the equivalent exemption provision of Section 213 (b) (8) of the Revenue Act of 1924, and that, therefore, the income of a non-resident alien or foreign corporation, which consists exclusively of earnings derived from the operation of a ship or ships documented under the laws of Norway, is exempt from Federal income taxes imposed by the Revenue Act of 1924. Agreement by Norway.

In reply to Mr. Hughes' note I have been authorized by my Government to confirm to Your Excellency the existence of reciprocity under the above mentioned Norwegian and American laws and that, therefore, persons, companies and corporations belonging in the United States of America are exempt in Norway from taxes on property in and income from a ship or ships, documented under the laws of the United States, engaged in traffic on a Norwegian port or between Norwegian ports, and from taxes on income arising from the sale of tickets for the transportation of persons out of the Kingdom of Norway.

Accept, Sir, the renewed assurances of my highest consideration.

AMERICAN EMBASSY,  
 RIO DE JANEIRO, March 5, 1929.

Double income tax  
 on shipping profits.  
 Reciprocal exemp-  
 tion, United States and  
 Brazil.

MR. MINISTER:

The representative of the United States Shipping Board has called my attention to Article 6 of Executive Decree No. 5,623, of December 29, 1928, by which His Excellency the President of the Republic sanctioned a law of Congress which "Reduces the duties on rolling and traction material for railroad and city transportation; alters the tax on paper for wrapping fruits; exempts from duties the importation of gold in bars and coined; regulates the payment by 'exercício findo' and adopts other measures."

Article 6 of said Law states:

"Foreign navigation companies are hereby exempted from income tax, provided that the country in which their head office is located, grants exemption to Brazilian companies of the same character."

According to the dispositions of Section 213(b)(8) of the Revenue Laws of the United States of 1924 and 1926 which were also included in the Revenue Law of the United States of 1928 in Section 212 (b) and 231(b):

"(8) The income of a foreigner non-resident or of a foreign corporation which consists exclusively of profit derived from a ship or ships operating under the laws of a foreign country which grants equal exemption to citizens of the United States and to corporations organized in the United States. . . ."

It would appear that the above mentioned Revenue Laws of the United States contain a provision which would meet the terms of Article 6, of Executive Decree No. 5,623 of December 29, 1928, and that therefore I am justified in requesting Your Excellency's Government to exempt the United States Shipping Board from payment of the Brazilian income tax.

Accept, Excellency [etc.]

Em additamento á minha nota n. NC/99, de 28 de Setembro ultimo e de accordo com as informações recebidas do Ministerio dos Negocios da Fazenda, tenho a honra de prestar a Vossa Excellencia os seguintes esclarecimentos:

## NOTE VERBALE

Supplementing its Note Verbale No. III A 522 of March 19 last, regarding the exemption of American shipping companies from the corporation tax, the Foreign Office has the honor to inform the Embassy of the United States of America that the Federal Minister of Finance has instructed the financial authorities, in the case of commercial companies whose seat and place of direction is in the United States of America, not to subject to the corporation tax the income which comes exclusively from the operation of ships and not to demand a corporation tax declaration as to the above-mentioned from the North American companies which maintain in Germany a branch office, any other place of operation or a permanent representative. This instruction was issued on condition of reciprocity on the part of the United States and under the reservation that it may be recalled at any time.

*Post*, p. 2636.

The said Minister has furthermore declared his readiness to grant the favored treatment accorded to North American shipping companies also to citizens (individual persons) of the United States of America who carry on shipping traffic to Germany, if the Government of the United States of America grants reciprocity in the same degree.

The Foreign Office would be grateful to the Embassy of the United States of America if the latter would report the above to its Government with the greatest possible despatch and obtain a statement as to the attitude of the Government toward the question of exemption from taxation of the above-described individual persons.

## NOTE VERBALE

The Embassy of the United States of America presents its compliments to the Ministry for Foreign Affairs and has the honor to refer to the latter's Note Verbale No. V. Steu 1496 of September 5, 1923, in which the Embassy was informed among other things that the Commonwealth Minister of Finance had issued certain instructions not [to] subject to the corporation tax the income derived exclusively from the operation of ships by commercial companies whose seat and place of direction are in the United States of America under certain circumstances mentioned, on condition of reciprocity on the part of the United States.

In accordance with the expressed desire of the Ministry for Foreign Affairs the contents of the note verbale under reply were communicated by cable to the Department of State, which has now sent a telegraphic reply.

In this telegram the Embassy is informed that the Treasury Department states that it is necessary for a foreign government to exempt citizens of the United States not residing in the foreign country concerned as well as domestic corporations from the tax on earnings from sources within such country derived exclusively from the operation of ships in order that such country may satisfy the equivalent exemption provision of the section of the Revenue Act of 1921 communicated to the Ministry for Foreign Affairs in the Embassy's Note No. 91 of June 28, 1922.

The Embassy is informed further by the Treasury Department through the Department of State that, therefore, if the Minister of Commerce [Finance] will issue the same instructions to the financial authorities relative to citizens of the United States not residing in Germany as have been issued relative to domestic corporations Germany will have satisfied the equivalent exemption provision referred to. The Embassy is informed, that as soon as the Treasury Department receives notice through this Embassy that the additional instructions have been issued, it will issue a statement that Germany has satisfied this exemption provision.

If therefore the instructions referred to above are issued and the Ministry for Foreign Affairs will so inform the Embassy, the Embassy will take pleasure in telegraphing to the Department of State the date on which they become effective.

The Department of State would appreciate also being informed whether Germany has ever demanded or collected or under the law may demand any income tax from citizens of the United States not residing in Germany or domestic corporations on earnings derived from the operation of ships from January 1st, 1921, to the date on which the above instructions if issued become effective.

NOTE VERBALE

The Foreign Office has the honor to inform the Embassy of the United States of America, in reply to the latter's note verbale of October 27, 1923 (No. 543), and supplementing its own note verbale of September 5, 1923 (V Steu 1496), that, by an ordinance dated January 5, 1924, the Federal Minister of Finance has instructed the competent financial authorities that incomes derived from the operation of ships by citizens of the United States of America (individual persons) who have no residence in Germany are likewise to be exempted from the income tax, under the condition of reciprocity and the reservation of repeal at any time, as has already been ordered by a proclamation of August 10, 1923, relating to American commercial companies as affected by the corporation tax.

Furthermore, according to the investigations undertaken by the German Government, citizens of the United States who have no residence in Germany, as well as American shipping companies which receive their incomes from the operation of ships, have not been subjected in Germany to either the income or the corporation tax since January 1, 1921.

The Foreign Office would be grateful for a statement as to whether now the Government of the United States of America will grant to German shipping companies and individual persons engaged in shipping the same exemption from taxation of incomes derived from the operation of ships, and particularly so with retroactive effect from January 1, 1921.

NOTE VERBALE

No. 675

The Embassy of the United States of America presents its compliments to the Ministry for Foreign Affairs, and has the honor to refer to the latter's Note Verbale No. V Steu 30/B 2556 of January 19, 1924, concerning the question of the taxing by Germany of earnings derived from the operation of ships documented under the laws of the United States. As will be remembered, the Embassy, by its Note Verbale No. 299 of March 2, 1923, informed the Ministry for Foreign Affairs that a copy of the Note Verbale above referred to had been duly transmitted to the Department of State.

The Embassy of the United States of America now has the honor to inform the Ministry for Foreign Affairs that an instruction has been received from the Department of State, transmitting a ruling received from the Treasury Department on this subject, with reference to the Foreign Office's note of January 19, 1924, requesting additional information on the following points:

"In the Ordinance of August 10, 1923, it is noted 'that in the case of companies operated for profit, whose domicile and place of management is in the United States of America, the income which is derived exclusively from the operation of ships, shall not be subjected to the corporation tax. A corporation tax return for the aforesaid income is not to be required of North American companies which maintain in this country a branch or other place of operation or a continuous [permanent] representative.'

"Under this provision of the Ordinance of August 10, 1923, it appears that an American corporation whose place of management, for instance, is in London, might possibly be taxed while an American corporation whose place of management is in the United States or Germany, would be exempted. In order for individual Germans and German shipping companies to be entitled, under the provisions of American law, to the benefits of reciprocity in the matter of exemption from taxation, it would be necessary for the Ordinance of August 10, 1923, to apply to all corporations organized in the United States regardless of the place of management.

"Moreover, in order to enable the Government of the United States to pass upon the question as to whether equivalent exemption is applicable from January 1, 1921, the Treasury Department states that it will be necessary for the German Government to show that citizens of the United States non-resident as to Germany and domestic corporations have not been subjected to income and corporation tax since January 1, 1921, and the earnings derived from the operation of ships, and that they are exempt from such taxes and will not be required to pay the income and corporation tax on any income earned since January 1, 1921."

The Embassy of the United States of America begs further, in compliance with the request of the Department of State, that an early consideration of its response be given by the Foreign Office.

The Foreign Office has the honor to inform the Embassy of the United States of America, in response to the latter's Note No. 686 of May 16 last, relative to exemption from income tax of both German and American shipowners, as follows:

The Federal Minister of Finance is now ready in principle to amend his order of August 10, 1923, in accordance with the wishes of the

Government of the United States of America as conveyed in the Embassy's Note Verbale No. 675 of May 5, 1924, and to cause instructions to be issued to the subordinate financial authorities that the order of August 10, 1923, is to be applied to all companies which have their seat in the United States of America regardless of the location of their management.

As concerns the conditions for abstention from collection of taxes from January 1, 1921, referred to in the last-mentioned note verbale, the Foreign Office can only repeat the statement based on the official findings of the Federal Minister of Finance and contained in its Note No. V Steu 30 of January 19, 1924—the statement that since January 1, 1921, the income from the operation of ships of American shipping companies and citizens who have no residence in Germany has not been subjected to the German income tax or corporation tax. Furthermore, the German Government will abstain from a supplementary collection of taxes for the period since January 1, 1921, if the American Government grants reciprocity. The statement previously made by the Foreign Office through the usual diplomatic channels is a binding official declaration of the German Government.

The Foreign Office requests the Embassy of the United States of America to inform its Government of the above and to acquaint the Foreign Office with the American Government's attitude as soon as possible so that, if an agreement is reached between the German and American Governments, the Federal Minister of Finance may issue suitable instructions to the financial authorities.

NOTE VERBALE

No. 935

With reference to the Note Verbale No. V Steu 1489  
B34881 dated September 3, 1924, of the Ministry for Foreign Affairs in regard to the taxation by Germany of the earnings derived from the operation of ships documented under the laws of the United States, the Embassy of the United States of America presents its compliments to the Ministry and has the honor to state that it lost no time in transmitting the Note Verbale under reference to the Department of State and is now in receipt of instructions to invite the Ministry's attention to the following observations of the Treasury Department of the United States Government:

After careful consideration, this Department is of the opinion that in view of the categorical statement of the German Government and the proposed amendment by the Commonwealth Minister of Finance to his order of August 10, 1923, Germany will meet the equivalent exemption provision of Section 213 (b) (8) of the Revenue Act of 1924, upon the issuance of the necessary orders referred to in the Note under consideration. The same opinion is herein expressed with respect to the years 1921, 1922 and 1923, under the provision of Section 213 (b) (8) of the Revenue Act of 1921.

Accordingly, it is requested that the German Government be apprised that upon completion of the action proposed in the Note of the Foreign Office of September 3, 1924, the equivalent exemption provision of Section 213(b) (8) of both the Revenue Acts of 1921 and 1924 will be satisfied and that the income of a non-resident alien or foreign corporation from sources within the United States which consists exclusively of earnings of a ship or ships documented under the laws of Germany will be exempt from Federal Income tax and that such exemption will be applicable for the year 1921 and subsequent years. In this connection it should be pointed out that certain German shipping concerns have been granted until December 15th to complete their 1923 tax returns and it is desirable that this information be communicated to the German Government as expeditiously as possible. This Department would appreciate prompt advice of the action of the competent German authorities.

It is to be observed from the foregoing that the Treasury Department refers to the categorical statement of the German Foreign Office "That the German Government will abstain from a supplementary collection of taxes for the period since January 1, 1921, if the American Government grants reciprocity" and that this statement is a "binding official declaration of the German Government." It will also be observed that the Treasury Department states that in view of this categorical statement and a proposed amendment by the Commonwealth Minister of Finance to his Order of August 10, 1923, it considers that the German Government will meet the equivalent exemption provision of Section 213(b) (8) of the Revenue Act of 1924 upon the issuance of the necessary orders referred to in the Ministry's Note of September 3, 1924, under reference. The Treasury Department expresses the same opinion with respect to the years 1921, 1922 and 1923 under the provision of Section 213(b) (8) of the Revenue Act of 1921.

In bringing the foregoing to the attention of the Ministry, the Embassy is instructed to point out that upon the completion of the action proposed in the Ministry's Note of September 3, 1924, the equivalent exemption provision of Section 213(b) (8) of both of the Revenue Acts of 1921 and 1924 will be satisfied and that the income of a nonresident alien or foreign corporation from sources within the United States which consists exclusively of earnings of a ship or ships documented under the laws of Germany will be exempt from Federal income tax and that such exemption will be applicable for the year 1921 and subsequent years.

In view of the statement of the Treasury Department that certain German shipping concerns have been granted until December 15th to complete their 1923 tax returns, the Ministry will appreciate the desirability of advising the Embassy as soon as possible with respect to the action taken by the German authorities in the matter of the proposed amendment by the Minister of Finance of his Order of August 10, 1923, so that the Treasury Department of the United States Government may, in turn, be definitely advised in the premises.

NOTE VERBALE.

Referring to the Note Verbale No. 935, dated November 29, concerning the taxation of shipping companies of both countries, the Foreign Office has the honor to inform the Embassy of the United States of America that, in accordance with the proposal transmitted in the Foreign Office's Note Verbale of September 3, 1924 (V Steu 1489), the Federal Minister of Finance has now, by an order dated December 9, 1924, instructed the subordinate financial authorities to apply the order of August 10, 1923, to all companies which have their seat in the United States of America regardless of the location of their management.

Thus, according to the note verbale of the Embassy of the United States of America of November 29, the conditions are fulfilled in order that, beginning January 1, 1921, the incomes derived from the operation of ships by German citizens who are not residents of the United States of America, and by companies with their seat in Germany, are exempt from the income tax in the United States of America.

Since, according to the note verbale of the Embassy of the United States of America dated November 29, the period granted for the filing of tax declarations expires on December 15 for certain German shipping companies, the Foreign Office would greatly appreciate it if the Embassy of the United States of America would inform its Government *by telegraph* of the change made in the order of the Ministry of Finance of August 10, 1923.

FEDERAL MINISTER OF FINANCE.

III C 7412.

BERLIN, August 10, 1923.

*Subject:* Exemption of North American shipping companies from the corporation tax.

Under section 213, subdivision 8, of the Revenue Act of 1921 of the United States of America, the income derived exclusively from the operation of a ship or ships of a foreign company is exempted from the income tax if the company is subject to the laws of a foreign state which grants reciprocal rights to the United States. At the instance of the Embassy of the United States of America, I declare myself as agreeing, upon the assumption of full reciprocity and with the reservation of the right of revocation at any time, under authority of section 108, subdivision 1, of the Federal Tax Law, that in the case of companies operated for profit, whose domicile and place of management is in the United States of America, the income which is derived exclusively from the operation of ships shall not be subjected to the corporation tax. A corporation-tax return for the aforesaid income is not to be required of North American companies which maintain in this country a branch or other place of operation or a permanent representative. I request that the finance offices charged with making the assessments be notified forthwith.

