Acceptance of benefits.

Post, p. 1077.

“(7) the mortgage instruments shall contain a stipulation (not binding upon the Secretary) that the holder of the mortgage will accept the benefits provided by section 13 in lieu of any right of foreclosure which he may have against the property and any right to a deficiency judgment against the mortgagor on account of the mortgage.

Payment of initial fees, etc.

“(d) The Secretary shall require the payment by the mortgagor or mortgagee of such initial fees for inspection, appraisal, and other charges as it finds necessary and such amounts may be included in the principal obligation of the mortgage, and the payment of such delinquency charges and default reserves as it finds necessary. The proceeds of such fees shall be deposited in the Treasury for use for administrative expense as provided in subparagraph (e) (2) hereof.

Collection of charges.

“(e) (1) The Secretary shall collect from the mortgagor, upon insurance of the mortgage, an initial charge of 1 per centum of the principal obligation of the mortgage and annually thereafter when payment of an installment of principal and interest is due, a charge of 1 per centum of the principal obligation remaining unpaid after

such installment is paid, without taking into account delinquent payments or prepayments. If the principal obligation of the mortgage is paid in full in less than five years after the time when the mortgage was entered into, the Secretary may require payment by the mortgagor of a charge equal to the amount of the last annual charge required of the mortgagor.

“(2) One-half of the amount paid as charges in pursuance of this subsection shall be the premium for insurance and shall be deposited in the fund and may be used only for purposes to which the fund may be devoted. “(2) If within thirty days after the due date of any installment the mortgagor under an insured mortgage has failed to pay to the Secretary the amount due, the Secretary shall notwithstanding the amount paid is less than the interest and principal due, pay the amount of such principal and interest to the mortgagee, less the amount of any previous prepayments.

Failure of mortgagor to pay amount due.

“(3) Payments to mortgagees under paragraph (2) shall be advanced out of the fund for the account of the mortgagor. Such advances shall be repaid to the fund out of the first available collections received from the mortgagor, with interest thereon at the rate fixed in the insured mortgage, and shall be added to subsequent installments.

Advances to mortgagees.

“(g) Any contract of insurance executed by the Secretary under this section shall be conclusive evidence of the eligibility of the mortgage for insurance, and the validity of any contract of insurance so executed shall be incontestable in the hands of any holder thereof from the date of the execution of such contract, except for fraud or misrepresentation of which such holder has actual knowledge.

“(h) The Secretary may, at any time, for good cause shown and under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instruments secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage.

Release of mortgagor from liability, etc.

“(i) The holder of any mortgage insured under this title may, upon notice to the Secretary, assign such mortgage together with the accompanying note and contract of insurance and the assignee thereof shall thereupon become entitled to all the benefits of such contract of insurance: *Provided*, That no such assignment shall be binding upon the Secretary until notice thereof has been given the Secretary and the Secretary has acknowledged receipt of such notice.

Upon such assignment and transfer, the Secretary shall pay to the mortgagee, in cash, an amount equal to the value of the mortgage and the note and mortgage shall thereupon become a part of the fund. For the purposes of this subsection, the value of the mortgage shall be determined, in accordance with rules and regulations prescribed by the Secretary, by adding to the amount of the original principal obligation of the mortgage which was unpaid on the date of default, the amount of all unpaid interest and the amount of all payments which have been made by the mortgagee for taxes, special assessments, water rates, and other payments in discharge of liens which are prior to the mortgage, and insurance on the property mortgaged, and by deducting from such total amount any amount received on account of the mortgage indebtedness after such default.

Such notes shall be signed by the Secretary or by his duly authorized representatives and shall be negotiable. Such notes shall bear interest, payable semiannually, at a rate equal to the average rate of interest, computed to the end of the calendar month next preceding the date of issue, borne by all interest bearing obligations of the United States then forming a part of the public debt, and shall have such maturities as the Secretary may determine with the approval of the Secretary of the Treasury.

Purchase of notes and renewals.

“(c) The Secretary of the Treasury is authorized to purchase any notes issued by the Secretary pursuant to this section and any renewals thereof and for such purchases may use as a public debt transaction the proceeds from the sale of any securities issued under the Second Liberty Bond Act, as amended, and the purposes for which such securities may be issued under such Act, as amended, are hereby extended to include any such purchases. All redemptions, purchases, and sales by the Secretary of the Treasury of such notes shall be treated as public debt transactions of the United States.

For the attainment of these objectives, the Secretary of Agriculture is authorized and directed to conduct and to stimulate research into the laws and principles underlying the basic problems of agriculture in its broadest aspects, including but not limited to: Research relating to the improvement of the quality of, and the development of new and improved methods of the production, marketing,

TITLE II

This title may be cited as the "Agricultural Marketing Act of 1946".

Agricultural Marketing Act of 1946.

SEC. 202. The Congress hereby declares that a sound, efficient, and privately operated system for distributing and marketing agricultural products is essential to a prosperous agriculture and is indispensable to the maintenance of full employment and to the welfare, prosperity, and health of the Nation. It is further declared to be the policy of Congress to promote through research, study, experimentation, and through cooperation among Federal and State agencies, farm organizations, and private industry a scientific approach to the problems of marketing, transportation, and distribution of agricultural products similar to the scientific methods which have been utilized so successfully during the past eighty-four years in connection with the production of agricultural products so that such products capable of being produced in abundance may be marketed in an orderly manner and efficiently distributed. In order to attain these objectives, it is the intent of Congress to provide for (1) continuous research to improve the marketing, handling, storage, processing, transportation, and distribution of agricultural products; (2) cooperation among Federal and State agencies, producers, industry organizations, and others in the development and effectuation of research and marketing programs to improve the distribution processes; (3) an integrated administration of all laws enacted by Congress to aid the distribution of agricultural products through research, market aids and services, and regulatory activities, to the end that marketing methods and facilities may be improved, that distribution costs may be reduced and the price spread between the producer and consumer may be narrowed, that dietary and nutritional standards may be improved, that new and wider markets for American agricultural products may be developed, both in the United States and in other countries, with a view to making it possible for the full production of American farms to be disposed of usefully, economically, profitably, and in an orderly manner. In effectuating the purposes of this title, maximum use shall be made of existing research facilities owned or controlled by the Federal Government or by State agricultural experiment stations and of the facilities of the Federal and State extension services. To the maximum extent practicable marketing research work done hereunder in cooperation with the States shall be done in cooperation with the State agricultural experiment stations; marketing educational and demonstrational work done hereunder in cooperation with the States shall be done in cooperation with the State agricultural extension service; market information, inspection, regulatory work and other marketing service done hereunder in cooperation with the State agencies shall be done in cooperation with the State departments of agriculture, and State bureaus and departments of markets.

The payment when so made, shall be in full settlement of all claims against the United States by reason of said losses and damages resulting to said persons by reason of the above-named facts and which occurred in 1941 and the early part of 1942, and which property was located in Hardin County, Kentucky: *Provided*, That no part of the amounts appropriated in this Act in excess of 10 per centum thereof shall be paid or delivered to or received by any agent or attorney on account of services rendered in connection with these respective claims, or any one of them, and the same shall be unlawful, any contract to the contrary notwithstanding. WHEREAS we look back with pride upon the noble achievements and the courageous deeds of the living and remember in affection the devoted service and the heroic sacrifices of the dead; and

WHEREAS we look forward to the increasing importance of American air power in preserving the peace; in defending America against aggression; and in strengthening the Union of our own country by swift, space-ignoring flight;

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, in order that we may in gratitude do honor to the men and women of the Army Air Forces and pay tribute to all those who through research and development, in science and industry, have supported the growth of our country's air power, do hereby proclaim Thursday, August 1, 1946, as Army Air Force Day, and do invite the Governors of the various States to issue proclamations calling for the observance of that day.

RENOUVELLEMENT DE L'ACCORD INTER-AMERICAIN
DU CAFE POUR UNE PERIODE D'UNE ANNEE A
PARTIR DU PREMIER OCTOBRE MIL-NEUF-
CENT-QUARANTE-CING.**

Attendu que l'Accord Inter-Américain du Café (qui dans le présent texte sera désigné comme "l'Accord") fut signé à Washington à la date du 28 Novembre 1940;

Attendu que par un Protocole signé à Washington à la date du 15 Avril 1941 l'Accord fut considéré comme entrant en vigueur immédiatement en ce qui concernait les Gouvernements signataires du dit Protocole;

Attendu que le dit Accord prévoyait qu'il resterait en vigueur jusqu'au Premier Octobre 1943;

Attendu que les Gouvernements signataires, à deux reprises, ont renouvelé, à l'unanimité, le dit Accord, sans changement, pour des périodes d'une année, ces reconductions étant dûment constatées par deux déclarations signées et enregistrées, faites par le Conseil Inter-Américain du Café, la première le 12 Mai 1943 et la seconde le 25 Juillet 1944, déclarations qui furent dûment déposées à l'Union Pan-Américaine respectivement les 11 Juin 1943 et 11 Septembre 1944, conformément à la procédure établie par l'Article XXIV de l'Accord.

Par conséquent, maintenant, faisant suite à une Recommandation du Conseil Inter-Américain du Café à la date de 13 Juin 1945, les Gouvernements signataires du présent Protocole, considérant qu'il est utile de renouveler l'Accord, sujet aux conditions ci-après stipulées, ont convenu ce qui suit:

ARTICLE I

L'Accord continuera à être en vigueur entre les Gouvernements signataires du Présent Protocole pendant une période d'une année à partir du 1er Octobre 1945, sujet aux dispositions de l'Article II.

ARTICLE II

Pendant la période spécifiée dans l'Article précédent, les Gouvernements signataires du Présent Protocole consentent à ce que les dispositions des huit premiers Articles de l'Accord demeurent sans effet, sauf en cas de force majeure, auquel cas ces Articles pourront être de nouveau appliqués par une motion qui devra être approuvée par au moins 95% des votes du Conseil Inter-Américain du Café.

ARTICLE III

a. Les Gouvernements signataires du Present Protocole conviennent que pendant la période stipulée ci-dessus à l'Article I, le Conseil Inter-Américain du Café devra entreprendre une étude de la situation du café sur le marché mondial afin de formuler des recommandations qui seront soumises tant aux Gouvernements signataires qu'à tous autres Gouvernements qui seraient intéressés à participer à un Accord révisé, ces recommandations envisageront l'étendue et la forme de coopération internationale qui contribuerait au développement du commerce international du café sur des bases saines et équitables à tous, producteurs et consommateurs.

b. De telles recommandations devront tenir compte des principes généraux de toute politique commerciale au sujet des denrées (Commodity policy) qui pourrait être adoptée sous les auspices des Nations Unies avant la soumission des dites recommandations.

ARTICLE IV

Le présent Protocole sera ouvert à la signature des pays à l'Union Pan-Américaine depuis le 1er. Septembre 1945 jusqu'au 1er. Novembre 1945, et il est agréé cependant que toutes les signatures seront considérées comme effectives au 1er. Octobre 1945.

En foi de quoi les soussignés, dûment autorisés par leurs Gouvernements respectifs, ont signé le présent Protocole.

April 16, 1945, and
June 6, 1946
[T. I. A. S. 1546]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA
A PROCLAMATION

WHEREAS a convention between the United States of America and the United Kingdom of Great Britain and Northern Ireland for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income was signed by their respective Plenipotentiaries at Washington on April 16, 1945;

AND WHEREAS a supplementary protocol modifying in certain respects the said convention was signed by the respective Plenipotentiaries of the United States of America and the United Kingdom of Great Britain and Northern Ireland at Washington on June 6, 1946;

AND WHEREAS the originals of the said convention and the said supplementary protocol are word for word as follows:

The Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland,
Desiring to conclude a Convention for the avoidance of double taxation and the prevention of fiscal evasion with respect to taxes on income,

Have appointed for that purpose as their Plenipotentiaries:

The Government of the United States of America:

Mr. Edward R. Stettinius, Jr., Secretary of State, and

The Government of the United Kingdom of Great Britain and Northern Ireland:

The Right Honorable the Earl of Halifax, K.G., Ambassador Extraordinary and Plenipotentiary in Washington,

Who, having exhibited their respective full powers, found in good and due form, have agreed as follows:

Plenipotentiaries.

ARTICLE I

(1) The taxes which are the subject of the present Convention are:

(a) In the United States of America:

The Federal income taxes, including surtaxes and excess profits taxes (hereinafter referred to as United States tax).

(b) In the United Kingdom of Great Britain and Northern Ireland:

The income tax (including surtax), the excess profits tax and the national defense contribution (hereinafter referred to as United Kingdom tax).

(2) The present Convention shall also apply to any other taxes of a substantially similar character imposed by either Contracting Party subsequently to the date of signature of the present Convention or by the government of any territory to which the present Convention is extended under Article XXII.

Post, p. 1387.

ARTICLE II

(1) In the present Convention, unless the context otherwise requires:

- “United States.”
- “United Kingdom.”
- “Territory of one of the Contracting Parties.”
- “United States corporation.”
- “United Kingdom corporation.”
- “Corporation of one Contracting Party.”
- “Resident of the United Kingdom.”
- “Resident of the United States.”
- (a) The term “United States” means the United States of America, and when used in a geographical sense means the States, the Territories of Alaska and of Hawaii, and the District of Columbia.
- (b) The term “United Kingdom” means Great Britain and Northern Ireland, excluding the Channel Islands and the Isle of Man.
- (c) The terms “territory of one of the Contracting Parties” and “territory of the other Contracting Party” mean the United States or the United Kingdom as the context requires.
- (d) The term “United States corporation” means a corporation, association or other like entity created or organized in or under the laws of the United States.
- (e) The term “United Kingdom corporation” means any kind of juridical person created under the laws of the United Kingdom.
- (f) The terms “corporation of one Contracting Party” and “corporation of the other Contracting Party” mean a United States corporation or a United Kingdom corporation as the context requires.
- (g) The term “resident of the United Kingdom” means any person (other than a citizen of the United States or a United States corporation) who is resident in the United Kingdom for the purposes of United Kingdom tax and not resident in the United States for the purposes of United States tax. A corporation is to be regarded as resident in the United Kingdom if its business is managed and controlled in the United Kingdom.
- (h) The term “resident of the United States” means any individual who is resident in the United States for the purposes of United States tax and not resident in the United Kingdom for the purposes of United Kingdom tax, and any United States corporation and any partnership created or organized in or under the laws of the United States, being a corporation or partnership which is not resident in the United Kingdom for the purposes of United Kingdom tax.

