OF THE UNITED KINGDOM RELATING TO
AIR SERVICES BETWEEN THEIR RESPECTIVE
TERRITORIES.

THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND,

Desiring to conclude an Agreement for the purpose of promoting direct air communications as soon as possible between their respective territories,

Have accordingly appointed authorised representatives for this purpose, who have agreed as follows:—

ARTICLE 1

Each Contracting Party grants to the other Contracting Party rights to the extent described in the Annex to this Agreement for the purpose of the establishment of air services described therein or as amended in accordance with Section IV of the Annex (hereinafter referred to as "the agreed services").

Post, p. 1510.

ARTICLE 2

Inauguration of agreed services.

(1) The agreed services may be inaugurated immediately or at a later date at the option of the Contracting Party to whom the rights are granted, but not before (a) the Contracting Party to whom the rights have been granted has designated an air carrier or carriers for the specified route or routes, and (b) the Contracting Party granting the rights has given the appropriate operating permission to the air carrier or carriers concerned (which, subject to the provisions of paragraph (2) of this Article and of Article 6, it shall do without undue delay).

(2) The designated air carrier or carriers may be required to satisfy the aeronautical authorities of the Contracting Party granting the rights that it or they is or are qualified to fulfil the conditions prescribed by or under the laws and regulations normally applied by those authorities to the operations of commercial air carriers.

(3) In areas of military occupation, or in areas affected thereby, such inauguration will continue to be subject, where necessary, to the approval of the competent military authorities.

ARTICLE 3

Charges.

(1) The charges which either of the Contracting Parties may impose, or permit to be imposed, on the designated air carrier or carriers of the other Contracting Party for the use of airports and other facilities shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international air services.

(2) Fuel, lubricating oils and spare parts introduced into, or taken on board aircraft in, the territory of one Contracting Party by, or on behalf of, a designated air carrier of the other Contracting Party and

intended solely for use by the aircraft of such carrier shall be accorded, with respect to customs duties, inspection fees or other charges imposed by the former Contracting Party, treatment not less favourable than that granted to national air carriers engaged in international air services or such carriers of the most favoured nation.

(3) Supplies of fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board aircraft of a designated air carrier of one Contracting Party shall be exempt in the territory of the other Contracting Party from customs duties, inspection fees or similar duties or charges, even though such supplies be used by such aircraft on flights within that territory.

ARTICLE 4

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one Contracting Party and still in force shall be recognised as valid by the other Contracting Party for the purpose of operation of the agreed services. Each Contracting Party reserves the right, however, to refuse to recognise for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another state.

Certificates of airworthiness, etc.

ARTICLE 5

Laws and regulations.

(2) The laws and regulations of one Contracting Party relating to the entry into or departure from its territory of passengers, crew, or cargo of aircraft (such as regulations relating to entry, clearance, immigration, passports, customs and quarantine) shall be applicable to the passengers, crew or cargo of the aircraft of the designated air carrier or carriers of the other Contracting Party while in the territory of the first Contracting Party.

ARTICLE 6

Each Contracting Party reserves the right to withhold or revoke the exercise of the rights specified in the Annex to this Agreement by a carrier designated by the other Contracting Party in the event that it is not satisfied that substantial ownership and effective control of such carrier are vested in nationals of either Contracting Party, or in case of failure by that carrier to comply with the laws and regulations referred to in Article 5 hereof, or otherwise to fulfil the conditions under which the rights are granted in accordance with this Agreement and its Annex.

Withholding or revocation of rights.

ARTICLE 7

This Agreement shall be registered with the Provisional International Civil Aviation Organisation set up by the Interim Agreement on International Civil Aviation signed at Chicago on December 7, 1944.

Registry of Agreement.

59 Stat. 1516.

ARTICLE 8

Request for consultation.

Except as otherwise provided in this Agreement or its Annex, if either of the Contracting Parties considers it desirable to modify the terms of the Annex to this Agreement, it may request consultation between the aeronautical authorities of both Contracting Parties, such consultation to begin within a period of sixty days from the date of the request. When these authorities agree on modifications to the Annex, these modifications will come into effect when they have been confirmed by an Exchange of Notes through the diplomatic channel.

ARTICLE 9

Disputes.

Except as otherwise provided in this Agreement or in its Annex, any dispute between the Contracting Parties relating to the interpretation or application of this Agreement or its Annex which cannot be settled through consultation shall be referred for an advisory report to the Interim Council of the Provisional International Civil Aviation Organisation (in accordance with the provisions of Article III Section 6 (8) of the Interim Agreement on International Civil Aviation signed at Chicago on December 7, 1944) or its successor.

59 Stat. 1521.

ARTICLE 10

Prior agreements.

The terms and conditions of operating rights which may have been granted previously by either Contracting Party to the other Contracting Party or to an air carrier of such other Contracting Party shall not be abrogated by the present Agreement. Except as may be modified by the present Agreement, the general principles of the air navigation arrangement between the two Contracting Parties, which was effected by an Exchange of Notes dated March 28 and April 5, 1935, shall continue in force in so far as they are applicable to scheduled international air services, until otherwise agreed by the Contracting Parties.

49 Stat. 3720.

ARTICLE 11

If a general multilateral air Convention enters into force in relation to both Contracting Parties, the present Agreement shall be amended so as to conform with the provisions of such Convention.

ARTICLE 12

Pending the outcome of such consultation, it shall be open to either Party at any time to give notice to the other of its desire to terminate this Agreement. Such notice shall be simultaneously communicated to the Provisional International Civil Aviation Organisation or its successor. If such notice is given, this Agreement shall terminate twelve calendar months after the date of receipt of the notice by the other Contracting Party, unless the notice to terminate is withdrawn by agreement before the expiry of this period. Rates.

(a) Rates to be charged by the air carriers of either Contracting Party between points in the territory of the United States and points in the territory of the United Kingdom referred to in this Annex shall be subject to the approval of the Contracting Parties within their respective constitutional powers and obligations. In the event of disagreement the matter in dispute shall be handled as provided below.

"IATA."

(b) The Civil Aeronautics Board of the United States having announced its intention to approve the rate conference machinery of the International Air Transport Association (hereinafter called "IATA"), as submitted, for a period of one year beginning in February, 1946, any rate agreements concluded through this machinery during this period and involving United States air carriers will be subject to approval by the Board.

Proposed new rates.

(c) Any new rate proposed by the air carrier or carriers of either Contracting Party shall be filed with the aeronautical authorities of both Contracting Parties at least thirty days before the proposed date of introduction; provided that this period of thirty days may be reduced in particular cases if so agreed by the aeronautical authorities of both Contracting Parties.

(d) The Contracting Parties hereby agree that where:

- (1) during the period of the Board's approval of the IATA rate conference machinery, either any specific rate agreement is not approved within a reasonable time by either Contracting Party or a conference of IATA is unable to agree on a rate, or
- (2) at any time no IATA machinery is applicable, or

(3) either Contracting Party at any time withdraws or fails to renew its approval of that part of the IATA rate conference machinery relevant to this provision,

the procedure described in paragraphs (e), (f) and (g) hereof shall apply.

(e) In the event that power is conferred by law upon the aeronautical authorities of the United States to fix fair and economic rates for the transport of persons and property by air on international services and to suspend proposed rates in a manner comparable to that in which the Civil Aeronautics Board at present is empowered to act with respect to such rates for the transport of persons and property by air within the United States, each of the Contracting Parties shall thereafter exercise its authority in such manner as to prevent any rate or rates proposed by one of its carriers for services from the territory of one Contracting Party to a point or points in the territory of the other Contracting Party from becoming effective, if, in the judgment of the aeronautical authorities of the Contracting Party whose air carrier or carriers is or are proposing such rate, that rate is unfair or uneconomic. If one of the Contracting Parties on receipt of the notification referred to in paragraph (c) above is dissatisfied with the new rate proposed by the air carrier or carriers of the other Contracting Party, it shall so notify the other Contracting Party prior to the expiry of the first fifteen of the thirty days referred to, and the Contracting Parties shall endeavour to reach agreement on the appropriate rate. In the event that such agreement is reached each Contracting Party will exercise its statutory powers to give effect to such agreement. If agreement has not been reached at the end of the thirty day period referred to in paragraph (c) above, the proposed rate may, unless the aeronautical authorities of the country of the air carrier concerned see fit to suspend its operation, go into effect provisionally pending the settlement of any dispute in accordance with the procedure outlined in paragraph (g) below.

Unfair or uneconomic rates.

Dissatisfaction with proposed new rate.

(f) Prior to the time when such power may be conferred by law upon the aeronautical authorities of the United States, if one of the Contracting Parties is dissatisfied with any new rate proposed by the air carrier or carriers of either Contracting Party for services from the territory of one Contracting Party to a point or points in the territory of the other Contracting Party, it shall so notify the other prior to the expiry of the first fifteen of the thirty day period referred to in paragraph (c) above, and the Contracting Parties shall endeavour to reach agreement on the appropriate rate. In the event that such agreement is reached each Contracting Party will use its best efforts to cause such agreed rate to be put into effect by its air carrier or carriers. It is recognised that if no such agreement can be reached prior to the expiry of such thirty days, the Contracting Party raising the objection to the rate may take such steps as it may consider necessary to prevent the inauguration or continuation of the service in question at the rate complained of.

Advisory report.

(g) When in any case under paragraphs (e) and (f) above the aeronautical authorities of the two Contracting Parties cannot agree within a reasonable time upon the appropriate rate after consultation initiated by the complaint of one Contracting Party concerning the proposed rate or an existing rate of the air carrier or carriers of the other Contracting Party, upon the request of either, both Contracting Parties shall submit the question to the Provisional International Civil Aviation Organisation or to its successor for an advisory report, and each Party will use its best efforts under the powers available to it to put into effect the opinion expressed in such report.

Rates to be fixed at reasonable levels.

(h) The rates to be agreed in accordance with the above paragraphs shall be fixed at reasonable levels, due regard being paid to all relevant factors, such as cost of operation, reasonable profit and the rates charged by any other air carriers.

(j) The Executive Branch of the Government of the United States agrees to use its best efforts to secure legislation empowering the aeronautical authorities of the United States to fix fair and economic rates for the transport of persons and property by air on international services and to suspend proposed rates in a manner comparable to that in which the Civil Aeronautics Board at present is empowered to act with respect to such rates for the transport of persons and property by air within the United States.

Amendments to routes.
Ante, p. 1507.

Ante, p. 1502.

(a) Amendments made by either Contracting Party to the routes described in Section III of this Annex which change the points served in the territory of the other Contracting Party will be made only after consultation in accordance with the provisions of Article 8 of this Agreement.

Post, p. 1515.

Ante, p. 1504.

(b) Other route changes desired by either Contracting Party may be made and put into effect at any time, prompt notice to that effect being given by the aeronautical authorities of the Contracting Party concerned to the aeronautical authorities of the other Contracting Party. If such other Contracting Party finds that, having regard to the principles set forth in paragraph (6) of the Final Act of the Conference referred to in Section I of this Annex, the interests of its air carrier or carriers are prejudiced by the carriage by the air carrier or carriers of the first Contracting Party of traffic between the territory of the second Contracting Party and the new point in the territory of a third country it shall so inform the first Contracting Party. If agreement cannot be reached by consultation between the Contracting Parties, it shall be open to the Contracting Party whose air carrier or carriers is or are affected to invoke the provisions of Article 9 of this Agreement.

Ante, p. 1502.

Exchange of information.

(c) The Contracting Parties will, as soon as possible after the execution of this Agreement and from time to time thereafter, exchange information concerning the authorisations extended to their respective designated air carriers to render service to, through and from the territory of the other Contracting Party. This will include copies of current certificates and authorisations for service on the routes which are the subject of this Agreement, and for the future such new certificates and authorisations as may be issued, together with amendments, exemption orders and authorised service patterns.

V

(a) Where the onward carriage of traffic by an aircraft of different size from that employed on the earlier stage of the same route (hereinafter referred to as "change of gauge") is justified by reason of economy of operation, such change of gauge at a point in the territory of the United Kingdom or the territory of the United States shall not be made in violation of the principles set forth in the Final Act of the Conference on Civil Aviation held at Bermuda from January 15 to February 11, 1946 and, in particular, shall be subject to there being an adequate volume of through traffic.

"Change of gauge."

Post, p. 1512.

(b) Where a change of gauge is made at a point in the territory of the United Kingdom or in the territory of the United States, the smaller aircraft will operate only in connection with the larger aircraft arriving at the point of change, so as to provide a connecting service which will thus normally wait on the arrival of the larger aircraft, for the primary purpose of carrying onward those passengers who have travelled to United Kingdom or United States territory in the larger aircraft to their ultimate destination in the smaller aircraft. Where there are vacancies in the smaller aircraft such vacancies may be filled with passengers from United Kingdom or United States territory respectively. It is understood however that the capacity of the smaller aircraft shall be determined with primary reference to the traffic travelling in the larger aircraft normally requiring to be carried onward.

(c) It is agreed that the arrangements under any part of the preceding paragraphs (a) and (b) shall be governed by and in no way restrictive of the standards set forth in paragraph (6) of the Final Act.

The Final Plenary Session was held on the 11th February, 1946.

As a result of the deliberations of the Conference there was formulated an Agreement between the Government of the United Kingdom and the Government of the United States relating to air services between their respective territories, and Annex thereto. (Attached hereto as Appendix I.)

Ante, p. 1800.

The following resolution was adopted:—

Whereas representatives of the two Governments have met together in Bermuda to discuss Civil Aviation matters outstanding between them and have reached agreement thereon,

Whereas the two Governments have to-day concluded an Agreement relating to air services between their respective territories (hereinafter called "the Agreement"),

And whereas the two Governments have reached agreement on the procedure to be followed in the settlement of other matters in the field of Civil Aviation,

Now therefore the representatives of the two Governments in Conference resolve and agree as follows:—

(1) That the two Governments desire to foster and encourage the widest possible distribution of the benefits of air travel for the general good of mankind at the cheapest rates consistent with sound economic principles; and to stimulate international air travel as a means of promoting friendly understanding and good will among peoples and ensuring as well the many indirect benefits of this new form of transportation to the common welfare of both countries.

(2) That the two Governments reaffirm their adherence to the principles and purposes set out in the preamble to the Convention on International Civil Aviation signed at Chicago on the 7th December, 1944.

(3) That the air transport facilities available to the travelling public should bear a close relationship to the requirements of the public for such transport.

(4) That there shall be a fair and equal opportunity for the carriers of the two nations to operate on any route between their respective territories (as defined in the Agreement) covered by the Agreement and its Annex.

(5) That, in the operation by the air carriers of either Government of the trunk services described in the Annex to the Agreement, the interest of the air carriers of the other Government shall be taken into consideration so as not to affect unduly the services which the latter provides on all or part of the same routes.

(6) That it is the understanding of both Governments that services provided by a designated air carrier under the Agreement and its Annex shall retain as their primary objective the provision of capacity adequate to the traffic demands between the country of which such air carrier is a national and the country of ultimate destination of the traffic. The right to embark or disembark on such services international traffic destined for and coming from third countries at a point or points on the routes specified in the Annex to the Agreement shall be applied in accordance with the general principles of orderly development to which both Governments subscribe and shall be subject to the general principle that capacity should be related:

- (a) to traffic requirements between the country of origin and the countries of destination;
- (b) to the requirements of through airline operation; and
- (c) to the traffic requirements of the area through which the airline passes after taking account of local and regional services.

(7) That, in so far as the air carrier or carriers of one Government may be temporarily prevented through difficulties arising from the War from taking immediate advantage of the opportunity referred to in paragraph (4) above, the situation shall be reviewed between the Governments with the object of facilitating the necessary development, as soon as the air carrier or carriers of the first Government is or are in a position increasingly to make their proper contribution to the service.

(8) That duly authorised United States civil air carriers will enjoy non-discriminatory "Two Freedom" privileges and the exercise (in accordance with the Agreement or any continuing or subsequent agreement) of commercial traffic rights at airports located in territory of the United Kingdom which have been constructed in whole or in part with United States funds and are designated for use by international civil air carriers.

(9) That it is the intention of both Governments that there should be regular and frequent consultation between their respective aeronautical authorities (as defined in the Agreement) and that there should thereby be close collaboration in the observance of the principles and the implementation of the provisions outlined herein and in the Agreement and its Annex.

In witness whereof the following Delegates sign the present Final Act.

Done at Bermuda the eleventh day of February, 1946.

This Final Act shall be deposited in the Archives of the Government of the United Kingdom and a certified copy shall be transmitted by that Government to the Government of the United States of America.

AGREEMENT ON LEND-LEASE AND RECIPROCAL AID PIPE-
LINES AND OFFSETTING ARRANGEMENT

In accordance with their JOINT STATEMENT REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY AND CLAIMS, dated December 6, 1945, the Governments of the United States and of the United Kingdom have reached agreement as set forth below regarding settlement for articles and services furnished after September 1, 1945 to either Government through lend-lease and reciprocal aid channels and regarding other matters covered by the offsetting arrangement described in paragraph 3 (a) of the Joint Statement. In general this agreement covers certain articles and services which were intended for supply through mutual aid channels but which, on September 2, 1945, had not been made available to the recipient Government.

Post, p. 1564.

A. PROVISION OF CERTAIN MILITARY AND NAVAL SUPPLIES
AND SERVICES AS BETWEEN ARMED FORCES

1. Straight mutual aid between the Governments of the United States and of the United Kingdom was terminated generally on September 2, 1945; with certain exceptions (which include the provision of military and naval supplies and services referred to in paragraph 2 of this section).

2. In accordance with standing directives, the United States War and Navy Departments have had discretion, in the period after September 2, 1945, to continue to make supplies and services available to the United Kingdom Armed Forces on a straight lend-lease basis in certain specified circumstances. Similarly United Kingdom military and air commanders in the areas under the South East Asia Command and under the United States Army Forces in the Pacific Theatre, and United Kingdom naval commanders in all theatres, have had discretion to make supplies and services available to United States Armed Forces on a straight reciprocal aid basis in similar circumstances. Supplies and services furnished on the above basis are excepted from the arrangements outlined below.

3. It has been agreed that accounts will be rendered in due course for supplies and services (other than any furnished on a straight lend-lease or reciprocal aid basis) furnished by the United States and United Kingdom Armed Forces to each other during the period from September 2, 1945 to December 31, 1945, inclusive, and that such accounts will be settled under the offsetting arrangement referred to in section E of this Agreement. Any such supplies and services furnished after December 31, 1945 (other than any furnished on a straight lend-lease or reciprocal aid basis or covered under section B of this Agreement) will be for cash settlement between the two Governments. Petroleum products designated for withdrawal by either Government from its share of stocks held by the other Government under the Agreement relating to Petroleum concluded this day (No. VI) are not covered by this paragraph.

B. LEND-LEASE

1. The lend-lease pipeline consists of such of the following articles as the Government of the United Kingdom selected for transfer to it after September 1, 1945 as evidenced by a designation duly made by representatives of the Government of the United Kingdom, together with the services specified below:

(a) Articles and services covered by United Kingdom requisitions filed with the Foreign Economic Administration or its successor (other than articles under procurement through the United States Department of Agriculture covered by subparagraph (b) hereof) which were under contract, or were completed, but had not been transferred on September 2, 1945.

(b) Foodstuffs, services and other materials under procurement through the United States Department of Agriculture to the extent of

(i) all firm allocations, emergency allocations, and tentative fourth quarter 1945 allocations in effect as of August 18, 1945 for United Kingdom programs;

(ii) the shares which, after August 18, 1945, were apportioned to the United Kingdom programs out of the quantities for which the Foreign Economic Administration had theretofore incurred procurement obligations but had not made sub-allocations to claimants; and

(iii) the quantities under United Kingdom requisitions, determined to have been active as of August 18, 1945, for commodities not controlled by United States allocation.

(c) (i) Naval supplies available in inventory or under contract which, as of September 2, 1945, were covered by formal United Kingdom requisitions or earmarked against approved requirements placed directly with the United States Navy Department.

(ii) Military supplies available in United States War Department inventories which, as of September 2, 1945, were covered by formal requisitions or earmarked against approved requirements placed directly with the War Department.

(iii) Military and naval maintenance spares issued against requisitions placed during the period from September 2, 1945 to December 31, 1945, inclusive, with the United States War or Navy Department by the Government of the United Kingdom under standing United States Government directives (other than spares issued under section A, paragraph 2 of this Agreement).

(d) Inland transportation, storage, handling and services incidental thereto, furnished in the United States during the period from September 2, 1945 to December 31, 1945, inclusive, with respect to certain materials under the control of the Government of the United Kingdom, to the extent such services were originally requisitioned by that Government prior to September 2, 1945, as modified by later requisition.

(e) Transportation provided out of lend-lease funds for United Kingdom personnel or cargo on United States flag civilian airlines

during the period from September 2, 1945 to December 31, 1945, inclusive.

(f) Shipping services and supplies described in part I of the Annex to this Agreement.

Post, p. 1531.

(g) Petroleum products in accordance with the Agreement relating to Petroleum concluded this day (No. VI).

Post, p. 1547.

2. (a) The Government of the United States agrees to complete as early as possible the transfer of articles in the lend-lease pipeline (both civilian and military), in the quantities and according to the specifications and other conditions, except as to time of delivery, set forth in the requisitions or comparable documents submitted by the Government of the United Kingdom, to the extent that such articles are or will be available to the Government of the United States for transfer to the Government of the United Kingdom and subject to the conditions set forth in this Agreement. The Government of the United States may, however, in exceptional cases, decline to complete the transfer of articles in the lend-lease pipeline, when it determines that such transfer would be contrary to its national interests. The Government of the United Kingdom agrees to accept the transfer of articles in the lend-lease pipeline (both civilian and military) and to settle for such articles under the offsetting arrangement. The Government of the United Kingdom may, however, in exceptional cases, decline to accept articles which it has designated for transfer, but agrees in that event to settle under the offsetting arrangement for the costs (including costs of contract cancellations) incurred by the Government of the United States in connection with such articles, less the value of such articles to the Government of the United States or the proceeds realized from their disposal.

Transfer of articles
in lend-lease pipeline.

(b) Unless otherwise provided by mutual agreement, transfer of articles in the lend-lease pipeline shall be deemed to have taken place immediately upon loading of the articles on board ocean vessel in a United States port, or on board aircraft preparatory to flight from the United States, and title to such articles shall pass at the time of such loading; provided that risk of loss not recoverable from the supplier, carrier or other third party shall be assumed by the Government of the United Kingdom

(i) with respect to articles specifically contracted for under United Kingdom requisitions, upon shipment from the factory or other premises of the supplier;

(ii) with respect to articles covered by paragraph 1(b) of this section, upon delivery f. a. s.; and (iii) with respect to all other articles, upon shipment from warehouse or United States Government depot.

Any articles that shall not have been transferred as provided in this paragraph prior to midnight on December 31, 1946 or 6 months after receipt by the Government of the United Kingdom of notice of availability, whichever is later, shall be deemed to have been transferred as of such later date.

services in the lend-lease pipeline (other than (a) shipping services and supplies, which for this purpose will be dealt with in accordance with part I of the Annex to this Agreement, and (b) petroleum products, which for this purpose will be dealt with in accordance with the Agreement relating to Petroleum concluded this day (No. VI)) will be the amount determined by the Government of the United States as the cost to it of such articles and services. The general basis of costing by the Government of the United States has been the subject of full consultation with the appropriate United Kingdom authorities.

C. RECIPROCAL AID

Settlement for certain supplies and services.

1. (a) Certain supplies and services of types which before V-J Day were made available to the Government of the United States under reciprocal aid have continued to be furnished without current payment, and settlement for such supplies and services furnished during the period from September 2, 1945 to December 31, 1945, inclusive, (other than any furnished on a straight reciprocal aid basis under section A, paragraph 2 of this Agreement) will be made under the offsetting arrangement. Any services rendered or supplies made available after midnight on December 31, 1945 (other than any furnished on a straight reciprocal aid basis under section A paragraph 2 of this Agreement) will be for cash settlement.

Ante, p. 1527.

(b) In the case of bulk commodities for import into the United States on a "Government-to-Government" basis the offsetting arrangement will apply to all such commodities of types which before V-J Day were made available to the Government of the United States on reciprocal aid, entered on ocean bill of lading during the period from September 2, 1945 to December 31, 1945, inclusive. All commodities entered on ocean bill of lading after the latter date will be for cash settlement. Transfer to the Government of the United States shall be deemed to have taken place immediately upon loading of the articles on board ocean vessel. Title and risk of loss with respect to such articles shall pass at the time of such loading.

(c) In the case of bulk commodities for import into the United States for which the Government of the United States itself makes payment in the first instance, the offsetting arrangement will not apply, and the Government of the United Kingdom will not reimburse the Government of the United States for any such commodities entered on ocean bill of lading after midnight on September 1, 1945. The Government of the United Kingdom will reimburse the Government of the United States in cash for commodities covered by approved requisitions for reimbursement under reciprocal aid entered on ocean bill of lading prior to midnight on September 1, 1945 in accordance with the practice previously followed.

Amount of payment to be made by U. S.

2. The amount which the Government of the United States agrees to pay by means of the offsetting arrangement for articles and services in the reciprocal aid pipeline (other than (a) shipping services and supplies, which for this purpose will be dealt with in accordance

with Part II of the Annex to this Agreement, and (b) petroleum products, which for this purpose will be dealt with in accordance with the Agreement relating to Petroleum concluded this day (No. VI) will be the amount determined by the Government of the United Kingdom as the cost to it of such articles and services. The general basis of costing by the Government of the United Kingdom has been the subject of full consultation with the appropriate United States authorities.

D. TORT CLAIMS

The amounts paid by the Governments of the United States and of the United Kingdom in settlement of certain claims described in the Agreement relating to Tort Claims concluded this day (No. IX) shall be included in the offsetting arrangement.

Post, p. 1563.

E. OFFSETTING ARRANGEMENT

The Joint Statement of December 6, 1945 contemplated that the total amounts due for certain supplies and services furnished after September 1, 1945 through lend-lease and reciprocal aid channels to the Governments of the United Kingdom and of the United States respectively, would be offset in order finally to compute the net sum due from the Government of the United Kingdom to the Government of the United States in accordance with paragraph 3 of the Joint Statement. The sum of \$118,000,000 appearing in paragraph 3 (a) of the Joint Statement represented the best estimate then obtainable of the net amount which would be due to the Government of the United States under paragraph 3 (a), after deducting the net sum due to the Government of the United Kingdom under the claims settlement. The net sum due to the Government of the United Kingdom under the Agreement on Settlement of Intergovernmental Claims concluded this day (No. II) has been finally computed at \$53,020,000.

Total amounts due.

Post, p. 1534.

The supplies and services to be brought into this offsetting arrangement are those so specified in this Agreement. The total amounts due for such supplies and services will be computed in accordance with the principles set forth in this Agreement.

An agreed accounting procedure shall be established for the computation of the net sum due under this offsetting arrangement.

AGREEMENT RELATING TO MILITARY HOLDINGS

In accordance with their JOINT STATEMENT REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY AND CLAIMS, dated December 6, 1945, and with the principles of international security and welfare set forth in the Charter of the United Nations, the Governments of the United States and of the United Kingdom agree that, effective September 2, 1945, the disposition and use of lend-lease articles which were (a) in the possession or control on September 2, 1945 of the United Kingdom Armed Forces (including their supply agents) or (b) transferred to them thereafter on straight lend-lease terms (both hereinafter referred to as "lend-lease articles"), and of reciprocal aid articles which were (a) in the possession or control on September 2, 1945 of the United States Armed Forces (including their supply agents) or (b) transferred to them thereafter on straight reciprocal aid terms (both hereinafter referred to as "reciprocal aid articles") shall be governed by the following principles.

1. Under Article V of the Mutual Aid Agreement of February 23, 1942 between the Governments of the United States and of the United Kingdom, the Government of the United States has the right to recover at the end of the present emergency as determined by the President, such defense articles transferred under that Agreement as have not been destroyed, lost or consumed, and as shall be determined by the President to be useful in the defense of the United States or of the Western Hemisphere, or to be otherwise of use to the United States of America. It is agreed that this right of recapture may be exercised at any time after September 1, 1945 with respect to lend-lease articles which, as of the date upon which notice requesting return is communicated to the Government of the United Kingdom, are not destroyed, lost, consumed or disposed of in accordance with this Agreement.

2. The Government of the United States reserves its right of recapture of any lend-lease articles held by the United Kingdom Armed Forces, but does not intend to exercise generally this right of recapture. In respect of cases where it wishes from time to time to exercise its right of recapture, the Government of the United States will give reasonable notice of its intention and will provide full opportunity to the Government of the United Kingdom for discussion of that Government's need for the articles in question, without limiting the right of recapture referred to in paragraph 1 hereof. The Government of the United Kingdom will make the arrangements for effecting the physical return to the custody of the Government of the United States, at such points as the latter may designate, of the lend-lease articles to be recaptured, and will use its best endeavors to see that all reasonable care is exercised in order to prevent loss of or damage to such articles during the process of return. The Government of the United States will, however, take into consideration the practical difficulties in particular cases, especially as to designation of points of delivery, and will cooperate with the Government of the United

3. Similar principles will be applied by both Governments in regard to the recapture of reciprocal aid articles.

Responsibility in connection with articles not recaptured, etc.

4. Full responsibility in connection with any lend-lease and reciprocal aid articles not recaptured or accepted for return by the supplying Government shall lodge with the recipient Government. The supplying Government may decline to accept any lend-lease or reciprocal aid articles which may be offered for return. The recipient Government shall not be required to notify the supplying Government before disposing of or abandoning any lend-lease or reciprocal aid articles which become surplus to the military requirements of the recipient Government. Nothing in this paragraph shall, however, be construed as overriding the provisions of paragraphs 6, 7, and 8 hereof.

5. Except as provided in the following paragraphs hereof, the recipient Government will not be required to purchase from the supplying Government, or to enter into any mutual financial arrangements regarding, any lend-lease or reciprocal aid articles.

Transfers by recipient Government to third government, limitation.

6. Transfer by the recipient Government of lend-lease or reciprocal aid articles may be made to third governments (including Dominion Governments) for military use, whether by sale, loan or otherwise, only with the prior authority of the supplying Government and on terms to be agreed between the supplying Government and the third government in question, it being understood that such transfer will in all cases be made for purposes compatible with the principles of international security and welfare set forth in the Charter of the United Nations. Contingent forces serving under United Kingdom command may, subject to the prior authority of the Government of the United States, withdraw lend-lease articles from United Kingdom military holdings upon their assuming a status independent of the United Kingdom Armed Forces. The terms of settlement for such articles shall be agreed between the Government of the United States and the government making the withdrawal.