If in individual cases doubt should arise, I ask that report be made thereof.

DEPARTMENT OF STATE,  
WASHINGTON, August 24, 1927.

SIR:

The Ambassador's note of July 26, 1927, with further reference to the claim of the heirs of Señor Manuel Arias Brios, and to the suggestions made in my note of May 31, last, relative to the desirability of an informal consideration of such claims as either Government may now desire to bring to the attention of the other, was duly received and has had consideration.

Reciprocal claims arrangement with Spain.

With respect to His Excellency's request for a statement of the precise steps contemplated for the consideration of such claims, it is suggested (1) that each Government should submit to the other on or before a specified date in the near future, a list of the claims which each desires to urge for the consideration and allowance of the other, together with a brief statement of the facts. This Government would suggest that such lists should be exchanged by January 1, 1928. (2) Subsequently, at the expiration of an agreed period of time, say three months, required for the examination of the claims presented, the two Governments should designate representatives, one each, to confer together in an effort to decide upon the merits of the claims, and, if possible to concur in conclusions as to the appropriate disposition to be made of each of the claims presented. (3) The claims which the representatives agree should be paid shall be referred by them to the respective Governments with their recommendations. (4) Cases in which the representatives do not agree or in which the recommendations of the representatives are not accepted by the two Governments might be disposed of by such further agreement as might at the time seem expedient.

Accept, Sir, the renewed assurances of my high consideration.

DEPARTMENT OF STATE,  
WASHINGTON, May 13, 1929.

EXCELLENCY:

Reference is made to this Government's note of August 24, 1927, to the Chargé d'Affaires *ad interim* of Spain concerning an arrangement for the informal consideration of claims of the United States against Spain and Spanish claims against this Government.

## CONSIDERATION OF CLAIMS—SPAIN.

As no reply to this communication has been received this Government is uncertain as to the acquiescence of the Spanish Government in the suggestions made therein. As previously indicated this Government is desirous of settling all outstanding claims between the two Governments and is willing to submit for consideration by the Spanish Government a list of claims in which it feels that satisfaction should be made. Before proceeding to the preparation of such list, however, it desires to be informed whether the arrangement proposed in its note of August 24, 1927, is concurred in by the Spanish Government and whether that Government will submit a list of its claims to this Government for use in carrying out the purposes of the proposed arrangement.

It is understood that the claims referred to are distinct from those of American citizens and proteges which have arisen in that part of Morocco commonly known as the Spanish Zone and which were made the subject of a special arrangement through my predecessor's note of November 7, 1927, and Your Excellency's note of February 1 [11], 1928, in reply thereto.

Accept, Excellency, the renewed assurances of my highest consideration.

*The American Minister (Philip) to the Persian Acting Minister for Foreign Affairs (Pakrevan)*

LEGATION OF THE UNITED STATES OF AMERICA,  
TEHERAN, PERSIA, May 14, 1928.

EXCELLENCY:

Commercial, etc.,  
agreement with Persia.

I have the honor to inform you that my Government, animated by the sincere desire to terminate as soon as possible the negotiations now in progress with the Imperial Government of Persia in regard to the conclusion of a Treaty of Friendship, as well as Establishment, Consular, Commercial and Tariff Conventions between the United States of America and Persia, has instructed me to communicate to the Imperial Government of Persia in its name the following provisional stipulations:

1) After May 10, 1928, the diplomatic representation of Persia in the United States, its territories and possessions, shall enjoy, on a basis of complete reciprocity, the privileges and immunities derived from generally recognized international law.

The Consular representatives of Persia, duly provided with exequatur, will be permitted to reside in the United States, its territories and possessions, in the districts where they have been formerly admitted.

They shall, on a basis of complete reciprocity, enjoy the honorary privileges and personal immunities in regard to jurisdiction and fiscal matters secured to them by generally recognized international law.

2) After May 10, 1928, Persian nationals in the United States, its territories and possessions, shall, on a basis of complete reciprocity, be received and treated in accordance with the requirements and practices of generally recognized international law.

In respect to their persons and possessions, rights and interests, they shall enjoy the fullest protection of the laws and authorities of the Country, and they shall not be treated, in regard to the above mentioned subjects, in a manner less favorable than the nationals of any other foreign country.

In general, they shall enjoy in every respect the same treatment as the nationals of the Country, without, however, being entitled to the treatment reserved alone to nationals to the exclusion of all foreigners.

Matters of personal status and family law will be dealt with in separate notes to be concluded and exchanged at the earliest possible date.

3) After May 10, 1928, and as long as the present stipulations remain in force, and on a basis of complete reciprocity, the United States will accord to merchandise produced or manufactured in Persia upon entry into the United States, its territories and possessions, the benefits of the tariff accorded to the most favored nation;

from which it follows that the treatment extended to the products of Persia should not be less favorable than that granted to a third country.

In respect to the regime to be applied to the Commerce of Persia in the matter of import, export, and other duties and charges affecting commerce as well as in respect to transit warehousing and the facilities accorded commercial travelers' samples; and also as regards commodities, tariffs and quantities in connection with the licensing or prohibitions of imports and exports, the United States shall accord to Persia, on a basis of complete reciprocity, a treatment not less advantageous than that accorded to the commerce of any other country.

It is understood that no higher or other duties shall be imposed on the importation into or disposition in the United States, its territories or possessions, of any article, the product or manufacture of Persia, than are or shall be payable on like articles, the product or manufacture of any foreign country; similarly, and on a basis of complete reciprocity, no higher or other duties shall be imposed in the United States, its territories or possessions, on the exportation of any articles to Persia than are payable on the exportation of like articles to any foreign country.

On a basis of complete reciprocity, any lowering of duty of any kind that may be accorded by the United States in favor of the merchandise of any other country will become immediately applicable without request and without compensation to the commerce of Persia with the United States, its territories and possessions.

Providing that this understanding does not relate to:

1) The treatment which the United States accords or may hereafter accord to the commerce of Cuba, or any of the territories or possessions of the United States, or the Panama Canal Zone, or to the treatment which is or may hereafter be accorded to the commerce of the United States with any of its territories or possessions, or to the commerce of its territories or possessions with one another;

2) Prohibitions or restrictions authorized by the laws and regulations in force in the United States, its territories or possessions, aiming at the protection of the food supply, sanitary administration in regard to human, animal or vegetable life, and the enforcement of police and revenue laws.

The present stipulations shall become operative on the day of signature, and shall remain respectively in effect until the entry in force of the Treaty and Conventions referred to in the first paragraph of this note, or until thirty days after notice of their termination shall have been given by the Government of the United States to the Imperial Government of Persia, but should the Government of the United States be prevented by future action of its legislature from carrying out the terms of these stipulations the obligations thereof shall thereupon lapse.

I shall be glad to have your confirmation of the understanding thus reached.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

MR. MINISTER,

I have the honor, in the name of my Government, to acknowledge receipt of and place on record the contents of your note of to-day's date, specifying the provisional stipulations relative to diplomatic, consular, customs and other relations between Persia and the United States of America.

Please accept, Mr. Minister, the assurance of my high consideration.

HIS EXCELLENCY,

MR. HOFFMAN PHILIP,

*Minister of the United States of America,*  
*Teheran.*

*The Persian Acting Minister for Foreign Affairs (Pakrevan) to the American Minister (Philip)*

TÉHÉРАН, le 14 Mai 1928

MONSIEUR LE MINISTRE,

Agreement by Persia.

J'ai l'honneur de vous informer que mon Gouvernement, animé du désir sincère de faire aboutir dans le plus bref délai possible les négociations actuellement en cours avec le Gouvernement des Etats-Unis et relatives à la conclusion d'un traité d'amitié ainsi que de conventions d'établissement, consulaire, douanière et commerciale, m'a chargé de vous communiquer, en son nom, les dispositions provisoires suivantes:

1. A dater du 10 Mai 1928 la représentation diplomatique des Etats-Unis d'Amérique sur le territoire persan jouira, sous condition d'une parfaite réciprocité, des privilèges et immunités consacrés par le droit commun international.

Les représentants consulaires des Etats-Unis d'Amérique sur le territoire persan, régulièrement munis de l'exequatur, pourront, sous condition d'une parfaite réciprocité, y résider dans les localités où ils étaient jusqu'alors admis.

Ils bénéficieront des privilèges honorifiques et immunités personnelles de juridiction et de fiscalité consacrées par le droit commun international et sous condition d'une parfaite réciprocité.

2. A dater du dix Mai 1928, les ressortissants des Etats-Unis d'Amérique en Perse seront admis et traités conformément aux règles et pratiques du droit commun international et sur la base d'une parfaite réciprocité.

Ils y jouiront, quant à leur personne et à leurs biens, droits et intérêts, de la plus entière protection des lois et des autorités territoriales et ils n'auront pas relativement aux questions susmentionnées un traitement moins avantageux que les ressortissants des autres pays étrangers.

Ils y bénéficieront, en toute matière, du même traitement général que les nationaux, sans pouvoir prétendre toutefois au traitement réservé aux seuls nationaux, à l'exclusion de tous autres étrangers.

La question de statut personnel et du droit de famille sera traitée dans des notes spéciales à arrêter et échanger aussitôt que possible.

3. A dater du dix Mai 1928 et pendant la durée des présentes dispositions et sous la condition d'une parfaite réciprocité, les marchandises produites ou manufacturées aux Etats-Unis, leurs Territoires et Possessions, à leur entrée en Perse bénéficieront du tarif accordé à la nation la plus favorisée, de sorte que le traitement accordé aux Etats-Unis pour leurs marchandises ne soit pas moins favorable que le traitement légal accordé à un pays tiers.

Quant au régime applicable au commerce des Etats-Unis d'Amérique, relatif à l'importation, l'exportation et autres droits et charges ayant trait au commerce, aussi bien qu'au transit, à l'emmagasinage, aux facilités accordées aux échantillons des commis-voyageurs; et quant aux facilités, tarifs et quantités relatifs aux licences et prohibitions d'importation et d'exportation la Perse accorde aux Etats-Unis, leurs Territoires et Possessions, sous condition d'une parfaite réciprocité, un traitement non moins avantageux que celui accordé au commerce de tout autre Etat étranger.

Il est entendu que d'autres droits ou des droits plus élevés ne sauraient être appliqués à l'importation ou à l'écoulement en Perse de tous articles, produits ou fabriqués aux Etats-Unis, leurs Territoires et Possessions que ceux qui seraient dus par les articles similaires produits ou fabriqués par tout autre pays étranger.

De même et sous condition d'une parfaite réciprocité, d'autres droits ou des droits plus élevés ne seront pas appliqués en Perse à l'exportation de tous articles à destination des Etats-Unis, leurs Territoires ou possessions que ceux qui seraient dus à l'exportation de produits similaires à destination de toute autre pays étranger.

Sous condition d'une parfaite réciprocité tous abaissments de droits de toute nature qui seraient consentis par la Perse en faveur des produits de tout autre Etat seront immédiatement applicables, sans qu'il soit besoin de la requérir et sans compensation, au commerce des Etats-Unis, leurs Territoires et Possessions avec la Perse.

Il est entendu que ces dispositions ne se réfèrent pas aux interdictions et restrictions autorisées par les lois et règlements en vigueur en Perse en vue de protéger la vie alimentaire, la police sanitaire humaine, animale, végétale, les intérêts de la sûreté générale et des intérêts fiscaux.

Les dispositions de la présente note entrent en vigueur à dater d'aujourd'hui et elles resteront respectivement en force jusqu'à l'entrée en vigueur des traités et conventions correspondants, dont il est fait mention dans le paragraphe premier de la présente note ou jusqu'à l'expiration d'un délai de trente jours à dater de la notification qui

serait faite au Gouvernement des Etats-Unis par mon Gouvernement de son intention d'y mettre fin, mais dans le cas où mon Gouvernement serait empêché de remplir ses engagements par l'effet d'une mesure législative ces dispositions tomberont en caducité.

Je serais heureux d'avoir confirmation de notre entente sur ces points.

Veillez agréer, Monsieur le Ministre, l'assurance de ma haute considération.

TEHERAN, *May 14, 1928*

MR. MINISTER,

I have the honor to advise you that my Government, animated by the sincere desire to terminate as soon as possible the negotiations now in progress with the Government of the United States relative to the conclusion of a treaty of friendship, as well as establishment, consular, customs, and commercial conventions, has directed me to communicate to you, in its name, the following provisional stipulations:

1. On and after May 10, 1928, the diplomatic representation of the United States of America in Persian territory shall enjoy, on condition of complete reciprocity, the privileges and immunities sanctioned by generally recognized international law.

The consular representatives of the United States of America in Persian territory, duly provided with an exequatur, shall be permitted, on condition of complete reciprocity, to reside there in the localities to which they were admitted up to that time.

They shall enjoy, on the condition of complete reciprocity, the honorary privileges and personal immunities in regard to jurisdiction and fiscal matters sanctioned by generally recognized international law.

2. On and after May 10, 1928, the nationals of the United States in Persia shall on the basis of complete reciprocity be admitted and treated in accordance with the rules and practices of generally recognized international law.

In respect of their persons and property, rights and interests, they shall enjoy there the fullest protection of the laws and the territorial authorities of the country, and they shall not be treated in regard to the above-mentioned matters in a manner less favorable than the nationals of other foreign countries.

They shall enjoy, in every respect, the same general treatment as the nationals of the country, without being entitled, however, to the treatment reserved to nationals alone, to the exclusion of all other foreigners.

Matters of personal status and family law shall be treated in special notes to be drawn up and exchanged as soon as possible.

3. On and after May 10, 1928, and as long as the present provisions shall remain in force, and on condition of complete reciprocity, merchandise produced or manufactured in the United States, its territories and possessions, on their entry into Persia, shall enjoy the tariff accorded to the most favored nation, so that the treatment accorded to the United States for its merchandise shall not be less favorable than the legal treatment accorded to a third country.

In respect to the régime applicable to the commerce of the United States of America, in the matter of import and export and other duties and charges relating to commerce, as well as to transit, warehousing, and the facilities accorded to commercial travelers' samples, and as to facilities, tariffs, and quantities in connection with the licensing and prohibition of imports and exports, Persia shall accord to the United States, its territories, and possessions, on condition of complete reciprocity, a treatment not less favorable than that accorded to the commerce of any other foreign country.

It is understood that other or higher duties shall not be applied to the importation into or the sale in Persia of any articles, produced or manufactured in the United States, its territories and possessions, than those which would be payable on like articles produced or manufactured by any other foreign country.

Similarly and on condition of complete reciprocity, no other or higher duties shall be imposed in Persia on the exportation of any articles to the United States, its territories or possessions, than those which would be payable on the exportation of like articles to any other foreign country.

On condition of complete reciprocity, any lowering of duties of any kind that may be granted by Persia in favor of the products of any other country shall be immediately applicable, without request and without compensation, to the commerce of the United States, its territories and possessions, with Persia.

It is understood that these provisions do not refer to the prohibitions and restrictions authorized by the laws and regulations in force in Persia for protection of the food supply, sanitary administration in regard to human, animal, or vegetable life, the interests of public safety and fiscal interests.

The stipulations of the present note shall go into effect to-day and they shall remain respectively in force until the entry into effect of the corresponding treaty and conventions referred to in the first paragraph of this note or until the expiration of a period of thirty days from the notice which may be given to the Government of the United States by my Government of its intention to terminate them, but in case my Government should be prevented from fulfilling its engagements by the effect of a legislative measure, these stipulations shall lapse.