- (i) The term "United Kingdom enterprise" means an industrial or commercial enterprise or undertaking carried on by a resident of the United Kingdom. "United Kingdom enterprise."
- (j) The term "United States enterprise" means an industrial or commercial enterprise or undertaking carried on by a resident of the United States. "United States enterprise."
- (k) The terms "enterprise of one of the Contracting Parties" and "enterprise of the other Contracting Party" mean a United States enterprise or a United Kingdom enterprise, as the context requires. "Enterprise of one of the Contracting Parties."
- (l) The term "permanent establishment" when used with respect to an enterprise of one of the Contracting Parties means a branch, management, factory or other fixed place of business, but does not include an agency unless the agent has, and habitually exercises, a general authority to negotiate and conclude contracts on behalf of such enterprise or has a stock of merchandise from which he regularly fills orders on its behalf. An enterprise of one of the Contracting Parties shall not be deemed to have a permanent establishment in the territory of the other Contracting Party merely because it carries on business dealings in the territory of such other Contracting Party through a *bona fide* commission agent, broker or custodian acting in the ordinary course of his business as such. The fact that an enterprise of one of the Contracting Parties maintains in the territory of the other Contracting Party a fixed place of business exclusively for the purchase of goods or merchandise shall not of itself constitute such fixed place of business a permanent establishment of such enterprise. The fact that a corporation of one Contracting Party has a subsidiary corporation which is a corporation of the other Contracting Party or which is engaged in trade or business in the territory of such other Contracting Party (whether through a permanent establishment or otherwise) shall not of itself constitute that subsidiary corporation a permanent establishment of its parent corporation. "Permanent establishment."

(2) For the purposes of Articles VI, VII, VIII, IX and XIV a resident of the United Kingdom shall not be deemed to be engaged in trade or business in the United States in any taxable year unless such resident has a permanent establishment situated therein in such taxable year. The same principle shall be applied, *mutatis mutandis*, by the United Kingdom in the case of a resident of the United States.

Post, pp. 1331, 1382, 1384.

(3) In the application of the provisions of the present Convention by one of the Contracting Parties any term not otherwise defined shall, unless the context otherwise requires, have the meaning which it has under the laws of that Contracting Party relating to the taxes which are the subject of the present Convention.

ARTICLE III

Tax on profits, restriction.

(1) A United Kingdom enterprise shall not be subject to United States tax in respect of its industrial or commercial profits unless it is engaged in trade or business in the United States through a permanent establishment situated therein. If it is so engaged, United States tax may be imposed upon the entire income of such enterprise from sources within the United States.

(2) A United States enterprise shall not be subject to United Kingdom tax in respect of its industrial or commercial profits unless it is engaged in trade or business in the United Kingdom through a permanent establishment situated therein. If it is so engaged, United Kingdom tax may be imposed upon the entire income of such enterprise from sources within the United Kingdom: Provided that nothing in this paragraph shall affect any provisions of the law of the United Kingdom regarding the imposition of United Kingdom excess profits tax and national defence contribution in the case of inter-connected companies.

(3) Where an enterprise of one of the Contracting Parties is engaged in trade or business in the territory of the other Contracting Party through a permanent establishment situated therein, there shall be attributed to such permanent establishment the industrial or commercial profits which it might be expected to derive if it were an independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing at arm's length with the enterprise of which it is a permanent establishment, and the profits so attributed shall, subject to the law of such other Contracting Party, be deemed to be income from sources within the territory of such other Contracting Party.

Determination of profits.

(4) In determining the industrial or commercial profits from sources within the territory of one of the Contracting Parties of an enterprise of the other Contracting Party, no profits shall be deemed to arise from the mere purchase of goods or merchandise within the territory of the former Contracting Party by such enterprise.

ARTICLE IV

Where an enterprise of one of the Contracting Parties, by reason of its participation in the management, control or capital of an enterprise of the other Contracting Party, makes with or imposes on the latter, in their commercial or financial relations, conditions different from those which would be made with an independent enterprise, any profits which would but for those conditions have accrued to one of the enterprises but by reason of those conditions have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

ARTICLE V

Profits from ships or aircraft.

(1) Notwithstanding the provisions of Articles III and IV of the present Convention, profits which an individual (other than a citizen of the United States) resident in the United Kingdom or a United Kingdom corporation derives from operating ships documented or

aircraft registered under the laws of the United Kingdom, shall be exempt from United States tax.

(2) Notwithstanding the provisions of Articles III and IV of the present Convention, profits which a citizen of the United States not resident in the United Kingdom or a United States corporation derives from operating ships documented or aircraft registered under the laws of the United States, shall be exempt from United Kingdom tax.

(3) This Article shall be deemed to have superseded, on and after the first day of January, 1945, as to United States tax, and on and after the 6th day of April, 1945, as to United Kingdom tax, the arrangements relating to reciprocal exemption of shipping profits from income tax effected between the Government of the United States and the Government of the United Kingdom by exchange of Notes dated August 11, 1924, November 18, 1924, November 26, 1924, January 15, 1925, February 13, 1925 and March 16, 1925, which shall accordingly cease to have effect.

(3) Either of the Contracting Parties may terminate this Article by giving written notice of termination to the other Contracting Party, through diplomatic channels, on or before the thirtieth day of June in any year after the year 1945, and in such event paragraph (1) hereof shall cease to be effective as to United States tax on and after the first day of January, and paragraph (2) hereof shall cease to be effective as to United Kingdom tax on and after the 6th day of April, in the year next following that in which such notice is given.

(2) Where a person dies domiciled in any part of the territory of one Contracting Party, the situs of any of the following rights or interests, legal or equitable, which for the purposes of tax form part of the estate of such person or pass on his death, shall, for the purposes of the imposition of tax and for the purposes of the credit to be allowed under Article V, be determined exclusively in accordance with the following rules, but in cases not within such rules the situs of such rights and interests shall be determined for those purposes in accordance with the law relating to tax in force in the territory of the other Contracting Party:

ARTICLE IV

(1) In determining the amount on which tax is to be computed, permitted deductions shall be allowed in accordance with the law in force in the territory in which the tax is imposed.

Deductions.

(2) Where tax is imposed by one Contracting Party on the death of a person who at the time of his death was not domiciled in any part of the territory of that Contracting Party but was domiciled in some part of the territory of the other Contracting Party, no account shall be taken in determining the amount or rate of such tax of property situated outside the former territory: Provided that this paragraph shall not apply as respects tax imposed—

- (a) in the United States in the case of a United States citizen dying domiciled in any part of Great Britain; or

- (b) in Great Britain in the case of property passing under a disposition governed by the law of Great Britain.

ARTICLE V

Credits allowable.

(1) Where one Contracting Party imposes tax by reason of a decedent's being domiciled in some part of its territory or being its national, that Party shall allow against so much of its tax (as otherwise computed) as is attributable to property situated in the territory of the other Contracting Party, a credit (not exceeding the amount of the tax so attributable) equal to so much of the tax imposed in the territory of such other Party as is attributable to such property; but this paragraph shall not apply as respects any such property as is mentioned in paragraph (2) of this Article.

(2) Where each Contracting Party imposes tax by reason of a decedent's being domiciled in some part of its territory, each Party shall allow against so much of its tax (as otherwise computed) as is attributable to property which is situated, or is deemed under paragraph (2) of Article III to be situated,

- (a) in the territory of both Parties, or
 (b) outside both territories,

a credit which bears the same proportion to the amount of its tax so attributable or to the amount of the other Party's tax attributable to the same property, whichever is the less, as the former amount bears to the sum of both amounts.

(3) For the purposes of this Article, the amount of the tax of a Contracting Party attributable to any property shall be ascertained after taking into account any credit, allowance or relief, or any remission or reduction of tax, otherwise than in respect of tax payable in the territory of the other Contracting Party or in any other country; and if, in respect of property situated outside the territories of both Parties, a Contracting Party allows against its tax a credit for tax payable in the country where the property is situated, that credit shall be taken into account in ascertaining, for the purposes of paragraph (2) of this Article, the amount of the tax of that Party attributable to the property.

ARTICLE VI

Claim for credit or tax refund.

(1) Any claim for a credit or for a refund of tax founded on the provisions of the present Convention shall be made within six years from the date of the death of the decedent in respect of whose estate the claim is made, or, in the case of a reversionary interest where payment of tax is deferred until on or after the date on which the interest falls into possession, within six years from that date.

(2) Any such refund shall be made without payment of interest on the amount so refunded.

ARTICLE VII

Exchange of information.

(1) The taxation authorities of the Contracting Parties shall exchange such information (being information available under the

respective taxation laws of the Contracting Parties) as is necessary for carrying out the provisions of the present Convention or for the prevention of fraud or the administration of statutory provisions against legal avoidance in relation to the taxes which are the subject of the present Convention. Any information so exchanged shall be treated as secret and shall not be disclosed to any person other than those concerned with the assessment and collection of the taxes which are the subject of the present Convention. No information shall be exchanged which would disclose any trade secret or trade process.

(2) As used in this Article, the term "taxation authorities" means, in the case of the United States, the Commissioner of Internal Revenue or his authorized representative; in the case of Great Britain, the Commissioners of Inland Revenue or their authorized representative; and, in the case of any territory to which the present Convention is extended under Article VIII, the competent authority for the administration in such territory of the taxes to which the present Convention applies.

"Taxation authorities."

ARTICLE VIII

(1) Either of the Contracting Parties may, on the coming into force of the present Convention or at any time thereafter while it continues in force, by a written notification of extension given to the other Contracting Party through diplomatic channels, declare its desire that the operation of the present Convention shall extend to all or any of its colonies, overseas territories, protectorates, or territories in respect of which it exercises a mandate, which impose taxes substantially similar in character to those which are the subject of the present Convention. The present Convention shall apply to the territory or territories named in such notification as to the estates of persons dying on or after the date or dates specified in the notification (not being less than sixty days from the date of the notification) or, if no date is specified in respect of any such territory, on or after the sixtieth day after the date of such notification, unless, prior to the date on which the Convention would otherwise become applicable to a particular territory, the Contracting Party to whom notification is given shall have informed the other Contracting Party in writing through diplomatic channels that it does not accept such notification as to that territory. In the absence of such extension, the present Convention shall not apply to any such territory.

Extension to territories, etc.

(2) At any time after the expiration of one year from the entry into force of an extension under paragraph (1) of this Article, either of the Contracting Parties may, by written notice of termination given to the other Contracting Party through diplomatic channels, terminate the application of the present Convention to any territory to which it has been extended under paragraph (1), and in such event the present Convention shall cease to apply, as to the estates of persons dying on or after the date or dates (not being earlier than the sixtieth day after the date of such notice) specified in such notice, or, if no date is specified, on or after the sixtieth day after the date of such notice, to the territory or territories named therein, but without affecting its

continued application to the United States, Great Britain or to any other territory to which it has been extended under paragraph (1) hereof.

(3) In the application of the present Convention in relation to any territory to which it is extended by the United States or the United Kingdom, references to "United States" or, as the case may be, "Great Britain", or to the territory of one (or of the other) Contracting Party, shall be construed as references to that territory.

Channel Islands and
Isle of Man.

(4) The provisions of the preceding paragraphs of this Article shall apply to the Channel Islands and the Isle of Man as if they were colonies of the United Kingdom.

ARTICLE IX

The present Convention shall apply in relation to estate duty imposed in Northern Ireland as it applies in relation to estate duty imposed in Great Britain, but shall be separately terminable in respect of Northern Ireland by the same procedure as is laid down in paragraph (2) of Article VIII.

ARTICLE X

Ratification.

(1) The present Convention shall be ratified and the instruments of ratification shall be exchanged at Washington as soon as possible.

Entry into force.

(2) The present Convention shall come into force on the date of exchange of ratifications and shall be effective only as to

- (a) the estates of persons dying on or after such date; and
- (b) the estate of any person dying before such date and after the 31st day of December, 1944, whose personal representative elects, in such manner as may be prescribed, that the provisions of the present Convention shall be applied to such estate.

ARTICLE XI

Duration; termina-
tion.

(1) The present Convention shall remain in force for not less than three years after the date of its coming into force.

(2) If not less than six months before the expiration of such period of three years, neither of the Contracting Parties shall have given to the other Contracting Party, through diplomatic channels, written notice of its intention to terminate the present Convention, the Convention shall remain in force after such period of three years until either of the Contracting Parties shall have given written notice of such intention, in which event the present Convention shall not be effective as to the estates of persons dying on or after the date (not being earlier than the sixtieth day after the date of such notice) specified in such notice, or, if no date is specified, on or after the sixtieth day after the date of such notice.

IN WITNESS WHEREOF the above-mentioned Plenipotentiaries have signed the present Convention and have affixed thereto their seals.

Articles of agreement between the United States of America and other powers respecting the International Monetary Fund. Formulated at the United Nations Monetary and Financial Conference, Bretton Woods, New Hampshire, July 1 to July 22, 1944; signed at Washington December 27, 1945; instrument of acceptance by the United States of America deposited December 20, 1945; effective December 27, 1945.

December 27, 1945
[T. I. A. S. 1501]

ARTICLES OF AGREEMENT OF THE INTERNATIONAL MONETARY FUND

59 Stat. 512.

The Governments on whose behalf the present Agreement is signed agree as follows:

INTRODUCTORY ARTICLE

The International Monetary Fund is established and shall operate in accordance with the following provisions:

ARTICLE I

PURPOSES

The purposes of the International Monetary Fund are:

- (i) To promote international monetary cooperation through a permanent institution which provides the machinery for consultation and collaboration on international monetary problems.
- (ii) To facilitate the expansion and balanced growth of international trade, and to contribute thereby to the promotion and maintenance of high levels of employment and real income and to the development of the productive resources of all members as primary objectives of economic policy.
- (iii) To promote exchange stability, to maintain orderly exchange arrangements among members, and to avoid competitive exchange depreciation.
- (iv) To assist in the establishment of a multilateral system of payments in respect of current transactions between members and in the elimination of foreign exchange restrictions which hamper the growth of world trade.
- (v) To give confidence to members by making the Fund's resources available to them under adequate safeguards, thus providing them with opportunity to correct maladjustments in their balance of payments without resorting to measures destructive of national or international prosperity.

- (vi) In accordance with the above, to shorten the duration and lessen the degree of disequilibrium in the international balances of payments of members.

The Fund shall be guided in all its decisions by the purposes set forth in this Article.

ARTICLE II MEMBERSHIP

Section 1. *Original members*

The original members of the Fund shall be those of the countries represented at the United Nations Monetary and Financial Conference whose governments accept membership before the date specified in Article XX, Section 2 (e).

Post, p. 1426.

Section 2. *Other members*

Membership shall be open to the governments of other countries at such times and in accordance with such terms as may be prescribed by the Fund.

ARTICLE III QUOTAS AND SUBSCRIPTIONS

Section 1. *Quotas*

Each member shall be assigned a quota. The quotas of the members represented at the United Nations Monetary and Financial Conference which accept membership before the date specified in Article XX, Section 2 (e), shall be those set forth in Schedule A. The quotas of other members shall be determined by the Fund.

Post, p. 1426.

Section 2. *Adjustment of quotas*

The Fund shall at intervals of five years review, and if it deems it appropriate propose an adjustment of, the quotas of the members. It may also, if it thinks fit, consider at any other time the adjustment of any particular quota at the request of the member concerned. A four-fifths majority of the total voting power shall be required for any change in quotas and no quota shall be changed without the consent of the member concerned.

Review every five years.

Change in quotas.

Section 3. *Subscriptions: time, place, and form of payment*

(a) The subscription of each member shall be equal to its quota and shall be paid in full to the Fund at the appropriate depository on or before the date when the member becomes eligible under Article XX, Section 4 (c) or (d), to buy currencies from the Fund.

Post, p. 1427.