59 Stat. 1031.

Disposal of lend-lease articles for civilian use.

7. Lend-lease articles may be disposed of for civilian use, whether by sale, lease or otherwise, outside the United Kingdom and British Colonial Dependencies only after the Government of the United States has been offered and has declined their return and has approved such disposal of the articles. Any disposals in this category shall be for the account of the Government of the United States and the proceeds of any such disposal, net of selling and other relevant and necessary expenses, shall accrue to the Government of the United States in the currency in which payment was made to the Government of the United Kingdom. Net proceeds in respect of the period from September 2, 1945 onwards under leases, arranged before that date, of lend-lease articles for civilian use outside the United Kingdom and British Colonial Dependencies will similarly accrue to the Govern-

ment of the United States. Such payment by the Government of the United Kingdom will constitute fulfilment of obligations laid upon it by this paragraph in respect of such leases. The foregoing provisions of this paragraph shall be without prejudice to the possible conclusion at a later date of separate arrangements between the governments concerned providing for the comprehensive settlement of the rights and obligations arising from the disposal for civilian use within a given country outside the United Kingdom and British Colonial Dependencies of lend-lease articles in the possession or control of the United Kingdom Armed Forces. It is understood that although the disposal of lend-lease articles within the United Kingdom and British Colonial Dependencies shall be at the full discretion of the governments concerned, these governments will not in practice be releasing such articles for export or for civilian use except to a very limited extent. In view of this understanding, the total sum due to the Government of the United States pursuant to the Joint Statement of December 6, 1945 is deemed to include an adequate compensation for the value of such goods as may be released for civilian use in the United Kingdom and British Colonial Dependencies. In the case of food, the Government of the United Kingdom anticipates that all the lend-lease food-stuffs held by the United Kingdom Armed Forces will, subject to exceptional circumstances, be consumed by those Forces; in view of this, such exceptional disposals of food as may occur outside the United Kingdom and British Colonial Dependencies are excepted from the provisions of this paragraph, although such cases will be reported to the Government of the United States.

Post, p. 1564.

Food.

8. Lend-lease articles rendered unfit for military use may be disposed of for scrap outside the United Kingdom and British Colonial Dependencies without the prior authority of the Government of the United States. Accounts of any net proceeds from such disposals during an agreed six month's period shall be kept by the Government of the United Kingdom, which will remit the aggregate of such net proceeds to the Government of the United States. In the light of experience gained during such period, the Government of the United States will review with the Government of the United Kingdom this arrangement, with a view to determining whether an accounting to the Government of the United States for net proceeds from such disposals recorded prior to such period or derived thereafter need be undertaken.

Disposal of lend-lease articles for scrap.

9. The provisions of paragraphs 6, 7 and 8 hereof shall not apply to components (other than aircraft engines, aircraft propellers, aircraft automatic pilots, aircraft gun turrets, and power units of 3 or more kilowatts) which at the time of disposal are installed in or assembled with articles not themselves subject to this Agreement.

10. The provisions of this Agreement do not apply to the following categories of lend-lease and reciprocal aid articles:

Nonapplication of provisions to designated categories of articles.

- (a) Installations (covered by the Agreement on Lend-Lease and Reciprocal Aid Installations, No. VII).
- (b) Petroleum and Petroleum Products (covered by the Agreement relating to Petroleum, No. VI).

Post, p. 1559.

Post, p. 1547.

Ante, p. 1537.*Post*, p. 1543.

- (c) Raw Materials (covered by the Agreement relating to Civilian Holdings, No. III).
- (d) Such aircraft and spares therefor as are covered by the Agreement on Lend-lease Aircraft (Non-Combat) and Spares (No. V).
- (e) Vessels of the Navy procured with United States Navy appropriations; such vessels are subject to return under United States law.
- (f) Ocean-going lend-lease vessels (other than vessels referred to in (e) above), which will be dealt with in accordance with the agreements relating to their transfer.
- (g) Vessels exceeding 100 gross tons furnished under reciprocal aid.
- (h) Articles of possible lend-lease or reciprocal aid origin which cannot be identified as to origin and which are not otherwise dealt with in these Agreements. Such unidentifiable articles shall be deemed the property of the holding Government.

"Vessels."

11. In this Agreement the term "vessels" includes ships, boats, barges, floating dry docks and other watercraft.

"United Kingdom Armed Forces."

12. The term "United Kingdom Armed Forces" as used herein comprises all armed forces under the direction of the United Kingdom Chiefs of Staff. All the armed forces under command of Commander-in-Chief India are to be regarded for the purposes of this Agreement as United Kingdom Armed Forces, and the Government of the United Kingdom assumes full responsibility in connection with the use and disposal of lend-lease articles in the possession or control of such Forces in accordance with the conditions herein laid down. On April 1, 1946, a proportion of lend-lease military holdings in India will be earmarked for the requirements of the forces under the command of Commander-in-Chief India on the basis of their post-war strength. The conditions governing the use and disposal of the lend-lease articles so earmarked will form the subject of negotiations between the Governments of the United States and of India, and the privileges of the Government of the United Kingdom and its obligations to the Government of the United States under this Agreement with respect to such articles shall remain operative until the date on which any separate arrangements between the Governments of the United States and of India relating to such articles take effect. As from such date and for purposes compatible with the principles of international security and welfare set forth in the Charter of the United Nations, lend-lease articles held by the United Kingdom Armed Forces may be transferred to the forces under the command of Commander-in-Chief India without the prior authority of the Government of the United States subject to the following understandings:

Lend-lease military holdings in India.

59 Stat. 1031.

(a) Subsequent reports, in such practicable form and detail as may later be mutually agreed, regarding such transfers will be made to the Government of the United States.

(b) The Government of the United States reserves the right to reopen with the Government of the United Kingdom the question of applying the principle of prior authority over such transfers stipulated in paragraph 6 of this Agreement, should there be a material change in the existing arrangements between the United Kingdom Armed Forces and the Armed Forces of the Government of India.

V

AGREEMENT ON LEND-LEASE AIRCRAFT (NON-COMBAT)
AND SPARES

In accordance with their JOINT STATEMENT REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY AND CLAIMS, dated December 6, 1945, the Governments of the United States and of the United Kingdom have reached agreement as set forth below regarding settlement for certain lend-lease aircraft and spares, of non-combat nature, furnished by the Government of the United States to the Government of the United Kingdom.

Post, p. 1564.

1. This Agreement covers the use and disposition of all aircraft of the models listed in the Annex hereto, together with spares for such aircraft, which were transferred by the Government of the United States to the Government of the United Kingdom under lend-lease during the period from March 11, 1941 to September 1, 1945, inclusive, and were not destroyed, lost or consumed at the end of that period.

Post, p. 1546.

2. This settlement is made in partial consideration of the payment by the Government of the United Kingdom of the net sum of \$532,000,000 specified in section 3 (b) of the Joint Statement of December 6, 1945, and is final in respect of the aircraft and spares referred to in paragraph 1 hereof, except for the separate payments which may be made in the circumstances indicated in paragraphs 5, 6 and 7 hereof.

Post, p. 1564.

3. The Government of the United States hereby transfers to the Government of the United Kingdom full title, as of September 2, 1945, to 72 Dakota (C-47) aircraft intended for operation by British civil air lines.

4. The Government of the United States hereby transfers to the Government of the United Kingdom full title, as of September 2, 1945, to 600 Dakota (C-47) aircraft, 25 Expediter (UC-45) aircraft, and 18 Liberator (C-87) transport aircraft, subject only to the condition that, as and when they become surplus to British military requirements, they will not be transferred, by sale, loan or otherwise, to third countries (including the Dominions and India) outside the United Kingdom and British Colonial Dependencies without the consent and agreement of the Government of the United States.

5. The two Governments will enter into a leasing arrangement, the specific terms of which will be hereafter agreed, in respect of 671 Dakota (C-47) aircraft, for a total of 7,213 aircraft months beginning September 2, 1945. Such leasing arrangement shall provide that, upon its termination with respect to any particular aircraft, such aircraft will be returned subject to the provisions of paragraph 12 hereof. It shall also contain appropriate provisions governing the liability of the Government of the United Kingdom in kind or in cash (outside the provisions of section 3 (b) of the Joint Statement of December 6, 1945), for loss of or damage to any aircraft while

Leasing arrangement.

Post, p. 1564.

- Monthly statement. under lease. A monthly statement shall be furnished by the Government of the United Kingdom as to the consumption of the 7,213 aircraft months and as to the number of aircraft that will be available for return at the end of the month.
- Extension of leasing arrangement. 6. In the event that the Government of the United Kingdom desires to extend the leasing arrangement referred to in paragraph 5 hereof, the Government of the United States will grant such extension, for which separate payment will be made by the Government of the United Kingdom in cash at the rate of \$333.33 per aircraft month for any aircraft months in excess of the 7,213 aircraft months specified in paragraph 5 hereof. In the event of a national emergency the Government of the United States shall have the right to refuse such extension in respect of any or all aircraft under lease.
- Acquisition of aircraft by United Kingdom; payment. 7. Should the Government of the United Kingdom desire at any time to acquire, and the Government of the United States be willing to transfer, title to any of the said aircraft leased from the Government of the United States, separate payment shall be made in cash by the Government of the United Kingdom at the present United States standard surplus disposal price of \$20,000 per aircraft less lease charges paid in respect of such aircraft up to the time of purchase thereof, or at the United States standard disposal price obtaining at the date of acquisition with no reduction for lease charges previously paid, whichever is the lower.
- Transfer of spares. 8. The Government of the United States hereby transfers to the Government of the United Kingdom full title, as of September 2, 1945, to the latter's holdings on that date of spares related to the aircraft described in paragraphs 3, 4 and 5 of this Agreement (estimated at two months' supply), subject to the same conditions regarding disposal as are applicable to the particular aircraft to which they are related.
- Use of certain Harvard and Liberator aircraft by United Kingdom. 9. The Government of the United Kingdom may continue to use for military purposes such Harvard (AT-6 and AT-16) aircraft as it has indicated it requires for such purposes, and such Liberator (B-24) aircraft as have been converted by the RAF into improvised transport aircraft, together with a proportionate range of spares behind both types. No converted Liberator (B-24) aircraft will be employed by the Government of the United Kingdom for commercial hire in the carriage of freight or passengers.
- Restriction. 10. The Government of the United Kingdom will offer to the Government of the United States for return all the aircraft referred to in paragraph 1 hereof (other than those covered by paragraphs 3, 4 and 5 hereof) which remain on charge to all holding agencies of the Government of the United Kingdom. The Harvard and Liberator aircraft referred to in paragraph 9 hereof will be offered for return on the same conditions as they become surplus to United Kingdom military requirements and, if not accepted by the Government of the United States, will be subject to the provisions of paragraph 13 hereof.
- Offer of aircraft and spares for return to U. S.

Further, the Government of the United Kingdom will make every effort to return as large a quantity as possible of spares for aircraft of the models offered for return and needed by the Government of the United States.

11. Subject to the provisions of paragraphs 5 and 6 hereof, the Government of the United States reserves its full right of recapture pursuant to Article V of the Mutual Aid Agreement dated February 23, 1942 in respect of all aircraft and spares covered by this Agreement other than those to which title is acquired by the Government of the United Kingdom pursuant to paragraphs 3, 4 and 8 hereof, or is hereafter acquired by it pursuant to paragraph 7 hereof. It is agreed that this right of recapture may be exercised at any time after September 1, 1945 with respect to aircraft and spares covered by this Agreement which, as of the date upon which notice requesting return is communicated to the Government of the United Kingdom, are not destroyed, lost, consumed or disposed of in accordance with this Agreement.

Reservation of right of recapture of aircraft and spares by U. S.

56 Stat. 1434.

12. The Government of the United Kingdom will make the arrangements for effecting the physical return to the custody of the Government of the United States, at such points as the latter may designate, of any aircraft and spares to be returned or recaptured and will use its best endeavors to see that all reasonable care is exercised in order to prevent loss of or damage to such articles during the process of return. The Government of the United States will give reasonable notice of its intention to recapture, will take into consideration the practical difficulties in particular cases, especially as to designation of points of delivery, and will co-operate with the Government of the United Kingdom as fully as the available United States organization and equipment permit in facilitating and expediting the return of articles to be recaptured. With respect to aircraft, other than those covered by paragraphs 5 and 6 hereof, the Government of the United Kingdom will be required to make the above arrangements only for aircraft which, at the date of the notice of intention to recapture or of the acceptance of the offer for return, are flyable or may be made so after repairs requiring not more than 250 man-hours in the case of a Dakota (C-47) and proportionately greater or less time for larger or smaller models.

Physical return of aircraft and spares to custody of U. S.

13. So long as aircraft and spares covered by this Agreement and not within paragraphs 3 to 8 hereof, inclusive, have not been the subject of (a) acceptance by the Government of the United States of an offer for return in accordance with the requirements of paragraph 10 or (b) recapture by the United States under the provisions of paragraph 11, they may be used by the Government of the United Kingdom for military purposes and, as they become surplus to such military purposes, may be disposed of for its own account as salvage or scrap, after being rendered unfit for aeronautical use, without further consultation with the Government of the United States.

Use of aircraft and spares for military purposes, etc., by United Kingdom.

AGREEMENT RELATING TO PETROLEUM

In accordance with their JOINT STATEMENT REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY AND CLAIMS, dated December 6, 1945, the Governments of the United States and of the United Kingdom hereby agree that the various questions relating to petroleum arising between the two Governments out of the conduct of World War II shall be dealt with as follows:

Post, p. 1564.

A. PETROLEUM "PIPELINE"

1. The lend-lease petroleum "pipeline" intended for the United Kingdom consists of supplies contracted for but not transferred before September 2, 1945 which the Government of the United Kingdom designated for transfer after that date under lend-lease procedure. The Government of the United States agrees to complete the transfer of the petroleum products in the pipeline and the Government of the United Kingdom agrees to accept the transfer of such products. The total agreed value of the lend-lease petroleum pipeline, which amounts to \$275,440, will be brought into the offsetting arrangement described in section E of the Agreement on Lend-Lease and Reciprocal Aid Pipelines and Offsetting Arrangement concluded this day (No. I).

Lend-lease petroleum "pipeline."

Ante, p. 1527.

Reciprocal aid petroleum "pipeline."

2. The reciprocal aid petroleum "pipeline" is deemed to consist of
- (a) deliveries of fuel oil in the amount of \$5,158,927 made to the United States Navy during the period from September 2, 1945 to December 31, 1945, inclusive, under contracts with non-American companies in Curacao, Trinidad and Abadan; and
 - (b) deliveries up to a maximum value of \$400,000 of petroleum products, other than aviation gasoline and lubricants, made or to be made during the period from September 2, 1945 to June 30, 1946, inclusive, to the United States Armed Forces in the Middle East.

These items will be brought into the offsetting arrangement.

B. CLAIMS BROUGHT WITHIN THE AGREEMENT ON SETTLEMENT OF INTERGOVERNMENTAL CLAIMS

The following claims, arising out of petroleum transactions, in the net amount of \$2,200,000 in favor of the Government of the United States are included in the Agreement on Settlement of Intergovernmental Claims concluded this day (No. II) for settlement in accordance therewith.

Ante, p. 1534.

1. *Claims by the Government of the United States accepted by the Government of the United Kingdom*

(a) *United Kingdom Motor Spirit Basic Ration.* In conformity with previously made arrangements, the Government of the United Kingdom accepts the claim of the Government of the United States in the amount of \$2,800,000 for the landed cost of such additional motor spirit as was consumed in the United Kingdom during the period from June 1, 1945 to September 1, 1945, inclusive, by private cars for private use by reason of the restoration of the basic ration.

(b) *Commercial Exports of Petroleum Products from the United Kingdom.* In conformity with previously made arrangements regarding commercial exports of petroleum products from the United Kingdom, the Government of the United Kingdom accepts the claim of the Government of the United States in the amount of \$5,100,000 for the landed cost in the United Kingdom of such products exported to Eire, West Africa, Sweden and France during the period from March 11, 1941 to September 1, 1945, inclusive.

(c) *Diversions of Lend-Lease Petroleum and Petroleum Materials in the Middle East.* The sum of \$1,000,000 shall be taken as the amount due to the Government of the United States from the Government of the United Kingdom in respect of diversions to oil companies in the Middle East of lend-lease petroleum products and petroleum materials for which the Government of the United States was entitled to reimbursement.

2. *Claims by the Government of the United Kingdom accepted by the Government of the United States*

(a) *Brazil and Dakar.* The Government of the United States accepts the claim of the Government of the United Kingdom in the amount of \$2,300,000 for a proportionate share, based on contributions, of the proceeds from those sales of petroleum products to third parties in Brazil and Dakar in which there was a reciprocal aid content.

(b) *North Africa.* The Government of the United States accepts the claim of the Government of the United Kingdom in the amount of \$4,400,000 for a proportionate share, based on contributions, of the proceeds from sales of petroleum products for civilian use in North Africa during the period from December 1, 1944 to September 1, 1945, inclusive.

C. TRANSACTIONS TO BE CARRIED TO COMPLETION

1. *Crude Oil for Programs of the Combined Training Establishment in Canada.* The Government of the United States will complete the delivery of crude oil in Canada, in accordance with standing agreements and United Kingdom requisitions previously approved thereunder, to carry out its commitment to the Government of the United Kingdom in connection with aviation petroleum products consumed prior to September 2, 1945 under the programs of the Combined Training Establishment in Canada.

2. *Aviation Gasoline at Bahrein.* The Government of the United Kingdom reaffirms the dollar-sterling conversion and petroleum supply arrangements made between it and the Government of the United States during the war with respect to aviation gasoline supply and reciprocal aid at Bahrein and will carry such arrangements to completion.

3. *Other Transactions.* Certain other transactions described in Annex I, in which the liability for payment has heretofore been acknowledged and the method of computation is not in dispute, will be carried to completion in due course as provided in Annex I.

D. CIVIL AFFAIRS SUPPLIES

1. *Northwest Europe.* Contributions of petroleum products to Northwest Europe drawn from the United Kingdom pool will be treated as falling in the unidentifiable category as set forth in the agreements already reached by the Governments of the United Kingdom and of the United States regarding the lend-lease element in civil affairs supplies, subject to the proviso that, in the case of petroleum products as distinguished from other unidentifiable civil affairs supplies, the provisions of these agreements dealing with the determination of contributions shall be applied over the period from March 11, 1941 to September 1, 1945, inclusive, in order to be consistent with the method used for the determination of the lend-lease share of the United Kingdom petroleum inventory and other arrangements between the two Governments in respect of petroleum products.

2. *South Europe.* The Government of the United Kingdom waives any claim to have contributed a share of the petroleum products sold for civilian use by Allied Forces Headquarters in South European countries.

E. WAIVER OF OTHER CLAIMS

The provisions of the Agreement on Settlement of Intergovernmental Claims concluded this day (No. II) shall apply to claims arising out of petroleum transactions, and in addition all claims not otherwise dealt with in this Agreement or in Annex I hereto, arising out of the sale, diversion or retransfer, in Gibraltar, Malta, China, the Philippines and elsewhere, of petroleum products or petroleum materials supplied under lend-lease or reciprocal aid are hereby mutually waived, whether or not covered by paragraph 4 of the Agreement on Settlement of Intergovernmental Claims.

Ante, p. 1534.

Post, p. 1553.

Ante, p. 1535.

F. INVENTORIES

1. *United Kingdom Inventories.* For the purposes of this Agreement, the total petroleum inventories in the United Kingdom as of September 2, 1945 shall be deemed to include petroleum stocks in the United Kingdom on that date, stocks then in transit to the United Kingdom, and stocks then within the possession of the British Armed Forces in Northwest Europe. These stocks have been divided into the United Kingdom share, attributable to contributions to such stocks by the Government of the United Kingdom, and the United States lend-lease share, attributable to contributions of the Government of the United States to such stocks under lend-lease. Such United States lend-lease share is equivalent to the sum of (a) the quantities earmarked under previous arrangements as the United States military share, and (b) other United States lend-lease stocks.

The agreed amount of the United States lend-lease share is shown in Annex II.

Post, p. 1554.

2. *Other Inventories.*

(a) An agreed statement of inventories of petroleum products attributable to lend-lease within the possession of the Government

of the United Kingdom as of September 2, 1945 (exclusive of inventories in the United Kingdom and in the Mediterranean pool) and of inventories of petroleum products attributable to reciprocal aid within the possession of the Government of the United States as of that date is given in Annex III.

Post, p. 1555.

(b) An agreed statement of stocks constituting part of the Mediterranean pool which were transferred as of September 2, 1945 for use by the British Armed Forces pursuant to directive of the United States Joint Chiefs of Staff is given in Annex IV.

Post, p. 1555.

Post, p. 1556.

(c) An agreed statement is given in Annex V showing the petroleum products in Italy physically under British control as of September 2, 1945 but available for use by the United States Armed Forces or for issue to other parties at the discretion of the Government of the United States, representing the difference between (i) the total stocks held in British controlled tankage in Italy as of September 2, 1945 and (ii) the stocks which were transferred in Italy for use by the British Armed Forces pursuant to directive of the United States Joint Chiefs of Staff as shown in Annex IV.

Post, p. 1555.

G. WITHDRAWALS BY THE GOVERNMENT OF THE UNITED STATES AGAINST ITS SHARE OF INVENTORIES WITHIN THE POSSESSION OF THE GOVERNMENT OF THE UNITED KINGDOM

1. *Withdrawals from United Kingdom Inventories.* The Government of the United States has notified the Government of the United Kingdom of the quantities of petroleum products as set out in Annex VI, which it estimates that the United States Armed Forces will wish to withdraw against the United States share of the United Kingdom stocks either for use in the United Kingdom or for shipment elsewhere for military purposes. With respect to the latter, it shall be at the option of the Government of the United Kingdom, after consultation with the United States military authorities, to substitute direct deliveries from other areas, in which case appropriate adjustment will be made for any differences in freight costs. While the Government of the United States has the right to withdraw the designated quantities at any time and the Government of the United Kingdom will use its best endeavors to make prompt delivery of the quantities notified as required by the United States Armed Forces, in case of stringency as regards supplies or tankers the Government of the United Kingdom may postpone deliveries by arrangement with the United States military authorities.

Post, p. 1556.

2. *Withdrawals from Other Inventories.* The Government of the United States has notified the Government of the United Kingdom of the quantities of aviation gasoline which it wishes to withdraw in India, Ceylon and the Middle East, and of the quantities of aviation lubricants which it wishes to withdraw in Ceylon and the Middle East, against its share of stocks of these products in the areas mentioned attributable to contributions of the Government of the United States to such stocks under lend-lease. These quantities are set out in Annex VII. The Government of the United States has the right to withdraw such quantities at any time.

Post, p. 1556.

H. WITHDRAWALS BY THE GOVERNMENT OF THE UNITED KINGDOM AGAINST ITS SHARE OF INVENTORIES IN THE PACIFIC

The Government of the United Kingdom has notified the Government of the United States of the quantities of petroleum products, as set out in Annex VIII, which it wishes to withdraw from stocks in the Pacific against its reciprocal aid share of such stocks. The Government of the United Kingdom has the right to withdraw such quantities at any time.

Post, p. 1557.

I. TITLE TO INVENTORIES AND TO PETROLEUM PRODUCTS DESIGNATED FOR WITHDRAWAL

In so far as either the Government of the United States or the Government of the United Kingdom does not already hold title to petroleum inventories or to petroleum products designated for withdrawal:

- (1) The Government of the United States hereby acquires and shall be deemed to have acquired on September 2, 1945 full title (a) to all petroleum products designated for withdrawal by the Government of the United States pursuant to section G hereof, and (b) to all petroleum inventories located outside the United Kingdom which were within the possession of the Government of the United States as of September 2, 1945, or were subsequently transferred to it under United Kingdom Government directive, except for the quantities designated for withdrawal after September 1, 1945 by the Government of the United Kingdom pursuant to section H hereof.
- (2) The Government of the United Kingdom hereby acquires and shall be deemed to have acquired on September 2, 1945 full title (a) to all petroleum products designated for withdrawal by the Government of the United Kingdom pursuant to section H hereof, and (b) to all petroleum inventories in its possession as of September 2, 1945 or subsequently transferred to it under United States Joint Chiefs of Staff directive, except for quantities designated for withdrawal by the Government of the United States after September 1, 1945 pursuant to section G hereof.

A summary of petroleum inventories and of petroleum products designated for withdrawal, title to which is deemed to pass in accordance with this section, is given in Annex IX.

Post, p. 1557.

J. FINANCIAL SETTLEMENT FOR INVENTORIES, WITHDRAWALS AND TRANSFERS

1. *Settlement for Inventories and Transfers of Stocks.* Title to petroleum products acquired by the Governments of the United States and of the United Kingdom under the terms of section I of this Agreement which had been furnished under lend-lease and reciprocal aid prior to September 2, 1945, shall be deemed to have been transferred in consideration of mutual transfers of the title to such products and in partial consideration of the payment of the net amount of \$532,000,000 by the Government of the United Kingdom

to the Government of the United States specified in paragraph 3 (b) of the Joint Statement of December 6, 1945.

Post, p. 1564.

2. *Settlement for Withdrawals.* No financial payment for withdrawals under the provisions of sections G and H hereof shall be required; provided, however, that as of the date when either Government declares that it has made its last withdrawal, settlement for any differences between actual withdrawals and the quantities designated for withdrawal by either Government against its share of stocks within the possession of the other Government as of September 2, 1945, and for appropriate handling and packaging charges on quantities delivered after September 1, 1945 to the United States Armed Forces in the United Kingdom (but not on direct deliveries from source in bulk to the United States Armed Forces in areas other than the United Kingdom, on which no such charges will accrue) or in the other areas mentioned in section G paragraph 2 hereof, shall be made by payment, at appropriate prices to be agreed at the date of settlement, in cash or in kind by adjustment of quantities, as may be mutually convenient, in which case title to any such differences shall pass to the retaining Government upon such payment or adjustment.

Ante, pp. 1550, 1551.

Ante, p. 1550.

3. *Settlement for Other Deliveries.* All deliveries after September 1, 1945 of petroleum products to agencies of the Government of the United States or of the Government of the United Kingdom, exclusive of (a) those mentioned in section A paragraphs 1 and 2 hereof, (b) withdrawals against agreed shares of inventories, or (c) straight lend-lease or reciprocal aid transfers under United States Joint Chiefs of Staff or United Kingdom Government directives, shall be for settlement in cash.

Ante, p. 1547.

K. LEND-LEASE INTERESTS IN PETROLEUM INSTALLATIONS

1. *Petroleum Installations in the United Kingdom.* The lend-lease interest in petroleum installations in the United Kingdom is transferred to the Government of the United Kingdom in accordance with the Agreement on Lend-Lease and Reciprocal Aid Installations concluded this day (No. VII).

Post, p. 1559.

2. *Petroleum Installations in British Colonial Dependencies and in Third Countries.* Petroleum installations located in British Colonial Dependencies and under the control of the United States Armed Forces on September 2, 1945 are shown in Annex X. The lend-lease interest in these installations is deemed to have been returned to the Government of the United States under the Agreement on Lend-Lease and Reciprocal Aid Installations concluded this day (No. VII). Petroleum installations located outside the United Kingdom and British Colonial Dependencies, in which the United States had a lend-lease interest and which were in civilian use on September 2, 1945 or thereafter were or may be diverted to such use, are shown in Annex XI. The installations listed in Annexes X and XI shall be used and disposed of in accordance with the Agreement on Lend-Lease and Reciprocal Aid Installations.

L. RESTRICTIONS ON IMPORTATION OF PETROLEUM EQUIPMENT AND MATERIALS

In the course of the negotiation of this Agreement several questions which have arisen in connection with restrictions imposed on American

oil companies, limiting the importation from the United States of plant and materials necessary to rehabilitate American oil properties in certain British areas, were discussed and cleared up individually on a satisfactory basis. The Government of the United Kingdom agrees that it will not impose or encourage the imposition of restrictions on the importation of petroleum materials from the United States likely to prejudice American companies in relation to their competitors.

M. GENERAL PETROLEUM QUESTIONS

The principles of general commercial policy recently discussed between the two Governments relate to petroleum as to any other commodity.

The two Governments recognize the importance of early agreement on petroleum questions of mutual interest and, pending the establishment of formal intergovernmental machinery to deal specifically with petroleum questions, will consult together as necessary on such questions.

ANNEX I

TRANSACTIONS REFERRED TO IN SECTION C PARAGRAPH 3 OF THIS AGREEMENT

Ante, p. 1548.

The following transactions, in which the liability for payment has heretofore been acknowledged and the method of computation is not in dispute, have been left for settlement outside the offsetting arrangement, and payment will be made in due course.

Transactions left for settlement outside the offsetting arrangement.

1. *Iceland.* To carry out previously made arrangements, in dividing between the two Governments the proceeds from sales of petroleum products shipped to Iceland via the United Kingdom, the Government of the United States shall be credited with the proceeds of sales of such petroleum products made during the period from January 1, 1944 to October 31, 1944, inclusive. If, however, the proceeds from such sales should exceed the landed cost of such products in the United Kingdom, any excess shall be credited to the Government of the United Kingdom, which has met under reciprocal aid the expenses incurred by it in respect of such petroleum products for handling charges in the United Kingdom, freight from the United Kingdom to Iceland, leakage en route and handling charges in Iceland.

In the case of sales of such petroleum products made during the period from November 1, 1944 to September 1, 1945, inclusive, the Government of the United States shall be credited with the landed cost in the United Kingdom of the petroleum products sold and the Government of the United Kingdom will be credited with any proceeds over and above such cost.

The resultant net balance of accounts is known to be in favor of the Government of the United States, although the exact amount is subject to future determination. This balance shall be settled by cash payment to the Government of the United States.

2. *Profits from Cairo-Suez Pipeline.* The Government of the United Kingdom agrees to pay the Government of the United States the amounts due to the Government of the United States, to be

agreed between the two Governments at convenient intervals, in respect of its share of the profits arising from the operation of the Cairo-Suez Pipeline. These payments will be made in the currency received in the course of operations.

3. *Arrangements for Expansion of Petroleum Output by Sterling Area Refineries.* The Government of the United States reaffirms the arrangement made in 1944 in connection with the combined decision of the Governments of the United Kingdom and of the United States to expand the output of petroleum products in Curacao, Trinidad and Bahrein for use in the Allied war effort and will complete the payments due to the Government of the United Kingdom when the amounts have been determined.