I would be glad to have confirmation of our understanding on these points.

Please accept, Mr. Minister, the assurance of my high consideration.

Me référant aux notes arrêtant les dispositions provisoires relatives aux relations diplomatiques, consulaires, douanières et autres entre les Etats-Unis d'Amérique et la Perse, échangées le 14 mai, 1928, j'ai l'honneur, au nom de mon Gouvernement, de vous faire la déclaration suivante sur la façon dont je conçois les résultats auxquels ont abouti nos conversations concernant la question du statut personnel, tenues conformément à la stipulation précisée dans l'alinéa 4 du paragraphe 2 des dites notes.

Vu que les ressortissants persans aux Etats-Unis d'Amérique jouissent du traitement de la nation la plus favorisée en matière du statut personnel, et,

Vu que ladite question sera réglée définitivement entre les deux Etats par la convention d'établissement, il est entendu qu'en ladite matière du statut personnel, c'est-à-dire, pour toutes les questions concernant le mariage et la communauté conjugale, le divorce, la séparation de corps, la dot, la paternité, la filiation, l'adoption, la capacité des personnes, la majorité, la tutelle, la curatelle, l'interdiction; en matière mobilière, le droit de succession testamentaire, ou ab intestat, partage et liquidation; et en général, le droit de famille, les ressortissants non-musulmans des Etats-Unis en Perse seront soumis à leurs lois nationales.

MONSIEUR LE CHARGÉ D'AFFAIRES,

Par une lettre, en date du 3 janvier 1930, vous avez bien voulu faire connaître à mon prédécesseur que le Gouvernement des États-Unis est disposé à conclure un arrangement avec le Gouvernement Suédois en vue d'exonérer, à titre de réciprocité, les yachts de plaisance des deux pays de tous droits de navigation dans leurs ports.

En me référant à cette lettre, j'ai l'honneur de porter à votre connaissance que, aux termes du §126 du Règlement Douanier Suédois, et du Décret Royal en date du 7 octobre 1927, les yachts appartenant aux yachtclubs des pays où les mêmes facilités sont accordées aux yachts suédois, sont exemptés dans les ports suédois de tous droits de navigation—sauf ceux de pilotage lorsqu'ils ont réellement un pilote à bord—pourvu qu'ils soient munis d'un certificat délivré par les autorités du pays et constatant qu'ils n'ont pas été équipés dans un but commercial.

Si votre Gouvernement consent à accorder, à titre de réciprocité, les mêmes facilités aux yachts de plaisance appartenant aux yachtclubs suédois, je me permets de vous proposer que la présente note et la réponse que vous voudriez bien me faire parvenir, serviront à constater l'entente intervenue entre nos deux pays.

MINISTRY FOR FOREIGN AFFAIRS,  
STOCKHOLM, October 22, 1930.

MR. CHARGÉ D'AFFAIRES:

By a letter dated January 3, 1930, you kindly informed my predecessor that the United States Government is disposed to conclude an arrangement with the Swedish Government with a view to exempting on a basis of reciprocity the pleasure yachts of the two countries from all navigation dues in their ports.

Referring to this letter, I have the honor to inform you that, according to the provisions of section 126 of the Swedish Customs Regulations and of the Royal Decree dated October 7, 1927, yachts belonging

Arrangement with Sweden for the reciprocal exemption of pleasure yachts from navigation dues.

to yacht clubs of countries where the same facilities are accorded to Swedish yachts are exempted in Swedish ports from all navigation dues—except dues of pilotage where they have actually a pilot on board—provided that they be furnished with a certificate delivered by the authorities of the country and on the understanding that they are not equipped for commercial purposes.

If your Government consents to grant upon a basis of reciprocity the same facilities to pleasure yachts belonging to Swedish yacht clubs, I permit myself to propose that the present note and the reply which you may make thereto will serve as an agreement reached between our two countries.

Please accept, Mr. Chargé d'Affaires, the assurances of my most distinguished consideration.

*Section 126 of the Swedish Customs Regulations*

[Translation]

A master of a vessel belonging to a public yacht club or other similar association and which is not equipped for commercial purposes (pleasure yachts) shall, when the vessel arrives or departs from a port in the customs territory without being used for conveying goods other than foodstuffs and articles necessary for the vessel during the journey, be exempt from the duty to submit to the customs authorities a written report regarding the vessel and from obtaining a permit for it from the customs authorities.

When arriving from a port outside of the customs territory, the master may not visit any other port with the vessel than a customs port or a place where coast-guards are stationed. When arriving from and departing to a place outside the customs territory, it is the duty of a master to report personally to the nearest customs office or coast-guard station and to submit a certificate, issued by a public authority or the board of the association, showing the name of the vessel, number and tonnage, the name of the owner of the vessel and domicile, as well as the name of the association to which the vessel belongs.

If the owner or master of a pleasure yacht has here in the country been found guilty of illegal import or export of articles, the provisions granted in this section shall not apply to any of the vessels belonging to the association as long as he owns or commands the vessel. However, the advantages shall be discontinued not earlier than fifteen days after the General Customs Board has informed the board of the association of the misdemeanor committed.

The provisions of this section shall not apply to vessels belonging to an association in Sweden, provided His Majesty has not granted the association similar rights for its vessels, and shall not either apply to vessels belonging to a foreign association, unless Swedish pleasure yachts enjoy the same advantages in the respective country.

## ROYAL DECREE

REGARDING EXEMPTION IN CERTAIN CASES FOR SALVAGE VESSELS

Given at the Palace of Stockholm, October 7, 1927.

His Royal Majesty has deemed fit to decree that salvage vessels and pleasure yachts referred to in sections 124 and 126 of the Customs Regulations, under the conditions mentioned in these sections, shall in Swedish ports be exempt from all those fees which are generally assessed for vessels in such ports, with the exception of pilotage fees where a pilot is employed.

This decree shall enter into force on May 1, 1928, on and from which day the regulations in the letter to the Board of Trade of April 24, 1863 (No. 23), relating to the exemption from certain fees in Swedish ports accorded vessels intended for diving and salvage activities, shall cease to be effective.

Let all concerned duly comply herewith. In faith whereof, We have signed this with Our own hand and have caused it to be confirmed by Our Royal Seal. The Palace of Stockholm, October 7, 1927.

No. 56. LEGATION OF THE UNITED STATES OF AMERICA,  
STOCKHOLM, *October 29, 1930.*

## EXCELLENCY:

I have the honor to acknowledge the receipt of Your Excellency's note dated October 22, 1930, in reply to my note dated January 3, 1930, addressed to Your Excellency's predecessor, relating to the desire of my Government to obtain an agreement on the part of the Swedish Government to accord to American yachts in Swedish ports treatment in the matter of the payment of various port charges reciprocal to that which is now enjoyed by Swedish vessels calling at ports of the United States.

Your Excellency is so good as to inform me that, according to the terms of Section 126 of the Swedish Customs Regulations and of the Royal Decree dated October 7, 1927, yachts belonging to yacht clubs of countries where the same facilities are accorded to Swedish yachts are exempted in Swedish ports from all navigation dues—except dues of pilotage when they have actually a pilot on board—provided that they be furnished with a certificate delivered by the authorities of the country and on the understanding that they are not equipped for commercial purposes.

In conclusion Your Excellency states that, if my Government consents to grant upon a basis of reciprocity the same facilities to pleasure yachts belonging to Swedish yacht clubs, Your Excellency proposes that the note under reference and the reply which I may make thereto will serve as an agreement reached between our two countries.

In reply I have the honor to state that, inasmuch as the provisions of the Statutes of the United States for the collection of tonnage and light dues (U. S. Code, Title 46, Sections 121 and 128) permit the suspension of those charges in behalf of vessels of foreign countries which accord national treatment to vessels of the United States, I am accordingly gratified that there appears to be no further obstacle to the enjoyment by the pleasure yachts of each country of treatment reciprocal to that enjoyed in the ports of the other.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

*Agreement between the United States of America and Haiti. Signed August 5, 1931.* August 5, 1931.

LEGATION OF THE UNITED STATES OF AMERICA,  
PORT-AU-PRINCE, HAITI, August 5, 1931.

The undersigned plenipotentiaries duly authorized by their respective governments have agreed upon the following Accord: Haitianization Accord.

ARTICLE I.

The services of the Engineers provided for by Article XIII of the Treaty of September 16, 1915, for the sanitation and public improvement of the Republic, and by the Accord of July 17, 1923, regarding the Service Technique d'Agriculture, as well as their foreign aids and employees, shall definitely cease on September 30, 1931, except as provided below in Articles III and IV.

In that which concerns the Service National d'Hygiene, it is understood that in conformity with the laws in force it will have, under the direction of the Secretary of State for the Interior, throughout the Republic, the administration, inspection, and supervision of all of the public services of hygiene, sanitation and quarantine of the hospitals, rural dispensaries, poor relief, insane asylums and sanitary garages, of the Medical School, the Health Center, the laboratories, etc.

Nevertheless, in the cities of Port-au-Prince and Cape Haitian, and their immediate environs (that is within a radius of two miles of the cities proper but including also Petionville) where, pending other arrangements and until the conclusion of a protocol for their evacuation, American troops are stationed, an American scientific mission shall be especially charged in accord with the laws and regulations now in force with the control of sanitation and chlorination of water.

The Service Nationale d'Hygiene will be entitled, if it so requests, to receive the advice and recommendations of the above mentioned scientific mission within the restricted field of sanitation.

The Government agrees to leave to the Mission the sanitary garages at Port-au-Prince and Cape Haitian and the motor equipment strictly necessary for its activities but the Service Nationale d'Hygiene may always requisition the material thus loaned by agreement with the Mission if the need therefor should arise.

## ARTICLE IV.

The Mission provided for in the preceding article will comprise three American medical officers nominated by the Government of the United States and appointed by the President of Haiti. Their status will be assimilated so far as the salary that they receive from the public treasury is concerned to that of Public Health Officers first class provided for by the law of August 8, 1926. The Mission may also include, in addition, as a maximum six hospital corpsmen of the United States Navy who will be paid in conformity with a budget approved by the Minister of Interior upon the basis of the law of December 5, 1924.

The Mission will have the right to suitable offices at Cape Haitian and Port-au-Prince.

The funds necessary for the payment of the Haitian personnel and for the functioning of the sanitary services in the cities of Cape Haitian and Port-au-Prince will be provided for in a budget which shall be approved in advance by the Minister of Interior.

## ARTICLE V.

The Accord of August 24, 1918, regarding the communication of projects of Haitian laws to the Legation of the United States of America at Port-au-Prince, is and remains abrogated from this date.

If, nevertheless, the Government of the United States should deem a given law to be seriously inconsistent with any rights arising from provisions of agreements still in force, it will present its views to the Haitian Government through diplomatic channels for all proper purposes.

## ARTICLE VI.

The Accord of December 3, 1918, relating to the visa of the Financial Adviser on orders of payment issued by the Secretary of State for Finance, on the Receiver-General of Customs, or on the National Bank of the Republic of Haiti, is and remains abrogated. The Minister of Finance shall reach an agreement with the Financial Adviser on the procedure governing the service of payments.

The abrogation of the visa implies an obligation on the part of the Government of Haiti until the liquidation of the services of the Financial Adviser-General Receiver to make its expenditures within the limits of laws and credits voted or decreed with the accord of the Financial Adviser. The Haitian Government will reach agreements with the Financial Adviser regarding the measures affecting sources of revenue pending the liquidation of the services of the Financial Adviser-General Receiver.

## ARTICLE VII.

The land title registry office (Bureau d'Enregistrement) shall be entirely detached from the Office of the Financial Adviser-General Receiver and will pass under the complete control of the Secretary of Finance upon the signature of this Accord.

## ARTICLE VIII.

In view of the difficulties which have arisen with regard to the Law of May 26, 1931, it is understood that the travelling or representation allowances of the Legislative Body as provided for in the above mentioned law, will be paid without delay, starting from April 6, 1931, and up to September 30, 1931, from the general funds of the Treasury. After September 30, 1931, these allowances will be paid in accordance with a balanced budget.

## ARTICLE IX.

Since the Government of the United States believes that the discharge of the civilian officials and employees in the Services mentioned above in Articles I and II of the present Accord, will be unduly precipitate and has requested an indemnity for them, the Secretary of State for Finance in accord with the Financial Adviser is authorized to indemnify them upon an equitable basis from the general funds of the Treasury.

Specialists in the Service Technique who, upon the express request of the Government of Haiti, shall desire to remain in their former positions and sign the necessary contracts for this purpose with the Secretary of State for Agriculture shall not have the right to any indemnity by virtue of the liquidation of the Treaty Services.

## ARTICLE X.

The two Governments agree to continue their discussions regarding the other problems arising from the Treaty.

## ARTICLE XI.

While awaiting the settlement of the question of the Garde, the two Governments agree to maintain the "status quo" established by existing laws and agreements and to respect said laws and agreements.

Signed at Port-au-Prince in duplicate in the English and French languages this fifth day of August 1931.

ACCORD

Les plénipotentiaires, soussignés, dûment autorisés par leurs Gouvernements respectifs, ont convenu de l'Arrangement suivant:

## ARTICLE I.

Les services des ingénieurs prévus à l'article XIII du Traité du 16 septembre 1915 pour l'Hygiène et le développement matériel de la République et par l'accord du 17 Juillet 1923 sur le Service Technique de l'Agriculture, ainsi que ceux de leurs aides et employés étrangers, prendront définitivement fin le 30 septembre 1931, sauf ce qui est dit aux articles 3 & 4 ci-dessous.

## ARTICLE II

En conséquence, et à la date du 1er. octobre 1931, le Gouvernement d'Haïti assumera de plein droit et définitivement l'administration et le contrôle de la Direction Générale des Travaux Publics, du Service d'Hygiène et du Service Technique de l'Agriculture, et le Président de la République délivrera, conformément à la Constitution et aux lois, des commissions aux Ingénieurs, Médecins et fonctionnaires Haïtiens reconnus utiles à la marche des susdits services.

## ARTICLE III.

En ce qui a trait au Service National d'Hygiène, il est bien convenu que, conformément aux lois en vigueur, il aura, sous la direction du Secrétaire d'Etat de l'Intérieur—et dans toute l'étendue de la République—l'administration, la surveillance et le contrôle de tous les services publics d'Hygiène, de Santé, de Quarantaine, des Hôpitaux, des dispensaires ruraux, d'Assistance publique, d'aliénés et de garages sanitaires, d'Ecole de Médecine, Centre de Santé, de laboratoires, etc.

Toutefois, pour les villes du Cap et de Port-au-Prince et leurs environs immédiats, (soit dans un périmètre de deux milles des dites villes à proprement parler, y compris exceptionnellement Pétionville)—où séjournent jusqu'à nouvel ordre—en attendant la conclusion d'un protocole de désoccupation—les troupes des Etats-Unis d'Amérique, une mission scientifique américaine sera spécialement chargée, conformément aux lois et règlements en vigueur, dans les villes du Cap et de Port-au-Prince, du service d'assainissement et de la chloruration des eaux.

Le Service National d'Hygiène aura droit, s'il le requiert, aux avis et recommandations de la susdite mission scientifique dans le domaine restreint de l'assainissement.

Le Gouvernement convient de lui laisser les garages sanitaires à Port-au-Prince et au Cap-Haïtien et le matériel roulant strictement nécessaire à ses activités, mais le Service National d'Hygiène pourra toujours, si besoin s'en fait sentir, réquisitionner le matériel ainsi prêté, d'accord avec la Mission.