- (b) Each member shall pay in gold, as a minimum, the smaller of
- (i) twenty-five percent of its quota; or
 - (ii) ten percent of its net official holdings of gold and United States dollars as at the date when the Fund notifies members under Article XX, Section 4 (a) that it will shortly be in a position to begin exchange transactions.

Post, p. 1427.

Each member shall furnish to the Fund the data necessary to determine its net official holdings of gold and United States dollars.

(c) Each member shall pay the balance of its quota in its own currency.

(d) If the net official holdings of gold and United States dollars of any member as at the date referred to in (b) (ii) above are not ascertainable because its territories have been occupied by the enemy, the Fund shall fix an appropriate alternative date for determining such holdings. If such date is later than that on which the country becomes eligible under Article XX, Section 4 (c) or (d), to buy currencies from the Fund, the Fund and the member shall agree on a provisional gold payment to be made under (b) above, and the balance of the member's subscription shall be paid in the member's currency, subject to appropriate adjustment between the member and the Fund when the net official holdings have been ascertained.

Post, p. 1427.

Section 4. *Payments when quotas are changed*

(a) Each member which consents to an increase in its quota shall, within thirty days after the date of its consent, pay to the Fund twenty-five percent of the increase in gold and the balance in its own currency. If, however, on the date when the member consents to an increase, its monetary reserves are less than its new quota, the Fund may reduce the proportion of the increase to be paid in gold.

Increase in quota.

(b) If a member consents to a reduction in its quota, the Fund shall, within thirty days after the date of the consent, pay to the member an amount equal to the reduction. The payment shall be made in the member's currency and in such amount of gold as may be necessary to prevent reducing the Fund's holdings of the currency below seventy-five percent of the new quota.

Reduction in quota.

Section 5. *Substitution of securities for currency*

The Fund shall accept from any member in place of any part of the member's currency which in the judgment of the Fund is not needed for its operations, notes or similar obligations issued by the member or the depository designated by the member under Article XIII, Section 2, which shall be non-negotiable, non-interest bearing and payable at their par value on demand by crediting the account of the Fund in the designated depository. This Section shall apply not only to currency subscribed by members but also to any currency otherwise due to, or acquired by, the Fund.

Post, p. 1420.

ARTICLE IV

PAR VALUES OF CURRENCIES

Section 1. *Expression of par values*

(a) The par value of the currency of each member shall be expressed in terms of gold as a common denominator or in terms of the United States dollar of the weight and fineness in effect on July 1, 1944.

(b) All computations relating to currencies of members for the purpose of applying the provisions of this Agreement shall be on the basis of their par values.

Section 2. *Gold purchases based on par values*

The Fund shall prescribe a margin above and below par value for transactions in gold by members, and no member shall buy gold at a price above par value plus the prescribed margin, or sell gold at a price below par value minus the prescribed margin.

Section 3. *Foreign exchange dealings based on parity*

Rates for exchange transactions.

The maximum and the minimum rates for exchange transactions between the currencies of members taking place within their territories shall not differ from parity.

- (i) in the case of spot exchange transactions, by more than one percent; and
- (ii) in the case of other exchange transactions, by a margin which exceeds the margin for spot exchange transactions by more than the Fund considers reasonable.

Section 4. *Obligations regarding exchange stability*

(a) Each member undertakes to collaborate with the Fund to promote exchange stability, to maintain orderly exchange arrangements with other members, and to avoid competitive exchange alterations.

(b) Each member undertakes, through appropriate measures consistent with this Agreement, to permit within its territories exchange transactions between its currency and the currencies of other members only within the limits prescribed under Section 3 of this Article. A member whose monetary authorities, for the settlement of international transactions, in fact freely buy and sell gold within the limits prescribed by the Fund under Section 2 of this Article shall be deemed to be fulfilling this undertaking.

Section 5. *Changes in par values*

(a) A member shall not propose a change in the par value of its currency except to correct a fundamental disequilibrium.

(b) A change in the par value of a member's currency may be made only on the proposal of the member and only after consultation with the Fund.

(c) When a change is proposed, the Fund shall first take into account the changes, if any, which have already taken place in the initial par value of the member's currency as determined under Article XX, Section 4. If the proposed change, together with all previous changes, whether increases or decreases,

- (i) does not exceed ten percent of the initial par value, the Fund shall raise no objection,
- (ii) does not exceed a further ten percent of the initial par value, the Fund may either concur or object, but shall declare its attitude within seventy-two hours if the member so requests,
- (iii) is not within (i) or (ii) above, the Fund may either concur or object, but shall be entitled to a longer period in which to declare its attitude.

(d) Uniform changes in par values made under Section 7 of this Article shall not be taken into account in determining whether a proposed change falls within (i), (ii), or (iii) of (c) above.

(e) A member may change the par value of its currency without the concurrence of the Fund if the change does not affect the international transactions of members of the Fund.

(f) The Fund shall concur in a proposed change which is within the terms of (c) (ii) or (c) (iii) above if it is satisfied that the change is necessary to correct a fundamental disequilibrium. In particular, provided it is so satisfied, it shall not object to a proposed change because of the domestic social or political policies of the member proposing the change.

Section 6. *Effect of unauthorized changes*

If a member changes the par value of its currency despite the objection of the Fund, in cases where the Fund is entitled to object, the member shall be ineligible to use the resources of the Fund unless the Fund otherwise determines; and if, after the expiration of a reasonable period, the difference between the member and the Fund continues, the matter shall be subject to the provisions of Article XV, Section 2 (b).

Post, p. 1421.

Section 7. *Uniform changes in par values*

Notwithstanding the provisions of Section 5 (b) of this Article, the Fund by a majority of the total voting power may make uniform proportionate changes in the par values of the currencies of all members, provided each such change is approved by every member which has ten percent or more of the total of the quotas. The par value of a member's currency shall, however, not be changed under this provision if, within seventy-two hours of the Fund's action, the member informs the Fund that it does not wish the par value of its currency to be changed by such action.

Section 8. *Maintenance of gold value of the Fund's assets*

(a) The gold value of the Fund's assets shall be maintained notwithstanding changes in the par or foreign exchange value of the currency of any member.

(b) Whenever (i) the par value of a member's currency is reduced, or (ii) the foreign exchange value of a member's currency has, in the opinion of the Fund, depreciated to a significant extent within that member's territories, the member shall pay to the Fund within a reasonable time an amount of its own currency equal to the reduction in the gold value of its currency held by the Fund.

Reduction in gold value.

(c) Whenever the par value of a member's currency is increased, the Fund shall return to such member within a reasonable time an amount in its currency equal to the increase in the gold value of its currency held by the Fund.

Increase in gold value.

(d) The provisions of this Section shall apply to a uniform proportionate change in the par values of the currencies of all members, unless at the time when such a change is proposed the Fund decides otherwise.

Section 9. *Separate currencies within a member's territories*

A member proposing a change in the par value of its currency shall be deemed, unless it declares otherwise, to be proposing a corresponding change in the par value of the separate currencies of all territories

Post, p. 1426.

in respect of which it has accepted this Agreement under Article XX, Section 2 (g). It shall, however, be open to a member to declare that its proposal relates either to the metropolitan currency alone, or only to one or more specified separate currencies, or to the metropolitan currency and one or more specified separate currencies.

ARTICLE V

TRANSACTIONS WITH THE FUND

Section 1. *Agencies dealing with the Fund*

Each member shall deal with the Fund only through its Treasury, central bank, stabilization fund or other similar fiscal agency and the Fund shall deal only with or through the same agencies.

Section 2. *Limitation on the Fund's operations*

Except as otherwise provided in this Agreement, operations on the account of the Fund shall be limited to transactions for the purpose of supplying a member, on the initiative of such member, with the currency of another member in exchange for gold or for the currency of the member desiring to make the purchase.

Section 3. *Conditions governing use of the Fund's resources*

Buying currency of another member.

(a) A member shall be entitled to buy the currency of another member from the Fund in exchange for its own currency subject to the following conditions:

- (i) The member desiring to purchase the currency represents that it is presently needed for making in that currency payments which are consistent with the provisions of this Agreement;
- (ii) The Fund has not given notice under Article VII, Section 3, that its holdings of the currency desired have become scarce;
- (iii) The proposed purchase would not cause the Fund's holdings of the purchasing member's currency to increase by more than twenty-five percent of its quota during the period of twelve months ending on the date of the purchase nor to exceed two hundred percent of its quota, but the twenty-five percent limitation shall apply only to the extent that the Fund's holdings of the member's currency have been brought above seventy-five percent of its quota if they had been below that amount;
- (iv) The Fund has not previously declared under Section 5 of this Article, Article IV, Section 6, Article VI, Section 1, or Article XV, Section 2 (a), that the member desiring to purchase is ineligible to use the resources of the Fund.

Ante, p. 1405; *post*, pp. 1409, 1421.

(b) A member shall not be entitled without the permission of the Fund to use the Fund's resources to acquire currency to hold against forward exchange transactions.

Section 4. *Waiver of conditions*

The Fund may in its discretion, and on terms which safeguard its interests, waive any of the conditions prescribed in Section 3 (a) of

this Article, especially in the case of members with a record of avoiding large or continuous use of the Fund's resources. In making a waiver it shall take into consideration periodic or exceptional requirements of the member requesting the waiver. The Fund shall also take into consideration a member's willingness to pledge as collateral security gold, silver, securities, or other acceptable assets having a value sufficient in the opinion of the Fund to protect its interests and may require as a condition of waiver the pledge of such collateral security.

Section 5. *Ineligibility to use the Fund's resources*

Whenever the Fund is of the opinion that any member is using the resources of the Fund in a manner contrary to the purposes of the Fund, it shall present to the member a report setting forth the views of the Fund and prescribing a suitable time for reply. After presenting such a report to a member, the Fund may limit the use of its resources by the member. If no reply to the report is received from the member within the prescribed time, or if the reply received is unsatisfactory, the Fund may continue to limit the member's use of the Fund's resources or may, after giving reasonable notice to the member, declare it ineligible to use the resources of the Fund.

Section 6. *Purchases of currencies from the Fund for gold*

(a) Any member desiring to obtain, directly or indirectly, the currency of another member for gold shall, provided that it can do so with equal advantage, acquire it by the sale of gold to the Fund.

(b) Nothing in this Section shall be deemed to preclude any member from selling in any market gold newly produced from mines located within its territories.

Newly mined gold.

Section 7. *Repurchase by a member of its currency held by the Fund*

(a) A member may repurchase from the Fund and the Fund shall sell for gold any part of the Fund's holdings of its currency in excess of its quota.

(b) At the end of each financial year of the Fund, a member shall repurchase from the Fund with gold or convertible currencies, as determined in accordance with Schedule B, part of the Fund's holdings of its currency under the following conditions:

Post, p. 1433.

- (i) Each member shall use in repurchases of its own currency from the Fund an amount of its monetary reserves equal in value to one-half of any increase that has occurred during the year in the Fund's holdings of its currency plus one-half of any increase, or minus one-half of any decrease, that has occurred during the year in the member's monetary reserves. This rule shall not apply when a member's monetary reserves have decreased during the year by more than the Fund's holdings of its currency have increased.
- (ii) If after the repurchase described in (i) above (if required) has been made, a member's holdings of another member's currency (or of gold acquired from that member) are found to

have increased by reason of transactions in terms of that currency with other members or persons in their territories, the member whose holdings of such currency (or gold) have thus increased shall use the increase to repurchase its own currency from the Fund.

(c) None of the adjustments described in (b) above shall be carried to a point at which

- (i) the member's monetary reserves are below its quota, or
- (ii) the Fund's holdings of its currency are below seventy-five percent of its quota, or
- (iii) the Fund's holdings of any currency required to be used are above seventy-five percent of the quota of the member concerned.

Section 8. *Charges*

Service charge.

(a) Any member buying the currency of another member from the Fund in exchange for its own currency shall pay a service charge uniform for all members of three-fourths percent in addition to the parity price. The Fund in its discretion may increase this service charge to not more than one percent or reduce it to not less than one-half percent.

Handling charge.

(b) The Fund may levy a reasonable handling charge on any member buying gold from the Fund or selling gold to the Fund.

(c) The Fund shall levy charges uniform for all members which shall be payable by any member on the average daily balances of its currency held by the Fund in excess of its quota. These charges shall be at the following rates:

- (i) *On amounts not more than twenty-five percent in excess of the quota*: no charge for the first three months; one-half percent per annum for the next nine months; and thereafter an increase in the charge of one-half percent for each subsequent year.
- (ii) *On amounts more than twenty-five percent and not more than fifty percent in excess of the quota*: an additional one-half percent for the first year; and an additional one-half percent for each subsequent year.
- (iii) *On each additional bracket of twenty-five percent in excess of the quota*: an additional one-half percent for the first year; and an additional one-half percent for each subsequent year.

(d) Whenever the Fund's holdings of a member's currency are such that the charge applicable to any bracket for any period has reached the rate of four percent per annum, the Fund and the member shall consider means by which the Fund's holdings of the currency can be reduced. Thereafter, the charges shall rise in accordance with the provisions of (c) above until they reach five percent and failing agreement, the Fund may then impose such charges as it deems appropriate.

Change in rates.

(e) The rates referred to in (c) and (d) above may be changed by a three-fourths majority of the total voting power.

(f) All charges shall be paid in gold. If, however, the member's monetary reserves are less than one-half of its quota, it shall pay in gold only that proportion of the charges due which such reserves bear to one-half of its quota, and shall pay the balance in its own currency. Charges payable in gold.

ARTICLE VI

CAPITAL TRANSFERS

Section 1. *Use of the Fund's resources for capital transfers*

(a) A member may not make net use of the Fund's resources to meet a large or sustained outflow of capital, and the Fund may request a member to exercise controls to prevent such use of the resources of the Fund. If, after receiving such a request, a member fails to exercise appropriate controls, the Fund may declare the member ineligible to use the resources of the Fund.

(b) Nothing in this Section shall be deemed

- (i) to prevent the use of the resources of the Fund for capital transactions of reasonable amount required for the expansion of exports or in the ordinary course of trade, banking or other business, or
- (ii) to affect capital movements which are met out of a member's own resources of gold and foreign exchange, but members undertake that such capital movements will be in accordance with the purposes of the Fund.

Section 2. *Special provisions for capital transfers*

If the Fund's holdings of the currency of a member have remained below seventy-five percent of its quota for an immediately preceding period of not less than six months, such member, if it has not been declared ineligible to use the resources of the Fund under Section 1 of this Article, Article IV, Section 6, Article V, Section 5, or Article XV, Section 2 (a), shall be entitled, notwithstanding the provisions of Section 1 (a) of this Article, to buy the currency of another member from the Fund with its own currency for any purpose, including capital transfers. Purchases for capital transfers under this Section shall not, however, be permitted if they have the effect of raising the Fund's holdings of the currency of the member desiring to purchase above seventy-five percent of its quota, or of reducing the Fund's holdings of the currency desired below seventy-five percent of the quota of the member whose currency is desired.

Ante, pp. 1405, 1407;
post, p. 1421.