4. *Aviation Petroleum Products for Certain Atlantic Bases.* The Government of the United States will complete payment to suppliers in the amount found to be due in accordance with existing agreements and under approved requisitions covering aviation petroleum products used prior to September 2, 1945 by the Royal Air Force at bases in Newfoundland and Bermuda.

5. *Trinidad.* The Government of the United Kingdom will pay to the Government of the United States the amount due in settlement of the difference between (a) the sum of the cost of certain services in connection with petroleum and of the cost of petroleum products delivered at Trinidad to the Government of the United States which have been determined as eligible for reciprocal aid although payment was made at the time by the Government of the United States and (b) the cost of petroleum products delivered to the Government of the United States at Trinidad under reciprocal aid, but later diverted for purposes not eligible for reciprocal aid.

AGREEMENT ON LEND-LEASE AND RECIPROCAL AID
INSTALLATIONS

In accordance with their JOINT STATEMENT REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY AND CLAIMS, dated December 6, 1945, and in partial consideration of the payment of the net amount of \$532,000,000 by the Government of the United Kingdom to the Government of the United States specified in paragraph 3 (b) thereof, the Governments of the United States and of the United Kingdom have reached agreement as set forth below regarding the transfer, use and disposition of lend-lease and reciprocal aid installations, which term shall cover structures or capital assemblies affixed to land or buildings in a permanent manner.

Post, p. 1564.

Post, p. 1564.

1. The Government of the United Kingdom hereby acquires and shall be deemed to have acquired on September 2, 1945 full title to any lend-lease interest in installations located in the United Kingdom or British Colonial Dependencies on that date, except that such interest in any installations located in the Colonial Dependencies and under the control of the United States Armed Forces on that date shall be deemed to have been returned to the Government of the United States. The Government of the United States hereby acquires and shall be deemed to have acquired on September 2, 1945 full title to any reciprocal aid interest in installations located on that date in the United States, its territories or possessions. A lend-lease or reciprocal aid interest shall be deemed to exist in an installation when (a) it has been furnished in complete form under lend-lease or reciprocal aid, or (b) it contains significant quantities of lend-lease or reciprocal aid materials, or (c) a significant part of the construction costs was met under lend-lease or reciprocal aid.

2. The lend-lease interest in installations transferred to the Government of the United Kingdom under paragraph 1 hereof shall be deemed to have been transferred subject to the condition that United States nationals, corporations, and associations shall receive appropriate non-discriminatory treatment in the use and disposition of such installations. The term "appropriate" as used in this paragraph and in paragraph 3 hereof shall mean appropriate to the trade position in the area of the parties involved, and to their rights of entry or expansion in the area consistently with pertinent agreements reached either under Article VII of the Mutual Aid Agreement of February 23, 1942, or otherwise.

"Appropriate."

56 Stat. 1494.

3. The use and disposition of all installations located outside the United Kingdom and British Colonial Dependencies and outside the United States, its territories and possessions in which a lend-lease interest (as between the two Governments) remains unextinguished by return or otherwise, and which were in civilian use on September

2, 1945, or thereafter were or may be diverted to such use, shall be governed by the following principles:

(a) Installations under the direct or indirect control of the Government of the United Kingdom continued in operation pending disposal shall be operated without discrimination against the nationals, corporations or associations of the United States and of the United Kingdom.

(b) In cases where both Governments have contributed to the cost of an installation or where one Government is in control of an installation to the cost of which the other has contributed, disposal shall be by mutual agreement, and the two Governments will co-operate with the object of securing appropriate non-discriminatory treatment for the nationals, corporations, or associations of both countries in connection with the subsequent use of such facilities. The proceeds of any agreed sale shall be divided between the Governments of the United States and of the United Kingdom in accordance with their relative contributions (including lend-lease, reciprocal aid and other contributions by either Government) to the cost of the facility as agreed by them, or in such other manner as may be mutually agreed.

4. The use and disposition of any installations located in British Colonial Dependencies in which a reciprocal aid interest exists and which were on September 2, 1945, under the control of the United States Armed Forces shall be governed by the principles set out in paragraph 3 hereof.

5. It is hereby reaffirmed that the Government of the United States has full title to any lend-lease interest in installations located in the United States, its territories or possessions, and that the Government of the United Kingdom has full title to any reciprocal aid interest in installations located in the United Kingdom or British Colonial Dependencies.

7. The Government of the United Kingdom, when it disposes of or distributes property transferred pursuant to this Agreement, will use its best endeavors to avoid discrimination against the legitimate interests of the United States manufacturers of such property, or their agents or distributors in the United Kingdom.

JOINT STATEMENT REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY AND CLAIMS

1. The Governments of the United States and the United Kingdom have reached an understanding for the settlement of Lend-Lease and Reciprocal Aid, for the acquisition of United States Army and Navy surplus property, and the United States interest in installations, located in the United Kingdom, and for the final settlement of the financial claims of each government against the other arising out of the conduct of the war. Specific agreements necessary to implement these understandings, setting forth the terms in detail, and consistent herewith, are in the course of preparation and will shortly be completed.

2. This settlement for Lend-Lease and Reciprocal Aid will be complete and final. In arriving at this settlement both Governments have taken full cognizance of the benefits already received by them in the defeat of their common enemies. They have also taken full cognizance of the general obligations assumed by them in Article VII of the Mutual Aid Agreement of February 23, 1942, and the understandings agreed upon this day with regard to commercial policy. Pursuant to this settlement, both Governments will continue to discuss arrangements for agreed action for the attainment of the economic objectives referred to in Article VII of the Mutual Aid Agreement. The Governments expect in these discussions to reach specific conclusions at an early date with respect to urgent problems such as those in the field of telecommunications and civil aviation. In the light of all the foregoing, both Governments agree that no further benefits will be sought as consideration for Lend-Lease and Reciprocal Aid.

3. The net sum due from the United Kingdom to the United States for the settlement of Lend-Lease and Reciprocal Aid, for the acquisition of surplus property, and the United States interest in installations, located in the United Kingdom, and for the settlement of claims shall be \$650,000,000 subject to the accounting adjustment referred to below. This amount consists of (a) a net sum of \$118,000,000 representing the difference between the amount of the services and supplies furnished or to be furnished by each Government to the other Government after V-J Day through Lend-Lease and Reciprocal Aid channels, less the net sum due to the United Kingdom under the claims settlement, and (b) a net sum of \$532,000,000 for all other Lend-Lease and Reciprocal Aid items, and for surplus property, and the United States interest in installations, located in the United Kingdom and owned by the United States Government. The actual amounts due to the respective Governments for items included in (a) above other than claims will, however, be ascertained by accounting in due course, and the total sum of \$650,000,000 will be adjusted for any difference between the sum of \$118,000,000 mentioned above and the actual

Finality and completeness of settlement for Lend-Lease and Reciprocal Aid.

58 Stat. 1434.

sum found to be due. All new transactions between the two Governments after December 31, 1945, will be settled by cash payment.

4. The total liability found to be due to the Government of the United States will be discharged on the same terms as those specified in the Financial Agreement concluded this day for the discharge of the credit provided therein.

Terms for discharge
of total liability due to
U. S.

5. In addition to the financial payments referred to above, the two Governments have agreed upon the following:

(a) Appropriate non-discriminatory treatment will be extended to United States nationals in the use and disposition of installations in which there is a United States interest;

(b) Appropriate settlements for the Lend-Lease interest in installations other than in the United Kingdom and the Colonial Dependencies will be made on disposal of the installations;

(c) The United States reserves its right of recapture of any Lend-Lease articles held by United Kingdom Armed Forces, but the United States has indicated that it does not intend to exercise generally this right of recapture;

(d) Disposals for military use to forces other than the United Kingdom Armed Forces of Lend-Lease articles held by the United Kingdom Armed Forces at V-J Day, and disposals for civilian use other than in the United Kingdom and the Colonial Dependencies of such Lend-Lease articles, will be made only with the consent of the United States Government and any net proceeds will be paid to the United States Government. The United Kingdom Government agrees that except to a very limited extent it will not release for civilian use in, or export from, the United Kingdom and the Colonial Dependencies Lend-Lease articles held by the United Kingdom Armed Forces.

(e) The Government of the United Kingdom will use its best endeavors to prevent the export to the United States of any surplus property transferred in accordance with this understanding.

6. The Government of the United Kingdom agrees that, when requested by the Government of the United States from time to time prior to December 31, 1951, it will transfer, in cash, pounds sterling to an aggregate dollar value not in excess of \$50,000,000, at the exchange rates prevailing at the times of transfer, to be credited against the dollar payments due to the Government of the United States as principal under this settlement. The Government of the United States will use these pounds sterling exclusively to acquire land or to acquire or construct buildings in the United Kingdom and the Colonial Dependencies for the use of the Government of the United States, and for carrying out educational programs in accordance with agreements to be concluded between the two Governments.

Transfer of pounds
sterling.

Use by U. S.

7. The arrangements set out in this statement are without prejudice to any settlements concerning Lend-Lease and Reciprocal Aid which may be negotiated between the Government of the United States and the Governments of Australia, New Zealand, the Union of South Africa, and India.

[T. I. A. S. 1510]

Agreement between the United States of America and the United Kingdom of Great Britain and Northern Ireland amending the agreement of August 24, 1942, respecting interchange of patent rights, information, inventions, designs, or processes. Signed at Washington March 27, 1946; effective January 1, 1942.

56 Stat. 1433.

56 Stat. 1594.

Whereas there was signed and sealed at Washington on the twenty-fourth day of August 1942, for the Government of the United States of America and for the Government of the United Kingdom of Great Britain and Northern Ireland, in further fulfillment of the policy set forth in their Agreement of February 23, 1942 on the principles applying to mutual aid in the prosecution of the war against aggression, an Agreement deemed to have been in effect and operation as from January 1, 1942 concerning the interchange of patent rights, information, inventions, designs, or processes; and

Whereas it is desirable to amend the said Agreement of August 24, 1942 in certain particulars;

Now, therefore, it is agreed by the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland that the said Agreement of August 24, 1942 shall be and is hereby amended to read as follows:

ARTICLE I

Reciprocal procurement of patent rights, etc.; availability.

(a) Each Government, in so far as it may lawfully do so, will procure and make available to the other Government, for use in war production, patent rights, information, inventions, designs, or processes requested by the other Government. In the case of the United States of America, the law authorizing such procurement and transfer is now the Act of the Congress of the United States approved March 11, 1941 (Public 11, 77th Congress), as amended. Each Government will bear the cost of the procurement of such patent rights, information, inventions, designs, or processes from its own nationals.

55 Stat. 31.
22 U. S. C., Supp.
V, §§ 411-419.

"Nationals."

(b) In this Agreement the term "nationals" in relation to the United States of America shall mean all natural persons who on May 8, 1945 were exclusively citizens of the United States of America, all corporations, partnerships, and associations organized under the laws of the United States of America, its territories, the several States, or the District of Columbia, and all natural persons domiciled or resident in the United States of America on May 8, 1945, as well as the Government of the United States of America and all of its agencies, but the term "nationals" in relation to the United States of America shall not include natural persons who were on May 8, 1945 exclusively subjects of the United Kingdom even though they were domiciled or resident in the United States of America on that date. In this Agreement the term "nationals" in relation to the United Kingdom shall

mean all natural persons who on May 8, 1945 were exclusively subjects of the United Kingdom, all corporations, partnerships, and associations organized under the laws of the United Kingdom, and all natural persons domiciled or resident in the United Kingdom on May 8, 1945, as well as the Government of the United Kingdom and all of its agencies, but the term "nationals" in relation to the United Kingdom shall not include natural persons who on May 8, 1945 were exclusively citizens of the United States of America even though they were domiciled or resident in the United Kingdom on that date.

(c) The basic principle as to which Government shall undertake and bear the cost of procurement in doubtful cases shall be decided according to whether dollar or sterling costs are necessarily involved. In the former case the Government of the United States of America will effect acquisition and in the latter case the Government of the United Kingdom will effect acquisition, but each Government will pay the remuneration and other expenses of its own representatives incurred in connection with communicating any research or manufacturing information to the other Government.

ARTICLE II

All patent rights so acquired shall be acquired and used for the purposes of, and until the termination of, the war only, unless otherwise expressly provided, except that contracts entered into (for the production, use, or disposition of articles) which cannot be terminated without penalty, may be completed, and all articles on hand at the termination of the war, or completed as permitted herein, may be used and disposed of. Information, inventions, designs, or processes so acquired and not covered by patents or patent applications shall be acquired upon such terms as may most expeditiously make such information, inventions, designs, or processes available for the purposes of the war, with provision, to the extent practicable, for the limitation of the use thereof for the purposes of and until the termination of the war. When the information, invention, design, or process is of a category for which the other Government requests secrecy upon security grounds, each Government will take such steps as it deems practicable to ensure the appropriate degree of secrecy in manufacture and use. The term "termination of the war", for the purposes of this Agreement, shall mean the date when the Government of the United States of America and the Government of the United Kingdom have ceased to be jointly engaged in actual hostilities against a common enemy, or such other date as may be mutually agreed upon, and shall not be dependent on the date of the signing of a peace treaty.

Duration.

"Termination of the war."

ARTICLE III

Such acquisition by the Government of the United States of America will be effected in accordance with regular Lend-Lease procedure (or its then current equivalent) and will be financed under such program, except that other procedure may be used in those instances where no expenditure of funds is necessary.

Procedure.

ARTICLE IV

Basis of acquisition.

Such acquisition by the Government of the United Kingdom will be effected on the basis of written requests submitted by any authorized department or agency of the Government of the United States of America to the British Supply Council (or to such other agency of the Government of the United Kingdom as may be designated from time to time). Copies of all such requests will be furnished to the

Reports.

Office of Lend-Lease Administration. The British Supply Council will furnish to that Office reports as to all patent rights, information, inventions, designs, or processes obtained and transferred to the agency requesting the same and the acquisition cost thereof, if any.

ARTICLE V

Licenses or assignments and contract rights.

In so far as is found practicable in the circumstances of each case, adequate licenses or assignments and contract rights shall be acquired by each Government, in accordance with the requests of the other Government, and transferred to the other Government. Where desirable each Government will sponsor necessary relationships and permit dealings between the original grantor and the ultimate user. It is contemplated that normally the rights obtained should, subject to the limitations contained in Article II of this Agreement, include, among other things:

(a) The right to make, to have made, to use, and to dispose of, articles embodying the subject-matter of the patent rights, information, inventions, designs, or processes, so acquired, including the right to use and practice any of the aforesaid.

(b) Provision for securing to the recipient Government or its designees all necessary personal expert services and supplementary information.

(c) Permission to transfer, assign, license, or otherwise dispose of, any or all of the rights and privileges acquired, to the other Government, with further permission to the latter to transfer, assign, license, or otherwise dispose of any or all of the same to contractors, subcontractors, or other appropriate designees of the recipient Government, for war production purposes only.

(d) The reservation on the part of the acquiring Government that it, and parties in interest holding under it, shall have the right at any time to contest the validity of any patent rights acquired.

(e) Whenever practicable, a guarantee by the licensor or patentee as to the validity of his patent, in respect of which the license is granted, with an indemnity against any infringement claims.

(f) Provision for the exchange of information, between the licensor or patentee and ultimate licensee, as to improvements or the results of research on the subject-matter of the license, together with the use of any patents which may be obtained in respect of such improvements, with a further provision that the like information and right to use additional patents shall simultaneously be furnished to both Governments.

ARTICLE VI

(a) Subject to the provisions of Article VII of this Agreement, the Government of the United Kingdom agrees and undertakes to indemnify and save harmless the Government of the United States of America against all claims asserted by nationals of the United Kingdom under any United States patents for the use of any method or process and for the manufacture, use, or disposition of any article, which method, process, or article was used, manufactured, or disposed of by or for the Government of the United States of America

- (3) pursuant to a request made or authority given, for the purposes of the war, by the Government of the United Kingdom to the Government of the United States of America;

provided always that the Government of the United States of America will, whenever in its judgment practicable, avail itself of any indemnity from a third party of which it shall have the benefit, in lieu of the indemnity from the Government of the United Kingdom contained in this Agreement. For the purposes of this paragraph (a) claims asserted by nationals of the United Kingdom under Title 35, Section 42, of the United States Code, 1940 edition, and Title 35, Section 90, of the United States Code, 1940 edition, Supplement IV, shall be construed to be claims under patents; and for the purposes of this paragraph (a) claims asserted by nationals of the United Kingdom under any United Kingdom patents or registered designs against United States Government contractors or subcontractors shall be construed to be claims subject to indemnification by the Government of the United Kingdom in cases where the Government of the United States of America has agreed and undertaken to indemnify and save harmless such contractors or subcontractors against any liability resulting from the use of any patented invention or registered design.

(e) That in accordance with the provisions of Section 3 (c) of the Act of the Congress of the United States approved March 11, 1941 (Public 11, 77th Congress), as amended, the obligations of the Government of the United States of America under the indemnity shall only extend to claims of which the Government of the United States of America is notified in accordance with paragraph (a) of this Article before July 1, 1949 or such other date as Congress may hereafter enact in amendment of said Section 3 (c).

less the nationals of the other Government whom such Government requests so to be indemnified against all claims asserted by the nationals of the indemnifying Government under any patents or registered designs for the use of any method or process and for the manufacture, use, or disposition of any article, which method, process, or article was used, manufactured, or disposed of to the extent set forth in Article II of this Agreement in the course of manufacture, use, or disposition for the essential war needs of the civilian population of the country of the nationals whom it is sought to indemnify; provided, however, that requests for indemnities under this Article X shall be made only in cases where the formal requisitions for the rights under the patents or registered designs involved shall have been filed with the indemnifying Government on or before April 8, 1946, and provided further that such requests shall be made only in cases where the requesting Government had assured its nationals whom it seeks to have indemnified that they would be saved harmless from liability in respect of such claims. Nothing in this Article X shall be construed as conferring any rights on any national of either country to assert any claim against the Government of the other country.

Ante, p. 1567.

ARTICLE XI

In order to avoid conflict with the understanding contained in this Agreement, departments or agencies of the Government of the United States of America, which negotiate contracts for production in the United States of America, pursuant to specifications furnished by or on behalf of the Government of the United Kingdom, will not require contractors in the United States of America to give indemnities to the Government of the United States of America which would be likely to result in efforts by the contractors to obtain an off-setting indemnity from the Government of the United Kingdom; the Government of the United Kingdom assumes a reciprocal obligation toward the Government of the United States of America.

Agreement between the United States of America and the Union of South Africa respecting mutual aid. Effected by exchange of notes signed at Washington April 17, 1945; effective April 17, 1945.

The South African Chargé d'Affaires ad interim to the Secretary of State

SIR,

With reference to the memorandum dated May 8th from the State Department and recent discussions between representatives of the Union of South Africa and those of the State Department and the Foreign Economic Administration concerning the proposal that all forms of mutual aid provided by either the Government of the Union of South Africa or of the United States to the other should be financed by cash payments as from February 15, 1944, I am directed to inform you that the Union Government agrees to the application of such a cash basis in its relations with the United States Government.

(2) The Union Government is accordingly prepared to accept liability for all combat material, aircraft and other goods shipped on and after 15th February, 1944, and supplied direct by the Government of the United States, or by means of retransfer from other Governments, on orders placed by the Union Government. This would include equipment for coastal defence undertaken by the Union Government in agreement with the Government of the United Kingdom, but would not include the provision of aircraft and equipment for the Flying Boat Squadron No. 262 at present based on Durban, which is, by agreement with the United Kingdom, a liability of the latter government, in so far as the procurement of aircraft, spares and related equipment is concerned.

(3) The basis of the foregoing proposal is that liability for goods supplied should follow the authority responsible for the issue of the order of procurement. The Union Government would, therefore, be liable solely for goods received in accordance with the provisions of the preceding paragraph and it would not be liable for any goods which the United Kingdom Government may supply for the temporary or intermittent use of the Union Forces under United Kingdom operational control outside the boundaries of the Union of South Africa in compliance with the terms of the financial arrangements in existence between the two governments.

(4) If the Government of the United States of America concurs in the foregoing, I would suggest that the present note and your reply to that effect be regarded as placing on record the understanding of our two Governments in this matter.

Accept, Sir, the renewed assurances of my highest consideration.

The Honourable E. R. STETTINIUS,
Secretary of State of the United States,
Department of State,

ANNEX

It is the understanding of the Government of the Union of South Africa that the following interpretations apply to the provisions of this note:

- (1) The word "shipped" in the first sentence of paragraph (2) denotes the actual placing of goods on board ship; or in the case of other goods, such as aircraft and stores carried on them, the time at which the Government of the United States transfers such goods to the Union Government;
- (2) The words "on orders placed by the Union Government", in the first sentence of paragraph (2) cover the case of any goods retransferred by any Government and accepted by the Union Government.
- (3) Certain squadrons were formed and equipped in the Union of South Africa with Lend-Lease aircraft and, for a considerable period, carried out operations from Union bases. Subsequently these squadrons, complete with aircraft and equipment, proceeded for operational work in the Mediterranean. Such aircraft and equipment furnished prior to 15th February, 1944, which have subsequently been transferred to the Mediterranean Theatre and later returned to the Union will be regarded as Lend-Lease material supplied to the Union Government before 15th February, 1944.
- (4) For so far as the Joint Air Training Scheme in the Union of South Africa is concerned, it is the understanding of the Union Government that they will not be required to pay for aircraft and equipment which the United Kingdom is obligated to supply for the scheme and which are used solely for that purpose.
- (5) Goods are frequently landed in the Union by mistake e. g. when they arrive without shipping documents and ships have to be cleared without delay. It is the understanding of the Union Government that such goods will not be regarded as "accepted" by them, although they may be stored by the responsible authorities for security purposes pending a directive from the United States Government as to their disposition.

Agreement between the United States of America and the Union of South Africa respecting postwar economic settlements. Effected by exchange of notes signed at Washington April 17, 1945; effective April 17, 1945.

DEPARTMENT OF STATE
WASHINGTON
April 17, 1945.

SIR:

I set forth below my understanding of the conclusions reached in conversations which have taken place from time to time during the past year between representatives of the Government of the United States and the Government of the Union of South Africa with regard to post-war economic settlements.

Our two Governments are engaged in a cooperative undertaking, together with every other nation or people of like mind, to the end of laying the bases of a just and enduring world peace securing order under law to themselves and all nations. They are in agreement that post-war settlements must be such as to promote mutually advantageous economic relations between them and the betterment of world-wide economic relations.

To that end the Governments of the United States of America and of the Union of South Africa are prepared to cooperate in formulating a program of agreed action, open to participation by all other countries of like mind, directed to the expansion, by appropriate international and domestic measures, of production, employment, and the exchange and consumption of goods, which are the material foundations of the liberty and welfare of all peoples; to the elimination of all forms of discriminatory treatment in international commerce, and to the reduction of tariffs and other trade barriers; and, in general, to the attainment of all the economic objectives set forth in the Joint Declaration made on August 14, 1941 by the President of the United States of America and the Prime Minister of the United Kingdom.

55 Stat. 1603.

Our Governments have in large measure similar interests in post-war international economic policy. They undertake to enter at an early convenient date into conversations between themselves and with representatives of other United Nations with a view to determining, in the light of governing economic conditions, the best means of attaining the above-stated objectives by agreed action on the part of our two Governments and other like-minded Governments.

If the Government of the Union of South Africa concurs in the foregoing statement of conclusions, I would suggest that the present note and your reply to that effect should be regarded as placing on record the understanding of our two Governments in this matter.

Accept, Sir, the renewed assurances of my high consideration.

[T. I. A. S. 1514]

MEMORANDUM OF AGREEMENT BETWEEN NORWAY AND THE UNITED STATES OF AMERICA RESPECTING THE ARRANGEMENTS FOR CIVIL ADMINISTRATION AND JURISDICTION IN NORWEGIAN TERRITORY LIBERATED BY AN ALLIED EXPEDITIONARY FORCE

The discussions which have taken place between the representatives of Norway and the United States of America concerning the arrangements to be made for civil administration and jurisdiction in Norwegian territory liberated by an Allied Expeditionary Force under an Allied Commander in Chief have led to agreement upon the following broad conclusions.

The agreed arrangements set out below are intended to be essentially temporary and practical and are designed to facilitate as far as possible the task of the Commander in Chief and to further our common purpose, namely, the speedy expulsion of the Germans from Norway and the final victory of the Allies over Germany.

1. In areas affected by military operations it is necessary to contemplate a first or military phase during which the Commander in Chief of the Expeditionary Force on land must, to the full extent necessitated by the military situation, exercise supreme responsibility and authority.

Responsibility and authority of Commander in Chief.

2. As soon as, and to such extent as, in the opinion of the Commander in Chief, the military situation permits, the Norwegian Government will be notified in order that it may resume the exercise of responsibility for the civil administration, subject to such special arrangements as may be required in areas of vital importance to the Allied forces, such as ports, lines of communication and airfields, and without prejudice to the enjoyment by the Allied forces of such other facilities as may be necessary for the prosecution of the war to its final conclusion.

Resumption of responsibility by Norwegian Government.

3. *a.* During the first phase the Commander in Chief will make the fullest possible use of the advice and assistance which will be tendered to him through Norwegian liaison officers attached to his staff for civil affairs and included in the personnel of a Norwegian military mission to be appointed by the Norwegian Government. He will also make the fullest possible use of loyal Norwegian local authorities.

Assistance by Norwegian liaison officers.

b. The Norwegian liaison officers referred to in sub paragraph *a* above will, so far as possible, be employed as intermediaries between the Allied military authorities and the Norwegian local authorities.

Reorganization of Norwegian administrative and judicial services.

4. During the first phase the Norwegian Government will assist the Commander in Chief by reorganizing or re-establishing the Norwegian administrative and judicial services through whose collaboration the Commander in Chief can discharge his supreme responsibility. For this purpose the Norwegian Government will act through its representatives on the spot, who, for practical reasons, will be included in the Norwegian military mission referred to in sub paragraph 3*a* above.

5. The appointment of the Norwegian administrative and judicial services will be effected by the competent Norwegian authorities in accordance with Norwegian law. If during the first phase (see paragraph 1 above) conditions should necessitate appointments in the Norwegian administrative or judicial services, the competent representative of the Norwegian Government will, upon the request of the Commander in Chief and after consultation with him, then appoint the requisite officials.

Norwegians with Allied Expeditionary Force.

6. Members of the Norwegian armed forces serving in Norwegian units with the Allied Expeditionary Force in Norwegian territory shall come under the exclusive jurisdiction of Norwegian courts. Other Norwegians, who, at the time of entering Norway as members of the Allied Expeditionary Force, are serving in conditions which render them subject to Allied naval, military or air force law, will not be regarded as members of the Norwegian armed forces for this purpose.

Jurisdiction over civilians.

7. In the exercise of jurisdiction over civilians, the Norwegian Government will make the necessary arrangements for insuring the speedy trial in the vicinity by Norwegian courts of such civilians as are alleged to have committed offenses against the persons, property, or security of the Allied forces, without prejudice however to the power of the Commander in Chief, if military necessity requires, to bring to trial before a military court any person alleged to have committed an offense of this nature.

Members of Allied forces, etc.

8. Without prejudice to the provisions of paragraph 15, Allied service courts and authorities will have exclusive jurisdiction over all members of the Allied forces respectively and over all persons of non-Norwegian nationality not belonging to such forces who are employed by or who accompany those forces and are subject to Allied naval, military or air force law. The question of jurisdiction over such merchant seamen as are not subject to Allied service law will require special consideration and should form the subject of a separate agreement.

Merchant seamen.

Arrests by Norwegian police.

9. Persons thus subject to the exclusive jurisdiction of Allied service courts and authorities may, however, be arrested by the Norwegian police for offenses against Norwegian law, and detained until they can be handed over for disposal to the appropriate Allied service authority. A certificate signed by an Allied officer of field rank or its equivalent, that the person to whom it refers belongs to one of the classes mentioned in paragraph 8, shall be conclusive. The procedure for handing over such persons is a matter for local arrangement.

10. The Allied Commander in Chief and the Norwegian authorities will take the necessary steps to provide machinery for such mutual assistance as may be required in making investigations, collecting evidence, and securing the attendance of witnesses in relation to cases triable under Allied or Norwegian jurisdiction.

Investigations, etc.

11. There shall be established by the respective Allies claims commissions to examine and dispose of claims for compensation for damage or injury preferred by Norwegian civilians against the Allied forces exclusive of claims for damage or injury resulting from enemy action or operations against the enemy.

Claims Commissions.

12. Members of the Allied forces and organizations and persons employed by or accompanying those forces, and all property belonging to them or to the Allied Governments, shall be exempt from all Norwegian taxation (including customs) except as may be subsequently agreed between the Allied and Norwegian Governments. The Allied authorities will take the necessary steps to insure that such property is not sold to the public in Norway except in agreement with the Norwegian Government.

Tax exemption.

13. The Commander in Chief shall have power to requisition billets and supplies and make use of lands, buildings, transportation and other services for the military needs of the forces under his command. Requisitions will be effected where possible through Norwegian authorities and in accordance with Norwegian law. For this purpose the fullest use will be made of Norwegian liaison officers attached to the staff of the Commander in Chief.

Requisition of billets and supplies.

14. The immunity from Norwegian jurisdiction and taxation resulting from paragraphs 8 and 12 will extend to such selected civilian officials and employees of the Allied Governments present in Norway on duty in furtherance of the purposes of the Allied Expeditionary Force as may from time to time be notified by the Commander in Chief to the competent Norwegian authority.

15. Should circumstances in future be such as to require provision to be made for the exercise of jurisdiction in civil matters over non-Norwegian members of the Allied forces present in Norway, the Allied Governments concerned and the Norwegian Government will consult together as to the measures to be adopted.

16. Other questions arising as a result of the liberation of Norwegian territory by an Allied Expeditionary Force (in particular questions relating to finance and currency and the attribution of the cost of maintaining the civil administration during the first or military phase) which are not dealt with in this agreement shall be regarded as remaining open and shall form the subject of further negotiation as circumstances may require.

IN WITNESS WHEREOF, this instrument has been executed in duplicate as of this 16th day of May, 1944, on behalf of the parties hereto under the respective authorizations hereinafter set forth.