Le Gouvernement d'Haïti convient qu'en cas d'épidémie ou de grave danger menaçant la santé publique, dans les deux susdites villes du Cap et de Port-au-Prince, la Mission coopérera avec le Service National d'Hygiène pour la lutte nécessaire, et à ces fins, elle pourra faire toutes recommandations utiles, bénéficier de toutes les facilités et de toutes les organisations du susdit service, et le Gouvernement d'Haïti, en pareille éventualité, prendra les mesures et les crédits nécessaires.

## ARTICLE IV.

La Mission prévue à l'article précédent comprendra trois officiers américains du Service Médical, proposés par le Gouvernement des Etats-Unis et nommés par le Président d'Haïti; ils seront assimilés, quant au traitement à leur payer par le Trésor public, aux officiers d'Hygiène publique de 1ère. classe prévus par la loi du 8 août 1926.

La Mission pourra comprendre, en outre, au maximum, six aides d'hôpital tirés de la Marine des Etats-Unis d'Amérique qui seront rétribués, conformément à un Budget approuvé par le Secrétaire d'Etat de l'Intérieur, sur la base de la loi du 5 décembre 1924.

La Mission aura droit à un Office convenable au Cap et à Port-au-Prince.

Les valeurs nécessaires au paiement du personnel Haitien et au fonctionnement des services d'assainissement dans les villes du Cap et de Port-au-Prince devront faire l'objet d'un Budget préalablement approuvé par le Secrétaire d'Etat de l'Intérieur.

#### ARTICLE V.

L'accord du 24 août 1918 relatif à la Communication des projets de lois haitiennes à la Légation des Etats-Unis d'Amérique à Port-au-Prince, est et demeure résilié à partir de cette date.

Au cas toutefois où le Gouvernement des Etats-Unis jugerait telle loi en sérieuse opposition avec des droits découlant de dispositions d'accords encore en vigueur, il fera parvenir ses observations au Gouvernement d'Haiti, à telles fins que de droit, par les voies diplomatiques.

#### ARTICLE VI.

L'accord du 3 décembre 1918 relatif au visa du Conseiller Financier sur les mandats de paiement émis par le Secrétaire d'Etat des Finances sur le Receveur Général des Douanes ou sur la Banque Nationale de la République d'Haiti est et demeure résilié.

Le Secrétaire d'Etat des Finances s'entendra avec le Conseiller Financier sur la procédure nécessaire au Service des paiements.

Le retrait du visa implique pour le Gouvernement d'Haiti, jusqu'à la liquidation des services du Conseiller Financier-Receveur Général des Douanes, l'obligation d'effectuer ses dépenses dans les limites des lois et des crédits votés ou pris avec l'avis du Conseiller Financier.

Jusqu'à la liquidation desdits services, le Secrétaire d'Etat des Finances s'entendra avec le Conseiller Financier quant aux mesures affectant les sources de revenus.

#### ARTICLE VII.

Le Bureau d'Enregistrement, entièrement détaché des services du Conseiller Financier, passera dès la signature des présentes sous la complète direction du Secrétaire d'Etat des Finances.

#### ARTICLE VIII.

Vu les difficultés qui ont surgi au sujet de la loi du 26 mai 1931, il est entendu que seront payés sans retard, à partir du 6 avril 1931 et jusqu'au 30 septembre 1931 et sur les disponibilités du trésor, les frais de déplacement ou de représentation du Corps Législatif, tels qu'ils résultent de la susdite loi. Au-delà du 30 septembre 1931, ces frais seront payés d'après un budget équilibré.

#### ARTICLE IX.

Le Gouvernement des Etats-Unis ayant estimé prématurée la cessation des services des officiels et employés civils des services mentionnés aux articles 1 & 2 du présent accord et ayant requis une indemnité en leur faveur, le Secrétaire d'Etat des Finances en accord avec le Conseiller Financier, est autorisé à les indemniser sur une base équitable et sur les disponibilités du Trésor.

## HAITIANIZATION AGREEMENT.

N'auront droit à aucune indemnité en raison de la liquidation des services du Traité, les spécialistes du Service Technique qui, sur la demande expresse du Gouvernement d'Haiti, voudraient conserver leurs anciennes fonctions et signer à cet égard les accords nécessaires avec le Secrétaire d'Etat d'Agriculture.

## ARTICLE X.

Les parties conviennent de poursuivre leurs pourparlers relativement aux autres problèmes découlant du Traité.

## ARTICLE XI.

En attendant le règlement de la question de la "Garde", les parties consentent à garder le statu-quo résultant des lois et accords actuellement en vigueur et à respecter lesdits lois et accords.

Fait de bonne foi en double exemplaire, en français et en anglais, à Port-au-Prince, le 5 Août 1931.

WASHINGTON, June 1, 1931.

SIR:

I have the honor to refer to previous correspondence with the Italian Embassy concerning an agreement between the United States and Italy for the reciprocal recognition of certificates of inspection of vessels assigned to the transportation of passengers. Particular reference is made to the Embassy's note of October 1, 1930, submitting additional data relating to the Italian laws and regulations, regarding the building and classification of vessels and the inspection of their structure and machinery. The laws and regulations of Italy have been found to approximate those of the United States on the subjects mentioned.

Reciprocal recognition of inspection certificates of passenger-carrying vessels. Agreement with Italy.

Accordingly, I have the honor to inform you that, in consideration of a like courtesy being extended to vessels of the United States in Italian ports, the appropriate agency of this Government will recognize in United States ports the unexpired certificates of inspection of passenger vessels of Italy issued and determined pursuant to the laws of Italy as fulfilling the requirements of the steamboat inspection laws and regulations of the United States, and that it will not be necessary in this regard for vessels of Italy to be reinspected at any port of the United States.

I shall be glad to be informed when appropriate steps under Italian laws and regulations have been taken to give effect to a reciprocal exemption in favor of vessels of the United States.

This Government considers that the existence of the arrangement between the two countries on this subject may appropriately be evidenced by this note and your reply thereto.

EXCELLENCY:

Arrangement with Japan for the reciprocal recognition of load-line certificates.

I have the honor to advert to the Embassy's note No. 194, dated August 24, 1922, proposing an arrangement between the Governments of the United States and Japan for the reciprocal recognition of ship load-line certificates pending the enactment of suitable legislation by the United States, and to the note No. 147, dated October 25, 1922, of Your Excellency's predecessor, Count Uchida, expressing the readiness of the Imperial Government to recognize certificates of this nature issued to American vessels. I now have the honor to inform Your Excellency that a law, entitled "An Act to Establish load-lines for American vessels, and for other purposes," was enacted by the Congress of the United States, and became effective September 2, 1930.

Your Excellency will recall that our respective Governments, together with other interested Governments, entered into an international load-line convention, which was signed at London on July 5, 1930. I am now instructed to inquire whether Your Excellency's Government would be willing to continue the arrangement in respect of ship load-line certificates made between our two Governments in 1922, pending the coming into force of the above-mentioned convention of July 5, 1930.

In transmitting herewith a copy of the "Regulations for the Establishment of Load-lines for Merchant Vessels of 250 Gross Tons or Over When Engaged in a Foreign voyage by Sea", I have the honor to request Your Excellency to be so kind as to supply me with a copy of the Japanese laws and regulations (with official English translations if they be available), pertaining to load-lines of merchant vessels.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

MONSIEUR LE CHARGÉ D'AFFAIRES:

I have the honor to acknowledge the receipt of the Embassy's note dated February 13, 1931, informing me, with reference to the arrangement made between our two Governments in 1922 in respect of ship load-line certificates, that a law entitled "An Act to Establish Load-lines for American vessels, and for other purposes" has been enacted, and became effective September 2, 1930, and inquiring whether or not the Japanese Government would be willing to continue the above-mentioned arrangement of 1922 pending the coming into force of the International Ship Load-line Convention, which was signed at London on July 5, 1930.

When the notes were exchanged between the Japanese and American Governments in 1922, no ship load-line law had been enacted in the United States, and the question of the recognition by the United States of load-line certificates of Japanese ships was not raised. Consequently, no definite arrangement was made regarding this matter, the Japanese Government merely undertaking unilaterally to recognize certificates issued by the American Bureau of Shipping, pending the enactment in the United States of a law regulating ship load-lines.

I wish to be assured, and request that you indicate in reply, that you have no objection to my interpreting your note, above-mentioned, to mean that pending the coming into force of the International Ship Load-line Convention, the Japanese Government will continue the arrangement of 1922 while the American Government will also recognize as valid load-line certificates duly issued by the competent Japanese authorities or by officially designated shipping associations, and their corresponding marks.

Pending the receipt of your reply, the Japanese Government will continue to regard the arrangement of 1922 as effective, and I trust that the American Government will also recognize as valid the ship load-line certificates issued by the competent Japanese authorities or by officially designated shipping associations, and their corresponding marks.

In compliance with your request, I have the honor to transmit herewith a copy of the laws and ordinances, together with a copy in translation, relating to ship load-lines.

I avail myself of this opportunity to renew to you, Monsieur le Chargé d'Affaires, the assurances of my high consideration.

Estas ventajas comprenderán tanto los derechos de aduana y otros impuestos fiscales como las licencias de internación y medidas de restricción aduanera;

2.—La República de Chile concederá al comercio de los Estados Unidos el tratamiento que aplica a la nación más favorecida y le otorgará, a contar desde el 22 de Mayo último, las tarifas reducidas que se aplican a las mercaderías producidas en Francia, en virtud del *modus-vivendi* suscrito en esa fecha;

Arrangement with Irish Free State for the reciprocal recognition of load-line certificates.

Under instructions from my Government to whom the matter was at once referred, I beg to inform Your Excellency that the competent American authorities have examined the load line regulations in force in the Irish Free State and that the said American authorities found these regulations to be as effective as the United States load line regulations.

My Government accordingly is prepared to agree that, pending the coming into force in the United States and in the Irish Free State of the International Load Line Convention signed in London on July 5, 1930, the competent authorities of the Governments of the United States and the Irish Free State, respectively, will recognize as equivalent the load line marks and the certificate of such marking of merchant vessels of the other country made pursuant to the regulations in force in the respective countries; provided, that the load line marks are in accordance with the load line certificates; that the hull and superstructures of the vessel certificated have not been so materially altered since the issuance of the certificate as to effect the calculations on which the load line was based, and that alterations have not been made so that the—

*Arrangement between the United States of America and Denmark for the reciprocal recognition of load-line certificates. Effected by exchange of notes, signed January 16, 1932.*

*The Danish Minister (Wadsted) to the Secretary of State (Stimson)*

No. 4.

ROYAL DANISH LEGATION  
*Washington, D. C., January 16, 1932.*

SIR,

By a note of November 4, 1930, my predecessor had the honor to address himself to you with an inquiry as to whether the United States Government would be ready to enter into a reciprocal load line agreement with the Danish Government which should remain effective pending the coming into force in the two countries of the International Load Line Convention concluded at London on July 5, 1930, and whereby the Governments of Denmark and the United States would each recognize as equivalent the load line laws and regulations of the other and, therefore, their respective freeboard certificates of the marking of merchant vessels.

In reply you have by a note of August 25, 1931, informed this Legation that the Government of the United States is ready to conclude such a reciprocal agreement. You have further added that the Government of the United States understands that the load line marks made under authority of the two Governments will be in accordance with load line certificates; that the hull and superstructures of the vessel certificated will not have been so materially altered since the issuance of the certificates as to affect the calculations on which the load line was based, and that alterations will not have been made so that the

- (1) Protection of openings,
- (2) Guard Rails,
- (3) Freeing Ports,
- (4) Means of Access to Crews Quarters,

have made the vessel manifestly unfit to proceed to sea without danger to human life.

Having submitted this reply to my Government, I am now instructed to convey to you the following information: The Danish Government is ready to give full recognition, for the time until the International Load Line Convention mentioned above shall come into force in both countries, to the load line rules and regulations of the Government of the United States and to the certificates and load line marks made on American merchant vessels pursuant thereto. In giving such recognition the Danish Government concurs, subject to reciprocity, in the foregoing understandings. I am, however, instructed to draw your attention to the fact that since the beginning of the negotiations regarding this temporary agreement the Danish rules concerning freeboard have undergone the following modification:

A provisional notification dealing with the application to Danish Ships of the International Load Line Convention of July 5, 1930,

Arrangement with Denmark for the reciprocal recognition of load-line certificates.

has been issued by the Danish Ministry of Shipping and Fisheries on July 8, 1931. Pursuant to this Notification of which this Legation had the honor to forward to you a copy by a note of August 13, 1931, Danish ships in international trade have already been permitted to obtain freeboard and load line certificates in accordance with the above quoted International Load Line Convention, which has been ratified by Denmark on July 30, 1931. The Danish Government assumes that also such certificates issued in accordance with the said Convention will be recognized in the United States pending the coming into force in both countries of the Convention.

I have the honor to request that you will be good enough to confirm the full recognition of the Government of the United States for the period mentioned above of the Danish load line laws and regulations and the Danish freeboard certificates of the marking of merchant vessels, including the certificates issued pursuant to the foregoing Provisional Notification of July 8, 1931, and of load line marks made on Danish vessels pursuant thereto.

It is understood that upon the receipt of a note to that effect the proposed agreement will become effective as from the date of such note.

I have the honor to be, Sir, with the highest consideration

DEPARTMENT OF STATE,  
*Washington, January 16, 1932.*

SIR:

I have the honor to acknowledge the receipt of your note of this date in which reference is made to your predecessor's note of November 4, 1930, proposing an arrangement between the Governments of the United States and Denmark for the reciprocal recognition of load line certificates for merchant vessels which arrangement would remain effective pending the coming into force in the two countries of the International Load Line Convention of July 5, 1930.

You made the proposal that if the Government of the United States agreed to the terms as outlined in your note of this date, that note and the reply which might be made thereto would serve as the agreement between our two countries.

Inasmuch as the Danish rules and tables for determining freeboards have been examined by the competent executive authorities of this Government and have been found to be as effective as the United States load line regulations; and inasmuch as the Government of the United States agrees to recognize the certificates issued by the Government of Denmark pursuant to the Provisional Notification of July 8, 1931, which gives ship owners the privilege of having

Agreement by United States.

freeboard and load lines assigned in accordance with the provisions contained in the International Load Line Convention of July 5, 1930, I have the honor to inform you that the Government of the United States hereby concurs in the terms of the arrangement as set out in your note under acknowledgment.

The Government of the United States accordingly understands that the agreement has been completed by this exchange of notes and is effective from this date.

Accept, Sir, the renewed assurances of my highest consideration.

In pursuance of the 3rd Part of the Merchant Shipping (Inspection of Ships) Act of March 29th 1920 with subsequent amendments the following provisions are hereby laid down:—

#### SECTION 1.

In accordance with application to be made in each particular case by the shipowner concerned to the Ministry of Shipping and Fisheries, every Danish ship to which the provisions of the International Load Line Convention of 5th July, 1930, apply, will, after a survey having been held by the Government Ships Inspection Staff, be given freeboard and assigned load lines under the provisions of, and on the conditions contained in, the said Convention of 5th July, 1930.

Every ship to which freeboard is assigned and which is marked with load lines in accordance with the Convention of 5th July, 1930, shall henceforth be subject to the provisions of the said Convention, more particularly those dealing with zones and seasonal areas and the stowing of the cargo. No. 5.

ROYAL DANISH LEGATION,  
Washington, January 16, 1932.