Section 3. *Controls of capital transfers*

Members may exercise such controls as are necessary to regulate international capital movements, but no member may exercise these controls in a manner which will restrict payments for current transactions or which will unduly delay transfers of funds in settlement of commitments, except as provided in Article VII, Section 3 (b), and in Article XIV, Section 2.

Post, p. 1410.

Post, p. 1420.

ARTICLE VII

SCARCE CURRENCIES

Section 1. *General scarcity of currency*

Report.

If the Fund finds that a general scarcity of a particular currency is developing, the Fund may so inform members and may issue a report setting forth the causes of the scarcity and containing recommendations designed to bring it to an end. A representative of the member whose currency is involved shall participate in the preparation of the report.

Section 2. *Measures to replenish the Fund's holdings of scarce currencies*

The Fund may, if it deems such action appropriate to replenish its holdings of any member's currency, take either or both of the following steps:

- (i) Propose to the member that, on terms and conditions agreed between the Fund and the member, the latter lend its currency to the Fund or that, with the approval of the member, the Fund borrow such currency from some other source either within or outside the territories of the member, but no member shall be under any obligation to make such loans to the Fund or to approve the borrowing of its currency by the Fund from any other source.
- (ii) Require the member to sell its currency to the Fund for gold.

Section 3. *Scarcity of the Fund's holdings*

(a) If it becomes evident to the Fund that the demand for a member's currency seriously threatens the Fund's ability to supply that currency, the Fund, whether or not it has issued a report under Section 1 of this Article, shall formally declare such currency scarce and shall thenceforth apportion its existing and accruing supply of the scarce currency with due regard to the relative needs of members, the general international economic situation and any other pertinent considerations. The Fund shall also issue a report concerning its action.

(b) A formal declaration under (a) above shall operate as an authorization to any member, after consultation with the Fund, temporarily to impose limitations on the freedom of exchange operations in the scarce currency. Subject to the provisions of Article IV, Sections 3 and 4, the member shall have complete jurisdiction in determining the nature of such limitations, but they shall be no more restrictive than is necessary to limit the demand for the scarce currency to the supply held by, or accruing to, the member in question; and they shall be relaxed and removed as rapidly as conditions permit.

Ante, p. 1404.

(c) The authorization under (b) above shall expire whenever the Fund formally declares the currency in question to be no longer scarce.

Section 4. *Administration of restrictions*

Any member imposing restrictions in respect of the currency of any other member pursuant to the provisions of Section 3 (b) of this Article shall give sympathetic consideration to any representations by the other member regarding the administration of such restrictions.

Section 5. *Effect of other international agreements on restrictions*

Members agree not to invoke the obligations of any engagements entered into with other members prior to this Agreement in such a manner as will prevent the operation of the provisions of this Article.

ARTICLE VIII

GENERAL OBLIGATIONS OF MEMBERS

Section 1. *Introduction*

In addition to the obligations assumed under other articles of this Agreement, each member undertakes the obligations set out in this Article.

Section 2. *Avoidance of restrictions on current payments*

(a) Subject to the provisions of Article VII, Section 3 (b), and Article XIV, Section 2, no member shall, without the approval of the Fund, impose restrictions on the making of payments and transfers for current international transactions.

Post, p. 1420.

(b) Exchange contracts which involve the currency of any member and which are contrary to the exchange control regulations of that member maintained or imposed consistently with this Agreement shall be unenforceable in the territories of any member. In addition, members may, by mutual accord, cooperate in measures for the purpose of making the exchange control regulations of either member more effective, provided that such measures and regulations are consistent with this Agreement.

Section 3. *Avoidance of discriminatory currency practices*

No member shall engage in, or permit any of its fiscal agencies referred to in Article V, Section 1, to engage in, any discriminatory currency arrangements or multiple currency practices except as authorized under this Agreement or approved by the Fund. If such arrangements and practices are engaged in at the date when this Agreement enters into force the member concerned shall consult with the Fund as to their progressive removal unless they are maintained or imposed under Article XIV, Section 2, in which case the provisions of Section 4 of that Article shall apply.

Ante, p. 1406.

Post, p. 1420.

Section 4. *Convertibility of foreign held balances*

(a) Each member shall buy balances of its currency held by another member if the latter, in requesting the purchase, represents

- (i) that the balances to be bought have been recently acquired as a result of current transactions; or
- (ii) that their conversion is needed for making payments for current transactions.

The buying member shall have the option to pay either in the currency of the member making the request or in gold.

(b) The obligation in (a) above shall not apply

- (i) when the convertibility of the balances has been restricted consistently with Section 2 of this Article, or Article VI, Section 3; or

Ante, p. 1409.

Post, p. 1420.

Ante, p. 1410.

- (ii) when the balances have accumulated as a result of transactions effected before the removal by a member of restrictions maintained or imposed under Article XIV, Section 2; or
- (iii) when the balances have been acquired contrary to the exchange regulations of the member which is asked to buy them; or
- (iv) when the currency of the member requesting the purchase has been declared scarce under Article VII, Section 3 (a); or
- (v) when the member requested to make the purchase is for any reason not entitled to buy currencies of other members from the Fund for its own currency.

Section 5. *Furnishing of information*

(a) The Fund may require members to furnish it with such information as it deems necessary for its operations, including, as the minimum necessary for the effective discharge of the Fund's duties, national data on the following matters:

- (i) Official holdings at home and abroad, of (1) gold, (2) foreign exchange.
- (ii) Holdings at home and abroad by banking and financial agencies, other than official agencies, of (1) gold, (2) foreign exchange.

- (x) Buying and selling rates for foreign currencies.
- (xi) Exchange controls, *i.e.*, a comprehensive statement of exchange controls in effect at the time of assuming membership in the Fund and details of subsequent changes as they occur.
- (xii) Where official clearing arrangements exist, details of amounts awaiting clearance in respect of commercial and financial transactions, and of the length of time during which such arrears have been outstanding.

(b) In requesting information the Fund shall take into consideration the varying ability of members to furnish the data requested.

Furnishing of information.

Members shall be under no obligation to furnish information in such detail that the affairs of individuals or corporations are disclosed. Members undertake, however, to furnish the desired information in as detailed and accurate a manner as is practicable, and, so far as possible, to avoid mere estimates.

(c) The Fund may arrange to obtain further information by agreement with members. It shall act as a centre for the collection and exchange of information on monetary and financial problems, thus facilitating the preparation of studies designed to assist members in developing policies which further the purposes of the Fund.

Section 6. Consultation between members regarding existing international agreements

Where under this Agreement a member is authorized in the special or temporary circumstances specified in the Agreement to maintain or establish restrictions on exchange transactions, and there are other engagements between members entered into prior to this Agreement which conflict with the application of such restrictions, the parties to such engagements will consult with one another with a view to making such mutually acceptable adjustments as may be necessary. The provisions of this Article shall be without prejudice to the operation of Article VII, Section 5.

Art. p. 1411.

(c) No taxation of any kind shall be levied on any obligation or security issued by the Fund, including any dividend or interest thereon, by whomsoever held

- (i) which discriminates against such obligation or security solely because of its origin; or
- (ii) if the sole jurisdictional basis for such taxation is the place or currency in which it is issued, made payable or paid, or the location of any office or place of business maintained by the Fund.

Section 10. Application of Article

Each member shall take such action as is necessary in its own territories for the purpose of making effective in terms of its own law the principles set forth in this Article and shall inform the Fund of the detailed action which it has taken.

ARTICLE X

Any arrangements for such cooperation which would involve a modification of any provision of this Agreement may be effected only after amendment to this Agreement under Article XVII.

Post, p. 1423.

ARTICLE XI

RELATIONS WITH NON-MEMBER COUNTRIES

Section 1. *Undertakings regarding relations with non-member countries*

Each member undertakes:

- (i) Not to engage in, nor to permit any of its fiscal agencies referred to in Article V, Section 1, to engage in, any transactions with a non-member or with persons in a non-member's territories which would be contrary to the provisions of this Agreement or the purposes of the Fund;
- (ii) Not to cooperate with a non-member or with persons in a non-member's territories in practices which would be contrary to the provisions of this Agreement or the purposes of the Fund; and
- (iii) To cooperate with the Fund with a view to the application in its territories of appropriate measures to prevent transactions with non-members or with persons in their territories which would be contrary to the provisions of this Agreement or the purposes of the Fund.

Art., p. 1406.

Section 2. *Restrictions on transactions with non-member countries*

Nothing in this Agreement shall affect the right of any member to impose restrictions on exchange transactions with non-members or with persons in their territories unless the Fund finds that such restrictions prejudice the interests of members and are contrary to the purposes of the Fund.

ARTICLE XII

Section 1. *Structure of the Fund*

The Fund shall have a Board of Governors, Executive Directors, a Managing Director and a staff.

Section 2. *Board of Governors*

Each governor and each alternate shall serve for five years, subject to the pleasure of the member appointing him, and may be reappointed. No alternate may vote except in the absence of his principal. The Board shall select one of the governors as chairman.

(c) If, at the second regular election of directors and thereafter, the members entitled to appoint directors under (b) (i) above do not include the two members, the holdings of whose currencies by the Fund have been, on the average over the preceding two years, reduced below their quotas by the largest absolute amounts in terms of gold as a common denominator, either one or both of such members, as the case may be, shall be entitled to appoint a director.

(d) Subject to Article XX, Section 3(b) elections of elective directors shall be conducted at intervals of two years in accordance with the provisions of Schedule C, supplemented by such regulations as the Fund deems appropriate. Committees.

(k) The Executive Directors may appoint such committees as they deem advisable. Membership of committees need not be limited to governors or directors or their alternates.

Section 4. *Managing Director and staff*

(a) The Executive Directors shall select a Managing Director who shall not be a governor or an executive director. The Managing Director shall be chairman of the Executive Directors, but shall have no vote except a deciding vote in case of an equal division. Subject to the general control of the Executive Directors, he shall be responsible for the organization, appointment and dismissal of the staff of the Fund.

(c) The Managing Director and the staff of the Fund, in the discharge of their functions, shall owe their duty entirely to the Fund and to no other authority. Each member of the Fund shall respect the international character of this duty and shall refrain from all attempts to influence any of the staff in the discharge of his functions.

(d) In appointing the staff the Managing Director shall, subject to the paramount importance of securing the highest standards of efficiency and of technical competence, pay due regard to the importance of recruiting personnel on as wide a geographical basis as possible.

Section 5. *Voting*

(a) Each member shall have two hundred fifty votes plus one additional vote for each part of its quota equivalent to one hundred thousand United States dollars.

Ante, pp. 1406, 1407.

(b) Whenever voting is required under Article V, Section 4 or 5, each member shall have the number of votes to which it is entitled under (a) above, adjusted:

- (i) by the addition of one vote for the equivalent of each four hundred thousand United States dollars of net sales of its currency up to the date when the vote is taken, or
- (ii) by the subtraction of one vote for the equivalent of each four hundred thousand United States dollars of its net purchases of the currencies of other members up to the date when the vote is taken

provided, that neither net purchases nor net sales shall be deemed at any time to exceed an amount equal to the quota of the member involved.

(c) For the purpose of all computations under this Section, United States dollars shall be deemed to be of the weight and fineness in effect on July 1, 1944, adjusted for any uniform change under Article IV, Section 7, if a waiver is made under Section 8 (d) of that Article.

Ante, p. 1405.

(d) Except as otherwise specifically provided, all decisions of the fund shall be made by a majority of the votes cast.

Section 6. *Distribution of net income*

(a) The Board of Governors shall determine annually what part of the Fund's net income shall be placed to reserve and what part, if any, shall be distributed.

(b) If any distribution is made, there shall first be distributed a two percent non-cumulative payment to each member on the amount by which seventy-five percent of its quota exceeded the Fund's average holdings of its currency during that year. The balance shall be paid to all members in proportion to their quotas. Payments to each member shall be made in its own currency.

Section 7. *Publication of reports*

(a) The Fund shall publish an annual report containing an audited statement of its accounts, and shall issue, at intervals of three months or less, a summary statement of its transactions and its holdings of gold and currencies of members.

(b) The Fund may publish such other reports as it deems desirable for carrying out its purposes.

Section 8. *Communication of views to members*

The Fund shall at all times have the right to communicate its views informally to any member on any matter arising under this Agreement. The Fund may, by a two-thirds majority of the total voting power, decide to publish a report made to a member regarding its monetary or economic conditions and developments which directly tend to produce a serious disequilibrium in the international balance of payments of members. If the member is not entitled to appoint an executive director, it shall be entitled to representation in accordance with Section 3 (j) of this Article. The Fund shall not publish a report involving changes in the fundamental structure of the economic organization of members.

Reports.

Ante, p. 1418.

ARTICLE XIII

OFFICES AND DEPOSITORIES

Section 1. *Location of offices*

The principal office of the Fund shall be located in the territory of the member having the largest quota, and agencies or branch offices may be established in the territories of other members.

Section 2. *Depositories*

(a) Each member country shall designate its central bank as a depository for all the Fund's holdings of its currency, or if it has no central bank it shall designate such other institution as may be acceptable to the Fund.

Other assets in designated depositories.

(b) The Fund may hold other assets, including gold, in the depositories designated by the five members having the largest quotas and in such other designated depositories as the Fund may select. Initially, at least one-half of the holdings of the Fund shall be held in the depository designated by the member in whose territories the Fund has its principal office and at least forty percent shall be held in the depositories designated by the remaining four members referred to above. However, all transfers of gold by the Fund shall be made with due regard to the costs of transport and anticipated requirements of the Fund. In an emergency the Executive Directors may transfer all or any part of the Fund's gold holdings to any place where they can be adequately protected.

Transfers of gold.

Section 3. *Guarantee of the Fund's assets*

Each member guarantees all assets of the Fund against loss resulting from failure or default on the part of the depository designated by it.

ARTICLE XIV

TRANSITIONAL PERIOD

Section 1. *Introduction*

The Fund is not intended to provide facilities for relief or reconstruction or to deal with international indebtedness arising out of the war.

Section 2. *Exchange restrictions*

In the post-war transitional period members may, notwithstanding the provisions of any other articles of this Agreement, maintain and adapt to changing circumstances (and, in the case of members whose territories have been occupied by the enemy, introduce where necessary) restrictions on payments and transfers for current international transactions. Members shall, however, have continuous regard in their foreign exchange policies to the purposes of the fund; and, as soon as conditions permit, they shall take all possible measures to develop such commercial and financial arrangements with other members as will facilitate international payments and the maintenance of exchange stability. In particular, members shall withdraw restrictions maintained or imposed under this Section as soon as they are satisfied that they will be able, in the absence of such restrictions, to settle their balance of payments in a manner which will not unduly encumber their access to the resources of the Fund.

Section 3. *Notification to the Fund*

Each member shall notify the Fund before it becomes eligible under Article XX, Section 4 (c) or (d), to buy currency from the Fund, whether it intends to avail itself of the transitional arrangements in

Section 2 of this Article, or whether it is prepared to accept the obligations of Article VIII, Sections 2, 3, and 4. A member availing itself of the transitional arrangements shall notify the Fund as soon thereafter as it is prepared to accept the above-mentioned obligations.

Ante, p. 1411.