I hereby execute this instrument in behalf of Norway in accordance with the following authorization:

a) La fixation des tarifs, conformément à la procédure ci-dessous définie, devra être faite à des taux raisonnables, compte tenu de tous les éléments d'appréciation, et en particulier des frais d'exploitation, de la réalisation d'un bénéfice normal, des tarifs pratiqués par les autres entreprises, ainsi que des caractéristiques présentées par chaque service.

b) Les tarifs à appliquer par les entreprises de chacune des Parties Contractantes pour les parcours prévus au tableau ci-annexé entre les territoires des Etats-Unis d'Amérique et les territoires belges devront être soumis, conformément aux dispositions du présent Accord et de son Annexe à l'approbation des autorités aéronautiques de chacune des Parties Contractantes, lesquelles agiront selon les obligations résultant de la présente Annexe, dans les limites de leurs pouvoirs légaux.

pour la période d'une année commençant en février 1946 la procédure des Conférences de trafic de l'Association Internationale des Transports Aériens (ci-après dénommée I. A. T. A.), tous accords de tarifs conclus selon cette procédure pendant ladite période et intéressant des entreprises des Etats-Unis seront soumis à l'approbation dudit "Civil Aeronautics Board".

Proposed rates.

d) Any rate proposed by the air carrier or carriers of either Contracting Party shall be filled with the aeronautical authorities of both Contracting Parties at least thirty days before the proposed date of introduction; provided that this period of thirty days may be reduced in particular cases if so agreed by the aeronautical authorities of both Contracting Parties.

d) Tout tarif proposé par l'entreprise ou les entreprises de chacune des Parties Contractantes devra être soumis aux autorités aéronautiques des deux Parties Contractantes trente jours au moins avant la date prévue pour sa mise en application. Cette période de trente jours pourra être réduite dans des cas particuliers si les Autorités aéronautiques des deux Parties Contractantes en conviennent d'un commun accord.

e) The Contracting Parties agree that the procedure described in paragraphs f, g and h of this Section shall apply:

e) Les Parties Contractantes conviennent que la procédure prévue aux paragraphes f, g et h de la présente Section sera applicable:

1°) if during the period of the Civil Aeronautics Board's approval of the "IATA" traffic conference machinery, either any specific rate agreement is not approved within a reasonable time by either Contracting Party or a conference of "IATA" is unable to agree on a rate, or

1°) lorsque, pendant la période durant laquelle le "Civil Aeronautics Board" approuve la procédure des conférences de trafic de l'I. A. T. A., un accord de tarifs donné n'est pas approuvé dans un délai raisonnable par l'une ou l'autre des Parties Contractantes, ou bien lorsqu'une conférence de l'I. A. T. A. n'a pu établir un tarif, ou

2°) at any time no "IATA" machinery is applicable, or

2°) lorsque, à toute époque, aucune procédure de l'I.A.T.A. n'est applicable, ou

3°) if either Contracting Party at any time withdraws or fails to renew its approval of that part of the "IATA" traffic conference machinery relevant to this Section.

3°) lorsque, à toute époque, l'une ou l'autre des Parties Contractantes retire ou s'abstient de renouveler son approbation à la partie de la procédure des conférences de trafic de l'I.A.T.A. concernant la présente section.

f) In the event that power is conferred by law upon the aeronautical authorities of the United States to fix fair and economic rates for the transport of persons and property by air on international services and to suspend proposed rates in a manner comparable to that in which the Civil Aeronautics Board at present is empowered to act with respect to such rates for the transport of persons and property by air within the United States, each of the Contracting Parties shall thereafter exercise its authority in such manner as to prevent any rate or rates proposed by one of its carriers for services from the territory of one Contracting Party to a point or points in the territory of the other Contracting Party from becoming effective, if in the judgment of the aeronautical authorities of the Contracting Party whose air carrier or carriers is or are proposing such rate, that rate is unfair or uneconomic.

If one of the Contracting Parties on receipt of the notification referred to in paragraph (d) above is dissatisfied with the rate proposed by the air carriers of the other Contracting Party, it shall so notify the other Contracting Party prior to the expiry of the first fifteen of the thirty days referred to, and the Contracting Parties shall endeavor to reach agreement on the appropriate rate.

In the event that such agreement is reached, each Contracting Party will exercise its statutory powers to give effect to such Agreement.

f) Si les autorités aéronautiques des Etats-Unis reçoivent le pouvoir légal de fixer des tarifs justes et économiques pour le transport aérien international des personnes et des messageries, et de suspendre des tarifs proposés, comme le "Civil Aeronautics Board" est actuellement habilité à le faire en ce qui concerne de tels tarifs à l'intérieur des Etats-Unis, chacune des deux Parties Contractantes exercera ultérieurement son autorité de manière à empêcher d'entrer en application tout tarif proposé par l'une de ses entreprises pour les services reliant le territoire de l'une des Parties Contractantes à celui de l'autre, si, de l'avis des autorités aéronautiques de la Partie Contractante dont l'entreprise propose un tel tarif, ledit tarif n'est pas juste ou économique.

Si l'une des Parties Contractantes, après réception de la notification prévue au paragraphe d) ci-dessus, n'approuve pas le tarif proposé par une entreprise de l'autre Partie Contractante, elle en avisera cette dernière Partie Contractante avant l'expiration de la moitié du délai de trente jours prévu, et les Parties Contractantes s'efforceront d'aboutir à un accord sur un tarif convenable.

Si un tel accord est obtenu, chaque Partie Contractante exercera ses pouvoirs légaux en vue d'en assurer l'application.

Si un accord n'a pas pu être obtenu à l'expiration de la période de trente jours prévue au paragraphe d) ci-dessus, le tarif pro-

may, unless the aeronautical authorities of the country of the air carrier concerned see fit to suspend its application, go into effect provisionally pending the settlement of any dispute in accordance with the procedure outlined in paragraph h) below.

g) Prior to the time when such power may be conferred by law upon the aeronautical authorities of the United States, if one of the Contracting Parties is dissatisfied, with any rate proposed by the air carrier or carriers of either Contracting Party for services from the territory of one Contracting Party to a point or points in the territory of the other Contracting Party, it shall so notify the other prior to the expiry of the first fifteen of the thirty day period referred to in paragraph d) above, and the Contracting Parties shall endeavor to reach agreement on the appropriate rate.

In the event that such agreement is reached each Contracting Party will use its best efforts to cause such agreed rate to be put into effect by its air carrier or carriers.

It is recognized that if no such agreement can be reached prior to the expiry of such thirty days, the Contracting Party raising the objection to the rate may take such steps as it may consider necessary to prevent the inauguration or continuation of the service in question at the rate complained of.

g) Aussi longtemps que les autorités aéronautiques des Etats-Unis ne disposeront pas de tels pouvoirs légaux, si l'une des Parties Contractantes n'approuve pas un tarif proposé par une entreprise de l'une ou l'autre des Parties Contractantes pour les services reliant le territoire de l'une des Parties Contractantes à celui de l'autre, ladite Partie Contractante en avisera l'autre avant l'expiration de la moitié du délai de trente jours prévu au paragraphe d) ci-dessus, et les Parties Contractantes s'efforceront d'aboutir à un accord sur un tarif convenable.

Si un tel accord est obtenu, chaque Partie Contractante s'emploiera de son mieux à faire en sorte que le tarif convenu soit mis en application par son entreprise ou ses entreprises.

Il est entendu que, si un tel accord ne peut être obtenu avant l'expiration desdits trente jours, la Partie Contractante qui élève des objections au tarif pourra prendre telle mesure qu'elle estimera nécessaire en vue d'empêcher l'inauguration ou le maintien du service en question au tarif discuté.

le différend serait, sur la demande de l'une ou l'autre des Parties Contractantes, porté pour avis consultatif devant l'Organisation provisoire de l'Aviation Civile Internationale ou devant l'organisme appelé à lui succéder, et chacune des Parties Contractantes s'emploiera de son mieux, dans les limites des pouvoirs dont elle dispose, pour donner suite à l'opinion exprimée par l'Organisme International.

SECTION VI.

a) For the purpose of the present Section, the term "Transshipment" shall mean the transportation by the same carrier of traffic beyond a certain point on a given route by different aircraft from those employed on the earlier stages of the same route.

b) Transshipment when justified by economy of operation will be permitted at all points mentioned in the attached Schedule in territory of the two Contracting Parties.

c) However, no transshipments will be made in the territory of either Contracting Party which would alter the long range characteristics of the operation or which would be inconsistent with the standards set forth in this Agreement and its Annex and particularly Section IV of this Annex.

SECTION VI.

a) Au sens de la présente Section, l'expression "rupture de charge" à une escale donnée signifie qu'au delà de ce point le trafic sur la ligne considérée est assuré par la même entreprise avec un appareil différent de celui qui a été utilisé sur la même ligne avant ladite escale.

b) Toute rupture de charge justifiée par des raisons d'économie d'exploitation sera admise en tout point du territoire des deux Parties Contractantes mentionné au tableau ci-annexé.

c) Toutefois, aucune rupture de charge ne pourra intervenir sur le territoire de l'une ou l'autre des Parties Contractantes dans les cas où elle modifierait les caractéristiques de l'exploitation d'un service long-courrier, ou serait incompatible avec les principes énoncés dans le présent Accord et son Annexe et particulièrement la Section IV de ladite Annexe.

points served by these airlines in the territory of the other Contracting Party shall not be considered as modifications of the Annex. The aeronautical authorities of either Contracting Party may therefore proceed unilaterally to make such changes, provided, however, that notice of any change is given without delay to the aeronautical authorities of the other Contracting Party.

If such other aeronautical authorities find that, having regard to the principles set forth in Section IV of the present Annex, interests of their air carrier or carriers are prejudiced by the carriage by the air carrier or carriers of the first Contracting Party of traffic between the territory of the second Contracting Party and the new point in the territory of a third country, the authorities of the two Contracting Parties shall consult with a view to arriving at a satisfactory agreement.

autres que ceux des Parties Contractantes, ne sera pas considérée comme une modification à l'Annexe. Les autorités aéronautiques de chaque Partie Contractante pourront en conséquence procéder unilatéralement à une telle modification, sous réserve toutefois de sa notification sans délai aux autorités aéronautiques de l'autre Partie Contractante.

Si ces dernières estiment, eu égard aux principes énoncés à la section IV de la présente Annexe, que les intérêts de leurs entreprises nationales sont affectés par le fait qu'un trafic est assuré entre leur propre territoire et la nouvelle escale en pays tiers par les entreprises de l'autre pays, elles se concerteront avec les autorités aéronautiques de l'autre Partie Contractante afin de parvenir à un accord satisfaisant.

Ante, p. 1594.

SECTION VIII

After the present Agreement comes into force, the aeronautical authorities of both Contracting Parties will exchange information as promptly as possible concerning the authorizations extended to their respective designated air carriers to render service to, through and from the territory of the other Contracting Party. This will include copies of current certificates and authorizations for service on the routes which are the subject of this Agreement and, for the future, such new authorizations as may be issued together with amendments, exemption orders and authorized service patterns.

SECCIÓN VIII

A partir de l'entrée en vigueur du présent Accord, les autorités aéronautiques des deux Parties Contractantes devront se communiquer aussi rapidement que possible les informations concernant les autorisations données à leur ou leurs propres entreprises désignées pour exploiter les lignes mentionnées au tableau ci-annexé ou des fractions desdites lignes. Ces informations comporteront notamment copie des autorisations accordées, de leurs modifications éventuelles ainsi que tous documents annexés.

PROTOCOLE DE SIGNATURE

It appeared in the course of negotiations leading up to the conclusion of the Agreement on air services between the territory of the United States of America and Belgian territory signed at Brussels today that the representatives of the two Contracting Parties were in agreement on the following points:

1°) The air carriers of the two Contracting Parties operating on the routes described in the Annex of said Agreement shall enjoy equal opportunity for the operation of the said routes.

2°) To the extent that the carrier or carriers of one of the Governments is temporarily unable to take advantage of such opportunities as a result of the war, the situation will be mutually examined by the two governments for the purpose of aiding as soon as possible the said air carrier or carriers to increasingly make their proper contribution to the services contemplated.

3°) Such airports as may have been constructed on Belgian territory and financed in whole or part by the Government of the United States and which will be open to international civil traffic will be open to the duly authorized air carriers of the United States who will enjoy thereon, on a non-discriminatory basis, rights of transit and non-traffic stop. They will likewise enjoy there the commercial rights which may be granted them by the present Agreement or any other agreement

Rights of U. S. air carriers at certain airports.

PROTOCOLE DE SIGNATURE

Il est apparu au cours des négociations ayant abouti à la conclusion de l'Accord relatif aux services aériens entre le territoire des Etats-Unis d'Amérique et le territoire belge signé à Bruxelles en date de ce jour que les représentants des deux Parties Contractantes étaient d'accord sur les points suivants:

1°) Les entreprises aériennes des deux Parties Contractantes exploitant les lignes mentionnées à l'Annexe au dit Accord doivent pouvoir bénéficier de possibilités égales pour l'exploitation des dites lignes.

2°) Dans la mesure où l'entreprise ou les entreprises de l'un des Gouvernements ne pourraient temporairement bénéficier de telles possibilités, en raison des conséquences de la guerre, la situation serait examinée en commun par les deux Gouvernements à l'effet d'aider aussitôt que possible les dites entreprises à apporter progressivement une contribution appropriée aux services envisagés.

3°) Les aérodromes dont la construction sur les territoires belges aurait été financée en tout ou en partie par le Gouvernement des Etats-Unis et qui seraient affectés au trafic international civil seront ouverts aux entreprises aériennes des Etats-Unis dûment autorisées, qui y jouiront sans discrimination des droits de transit et d'escales pour raisons non commerciales. Elles y jouiront également des droits commerciaux qui leur seraient octroyés par le présent Accord ou par tout autre

now in force or later concluded.

4°) In order to give effect to the provisions of Section V (f) of the Annex to the Agreement, the executive branch of the United States Government will use its best efforts to secure legislation empowering the aeronautical authorities of the United States to fix fair and economic rates for international services and to suspend proposed rates, in the same manner as the Civil Aeronautics Board is qualified to act with respect to air transportation within the United States.

5°) It is recognized that the determination of tariffs to be applied by an air carrier of one Contracting Party between the territory of the other Contracting Party and a third country is a complex question, the overall solution of which cannot be sought through consultation between only two countries. It is noted, furthermore, that the method of determining such tariffs is now being studied by the Provisional International Civil Aviation Organization. It is understood under these circumstances:

a) That, pending the acceptance by both parties of any recommendations which the Provisional International Civil Aviation Organization may make after its study of this matter, such tariffs shall be subject to consideration under the provisions of Section IV(b) of the Annex to the Agreement.

accord maintenu en vigueur ou ultérieurement conclu.

4°) En vue de donner effet aux dispositions de la Section V, f) de l'Annexe à l'Accord, les organes exécutifs du Gouvernement des Etats-Unis s'efforceront d'obtenir que les autorités aéronautiques des Etats-Unis reçoivent les pouvoirs légaux leur permettant de fixer des tarifs justes et économiques pour le transport des personnes et des messageries sur les services aériens internationaux et de suspendre la mise en application des tarifs proposés, de même que le "Civil Aeronautics Board" est habilité à le faire en ce qui concerne les transports aériens à l'intérieur des Etats-Unis.

5°) Il est reconnu que la fixation des tarifs à appliquer par une entreprise ressortissant d'une Partie Contractante entre le territoire de l'autre Partie Contractante et celui d'un pays tiers est une question complexe dont la solution d'ensemble ne peut être recherchée par des consultations entre deux Pays seulement. Il est pris acte, au demeurant, de ce que les conditions de fixation desdits tarifs sont actuellement étudiées par l'Organisation Provisoire de l'Aviation Civile Internationale. Il est entendu dans ces conditions:

a) qu'en attendant l'acceptation par les deux Parties Contractantes des recommandations que l'Organisation Provisoire de l'Aviation Civile Internationale serait amenée à faire en conclusion de ses travaux sur ce point, de tels tarifs seront appréciés en fonction des dispositions de la Section IV b) de l'Annexe à l'Accord.

Determination of tariffs.

b) That in case the Provisional International Civil Aviation Organization fails to establish a means of determining such rates satisfactory to both Contracting Parties, the consultation provided for in Article XII(b) of the Agreement shall be in order.

Ante, p. 1591.

6°) It is understood that the United States air carrier or air carriers operating on the route listed in the Annex as Route n° 2 B will afford reasonable service at Léopoldville.

b) qu'au cas où l'organisation Provisoire de l'Aviation Civile Internationale ne parviendrait pas à établir des conditions de fixation desdits tarifs donnant satisfaction aux deux Parties Contractantes, la consultation prévue à l'article XII b) de l'Accord serait de droit.

6°) Il est entendu que l'entreprise ou les entreprises de transport aérien des Etats-Unis qui assureront l'exploitation de la route figurant au tableau annexé sous le Numéro 2 B effectueront un service raisonnable à Léopoldville.

MONSIEUR LE CHARGÉ D'AFFAIRES,

J'ai l'honneur d'accuser la réception de la lettre du 25 octobre 1945 n° 371, par laquelle vous avez bien voulu proposer de rendre effectif, sur une base provisoire, le projet d'accord concernant l'établissement de lignes d'aviation civile, qui fait actuellement l'objet de négociations entre nos deux Gouvernements.

En attendant l'aboutissement de ces négociations et sans préjudice du résultat de celles-ci, le Gouvernement belge est également désireux de ne pas entraver l'établissement de services de transports aériens actuellement reconnus comme possibles et désirables.

En conséquence, il serait d'accord pour mettre provisoirement en vigueur ce projet, qui est d'ailleurs conforme dans ses neuf articles, à la Résolution VIII adoptée à la Conférence de Chicago, en vue de faciliter le prompt établissement des services d'aviation civile désignés ci-après:

- A. Les organismes exploitants des Etats-Unis d'Amérique autorisés en vertu du présent arrangement auront le droit de survol et d'atterrissage non commercial sur le territoire belge, ainsi que le droit d'embarquer et de débarquer à Bruxelles, en trafic international, des passagers, de la poste et des marchandises sur l'itinéraire suivant:

Des Etats-Unis par l'Atlantique Nord à Londres, Bruxelles et au-delà vers l'Inde par des points intermédiaires en Europe Centrale et le Proche Orient, dans les deux directions.

- B. Les organismes exploitants de Belgique autorisés en vertu du présent arrangement auront le droit de survol et d'atterrissage non commercial sur le territoire des Etats-Unis d'Amérique ainsi que le droit d'embarquer et de débarquer à New-York, en trafic international, des passagers, de la poste et des marchandises sur l'itinéraire suivant;

de Belgique à New-York via des points intermédiaires de l'Atlantique Nord, dans les deux directions.

Bien qu'il soit reconnu que les conditions d'exploitation puissent nécessiter le changement de matériel aux escales intermédiaires, il est entendu qu'il ne pourra être usé de ce droit en vue de changer le caractère de long courrier des services spécifiés.

Avant de pouvoir entreprendre les opérations visées dans le présent arrangement, les organismes exploitants désignés par chaque Gouvernement pour exploiter les lignes spécifiées ci-dessus, pourront être

mis dans l'obligation d'obtenir à cet effet des autorités compétentes de l'autre Gouvernement, l'autorisation requise en vertu des règlements et usages généralement appliqués par ces autorités.

En attendant la conclusion d'un accord bilatéral de trafic aérien, le présent arrangement provisoire aura une durée de validité initiale de trois mois à dater du 1er. février 1946. A l'expiration de cette période, il restera en vigueur par tacite reconduction sauf dénonciation par l'un des deux Gouvernements en tout temps avec préavis d'un mois.

Veuillez agréer, Monsieur le Chargé d'Affaires, l'assurance de ma considération la plus distinguée.

UNITED STATES OF AMERICA

No. 542

Brussels, February 1, 1946

EXCELLENCY:

I have the honor to acknowledge receipt of Your Excellency's note of February 1, 1946, reading as follows:

"I have the honor to acknowledge receipt of Note no. 371, of October 25, 1945, by which you were good enough to propose putting into effect on a provisional basis the draft agreement for establishment of civil aviation lines, which is at present the subject of negotiations between our two Governments.

"The Belgian Government likewise is desirous of not hindering the establishment of air transport services which are actually considered possible and desirable pending conclusion of these negotiations and without prejudicing the results thereof.

"In consequence, it would agree to put this draft, which moreover conforms in its nine articles to Resolution VIII adopted by the Chicago Conference, into force provisionally, in order to facilitate the prompt establishment of the following civil air services:

- A. Airline operators of the United States of America authorized under this agreement are accorded rights of transit and non-traffic stop in the territory of Belgium, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at Brussels, on the following route:

The United States over the North Atlantic to London, Brussels, and thence to India via intermediate points in Central Europe and the Near East; in both directions.

- B. Airline operators of Belgium authorized under this agreement are accorded rights of transit and non-traffic stop in the territory of the United States of America, as well as the right to pick up and discharge international traffic in passengers, cargo and mail at New York, on the following route:

Belgium via intermediate points over the North Atlantic to New York; in both directions.

"While it is recognized that operating conditions may necessitate the changing of equipment at intermediary stops, it is understood that this right cannot be availed of for the purpose of changing the long range character of the services described.

"The airline operators designated by each Government to operate the services described above may be required to qualify before the competent aeronautical authorities of the other government under the regulations and requirements normally applied by these authorities, before being permitted to engage in the operations contemplated by this agreement.

"Pending the conclusion of a formal bilateral air transport agreement, this interim arrangement will be valid for an initial period of three months beginning February 1, 1946, renewable automatically thereafter but subject to denunciation on one month's notice by either Government at any time after the expiration of the initial period."

I take pleasure in informing Your Excellency that my Government agrees to the foregoing.

Please accept, Excellency, the renewed assurances of my highest consideration.

Agreement between the United States of America and Poland respecting economic and financial cooperation. Effected by exchange of notes signed at Washington April 24, 1946.

April 24, 1946
[T. I. A. S. 1516]

The Acting Secretary of State to the Polish Ambassador

DEPARTMENT OF STATE

WASHINGTON

April 24, 1946

EXCELLENCY :

The Government of the United States, desirous of aiding the people of Poland in their efforts to repair war damages and to reconstruct the Polish economy, expresses its satisfaction at the successful conclusion of the negotiations concerning the opening of credits of \$40,000,000 to the Provisional Government of Poland by the Export-Import Bank of Washington, D. C., and the satisfactory conclusion of arrangements for extending credits up to \$50,000,000 for the purchase by Poland of United States surplus property held abroad.

The Government of the United States hopes that these agreements will prove to be the first step toward durable and mutually beneficial economic and financial cooperation between the Governments of the two countries. It believes, however, that such cooperation can develop fully only if

(1) a general framework is established within which economic relations between Poland and the United States can be effectively organized on the basis of principles set forth in Article VII of the Mutual Aid Agreement of July 1, 1942, so as to result in the elimination of all forms of discriminatory treatment in international commerce, and the reduction of tariffs and other trade barriers;

(2) the Provisional Government of Poland is in accord with the general tenor of the "Proposals for Expansion of World Trade and Employment" recently transmitted to the Provisional Government of Poland by the Government of the United States, and undertakes together with the Government of the United States to abstain, pending the participation of the two Governments in the general international conference on trade and employment contemplated by the "Proposals", from adopting new measures which would prejudice the objectives of the conference;

(3) the Provisional Government of Poland will continue to accord to nationals and corporations of the United States the treatment provided for in the Treaty of Friendship, Commerce and Consular Rights between the United States and Poland, signed June 15, 1931;

(4) the Government of the United States and the Provisional Government of Poland will make both adequate and effective compensation to nationals and corporations of the other country whose properties are requisitioned or nationalized;

Compensation for property requisitioned.

Consultation.

(5) the Provisional Government of Poland and the Government of the United States agree to afford each other adequate opportunity for consultation regarding the matters mentioned above, and the Provisional Government of Poland, recognizing that it is the normal practice of the Government of the United States to make public comprehensive information concerning its international economic relations, agrees to make available to the Government of the United States full information, similar in scope and character to that normally made public by the United States, concerning the international economic relations of Poland.

The Government of the United States undertakes herewith to honor and to discharge faithfully the obligations which relate to the United States specified in points (1) through (5) above, and would be pleased to receive a parallel undertaking from the Provisional Government of Poland with respect to those obligations specified in points (1) through (5) above which relate to Poland.

Accept, Excellency, the renewed assurances of my highest consideration.

EMBASSY OF THE
UNITED STATES OF AMERICA
Rio de Janeiro, December 21, 1943.

No. 1968

EXCELLENCY:

I have the honor to refer to the recent conversations between representatives of the Government of Brazil, the United Kingdom and the United States of America concerning the exportable surplus of rice produced in Brazil. As a result of these conversations I am happy to confirm the understanding of my Government in this connection to be as follows:

1. The Governments of the United States of America and of the United Kingdom undertake to purchase the exportable surplus of rice produced in Brazil from the 1943-1944 and 1944-1945 crops of the types and qualities and under the terms specified in the attached schedule, and the Government of Brazil undertakes to sell or to cause to be sold such surplus, to be made available for shipment from month to month during the twelve months immediately after harvesting, i. e. until April 30, 1945 and April 30, 1946, respectively. In order to avoid deterioration through long storage the Government of Brazil, by means of full utilization of milling facilities, will make every endeavor to make available for shipment as large a proportion as possible of the surplus during the months of May to September in each of the years 1944 and 1945.

2. The prices stated in the attached schedule shall be applicable for rice of the 1943-1944 crop; prices for the 1944-1945 crop shall be established not later than July 31, 1944, by agreement between the three governments.

3. The Government of Brazil undertakes to take such action as shall be necessary to limit exports of rice to those destined to the United States of America, the United Kingdom or their respective nominees.

4. In order, however, that Brazil may maintain its normal channels of trade so far as consistent with the present emergency and to assure equitable supplies to the other American Republics and to the French and Dutch Possessions in the Western Hemisphere, it is understood that there is excepted from the foregoing undertakings rice to an amount sufficient to satisfy the essential needs of these countries

5. The prices for rice exported to these countries shall not exceed the level of prices fixed for sales to the United States of America and the United Kingdom.

6. It is understood that rice shall be made available for export only after provision is made for meeting Brazilian domestic needs, including seed requirements for the purposes of this agreement.

7. Purchases by the Governments of the United States of America and the United Kingdom shall be made on their behalf by such agency or agencies as shall be designated by them from time to time, it being contemplated that such purchases may be implemented by commercial contracts (containing terms consistent with the understanding set forth herein, including delivery terms) entered into with the interested trade associations or regular exporters, their overseas representatives, or otherwise.

8. The British Ministry of Food has been designated to act as such agency until further notice from the two Governments.

MR. AMBASSADOR,

I have the honor to acknowledge the receipt of note no. 1968 of today's date, whereby Your Excellency, referring to the recent conversations between Brazilian authorities and representatives of the Governments of the United States of America and of Great Britain regarding the exportable surpluses of rice produced in Brazil, suggests that an agreement be made on the following bases:

Amé, p. 1612.

1. The Governments of the United States of America and of the United Kingdom of Great Britain and Northern Ireland undertake to purchase the exportable surplus of rice produced in Brazil with reference to the 1943-1944 and 1944-1945 crops of the types and qualities and under the terms specified in the attached schedule, and the Brazilian Government undertakes to sell or cause to be sold such surplus, to be made available for shipment from month to month during the twelve months immediately following the harvest, that is, until April 30, 1945 and April 30, 1946, respectively.

2. In order to avoid deterioration through long storage the Brazilian Government, by means of full utilization of milling facilities, will make every endeavor to make available for shipment as large a proportion as possible of the surplus during the months of May to September in each of the years 1944 and 1945.

3. The prices stated in the attached schedule shall be applicable to the rice of the 1943-1944 crop; the prices for the 1944-1945 crop shall be established not later than July 31, 1944 by an understanding between the three Governments signatory to this Agreement.

4. The Brazilian Government undertakes to take such action as shall be necessary to limit exports of rice to those destined to the United States of America, the United Kingdom of Great Britain and Northern Ireland or their respective nominees.
5. In order that Brazil may maintain its normal channels of trade, so far as consistent with the present emergency and to assure equitable supplies to the other American Republics and the French and Dutch possessions in the Western Hemisphere, it is understood that there is excepted from the foregoing undertakings rice to an amount sufficient to satisfy the essential needs of those countries normally supplied by Brazil which, under the provisions of this Agreement, are to be represented by the following provisional quota, for each one of the two crops, which shall not be exceeded without prior consultation and agreement with the Governments of the United States of America and of the United Kingdom of Great Britain and Northern Ireland, namely, a total of 10,000 (ten thousand) metric tons for the following countries: Argentina, French Guiana, Bolivia, Peru, Venezuela, Colombia, Paraguay, Uruguay, and the Dutch and French West Indies.
6. The prices of rice exported to the countries mentioned in the foregoing clause shall not exceed the level of the prices fixed for sales to the United States of America and to the United Kingdom of Great Britain and Northern Ireland.
7. It is understood that the rice shall be made available for export only under the terms of this agreement, after provision is made for meeting the needs of the domestic market of Brazil, including the production of seeds necessary for the purposes of this Agreement.
8. Purchases by the Governments of the United States of America and the United Kingdom of Great Britain and Northern Ireland shall be made on their behalf by the Agency or Agencies that may be designated periodically by those Governments, it being contemplated that such purchases may be implemented by commercial contracts (containing terms consistent with the terms of this Agreement, including delivery conditions) drawn up with interested trade associations or regular exporters, their overseas representatives, or otherwise.
9. The Ministry of Food of the United Kingdom of Great Britain and Northern Ireland has been designated to act as such agency until further notice from the Governments of the United States of America and of the United Kingdom of Great Britain and Northern Ireland.
10. In view of the undertaking of the Governments of the United States of America and the United Kingdom of Great Britain and Northern Ireland, the Brazilian Government undertakes not to increase or create new duties or export taxes or any other charges on rice or freight, whether Federal, State or otherwise, during the term of this Agreement.
11. The Brazilian Government undertakes to give wide publicity to such provisions of the Agreement as will provide an incentive to

maximum production of the qualities of rice specified in the attached schedule, which is made a part of this Agreement as Appendix No. 1.

Ante, p. 1615.

12. All doubts and difficulties originating during the life of this Agreement, with respect to the United States of America, will be settled between the Commission for the Control of the Washington Agreements, and the Government of the United States of America.

13. In reply, I have the honor to declare to Your Excellency that the Brazilian Government accepts the Agreement referred to on the bases suggested above, and gives to it, as of this date, its full approval.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

ANNEX NO. 1 OF THE
SCHEDULE

CLAUSES OF THE CONTRACT OF THE FIRM OF RICE BROKERS LIMITED,
LONDON

1. The declarations of shipment or shipments, to be made by the sellers shall not be delayed beyond a period of twenty-one days after the sailing of the vessel (steamship or motorboat) from the port of embarkation, subject to confirmation by mail. Each shipment shall be considered as a separate contract.