SIR,

In a note of November 24, 1930, to the Danish Minister for Foreign Affairs the American Chargé d'Affaires in Copenhagen has inquired whether the Icelandic Government would be willing to enter into negotiations for a reciprocal agreement regarding load lines of vessels.

Arrangement with Iceland for reciprocal recognition of load-line certificates.

In reply the Minister for Foreign Affairs has informed the American Minister by a note of March 12, 1931, that the Government of Iceland would view with pleasure the conclusion of an agreement such as proposed by the Government of the United States. It was further stated in the latter note that there do not exist any special Icelandic laws and regulations concerning load lines of vessels, such lines being fixed for Icelandic vessels in conformity with the Danish provisions in force regarding load lines.

With reference to the above, I had the honor by my note of April 20, 1931, to inquire whether the Government of the United States would be ready for the intervening time until the International Convention regarding Load Lines concluded at London on July 5, 1930, shall come into force in both Iceland and the United States, to enter into an agreement to the effect of reciprocally recognizing the Danish load line laws and rules as applied to Icelandic vessels and the load line laws and rules of the United States to be equivalent and therefore until then also reciprocally to recognize the freeboard certificates of Iceland and the United States.

In reply you have informed this Legation by your note of August 25, 1931, that the United States' Government is ready to enter into a reciprocal agreement as proposed. You have further added that the United States' Government understands that the load line marks on the vessels of the United States and Iceland will be in accordance with the load line certificates; that the hull and superstructures of the vessel certificated will not have been so materially altered since the issuance of the certificates as to affect the calculations on which the load line was based, and that alterations will not have been made so that the

- (1) Protection of openings,
- (2) Guard Rails,
- (3) Freeing Ports,
- (4) Means of Access to Crews Quarters,

have made the vessel manifestly unfit to proceed to sea without danger to human life.

## LOAD-LINE CERTIFICATES—ICELAND.

After having communicated this reply to the Danish Minister for Foreign Affairs, I now have the honor, according to instructions received, on behalf of the Government of Iceland to convey to you the following information:

The Icelandic Government is ready to give full recognition, for the time until the International Load Line Convention mentioned above shall come into force in both countries, to the load line rules and regulations of the Government of the United States and to the certificates and load line marks made on American merchant vessels pursuant thereto. In giving such recognition the Icelandic Government concurs, subject to reciprocity, in the foregoing understandings.

I have the honor to request that you will be good enough to confirm the full recognition of the Government of the United States for the period mentioned above of the Danish load line laws and rules as applied to Icelandic vessels and of the Icelandic freeboard certificates, and load line marks made on Icelandic vessels pursuant thereto.

It is understood that upon receipt of a note to that effect the proposed agreement will become effective as from the date of such note.

SIR:

I have the honor to reply to your note of this date in which the provisions of the proposed agreement between the Governments of the United States and Iceland for the mutual recognition of load line certificates for merchant ships are set forth.

Inasmuch as Iceland has no laws or regulations governing load lines of vessels, such lines being fixed in conformity with the Danish provisions in force, and as the Danish rules and tables for determining freeboard have been examined by the competent executive authorities of this Government and have been found to be as effective as the United States load line regulations, I have the honor to inform you that the Government of the United States hereby concurs in the terms of the agreement as set out in your note under acknowledgment. In this connection it is understood that the note under acknowledgment and this reply will constitute the agreement between the United States and Iceland.

The Government of the United States accordingly understands that the agreement has been completed by this exchange of notes and is effective from this date.

I have the honor to refer to previous correspondence and in particular to Note Verbale 5 845/31, of March 4, 1931, from the Ministry of Foreign Affairs wherein the statement was made that the Government of Germany was prepared to accept the American "Regulations for the Establishment of Load Lines for Merchant Vessels of 250 Gross Tons or over when engaged in a Foreign Voyage by Sea" as equally effective with the German regulations similar thereto and to conclude a reciprocal agreement as well as a temporary reciprocal agreement governing the acceptance by each Government of the regulations of the other.

*Agreement between the United States of America and Egypt for arbitration of the claim of George J. Salem. Signed January 20, 1931.*

Claim agreement  
with Egypt.  
Preamble.

Whereas the Government of the United States of America has presented to the Royal Government of Egypt a claim on behalf of George J. Salem for damages resulting from acts of the Egyptian authorities;

Whereas the Royal Government of Egypt has denied its liability in the premises; and

Whereas the two Governments are equally committed to the policy of submitting to adjudication by a competent tribunal all justiciable controversies that arise between them which do not lend themselves to settlement by diplomatic negotiations,

Plenipotentiaries.

Therefore the undersigned William M. Jardine, Envoy Extraordinary and Minister Plenipotentiary of the United States and His Excellency Abdel Fattah Yehia Pasha, Minister for Foreign Affairs of the Royal Government of Egypt duly empowered therefore by their respective Governments, have agreed upon the stipulations contained in the following articles:

#### ARTICLE 1.

Claim of George J. Salem referred to Arbitral Tribunal.

The claim of the United States against the Royal Government of Egypt arising out of treatment accorded George J. Salem an American citizen by Egyptian authorities shall be referred to an Arbitral Tribunal in conformity with the conditions herein-after stated, the decision of the said Tribunal to be accepted by both Governments as a final, conclusive and unappealable disposition of the claim.

Acceptance of decision.

Attendu que le Gouvernement des Etats-Unis d'Amérique a présenté au Gouvernement Royal d'Égypte une réclamation au nom de Georges J. Salem pour dommage résultant d'actes des autorités égyptiennes;

Attendu que le Gouvernement Royal d'Égypte a décliné sa responsabilité à cet égard; et

Attendu que les deux Gouvernements ont l'un et l'autre adhéré au principe de soumettre à la décision d'un tribunal compétent tous les litiges d'ordre juridique qui pourraient s'élever entre eux et qui ne se prêteraient pas à un règlement par la voie de négociation diplomatique.

En conséquence les soussignés, Son Excellence M. William M. Jardine, Envoyé Extraordinaire et Ministre Plénipotentiaire des Etats-Unis, et Son Excellence Abdel Fattah Yehia Pacha, Ministre des Affaires Etrangères du Royaume d'Égypte munis de pouvoirs réguliers à cet effet par leurs Gouvernements respectifs, sont convenus des stipulations contenues dans les articles suivants:

#### ARTICLE 1er.

La réclamation des Etats-Unis contre le Gouvernement Royal d'Égypte en raison du traitement fait à Georges J. Salem citoyen américain par les autorités égyptiennes, sera déférée à un tribunal arbitral conformément aux conditions exprimées ci-après, la décision du dit tribunal devant être acceptée par l'un et l'autre gouvernement comme un règlement final, conclusif et sans appel de cette réclamation.

## ARTICLE 2.

The Tribunal shall be composed of three members one selected by the Government of the United States, one by the Government of Egypt and the third who shall preside over the Commission should be selected by mutual agreement between the two Governments. If the two Governments shall not agree within one month from the date of the signature of this agreement in naming such third member then he shall be designated by the President of the Permanent Administrative Council of the Permanent Court of Arbitration at The Hague.

## ARTICLE 2.

Le tribunal sera composé de trois membres choisis l'un par le Gouvernement Egyptien, l'autre par le Gouvernement des Etats-Unis et le troisième, qui présidera la commission, par accord mutuel entre les deux Gouvernements. Si dans le délai d'un mois à partir de la signature du présent acte, les deux Gouvernements ne parviennent pas à s'entendre sur la nomination du troisième membre, ce dernier sera désigné par le Président du Conseil administratif permanent de la Cour Permanente d'Arbitrage de La Haye.

Composition of Tribunal.

## ARTICLE 3.

The questions to be decided by the Tribunal are the following: first, is the Royal Government of Egypt under the principles of law and equity liable in damages to the Government of the United States of America on account of treatment accorded to the American citizen George J. Salem? Second, in case the Arbitral Tribunal finds that such liability exists what sum should the Royal Government of Egypt in justice pay to the Government of the United States in full settlement of such damages?

## ARTICLE 3.

Les questions à décider par le tribunal sont les suivantes: premièrement, le Gouvernement Royal d'Egypte est-il tenu, en vertu des principes de droit et d'équité, à des dommages-intérêts envers le Gouvernement des Etats Unis d'Amérique en raison du traitement fait au citoyen américain Georges J. Salem? deuxièmement, au cas où le tribunal arbitral jugerait qu'une telle responsabilité existe, quelle est la somme que le Gouvernement Royal d'Egypte devrait, en toute justice, payer au Gouvernement des Etats-Unis en règlement total des dits dommages?

Questions to be decided.

## ARTICLE 4.

The procedure to be followed by the two Governments and by the Tribunal shall be as follows: Within ninety days from the date of the signing hereof the Government of the United States and the Government of Egypt shall respectively file with the Tribunal and with the Foreign Office of the other Government a statement of its case with supporting evidence.

## Replies thereto.

Within sixty days from the expiration of this latter period each Government shall file in the same manner a reply to the counter-case of the other Government or notice that no such reply will be filed. *Arrangement between the United States of America and the Dominion of Canada concerning radio broadcasting. Effected by exchange of notes, signed May 5, 1932.*

*The Minister of the Dominion of Canada (Herridge) to the Acting Secretary of State (Castle)*

No. 81.

CANADIAN LEGATION,  
Washington, May 5th, 1932.

SIR:

Arrangement with  
Canada concerning  
radio broadcasting.

I have the honour to inform you that the Canadian House of Commons recently appointed a committee to enquire into the whole position of radio broadcasting in Canada. This committee has under consideration a technical scheme for broadcasting in Canada which it is considered will provide satisfactory coverage in the chief population areas throughout the Dominion and at the same time make provision for the community service that may be desired. This scheme is divided into two distinct parts:

- (a) A chain of high-power stations, operating on clear channels, and located at suitable intervals across Canada;
- (b) A number of low-power stations of very limited range, operating on shared channels, and located as required for community service.

If this scheme receives the approval of Parliament, it is proposed to use 50 K.W. stations, one in each of the Provinces of British Columbia, Manitoba, Ontario, Quebec, and eventually one in the Maritime Provinces. In Saskatchewan and Alberta it is proposed to use 5 K.W. stations at present, two being used in each Province, synchronized on a common channel. In Ontario there will be, in addition, two 10 K.W. stations, one in Western Ontario and one in Northern Ontario. Four smaller stations of one K.W. capacity each are provided for the Port Arthur-Fort William area, and for Ottawa, Montreal, and Quebec. In the Maritimes, three 500-watt stations are provided for the present, one in each Province. The scheme also includes a 500-watt station on the shared channels for the city of Toronto for local service.

In adopting this plan, Canada would reserve the right to increase the power of the stations in Alberta, Saskatchewan, Northern and Western Ontario to 50 K.W. each, should such increase become necessary.

The committee, in addition to considering the power required, propose the following channels as suitable for the main stations:

Prince Edward Island	630 K.C.
New Brunswick	1, 030 K.C.
Nova Scotia	1, 050 K.C.
Quebec	930 K.C.
Montreal area (1 K.W.)	600 K.C.
“ “ (50 K.W.)	730 K.C.
Ottawa	880 K.C.

Toronto area (500 Watt)	1, 120 K.C.
“ “ (50 K.W.)	690 K.C.
Western Ontario	840 K.C.
Northern Ontario	960 K.C.
Port Arthur-Fort William area	780 K.C.
Manitoba	910 K.C.
Saskatchewan	540 K.C.
Alberta	1, 030 K.C.
British Columbia	1, 100 K.C.

In order to ensure satisfactory local broadcast service throughout Canada, it is proposed that stations, limited to a maximum power of 100 watts, be erected where necessary, and that they should be operated on shared channels. It is considered that one hundred or more such stations may eventually be required in Canada, and that twenty channels should be available for this type of service. In establishing such stations, it is proposed to maintain the same geographical separation between Canadian and United States stations as is maintained between United States stations of the same power.

Due notification would, of course, be given of the effective dates of any changes in the present operation to conform with the above plan.

In the event of the adoption of the above arrangement, it is understood that if, as the result of the Madrid Conference, any additional channels are made available for broadcasting, a further allocation will be made, as between the United States and Canada, on an equitable basis.

I shall be obliged if you will inform me at your early convenience whether the United States authorities can make the necessary readjustments so that these channels will be available for effective use in Canada.

I have the honour to be, with the highest consideration, Sir,  
Your most obedient, humble servant,

DEPARTMENT OF STATE,  
*Washington, May 5, 1932.*

SIR:

I am grateful for your courtesy in informing me by your note of May 5, 1932, of the technical plan which is being considered by the committee of the Canadian House of Commons as a means of providing Canada with satisfactory radio broadcasting coverage. You inquire whether the authorities of the United States can make the readjustment necessary to render certain channels available for effective use in Canada.

In reply, I am glad to inform you that as notice is given from time to time of the dates of changes to be made in the present operations of Canadian broadcasting stations to conform to the plan set out, this Government will be glad to make the necessary readjustments.

Response by United States.

It is understood that, if as the result of the Madrid Conference, any additional channels are made available for broadcasting, a further allocation will be made, as between the United States and Canada, on an equitable basis.

Accept, Sir, the renewed assurances of my highest consideration.

EXCELLENCY:

Referring to Minister Gyllenswärd's note of June 29, 1931, expressing the willingness of the Government of the King to conclude a reciprocal load line agreement with my Government, I have the honor, acting under instructions from my Government, to inform Your Excellency that the competent executive authorities of my Government have examined the Swedish load line regulations and have found them to be effective as the United States load line regulations.

Arrangement with Sweden for the reciprocal recognition of load-line certificates.

I am also instructed to state to Your Excellency that my Government is prepared to agree that, pending the coming into force of the international load line convention in the United States and Sweden, the competent authorities of the Governments of the United States and Sweden, respectively, will recognize as equivalent the load line marks and the certificate of such marking of merchant vessels of the other country made pursuant to the regulations in force in the respective countries: provided, that the load line marks are in accordance with the load line certificates; that the hull and superstructures of the vessel certificated have not been so materially altered since the issuance of the certificate as to affect the calculations on which the load line was based, and that alterations have not been made so that the

- (1) Protection of openings,
- (2) Guard rails,
- (3) Freeing ports,
- (4) Means of access to crews quarters,

have made the vessel manifestly unfit to proceed to sea without danger to human life.

I am also desired to state that my Government is prepared to agree that the competent authorities of the Governments of the United States and Sweden, respectively, will recognize load lines applicable to tankers and to vessels of special type which have been determined in accordance with tanker and vessels of special type rules as set forth in the international load line convention of 1930. In this connection my Government is desirous that the Government of Sweden agree that the load line certificates of Swedish tankers and Swedish vessels of special type contain information, when applicable, to the effect that the load line marks are located in accordance with the terms and conditions of the international load line convention of July 5, 1930.