Section 4. Action of the Fund relating to restrictions

Not later than three years after the date on which the Fund begins operations and in each year thereafter, the Fund shall report on the restrictions still in force under Section 2 of this Article. Five years after the date on which the Fund begins operations, and in each year thereafter, any member still retaining any restrictions inconsistent with Article VIII, Sections 2, 3, or 4, shall consult the Fund as to their further retention. The Fund may, if it deems such action necessary in exceptional circumstances, make representations to any member that conditions are favorable for the withdrawal of any particular restriction, or for the general abandonment of restrictions, inconsistent with the provisions of any other articles of this Agreement. The member shall be given a suitable time to reply to such representations. If the Fund finds that the member persists in maintaining restrictions which are inconsistent with the purposes of the Fund, the member shall be subject to Article XV, Section 2 (a).

Ante, p. 1411.

Section 5. Nature of transitional period

In its relations with members, the Fund shall recognize that the post-war transitional period will be one of change and adjustment and in making decisions on requests occasioned thereby which are presented by any member it shall give the member the benefit of any reasonable doubt.

ARTICLE XV

WITHDRAWAL FROM MEMBERSHIP

Section 1. Right of members to withdraw

Any member may withdraw from the Fund at any time by transmitting a notice in writing to the Fund at its principal office. Withdrawal shall become effective on the date such notice is received.

Section 2. Compulsory withdrawal

(a) If a member fails to fulfill any of its obligations under this Agreement, the Fund may declare the member ineligible to use the resources of the Fund. Nothing in this Section shall be deemed to limit the provisions of Article IV, Section 6, Article V, Section 5, or Article VI, Section 1.

Ante, pp. 1405, 1407, 1409.

(b) If, after the expiration of a reasonable period the member persists in its failure to fulfill any of its obligations under this Agreement, or a difference between a member and the Fund under Article IV, Section 6, continues, that member may be required to withdraw from membership in the Fund by a decision of the Board of Governors carried by a majority of the governors representing a majority of the total voting power.

Ante, p. 1405.

(c) Regulations shall be adopted to ensure that before action is taken against any member under (a) or (b) above, the member shall

be informed in reasonable time of the complaint against it and given an adequate opportunity for stating its case, both orally and in writing.

Section 3. *Settlement of accounts with members withdrawing*

When a member withdraws from the Fund, normal transactions of the Fund in its currency shall cease and settlement of all accounts between it and the Fund shall be made with reasonable despatch by agreement between it and the Fund. If agreement is not reached promptly, the provisions of Schedule D shall apply to the settlement of accounts.

Post, p. 1435.

ARTICLE XVI

EMERGENCY PROVISIONS

Section 1. *Temporary suspension*

(a) In the event of an emergency or the development of unforeseen circumstances threatening the operations of the Fund, the Executive Directors by unanimous vote may suspend for a period of not more than one hundred twenty days the operation of any of the following provisions:

- (i) Article IV, Sections 3 and 4 (b)
- (ii) Article V, Sections 2, 3, 7, 8 (a) and (f)
- (iii) Article VI, Section 2
- (iv) Article XI, Section 1

Ante, p. 1404.

Ante, pp. 1406, 1407, 1408.

Ante, p. 1409.

Ante, p. 1415.

(b) Simultaneously with any decision to suspend the operation of any of the foregoing provisions, the Executive Directors shall call a meeting of the Board of Governors for the earliest practicable date.

Extension of suspension.

(c) The Executive Directors may not extend any suspension beyond one hundred twenty days. Such suspension may be extended, however, for an additional period of not more than two hundred forty days, if the Board of Governors by a four-fifths majority of the total voting power so decides, but it may not be further extended except by amendment of this Agreement pursuant to Article XVII.

Termination.

(d) The Executive Directors may, by a majority of the total voting power, terminate such suspension at any time.

Section 2. *Liquidation of the Fund*

(a) The Fund may not be liquidated except by decision of the Board of Governors. In an emergency, if the Executive Directors decide that liquidation of the Fund may be necessary, they may temporarily suspend all transactions, pending decision by the Board.

(b) If the Board of Governors decides to liquidate the Fund, the Fund shall forthwith cease to engage in any activities except those incidental to the orderly collection and liquidation of its assets and the settlement of its liabilities, and all obligations of members under this Agreement shall cease except those set out in this Article, in Article XVIII, paragraph (c), in Schedule D, paragraph 7, and in Schedule E.

Post, pp. 1423, 1436.

(c) Liquidation shall be administered in accordance with the provisions of Schedule E.

ARTICLE XVII

AMENDMENTS

(a) Any proposal to introduce modifications in this Agreement, whether emanating from a member, a governor or the Executive Directors, shall be communicated to the chairman of the Board of Governors who shall bring the proposal before the Board. If the proposed amendment is approved by the Board the Fund shall, by circular letter or telegram, ask all members whether they accept the proposed amendment. When three-fifths of the members, having four-fifths of the total voting power, have accepted the proposed amendment, the Fund shall certify the fact by a formal communication addressed to all members.

(b) Notwithstanding (a) above, acceptance by all members is required in the case of any amendment modifying

- (i) the right to withdraw from the Fund (Article XV, Section 1); *Ante*, p. 1421.
- (ii) the provision that no change in a member's quota shall be made without its consent (Article III, Section 2); *Ante*, p. 1402.
- (iii) the provision that no change may be made in the par value of a member's currency except on the proposal of that member (Article IV, Section 5 (b)). *Ante*, p. 1404.

(c) Amendments shall enter into force for all members three months after the date of the formal communication unless a shorter period is specified in the circular letter or telegram.

ARTICLE XVIII

INTERPRETATION

(a) Any question of interpretation of the provisions of this Agreement arising between any member and the Fund or between any members of the Fund shall be submitted to the Executive Directors for their decision. If the question particularly affects any member not entitled to appoint an executive director it shall be entitled to representation in accordance with Article XII, Section 3 (j). *Ante*, p. 1418.

(b) In any case where the Executive Directors have given a decision under (a) above, any member may require that the question be referred to the Board of Governors, whose decision shall be final. Pending the result of the reference to the Board the Fund may, so far as it deems necessary, act on the basis of the decision of the Executive Directors.

(c) Whenever a disagreement arises between the Fund and a member which has withdrawn, or between the Fund and any member during liquidation of the Fund, such disagreement shall be submitted to arbitration by a tribunal of three arbitrators, one appointed by the Fund, another by the member or withdrawing member and an umpire who, unless the parties otherwise agree, shall be appointed by the President of the Permanent Court of International Justice or such other authority as may have been prescribed by regulation adopted

Submittal of disagreement to arbitration.

by the Fund. The umpire shall have full power to settle all questions of procedure in any case where the parties are in disagreement with respect thereto.

ARTICLE XIX

EXPLANATION OF TERMS

In interpreting the provisions of this Agreement the Fund and its members shall be guided by the following:

- Monetary reserves.** (a) A member's monetary reserves means its net official holdings of gold, of convertible currencies of other members, and of the currencies of such non-members as the Fund may specify.
- Official holdings.** (b) The official holdings of a member means central holdings (that is, the holdings of its Treasury, central bank, stabilization fund, or similar fiscal agency).
- (c) The holdings of other official institutions or other banks within its territories may, in any particular case, be deemed by the Fund, after consultation with the member, to be official holdings to the extent that they are substantially in excess of working balances; provided that for the purpose of determining whether, in a particular case, holdings are in excess of working balances, there shall be deducted from such holdings amounts of currency due to official institutions and banks in the territories of members or non-members specified under (d) below.
- Convertible currencies.** (d) A member's holdings of convertible currencies means its holdings of the currencies of other members which are not availing themselves of the transitional arrangements under Article XIV, Section 2, together with its holdings of the currencies of such non-members as the Fund may from time to time specify. The term currency for this purpose includes without limitation coins, paper money, bank balances, bank acceptances, and government obligations issued with a maturity not exceeding twelve months.
- Ante*, p. 1420.
- Currency.** (e) A member's monetary reserves shall be calculated by deducting from its central holdings the currency liabilities to the Treasuries, central banks, stabilization funds, or similar fiscal agencies of other members or non-members specified under (d) above, together with similar liabilities to other official institutions and other banks in the territories of members, or non-members specified under (d) above. To these net holdings shall be added the sums deemed to be official holdings of other official institutions and other banks under (c) above.
- Calculation of monetary reserves.** (f) The Fund's holdings of the currency of a member shall include any securities accepted by the Fund under Article III, Section 5.
- Ante*, p. 1403.
- (g) The Fund, after consultation with a member which is availing itself of the transitional arrangements under Article XIV, Section 2, may deem holdings of the currency of that member which carry specified rights of conversion into another currency or into gold to be holdings of convertible currency for the purpose of the calculation of monetary reserves.
- Ante*, p. 1420.

(h) For the purpose of calculating gold subscriptions under Article III, Section 3, a member's net official holdings of gold and United States dollars shall consist of its official holdings of gold and United States currency after deducting central holdings of its currency by other countries and holdings of its currency by other official institutions and other banks if these holdings carry specified rights of conversion into gold or United States currency.

Ante, p. 1402.

(i) Payments for current transactions means payments which are not for the purpose of transferring capital, and includes, without limitation:

Payments for current transactions.

- (1) All payments due in connection with foreign trade, other current business, including services, and normal short-term banking and credit facilities;
- (2) Payments due as interest on loans and as net income from other investments;
- (3) Payments of moderate amount for amortization of loans or for depreciation of direct investments;
- (4) Moderate remittances for family living expenses.

The Fund may, after consultation with the members concerned, determine whether certain specific transactions are to be considered current transactions or capital transactions.

(b) Each government shall become a member of the Fund as from the date of the deposit on its behalf of the instrument referred to in (a) above, except that no government shall become a member before this Agreement enters into force under Section 1 of this Article.

(c) The Government of the United States of America shall inform the governments of all countries whose names are set forth in Schedule A, and all governments whose membership is approved in accordance with Article II, Section 2, of all signatures of this Agreement and of the deposit of all instruments referred to in (a) above.

Post, p. 1432.

Ante, p. 1402.

Transmittal of funds for administrative purposes.

(d) At the time this Agreement is signed on its behalf, each government shall transmit to the Government of the United States of America one one-hundredth of one percent of its total subscription in gold or United States dollars for the purpose of meeting administrative expenses of the Fund. The Government of the United States of America shall hold such funds in a special deposit account and shall transmit them to the Board of Governors of the Fund when the initial meeting has been called under Section 3 of this Article. If this Agreement has not come into force by December 31, 1945, the Government of the United States of America shall return such funds to the governments that transmitted them.

(e) This Agreement shall remain open for signature at Washington on behalf of the governments of the countries whose names are set forth in Schedule A until December 31, 1945.

Post, p. 1432.

(f) After December 31, 1945, this Agreement shall be open for signature on behalf of the government of any country whose membership has been approved in accordance with Article II, Section 2.

Ante, p. 1402.

(g) By their signature of this Agreement, all governments accept it both on their own behalf and in respect of all their colonies, overseas territories, all territories under their protection, suzerainty, or authority and all territories in respect of which they exercise a mandate.

Enemy occupation.

(h) In the case of governments whose metropolitan territories have been under enemy occupation, the deposit of the instrument referred to in (a) above may be delayed until one hundred eighty days after the date on which these territories have been liberated. If, however, it is not deposited by any such government before the expiration of this period the signature affixed on behalf of that government shall become void and the portion of its subscription paid under (d) above shall be returned to it.

(i) Paragraphs (d) and (h) shall come into force with regard to each signatory government as from the date of its signature.

Section 3. *Inauguration of the Fund*

(a) As soon as this Agreement enters into force under Section 1 of this Article, each member shall appoint a governor and the member having the largest quota shall call the first meeting of the Board of Governors.

Provisional executive directors.

(b) At the first meeting of the Board of Governors, arrangements shall be made for the selection of provisional executive directors. The governments of the five countries for which the largest quotas

are set forth in Schedule A shall appoint provisional executive directors. If one or more of such governments have not become members, the executive directorships they would be entitled to fill shall remain vacant until they become members, or until January 1, 1946, whichever is the earlier. Seven provisional executive directors shall be elected in accordance with the provisions of Schedule C and shall remain in office until the date of the first regular election of executive directors which shall be held as soon as practicable after January 1, 1946.

Post, p. 1432.

(c) The Board of Governors may delegate to the provisional executive directors any powers except those which may not be delegated to the Executive Directors.

Post, p. 1434.

Section 4. *Initial determination of par values*

(a) When the Fund is of the opinion that it will shortly be in a position to begin exchange transactions, it shall so notify the members and shall request each member to communicate within thirty days the par value of its currency based on the rates of exchange prevailing on the sixtieth day before the entry into force of this Agreement. No member whose metropolitan territory has been occupied by the enemy shall be required to make such a communication while that territory is a theater of major hostilities or for such period thereafter as the Fund may determine. When such a member communicates the par value of its currency the provisions of (d) below shall apply.

(b) The par value communicated by a member whose metropolitan territory has not been occupied by the enemy shall be the par value of that member's currency for the purposes of this Agreement unless, within ninety days after the request referred to in (a) above has been received, (i) the member notifies the Fund that it regards the par value as unsatisfactory, or (ii) the Fund notifies the member that in its opinion the par value cannot be maintained without causing recourse to the Fund on the part of that member or others on a scale prejudicial to the Fund and to members. When notification is given under (i) or (ii) above, the Fund and the member shall, within a period determined by the Fund in the light of all relevant circumstances, agree upon a suitable par value for that currency. If the Fund and the member do not agree within the period so determined, the member shall be deemed to have withdrawn from the Fund on the date when the period expires.

(c) When the par value of a member's currency has been established under (b) above, either by the expiration of ninety days without notification, or by agreement after notification, the member shall be eligible to buy from the Fund the currencies of other members to the full extent permitted in this Agreement, provided that the Fund has begun exchange transactions.

(d) In the case of a member whose metropolitan territory has been occupied by the enemy, the provisions of (b) above shall apply, subject to the following modifications:

Territory occupied
by enemy.

- (i) The period of ninety days shall be extended so as to end on a date to be fixed by agreement between the Fund and the member.
- (ii) Within the extended period the member may, if the Fund has begun exchange transactions, buy from the Fund with its currency the currencies of other members, but only under such conditions and in such amounts as may be prescribed by the Fund.
- (iii) At any time before the date fixed under (i) above, changes may be made by agreement with the Fund in the par value communicated under (a) above.

(e) If a member whose metropolitan territory has been occupied by the enemy adopts a new monetary unit before the date to be fixed under (d) (i) above, the par value fixed by that member for the new unit shall be communicated to the Fund and the provisions of (d) above shall apply.

Ante, p. 1404.

(f) Changes in par values agreed with the Fund under this Section shall not be taken into account in determining whether a proposed change falls within (i), (ii), or (iii) of Article IV, Section 5 (c).

Ante, p. 1426.