2. Cargo risks, from the time of the placement of the goods on board the vessel (steamship or motorboat) in the port of embarkation, shall be for the account of the purchasers.

3. The purchasers shall communicate to the sellers the date on which the vessel is expected in the port of embarkation. In case the expected vessel or its substitute does not arrive in the port or ports of embarkation, or is not ready to be loaded on the day of the expiration of the period of shipment in the contract or, again, if the purchasers fail to provide the necessary space, the latter shall pay the expenses incurred, at the rate of one shilling per week per ton of 1016 kilos.

4. The settlement of the invoice total, to be made at sight in London, shall not be deferred beyond a period of 7 days after the arrival of the ship in the port of disembarkation or a period of 90 days after the date of the bill of lading; of these periods the one which expires first shall be effective. [The settlement] shall be made through the presentation of the bill of lading and/or duly approved orders for delivery and/or freight receipt authorizing the delivery, as well as the certificate of weight, all in proper order. The certificate of origin, when requested, shall be furnished by the sellers.

5. The sellers shall deliver and the purchasers shall receive the rice alongside the vessel, including rice in bulk and rice chaff, according to the terms of the charter party (or, in case this does not exist, according to those of the bill of lading); [the purchasers] shall pay all the expenses connected therewith, including sacking, repair of sacks, new sacks, warehousing and, in case there are any, port dues and import duties.

6. The rice shall not be rejected on the allegation that it is of inferior quality; however, the purchasers shall be entitled to an allowance to be established, if necessary, by arbitration, as provided in Clause 8, in case the average quality of any shipment should happen to be inferior to the quality stipulated, as specified above. Samples, not showing damage done by the sea or vessel, shall be obtained at the

time of the disembarkation; the certificate of their quality shall be sent to the London Rice Brokers Association. The removal of the samples shall be made on the basis of the regulations adopted in the port.

7. No goods covered in the present contract may contain more than $\frac{1}{2}$ of 1% in mineral matter; their nature, composition and quality shall be designated and declared according to the requirements of the Sale of Food and Drugs Act (*Lei da venda de gêneros e drogas*) and of all the regulations, including those relating to their preservation and coloring. Broken rice which is not of British origin shall contain less than two per cent of unbroken rice.

8. Any question arising from the present contract shall be submitted to the judgment of two members of the London Rice Brokers Association or of its arbitrator, who shall also be a member of this Association. Each party shall designate an arbitrator, and shall have the right to reject one of those who are designated. (By the term "member" is meant the member as well as the associate). In case one of the parties fails to designate an arbitrator within the period of ten days from the receipt of the communication from the other party that he has made such a designation, or in case the arbitrators do not agree to the designation of a third arbitrator, the Commission of the London Rice Brokers Association, in either of the two cases, shall have the power to designate a fourth arbitrator, who will act in the name of, or as if he were designated by, the defaultant party or parties. A decision on quality must be requested and the arbitrator-solicitor designated within 14 days from the receipt of the sample or samples, in London, by the purchaser or broker, which sample shall be sent to that capital, duly dispatched; or within 14 days after the beginning of the unloading of the vessel, the period which expires last being effective, and the decision being made without delay. Requests for arbitration which are not for arbitration concerning quality must be made and, to that end, the arbitrator-solicitor designated as soon as possible. The claims, as well as the designation of the arbitrator, shall not be considered if they are made after a period of six months after the arrival of the vessel or six months after the date of any violation or omission made, the period which expires last being effective. Both parties shall have the right to appeal the decision of the arbitrators, except when legal questions are involved, within the period of five working days; such an appeal shall be addressed to the London Rice Brokers Association, whose decision, except with respect to legal questions, shall be final. Any payments resulting from the decision shall be made within a period of one week from the date of the same.

9. In case the shipment is postponed or suspended by reason of prohibition of exportation, mutinies, strikes, paralyzation of industries, revolutions, earthquakes, floods, official declaration of an epidemic, or by reason of the consequences of such occurrences, the period of the shipping contract shall be extended for one month. If at the termination of this period, the shipment is still suspended due to any

of the aforesaid causes, the part of the contract which was postponed shall be void, unless there is a new extension of the period, accepted by both parties. In case war and/or hostilities and/or consequences resulting therefrom prevent the sellers from fulfilling the contract or any of its parts, the part of the contract which, for the above reasons, could not be fulfilled by the purchasers shall be void.

ANNEX NO. 2
OF THE SCHEDULE

MAIN CLAUSES OF THE CONTRACTS FOR THE PURCHASE OF RICE BY THE
GOVERNMENT AGENCY OF THE UNITED STATES OF AMERICA (IN ADDI-
TION TO THE STIPULATIONS CONTAINED IN THE AGREEMENT).

2. The rice shall be at the risk of the purchaser from the time it is on board the ocean steamer designated to carry it to the point of destination in the foreign country. The maritime and war-risk insurance, if there is any, shall be for the account of the purchaser.

3. The seller shall furnish the rice in the month designated by the purchaser and notify him when the rice is ready for shipment. In case the purchaser fails to provide shipping space during the month in which the rice is purchased for shipment, the purchaser shall be liable for the warehousing and for the insurance, beginning 30 days after the date of the notification that the rice is ready for shipment in the designated port of embarkation within the contractual period. The charges for such warehousing and for any insurance must be in accordance with the specifications and stipulations of the contract, but the charges for warehousing shall in no wise exceed the current rate on that date. The warehouses and the insurance companies employed for that purpose, shall first be approved by the United States Purchasing Agency.

4. The total payment for the purchases of rice shall be made against the customary and required shipping documents, including the bill of lading, certificate of weight, and certificate of inspection respecting the type and quality, issued by the Instituto Riograndense de Arroz, [Rio Grande Rice Institute] for rice produced in the State of Rio Grande do Sul.

5. That certificate of inspection shall be issued by the Department of Agriculture of the State in which the rice purchased from sources other than the State of Rio Grande do Sul was produced. The Purchasing Agency designated by the United States shall be entitled to have representatives at the inspection of the rice purchased for the account of the United States of America. The certificate of weight shall be issued by a public weigher or by someone who has been

authorized for that purpose by agreement between purchaser and seller. All the expenses of weighing, sampling and certificates shall be for the account of the seller.

- (iii) Palestine: One direct circuit shall be established between the United States and Palestine, subject to the agreement of the Palestine Government.
- (iv) Ceylon, Federated Malay States (Singapore) and Hong Kong: The Government of the United Kingdom in consultation with the authorities of the territories concerned, shall undertake a study to determine whether traffic or other conditions warrant the establishment of direct circuits between the United States and Ceylon, the Federated Malay States (Singapore) and Hong Kong respectively.

Section 3. General considerations.

The signatory Governments agree to present, for the consideration of the next International Telecommunications Conference, a statement, along the lines set forth in Annex A, relating to the general factors governing the establishment of direct radiotelegraph circuits.

Post, p. 1643.

Section 4. Exclusive arrangements.

The signatory Governments shall neither support nor approve efforts by telecommunications companies subject to their respective jurisdictions to prevent or obstruct the establishment of direct circuits between the United States or British Commonwealth points and other countries, and will take such steps as may be appropriate to discourage any such efforts.

Section 5. Transit traffic.

The traffic normally handled over direct radiotelegraph circuits shall be restricted to traffic originating in and destined for the countries between which the circuits are operated. This does not preclude the use of such circuits as "voies de secours" in emergency. Transit traffic may be handled over direct radiotelegraph circuits in any case where it is agreed that it would otherwise be subject to excessive delay.

ARTICLE II. TELEGRAPH RATES

Section 6. Ceiling rates.

- (i) The ceiling rate between the United States on the one hand and the countries of the British Commonwealth on the other shall be 30 cents or 1s. 6d. per ordinary full rate word.
- (ii) The ceiling rate between the United States on the one hand and the countries of the British Commonwealth on the other shall be 20 cents or 1s. per word for code (CDE) telegrams.
- (iii) For categories of telegrams charged at lower rates, the existing international proportions of the ordinary rate shall be maintained.

- (iv) These arrangements shall not involve any increase in existing rates.

Section 7. Press rates.

- (i) The ceiling rate for Press traffic between the United States and the countries of the British Commonwealth shall be 6-½ cents or 4d. per ordinary word. No rate already below this ceiling of 6-½ cents or 4d. per word shall be increased.

Note: The existing Press rate within the British Commonwealth of 1d. per ordinary word may be extended to press traffic between the countries of the British Commonwealth and any other country.

Section 8. Terminal and transit charges.

- (i) The terminal and transit charges for traffic to which the ceiling rate of 30 cents or 1s. 6d. per ordinary full rate word applies shall be uniform.
- (ii) For the purposes of applying these charges countries shall be classified in two categories, as follows:

- (a) Countries of extensive area, such as Canada, Australia, India, South Africa, and the Continental United States.
- (b) All other countries.

- (iii) For traffic to which the ceiling rate applies, the terminal and transit charges for an ordinary full rate word shall be:

- (a) A terminal charge of 4 cents or 2½d. for countries in category (a) and 2-½ cents or 1½d. for countries in category (b).
- (b) A transit charge of 3-¼ cents or 2d. for countries in category (a) and 1-¾ cents or 1d. for countries in category (b).

- (iv) Terminal and transit charges for other classifications of traffic shall be proportional to the charges collected.
- (v) No terminal or transit charge shall exceed the charges prescribed in paragraphs (iii) and (iv) above. Subject to this provision, existing terminal and transit charges at rates below the proposed new ceiling shall be maintained pending review by the interested parties.
- (vi) Terminal and transit charges shall be regarded as payments for services rendered. The terminal charges are payable for traffic originating in or destined for a country. The transit charges are payable for traffic carried across the territory of a country for onward transmission beyond that country. All terminal and transit charges shall be included in the ceiling rate and shall not be additional thereto.

- (vii) These arrangements shall not involve any increase in existing terminal and transit charges.

Note:

Provided the charges accruing to the other international carriers are not affected, the division of the charges between an international carrier and its corresponding domestic carrier shall be of no concern to the other international carriers.

Section 9. Division of tolls.

- (i) In the case of direct radiotelegraph circuits, the portion of the tolls remaining after deduction of terminal and transit charges shall be divided equally between the transmitting and receiving organisations.
- (ii) Reductions in payments for services over indirect routes resulting from the introduction of reduced rates shall be borne by those concerned in the same proportion as the present charges are now divided.
- (iii) The application of paragraphs (i) and (ii) of this Section to existing contracts and the specific arrangements to give effect to them shall be considered by the parties concerned.

Reduction in payment for services over indirect routes.

Section 10. Currency.

In view of the fact that the gold franc system of telegraph charges and accounting is unsatisfactory in present conditions, the fixing of tariffs and the settlement of accounts between the United States and the countries of the British Commonwealth shall be governed by the following general principles:

- (i) The tariffs shall be drawn up in dollars and in sterling, and the tariffs so expressed shall be approximately equivalent at \$4.03 to £1.
- (ii) In the event of an alteration in the average of the buying and selling rates for telegraphic transfer of dollars and sterling by more than 2 per cent from \$4.03 to £1, arrangements shall be made promptly, at the request of any country, for consultation on the adjustment of tariffs, which shall be drawn up in dollars and sterling and which shall be approximately equivalent at an agreed rate of exchange.
- (iii) In any country other than the United States and the United Kingdom, the schedule of charges in local currency for messages shall at all times be the approximate equivalent of the tariffs drawn up in dollars and in sterling at the average of the buying and selling rates for telegraphic transfers of the currency in terms of dollars or sterling. Minor fluctuations in the exchange rates shall not of themselves require a modification of the schedule of charges in local currency. In fixing collection charges in its local currency, a country shall be entitled to vary the precise

Tariffs.

Request for consultation.

Charges in local currency.

- equivalent of the dollar-sterling tariff to the nearest convenient unit.
- (iv) The balance due as between the parties concerned shall be calculated in accordance with the tariffs drawn up in dollars and sterling, and settlement shall be made in the currency of the country of the creditor party on the basis of \$4.03 to £1. In the case of a request for consultation in accordance with paragraph (ii) of this Section, obligations incurred prior to the date of such request shall be settled on the basis of \$4.03 to £1. The basis of settlement of balances arising in respect of the period between the date of such request and the date when new tariffs as provided in paragraph (ii) of this Section become effective shall be a matter for agreement between the parties concerned. On and after the date when new tariffs become effective settlement shall be made on the basis of the new agreed dollar-sterling rate of exchange.
 - (v) In extending to other countries the new ceiling rate of 30 cents or 1s.6d. the United States and the countries of the British Commonwealth shall seek to achieve the establishment of a tariff drawn up on a dollar-sterling basis or, failing agreement on the part of the other country to adopt that basis, of tariffs giving effect as far as practicable to the principles underlying the dollar-sterling basis.
 - (vi) Should the International Monetary Fund provided for in the Bretton Woods Agreements be established, any necessary modifications in the provisions above should be considered by the authorities concerned.

Section 11. Effective date.

The arrangements provided in this Article shall be brought into force as soon as possible and not later than April 1st 1946. So far as practicable they shall be introduced as from a common date.

Note: All references in this Article to dollars and cents, and to pounds, shillings and pence, are to United States and United Kingdom currencies respectively.

ARTICLE III. PRESS COMMUNICATIONS.

Section 12. Private point to point channels for Press.

Private channels for point to point press traffic shall be provided where the available channels are sufficient. Charges may be based on time, words, or cost, whichever may be agreed upon by the parties concerned.

Section 13. Reception of multiple address press radiocommunications.

(i) The reception of press radio communications addressed to multiple destinations and transmitted from the United States or the countries of the British Commonwealth shall be permitted within their respective territories in all cases where the recipients are authorised by the sender to receive such communications.

(ii) The Governments of the United States and of the United Kingdom and Canada will permit within their respective territories the private reception of such communications either through the recipients' own radio receiving installation or through other private installations. In the United Kingdom such permission may be conditional on the service not being offered to third parties except in the case of recognised news agencies.

Private reception.

(iii) The Governments of Australia, New Zealand, South Africa, India and the United Kingdom on behalf of her colonies will arrange for the reception of such communications through the respective telegraph administrations and will retain the power to exercise their discretion as to the granting of permission to private recipients for the reception of such communications through their own installations or through other private installations.

Note: The position of Southern Rhodesia under Section 13 is reserved.

ARTICLE IV. CABLES.

Section 14. (i) In order to secure the optimum development of telecommunications services, and in view of the important strategic role which cables as well as radio play in a co-ordinated telecommunications system, research and development work in both cable and radio communication shall be fostered and promoted. The use of improvements such as submarine repeaters and multi-channel operation shall wherever possible be encouraged.

(ii) Inasmuch as the trans-Atlantic cables form an integral part of a world telecommunication system, uniform procedures and techniques shall be adopted in their operation. The present arrangements for mutual consultation and co-operative action with respect to the trans-Atlantic cables shall be continued.

Adoption of uniform procedures and techniques.

ARTICLE V. STANDARDISATION.

Section 15. The Governments of the British Commonwealth shall support a recommendation, to be made by the United States Government, to the International Telegraph Consultative Committee (CCIT) and the International Consultative Committee for Radiocommunications (CCIR) on the question of standardisation of modern Telecommunication methods along the following lines:—

In order to further the development and wide-spread use of modern telecommunication systems susceptible to interconnection and interchange of messages and in the interests of conservation of the radio frequency spectrum, it is proposed that the CCIT study the establishment of

a standardised switching system for international telegraph communications based upon a standard five unit code of operation.

Further, it is proposed that the CCIR study the establishment of standards for:-

- (a) Carrier shift operation for single channel telegraph circuits.
- (b) Multi-tone operation for multi-channel telegraph circuits.
- (c) Performance specifications for phototelegraphic equipment to provide for inter-working, including modulation equipment for radio transmissions.

ARTICLE VI. GENERAL PROVISIONS

Section 16 Consultation

(i) The parties to this Agreement shall consult on all matters coming within its purview.

(ii) The parties to this Agreement shall, at the earliest stage, advise one another regarding all intended changes in rates on routes of interest to one another.

Section 17. Acceptance.

By their approval of this Agreement, all Governments will accept it both on their own behalf and in respect of all their colonies, overseas territories, all territories under their protection, suzerainty, or authority and all territories in respect of which they exercise a mandate, subject to any necessary reservations. The United States will endeavour to obtain the adherence of the Commonwealth of the Philippines to this Agreement.

Section 18. Entry into force.

This Agreement shall come into force as between the several signatory Governments upon the receipt by the United Kingdom Government of the respective notifications of their approval. [1] The United Kingdom Government shall on receipt of such notifications inform all other signatory Governments.

ANNEX A

General Conditions Governing the Establishment of Direct Radiotelegraph Circuits

- (i) The desirability of establishing any direct radio circuit between two countries is a matter involving a judgment on its merits by the Governments of both the countries concerned. It is essential that conditions, particularly economic conditions, and the requirements of the users, at both ends of a proposed circuit should be fully considered in each case.
- (ii) The governing conditions for the establishment of direct radio circuits are those of traffic and service, with the expeditious disposal of traffic as the main objective.
- (iii) The existence of both radio and cables is essential in the general interest of world telecommunications as a whole. Provision of direct radio circuits should therefore have regard to existing channels of communication.
- (iv) It is recognised that in certain cases a circuit might be deemed necessary for political reasons.

1. The United Kingdom Government will inform the Saudi Arabian Government that they understand that the United States Government are anxious that the Saudi Arabian Government should modify their agreement with the Eastern Telegraph Company in such a way as to permit of the erection by a United States Company of a radiotelegraph station, to be the property of the Saudi Arabian Government, for the purpose of operating a direct radiotelegraph circuit between Saudi Arabia and the United States, and that if the Saudi Arabian Government wish to avail themselves of this offer, the United Kingdom Government would not wish the agreement between the Eastern Telegraph Company and the Saudi Arabian Government to stand in their way. It is understood that the question of any further modifications of the concession required to permit of the operation of other direct radiotelegraph circuits by the Saudi Arabian Government would be for determination by the latter.

[T. I. A. S. 1519]

Agreement between the United States of America and Denmark amending the agreement of December 16, 1944, respecting air transport services. Effected by exchanges of notes signed at Washington October 23 and December 5, 1945, and March 21, 1946; effective March 21, 1946.

The Danish Minister to the Secretary of State

ROYAL DANISH LEGATION
WASHINGTON, D.C.

OCTOBER 23, 1945

SIR,

On December 16, 1944, an Agreement Relating To Air Transport Services was concluded between Denmark and the United States of America, effective provisionally from January 1, 1945. Acting upon instruction from my Government, I now have the honor to advise you that by Royal decree of September 29, 1945, this Air Transport Agreement has been confirmed by the Danish Government.

58 Stat. 1458.

At the same time I beg to inform you that I have been instructed to discuss with the American authorities the following two amendments to the Agreement (I and II) of which No. I is proposed by the Danish Government and No. II by the American Government :

I

The Danish Government would appreciate as a matter of reciprocity to have the last lines of paragraph B in the Annex to the Air Transport Agreement amended to read as follows:

58 Stat. 1461.

“Denmark to the United States and points beyond via immediate points; in both directions.”

II

With reference to paragraph A of the Annex to the Air Transport Agreement, the American Government has expressed a wish through the American Legation in Copenhagen that a clause be inserted at the end of the paragraph, reading as follows:

58 Stat. 1461.

“Rights of transit and non-traffic stop are granted United States airlines in the territory of Greenland on a route between the United States and Europe.”

I shall be much obliged if you will be good enough to inform me whether the American Government is prepared to conclude a revised

Agreement containing the above mentioned amendments to the text of the Annex to the Air Transport Agreement.

I avail myself of this opportunity to renew to you, Sir, the assurances of my highest consideration.

HENRIK KAUFFMANN

The Honorable

Department of State

The Secretary of State to the Danish Minister

DEC 5 1945

SIR:

I have received your note of October 23, 1945 in which you advise the Department that by Royal decree of September 29, 1945 the Air Transport Agreement between the United States of America and Denmark, effective provisionally from January 1, 1945, has been confirmed by the Danish Government.

58 Stat. 1458.

The Department is gratified at this action, and is pleased to advise you that it considers this agreement as being definitively in force as from the date of the aforementioned Royal decree.

You also inform the Department that you have been instructed to discuss with the American authorities two amendments to the Agreement as follows.

1. A change of the last lines in Section B of the Annex amending them to read as follows:

58 Stat. 1461.

“Denmark to the United States and points beyond, via intermediate points; in both directions.”

I am pleased to inform you that the Department agrees to this change in wording suggested by the Danish Government.

You also inform the Department that the Danish Government accepts the suggestion of the American Government that a clause be inserted at the end of Section A of the Annex, the effect of which would be to grant rights of transit and non-traffic stop in Greenland to United States airlines operating between the United States and Europe. Since the first paragraph of Section A already grants these rights to United States air services operating on the route to Denmark, it is now suggested for purposes of clarity that the proposed final paragraph of Section A read as follows:

58 Stat. 1461.

“Rights of transit and non-traffic stop with respect to Greenland are also granted to United States airlines on a route or routes between the United States and Europe.”

If the revisions of Sections A and B of the Annex as set forth above are agreeable to the Danish Government, my Government will be pleased to consider the revised Agreement effective as from the date of the Danish Government's reply of acceptance.

Accept, Sir, the renewed assurances of my highest consideration.

For the Secretary of State:

WILLIAM L. CLAYTON

The Honorable

HENRIK DE KAUFFMANN,

MARCH 21, 1946

SIR:

I have the honor to advise you that after receiving your note of December 5th regarding the Air Transport Agreement between the United States of America and Denmark of December 16, 1944, I passed the contents of the note on to the Ministry for Foreign Affairs in Copenhagen.

I have now been instructed to inform you that the Danish Government agrees to the two amendments to Section A and B of the Annex to the Agreement as set forth in your aforementioned note and that the revised Agreement will become effective as from today's date.

I avail myself of this opportunity to renew to you, Sir, the assurances of my highest consideration.

Declaration regarding Germany by the United States of America and the United Kingdom of Great Britain and Northern Ireland, the Union of Soviet Socialist Republics, and the Provisional Government of the French Republic. Signed at Berlin June 5, 1945; effective June 5, 1945.

June 5, 1945

[T. I. A. S. 1520]

Declaration regarding the defeat of Germany and the assumption of supreme authority with respect to Germany by the Governments of the United States of America, the Union of Soviet Socialist Republics and the United Kingdom, and the Provisional Government of the French Republic.[¹]

The German armed forces on land, at sea and in the air have been completely defeated and have surrendered unconditionally and Germany, which bears responsibility for the war, is no longer capable of resisting the will of the victorious Powers. The unconditional surrender of Germany has thereby been effected, and Germany has become subject to such requirements as may now or hereafter be imposed upon her.

There is no central Government or authority in Germany capable of accepting responsibility for the maintenance of order, the administration of the country and compliance with the requirements of the victorious Powers.

It is in these circumstances necessary, without prejudice to any subsequent decisions that may be taken respecting Germany, to make provision for the cessation of any further hostilities on the part of the German armed forces, for the maintenance of order in Germany and for the administration of the country, and to announce the immediate requirements with which Germany must comply.

The Representatives of the Supreme Commands of the United States of America, the Union of Soviet Socialist Republics, the United Kingdom and the French Republic, hereinafter called the "Allied Representatives," acting by authority of their respective Governments and in the interests of the United Nations, accordingly make the following Declaration:-

The Governments of the United States of America, the Union of Soviet Socialist Republics and the United Kingdom, and the Provisional Government of the French Republic, hereby assume supreme authority with respect to Germany, including all the powers possessed by the German Government, the High Command and any state, municipal, or local government or authority. The assumption, for the purposes stated above, of the said authority and powers does not effect the annexation of Germany.

The Governments of the United States of America, the Union of Soviet Socialist Republics and the United Kingdom, and the Provisional Government of

¹ [The English and Russian texts are printed from signed originals; the French text is printed from a copy certified by the French Ministry of Foreign Affairs; German text not printed.]

the French Republic, will hereafter determine the boundaries of Germany or any part thereof and the status of Germany or of any area at present being part of German territory.

In virtue of the supreme authority and powers thus assumed by the four Governments, the Allied Representatives announce the following requirements arising from the complete defeat and unconditional surrender of Germany with which Germany must comply:-

ARTICLE 1.

Germany, and all German military, naval and air authorities and all forces under German control shall immediately cease hostilities in all theatres of war against the forces of the United Nations on land, at sea and in the air.

ARTICLE 2.

(a) All armed forces of Germany or under German control, wherever they may be situated, including land, air, anti-aircraft and naval forces, the S.S., S.A. and Gestapo, and all other forces or auxiliary organisations equipped with weapons, shall be completely disarmed, handing over their weapons and equipment to local Allied Commanders or to officers designated by the Allied Representatives.

(b) The personnel of the formations and units of all the forces referred to in paragraph (a) above shall, at the discretion of the Commander-in-Chief of the Armed Forces of the Allied State concerned, be declared to be prisoners of war, pending further decisions, and shall be subject to such conditions and directions as may be prescribed by the respective Allied Representatives.

(c) All forces referred to in paragraph (a) above, wherever they may be, will remain in their present positions pending instructions from the Allied Representatives.

(d) Evacuation by the said forces of all territories outside the frontiers of Germany as they existed on the 31st December, 1937, will proceed according to instructions to be given by the Allied Representatives.

(e) Detachments of civil police to be armed with small arms only, for the maintenance of order and for guard duties, will be designated by the Allied Representatives.

ARTICLE 3.

(a) All aircraft of any kind or nationality in Germany or German-occupied or controlled territories or waters, military, naval or civil, other than aircraft in the service of the Allies, will remain on the ground, on the water or aboard ships pending further instructions.

(b) All German or German-controlled aircraft in or over territories or waters not occupied or controlled by Germany will proceed to Germany or to such other place or places as may be specified by the Allied Representatives.

ARTICLE 4.

(a) All German or German-controlled naval vessels, surface and submarine, auxiliary naval craft, and merchant and other shipping, wherever such vessels may be at the time of this Declaration, and all other merchant ships of whatever nationality in German ports, will remain in or proceed immediately to ports and bases as specified by the Allied Representatives. The crews of such vessels will remain on board pending further instructions.

(b) All ships and vessels of the United Nations, whether or not title has been transferred as the result of prize court or other proceedings, which are at the disposal of Germany or under German control at the time of this Declaration, will proceed at the dates and to the ports or bases specified by the Allied Representatives.

ARTICLE 5.

(a) All or any of the following articles in the possession of the German armed forces or under German control or at German disposal will be held intact and in good condition at the disposal of the Allied Representatives, for such purposes and at such times and places as they may prescribe-

- (i) all arms, ammunition, explosives, military equipment, stores and supplies and other implements of war of all kinds and all other war material;
- (ii) all naval vessels of all classes, both surface and submarine, auxiliary naval craft and all merchant shipping, whether afloat, under repair or construction, built or building;

- (iii) all aircraft of all kinds, aviation and anti-aircraft equipment and devices;
- (iv) all transportation and communications facilities and equipment, by land, water or air;
- (v) all military installations and establishments, including airfields, seaplane bases, ports and naval bases, storage depots, permanent and temporary land and coast fortifications, fortresses and other fortified areas, together with plans and drawings of all such fortifications, installations and establishments;

(b) At the demand of the Allied Representatives the following will be furnished:-

- (i) the labour, services and plant required for the maintenance or operation of any of the six categories mentioned in paragraph (a) above; and
- (ii) any information or records that may be required by the Allied Representatives in connection with the same.

(c) At the demand of the Allied Representatives all facilities will be provided for the movement of Allied troops and agencies, their equipment and supplies, on the railways, roads and other land communications or by sea, river or air. All means of transportation will be maintained in good order and repair, and the labour, services and plant necessary therefor will be furnished.

ARTICLE 6.

(a) The German authorities will release to the Allied Representatives, in accordance with the procedure to be laid down by them, all prisoners of war at present in their power, belonging to the forces of the United Nations, and will furnish full lists of

these persons, indicating the places of their detention in Germany or territory occupied by Germany. Pending the release of such prisoners of war, the German authorities and people will protect them in their persons and property and provide them with adequate food, clothing, shelter, medical attention and money in accordance with their rank or official position.

(b) The German authorities and people will in like manner provide for and release all other nationals of the United Nations who are confined, interned or otherwise under restraint, and all other persons who may be confined, interned or otherwise under restraint for political reasons or as a result of any Nazi action, law or regulation which discriminates on the ground of race, colour, creed or political belief.

(c) The German authorities will, at the demand of the Allied Representatives, hand over control of places of detention to such officers as may be designated for the purpose by the Allied Representatives.

ARTICLE 7.

The German authorities concerned will furnish to the Allied Representatives:-

- (b) complete and detailed information concerning mines, minefields and other obstacles to movement by land, sea or air, and the safety lanes in connection therewith. All such safety lanes will be kept open and clearly marked; all mines, minefields and other dangerous obstacles will as far as possible be rendered safe, and all aids to navigation will be reinstated. Unarmed German military and civilian personnel with the necessary equipment will be made available and utilised for the above purposes and for the removal of mines, minefields and other obstacles as directed by the Allied Representatives.

ARTICLE 8.

There shall be no destruction, removal, concealment, transfer or scuttling of, or damage to, any

military, naval, air, shipping, port, industrial and other like property and facilities and all records and archives, wherever they may be situated, except as may be directed by the Allied Representatives.

ARTICLE 9.

Pending the institution of control by the Allied Representatives over all means of communication, all radio and telecommunication installations and other forms of wire or wireless communications, whether ashore or afloat, under German control, will cease transmission except as directed by the Allied Representatives.

ARTICLE 10.

The forces, ~~nationals~~, ships, aircraft, military equipment, and other property in Germany or in German control or service or at German disposal, of any other country at war with any of the Allies, will be subject to the provisions of this Declaration and of any proclamations, orders, ordinances or instructions issued thereunder.

ARTICLE 11.

(a) The principal Nazi leaders as specified by the Allied Representatives, and all persons from time to time named or designated by rank, office or employment by the Allied Representatives as being suspected of having committed, ordered or abetted war crimes or analogous offences, will be apprehended and surrendered to the Allied Representatives.

(b) The same will apply in the case of any national of any of the United Nations who is alleged to have committed an offence against his national law, and who may at any time be named or designated by rank, office or employment by the Allied Representatives.

(c) The German authorities and people will comply with any instructions given by the Allied Representatives for the apprehension and surrender of such persons.

ARTICLE 12.

The Allied Representatives will station forces and civil agencies in any or all parts of Germany as they may determine.

ARTICLE 13.