I am further desired to state that it will be understood by my Government that on the receipt by the Legation of a note from Your Excellency expressing the concurrence of the Government of Sweden in the agreement and understanding as above set forth, the reciprocal agreement will be regarded as having become effective.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

MONSIEUR LE CHARGÉ D'AFFAIRES,

Concurrence by

Par lettre du 27 janvier dernier, M. Morehead a bien voulu me faire savoir que—en attendant la mise en vigueur entre la Suède et les Etats Unis d'Amérique de la Convention internationale du 5 juillet 1930 sur les lignes de charge—le Gouvernement des Etats Unis d'Amérique est disposé à convenir avec le Gouvernement du Roi que les autorités compétentes suédoises et américaines reconnaîtront réciproquement les marques de franc-bord des navires de commerce de l'autre pays, déterminées conformément aux dispositions en vigueur dans les pays respectifs, ainsi que les certificats des marques délivrés conformément aux mêmes dispositions, à condition toutefois que les marques correspondent aux indications portées sur les certificats de franc-bord, que la coque et les superstructures certifiées n'aient pas subi, après la délivrance du certificat, de modifications de quelque importance affectant le calcul sur lequel le franc-bord a été basé et qu'il n'ait pas été fait de modifications telles que

- 1) la protection des ouvertures,
- 2) les garde-corps,
- 3) les sabords de décharge, et
- 4) les moyens d'accès aux logements de l'équipage

rendent manifestement le navire hors d'état de prendre la mer sans danger pour la vie humaine. M. Morehead m'a fait connaître en même temps, que son Gouvernement est également prêt à convenir avec le Gouvernement Royal que les autorités compétentes suédoises et américaines reconnaîtront réciproquement les marques de franc-bord pour les navires à citernes et les navires de types spéciaux déterminées en conformité des dispositions énoncées par la Convention susmentionnée pour les navires desdites espèces; il m'a informé, en outre, du désir de son Gouvernement de voir les certificats de franc-bord délivrés dans ces cas par les autorités suédoises porter l'indication que les marques de franc-bord sont déterminées en conformité desdites règles.

En réponse à cette obligeante communication, j'ai l'honneur de Vous faire savoir que la Gouvernement du Roi approuve l'arrangement ci-dessus indiqué et qu'il est prêt à satisfaire au désir exprimé par Votre Gouvernement concernant l'indication à porter aux certificats de franc-bord délivrés pour les navires à citerne et les navires de types spéciaux marqués conformément aux dispositions de la Convention internationale du 5 juillet 1930 sur les lignes de charge.

Il est entendu que le présent échange de la note précitée de M. Morehead et de la présente note sera considéré comme constatant l'entente intervenue entre nos deux pays à ce sujet.

Veillez agréer, Monsieur le Chargé d'Affaires, les assurances de ma considération la plus distinguée.

MR. CHARGÉ D'AFFAIRES:

By letter of January 27 last Mr. Morehead informed me that—pending the coming into force between Sweden and the United States of America of the international load line convention of July 5, 1930—the United States Government is prepared to agree with the Government of the King that the competent Swedish and American authorities reciprocally recognize the load line marks of merchant vessels of the other country, determined in conformance with the regulations in force in the respective countries, as well as the load line certificates delivered in conformance with the same regulations, on condition, however, that the marks should correspond to the indications set forth in the load line certificates, that the hull and the superstructures certified shall not have undergone after the delivery of the certificate modifications of sufficient importance to affect the calculation upon which the load line was based and that alterations have not been made so that the

- 1) protection of openings,
- 2) guard rails,
- 3) freeing ports, and
- 4) means of access to crews quarters

have rendered the vessels manifestly unfit to proceed to sea without danger to human life. Mr. Morehead informed me at the same time that his Government is likewise prepared to agree with the Royal Government that the competent Swedish and American authorities reciprocally recognize load line marks for tankers and ships of special types determined in conformance with the regulations set forth by the above-mentioned convention for ships of special types; he informed me furthermore of the desire of his Government to see the load line certificates delivered in such case by the Swedish authorities bear the indication that the load line marks are determined in conformance with the rules under reference.

In reply to this courteous communication I have the honor to inform you that the Government of the King approves the arrangement set forth above and that it is ready to conform with the desire expressed by your Government concerning the indication to be

carried in the load line certificates delivered for tankers and ships of special types marked in conformance with the regulations of the international load line convention of July 5, 1930.

It is understood that the present exchange of Mr. Morehead's note under reference and of the present note shall be considered as an agreement reached between our two countries on this subject.

SIR,

Submission of agree-  
ment to China.

With reference to the Agreement which we have signed to-day concerning the establishment of a District Court and a Branch High Court in the International Settlement at Shanghai, we have the honour to request your confirmation of our understanding on the following points:

1. It is understood that the Courts established under the present Agreement shall exercise jurisdiction over civil and criminal cases as well as police offences and inquests in the International Settlement at Shanghai, provided that the jurisdiction of the said courts over persons shall be the same as that of other Chinese Courts and provided that their territorial jurisdiction shall be the same as that of the Chinese court now functioning in the International Settlement at Shanghai, except (a) mixed criminal cases arising on private foreign property outside the limits of the Settlement and (b) mixed civil cases arising in areas surrounding the Settlement.

2. 3. It is understood that as far as practicable Chinese shall be recommended by the Municipal Council to serve as officers and members of the judicial police of the Courts established under the present Agreement. It is further understood that among the officers of the judicial police appointed by the President of the Branch High Court under Article VI of the present Agreement, there will be one to be designated by the Municipal Council, to whom will be allotted by the President an office on the Court premises and who will make an

entry of all judicial processes of the Courts, such as summonses, warrants, orders and judgments, for the purpose of service or execution in accordance with the provisions of the above-mentioned Article.

4. It is understood that the establishment of the Courts provided for in the present Agreement in no way affects the validity of judgments rendered by the Chinese court now functioning in the International Settlement and its predecessor, and that such judgments shall be considered as final and valid except where an appeal has been lawfully taken or reserved. It is further understood that the judgments of the Courts established under the present Agreement shall be on the same footing as regards validity as the judgments of all other Chinese Courts.

5. It is understood that the present Agreement does not in any way affect or prejudice any future negotiations regarding the status of extra-Settlement roads.

6. It is understood that the sum of sixty thousand dollars (\$60,000) now on deposit with the Bank of China to the credit of the present Chinese court in the International Settlement shall be maintained by the Chinese Government to the credit of the new Courts established under the present Agreement.

7. It is agreed that in accordance with Chinese law, there shall be maintained by the Courts established under the present Agreement, a storage room for articles confiscated by the Courts, which remain the property of the Chinese Government, it being understood that confiscated opium and instruments for the smoking and preparation thereof shall be burned publicly in the International Settlement every three months and that the Municipal Council may present to the Presidents of the Courts for transmission to the Ministry of Justice such suggestions as it may desire to make regarding the disposal of confiscated arms.

8. It is understood that upon the coming into force of the present Agreement, all cases pending in the Chinese court now functioning in the International Settlement shall be dealt with in the Courts established under the present Agreement in accordance with the procedure in force in the latter Courts, provided that the proceedings in mixed cases shall, as far as practicable, be continued from the point where they are taken over and concluded within a period of twelve months which period may be extended at the discretion of the Courts when the circumstances in any case so warrant.

We avail ourselves of this opportunity to renew to Your Excellency the assurance of our highest consideration.

SIR,

Confirmation by  
China.

I have the honour to acknowledge the receipt of your Note referring to the Agreement which we have signed to-day concerning the establishment of a District Court and a Branch High Court in the International Settlement at Shanghai, in which you request my confirmation of the following points:

"1. It is understood that the Courts established under the present Agreement shall exercise jurisdiction over civil and criminal cases as well as police offences and inquests in the International Settlement at Shanghai, provided that the jurisdiction of the said Courts over persons shall be the same as that of other Chinese Courts and provided that their territorial jurisdiction shall be the same as that of the Chinese court now functioning in the International Settlement at Shanghai, except (a) mixed criminal cases arising on private foreign property outside the limits of the Settlement and (b) mixed civil cases arising in areas surrounding the Settlement.

"2. It is understood that the present practice regarding the respective jurisdictions of the Chinese court now functioning in the International Settlement and the Court existing in the French Concession shall be followed, pending a definite arrangement between the Chinese Government and the authorities concerned.

"3. It is understood that as far as practicable Chinese shall be recommended by the Municipal Council to serve as officers and members of the judicial police of the Courts established under the present Agreement. It is further understood that among the officers of the judicial police appointed by the President of the Branch High Court under Article VI of the present Agreement, there will be one to be designated by the Municipal Council, to whom will be allotted by the President an office on the Court premises and who will make an entry of all judicial processes of the Courts, such as summonses, warrants, orders and judgments, for the purpose of service or execution in accordance with the provisions of the above-mentioned Article.

"4. It is understood that the establishment of the Courts provided for in the present Agreement in no way affects the validity of judgments rendered by the Chinese court now functioning in the International Settlement and its predecessor, and that such judgments shall be considered as final and valid except where an appeal has been lawfully taken or reserved. It is further understood that the judgments of the Courts established under the present Agreement shall be on the same footings as regards validity as the judgments of all other Chinese Courts.

"5. It is understood that the present Agreement does not in any way affect or prejudice any future negotiations regarding the status of extra-Settlement roads.

"6. It is understood that the sum of sixty thousand dollars (\$60,000) now on deposit with the Bank of China to the credit of the present Chinese court in the International Settlement shall be maintained by the Chinese Government to the credit of the new Courts established under the present Agreement.

"7. It is agreed that in accordance with Chinese law, there shall be maintained by the Courts established under the present Agreement, a storage room for articles confiscated by the Courts, which remain the property of the Chinese Government, it being understood that confiscated opium and instruments for the smoking and preparation thereof shall be burned publicly in the International Settlement every three months and that the Municipal Council may present to the Presidents of the Courts for transmission to the Ministry of Justice such suggestions as it may desire to make regarding the disposal of confiscated arms.

"8. It is understood that upon the coming into force of the present Agreement, all cases pending in the Chinese court now functioning in the International Settlement shall be dealt with in the Courts established under the present Agreement in accordance with the procedure in force in the latter Courts, provided that the proceedings in mixed cases shall, as far as practicable, be continued from the point where they are taken over and concluded within a period of twelve months which period may be extended at the discretion of the Courts when the circumstances in any case so warrant."

In reply I have the honour to confirm the understanding of the points as quoted above.

I avail myself of this opportunity to renew to Your Excellency the assurance of my highest consideration.

*Berlin, May 27, 1932.*

EXCELLENCY:

I have the honor to communicate to Your Excellency the text of the arrangement between the United States of America and Germany, on the subject of air navigation, as understood by me to have been agreed to in the negotiations which have just been concluded between the Embassy and your Ministry, as follows:

Arrangement with Germany governing air navigation.

AIR NAVIGATION ARRANGEMENT BETWEEN GERMANY AND THE UNITED STATES OF AMERICA.

ARTICLE 1

Pending the conclusion of a convention between Germany and the United States of America on the subject of air navigation, the operation of civil aircraft of the one country in the other country shall be governed by the following provisions.

Tentative provisions.

ARTICLE 2

The present arrangement shall apply to Germany and to Continental United States of America, exclusive of Alaska, including the adjacent territorial waters of the two countries.

Area affected.

ARTICLE 3

The term aircraft with reference to one or the other Party to this arrangement shall be understood to mean civil aircraft, including state aircraft used exclusively for commercial purposes, duly registered in the territory of such Party.

Aircraft construed.

ARTICLE 4

Each of the Parties undertakes to grant liberty of passage above its territory in time of peace to the aircraft of the other Party, provided that the conditions set forth in the present arrangement are observed.

Freedom of passage.

It is, however, agreed that the establishment and operation of regular air routes by an air transport company of one of the Parties within the territory of the other Party or across the said territory, with or without intermediary landing, shall be subject to the prior consent of the other Party given on the principle of reciprocity and at the request of the Party whose nationality the air transport company possesses.

Regular air routes by transport company. Consent required.

ARTICLE 5

The aircraft of each of the Parties to this arrangement, their crews and passengers, shall, while within the territory of the other Party,

Each of the Parties to this arrangement shall permit the import or export of all merchandise which may be legally imported or exported and also the carriage of passengers, subject to any customs, immigration and quarantine restrictions, into or from their respective territories in the aircraft of the other Party, and such aircraft, their passengers and cargoes, shall enjoy the same privileges as and shall not be subjected to any other or higher duties or charges than those which the aircraft of the country, imposing such duties or charges, engaged in international commerce, and their cargoes and passengers, or the aircraft of any foreign country likewise engaged, and their cargoes and passengers, enjoy or are subjected to.

Each of the Parties to this arrangement may reserve to its own aircraft air commerce between any two points neither of which is in a foreign country. Nevertheless the aircraft of either Party may proceed from any aerodrome in the territory of the other Party which they are entitled to use to any other such aerodrome either for the purpose of landing the whole or part of their cargoes or passengers or of taking on board the whole or part of their cargoes or passengers, provided that such cargoes are covered by through bills of lading, and such passengers hold through tickets, issued respectively for a journey whose starting place and destination both are not points between which air commerce has been duly so reserved, and such aircraft, while proceeding as aforesaid, from one aerodrome to another, shall, notwithstanding that such aerodromes are points between which air commerce has been duly reserved, enjoy all the privileges of this arrangement.

#### ARTICLE 6

Restricted areas.

Each of the Parties to this arrangement shall have the right to prohibit air traffic over certain areas of its territory, provided that no distinction in this matter is made between its aircraft engaged in international commerce and the aircraft of the other Party likewise engaged. The areas above which air traffic is thus prohibited by either Party must be notified to the other Party.

Each of the Parties reserves the right under exceptional circumstances in time of peace and with immediate effect temporarily to limit or prohibit air traffic above its territory on condition that in this respect no distinction is made between the aircraft of the other Party and the aircraft of any foreign country.

#### ARTICLE 7

Procedure of aircraft on entering restricted area accidentally.

Any aircraft which finds itself over a prohibited area shall, as soon as it is aware of the fact, give the signal of distress prescribed in the Rules of the Air in force in the territory flown over and shall land as soon as possible at an aerodrome situated in such territory outside of but as near as possible to such prohibited areas.

#### ARTICLE 8

Aircraft's papers.

The other members of the crew shall carry documents showing their duties in the aircraft, their profession, identity and nationality.

Crew requirements.

The certificate of airworthiness, certificates of competency and licenses issued or rendered valid by one of the Parties to this arrangement in respect of an aircraft registered in its territory or of the crew of such aircraft shall have the same validity in the territory of the other Party as the corresponding documents issued or rendered valid by the latter.

Validity of certificates.

Each of the Parties reserves the right for the purpose of flight within its own territory to refuse to recognize certificates of competency and licenses issued to nationals of that Party by the other Party.

Rights reserved.

## ARTICLE 9

Aircraft of either of the Parties to this arrangement may carry wireless apparatus in the territory of the other Party only if a license to install and work such apparatus shall have been issued by the competent authorities of the Party in whose territory the aircraft is registered. The use of such apparatus shall be in accordance with the regulations on the subject issued by the competent authorities of the territory within whose air space the aircraft is navigating.

Radio regulations.

Such apparatus shall be used only by such members of the crew as are provided with a special license for the purpose issued by the Government of the territory in which the aircraft is registered.

The Parties to this arrangement reserve respectively the right, for reasons of safety, to issue regulations relative to the obligatory equipment of aircraft with wireless apparatus.

## ARTICLE 10

No arms of war, explosives of war, or munitions of war shall be carried by aircraft of either Party above the territory of the other Party or by the crew or passengers, except by permission of the competent authorities of the territory within whose air space the aircraft is navigating.

War material restrictions.

## ARTICLE 11

Upon the departure or landing of any aircraft each Party may within its own territory and through its competent authorities search the aircraft of the other Party and examine the certificates and other documents prescribed.

Inspection, etc.

## ARTICLE 12

Aerodromes open to public air traffic in the territory of one of the Parties to this arrangement shall in so far as they are under the control of the Party in whose territory they are situated be open to all aircraft of the other Party, which shall also be entitled to the assistance of the meteorological services, the wireless services, the lighting services and the day and night signalling services, in so far as the several classes of services are under the control of the Party in whose territory they respectively are rendered. Any scale of charges made, namely, landing, accommodation or other charge, with respect to the aircraft of each Party in the territory of the other Party, shall in so far as such charges are under the control of the

Aerodromes, etc.