(g) A member communicating to the Fund a par value for the currency of its metropolitan territory shall simultaneously communicate a value, in terms of that currency, for each separate currency, where such exists, in the territories in respect of which it has accepted this Agreement under Section 2 (g) of this Article, but no member shall be required to make a communication for the separate currency of a territory which has been occupied by the enemy while that territory is a theater of major hostilities or for such period thereafter as the Fund may determine. On the basis of the par value so communicated, the Fund shall compute the par value of each separate currency. A communication or notification to the Fund under (a), (b) or (d) above regarding the par value of a currency, shall also be deemed, unless the contrary is stated, to be a communication or notification regarding the par value of all the separate currencies referred to above. Any member may, however, make a communication or notification relating to the metropolitan or any of the separate currencies alone. If the member does so, the provisions of the preceding paragraphs (including (d) above, if a territory where a separate currency exists has been occupied by the enemy) shall apply to each of these currencies separately.

Beginning of exchange transactions.

Post, p. 1432.

(h) The Fund shall begin exchange transactions at such date as it may determine after members having sixty-five percent of the total of the quotas set forth in Schedule A have become eligible, in accordance with the preceding paragraphs of this Section, to purchase the currencies of other members, but in no event until after major hostilities in Europe have ceased.

(i) The Fund may postpone exchange transactions with any member if its circumstances are such that, in the opinion of the Fund, they would lead to use of the resources of the Fund in a manner

contrary to the purposes of this Agreement or prejudicial to the Fund or the members.

(j) The par values of the currencies of governments which indicate their desire to become members after December 31, 1945, shall be determined in accordance with the provisions of Article II, Section 2.

Ante, p. 1402.

DONE at Washington, in a single copy which shall remain deposited in the archives of the Government of the United States of America, which shall transmit certified copies to all governments whose names are set forth in Schedule A and to all governments whose membership is approved in accordance with Article II, Section 2.

SCHEDULE B

*Provisions With Respect to Repurchase
by a Member of Its Currency Held by the Fund*

1. In determining the extent to which repurchase of a member's currency from the Fund under Article V, Section 7 (b) shall be made with each type of monetary reserve, that is, with gold and with each convertible currency, the following rule, subject to 2 below, shall apply:

Ante, p. 1407.

- (a) If the member's monetary reserves have not increased during the year, the amount payable to the Fund shall be distributed among all types of reserves in proportion to the member's holdings thereof at the end of the year.
- (b) If the member's monetary reserves have increased during the year, a part of the amount payable to the Fund equal to one-half of the increase shall be distributed among those types of reserves which have increased in proportion to the amount by which each of them has increased. The remainder of the sum payable to the Fund shall be distributed among all types of reserves in proportion to the member's remaining holdings thereof.
- (c) If after all the repurchases required under Article V, Section 7 (b), had been made, the result would exceed any of the limits specified in Article V, Section 7 (c), the Fund shall require such repurchases to be made by the members proportionately in such manner that the limits will not be exceeded.

Ante, p. 1408.

2. The Fund shall not acquire the currency of any non-member under Article V, Section 7 (b) and (c).

3. In calculating monetary reserves and the increase in monetary reserves during any year for the purpose of Article V, Section 7 (b) and (c), no account shall be taken, unless deductions have otherwise been made by the member for such holdings, of any increase in those monetary reserves which is due to currency previously inconvertible having become convertible during the year; or to holdings which are the proceeds of a long-term or medium-term loan contracted during the year; or to holdings which have been transferred or set aside for repayment of a loan during the subsequent year.

Ante, pp. 1407, 1408.

4. In the case of members whose metropolitan territories have been occupied by the enemy, gold newly produced during the five years after the entry into force of this Agreement from mines located within their metropolitan territories shall not be included in computations of their monetary reserves or of increases in their monetary reserves.

Newly mined gold.

SCHEDULE C

Election of Executive Directors

1. The election of the elective executive directors shall be by ballot of the governors eligible to vote under Article XII, Section 3 (b) (iii) and (iv).

Ante, p. 1416.

2. In balloting for the five directors to be elected under Article XII, Section 3 (b) (iii), each of the governors eligible to vote shall cast for one person all of the votes to which he is entitled under Article XII, Section 5 (a). The five persons receiving the greatest number of votes shall be directors, provided that no person who received less than nineteen percent of the total number of votes that can be cast (eligible votes) shall be considered elected.

Ante, p. 1418.

3. When five persons are not elected in the first ballot, a second ballot shall be held in which the person who received the lowest number of votes shall be ineligible for election and in which there shall vote only (a) those governors who voted in the first ballot for a person not elected, and (b) those governors whose votes for a person elected are deemed under 4 below to have raised the votes cast for that person above twenty percent of the eligible votes.

4. In determining whether the votes cast by a governor are to be deemed to have raised the total of any person above twenty percent of the eligible votes the twenty percent shall be deemed to include, first, the votes of the governor casting the largest number of votes for such person, then the votes of the governor casting the next largest number, and so on until twenty percent is reached.

5. Any governor part of whose votes must be counted in order to raise the total of any person above nineteen percent shall be considered as casting all of his votes for such person even if the total votes for such person thereby exceed twenty percent.

6. If, after the second ballot, five persons have not been elected, further ballots shall be held on the same principles until five persons have been elected, provided that after four persons are elected, the fifth may be elected by a simple majority of the remaining votes and shall be deemed to have been elected by all such votes.

7. The directors to be elected by the American Republics under Article XII, Section 3 (b) (iv) shall be elected as follows:

Ante, p. 1417.

- (a) Each of the directors shall be elected separately.
- (b) In the election of the first director, each governor representing an American Republic eligible to participate in the election shall cast for one person all the votes to which he is entitled. The person receiving the largest number of votes shall be elected provided that he has received not less than forty-five percent of the total votes.
- (c) If no person is elected on the first ballot, further ballots shall be held, in each of which the person receiving the lowest number of votes shall be eliminated, until one person received a number of votes sufficient for election under (b) above.

Votes cast by governor.

- (d) Governors whose votes contributed to the election of the first director shall take no part in the election of the second director.
- (e) Persons who did not succeed in the first election shall not be ineligible for election as the second director.
- (f) A majority of the votes which can be cast shall be required for election of the second director. If at the first ballot no person receives a majority, further ballots shall be held in each of which the person receiving the lowest number of votes shall be eliminated, until some person obtains a majority.
- (g) The second director shall be deemed to have been elected by all the votes which could have been cast in the ballot securing his election.

SCHEDULE D

Settlement of Accounts With Members Withdrawing

1. The Fund shall be obligated to pay to a member withdrawing an amount equal to its quota, plus any other amounts due to it from the Fund, less any amounts due to the Fund, including charges accruing after the date of its withdrawal; but no payment shall be made until six months after the date of withdrawal. Payments shall be made in the currency of the withdrawing member.

2. If the Fund's holdings of the currency of the withdrawing member are not sufficient to pay the net amount due from the Fund, the balance shall be paid in gold, or in such other manner as may be agreed. If the Fund and the withdrawing member do not reach agreement within six months of the date of withdrawal, the currency in question held by the Fund shall be paid forthwith to the withdrawing member. Any balance due shall be paid in ten half-yearly installments during the ensuing five years. Each such installment shall be paid, at the option of the Fund, either in the currency of the withdrawing member acquired after its withdrawal or by the delivery of gold.

3. If the Fund fails to meet any installment which is due in accordance with the preceding paragraphs, the withdrawing member shall be entitled to require the Fund to pay the installment in any currency held by the Fund with the exception of any currency which has been declared scarce under Article VII, Section 3.

4. If the Fund's holdings of the currency of a withdrawing member exceed the amount due to it, and if agreement on the method of settling accounts is not reached within six months of the date of withdrawal, the former member shall be obligated to redeem such excess currency in gold or, at its option, in the currencies of members which at the time of redemption are convertible. Redemption shall be made at the parity existing at the time of withdrawal from the Fund. The withdrawing member shall complete redemption within five years of the date of withdrawal, or within such longer period as may be fixed by the Fund, but shall not be required to redeem in any half-yearly period more than one-tenth of the Fund's excess holdings of its currency at

the date of withdrawal plus further acquisitions of the currency during such half-yearly period. If the withdrawing member does not fulfill this obligation, the Fund may in an orderly manner liquidate in any market the amount of currency which should have been redeemed.

5. Any member desiring to obtain the currency of a member which has withdrawn shall acquire it by purchase from the Fund, to the extent that such member has access to the resources of the Fund and that such currency is available under 4 above.

6. The withdrawing member guarantees the unrestricted use at all times of the currency disposed of under 4 and 5 above for the purchase of goods or for payment of sums due to it or to persons within its territories. It shall compensate the Fund for any loss resulting from the difference between the par value of its currency on the date of withdrawal and the value realized by the Fund on disposal under 4 and 5 above.

7. In the event of the Fund going into liquidation under Article XVI, Section 2, within six months of the date on which the member withdraws, the account between the Fund and that government shall be settled in accordance with Article XVI, Section 2, and Schedule E.

Ante, p. 1422.

SCHEDULE E

Administration of Liquidation

1. In the event of liquidation the liabilities of the Fund other than the repayment of subscriptions shall have priority in the distribution of the assets of the Fund. In meeting each such liability the Fund shall use its assets in the following order:

- (a) the currency in which the liability is payable;
- (b) gold;
- (c) all other currencies in proportion, so far as may be practicable, to the quotas of the members.

2. After the discharge of the Fund's liabilities in accordance with 1 above, the balance of the Fund's assets shall be distributed and apportioned as follows:

- (a) The Fund shall distribute its holdings of gold among the members whose currencies are held by the Fund in amounts less than their quotas. These members shall share the gold so distributed in the proportions of the amounts by which their quotas exceed the Fund's holdings of their currencies.
- (b) The Fund shall distribute to each member one-half the Fund's holdings of its currency but such distribution shall not exceed fifty percent of its quota.
- (c) The Fund shall apportion the remainder of its holdings of each currency among all the members in proportion to the amounts due to each member after the distributions under (a) and (b) above.

Distribution of balance.

3. Each member shall redeem the holdings of its currency apportioned to other members under 2 (c) above, and shall agree with the Fund within three months after a decision to liquidate upon an orderly procedure for such redemption.

Currency apportioned to other members.

4. If a member has not reached agreement with the Fund within the three-month period referred to in 3 above, the Fund shall use the currencies of other members apportioned to that member under 2 (c) above to redeem the currency of that member apportioned to other members. Each currency apportioned to a member which has not reached agreement shall be used, so far as possible, to redeem its currency apportioned to the members which have made agreements with the Fund under 3 above.

5. If a member has reached agreement with the Fund in accordance with 3 above, the Fund shall use the currencies of other members apportioned to that member under 2 (c) above to redeem the currency of that member apportioned to other members which have made agreements with the Fund under 3 above. Each amount so redeemed shall be redeemed in the currency of the member to which it was apportioned.

6. After carrying out the preceding paragraphs, the Fund shall pay to each member the remaining currencies held for its account.

7. Each member whose currency has been distributed to other members under 6 above shall redeem such currency in gold or, at its option, in the currency of the member requesting redemption, or in such other manner as may be agreed between them. If the members involved do not otherwise agree, the member obligated to redeem shall complete redemption within five years of the date of distribution, but shall not be required to redeem in any half-yearly period more than one-tenth of the amount distributed to each other member. If the member does not fulfill this obligation, the amount of currency which should have been redeemed may be liquidated in an orderly manner in any market.

8. Each member whose currency has been distributed to other members under 6 above guarantees the unrestricted use of such currency at all times for the purchase of goods or for payment of sums due to it or to persons in its territories. Each member so obligated agrees to compensate other members for any loss resulting from the difference between the par value of its currency on the date of the decision to liquidate the Fund and the value realized by such members on disposal of its currency.

Articles of agreement between the United States of America and other powers respecting the International Bank for Reconstruction and Development. Formulated at the United Nations Monetary and Financial Conference, Bretton Woods, New Hampshire, July 1 to July 22, 1944; signed at Washington December 27, 1945; instrument of acceptance by the United States of America deposited December 20, 1945; effective December 27, 1945.

ARTICLES OF AGREEMENT
OF THE INTERNATIONAL BANK
FOR RECONSTRUCTION AND DEVELOPMENT

59 Stat. 512.

The Governments on whose behalf the present Agreement is signed agree as follows:

INTRODUCTORY ARTICLE

The International Bank for Reconstruction and Development is established and shall operate in accordance with the following provisions:

ARTICLE I

PURPOSES

The purposes of the Bank are:

- (i) To assist in the reconstruction and development of territories of members by facilitating the investment of capital for productive purposes, including the restoration of economies destroyed or disrupted by war, the reconversion of productive facilities to peacetime needs and the encouragement of the development of productive facilities and resources in less developed countries.
- (ii) To promote private foreign investment by means of guarantees or participations in loans and other investments made by private investors; and when private capital is not available on reasonable terms, to supplement private investment by providing, on suitable conditions, finance for productive purposes out of its own capital, funds raised by it and its other resources.
- (iii) To promote the long-range balanced growth of international trade and the maintenance of equilibrium in balances of payments by encouraging international investment for the development of the productive resources of members, thereby assisting in raising productivity, the standard of living and conditions of labor in their territories.
- (iv) To arrange the loans made or guaranteed by it in relation to international loans through other channels so that the more useful and urgent projects, large and small alike, will be dealt with first.

- (v) To conduct its operations with due regard to the effect of international investment on business conditions in the territories of members and, in the immediate post-war years, to assist in bringing about a smooth transition from a wartime to a peacetime economy.

The Bank shall be guided in all its decisions by the purposes set forth above.

ARTICLE II

MEMBERSHIP IN AND CAPITAL OF THE BANK

Section 1. *Membership*

(a) The original members of the Bank shall be those members of the International Monetary Fund which accept membership in the Bank before the date specified in Article XI, Section 2 (e).

Post, p. 1461.

(b) Membership shall be open to other members of the Fund, at such times and in accordance with such terms as may be prescribed by the Bank.

Section 2. *Authorized capital*

(a) The authorized capital stock of the Bank shall be \$10,000,000,000, in terms of United States dollars of the weight and fineness in effect on July 1, 1944. The capital stock shall be divided into 100,000 shares having a par value of \$100,000 each, which shall be available for subscription only by members.

(b) The capital stock may be increased when the Bank deems it advisable by a three-fourths majority of the total voting power.

Increase in capital stock.

Section 3. *Subscription of shares*

(a) Each member shall subscribe shares of the capital stock of the Bank. The minimum number of shares to be subscribed by the original members shall be those set forth in Schedule A. The minimum number of shares to be subscribed by other members shall be determined by the Bank, which shall reserve a sufficient portion of its capital stock for subscription by such members.

Post, p. 1466.

(b) The Bank shall prescribe rules laying down the conditions under which members may subscribe shares of the authorized capital stock of the Bank in addition to their minimum subscriptions.

(c) If the authorized capital stock of the Bank is increased, each member shall have a reasonable opportunity to subscribe, under such conditions as the Bank shall decide, a proportion of the increase of stock equivalent to the proportion which its stock theretofore subscribed bears to the total capital stock of the Bank, but no member shall be obligated to subscribe any part of the increased capital.

Section 4. *Issue price of shares*

Shares included in the minimum subscriptions of original members shall be issued at par. Other shares shall be issued at par unless the Bank by a majority of the total voting power decides in special circumstances to issue them on other terms.