(a) In the exercise of the supreme authority with respect to Germany assumed by the Governments of the United States of America, the Union of Soviet Socialist Republics and the United Kingdom, and the Provisional Government of the French Republic, the four Allied Governments will take such steps, including the complete disarmament and demilitarisation of Germany, as they deem requisite for future peace and security.

(b) The Allied Representatives will impose on Germany additional political, administrative, economic, financial, military and other requirements arising from the complete defeat of Germany. The Allied Representatives, or persons or agencies duly designated to act on their authority, will issue proclamations, orders, ordinances and instructions for the purpose of laying down such additional requirements, and of giving effect to the other provisions of this Declaration. All German authorities and the German people shall carry out unconditionally the requirements of the Allied Representatives, and shall fully comply with all such proclamations, orders, ordinances and instructions.

ARTICLE 14.

**О ПОРАЖЕНИИ ГЕРМАНИИ И ВЗЯТИИ НА СЕБЯ ВЕРХОВНОЙ ВЛАСТИ
В ОТНОШЕНИИ ГЕРМАНИИ ПРАВИТЕЛЬСТВАМИ СОЮЗА СОВЕТСКИХ
СОЦИАЛИСТИЧЕСКИХ РЕСПУБЛИК, СОЕДИНЕННОГО КОРОЛЕВСТВА И
СОЕДИНЕННЫХ ШТАТОВ АМЕРИКИ И ВРЕМЕННОМ ПРАВИТЕЛЬСТВОМ
ФРАНЦУЗСКОЙ РЕСПУБЛИКИ.**

Германские вооруженные силы на суше, на море и в воздухе потерпели полное поражение и безоговорочно капитулировали, и Германия, которая несет ответственность за войну, не способна больше противостоять воле держав-победительниц. Тем самым безоговорочная капитуляция Германии осуществлена, и Германия поставила себя в зависимость от таких требований, которые могут быть сейчас или впоследствии ей навязаны.

В Германии нет центрального правительства или власти, способной взять на себя ответственность за сохранение порядка, управление страной и за выполнение требований держав-победительниц.

Именно при этих обстоятельствах необходимо без ущерба для последующих решений, которые могут быть приняты по отношению к Германии, распорядиться о прекращении дальнейших военных действий со стороны германских вооруженных сил, сохранения порядка в Германии и об управлении страной и объявить те непосредственные требования, которые Германия обязана выполнить.

Представители Верховных Командований Союза Советских Социалистических Республик, Соединенного Королевства, Соединенных Штатов Америки и Французской Республики, в дальнейшем называемые "представители союзников", действуя по уполномочию своих соответствующих правительств и в интересах Объединенных наций, провозглашают в соответствии с этим следующую

Декларацию:

Правительства Союза Советских Социалистических Республик, Соединенного Королевства и Соединенных Штатов Америки и Временное Правительство Французской Республики, настоящим берут на себя верховную власть в Германии, включая всю власть, которой располагают германское правительство, верховное командование и любое областное, муниципальное или местное правительство, или власть. Взятие на себя такой власти, прав и полномочий для вышеуказанных целей не является аннексией Германии.

Правительства Союза Советских Социалистических Республик, Соединенного Королевства и Соединенных Штатов Америки и Временное Правительство Французской Республики впоследствии установят границы Германии или любой части ее, а также определят статут Германии или любого района, который в настоящее время является частью германской территории.

В силу верховной власти, прав и полномочий, взятых на себя четырьмя правительствами, представители союзников объявляют следующие требования, возникающие из полного поражения и безоговорочной капитуляции Германии, которые Германия обязана выполнить:

Статья 1.

General de LATTRE de TASSIGNY certifies that this copy is exactly in conformity with the French text of the Declaration signed on June 5, 1945, at BERLIN by the Commanders-in-Chief of the French Republic, the United Kingdom, the United States of America and the Union of Soviet Socialist Republics.

BERLIN, *June 5, 1945.*

F. DE LATTRE

DECLARATION concernant la défaite de l'Allemagne et la prise de l'autorité suprême à l'égard de l'Allemagne par le Gouvernement Provisoire de la République Française et par les Gouvernements des Etats-Unis d'Amérique, du Royaume-Uni et de l'Union des Républiques Socialistes Soviétiques.

Les forces armées allemandes, sur terre, sur mer et dans les airs, sont complètement vaincues et ont capitulé sans conditions, et l'Allemagne, qui porte la responsabilité de la guerre, n'est désormais plus en état de résister à la volonté des Puissances victorieuses. De ce fait la capitulation sans conditions de l'Allemagne a été effectuée et l'Allemagne se trouve soumise à toutes les exigences qui peuvent actuellement ou pourraient dans l'avenir lui être imposées.

Il n'existe pas en Allemagne de Gouvernement central ou d'autorité centrale en état d'assumer la responsabilité du maintien de l'ordre, de l'administration du pays et de l'exécution des exigences des Puissances victorieuses.

Il est dans ces circonstances nécessaires, sans préjuger de toutes décisions ultérieures qui pourraient être prises au sujet de l'Allemagne, de prendre les dispositions relatives à la cessation immédiate des hostilités par les forces armées allemandes, au maintien de l'ordre en Allemagne et à l'administration du pays, et de proclamer les premières exigences auxquelles l'Allemagne aura l'obligation de se conformer.

Les Représentants des Commandements suprêmes de la République Française, des Etats-Unis d'Amérique, du Royaume-Uni et de l'Union des Républiques Socialistes Soviétiques, dénomés ci-après les "Représentants Alliés", agissant en vertu des pouvoirs qui leur sont conférés par leurs Gouvernements respectifs et dans l'intérêt des Nations Unies, font, en conséquence, la déclaration suivante:—

Le Gouvernement Provisoire de la République Française, et les Gouvernements des Etats-Unis d'Amérique, du Royaume-Uni et de l'Union des Républiques Socialistes Soviétiques assument par les présentes l'autorité suprême à l'égard de l'Allemagne, y compris tous les pouvoirs détenus par le Gouvernement allemand, par le Haut-Commandement allemand et par tout Gouvernement ou autorité d'Etat, municipal ou local. La prise de cette autorité et de ces pouvoirs, pour les buts ci-dessus exposés, n'a pas pour effet d'annexer l'Allemagne.

Le Gouvernement Provisoire de la République Française, et les Gouvernements des Etats-Unis d'Amérique, du Royaume-Uni et de l'Union des Républiques Socialistes Soviétiques, détermineront ultérieurement les frontières de l'Allemagne, en tout ou en partie, et le statut de l'Allemagne ou de toute région faisant actuellement partie du territoire allemand.

En vertu de l'autorité suprême et des pouvoirs ainsi assumés par les quatre Gouvernements, les Représentants Alliés annoncent les exigences suivantes auxquelles, à la suite de sa défaite complète et de sa capitulation sans conditions, l'Allemagne aura l'obligation de se conformer : —

ARTICLE 1.

J'ai l'honneur d'accuser réception à Votre Excellence de Sa note du 28 Janvier 1946, et de lui faire savoir que le Gouvernement Français est disposé à conclure un accord pour la vente du caoutchouc naturel, en provenance des territoires français d'Extrême-Orient, qui sera alloué aux Etats-Unis par le "Combined Raw Materials Board" ou l'organisme qui lui succèdera, aux conditions suivantes:

Le Gouvernement Français vendra à la "Rubber Development Corporation", organisme américain qui a été désigné aux fins de négocier et d'effectuer l'achat de tout caoutchouc naturel alloué aux Etats-Unis d'Amérique par le "Combined Raw Materials Board" ou l'organisme qui lui succèdera, tout le caoutchouc naturel qui a été ou sera alloué aux Etats-Unis, en provenance des territoires français d'Extrême-Orient, au prix de 20¼ cts (en monnaie des Etats-Unis) la livre, pour les qualités dites "Standard top grades", avec des différences appropriées pour les autres types et qualités, livré f.o.b. dans les ports d'Extrême-Orient, sur vaisseaux hauturiers, à destination d'un port des Etats-Unis. Agreement between the United States of America and the Union of Soviet Socialist Republics respecting radio teletype communication channels. Signed at Moscow May 24, 1946; effective May 24, 1946.

AGREEMENT ON THE ORGANIZATION OF COMMERCIAL RADIO TELETYPE COMMUNICATION CHANNELS BETWEEN THE UNITED STATES OF AMERICA AND THE UNION OF SOVIET SOCIALIST REPUBLICS

The Government of the United States of America and the Government of the Union of Soviet Socialist Republics wishing to establish special channels of commercial radio teletypewriter communication between both countries prior to the curtailment of the present military radio teletypewriter channels have decided to conclude the following agreement and have appointed for that purpose their respective authorized representatives as follows:

For the Government of the United States of America,

Walter Bedell Smith
Ambassador Extraordinary and Plenipotentiary.

For the Government of the Union of Soviet Socialist Republics,

Alexander Dmitrievich Fortushenko
Deputy Minister for Postal and Electrical Communications.

These representatives, having exchanged their credentials, which were found to be in good order, have agreed as follows on behalf of their respective governments:

ARTICLE I

Commercial radio multichannel or multiplex teletypewriter communication systems between the Union of Soviet Socialist Republics and the United States of America will be established and placed into operation on a commercial basis as soon as possible in lieu of the existing military radio teletypewriter channels.

Terminals.

The terminals of the commercial radio teletypewriter channels in the Union of Soviet Socialist Republics will be in Moscow; the terminals of the channels in the United States of America will be in New York.

Leased tributary lines.

The contracting parties will provide for such leased tributary lines to such Soviet offices in the United States of America as may be desired by the Government of the Union of Soviet Socialist Republics and for such leased tributary lines to such United States Government offices in the Union of Soviet Socialist Republics as may be desired by the Government of the United States of America.

The channels will be through a radio relay station at Tangier.

With the aim of not interrupting the present radio teletypewriter circuits between the Union of Soviet Socialist Republics and the United States of America, it is agreed that transmission of traffic over these channels will continue on a military basis pending completion of the Tangier radio relay station.

These communications will be used for the transmission of Public Correspondence between the United States of America and the Union of Soviet Socialist Republics with priority of service reserved for the transmission of Governmental telegrams of the Union of Soviet Socialist Republics and of the United States of America.

Governmental telegrams of the Union of Soviet Socialist Republics and of the United States of America will normally be handled on a tape-relay basis. This communication service will further provide for the establishment of radio teletypewriter conference service between the Governmental agencies of the Government of Soviet Socialist Republics when desired. This communication service will also provide this conference service between the Governmental agencies of the Government of the United States of America when desired.

No restrictions or limitations will be imposed by either Government as to language or codes and ciphers to be used by either Government in the official transaction of their respective business, i.e. radio teletypewriter service operating on an automatic or tape-relay basis permits the use of the Russian alphabet and the use of non-uniform codes and ciphers (mixed letters and figures plus other teletypewriter characters and functions).

The operation of the circuits between Tangier and Moscow, U.S.S.R. will be operated at Tangier by the United States commercial communication companies, at Moscow by the Ministry of Postal and Electrical Communications.

The operation of the circuits between the United States and the relay station or stations in Tangier will be by the interested United States commercial communication companies—RCA, Mackay Radio and Press Wireless, Incorporated organizations.

ARTICLE II

The Government of the United States of America agrees:

A. To assist the Government of the Union of Soviet Socialist Republics in purchasing through the United States Foreign Liquidation Commission sufficient equipment to operate initially two each full-duplex single-channel radio teletypewriter channels between Moscow and each participating United States commercial company in Tangier.

ment.

D. That assistance will further be given to obtain such additional equipment as may be required for the Moscow terminal of these channels upon presentation of evidence of the necessity therefor to the Government of the United States through the American Embassy in Moscow.

Правительство Соединенных Штатов Америки и
Правительство Союза Советских Социалистических Рес-
публик, выражая желание организовать специаль-
ные каналы коммерческой радиотелеграфной связи, меж-
ду обеими странами, до прекращения действия существе-
ствующих военных радиотелеграфных каналов, согласились
заключить настоящее Соглашение и назначили для этой
цели Уполномоченных:

Правительство Соединенных Штатов Америки

Вальтера Бедела СМИТ,

Чрезвычайного и Полномочного Посла.

Правительство Союза Советских Социалисти-
ческих Республик

Александра Дмитриевича ФОРТУШЕНКО,

Заместителя Министра Связи.

По взаимном предъявлении своих полномочий,
признанных составленными в надлежащей форме и за-
конном порядке, Уполномоченные от имени своих соот-
ветствующих Правительств согласились о нижеследую-
щем.

СТАТЬЯ 1.

Между Союзом Советских Социалистических Рес-
публик и Соединенными Штатами Америки взаимен существ-

вующих военных радио-телеграфных каналов будут построены и введены в эксплуатацию, в возможно короткий срок, на коммерческой основе многоканальные или многократные системы радиотелеграфной связи.

Оконечные станции коммерческих радиотелеграфных каналов в Союзе Советских Социалистических Республик будут находиться в Москве, оконечные станции каналов в Соединенных Штатах Америки будут находиться в Нью-Йорке.

Договаривающиеся стороны предусматривают возможность арендования таких абонентских линий в те Советские учреждения на территории Соединенных Штатов Америки, какие потребуются правительству Союза Советских Социалистических Республик и таких абонентских линий в те правительственные учреждения Соединенных Штатов Америки, на территории Союза Советских Социалистических Республик, какие потребуются Правительству Соединенных Штатов Америки.

Работа каналов будет осуществляться через радиоретрансляционный пункт в Танжере.

С тем, чтобы не прерывать действия существующих радиотелеграфных каналов связи между Союзом Советских Социалистических Республик и Соединенными Штатами Америки стороны согласились о том, что передача телеграмм по этим каналам будет продолжаться на основе военного обслуживания до окончания строительства радиоретрансляционного пункта в Танжере.

Организуемые связи будут использоваться для передачи всей телеграфной корреспонденции между Соединенными Штатами Америки и Союзом Советских Социалистических Республик, причем приоритет будет сохраняться за правительственными телеграммами Союза Советских Социалистических Республик и Соединенных

Штатов Америки.

Правительственные телеграммы Союза Советских Социалистических Республик и Соединенных Штатов Америки обычно будут обрабатываться при помощи переприема. Кроме того, указанная система связи позволяет организовать при необходимости прямые провода для связи между правительственными учреждениями Союза Советских Социалистических Республик. Таким образом указанная возможность будет предусмотрена для правительственных учреждений Соединенных Штатов Америки.

Каждым из Правительств не будет применяться никаких ограничений в отношении языка, кодов или шифров, используемых другим Правительством при передаче их официальных документов, имея в виду, что радиотелетайп, работающий по принципу автоматического или точечного переприема, позволяет применять русский алфавит и неоднобразные коды и шифры (смешанный текст из букв и цифр плюс другие знаки и комбинации аппарата телетайп).

Эксплуатация связей между Танжером и Москвой - Союз Советских Социалистических Республик, производится в Танжере американскими коммерческими фирмами, а в Москве - Министерством Связи Союза Советских Социалистических Республик.

Эксплуатация связей между Соединенными Штатами Америки и ретрансляционными пунктами в Танжере будет производиться американскими фирмами RCA, Макей-Радио и Пресс-Уайрлесс.

СТАТЬЯ II.

Правительство Соединенных Штатов Америки выражает согласие:

А. Помочь Правительству Союза Советских Социалистических Республик приобрести через Иностранную Ликвидационную Комиссию Соединенных Штатов Америки достаточное количество оборудования, позволяющее, на первое время, обеспечить работу по две дуплексных одноканальных радиотелеграфных связи между Москвой и каждой из участвующих коммерческих фирм в Танжере.

Б. На использование в Москве для вновь организуемой коммерческой службы оборудования существующих военных радиотелеграфных каналов, количество которого будет увеличено в возможно короткий срок в соответствии с условиями статьи II-А.

В. На замену или усиление этих дуплексных одноканальных систем многоканальными или многократными системами по взаимной договоренности между Министерством Связи Союза Советских Социалистических Республик и каждой из участвующих фирм.

Г. Оказать содействие в получении такого дополнительного оборудования, какое может потребоваться для Московской оконечной станции указанных каналов по представлении обоснованной заявки об этом Американскому правительству через Американское Посольство в Москве.

Д. После организации первоначальных каналов коммерческой радиотелеграфной связи, помочь Правительству Союза Советских Социалистических Республик в увеличении пропускной способности этих каналов в

соответствии с нагрузкой путем увеличения скоростей работы и внедрения всяких новых технических разработок, доступных приобретению коммерческим путем.

Б. Разрешить участвующим компаниям немедленно подготовить также коммерческие соглашения в отношении тарифов и т.п., какие могут потребоваться.

СТАТЬЯ III.

Правительство Союза Советских Социалистических Республик выражает согласие:

А. Приобрести через Иностранную Лицензионную Комиссию Соединенных Штатов Америки такое дополнительное оборудование одноканальных радиотелетайпных систем, какое может потребоваться для выполнения условий ст. II.

Б. Приобрести через коммерческие компании, которые производят многоканальные или многократные системы, такое оборудование многоканальных или многократных систем, какое может потребоваться для выполнения условий ст. II.

В. Разрешить Министерству Связи Союза Советских Социалистических Республик немедленно провести необходимые переговоры с участвующими американскими коммерческими фирмами в отношении тарифов и правил эксплуатации.

СТАТЬЯ IV.

Правительство Соединенных Штатов Америки и Правительство Союза Советских Социалистических Республик соглашаются:

А. После окончания строительства первых трех одноканальных ретрансляционных установок в Танжере немедленно организовать, на коммерческой основе, радиотелетайпную службу через радиоретрансляционный пункт или пункты в Танжере, для чего в Москве будет использовано оборудование существующих военных радиотелетайпных каналов.

Перевод на коммерческую службу должен быть произведен без потерь рабочего времени связи.

Б. Правила коммерческой и технической эксплуатации данной системы связи будут определены до первоначального ввода ее в действие путем взаимной договоренности между Министерством Связи Союза Советских Социалистических Республик и участвующими американскими коммерческими фирмами и утверждены в соответствии с законами Союза Советских Социалистических Республик и Соединенных Штатов Америки.

СТАТЬЯ V.

Настоящее соглашение вступит в силу немедленно после его подписания от имени Договаривающихся Сторон и будет находиться в действии до его расторжения, произведенного по желанию одной из Сторон, которая об этом посылает письменное уведомление другой Стороне за шесть месяцев вперед.

Соглашение составлено в 2-х экземплярах, каждый из них на английском и русском языках, причем оба текста считаются имеющими одинаковую силу.

3. The Commonwealth of Australia, in discharge of its pre-existing commitment to compensate the Government of the United States for the postwar value of machine tools transferred during the war to the Commonwealth of Australia by the Government of the United States under lend-lease, and in consideration of the postwar value of other

capital equipment transferred during the war under lend-lease, including the non-combat aircraft and spare parts therefor described in the Annex to this Agreement, and the transfer of the surplus property described in paragraph 8 (a) hereof, and in order to further educational and cultural relationships between the two countries by means of scholarships or otherwise in a manner mutually agreeable, will pay to the Government of the United States the sum of \$27,000,000 as follows:

(a) \$20,000,000 in United States dollars within ninety days from the effective date of this Agreement; and

(b) \$7,000,000 by any of the following methods, or any combination thereof designated by the Government of the United States (employing the rate of exchange between United States dollars and Australian pounds now in effect):

Title to real property.

(i) By delivery to the Government of the United States by the Commonwealth of Australia of title to real property and improvements of real property in Australia, as selected and determined by agreement between the two Governments, aggregating in value not more than \$2,000,000;

Fund for educational and cultural programs.

(ii) by establishment of a fund in Australian pounds for expenditure by the Government of the United States, in accordance with agreements to be reached between the two Governments for carrying out educational and cultural programs of benefit to the two countries; or

Residue.

(iii) in the event that, after three years from the date of this Agreement, the two Governments should mutually agree that the purposes described in subsections (i) and (ii) above cannot be carried out to the full extent now contemplated, any residue will be paid by the Commonwealth of Australia in United States dollars.

Lend-lease articles.

4. (a) The Commonwealth of Australia hereby acquires, and shall be deemed to have acquired as of September 2, 1945, full title, without qualification as to disposition or use, to all lend-lease articles in the possession of the Commonwealth of Australia, its agents or distributees, on September 2, 1945, and not subsequently returned to the Government of the United States, other than lend-lease articles on that date in the possession of the armed forces of the Commonwealth of Australia, but including the non-combat aircraft and spares described in the Annex to this Agreement.

Post, p. 1712.

Transfer of lend-lease articles to Australia.

(b) The Government of the United States agrees to complete as early as possible the transfer (which term, except as hereinafter provided, shall include delivery aboard ocean vessel in a United States port) of the articles selected by the Commonwealth of Australia which were covered by lend-lease requisitions filed by the Commonwealth of Australia with the United States Foreign Economic Administration and which were under contract, or were completed, but had not been transferred, on September 2, 1945, and such other articles

and services as have been designated by agreement between the two Governments for inclusion in the lend-lease pipeline of the Commonwealth of Australia. Such transfer will be made in the quantities and according to the specifications and other conditions, except as to time of delivery, set forth in the covering requisitions, to the extent that such articles are or will be available to the Government of the United States for transfer to the Commonwealth of Australia. Title to the articles covered by this paragraph shall pass to the Commonwealth of Australia immediately upon loading of the articles on board ocean vessel in a United States port, provided that risk of loss not recoverable from the supplier, carrier or other third party, shall be assumed by the Commonwealth of Australia upon shipment from the factory or other premises of the supplier. Title to any articles that shall not have been loaded on board ocean vessel in a United States port prior to midnight on July 31, 1946, or two months after receipt by the Commonwealth of Australia of notice of availability, whichever is later, shall be deemed to have been transferred as of such later date, and thereafter the Commonwealth of Australia shall be responsible for storing and moving such articles within the United States and for delivering such articles aboard ocean vessel in a United States port. The Government of the United States will pay the cost of ocean transportation to Australia on United States flag vessels only of such of the articles covered by this paragraph as were loaded aboard ocean vessel berthing in United States ports prior to January 1, 1946.

Cost of ocean transportation.

5. The Government of the United States hereby acquires, and shall be deemed to have acquired as of September 2, 1945, full title, without qualification as to disposition or use (a) to all reciprocal aid articles transferred to the Government of the United States and not subsequently returned to the Commonwealth of Australia or lost, destroyed or consumed, other than reciprocal aid articles which on that date were in the possession of the armed forces of the Government of the United States, and (b) to all reciprocal aid articles transferred to the Government of the United States between September 2, 1945 and December 31, 1945, both dates inclusive, and not subsequently returned to the Commonwealth of Australia.

Reciprocal aid articles.

6. (a) The Government of the United States, with respect to lend-lease articles (other than those described in the Annex to this Agreement), and the Commonwealth of Australia, with respect to reciprocal aid articles, reserve a right to recapture, respectively, at any time after September 1, 1945, any such articles which, as of the date upon which notice requesting return is communicated to the other Government, are in the possession of the armed forces of the other Government, although neither Government intends to exercise generally this right of recapture, except that the Commonwealth of Australia will return to the Government of the United States all vessels of the United States Navy transferred under lend-lease and in the possession of the Commonwealth of Australia on September 2, 1945. In respect of cases where either Government wishes from

Post, p. 1712.

time to time to exercise this right of recapture, each Government will give reasonable notice of its intention and will provide full opportunity to the other Government for discussion of that Government's need for the articles in question, without limiting the right of recapture.

Diversion of lend-lease articles.

(b) The Commonwealth of Australia may, without restriction, divert any lend-lease articles now held by the armed forces of the Commonwealth of Australia to any uses in or outside Australia, but will not transfer, without the prior consent of the Government of the United States and without payment of any proceeds to the Government of the United States, any lend-lease articles held by the armed forces of the Commonwealth of Australia in the categories of arms, ammunition and other lethal weapons, to any third country.

Diversion of reciprocal aid articles.

(c) The Government of the United States may, without restriction, divert any reciprocal aid articles now held by the armed forces of the Government of the United States to any uses in or outside the United States, but will not transfer, without the prior consent of the Commonwealth of Australia and without payment of any proceeds to the Commonwealth of Australia, any reciprocal aid articles held by the armed forces of the Government of the United States in the categories of arms, ammunition and other lethal weapons, to any third country.

Settlement and payment of claims.

7. (a) The Commonwealth of Australia hereby assumes responsibility for the settlement and payment of all claims against the Government of the United States or members of the United States armed forces, arising from acts or omissions occurring before June 30, 1946, in the course of military duties of members of the armed forces of the Government of the United States in Australia.

Financial claims.

(b) Financial claims between the two Governments where the liability for payment has heretofore been acknowledged, and the method of computation mutually agreed, are not covered by this settlement as they will be settled in accordance with such arrangements; the following are examples of such claims, which will be dealt with in accordance with procedures already established or to be established after appropriate discussion:

- (i) claims arising out of cash reimbursement lend-lease requisitions filed by the Commonwealth of Australia;
- (ii) claims covered by the "Memorandum Concerning Disposition of and Payment for Cargoes Carried on Twelve Dutch Ships Diverted to Australia"^[1] and "Memorandum Concerning Disposition of and Payment for Cargoes Carried on Certain United States Ships Diverted to Australia",^[1] both dated December 20, 1944;

59 Stat. 1499.

¹ [Not printed.]

- (iv) the obligation heretofore assumed by the Commonwealth of Australia in connection with silver transferred by the Government of the United States under lend-lease.

(c) In consideration of the mutual undertakings described in this Agreement, and with the objective of arriving at as comprehensive a settlement as possible and of obviating protracted negotiations between the two Governments, all other financial claims whatsoever of one Government against the other which arose out of lend-lease or reciprocal aid, or otherwise arose on or After September 3, 1939 and prior to September 2, 1945, out of or incidental to the conduct of World War II, and which are not otherwise dealt with in this Agreement, are hereby waived, and neither Government will hereafter raise or pursue any such claims against the other.

Waiver of certain claims.

8. (a) The Government of the United States, in partial consideration of the payments to be made by the Commonwealth of Australia pursuant to section 3 of this Agreement, agrees to transfer property, selected by mutual agreement, located in or outside Australia, heretofore or hereafter declared to the Office of the Foreign Liquidation Commissioner, United States Department of State, as surplus to the requirements of any department or agency of the Government of the United States, of a total value aggregating \$6,500,000 computed at prices to be mutually agreed. There shall be included in the property covered by this paragraph

Transfer of surplus property.

Ante, p. 1707.

- (i) all property so declared as surplus included in sales or agreements to sell heretofore entered into between the two Governments; and

and the contract value of the property included in such sales or agreements to sell shall be taken into consideration in computing the total value of surplus property transferred hereunder. This Agreement shall govern in any case in which the terms hereof are in conflict with the terms of any of the agreements described in paragraphs (i) and (ii) above.

(b) The amounts paid and to be paid to the Government of the United States for the property included in the sales and agreements to sell described in paragraphs 8 (a) (i) and 8 (a) (ii) of this Agreement shall, when paid, be treated as payments by the Commonwealth of Australia in partial discharge of the obligation of the Commonwealth of Australia assumed in section 3 of this Agreement to make payments to the Government of the United States.

Amounts to be paid for property.

Ante, p. 1707.

(c) The Commonwealth of Australia agrees that it will not cause, and will use its best endeavors to prevent, the exportation to the United States, its territories or possessions, of any of the property covered by paragraph (a) above in the same, or substantially the same form,

Exportation of surplus property to U. S.

if such property was originally produced in the United States and is readily identifiable as such, and agrees that it will not resell any of such property to any person, firm or government, for the purpose of export to the United States, its territories or possessions, contrary to any statute or regulation of the Government of the United States as notified by the Government of the United States.

Ante, pp. 1708, 1709, 1711.

9. Both Governments, when they dispose of articles acquired pursuant to sections 4, 5 and 8 of this Agreement, will use their best endeavors to avoid discrimination against the legitimate interests of the manufacturers or producers of such articles, or their agents or distributors, in each country.

Effective date.

10. This Agreement shall take effect on the date of signature.

Signed in duplicate, at Washington for the Government of the United States and at New York for the Commonwealth of Australia, this seventh day of June 1946.

Santiago, 23 de Julio de 1946.

SEÑOR EMBAJADOR:

El 30 de Julio en curso, vence el Acuerdo Adicional de Comercio a que se llegó por cambio de Notas efectuado con igual fecha en el año pasado, por el cual se amplió el Convenio Provisional suscrito entre nuestros Gobiernos el 6 de Enero de 1938.—

A fin de evitar la falta de un instrumento que regule las relaciones comerciales entre Chile y los Estados Unidos de América, y mientras se llega a un Convenio Comercial más amplio, mi Gobierno está dispuesto a continuar extendiendo a los productos norteamericanos que se especifican en las Listas anexas a mi Nota N° 4024, de 30 de Julio del año último, el mismo tratamiento que en ella se indica.—

La presente Nota y la respuesta de Vuestra Excelencia expresando la aceptación de Vuestro Gobierno sobre la materia, constituirán un nuevo Acuerdo entre ambos países, entendiéndose que el plazo de su validez será de un año a contar desde el 31 de Julio en curso, a menos que sea denunciado por cualquiera de las Altas Partes Contratantes por una notificación escrita dada con treinta días de anticipación, o que sea reemplazado por un Acuerdo Comercial más amplio.—

El Gobierno de Chile se vale de esta oportunidad para reiterar al de Vuestra Excelencia sus deseos de activar, en lo posible, las negociaciones actuales para llegar a la pronta concertación de un Tratado de Amistad, Comercio y Navegación más amplio y completo, que sirva en forma más eficiente al interés recíproco de ambos países.—

Aprovecho esta oportunidad para renovar a Vuestra Excelencia las seguridades de mi más alta y distinguida consideración.—

DEPARTMENT OF COMMERCIAL POLICY

No. 1055/7154

Santiago, July 23, 1946

MR. AMBASSADOR:

On the 30th of the current month, there will expire the Supplementary Trade Agreement effected last year by an exchange of notes on the same date, whereby the provisional agreement signed by our Governments on January 6, 1938 was amplified.

Post, p. 1715.

52 Stat. 1479.

In order to avoid the lack of an instrument regulating the commercial relations between Chile and the United States of America, and pending conclusion of a more ample trade agreement, my Government is prepared to continue extending to the American products specified in the lists attached to my note no. 4024 of July 30 of last year, the same treatment as indicated therein.

Post, p. 1715.

This note and Your Excellency's reply stating your Government's acceptance of its substance, will constitute a new agreement between our two countries, it being understood that the duration of its validity will be one year beginning with the 31st of the current month, unless it is denounced by either of the High Contracting Parties by written notice given thirty days in advance, or is replaced by a broader trade agreement.