Party in whose territory they are made be the same for the aircraft of both Parties.

## ARTICLE 13

Landings, etc.

All aircraft entering or leaving the territory of either of the Parties to this arrangement shall land at or depart from an aerodrome open to public air traffic and classed as a customs aerodrome at which facilities exist for enforcement of immigration regulations and clearance of aircraft, and no intermediary landing shall be effected between the frontier and the aerodrome. In special cases the competent authorities may allow aircraft to land at or depart from other aerodromes, at which customs, immigration and clearance facilities have been arranged. The prohibition of any intermediary landing applies also in such cases.

In the event of a forced landing outside the aerodromes, referred to in the first paragraph of this article, the pilot of the aircraft, its crew and the passengers shall conform to the customs and immigration regulations in force in the territory in which the landing has been made.

Aircraft of each Party to this arrangement are accorded the right to enter the territory of the other Party subject to compliance with quarantine regulations in force therein.

The Parties to this arrangement shall exchange lists of the aerodromes in their territories designated by them as ports of entry and departure.

## ARTICLE 14

Flight restrictions.

Each of the Parties to this arrangement reserves the right to require that all aircraft crossing the frontiers of its territory shall do so between certain points. Subject to the notification of any such requirements by one Party to the other Party, and to the right to prohibit air traffic over certain areas as stipulated in Article 7, the frontiers of the territories of the Parties to this arrangement may be crossed at any point.

## ARTICLE 15

Ballast.

As ballast, only fine sand or water may be dropped from an aircraft.

## ARTICLE 16

Permission required to unload, etc., articles.

No article or substance, other than ballast, may be unloaded or otherwise discharged in the course of flight unless special permission for such purpose shall have been given by the authorities of the territory in which such unloading or discharge takes place.

## ARTICLE 17

Registry.

Whenever questions of nationality arise in carrying out the present arrangement, it is agreed that every aircraft shall be deemed to possess the nationality of the Party in whose territory it is duly registered.

## ARTICLE 18

Exchange of regulations.

The Parties to this arrangement shall communicate to each other the regulations relative to air traffic in force in their respective territories.

## ARTICLE 19

The present arrangement shall be subject to termination by either Party upon sixty days notice given to the other Party or by the enactment by either Party of legislation inconsistent therewith.

I shall be glad to have Your Excellency inform me whether the text of the arrangement herein set forth is as agreed to by your Government. If so, it is suggested that it be understood that the arrangement will come into force on June 1, 1932.

Accept, Excellency, the renewed assurance of my highest consideration.

AUSWÄRTIGES AMT  
II F 1049

BERLIN, den 27. Mai 1932.

HERR BOTSCHAFTER!

Ich habe die Ehre, Eurer Exzellenz nachstehend den Wortlaut der Vereinbarung zwischen dem Deutschen Reich und den Vereinigten Staaten von Amerika über den Luftverkehr mitzuteilen, wie er in den Verhandlungen zwischen der Botschaft der Vereinigten Staaten von Amerika und dem Auswärtigen Amt zustande gekommen ist. Er lautet:

Acceptance by Germany.

VEREINBARUNG ÜBER LUFTVERKEHR ZWISCHEN DEUTSCHLAND UND  
DEN VEREINIGTEN STAATEN VON AMERIKA.

ARTIKEL 1.

Bis zum Abschluss eines Abkommens zwischen Deutschland und den Vereinigten Staaten von Amerika über den Luftverkehr soll der Betrieb von Zivilluftfahrzeugen des einen Landes in dem anderen Lande durch folgende Vorschriften geregelt werden.

ARTIKEL 2.

Diese Vereinbarung soll Anwendung finden auf Deutschland und auf das Festland der Vereinigten Staaten von Amerika, ausschliesslich Alaska, einschliesslich der zugehörigen Territorialgewässer beider Länder.

ARTIKEL 3.

Als Luftfahrzeuge der beiden Vertragsteile gelten die in jedem Vertragsstaat ordnungsmässig eingetragenen Zivilluftfahrzeuge und die ausschliesslich für Handelszwecke benutzten staatlichen Luftfahrzeuge.

ARTIKEL 4.

Jeder Vertragsteil gewährt in Friedenszeiten den Luftfahrzeugen des anderen Vertragsteils das Recht zum Luftverkehr über seinem Gebiet unter der Voraussetzung, dass die Bestimmungen dieser Vereinbarung beachtet werden.

Es besteht jedoch Einverständnis darüber, dass die Einrichtung und der Betrieb von regelmässigen Luftverkehrslinien eines Luftfahrtunternehmens des einen Vertragsteils im Gebiet des anderen Vertragsteils oder über dieses Gebiet hinweg, mit oder ohne Zwischenlandung, an die vorherige Genehmigung des anderen Vertragsteils gebunden sein soll, die nach dem Grundsatz der Gegenseitigkeit und auf Antrag des Vertragsteils erteilt wird, dessen Staatsangehörigkeit das Luftverkehrsunternehmen besitzt.

## ARTIKEL 5.

Die Luftfahrzeuge jedes Vertragsteils, ihre Besatzungen und Fluggäste unterliegen, während sie sich im Gebiet des anderen Vertragsteils befinden, der allgemeinen in diesem Gebiet geltenden Gesetzgebung sowie auch den dort geltenden Vorschriften über den Luftverkehr im allgemeinen, über die Beförderung von Fluggästen und Gütern und über die öffentliche Sicherheit und Ordnung, insoweit als diese Vorschriften auf alle ausländischen Luftfahrzeuge, ihre Besatzungen und Fluggäste Anwendung finden.

Jeder der beiden Vertragsteile wird die Einfuhr und Ausfuhr aller Güter, die nach den gesetzlichen Bestimmungen ein- oder ausgeführt werden können, sowie die Beförderung von Fluggästen vorbehaltlich etwaiger Zoll-, Einwanderungs- und Quarantänebeschränkungen, nach oder aus ihrem Gebiet mit Luftfahrzeugen des anderen Vertragsteils gestatten. Solche Luftfahrzeuge, ihre Passagiere und Ladungen sollen Anspruch auf dieselben Vorrechte haben und keinen anderen oder höheren Abgaben oder Gebühren unterworfen sein, wie die im internationalen gewerbmässigen Luftverkehr eingesetzten Luftfahrzeuge des Landes, das solche Abgaben oder Gebühren erhebt, sowie deren Passagiere und Ladungen, und ebenso wie die im internationalen gewerbmässigen Luftverkehr eingesetzten Luftfahrzeuge irgend eines fremden Landes und deren Passagiere und Ladungen.

Jeder der beiden Vertragsteile kann seinen eigenen Luftfahrzeugen den gewerbmässigen Luftverkehr zwischen zwei Punkten im eigenen Lande vorbehalten. Indes können die Luftfahrzeuge jedes Vertragsteils im Gebiete des anderen Vertragsteils von einem Flughafen, zu dessen Benutzung sie berechtigt sind, nach einem anderen solchen Flughafen weiterfliegen, um dort ihre Ladungen im Ganzen oder in Teilen und die Fluggäste im Ganzen oder einzeln abzusetzen oder aufzunehmen. Voraussetzung ist hierbei, dass die Güter mit durchgehenden Frachturkunden und die Fluggäste mit durchgehenden Flugscheinen für Beförderungstrecken versehen sind, deren Anfangs- und Endpunkt nicht beides solche Punkte sind, zwischen denen der gewerbmässige Luftverkehr ordnungsmässig den einheimischen Luftfahrzeugen vorbehalten worden ist. Bei Weiterflügen der vorerwähnten Art von einem Flughafen nach einem anderen sollen die Luftfahrzeuge alle durch diese Vereinbarung eingeräumten Vorrechte geniessen, auch wenn es sich um Flughäfen handelt, zwischen denen der gewerbmässige Luftverkehr ordnungsmässig vorbehalten worden ist.

## ARTIKEL 6.

Jeder der beiden Vertragsteile soll das Recht haben, den Luftverkehr über bestimmten Zonen seines Gebiets unter der Voraussetzung zu verbieten, dass in dieser Beziehung kein Unterschied gemacht wird zwischen den einheimischen im internationalen Verkehr verwendeten Luftfahrzeugen und den ebenso verwendeten Luftfahrzeu-

gen des anderen Vertragsteils. Die Gebiete, über denen der Luftverkehr hiernach von dem einen Vertragsteil verboten ist, müssen dem anderen Vertragsteil mitgeteilt werden.

Jeder der beiden Vertragsteile behält sich das Recht vor, unter aussergewöhnlichen Umständen in Friedenszeiten den Luftverkehr über seinem Gebiet mit sofortiger Wirkung vorübergehend einzuschränken oder zu verbieten, unter der Voraussetzung, dass in dieser Beziehung kein Unterschied gemacht wird zwischen den Luftfahrzeugen des anderen Vertragsteils und den Luftfahrzeugen irgend eines fremden Staates.

## ARTIKEL 7.

Jedes Luftfahrzeug, das über eine verbotene Zone gerät, soll, sobald der Führer sich dieser Tatsache bewusst wird, das Notsignal geben, das nach den Luftverkehrsregeln des überflogenen Staates vorgeschrieben ist, und soll so bald und so nahe wie möglich auf einem ausserhalb des verbotenen Zone gelegenen Flughafen dieses Staates landen.

## ARTIKEL 8.

Alle Luftfahrzeuge müssen deutliche und gut sichtbare Hoheits- und Eintragungszeichen haben, die ihre Feststellung während des Fluges ermöglichen. Ausserdem müssen sie den Namen und den Wohnsitz des Eigentümers tragen.

Alle Luftfahrzeuge müssen mit Bescheinigungen über die Eintragung und die Lufttüchtigkeit sowie mit allen übrigen Urkunden versehen sein, die in dem Lande, in dem sie eingetragen sind, für den Luftverkehr vorgeschrieben sind.

Die Mitglieder der Besatzung, die an Bord eines Luftfahrzeugs Tätigkeiten ausüben, für die in dem Lande, in welchem das Luftfahrzeug eingetragen ist, eine besondere Erlaubnis verlangt wird, müssen mit allen Urkunden und insbesondere mit den Zeugnissen und Zulassungen versehen sein, die nach den geltenden Bestimmungen des Landes vorgeschrieben sind.

Die übrigen Mitglieder der Besatzung müssen mit Ausweisen über ihre Beschäftigung an Bord des Luftfahrzeugs, ihren Beruf, ihre Identität und ihre Staatsangehörigkeit versehen sein.

Die Lufttüchtigkeitsscheine, Befähigungszeugnisse und Zulassungsscheine, die von einem der Vertragsteile für die in seinem Gebiet eingetragenen Luftfahrzeuge oder deren Besatzungen ausgestellt oder als gültig anerkannt worden sind, sollen im Gebiet des anderen Vertragsteils dieselbe Gültigkeit haben, wie die entsprechenden in diesem Staat ausgestellten oder als gültig anerkannten Urkunden.

Jeder der beiden Vertragsteile behält sich das Recht vor, für Flüge innerhalb seines Gebiets den seinen Staatsangehörigen vom anderen Vertragsteil erteilten Befähigungszeugnissen und Zulassungsscheinen die Anerkennung zu versagen.

## ARTIKEL 9.

Die Luftfahrzeuge jedes Vertragsteils dürfen Funkgerät im Gebiet des anderen Vertragsteils nur dann mitführen, wenn eine Zulassung zum Einbau und zum Betrieb solchen Geräts von der zuständigen Behörde des Vertragsteils erteilt worden ist, in dessen Gebiet das Luftfahrzeug eingetragen ist. Für die Benutzung solchen Geräts sind die Vorschriften massgebend, die von den zuständigen Behörden des Staatsgebiets erlassen worden sind, in dessen Luftraum das Luftfahrzeug sich befindet.

Solches Gerät darf nur von Mitgliedern der Besatzung bedient werden, die eine besondere Erlaubnis der Regierung des Staates besitzen, in dem das Luftfahrzeug eingetragen ist.

Beide Vertragsteile behalten sich das Recht vor, aus Sicherheitsgründen Vorschriften über die Verpflichtung zur Ausstattung von Luftfahrzeugen mit Funkgerät zu erlassen.

## ARTIKEL 10.

Die Luftfahrzeuge, ihre Besatzung und die Fluggäste dürfen Kriegswaffen, Kriegssprengmittel oder Kriegsschiessbedarf über dem Gebiet des anderen Vertragsteils nur mit besonderer Erlaubnis der zuständigen Behörden des Staates mit sich führen, in dessen Luftraum das Luftfahrzeug sich befindet.

## ARTIKEL 11.

Jeder Vertragsteil kann auf seinem Gebiet die Luftfahrzeuge des anderen Vertragsteils beim Abflug oder bei der Landung durch seine zuständigen Behörden untersuchen und die vorgeschriebenen Zeugnisse und sonstigen Urkunden prüfen lassen.

## ARTIKEL 12.

Die Flughäfen des öffentlichen Verkehrs im Gebiet des einen Vertragsteils sollen, sofern sie unter der Kontrolle des Vertragsteils stehen, in dessen Gebiet sie gelegen sind, allen Luftfahrzeugen des anderen Vertragsteils zugänglich sein. Diese Luftfahrzeuge können auch den meteorologischen Nachrichtendienst, den Funk- und Beleuchtungsdienst sowie den Tages- und Nachtsignaldienst benutzen, sofern diese verschiedenen Arten von Diensten unter der Kontrolle des Vertragsteils stehen, in dessen Gebiet sie ausgeübt werden. Die etwaigen Gebühren für Landung, Unterbringung oder sonstige Leistungen sollen, sofern diese Gebühren der Kontrolle des Vertragsteils unterliegen, in dessen Gebiet sie erhoben werden, für die Luftfahrzeuge der beiden Vertragsteile die gleichen sein.

## ARTIKEL 13.

Der Einflug nach und der Ausflug von einem der beiden Vertragsstaaten darf nur nach oder von einem dem öffentlichen Verkehr dienenden Flughafen vorgenommen werden, der ein Zollflughafen mit Einrichtungen zur Durchführung der Einreisebestimmungen und zur Abfertigung von Luftfahrzeugen ist. Zwischen der Grenze und dem Flughafen darf eine Zwischenlandung nicht vorgenommen werden. In einzelnen Fällen können die zuständigen Behörden den Einflug nach oder den Ausflug von anderen Flughäfen gestatten, auf denen die Zoll- und Einreiseabfertigung vorzunehmen ist. Das Verbot von Zwischenlandungen gilt auch in diesen besonderen Fällen.

Im Falle einer Notlandung ausserhalb der im ersten Absatz dieses Artikels erwähnten Flughäfen haben sich der Führer des Luftfahrzeugs, seine Besatzung und Fluggäste nach den Zoll- und Einreisevorschriften zu richten, die in dem Gebiet gelten, in dem die Landung erfolgte.

Die Luftfahrzeuge jedes Vertragsteils müssen beim Einflug in das Gebiet des anderen Vertragsteils die dort geltenden Quarantänevorschriften erfüllen.

Die beiden Vertragsteile werden Listen der in ihrem Gebiet gelegenen Flughäfen austauschen, die von ihnen als Einreise- oder Ausreise Flughäfen bestimmt worden sind.