Section 5. *Division and calls of subscribed capital*

The subscription of each member shall be divided into two parts as follows:

- (i) twenty percent shall be paid or subject to call under Section 7 (i) of this Article as needed by the Bank for its operations;
- (ii) the remaining eighty percent shall be subject to call by the Bank only when required to meet obligations of the Bank created under Article IV, Sections 1 (a) (ii) and (iii).

Post, p. 1445.

Calls on unpaid subscriptions shall be uniform on all shares.

Section 6. *Limitation on liability*

Liability on shares shall be limited to the unpaid portion of the issue price of the shares.

Section 7. *Method of payment of subscriptions for shares*

Payment of subscriptions for shares shall be made in gold or United States dollars and in the currencies of the members as follows:

- (i) under Section 5 (i) of this Article, two percent of the price of each share shall be payable in gold or United States dollars, and, when calls are made, the remaining eighteen percent shall be paid in the currency of the member;
- (ii) when a call is made under Section 5 (ii) of this Article, payment may be made at the option of the member either in gold, in United States dollars or in the currency required to discharge the obligations of the Bank for the purpose for which the call is made;
- (iii) when a member makes payments in any currency under (i) and (ii) above, such payments shall be made in amounts equal in value to the member's liability under the call. This liability shall be a proportionate part of the subscribed capital stock of the Bank as authorized and defined in Section 2 of this Article.

Section 8. *Time of payment of subscriptions*

(a) The two percent payable on each share in gold or United States dollars under Section 7 (i) of this Article, shall be paid within sixty days of the date on which the Bank begins operations, provided that

- (i) any original member of the Bank whose metropolitan territory has suffered from enemy occupation or hostilities during the present war shall be granted the right to postpone payment of one-half percent until five years after that date;
- (ii) an original member who cannot make such a payment because it has not recovered possession of its gold reserves which are still seized or immobilized as a result of the war may postpone all payment until such date as the Bank shall decide.

(b) The remainder of the price of each share payable under Section 7 (i) of this Article shall be paid as and when called by the Bank, provided that

- (i) the Bank shall, within one year of its beginning operations, call not less than eight percent of the price of the share in addition to the payment of two percent referred to in (a) above;

- (ii) not more than five percent of the price of the share shall be called in any period of three months.

Section 9. *Maintenance of value of certain currency holdings of the Bank*

(a) Whenever (i) the par value of a member's currency is reduced, or (ii) the foreign exchange value of a member's currency has, in the opinion of the Bank, depreciated to a significant extent within that member's territories, the member shall pay to the Bank within a reasonable time an additional amount of its own currency sufficient to maintain the value, as of the time of initial subscription, of the amount of the currency of such member which is held by the Bank and derived from currency originally paid in to the Bank by the member under Article II, Section 7 (i), from currency referred to in Article IV, Section 2 (b), or from any additional currency furnished under the provisions of the present paragraph, and which has not been repurchased by the member for gold or for the currency of any member which is acceptable to the Bank.

Reduction in par value.

Post, p. 1445.

(b) Whenever the par value of a member's currency is increased, the Bank shall return to such member within a reasonable time an amount of that member's currency equal to the increase in the value of the amount of such currency described in (a) above.

Increase in par value.

(c) The provisions of the preceding paragraphs may be waived by the Bank when a uniform proportionate change in the par values of the currencies of all its members is made by the International Monetary Fund.

Section 10. *Restriction on disposal of shares*

Shares shall not be pledged or encumbered in any manner whatever and they shall be transferable only to the Bank.

ARTICLE III

GENERAL PROVISIONS RELATING TO LOANS AND GUARANTEES

Section 1. *Use of resources*

(a) The resources and the facilities of the Bank shall be used exclusively for the benefit of members with equitable consideration to projects for development and projects for reconstruction alike.

(b) For the purpose of facilitating the restoration and reconstruction of the economy of members whose metropolitan territories have suffered great devastation from enemy occupation or hostilities, the Bank, in determining the conditions and terms of loans made to such members, shall pay special regard to lightening the financial burden and expediting the completion of such restoration and reconstruction.

Section 2. *Dealings between members and the Bank*

Each member shall deal with the Bank only through its Treasury, central bank, stabilization fund or other similar fiscal agency, and the Bank shall deal with members only by or through the same agencies.

Section 3. *Limitations on guarantees and borrowings of the Bank*

The total amount outstanding of guarantees, participations in loans and direct loans made by the Bank shall not be increased at any time,

if by such increase the total would exceed one hundred percent of the unimpaired subscribed capital, reserves and surplus of the Bank.

Section 4. *Conditions on which the Bank may guarantee or make loans*

The Bank may guarantee, participate in, or make loans to any member or any political sub-division thereof and any business, industrial, and agricultural enterprise in the territories of a member, subject to the following conditions:

- (i) When the member in whose territories the project is located is not itself the borrower, the member or the central bank or some comparable agency of the member which is acceptable to the Bank, fully guarantees the repayment of the principal and the payment of interest and other charges on the loan.
- (ii) The Bank is satisfied that in the prevailing market conditions the borrower would be unable otherwise to obtain the loan under conditions which in the opinion of the Bank are reasonable for the borrower.
- (iii) A competent committee, as provided for in Article V, Section 7, has submitted a written report recommending the project after a careful study of the merits of the proposal.
- (iv) In the opinion of the Bank the rate of interest and other charges are reasonable and such rate, charges and the schedule for repayment of principal are appropriate to the project.
- (v) In making or guaranteeing a loan, the Bank shall pay due regard to the prospects that the borrower, and, if the borrower is not a member, that the guarantor, will be in position to meet its obligations under the loan; and the Bank shall act prudently in the interests both of the particular member in whose territories the project is located and of the members as a whole.
- (vi) In guaranteeing a loan made by other investors, the Bank receives suitable compensation for its risk.
- (vii) Loans made or guaranteed by the Bank shall, except in special circumstances, be for the purpose of specific projects of reconstruction or development.

Section 5. *Use of loans guaranteed, participated in or made by the Bank*

(a) The Bank shall impose no conditions that the proceeds of a loan shall be spent in the territories of any particular member or members.

(b) The Bank shall make arrangements to ensure that the proceeds of any loan are used only for the purposes for which the loan was granted, with due attention to considerations of economy and efficiency and without regard to political or other non-economic influences or considerations.

(c) In the case of loans made by the Bank, it shall open an account in the name of the borrower and the amount of the loan shall be credited to this account in the currency or currencies in which the loan is made. The borrower shall be permitted by the Bank to draw on this

account only to meet expenses in connection with the project as they are actually incurred.

ARTICLE IV

OPERATIONS

Section 1. *Methods of making or facilitating loans*

(a) The Bank may make or facilitate loans which satisfy the general conditions of Article III in any of the following ways:

Ante, p. 1443.

(i) By making or participating in direct loans out of its own funds corresponding to its unimpaired paid-up capital and surplus and, subject to Section 6 of this Article, to its reserves.

Post, p. 1448.

(ii) By making or participating in direct loans out of funds raised in the market of a member, or otherwise borrowed by the Bank.

(iii) By guaranteeing in whole or in part loans made by private investors through the usual investment channels.

(b) The Bank may borrow funds under (a) (ii) above or guarantee loans under (a) (iii) above only with the approval of the member in whose markets the funds are raised and the member in whose currency the loan is denominated, and only if those members agree that the proceeds may be exchanged for the currency of any other member without restriction.

Section 2. *Availability and transferability of currencies*

(a) Currencies paid into the Bank under Article II, Section 7 (i), shall be loaned only with the approval in each case of the member whose currency is involved; provided, however, that if necessary, after the Bank's subscribed capital has been entirely called, such currencies shall, without restriction by the members whose currencies are offered, be used or exchanged for the currencies required to meet contractual payments of interest, other charges or amortization on the Bank's own borrowings, or to meet the Bank's liabilities with respect to such contractual payments on loans guaranteed by the Bank.

Ante, p. 1442.

(b) Currencies received by the Bank from borrowers or guarantors in payment on account of principal of direct loans made with currencies referred to in (a) above shall be exchanged for the currencies of other members or reloaned only with the approval in each case of the members whose currencies are involved; provided, however, that if necessary, after the Bank's subscribed capital has been entirely called, such currencies shall, without restriction by the members whose currencies are offered, be used or exchanged for the currencies required to meet contractual payments of interest, other charges or amortization on the Bank's own borrowings, or to meet the Bank's liabilities with respect to such contractual payments on loans guaranteed by the Bank.

Currencies received from borrowers or guarantors.

(c) Currencies received by the Bank from borrowers or guarantors in payment on account of principal of direct loans made by the Bank under Section 1 (a) (ii) of this Article, shall be held and used, without restriction by the members, to make amortization payments, or to

anticipate payment of or repurchase part or all of the Bank's own obligations.

Other available currencies.

(d) All other currencies available to the Bank, including those raised in the market or otherwise borrowed under Section 1 (a) (ii) of this Article, those obtained by the sale of gold, those received as payments of interest and other charges for direct loans made under Sections 1 (a) (i) and (ii), and those received as payments of commissions and other charges under Section 1 (a) (iii), shall be used or exchanged for other currencies or gold required in the operations of the Bank without restriction by the members whose currencies are offered.

(e) Currencies raised in the markets of members by borrowers on loans guaranteed by the Bank under Section 1 (a) (iii) of this Article, shall also be used or exchanged for other currencies without restriction by such members.

Section 3. *Provision of currencies for direct loans*

Ante, p. 1445.

The following provisions shall apply to direct loans under Sections 1 (a) (i) and (ii) of this Article:

(a) The Bank shall furnish the borrower with such currencies of members, other than the member in whose territories the project is located, as are needed by the borrower for expenditures to be made in the territories of such other members to carry out the purposes of the loan.

(b) The Bank may, in exceptional circumstances when local currency required for the purposes of the loan cannot be raised by the borrower on reasonable terms, provide the borrower as part of the loan with an appropriate amount of that currency.

(c) The Bank, if the project gives rise indirectly to an increased need for foreign exchange by the member in whose territories the project is located, may in exceptional circumstances provide the borrower as part of the loan with an appropriate amount of gold or foreign exchange not in excess of the borrower's local expenditure in connection with the purposes of the loan.

(d) The Bank may, in exceptional circumstances, at the request of a member in whose territories a portion of the loan is spent, repurchase with gold or foreign exchange a part of that member's currency thus spent but in no case shall the part so repurchased exceed the amount by which the expenditure of the loan in those territories gives rise to an increased need for foreign exchange.

Section 4. *Payment provisions for direct loans*

Ante, p. 1445.

Loan contracts under Section 1 (a) (i) or (ii) of this Article shall be made in accordance with the following payment provisions:

Interest and amortization payments, etc.

(a) The terms and conditions of interest and amortization payments, maturity and dates of payment of each loan shall be determined by the Bank. The Bank shall also determine the rate and any other terms and conditions of commission to be charged in connection with such loan.

In the case of loans made under Section 1 (a) (ii) of this Article during the first ten years of the Bank's operations, this rate of commission shall be not less than one percent per annum and not greater than one and one-half percent per annum, and shall be charged on the outstanding portion of any such loan. At the end of this period of ten years, the rate of commission may be reduced by the Bank with respect both to the outstanding portions of loans already made and to future loans, if the reserves accumulated by the Bank under Section 6 of this Article and out of other earnings are considered by it sufficient to justify a reduction. In the case of future loans the Bank shall also have discretion to increase the rate of commission beyond the above limit, if experience indicates that an increase is advisable.

Ante, p. 1445.

(b) All loan contracts shall stipulate the currency or currencies in which payments under the contract shall be made to the Bank. At the option of the borrower, however, such payments may be made in gold, or subject to the agreement of the Bank, in the currency of a member other than that prescribed in the contract.

Currency in which payments shall be made to Bank.

(i) In the case of loans made under Section 1 (a) (i) of this Article, the loan contracts shall provide that payments to the Bank of interest, other charges and amortization shall be made in the currency loaned, unless the member whose currency is loaned agrees that such payments shall be made in some other specified currency or currencies. These payments, subject to the provisions of Article II, Section 9 (c), shall be equivalent to the value of such contractual payments at the time the loans were made, in terms of a currency specified for the purpose by the Bank by a three-fourths majority of the total voting power.

Ante, p. 1445.

Ante, p. 1443.

(ii) In the case of loans made under Section 1 (a) (ii) of this Article, the total amount outstanding and payable to the Bank in any one currency shall at no time exceed the total amount of the outstanding borrowings made by the Bank under Section 1 (a) (ii) and payable in the same currency.

Ante, p. 1445.

(c) If a member suffers from an acute exchange stringency, so that the service of any loan contracted by that member or guaranteed by it or by one of its agencies cannot be provided in the stipulated manner, the member concerned may apply to the Bank for a relaxation of the conditions of payment. If the Bank is satisfied that some relaxation is in the interests of the particular member and of the operations of the Bank and of its members as a whole, it may take action under either, or both, of the following paragraphs with respect to the whole, or part, of the annual service:

Relaxation of conditions of payment.

(i) The Bank may, in its discretion, make arrangements with the member concerned to accept service payments on the loan in the member's currency for periods not to exceed three years upon appropriate terms regarding the use of such currency and the maintenance of its foreign exchange value; and for the repurchase of such currency on appropriate terms.

- (ii) The Bank may modify the terms of amortization or extend the life of the loan, or both.

Section 5. *Guarantees*

Guarantee commis-
sion.

(a) In guaranteeing a loan placed through the usual investment channels, the Bank shall charge a guarantee commission payable periodically on the amount of the loan outstanding at a rate determined by the Bank. During the first ten years of the Bank's operations, this rate shall be not less than one percent per annum and not greater than one and one-half percent per annum. At the end of this period of ten years, the rate of commission may be reduced by the Bank with respect both to the outstanding portions of loans already guaranteed and to future loans if the reserves accumulated by the Bank under Section 6 of this Article and out of other earnings are considered by it sufficient to justify a reduction. In the case of future loans the Bank shall also have discretion to increase the rate of commission beyond the above limit, if experience indicates that an increase is advisable.

(b) Guarantee commissions shall be paid directly to the Bank by the borrower.

(c) Guarantees by the Bank shall provide that the Bank may terminate its liability with respect to interest if, upon default by the borrower and by the guarantor, if any, the Bank offers to purchase, at par and interest accrued to a date designated in the offer, the bonds or other obligations guaranteed.

(d) The Bank shall have power to determine any other terms and conditions of the guarantee.

Section 6. *Special reserve*

(c) Whenever necessary to meet contractual payments of interest, other charges or amortization on the Bank's own borrowings, or to meet the Bank's liabilities with respect to similar payments on loans guaranteed by it, the Bank may call an appropriate amount of the unpaid subscriptions of members in accordance with Article II, Sections 5 and 7. Moreover, if it believes that a default may be of long duration, the Bank may call an additional amount of such unpaid subscriptions not to exceed in any one year one percent of the total subscriptions of the members for the following purposes:

(a) Each member shall designate its central bank as a depository for all the Bank's holdings of its currency or, if it has no central bank, it shall designate such other institution as may be acceptable to the Bank.