The Chilean Government avails itself of this opportunity to repeat its desire to hasten the present negotiations in so far as possible, in order that agreement may be reached soon on a broader and more complete treaty of friendship, commerce and navigation which will serve more effectively the mutual interests of both countries.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

UNITED STATES OF AMERICA

No. 2978

Santiago, July 30, 1946

EXCELLENCY:

I have the honor to acknowledge the receipt of Your Excellency's note of July 23, 1946 containing a proposal by the Government of the Republic of Chile to concede to the commerce of the United States of America, without compensation, reductions in the Chilean import duties on certain products as set forth in the enclosure with Your

Excellency's Note No. 4024 of July 30, 1945, such reductions to continue in force for a further period of one year commencing on July 31, 1946, unless the present agreement is superseded in that time by a more comprehensive commercial agreement, it being understood, however, that the present agreement may be terminated by either Government upon the giving of thirty days' advance notice in writing.

Infra.

I have the honor to assure Your Excellency that the Government of the United States of America greatly appreciates the interest of the Chilean Government in adopting measures to expand and to liberalize trade in accordance with the economic objectives of the Atlantic Charter and of the Inter-American Conference on Problems of War and Peace, [1] and is pleased to accept the proposal of the Government of Chile.

55 Stat. 1603.

I have noted with satisfaction the desire expressed by Your Excellency's Government to expedite, in so far as may be possible, the present negotiations for a Treaty of Friendship, Commerce and Navigation and I take this opportunity to inform Your Excellency that my Government is likewise desirous of proceeding with these negotiations.

Accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

SANTIAGO, 30 de Julio de 1945.

SEÑOR EMBAJADOR:

El Gobierno de la República de Chile consecuente con los principios sustentados por las Naciones Unidas y de acuerdo con los objetivos económicos de la Carta del Atlántico y especialmente de la Conferencia Inter-Americana de México sobre los Problemas de la Guerra y de la Paz, respecto de la reducción de los derechos aduaneros, desea adoptar medidas tendientes a intensificar el intercambio comercial con los Estados Unidos de América y demás Naciones Aliadas dentro de una política de concesiones mutuas y de estrecha cooperación.

En vista de que la concertación de un Acuerdo Comercial más comprensivo con los Estados Unidos de América requerirá aún cierto

tiempo, atendidos los estudios y procedimientos que se deben considerar, el Gobierno de Chile estima que puede adelantarse en el cumplimiento de los objetivos mencionados por medio del presente cambio de notas complementario que, ampliando el Convenio Provisional de Comercio suscrito entre ambos países el 6 de Enero de 1938, contempla en mejor forma los propósitos enunciados en los Acuerdos Internacionales aludidos.

El Gobierno de Chile está dispuesto, desde luego, a conceder franquicias aduaneras a los productos norteamericanos enumerados en la lista anexa, reducciones éstas que, al igual que el Convenio Provisional de Comercio de 1938, se mantendrán vigentes hasta la celebración de un Acuerdo Comercial más comprensivo con los Estados Unidos de América y que serán de considerable y positivo beneficio para los productos de ese país que gozarán así de apreciables rebajas de derechos en numerosas partidas que son de interés en su comercio con Chile.

El Gobierno de mi país ha decidido dar el paso indicado, sin estipular compensación, en el convencimiento de que así corresponde al espíritu de franca y leal cooperación que exteriorizó la Delegación de los Estados Unidos de América durante la Conferencia de Mexico.

La presente Nota y la contestación de Vuestra Excelencia expresando la conformidad de su Gobierno con esta proposición del Gobierno de Chile, constituirá un Acuerdo entre ambos países sobre esta materia.

Este Acuerdo regirá por el plazo de un año a menos que sea sustituido durante ese período de tiempo por un Acuerdo Comercial más comprensivo, pudiendo ser denunciado por cualquiera de los dos países mediante una notificación de 30 días de anticipación.

El Gobierno de Chile se vale de esta ocasión para manifestar su deseo de iniciar negociaciones con el Gobierno de Vuestra Excelencia para concertar un Tratado de Amistad, Comercio y Navegación.

Aprovecho esta oportunidad para renovar a Vuestra Excelencia las seguridades de mi más alta y distinguida consideración.

REPUBLIC OF CHILE
MINISTRY OF FOREIGN AFFAIRS
DEPARTMENT OF COMMERCIAL POLICY

C 4-121.413 No. 004024

SANTIAGO, *July 30, 1945.*

MR. AMBASSADOR:

The Government of the Republic of Chile, following the principles upheld by the United Nations and in accordance with the economic objectives of the Atlantic Charter and especially of the Inter-American Conference of Mexico City on Problems of War and Peace [1] with respect to the reduction of customs duties, wishes to adopt measures to intensify commercial exchange with the United States of America and other Allied Nations within a policy of mutual concessions and of close cooperation.

55 Stat. 1603.

In view of the fact that the conclusion of a more comprehensive Commercial Agreement with the United States of America will still require a certain amount of time, in consequence of the studies and procedures which must be considered, the Government of Chile believes that it may make progress toward the fulfilment of the above-mentioned objectives by means of the present supplementary exchange of notes which, amplifying the Provisional Commercial Agreement concluded by the two countries on January 6, 1938, contemplates better the proposals expressed in the referred-to International Agreements.

52 Stat. 1479.

The Government of Chile is disposed, immediately, to grant customs concessions to the United States products enumerated in the attached list, these being reductions which, like the Provisional Commercial Agreement of 1938, will remain in force until the conclusion of a more comprehensive Commercial Agreement with the United States of America and which will be of considerable and positive benefit with respect to the products of that country which will thus enjoy appreciable reductions in customs duties as regards numerous items which are of interest in its trade with Chile.

Post, p. 1724.

52 Stat. 1479.

The Government of my country has decided to take the indicated step, without stipulating compensation, in the conviction that it will thus respond to the spirit of frank and loyal cooperation displayed by the Delegation of the United States of America during the Mexico City Conference.

¹ [Report of the Delegation of the United States of America to the Inter-American Conference on Problems of War and Peace, Mexico City, Mexico, February 21-March 8, 1945, Department of State publication 2497.]

The present Note and Your Excellency's reply expressing the conformity of your Government with this proposal of the Government of Chile will constitute an Agreement between the two countries on this matter.

This Agreement will be effective for the period of one year unless it is replaced during that period of time by a more comprehensive Commercial Agreement, and it may be denounced by either of the two countries by giving 30 days' advance notice.

Duration of Agree-
ment; denunciation.

The Government of Chile takes this occasion to express its desire to initiate negotiations with Your Excellency's Government to conclude a Treaty of Friendship, Commerce, and Navigation.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

LUIS ALAMOS B

His Excellency CLAUDE G. BOWERS,
*Ambassador Extraordinary and Plenipotentiary of the
United States of America*
City. —

Los fondos pagaderos por la Fundación según este acuerdo, o depositados por las partes contratantes en la cuenta bancaria del Servicio, seguirán disponibles para dicho programa cooperativo de educación durante la vigencia de este acuerdo, sin tomar en consideración períodos anuales o años fiscales.

“En caso de que a la expiración de cada período de 12 meses de este acuerdo, y también seis meses antes de su expiración final, la Fundación crea que los fondos segregados para el pago de sueldos y otros gastos pagaderos directamente a los miembros del Cuerpo de Especialistas, en conformidad con el artículo 5 de este Acuerdo, sean más de lo necesario para este fin, la Fundación entonces avisará a la República del sobrante que, por consiguiente, podrá transferir para invertirse en proyectos, y esta cantidad adicional se depositará en la cuenta bancaria del Servicio o se dispondrá de otra manera, de conformidad con este acuerdo.

“El Secretario y el Representante Especial de la Fundación determinarán por mutuo acuerdo la disposición de cualesquiera fondos no comprometidos y de cualesquiera otros bienes que queden bajo control del Servicio, al vencimiento de este acuerdo.

“11. El Servicio disfrutará de todos los derechos y privilegios de que gozan las dependencias y entidades gubernamentales y oficiales de la República. Tales derechos incluirán, por ejemplo, franquicia postal, telegráfica y telefónica, tarifas gubernamentales especiales en compañías de transporte, y además exención e inmunidad de toda clase de impuestos (timbres, sobre la renta, etc.); así como de derechos consulares e impuestos aduanales sobre importaciones destinadas para el uso del Servicio en el Programa Cooperativo de Educación.

La Fundación gozará de los mismos derechos y exenciones con respecto a sus actos y bienes relacionados con el Programa Cooperativo.

"12. Todo material, equipo y suministros comprados con fondos del programa, pasarán a ser propiedad de la República y serán dedicados al Programa.

"13. Cualquier derecho, facultad o deber conferido por este acuerdo al Secretario, al Representante Especial de la Fundación o al Director del Servicio, podrá ser delegado, por escrito, a representantes, siempre y cuando tales representantes sean aceptados por las otras partes. No obstante el nombramiento de tales representantes, el Secretario y el Representante Especial de la Fundación podrán tratar cualquier asunto directamente entre ellos y resolverlo.

"14. Los miembros del personal de la Fundación, que son ciudadanos de los Estados Unidos de América, dedicados a la realización del referido programa cooperativo de educación, estarán exentos, en la República Dominicana, de todos los impuestos y de todas las cargas para fines de seguridad social, con respecto a aquellos ingresos sobre los cuales estuvieren obligados a pagar impuestos sobre la renta o contribuciones para fines de seguridad social al gobierno de los Estados Unidos de América. Dichos empleados quedarán igualmente exentos del pago de derechos de aduana o de otra índole sobre sus efectos personales y sobre el equipo y los suministros que fueren importados o exportados para su propio uso.

"15. Este acuerdo puede ser reformado posteriormente si las partes lo creyeran necesario y tales reformas deberán ser efectuadas por escrito y firmadas por los representantes de la República y de la Fundación.

"16. El Poder Ejecutivo de la República dará los pasos necesarios para obtener las leyes, los decretos, órdenes o resoluciones que sean necesarios para cumplir las estipulaciones de este acuerdo.

"17. Este acuerdo estará en vigor desde el canje de notas entre el Secretario de Estado de Relaciones Exteriores de la República Dominicana y el Embajador de los Estados Unidos de América hasta el 30 de junio de 1948, y podrá ser prorrogado por mutuo acuerdo para nuevos períodos. Este acuerdo podrá darse por terminado el 31 de octubre de 1946, o el 31 de octubre de 1947, mediante aviso por escrito que comunique una de las dos partes a la otra con no menos de un año de anticipación a una de las dos fechas mencionadas.

"EN FE DE LO CUAL, firmamos el presente Acuerdo en dos originales en idioma español y en idioma inglés, en Ciudad Trujillo el tres de octubre de mil novecientos cuarenta y cinco. La presente nota relativa al convenio anteriormente transcrito y la respuesta de Vuestra Excelencia en igual sentido determinarán la vigencia de dicho acuerdo, de conformidad con su artículo 17.

DOMINICAN REPUBLIC
DEPARTMENT OF STATE
FOR FOREIGN AFFAIRS

24732

CIUDAD TRUJILLO,
DISTRICT OF SANTO DOMINGO,
October 13, 1945.

MR. AMBASSADOR:

I have the honor to inform Your Excellency that, as a result of the conversations held between the Secretary of State for Education and Fine Arts, Mr. Telésforo R. Calderón, representing the Dominican Government, on the one hand and, on the other, the Inter-American Educational Foundation, Inc., a corporation of the Office of Inter-American Affairs and an Agency of the Government of the United States of America, represented by its President, Mr. Kenneth Holland, there was definitively signed in this city on the 3d instant the agreement for a cooperative educational program which, copied literally, reads as follows:

“The Government of the Dominican Republic (hereinafter called the “Republic”), represented by the Secretary of State for Education and Fine Arts (hereinafter called the “Secretary”) and the Inter-American Educational Foundation, Inc., a corporation of the Office of Inter-American Affairs and an Agency of the Government of the United States of America (hereinafter called the “Foundation”), represented by its President, have decided to conclude the following agreement in order to carry out a cooperative educational program to promote Inter-American understanding by bringing about a better interchange of educators, educational ideas and methods between the Dominican Republic and the United States of America, pursuant to Resolution 28 adopted by the First Conference of Ministers and Directors of Education of the American Republics [1] held in Panama in September and October, 1943, and pursuant to Resolution 58 adopted by the Inter-American Conference on Problems of War and Peace, [2] held at Mexico City in February and March 1945.

¹ [Not printed.]

² [Report of the Delegation of the United States of America to the Inter-American Conference on Problems of War and Peace, Mexico City, Mexico, February 21-March 8, 1945, Department of State publication 2497.]

"1. The said cooperative educational program may include:

- a. Furnishing by the Foundation of a small Field Staff of educational specialists requested by the Secretary for service in the Dominican Republic in carrying out the cooperative educational program;
- b. Grants to permit Dominican educators to go to the United States for specialized training, to lecture, to teach and to interchange ideas and experience with United States educators;
- c. Exploration and survey in the Dominican Republic of local needs, and resources for carrying out educational projects in the field of physical education at the primary, secondary, and teacher education levels and in the field of vocational education;
- d. Development, adaptation, and exchange of suitable teaching materials necessary for the programs mentioned in paragraph c);
- e. Local projects needed to implement this program in the Dominican Republic.

Field Staff of specialists.

"2. The Field Staff of specialists shall be under the direction of an official who shall have the title of "Special Representative, Inter-American Educational Foundation, Inc.," and who shall be the representative of the Foundation in connection with the program to be undertaken in accordance with this agreement. The special representative and the specialists shall not be appointed until the candidates have been previously approved by the Secretary of State for Education and Fine Arts.

Special technical service.

"3. There shall be created in the Department of State for Education and Fine Arts, and as a dependency of and attached to the same, a special technical service which shall have the name of "Servicio Cooperativo Interamericano de Educación" (hereinafter called the "Servicio"), which shall act as an intermediary between the Republic and the Foundation and which shall carry out under the authority of the Secretary of State for Education and Fine Arts the Educational Program referred to in this agreement. The Special Representative of the Foundation shall be named as Director of the Servicio.

"4. The activities that shall be carried out by virtue of this agreement and the allocation of funds therefor will be agreed upon in writing by the Secretary and the Special Representative. The decisions will be executed by the Director of the Servicio in accordance with standards approved by the Secretary. The Dominican Educators who will be sent to the United States of America, shall be mutually agreed upon by the Secretary and the Special Representative, who will agree to the conditions of the Scholarships and the terms of their grants.

Salaries and expenses.

"5. The Foundation shall determine and pay the salaries and other expenses payable directly to members of the Field Staff, as well as such other expenses of an administrative nature, as the Foundation

may incur in connection with the inauguration and administration of the program in a total amount not to exceed \$37,500, U. S. C., which it will retain in the United States and shall in addition deposit in a Bank of the Dominican Republic mutually agreed upon by the Secretary and the Special Representative of the Foundation, to the account of the Servicio an amount not to exceed \$37,500, U. S. C.

“The Republic shall deposit in the same Bank and to the account of the Servicio the sum of \$75,000, U. S. C., which deposit by the Republic shall be in addition to the Government’s regular budget for education. The payments of the deposits shall be made by the Republic and the Foundation on the following dates and in the amounts specified:

Deposit by Dominican Republic.

	<i>Foundation</i>	<i>Dominican Republic</i>
November 1, 1945	\$12, 500	\$25, 000

Salaries, travel and administrative expenses to be paid in connection with the personnel from the United States	\$37, 500	
Total	\$75, 000	\$75, 000

“The funds deposited by either party for any particular year are not to be drawn against until the funds for the same year are deposited by the other party.

“6. Inasmuch as the program funds will be used entirely for the benefit of the Cooperative Educational Program, the funds introduced into the Dominican Republic by the Foundation for the purpose of the cooperative program shall be exempt from taxes, service charges, investment or deposit requirements, and other currency controls.

Tax exemption, etc.

“7. In view of the fact that many purchases of materials and supplies and other disbursements relating to the execution of the Program, must necessarily be made in the United States of America, the Secretary and the Special Representative of the Foundation may agree to withhold from the payments to be made by the Foundation into the said Servicio Bank account, as provided in the preceding articles of this agreement, an amount deemed necessary to pay for such purchases and disbursements in the United States of America. Said amount shall be considered as if deposited under the terms of this agreement. Any funds so withheld by the Foundation for such purposes and not expended or obligated therefor shall be deposited in the said Servicio bank account at any time upon the mutual agreement of the Secretary and the Special Representative of the Foundation.

Withholding of funds from account.

“8. All contracts necessary to carry out the terms of the projects mutually agreed to as herein provided shall be made in the name of the Servicio and shall be signed by the Secretary and the Director of the Servicio. Personnel to be paid out of the Program funds deposited in the Dominican Republic shall be selected by the Director of the Servicio, subject to the approval of the Secretary. The general

policies, programs, and procedures for the execution of the Cooperative Educational Program and for the disbursement and accounting of funds, for the purchase, use, inventory, control and disposition of property, and any other administrative matters, shall be determined or established by mutual agreement between the Secretary and the Special Representative of the Foundation. No disbursement from the said Servicio bank account may be made without the signed authorization of the Director of the Servicio or his delegate and of the Secretary or his delegate. The books and records of the Servicio relating to the said cooperative educational program shall be open at all times for inspection by representatives of the Republic and of the Foundation, and the Director of the Servicio shall render financial reports to the Republic and to the Foundation at such intervals as may be agreed upon between the Secretary and the Special Representative of the Foundation.

Books and records.

Financial reports.

Cooperation of other agencies.

"9. The Foundation shall use its best efforts to obtain such assistance and cooperation of the Office of Inter-American Affairs and other Agencies, both public and private, in the United States, as may be appropriate for the execution of the said cooperative educational program. The Republic, in addition to its cash contribution as provided herein, shall (a) appoint specialists, in agreement with the Director of the Servicio, to collaborate with the Field Staff of the Foundation; (b) make available office space, furnishings and such other facilities, materials, equipment and supplies as it may conveniently provide for the said program; and (c) lend the general assistance thereto of the other Departments of the Republic.

Availability of funds.

"10. The funds payable by the Foundation under this agreement or paid by the parties hereto into the said Servicio bank account shall continue to be available for the said cooperative educational program during the existence of this agreement, without regard to annual periods or fiscal years.

Ante, p. 1736.

"In the event that upon the expiration of each twelve month period of this agreement, and again six months before its final expiration, the Foundation deems that the funds which it has set aside for the payment of salaries and other expenses directly payable to members of the Field Staff, as provided in Clause 5 hereof, will be more than is needed for the purpose, the Foundation will thereupon advise the Republic of the surplus which it can accordingly make available for projects and such additional sum shall be paid into the Servicio bank account or be otherwise disposed of pursuant to this agreement.

Unobligated funds.

"The Secretary and the Special Representative of the Foundation shall determine by mutual agreement the disposition of any unobligated funds and of any other property remaining in the control of the Servicio upon the termination of this agreement.

Rights and privileges.

"11. All rights and privileges which are enjoyed by governmental and official divisions or agencies of the Republic shall accrue to the Servicio. Such rights and privileges shall include, for example, free postal, telegraph and telephone service, special government rates on

transportation companies, and also freedom and immunity from all types of taxes, (stamp tax, income tax, etc.) as well as from consular charges and customs duties upon imports for the use of the Servicio in the cooperative educational program. The Foundation shall enjoy the same rights and exemptions with respect to its acts and property relating to the cooperative program.

"12. All materials, equipment, and supplies purchased with program funds shall become and remain the property of the Republic and shall be devoted to the program.

Materials, etc.

"13. Any right, power, or duty conferred by this agreement upon either the Secretary, the Special Representative of the Foundation, or the Director of the Servicio, may be delegated by the recipient thereof to representatives in writing, provided that such representatives are satisfactory to the other parties. Regardless of the naming of said representatives, the Secretary and the Special Representative of the Foundation shall have the right to refer any matter directly each to the other for discussion and decision.

Delegation of right, power, or duty.

"14. The personnel of the Foundation, who are citizens of the United States of America, engaged in carrying out the said cooperative educational program, shall be exempt in the Dominican Republic from all taxes and social security taxes with respect to income on which they are obligated to pay income or social security taxes to the Government of the United States of America. Such employees shall also be exempt from payment of customs or other duties on their personal effects and on equipment and supplies imported or exported for their own use.

Tax exemptions, etc., for U. S. citizens employed by Foundation.

"15. This agreement may be amended from time to time if deemed advisable by the parties hereto, such amendments to be in writing and signed by the representatives of the Republic and the Foundation.

Amendments.

"16. The Executive Power of the Republic will take the necessary steps to obtain legislation, decrees, orders or resolutions necessary to carry out the terms of this agreement.

Legislation, decrees, etc.

"17. This agreement shall be in force upon the completion of an exchange of notes between the Secretary of State for Foreign Affairs and the American Ambassador, until June 30, 1948, and may be extended by mutual agreement for additional periods. This agreement may be terminated on October 31, 1946, or October 31, 1947, by notice in writing to that effect being given by either party to the other not less than one year prior to either of said dates.

Entry into force; extension.

Termination.

"IN WITNESS WHEREOF, the parties hereto sign this agreement, two originals in Spanish and two originals in English, in Ciudad Trujillo on the 3rd day of October 1945. (Signed): For the Dominican Republic, Telésforo R. Calderón, Secretary of State for Education and Fine Arts; (Signed): For the Inter-American Educational Foundation, Mr. Kenneth Holland, President".

The present note relative to the agreement transcribed above and Your Excellency's reply in a like sense will make the said agreement effective in accordance with article 17.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

The Canadian Secretary of State for External Affairs to the American Ambassador

DEPARTMENT OF
EXTERNAL AFFAIRS
CANADA

No. 44

OTTAWA, March 30th, 1946.

EXCELLENCY:

I have the honour to refer to discussions which have recently taken place between representatives of our Governments on the subject of war surpluses and related matters. It is my understanding that these representatives have agreed on the following proposals which are acceptable to the Canadian Government.

2. With regard to defence installations and equipment owned by the United States Government and located in Canada and not yet otherwise disposed of, the two Governments have found it mutually advantageous to expedite and simplify the procedure set forth in the 33rd Recommendation of the Permanent Joint Board on Defence and approved by the two Governments, while continuing to accept its underlying principles. To the extent, therefore, that this agreement is inconsistent with the exchange of notes of November 22nd and December 20th, 1944, it shall be regarded as superseding them.

3. It is agreed that for the sum of \$12,000,000.00 (U. S.) the United States Government will transfer to the Canadian Government the following defence installations, projects and/or supplies and equipment connected therewith owned by the United States Government and located in Canada, the original cost price of which was approximately \$59,000,000.00 (U. S.). In each case the details are listed in appendices to this note, giving approximate original costs, as follows:

- (a) Immovable Property
Original cost - \$27,882,825.00 - Appendix I.
- (b) Movable Property in Northwestern Canada.
Original cost - \$16,481,811.00 - Appendix II.
- (c) Movable Property in Northeastern Canada.
Original cost - \$197,841.00 - Appendix III.
- (d) Movable Property Heretofore Reported to Crown Assets Allocation Committee but not Sold.
Original cost - \$9,994,650.00 - Appendix IV.
- (e) United States Navy Property Lend-leased to the United Kingdom, Declared Surplus and left in Canada.
Original cost - \$4,349,717.00 - Appendix V.

58 Stat. 1665.

Transfer of defense
installations, etc.

Use of property without cost by U. S. forces.

4. It is understood that United States forces now stationed in Canada will continue to use without cost, until their withdrawal from Canada, such immovable and movable property as they may require but which may be transferred to the Canadian Government under this agreement. Ordinary depreciation, damage, wear, tear and loss in connection with any such property will not be a charge against the United States Government.

Right of U. S. to recapture certain property.

5. The Government of the United States will retain the right to recapture certain property necessary for the use of its armed forces in an amount not to exceed 15% of the original cost value of the material listed in Appendix II, page 1, and items 10, 11, 12, 13, 14, 15, 17, 18, 19, 20 and 21 of Appendix II, page 2, totalling approximately \$12,000,000.00. The United States Government will designate in writing to the Canadian Government prior to May 15th, 1946, such articles as it desires to withdraw and appropriate adjustments of the financial settlement covered in paragraph 3 will be arranged.

Post, pp. 1746, 1747.

Property not transferred.

6. Any United States Government owned property located in Canada which is not transferred to the Canadian Government under this agreement, may be withdrawn from Canada by the United States Government or sold in Canada for United States account, either by negotiation between the two Governments or by War Assets Corporation as has been the procedure heretofore.

Disposal of lend lease aircraft, parts, and accessories.

7. Lend Lease aircraft, aircraft parts and accessories returned to United States account from the United Kingdom and located in Canada will be disposed of in the following manner:

- (a) The United States Government will indicate in writing to the Canadian Government prior to 30 May, 1946, that property it desires to recapture. The Canadian Government agrees to assist to the best of its ability the United States Government in the preparation for movement and the movement of such property.
- (b) Combat type aircraft, aircraft parts and accessories, left by the United States Government in Canada, will be transferred to Canadian account for salvage without further reimbursement to the United States Government.
- (c) Non-combat type aircraft, aircraft parts and accessories left by the United States Government in Canada will be transferred to the account of the Canadian Government without reimbursement to the United States Government except that when flyable non-combat type aircraft and Anson aircraft containing Lend Lease components are disposed of for use as flyable aircraft, appropriate reimbursement in respect of the Lend Lease content of such complete aircraft will be made to the United States Government by the Canadian Government. The Canadian Government further agrees

Post, p. 1751.

that flyable non-combat type aircraft other than Ansons will not be disposed of as flyable aircraft outside of Canada without consultation between appropriate agencies of the two Governments. The United States Government agrees that in the case of proposed sales of this type it will not unreasonably withhold its agreement.

- (d) It is further agreed that any similar property which may become available in Canada following May 30th, 1946, shall be dealt with in a like manner, provided that the United States Government shall give thirty days' notice from the date of such property becoming available in Canada of its intention to return such property to the United States.

8. The Canadian Government will designate an agency to coordinate the acceptance of custody of property transferred under this agreement by the United States Government to the Canadian Government. It is understood that the United States Government will not abandon property transferred to the Canadian Government under this agreement until after having provided a reasonable opportunity for the Canadian Government to arrange for custody.

Custody of property.

9. It is understood that this agreement does not affect existing agreements between the two countries relating to the transfer of responsibility from the United States to Canada for defence projects.

Existing agreements.

10. At the request of the Canadian Government, and in order to provide equipment necessary for the training programmes of the Canadian armed forces, the United States Government will endeavour to make available surplus military type equipment, up to April 1st, 1947, in such quantities and at such prices as may be negotiated between the two Governments up to a maximum cost of \$7,000,000.00 (U.S.). The Canadian Government will make a payment on account into a suspense account of the United States Government of \$7,000,000.00 (U.S.) to apply against such purchases. If the United States Government is unable to provide under this agreement the amount of equipment that the Canadian Government desires to purchase and therefore the payment on account should exceed the amount finally determined to be payable, the excess remaining in the suspense account will be returned to the Canadian Government.

Surplus military equipment.

11. The effective date of this agreement shall be March 31st, 1946, except that with regard to sales of movables concluded and invoiced by War Assets Corporation on or before that date, the Canadian Government will make payment to the United States Government in accordance with existing agreements. During the period in which the negotiations have been in progress, and pending the coming into force of the agreement, the United States Government has undertaken and undertakes not to remove from Canada any of the property covered by the agreement.

Effective date.

Post, p. 1751.

12. If the foregoing is acceptable to the Government of the United States, this note and your reply thereto shall be regarded as placing on record the understanding arrived at between our Governments.

Accept, Excellency, the renewed assurances of my highest consideration.

for External Affairs.

The Honourable RAY ATHERTON,
United States Ambassador to Canada,

Agreement between the United States of America and India respecting a mutual aid settlement. Signed at Washington May 16, 1946; effective May 16, 1946.

May 16, 1946
[T. I. A. S. 1532]

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF INDIA ON SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY, AND CLAIMS

The Government of the United States of America and the Government of India have reached agreement as set forth below regarding settlement for lend-lease, reciprocal aid, and surplus war property located in India and for the financial claims of each Government against the other arising as a result of World War II. This settlement is complete and final. Both Governments, in arriving at this settlement, have taken full cognizance of the benefits already received by them in the defeat of their common enemies, and of the aid furnished by each Government to the other in the course of the war, and no further benefits will be sought as consideration for lend-lease, reciprocal aid and surplus war property, or for the settlement of claims or other obligations arising out of the war, except as herein specifically provided.

1. (a) The term "lend-lease article" as used in this Agreement means any article transferred by the Government of the United States under the Act of March 11, 1941,

"Lend-lease article."

(i) to the Government of India, or

(ii) to any other government and retransferred to the Government of India.

55 Stat. 31.
22 U. S. C., Supp.
V, §§ 411-419.

(b) The term "reciprocal aid article" as used in this Agreement means any article transferred by the Government of India to the Government of the United States under reciprocal aid.

"Reciprocal aid article."

2. No payment will be made by either Government to the other on account of lend-lease and reciprocal aid articles and services transferred or retransferred at any time to either Government.

Transferred or retransferred articles and services.

3. The Government of India agrees that no payment will be required from the Government of the United States on account of articles and services furnished to the United States armed forces in India between September 2, 1945, and May 31, 1946, both dates inclusive.

Aid to U. S. armed forces in India.

4. (a) The Government of India hereby acquires full title, without qualification as to disposition or use, to all lend-lease articles now in the possession of the Government of India (including lend-lease components of installations located in India and all lend-lease petroleum products in India other than aviation gasoline) except lend-lease articles described in Section 5 hereof.

Lend-lease articles in possession of Government of India.

Transfer of lend-lease articles to India.

(b) The Government of the United States agrees to complete as early as possible the transfer (which term, except as hereinafter provided, shall include delivery aboard ocean vessel in a United States port) of the articles selected by the Government of India which were covered by lend-lease requisitions filed by the Government of India with the Foreign Economic Administration and which were under contract, or were completed, but had not been transferred, on September 2, 1945. Such transfer will be made in the quantities and according to the specifications and other conditions, except as to time of delivery, set forth in the covering requisitions, to the extent that such articles are or will be available to the Government of the United States for transfer to the Government of India. Title to the articles covered by this paragraph shall pass to the Government of India immediately upon loading of the articles on board ocean vessel in a United States port, provided that risk of loss not recoverable from the supplier, carrier or other third party, shall be assumed by the Government of India upon shipment from the factory or other premises of the supplier. Title to any articles that shall not have been loaded on board ocean vessel in a United States port prior to midnight on July 31, 1946, or two months after receipt by the Government of India of notice of availability, whichever is later, shall be deemed to have been transferred as of such later date, and thereafter the Government of India shall be responsible for storing and moving such articles within the United States and for delivering such articles aboard ocean vessel in a United States port. The Government of the United States will pay the cost of ocean transportation to India on United States flag vessels only of such of the articles covered by this paragraph as are loaded aboard ocean vessel prior to July 1, 1946.