## ARTIKEL 14.

Jeder der beiden Vertragsteile behält sich das Recht vor, zu verlangen, dass die Luftfahrzeuge die Grenzen seines Gebiets nur zwischen den von ihm bestimmten Punkten überfliegen. Vorbehaltlich der Mitteilung eines solchen Verlangens durch den einen Vertragsteil an den anderen und vorbehaltlich des Rechts, den Luftverkehr über bestimmten Zonen nach Artikel 7 zu verbieten können die Grenzen des Gebiets der beiden Vertragsteile an beliebigen Punkten überflogen werden.

## ARTIKEL 15.

Als Ballast darf nur feiner Sand und Wasser abgeworfen werden.

## ARTIKEL 16.

Unterwegs dürfen Gegenstände oder Stoffe ausser Ballast nur abgeworfen oder sonst entfernt werden, wenn die Behörden des Staates, dessen Hoheitsgebiet betroffen wird, die Erlaubnis hierfür besonders erteilt haben.

## ARTIKEL 17.

Soweit bei Ausführung dieser Vereinbarung Fragen der Nationalität zu berücksichtigen sind, besteht Einverständnis darüber, dass die Luftfahrzeuge die Nationalität des Vertragsteils besitzen, in dessen Register sie ordnungsmässig eingetragen sind.

## ARTIKEL 18.

Die Vertragsteile werden sich gegenseitig die für den Luftverkehr in ihrem Gebiete geltenden Vorschriften mitteilen.

## ARTIKEL 19.

Diese Vereinbarung kann dem anderen Vertragsteil gegenüber mit 60tägiger Frist gekündigt werden. Sie endigt ferner mit dem Erlass von gesetzlichen Bestimmungen durch einen der beiden Vertragsteile, die im Widerspruch mit dieser Vereinbarung stehen.

---

Ich wäre Euerer Exzellenz für eine Mitteilung dankbar, ob der Wortlaut der Vereinbarung in der obigen Form die Zustimmung Ihrer Regierung findet. Bejahendenfalls darf ich das Einverständnis damit voraussetzen, dass die Vereinbarung mit dem 1. Juni 1932 in Kraft gesetzt wird.

Gern benutze ich diesen Anlass, um Ihnen, Herr Botschafter, die Versicherung meiner ausgezeichnetsten Hochachtung zu erneuern.

1. The present arrangement applies to civil aircraft constructed in Germany and exported to Continental United States of America, exclusive of Alaska; and to civil aircraft constructed in Continental United States of America, exclusive of Alaska, and exported to Germany.

2. The same validity shall be conferred on certificates of airworthiness issued by the competent authorities of the German Government for aircraft subsequently to be registered in the United States as if they had been issued under the regulations in force on the subject in the United States, provided that in each case a certificate of airworthiness for export has also been issued by the authorities of the German Government for the individual aircraft and provided that certificates of airworthiness issued by the competent authorities in the United States for aircraft subsequently to be registered in Germany are similarly given the same validity as if they had been issued under the regulations in force on the subject in Germany.

3. The above arrangement shall extend to civil aircraft of all categories, including those used for public transport and those used for private purposes.

4. The present arrangement may be terminated by either Government on sixty days' notice given to the other Government. In the event, however, that either Government should be prevented by future action of its legislature from giving full effect to the provisions of this arrangement it shall automatically lapse.

I shall be glad to have Your Excellency inform me whether the text of the arrangement herein set forth is as agreed to by your Government. If so, it is suggested that it be understood that the arrangement will come into force on June 1, 1932.

Accept, Excellency, the renewed assurance of my highest consideration.

No. 708

EMBASSY OF THE UNITED STATES OF AMERICA,  
Brussels, October 7, 1931

MR. MINISTER,

Arrangement with  
Belgium for the recip-  
rocal recognition of load-  
line certificates.

I have the honor to refer to your Excellency's note of March 31, 1931, (Direction Générale B., Section I.B./Communications, No. C.24/1081) pertaining to the conclusion between the Governments of Belgium and the United States of a reciprocal agreement concerning ship load lines.

Pursuant to instructions from my Government, I now have the honor to inform Your Excellency that the substance of this note and the text of the excerpt of the Belgian law of August 25, 1920, submitted therewith, have been examined by the competent authorities of my Government.

In answer to the inquiry whether the American Government does not share the view of the Belgian Minister of Transports that the reciprocal agreement concerning the inspection of vessels, existing between the two countries since June 1, 1922, would be applicable to the control of load lines, I have the honor to inform Your Excellency that the competent authorities of my Government do not believe that this agreement could be interpreted to cover load lines, and that they consider it would be preferable to negotiate a separate arrangement.

The Government of the United States has taken due notice of the Belgian law which provides that "the freeboard of vessels shall be determined in accordance with the rules and freeboard tables of the French Bureau Veritas or of Lloyds Registry of Shipping, or in accordance with rules and tables recognized as equivalent thereto."

In connection with this provision, my Government is willing to conclude a reciprocal agreement in regard to load lines with the Government of Belgium with the understanding that the rules and freeboard tables employed by the French Bureau Veritas and by Lloyds Registry of Shipping are the freeboard rules and tables of the French Government and the 1906 rules of the British Board of Trade, respectively.

Subject to the above understanding the Government of the United States is prepared to agree that pending the coming into force of the International Load Line Convention of 1930, in the United States and Belgium, the competent authorities of the Government of the United States will recognize the load line marks and the certificate of such marking on the merchant vessels of Belgium made in accordance with either of the foregoing systems of rules and tables as equivalent to load line marks and certificates of such markings made pursuant to the laws and regulations of the United States; provided, that the load line marks are in accordance with the load line certificates; that

the hull and superstructure of the vessel certificated have not been so materially altered since the issuance of the certificate as to affect the calculations on which the load line was based; and that alterations have not been made so that the—

- (1) Protection of openings,
- (2) Guard Rails,
- (3) Freeing Ports,
- (4) Means of Access to Crews Quarters,

have made the vessel manifestly unfit to proceed to sea without danger to human life.

It will be understood by this Government that on the receipt by the Embassy of a note from Your Excellency to the effect that the competent authorities of the Belgian Government will recognize the load line marks and certificates thereof on merchant vessels of the United States, executed pursuant to the laws and regulations of this Government, as equivalent to load line marks and certificates made in accordance with the laws and regulations in force in Belgium, and expressing the Belgian Government's concurrence in this Government's understanding as above set forth, the agreement will become effective.

I avail myself of this occasion to renew to Your Excellency the assurance of my highest consideration.

MINISTÈRE DES AFFAIRES ÉTRANGÈRES,  
*Bruzelles, le 4 février 1932*

Direction Générale B.  
Section I. B., Comm.  
No. C.24/354

MONSIEUR LE CHARGÉ D'AFFAIRES,

Je n'avais pas manqué de porter à la connaissance de M. le Ministre des Transports les termes de la lettre de l'Ambassade en date du 7 octobre dernier, No. 708, au sujet de la conclusion entre les deux pays d'un accord provisoire concernant la limite de charge des navires.

J'ai l'honneur de vous faire connaître que les règles et tables de franc-bord que rappelle l'art. 161 de l'arrêté royal du 8 novembre 1920, formant règlement d'application de la loi sur la sécurité des navires, sont bien les règles et tables de franc-bord du Gouvernement français, appliquées par la Bureau Veritas et les règles de 1906 du Board of Trade britannique appliquées par le "Lloyd's Register of Shipping."

Étant donné que le Gouvernement des États-Unis estime ne pas pouvoir se rallier à la proposition qui lui a été présentée, d'appliquer en matière de franc-bord l'accord de réciprocité concernant la sécurité des navires, conclu en 1922, le Gouvernement du Roi accepte l'arrangement proposé par le Gouvernement des États-Unis.

Celui-ci aura donc un caractère provisoire et est destiné à prendre fin dès que les deux Gouvernements auront ratifié la Convention internationale sur les lignes de charge et que celle-ci aura été mise en vigueur.

Le Gouvernement du Roi déclare, en conséquence, que, par mesure de réciprocité répondant aux mesures annoncées par le Gouvernement américain, le Gouvernement belge admettra, qu'en attendant l'entrée en vigueur aux Etats-Unis et en Belgique de la Convention Internationale sur les lignes de charge du 5 juillet 1930, et sous réserve des conditions énoncées ci-dessous, les autorités compétentes du Gouvernement belge reconnaîtront les marques de ligne de charge et le certificat de démarcation des navires de commerce sous pavillon des Etats-Unis établis conformément aux lois et règlements en vigueur aux Etats-Unis, comme étant équivalents aux marques de lignes de charge et certificats de ces démarcations établis conformément à la loi belge.

Cette reconnaissance est subordonnée aux conditions suivantes:

1) les marques de lignes de charge seront conformes aux certificats de lignes de charge;

2) la coque et les superstructures du navire auquel le certificat est délivré n'auront pas subi, depuis la délivrance du certificat, des modifications d'une importance telle qu'elles affectent les calculs sur lesquels la ligne de charge a été basée;

3) les modifications apportées ne seront pas de nature telle que la protection des ouvertures, les maincourantes, les sabords de décharge, les moyens d'accès aux postes de l'équipage aient manifestement rendu le navire impropre à se rendre en mer sans danger pour la vie humaine.

Connaissance est donnée du présent arrangement aux services belges d'inspection maritime qui reçoivent pour instructions de l'observer dès à présent.

Il convient de remarquer que la correspondance qui a été échangée au sujet de la question traitée ci-dessus est antérieure à l'arrêté royal du 14 septembre 1931 qui permet aux propriétaires belges d'obtenir pour leurs navires le franc-bord établi conformément au règlement annexé à la Convention Internationale sur les lignes de charge signée à Londres, le 5 juillet 1930; cet arrêté royal introduit donc dans cette question un élément nouveau dont il n'a pu être tenu compte.

Mais cette circonstance n'est pas de nature à énerver l'arrangement proposé attendu que le règlement américain sur les francs-bords est identique au règlement annexé à la Convention mentionnée.

Puisque le Gouvernement des Etats-Unis est disposé à reconnaître les francs-bords des navires belges attribués suivant les anciennes règles, le Gouvernement du Roi estime donc acquis qu'il reconnaîtra également le franc-bord assigné dans les conditions prévues dans le nouveau règlement belge sur la matière. Il estime cependant opportun d'attirer encore l'attention du Gouvernement des Etats-Unis sur le fait que, suivant ce dernier règlement la marque de l'autorité habilitée en Belgique pour l'assignation des francs-bords consiste dans les lettres B.I. lorsque le franc-bord est établi par le service officiel belge qualifié à cet effet.

J'ai l'honneur de vous faire parvenir à ce propos les 3 exemplaires de l'arrêté royal du 14 septembre 1931 ainsi que 3 formulaires du certificat de franc-bord du modèle utilisé par l'inspection maritime belge.<sup>2</sup>

Je vous saurais gré, Monsieur le Chargé d'Affaires, de m'adresser une communication marquant l'accord du Gouvernement des Etats-Unis au sujet du présent arrangement.

La date de cette communication pourrait être considérée comme indiquant la mise en vigueur de l'arrangement.

Veuillez agréer, Monsieur le Chargé d'Affaires, l'assurance de ma considération la plus distinguée.

General Division B  
Section I.B., Comm.  
No. C.24/354

MINISTRY FOR FOREIGN AFFAIRS,  
*Brussels, February 4, 1932.*

SIR:

I did not fail to inform the Minister for Transportation of the contents of the Embassy's note of October 7 last, No. 708, concerning the negotiation between the two countries of a temporary agreement on load-line regulations of vessels.

I have the honor to inform you that the regulations and tables of load lines which are mentioned in article 161 of the royal decree of November 8, 1920, constituting a ruling for the application of the law concerning the safety of vessels, are the regulations and tables of load lines of the French Government as given by the Veritas Bureau and the rules of 1906 of the British Board of Trade as given in "Lloyd's Register of Shipping."

As the Government of the United States feels that it cannot assent to the proposal that has been submitted to it, of applying in the matter of load-line regulations the reciprocity agreement concerning the safety of vessels, concluded in 1922, the Government of the King accepts the arrangement proposed by the Government of the United States.

This arrangement will have, therefore, a temporary character and is destined to come to an end as soon as the two Governments shall have ratified the international agreement concerning load lines and as soon as this agreement shall come into force.

The Government of the King declares, consequently, that as a measure of reciprocity corresponding to the measures stated by the American Government, the Belgian Government will, in the interim before the enforcement in the United States and in Belgium of the international agreement on load lines, of July 5, 1930, and with the exception of the conditions set forth below, permit competent authorities of the Belgian Government to recognize the marks of the load lines and the certificates of these lines for merchant vessels under the United States flag, when these are established in conformity with the laws and regulations in force in the United States, as being equivalent to the marks of the load lines and the certificates of these lines established in conformity with Belgian law.

This recognition is subject to the following conditions:

- 1) The marks of the load lines shall correspond to the certificates of the load lines;
- 2) Alterations of sufficient importance to affect the calculations on which the load line was based shall not have been made, since the issuance of the certificate, to the hull and to the superstructure of the vessel concerned;

3) The alterations made shall not be of such a nature that the protection of openings, handrails, cargo ports, means of access to the crew's stations, shall render the vessel manifestly unfit to go to sea without danger to human life.

The Belgian Maritime Inspection Service has been notified of the present arrangement and instructed to observe it henceforth.

It is appropriate to point out that the correspondence exchanged on the subject discussed above, precedes the royal decree of September 14, 1931, which allows Belgian shipowners to obtain for their vessels the load line established in conformity with the ruling forming an annex to the International Load Line Agreement signed at London on July 5, 1930; thus this royal decree introduces into this question a new element which it has been impossible to take into consideration.

But this circumstance is not of a character to affect the proposed arrangement since the American ruling on load lines is identical with the ruling forming an annex to the agreement above mentioned.

Since the Government of the United States is disposed to recognize the load lines of Belgian vessels assigned according to the old regulations, the Government of the King takes it for granted that the Government of the United States will likewise recognize the load line assigned according to the conditions provided in the new Belgian ruling in this matter. The Government of the King considers it opportune, however, again to call the attention of the Government of the United States to the fact that, in accordance with this latter regulation, the assignment of load lines consists of the letters B.I. when the load line is established by the official Belgian authorities qualified for this purpose.

I have the honor to forward to you in this connection three copies of the royal decree of September 14, 1931, as well as three copies of the official form of load-line certificate used by the Belgian Maritime Inspection Service.

I should appreciate your addressing me a letter stating the assent of the Government of the United States to the present arrangement.

The date of this communication could be considered as signifying the coming into force of the arrangement.

Be so kind as to accept, Sir, the assurance of my most distinguished consideration.

For the Minister:  
*The Director General.*

No. 804      EMBASSY OF THE UNITED STATES OF AMERICA,  
*Brussels, April 19, 1932*

MR. MINISTER,

I have the honor to refer to Your Excellency's note of February 4, 1932 (Direction Générale B, Section I.B./Comm., No. C.24/354) and to its enclosures, regarding the conclusion of an arrangement between Belgium and the United States for the reciprocal recognition of ship load-line certificates.

My Government agrees, as requested in this note, to recognize the certificates issued by the Government of Belgium pursuant to the Royal Decree of September 14, 1931, which allows Belgian ship-owners the privilege of obtaining for their vessels the load line established in conformity with the ruling which forms an annex to the International Load Line Convention signed at London on July 5, 1930.

The Government of the United States accordingly understands that the arrangement has been completed by the exchange of notes and is effective from the date of this note.

I would greatly appreciate confirmation of this understanding, and I avail myself of this occasion to renew to you, Mr. Minister, the assurances of my highest consideration.