(b) The Bank may hold other assets, including gold, in depositories designated by the five members having the largest number of shares and in such other designated depositories as the Bank may select. Initially, at least one-half of the gold holdings of the Bank shall be held in the depository designated by the member in whose territory the Bank has its principal office, and at least forty percent shall be held in the depositories designated by the remaining four members referred to above, each of such depositories to hold, initially, not less than the amount of gold paid on the shares of the member designating it. However, all transfers of gold by the Bank shall be made with due regard to the costs of transport and anticipated requirements of the Bank. In an emergency the Executive Directors may transfer all or any part of the Bank's gold holdings to any place where they can be adequately protected.

If two percent is paid as a first charge, any balance remaining to be distributed shall be paid to all members in proportion to their shares. Payments to each member shall be made in its own currency, or if that currency is not available in other currency acceptable to the member. If such payments are made in currencies other than the member's own currency, the transfer of the currency and its use by the receiving member after payment shall be without restriction by the members.

ARTICLE VI

WITHDRAWAL AND SUSPENSION OF MEMBERSHIP: SUSPENSION OF OPERATIONS

Section 1. *Right of members to withdraw*

Any member may withdraw from the Bank at any time by transmitting a notice in writing to the Bank at its principal office. Withdrawal shall become effective on the date such notice is received.

Section 2. *Suspension of membership*

If a member fails to fulfill any of its obligations to the Bank, the Bank may suspend its membership by decision of a majority of the Governors, exercising a majority of the total voting power. The member so suspended shall automatically cease to be a member one year from the date of its suspension unless a decision is taken by the same majority to restore the member to good standing.

While under suspension, a member shall not be entitled to exercise any rights under this Agreement, except the right of withdrawal, but shall remain subject to all obligations.

Section 3. *Cessation of membership in International Monetary Fund*

Any member which ceases to be a member of the International Monetary Fund shall automatically cease after three months to be a member of the Bank unless the Bank by three-fourths of the total voting power has agreed to allow it to remain a member.

Section 4. *Settlement of accounts with governments ceasing to be members*

(a) When a government ceases to be a member, it shall remain liable for its direct obligations to the Bank and for its contingent liabilities to the Bank so long as any part of the loans or guarantees contracted before it ceased to be a member are outstanding; but it shall cease to incur liabilities with respect to loans and guarantees entered into thereafter by the Bank and to share either in the income or the expenses of the Bank.

(b) At the time a government ceases to be a member, the Bank shall arrange for the repurchase of its shares as a part of the settlement of accounts with such government in accordance with the provisions of (c) and (d) below. For this purpose the repurchase price of the shares shall be the value shown by the books of the Bank on the day the government ceases to be a member.

(c) The payment for shares repurchased by the Bank under this section shall be governed by the following conditions:

- (i) Any amount due to the government for its shares shall be withheld so long as the government, its central bank or any of its agencies remains liable, as borrower or guarantor, to the Bank and such amount may, at the option of the Bank, be applied on any such liability as it matures. No amount shall be withheld on account of the liability of the government resulting from its subscription for shares under Article II, Section 5 (ii). In any event, no amount due to a member for its shares shall be paid until six months after the date upon which the government ceases to be a member.
- (ii) Payments for shares may be made from time to time, upon their surrender by the government, to the extent by which the amount due as the repurchase price in (b) above exceeds the aggregate of liabilities on loans and guarantees in (c) (i) above until the former member has received the full repurchase price.
- (iii) Payments shall be made in the currency of the country receiving payment or at the option of the Bank in gold.
- (iv) If losses are sustained by the Bank on any guarantees, participations in loans, or loans which were outstanding on the date when the government ceased to be a member, and the amount of such losses exceeds the amount of the reserve provided against losses on the date when the government

ceased to be a member, such government shall be obligated to repay upon demand the amount by which the repurchase price of its shares would have been reduced, if the losses had been taken into account when the repurchase price was determined. In addition, the former member government shall remain liable on any call for unpaid subscriptions under Article II, Section 5 (ii), to the extent that it would have been required to respond if the impairment of capital had occurred and the call had been made at the time the repurchase price of its shares was determined.

Ante, p. 1442.

(d) If the Bank suspends permanently its operations under Section 5 (b) of this Article, within six months of the date upon which any government ceases to be a member, all rights of such government shall be determined by the provisions of Section 5 of this Article.

Section 5. Suspension of operations and settlement of obligations

(a) In an emergency the Executive Directors may suspend temporarily operations in respect of new loans and guarantees pending an opportunity for further consideration and action by the Board of Governors.

Suspension of new loans and guarantees.

(b) The Bank may suspend permanently its operations in respect of new loans and guarantees by vote of a majority of the Governors, exercising a majority of the total voting power. After such suspension of operations the Bank shall forthwith cease all activities, except those incident to the orderly realization, conservation, and preservation of its assets and settlement of its obligations.

(c) The liability of all members for uncalled subscriptions to the capital stock of the Bank and in respect of the depreciation of their own currencies shall continue until all claims of creditors, including all contingent claims, shall have been discharged.

Payment of claims.

(d) All creditors holding direct claims shall be paid out of the assets of the Bank, and then out of payments to the Bank on calls on unpaid subscriptions. Before making any payments to creditors holding direct claims, the Executive Directors shall make such arrangements as are necessary, in their judgment, to insure a distribution to holders of contingent claims ratably with creditors holding direct claims.

(e) No distribution shall be made to members on account of their subscriptions to the capital stock of the Bank until

- (i) all liabilities to creditors have been discharged or provided for, and
- (ii) a majority of the Governors, exercising a majority of the total voting power, have decided to make a distribution.

Distribution of assets.

(f) After a decision to make a distribution has been taken under (e) above, the Executive Directors may by a two-thirds majority vote make successive distributions of the assets of the Bank to members until all of the assets have been distributed. This distribution shall

be subject to the prior settlement of all outstanding claims of the Bank against each member.

(g) Before any distribution of assets is made, the Executive Directors shall fix the proportionate share of each member according to the ratio of its shareholding to the total outstanding shares of the Bank.

(h) The Executive Directors shall value the assets to be distributed as at the date of distribution and then proceed to distribute in the following manner:

- (i) There shall be paid to each member in its own obligations or those of its official agencies or legal entities within its territories, insofar as they are available for distribution, an amount equivalent in value to its proportionate share of the total amount to be distributed.
 - (ii) Any balance due to a member after payment has been made under (i) above shall be paid, in its own currency, insofar as it is held by the Bank, up to an amount equivalent in value to such balance.
 - (iii) Any balance due to a member after payment has been made under (i) and (ii) above shall be paid in gold or currency acceptable to the member, insofar as they are held by the Bank, up to an amount equivalent in value to such balance.
 - (iv) Any remaining assets held by the Bank after payments have been made to members under (i), (ii), and (iii) above shall be distributed *pro rata* among the members.
- (i) Any member receiving assets distributed by the Bank in accordance with (h) above, shall enjoy the same rights with respect to such assets as the Bank enjoyed prior to their distribution.

(c) No taxation of any kind shall be levied on any obligation or security issued by the Bank (including any dividend or interest thereon) by whomsoever held—

- (ii) if the sole jurisdictional basis for such taxation is the place or currency in which it is issued, made payable or paid, or the location of any office or place of business maintained by the Bank.

(d) No taxation of any kind shall be levied on any obligation or security guaranteed by the Bank (including any dividend or interest thereon) by whomsoever held—

Each member shall take such action as is necessary in its own territories for the purpose of making effective in terms of its own law the principles set forth in this Article and shall inform the Bank of the detailed action which it has taken.

Ante, p. 1452.

(b) In any case where the Executive Directors have given a decision under (a) above, any member may require that the question be referred to the Board of Governors, whose decision shall be final. Pending the result of the reference to the Board, the Bank may, so far as it deems necessary, act on the basis of the decision of the Executive Directors.

Submittal of disagreement to arbitration.

(c) Whenever a disagreement arises between the Bank and a country which has ceased to be a member, or between the Bank and any member during the permanent suspension of the Bank, such disagreement shall be submitted to arbitration by a tribunal of three arbitrators, one appointed by the Bank, another by the country involved and an umpire who, unless the parties otherwise agree, shall be appointed by the President of the Permanent Court of International Justice or such other authority as may have been prescribed by regulation adopted by the Bank. Agreed declaration by the President of the United States of America, the Prime Minister of the United Kingdom, and the Prime Minister of Canada respecting atomic energy. Signed at Washington November 15, 1945.

November 15, 1945
[T. I. A. S. 1504]

ATOMIC ENERGY
AGREED DECLARATION BY

The President of the United States,
The Prime Minister of the United Kingdom, and
The Prime Minister of Canada.

THE PRESIDENT OF THE UNITED STATES, THE PRIME MINISTER OF THE UNITED KINGDOM, AND THE PRIME MINISTER OF CANADA, have issued the following statement.

1. We recognize that the application of recent scientific discoveries to the methods and practice of war has placed at the disposal of mankind means of destruction hitherto unknown, against which there can be no adequate military defence, and in the employment of which no single nation can in fact have a monopoly.

2. We desire to emphasize that the responsibility for devising means to ensure that the new discoveries shall be used for the benefit of mankind, instead of as a means of destruction, rests not on our nations alone, but upon the whole civilized world. Nevertheless, the progress that we have made in the development and use of atomic energy demands that we take an initiative in the matter, and we have accordingly met together to consider the possibility of international action :-

- (a) To prevent the use of atomic energy for destructive purposes
- (b) To promote the use of recent and future advances in scientific knowledge, particularly in the utilization of atomic energy, for peaceful and humanitarian ends.

3. We are aware that the only complete protection for the civilized world from the destructive use of scientific knowledge lies in the prevention of war. No system of safeguards that can be devised will of itself provide an effective guarantee against production of atomic weapons by a nation bent on aggression. Nor can we ignore the possibility of the development of other weapons, or of new methods of warfare, which may constitute as great a threat to civilization as the military use of atomic energy.

4. Representing as we do, the three countries which possess the knowledge essential to the use of atomic energy, we declare at the outset our willingness, as a first contribution, to proceed with the exchange of fundamental scientific information and the interchange of scientists and scientific literature for peaceful ends with any nation that will fully reciprocate.

5. We believe that the fruits of scientific research should be made available to all nations, and that freedom of investigation and free interchange of ideas are essential to the progress of knowledge. In pursuance of this policy, the basic scientific information essential to the development of atomic energy for peaceful purposes has already been made available to the world. It is our intention that all further information of this character that may become available from time

to time shall be similarly treated. We trust that other nations will adopt the same policy, thereby creating an atmosphere of reciprocal confidence in which political agreement and cooperation will flourish.

6. We have considered the question of the disclosure of detailed information concerning the practical industrial application of atomic energy. The military exploitation of atomic energy depends, in large part, upon the same methods and processes as would be required for industrial uses.

We are not convinced that the spreading of the specialized information regarding the practical application of atomic energy, before it is possible to devise effective, reciprocal, and enforceable safeguards acceptable to all nations, would contribute to a constructive solution of the problem of the atomic bomb. On the contrary we think it might have the opposite effect. We are, however, prepared to share, on a reciprocal basis with others of the United Nations, detailed information concerning the practical industrial application of atomic energy just as soon as effective enforceable safeguards against its use for destructive purposes can be devised.

7. In order to attain the most effective means of entirely eliminating the use of atomic energy for destructive purposes and promoting its widest use for industrial and humanitarian purposes, we are of the opinion that at the earliest practicable date a Commission should be set up under the United Nations Organization to prepare recommendations for submission to the Organization.

The Commission should be instructed to proceed with the utmost dispatch and should be authorized to submit recommendations from time to time dealing with separate phases of its work.

In particular the Commission should make specific proposals:

(a) For extending between all nations the exchange of basic scientific information for peaceful ends,

(b) For control of atomic energy to the extent necessary to ensure its use only for peaceful purposes,

(c) For the elimination from national armaments of atomic weapons and of all other major weapons adaptable to mass destruction,

(d) For effective safeguards by way of inspection and other means to protect complying states against the hazards of violations and evasions.

8. The work of the Commission should proceed by separate stages, the successful completion of each one of which will develop the necessary confidence of the world before the next stage is undertaken. Specifically it is considered that the Commission might well devote its attention first to the wide exchange of scientists and scientific information, and as a second stage to the development of full knowledge concerning natural resources of raw materials.

9. Faced with the terrible realities of the application of science to destruction, every nation will realize more urgently than before the overwhelming need to maintain the rule of law among nations and to

banish the scourge of war from the earth. This can only be brought about by giving wholehearted support to the United Nations Organization, and by consolidating and extending its authority, thus creating conditions of mutual trust in which all peoples will be free to devote themselves to the arts of peace. It is our firm resolve to work without reservation to achieve these ends.

AGREEMENT BETWEEN THE GOVERNMENTS OF THE UNITED STATES
AND OF THE UNITED KINGDOM ON THE PRINCIPLES APPLYING TO
THE EXCHANGE OF INFORMATION LOOKING TO THE SYNTHESIS OF
PENICILLIN -

WHEREAS, the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland, declare that they are engaged in a common undertaking to secure as promptly as possible the production of an adequate supply of high quality synthetic penicillin, or a therapeutic equivalent, at reasonable prices; and,

WHEREAS, in furtherance of this common undertaking, the Government of the United States has entered into contractual arrangements with academic, industrial or governmental research workers in the United States to secure the effective participation of skilled scientists in a coordinated and concentrated effort synthetically to produce penicillin, or a therapeutic equivalent, including an arrangement for the exchange among the participants of information on the purification, structure, and synthesis of penicillin, or a therapeutic equivalent; and,

WHEREAS, the Government of the United States under these arrangements has, with respect to discoveries and inventions made in the course of the work pursuant to these arrangements, secured (a) the right to determine the relative value of the scientific contributions made to such discoveries and inventions by its participants, (b) the right to allocate among its participants the title to, and any and all rights in and under, patents covering such discoveries and inventions in such a manner as equitably to recognize their relative scientific contributions thereto, (c) the right to require the patentee of such discoveries and inventions to grant to the Government of the United States a non-exclusive, royalty-free license under any such patents for certain governmental purposes, and (d) the right to require the patentee of such discoveries and inventions to grant to others as may be determined to be in the national interest non-exclusive licenses at reasonable royalties; and,

WHEREAS, the Government of the United Kingdom has, for the same purpose and as part of the common undertaking, entered into similar arrangements with research workers in the United Kingdom; and,

WHEREAS, the Government of the United States and the Government of the United Kingdom, in order to increase the effectiveness of their common undertaking, have begun, for transmission to their respective participants, the interchange of scientific information pertaining to the purification, structure, or synthesis of penicillin, or a therapeutic equivalent; and,

WHEREAS, the Government of the United States and the Government of the United Kingdom now desire to formalize the terms on which

such scientific information is being interchanged, and, in particular, desire both (a) to determine and recognize, in the allocation of the title to and rights in and under any and all patents covering discoveries or inventions relating to the purification, structure, or synthesis of penicillin, or a therapeutic equivalent, the relative value of the scientific contributions made to such inventions and discoveries by the participants of their respective Governments, and (b) to acquire, where deemed necessary to the national interest, the same right with regard to the other Government's participants as both Governments now have with regard to their own participants in the way of requiring the grant of licenses;