Title to articles.

Cost of transportation.

U. S. title to certain reciprocal aid articles.

(c) The Government of the United States shall be deemed to have acquired, as of September 2, 1945, full title, without qualification as to disposition or use, to all reciprocal aid articles in the possession of the Government of the United States on that date, and to all articles furnished to the United States armed forces in India after that date, except that any reciprocal aid articles or other articles furnished to the United States armed forces in India and incorporated into installations in India are hereby deemed to be returned to the Government of India as of the date the United States armed forces relinquish possession of such installations.

United Kingdom lend-lease military holdings.

Ante, p. 1542.

5. (a) The Government of the United States, in paragraph 12 of the Agreement Relating to Military Holdings (No. IV) dated March 27, 1946, between the Governments of the United States and of the United Kingdom, recognized that a proportion of United Kingdom lend-lease military holdings in India would be earmarked, as of April 1, 1946, for the requirements of the forces under command of the Commander-in-Chief India, and consented to the transfer of such holdings by the Government of the United Kingdom to the Government of India. In that Agreement, it was stated that the conditions governing the use and disposal of the lend-lease articles so earmarked would form the subject of negotiations between the Governments of the United States and of India. The transfer to the Government of

India of those articles is hereby effected and the privileges of the Government of the United Kingdom and its obligations to the Government of the United States under that Agreement with respect to such articles are no longer operative. The privileges of the Government of India and its obligations to the Government of the United States with respect to such articles shall be those defined in this Agreement and shall be compatible with the principles of international security and welfare set forth in the Charter of the United Nations.

59 Stat. 1031.

Aircraft and related
spares.

(b) The Government of the United States hereby agrees that the lend-lease Harvard (AT-6 or AT-16) and Cornell (PT-26) aircraft and related spares now in the possession of the Royal Indian Air Force shall be treated in the same manner, and shall be subject to the same privileges and obligations, as the lend-lease articles covered by paragraph (a) above.

(c) The articles described in paragraphs (a) and (b) above will be referred to in this Agreement as "lend-lease articles in the possession of the armed forces under command of the Commander-in-Chief India".

(d) The Government of the United States hereby consents to the transfer, for purposes compatible with the principles of international security and welfare set forth in the Charter of the United Nations, of any lend-lease articles in the possession of the armed forces under command of the Commander-in-Chief India, to the United Kingdom armed forces without prior authority of the Government of the United States subject to the following understandings:

Transfer of lend-
lease articles to
United Kingdom
armed forces.

59 Stat. 1031.

(i) Subsequent reports, in such practicable form and detail as may later be mutually agreed, regarding transfers of such articles will be made to the Government of the United States;

(ii) The Government of the United States reserves the right to reopen with the Government of India the question of requiring prior consent of the Government of the United States to such transfers, should there be a material change in the existing arrangements between the United Kingdom armed forces and the armed forces of the Government of India.

(e) The Government of the United States, with respect to lend-lease articles in the possession of the armed forces under command of the Commander-in-Chief India, reserves the right to recapture any such articles which, as of the date upon which notice requesting return is received by the Government of India, are in the possession of the armed forces under command of the Commander-in-Chief India, although the Government of the United States does not intend to exercise generally this right of recapture. In respect of cases where it wishes from time to time to exercise its right of recapture, the Government of the United States will give reasonable notice of its intention and will provide full opportunity to the Government of India for discussion of that Government's need for the articles in question, without limiting the right of recapture.

Right of U. S. to
recapture articles.

Transfer of lend-lease articles to a third country.

(f) The Government of India will not, without prior consent of the Government of the United States, or except as specifically provided in this Agreement, transfer lend-lease articles in the possession of the armed forces under command of the Commander-in-Chief India, to any other government outside India for military use, or dispose of such articles for civilian use outside India, whether by sale, loan or otherwise, but such articles may be transferred, used or disposed of in India without restriction. Transfers made under provisions of this paragraph will be made only for purposes compatible with the principles of international security and welfare set forth in the Charter of the United Nations.

59 Stat. 1031.

Retransfer of surplus United Kingdom military holdings in India.

(g) Those articles in the United Kingdom military holdings in India which have been or may be declared by the Government of the United Kingdom as surplus to its requirements are to be retransferred for civilian use in India to the Government of India, and the Government of the United States, in consideration of the mutual undertakings described in this Agreement, hereby consents to the retransfer to the Government of India of such articles for civilian use in India; and the Government of India, may, without restriction, use in India, or dispose of for use in India, any such articles, without giving rise to any liability to the Government of the United States. It is recognized by the Government of the United States that the estimates provided by the Government of India of the types and quantities of the articles covered by this paragraph represent an indication of the order of the quantities involved which, although providing a fair measure of the overall amount covered, will be subject to variations as to particular items and quantities.

Settlement and payment of claims.

6. (a) The Government of India hereby assumes responsibility for the settlement and payment of claims against the Government of the United States or members of the United States armed forces, arising from acts or omissions occurring before June 1, 1946, in the course of military duties of members of the United States armed forces in India to the same extent as the Government of India assumed responsibility under reciprocal aid prior to September 2, 1945.

Financial claims arising out of existing arrangements.

(b) Except as provided in this Agreement, financial claims between the two Governments arising out of existing arrangements, where the liability for payment has heretofore been acknowledged and the method of computation mutually agreed, are not covered by this settlement as they will be settled in accordance with such arrangements.

(c) Notwithstanding any other provisions of this Agreement, the following claims will be settled in accordance with procedures already established or to be established after appropriate discussion:

- (i) Claims arising out of cash reimbursement lend-lease requisitions filed by the Government of India, and
- (ii) claims arising out of lend-lease requisitions for locomotives and rolling stock in which the Government of India agreed to pay for the postwar use of such equipment.

(d) In consideration of the undertakings in this Agreement, and with the objective of arriving at as comprehensive a settlement as possible and of obviating protracted negotiations between the two Governments, all other financial claims whatsoever of one Government against the other which arose out of lend-lease or reciprocal aid, or otherwise arose on or after September 3, 1939 and prior to September 2, 1945, out of or incidental to the conduct of World War II, and which are not otherwise dealt with in this Agreement, are hereby waived, and neither Government will hereafter raise or pursue any such claims against the other.

Waiver of certain claims.

7. (a) The Government of the United States, in consideration of the mutual undertakings described in this Agreement, hereby acknowledges that the Government of India has acquired full title to all United States property in India which has heretofore been declared to the Office of the Foreign Liquidation Commissioner, United States Department of State, as surplus to the requirements of the United States Department of State or the United States War or Navy Departments, and which has heretofore been delivered to the Government of India or is in the process of being delivered to the Government of India; and will hereafter acquire full title to all United States property in India hereafter declared to the Office of the Foreign Liquidation Commissioner, United States Department of State, as surplus to the requirements of the United States Department of State or the United States War or Navy Departments.

Title to surplus property.

(b) The Government of India will undertake and vigorously prosecute a program of disposal of the property described in paragraph (a) above with a view to obtaining the best possible return therefor, but such disposal shall be in conformity with such directives as the Government of India has issued and may issue from time to time which apply equally to the disposal of its own surplus and those of the Government of the United Kingdom. This disposal program will be so conducted as to accord the same treatment to the property described in paragraph (a) above and to surpluses of the Government of the United Kingdom located in India and of the Government of India. Members and veterans of the United States armed forces in India, United States agencies, citizens, corporations, firms and non-profit institutions in India and the United Nations Relief and Rehabilitation Administration will be accorded opportunity to buy on the same basis as is accorded to other buyers of like character in India.

Disposal of surplus property.

(c) The Government of India agrees to report to the Government of the United States, at quarterly periods, beginning September 30, 1946, the amount of proceeds in rupees arising from the disposal of the property covered by this section. The term "proceeds" as used herein means the gross proceeds received by the Director General of Disposals of the Government of India from the sale of such property, minus the normal customs duties paid by buyers of imported goods, as collected by the Government of India through inclusion of such

Quarterly report to U. S. of proceeds from sales.

"Proceeds."

customs duties in the price of the property sold. Any of the property covered by this section which the Director General of Disposals sells to any department of the Government of India shall be priced in the same manner as property sold to other parties in India.

Final report.

(d) Disposal of the property covered by this section shall be continued until such time as the Government of India determines that further disposal cannot be made on a profitable basis. At the time such determination is made, or July 1, 1948, whichever is earlier, the Government of India will render to the Government of the United States a final report of the proceeds in rupees received by the Government of India for the property covered by this section.

(e) Upon rendition of the final report described in paragraph (d) above, the Government of the United States shall become entitled to an amount equal to one-half of the excess of the proceeds described in the final report over a sum equivalent to \$50,000,000 converted at the rate of exchange between dollars and rupees now in effect. The Government of the United States will receive the amount to which it is entitled by any of the following methods or by any combination thereof designated by the Government of the United States:

Title to real property.

(i) Delivery of title to the Government of the United States by the Government of India, of real property and improvements of real property in India as selected and determined by agreement between the two Governments;

Fund for educational and cultural programs.

(ii) by establishment of a rupee fund for expenditure by the Government of the United States, in accordance with agreements to be reached between the two Governments, for carrying out educational and cultural programs of benefit to the two countries;

Use of balance.

(iii) should any balance remain after meeting the requirements described in paragraphs (i) and (ii) above, by payment in rupees to the Government of the United States for defraying the governmental expenses of the United States in India.

Exportation of surplus property to U. S.

(f) The Government of India agrees that it will not cause the exportation to the United States, its territories or possessions, of any of the surplus property covered by this Agreement in the same, or substantially the same form, if such property was originally produced in the United States and is readily identifiable as such, and agrees that it will not resell any of the property concerned to any person, firm, or government for the purpose of export to the United States, its territories or possessions, contrary to any statute or regulation of the Government of the United States as notified by the Government of the United States.

Prior agreements.

(g) The provisions of this Agreement supersede all previous agreements between the Governments of the United States and of India relating to United States surplus property.

Ante, pp. 1753, 1754, 1756, 1757.

8. The Government of India, when it disposes of articles acquired pursuant to paragraphs 4 (a), 4 (b), 5 (g) and 7 (a) of this Agreement,

will use its best endeavors to avoid discrimination against the legitimate interests of the United States manufacturers or producers of such articles, or their agents or distributors in India.

9. The Government of India reaffirms its intention to negotiate at a future date for the use and convertibility of rupee balances held by the Government of the United States in India, as a consequence of the disposal by the Office of the Foreign Liquidation Commissioner, of United States surplus property in India not covered by this Agreement. Pending such negotiations, these rupee balances may be used to defray governmental expenses of the Government of the United States in India.

10. Nothing in this Agreement affects any obligation entered into by the Government of India in connection with any silver transferred by the Government of the United States under lend-lease.

(hereinafter called the "Special Representative of the Foundation") and who shall be the representative in Brazil of the Foundation in connection with the program to be undertaken in accordance with this agreement. Aid of Foundation in U. S.

Clause X

The Government of the United States of Brazil, in addition to its regular budget for vocational education, shall deposit in the same special bank account, to the order of the CBAI, the equivalent in Brazilian currency of Five Hundred Thousand (\$500,000.00) Dollars, U. S. Currency, on the following dates and in the following amounts:

The Government of the United States of Brazil, in addition to its cash contribution as provided herein, shall in agreement with the Special Representative of the Foundation:

- a) appoint specialists to collaborate with the Field Staff of the Foundation;
- b) collaborate with the CBAI in making available office space, office equipment, furnishings and other such facilities, materials, equipment, supplies and services as it may conveniently provide for the said program;
- c) lend the general assistance thereto of the other Departments of the Government.

Clause XII

Matching of funds.

The Funds deposited by either party for any year shall not be drawn until the funds for the same year are deposited by the other party. Funds deposited by either party and not matched by the required deposit of the other party shall be returned to the contributor.

Clause XIII

Availability of funds.

All the funds mentioned in this agreement, that is, of the Government of the United States of Brazil, of the Foundation and of the CBAI, shall continue to be available for the said cooperative educational program during the existence of this agreement, without regards to annual periods or fiscal years of either of the parties.

Clause XIV

Interest, etc., on funds.

Interest on funds of the CBAI, and income, if any, upon investments of the CBAI, and any increment of assets of the CBAI, of whatever nature or source, shall be dedicated to the realization of the program and shall not be credited against the contributions of the Government of the United States of Brazil or of the Foundation.

Clause XV

Withholding of funds from CBAI bank account.

In view of the fact that many purchases of materials, supplies, and equipment and other disbursements relating to the execution of the Program, as well as other payments and disbursements on behalf of Brazilian personnel sent on grants to the United States of America, must necessarily be made in the United States of America, and in view of the further fact that the "Administrative Funds of the Foundation" may be inadequate to furnish the full number of United States of America technicians whom it may be desirable to employ and make available to the cooperative program, the Superintendent of the CBAI and the Special Representative of the Foundation may agree to withhold from the payments to be made by the Foundation into the bank account of the CBAI the amounts deemed to be necessary to pay for such purchases and disbursements in the United States of America and to employ and pay the salaries, living allow-

ances, travel and other expenses of such additional United States of America personnel as the Superintendent of the CBAI and the Special Representative of the Foundation may mutually agree upon. Such amounts shall be considered as if deposited under the terms of this agreement. Any funds so withheld by the Foundation for such purposes and not expended or obligated therefor shall be deposited in the said bank account at any time upon the mutual agreement of the Superintendent of the CBAI and the Special Representative of the Foundation.

Clause XVI

In the event that, upon the expiration of each twelve-month period of this agreement, calculated from the date of its execution, and again six months before its expiration, the Foundation deems that the funds, which it has set aside as "Administrative Funds of the Foundation", will be more than are needed for that purpose for the entire period of the program, the Foundation will thereupon advise the Superintendent of the CBAI of the surplus which it can accordingly make available for projects, and such additional sums shall be paid into the bank account of the CBAI or shall be otherwise disposed of pursuant to this Agreement.

Surplus administrative funds.

Clause XVII

All the funds introduced into Brazil by the Foundation for the purposes of the cooperative educational program shall be exempt from all taxes, service charges, investment or deposit requirements and other currency controls, and shall be converted into Cruzeiros at the most favorable rate of exchange which the Government of the United States of Brazil or any of its Agencies or any Brazilian bank concedes to the Government or to any of its Departments or to any other Nation, organization, or individual. Similarly, where it may be necessary or advisable to convert Cruzeiros into Dollars for the financing of grants or for other expenditures in the United States of America, the conversion of Cruzeiros into Dollars shall be made at the official rate of exchange.

Tax exemption, etc., of funds.

Clause XVIII

The Government of the United States of Brazil accepts and recognizes the Foundation as a corporate agency of the Government of the United States of America, having juridic personality, and, accordingly, the Foundation shall be exempt and immune from, among other things, any and all taxes, fees, charges, imposts, and custom duties, whether national, state, provincial or municipal, and from all requirements for licenses. The personnel of the Foundation who are citizens of the United States of America shall be exempt from all Brazilian income taxes and social security taxes with respect to the income on which they are obliged to pay income taxes or social security taxes in the United States of America. Such personnel shall also be exempt from the payment of customs or other duties on personal effects and on goods, equipment and supplies imported or exported for their own personal use or for the personal use of the members of their families.

Exemptions and immunities of Foundation.

Clause XIX

Delegation of authority.

Any right, privilege, power, or duty conferred by this Agreement upon either the Superintendent of the CBAI, the Special Representative of the Foundation or the Special Representative in his capacity as United States of America Representative in the CBAI may be delegated by the recipient thereof to representatives, provided that each such representative be satisfactory to the said official of the other Government. But regardless of the naming of such representatives, the Superintendent of the CBAI, the Special Representative of the Foundation and the Special Representative in his capacity as United States of America Representative in the CBAI shall have the right to refer any matter directly to one another for discussion and decision.

Clause XX

Cooperation by Executive Power of Government of Brazil.

The Executive Power of the Government of the United States of Brazil will take the necessary steps to obtain the legislation, decrees, orders, or resolutions necessary to carry out the terms of this agreement.

Clause XXI

Amendments.

This agreement may be amended from time to time, if deemed advisable by the parties hereto, but all amendments shall be in writing and signed by a representative of the Government of the United States of Brazil and of the Foundation duly authorized thereto.

Clause XXII

Effective date; period in force; extension.

This Agreement shall become effective the 1st. of January, 1946, and shall remain in force through June 30, 1948, and may be extended by mutual written agreement. And in pursuance thereto there shall be an exchange of diplomatic notes between the Ministry of Foreign Affairs of the United States of Brazil and the Embassy of the United States of America in Brazil.

In Witness Whereof the undersigned, duly authorized thereto, sign the present agreement in duplicate, in the English and Portuguese languages, in Rio de Janeiro, Brazil, this third day of January, nineteen hundred and forty-six.

Todos os recursos pecuniários que a Fundação trouxer para o Brasil com o objetivo de aplicá-los no programa de cooperação educacional serão isentos de tôda e qualquer taxa, emolumentos, exigências para inversões ou depósitos financeiros e outros controles monetários, e serão convertidos em cruzeiros ao câmbio mais favorável que o Governo dos Estados Unidos do Brasil ou qualquer das suas repartições ou banco brasileiro conceda ao Governo, a qualquer de seus departamentos ou a qualquer outra nação, organização ou indivíduo. Da mesma forma, sempre que for aconselhável converter cruzeiros em dólares para quaisquer despesas nos Estados Unidos da América, essa conversão se fará ao câmbio oficial.

Cláusula XIX

Todo direito, privilégio, facilidade ou obrigação conferidos por êste acôrdo ao Superintendente da C.B.A.I. ou ao Representante Especial da Fundação, nesta qualidade ou na de Representante americano junto à C.B.A.I., poderão ser transferidos a representantes de ambos, desde que isso mereça aprovação da outra parte. Todavia, não obstante a existência de tais representantes, o Superintendente da C.B.A.I. e o Representante Especial da Fundação, nesta qualidade ou na de Representante americano junto à C.B.A.I., poderão discutir e deliberar diretamente um com o outro sôbre qualquer assunto.

Cláusula XX

O Poder Executivo do Governo dos Estados Unidos do Brasil tomará as medidas necessárias para obter a legislação, os decretos, as ordens ou resoluções indispensáveis ao fiel cumprimento dêste acôrdo.

No. 976

Buenos Aires, May 2, 1945.

EXCELLENCY,

I have the honor to address Your Excellency with reference to the negotiations carried out by the Joint Mission representing the Governments of the United States of America, and of Brazil, relative to the distribution and supply of rubber to the Republic of Argentina and to express the agreement of my Government to the following clauses:

1. The Republic of Argentina will be integrated, from this date, into the system, for establishing the allocation and supply of tires and tubes and for obtaining the maximum conservation of rubber during the present emergency, which system has been developed through agreements between Brazil and the United States of America and between the United States of America and various of the other American Republics.
2. In order to further the war effort, the Government of Argentina will promptly adopt and implement appropriate measures for the accomplishment of the following purposes:
 - (a) to ensure that rubber, rubber products, and material utilized in the production of rubber products, will be used solely to satisfy the essential economic requirements of Argentina;
 - (b) to prevent the sale of rubber products and of materials imported for the production of such products at prices exceeding the cost of such products and materials plus reasonable margins of profit;
 - (c) to prevent contraband transactions in natural rubber and rubber products produced in other American Republics;
 - (d) to prevent the utilization of natural rubber for the manufacture of articles not essential to the economic requirements of Argentina or for the manufacture of tires and tubes except in such sizes and for such purposes as may be necessary to satisfy such requirements;
 - (e) to establish procedures for the issuance of import recommendations for quantities of tires, tubes and other rubber products, and for materials to be imported for the production

Adoption of certain
measures to further
war effort.

of such products, not exceeding allocations established pursuant to these agreements, so as to permit an orderly operation and control with respect to Argentina of the present system of allocation and supply.

Interim period.

3. In order to permit the orderly establishment of the procedures referred to under paragraph 2 above and the completion of the necessary technical studies, there will occur an interim period of approximately two months, commencing upon this date, during which the following steps, intermediate to the final integration of Argentina into the present system, will be taken:

Interim allocation of tires and tubes.

- (a) an interim allocation of 3000 tires and an equivalent number of tubes will be established for immediate importation by Argentina from Brazil or in part from the United States of America depending on the availability of the sizes and quantities into which such allocation is divided as the result of special consultation which will take place between the parties;

Interim allocation of synthetic rubber.

- (b) an interim allocation of 1000 metric tons of synthetic rubber (GRS) and materials for its utilization for the production and repair of tires and tubes in Argentina will be established for immediate importation by Argentina from the United States of America, or from stocks held in Brazil;

Studies.

- (c) appropriate studies will be conducted by representatives designated by Argentina in consultation with representatives of the United States of America and of Brazil to determine:

- (1) the quantities and sizes of tires and tubes which are essential for the economic requirements of Argentina;
- (2) the portion of these requirements which can be supplied through production in Argentina by the utilization of existing facilities and maximum quantities of synthetic rubber;
- (3) the portion of these requirements which must be supplied by importation from Brazil and the United States of America; and
- (4) the quantity and type of materials needed to secure the maximum supply of local requirements from local production.

Technical mission of experts to study in U. S.

- (d) Argentina will designate a technical mission of experts which will proceed to the United States of America for study of the methods required for the maximum utilization of synthetic rubber and the United States of America will facilitate the studies of such mission through the furnishing of technical advice and assistance subject to the limitation of the use of such technical advice to the maximum utilization of synthetic rubber during the period of the emergency.

- (e) on the basis of the studies concluded under subparagraph (c) above, regular allocations on a quarterly basis of tires and tubes required to be imported by Argentina will be established.

4. Following the aforesaid interim period and the completion of the establishment of the procedures agreed upon above by Argentina, Brazil and the United States of America will use their best efforts to insure that the essential economic requirements of Argentina for tires and tubes and the materials necessary for their manufacture, which must be obtained by importation, will be met so far as they can be supplied within the limitations of the available supply, of the essential requirements of war and with due consideration for the essential requirements of other countries.
5. It is understood and agreed that this agreement will remain in force during such period as the present emergency shortage of natural rubber continues and shall terminate ninety days after it is mutually agreed between the parties that such emergency conditions no longer exist.

Continuance in force; termination.

Your Excellency's note, this note and that of the Chargé d'Affaires of Brazil, all of even date, constitute as from today an agreement among our respective Governments which will remain in force until such time as the terms of paragraph five herein are fulfilled.

SEÑOR ENCARGADO DE NEGOCIOS:

Tengo el honor de dirigirme a V. S. con referencia a las negociaciones realizadas con la Comisión conjunta estadounidense-brasileño relativas a la distribución y el suministro de caucho a la República Argentina, para dejar constancia de la conformidad de mi Gobierno a las siguientes cláusulas:

- 1 - La República Argentina se incorpora desde la fecha al regimen que, para establecer la distribución y el suministro de cámaras y cubiertas y obtener el máximo grado de conservación del caucho durante el actual periodo de emergencia, ha sido preparado mediante convenios entre Estados Unidos de América y Brasil y entre Estados Unidos de América y otras repúblicas americanas.

2 - Con el objeto de fomentar el esfuerzo bélico, el Gobierno argentino adoptará sin demora y pondrá en vigor las medidas adecuadas para el cumplimiento de los siguientes fines:

- a) asegurar que el caucho, productos de caucho y material utilizado en la fabricación de productos de caucho, será empleado únicamente para satisfacer las necesidades económicas esenciales de la Argentina;
- b) Impedir la venta de productos de caucho y de todo material importado para la fabricación de dichos productos a precios que excedan el costo de tales productos y materiales, más un margen razonable de beneficios;
- c) Impedir transacciones de contrabando de caucho natural y de productos de caucho fabricados en otras repúblicas americanas;
- d) Impedir la utilización de caucho natural para la fabricación de artículos no esenciales para las necesidades económicas de la Argentina, o para la fabricación de cubiertas y cámaras, salvo que sea en los tamaños y para los fines que fueran imprescindibles para satisfacer aquellas necesidades;
- e) Establecer procedimientos para el otorgamiento de permisos de importación para cantidades de cubiertas, cámaras y otros productos de caucho, y para materiales a importarse para la fabricación de dichos productos, cuyos permisos no deberán exceder las asignaciones establecidas de acuerdo con estos convenios, a fin de permitir una operación y contralor metódicos con respecto a la Argentina del actual sistema de distribución y suministro.

3 - Para permitir el establecimiento metódico de las medidas previstas en el párrafo 2 y dar tiempo a la realización de los estudios técnicos necesarios, habrá un periodo intermediario de aproximadamente dos meses contados a partir de la fecha, durante el cual y hasta tanto se produzca la incorporación definitiva de la República Argentina en el regimen previsto en el presente Acuerdo, se adoptarán las siguientes medidas:

- a) Se asignará provisoriamente una cuota de 3.000 cubiertas y un número equivalente de cámaras para su importación inmediata en la Argentina del Brasil o en parte de Estados Unidos de América; según la disponibilidad de los tamaños y cantidades en que aquella cuota ha de dividirse como resultado de las consultas que al efecto realicen las partes;
- b) Se asignará provisoriamente una cuota de 1.000 toneladas métricas de caucho sintético (GRS) y materiales para ser utilizados en la producción y reconstitución de cámaras y cubiertas, que será importada inmediatamente por la República Argentina de los Estados Unidos de América o de existencias mantenidas en el Brasil.
- c) Se harán estudios adecuados por representantes designados por la Argentina, en consulta con representantes de los Estados Unidos y del Brasil, para determinar:

- (1) Las cantidades y los tamaños de cámaras y cubiertas que son esenciales para las necesidades económicas de la Argentina;
- (2) La parte de estas necesidades que habrán de satisfacerse mediante la fabricación en la Argentina, utilizando las facilidades que existan y las cantidades máximas de caucho sintético;
- (3) La parte de estas necesidades que habrán de satisfacerse mediante la importación del Brasil y de los Estados Unidos, y
- (4) Las cantidades y tipos de materiales necesarios para asegurar el máximo suministro de las necesidades locales por medio de la producción local.
- d) La Argentina designará una misión de peritos que se dirigirán a los Estados Unidos para estudiar los métodos adecuados para la utilización máxima del caucho sintético, y los Estados Unidos facilitarán la tarea de dicha misión proporcionándole el asesoramiento técnico y ayuda, sujeto a la limitación del empleo de dicho asesoramiento técnico a la utilización máxima del caucho sintético durante el periodo de emergencia.
- e) Sobre la base de los estudios establecidos en el sub-párrafo (c) se fijarán asignaciones regulares por periodos trimestrales, de cámaras y cubiertas que la Argentina necesita importar.
- 4 - Después del periodo provisional precitado y luego de haber la Argentina terminado de establecer los procedimientos susodichos, el Brasil y los Estados Unidos de América se esforzarán por asegurar que las necesidades económicas esenciales de la Argentina relativas a cámaras y cubiertas y el material necesario para su manufactura, que deba ser obtenido mediante importación, sean satisfechas hasta donde puedan serlo dentro de las limitaciones de suministros disponibles para los requerimientos bélicos esenciales, y con la debida consideración hacia las necesidades esenciales de otros países.
- 5 - Queda entendido y convenido que este Acuerdo permanecerá en vigor mientras dure la actual situación de escasez de caucho natural y que terminará noventa días después que las Partes interesadas hayan decidido por mútuo acuerdo que la situación de emergencia ya no existe.

Esta nota, y la respuesta de V. S. y del representante del Brasil, constituirán desde la fecha un Acuerdo entre nuestros Gobiernos, que estará en pleno vigor hasta tanto se aplique el precedente párrafo 5.

Saludo a V. E. con mi más alta consideración.

Nº 52/890.(42)(41)

BUENOS AIRES, *2 de maio de 1945.*

SENHOR MINISTRO,

Tenho a honra de acusar o recebimento da Nota, de Vossa Excelência, desta mesma data, referente às negociações realizadas em 26 de abril último, entre a Comissão Conjunta Brasil-Estados Unidos da América e a Secretaria de Indústria e Comércio da República Argentina, com o objetivo de estabelecer a distribuição e suprimento de artefatos de borracha e assuntos correlatos, nas quais foram concluídos entendimentos no sentido de integrar a República Argentina no sistema de distribuição e suprimento de pneumáticos e câmaras de ar e de conservação máxima de borracha, enquanto durar a atual situação de escassez de borracha natural, sistema êsse estabelecido entre o Brasil e os Estados Unidos da América e entre os Estados Unidos da América e várias outras Repúblicas americanas.

2. Em resposta, cumpre-me tomar devida nota da conformidade do Governo argentino as cláusulas abaixo transcritas e que foram acordadas entre os Senhores Cônsul Geral Mario Moreira da Silva, membro da Comissão de Contrôlo dos Acordos de Washington, representando o Brasil, e Francis Adams Truslow, Presidente da

Rubber Development Corporation, organismo oficial dos Estados Unidos da América, em missão conjunta dos Governos brasileiro e dos Estados Unidos da América e o Senhor General D. Julio Checchi, Secretário de Indústria e Comércio, representando o Govêrno da República Argentina:

- 1 - A República Argentina se incorpora, desde esta data, ao regimen que, para estabelecer a distribuição e o suprimento de pneumáticos e câmaras de ar e de conservação máxima de borracha durante a presente emergência, foi assentado mediante acordos entre o Brasil e os Estados Unidos da América, e entre os Estados Unidos da América e várias outras Repúblicas americanas.
- 2 - Com o fim de incrementar o esforço de guerra, o Govêrno da República Argentina adotará e porá em vigor, sem demora, as medidas adequadas para o cumprimento das medidas seguintes:
 - a) assegurar que a borracha e seus artefatos e o material utilizado na fabricação de produtos de borracha serão exclusivamente empregados para satisfazer as necessidades econômicas essenciais da República Argentina;
 - b) impedir a venda de produtos de borracha e de todo o material importado para a fabricação dos referidos produtos a preços que excedam o custo dêses produtos, acrescido de uma razoável margem de lucros;
 - c) evitar o comércio de contrabando de borracha natural e de seus artefatos, produzidos em outras Repúblicas americanas;
 - d) impedir a utilização de borracha natural para a fabricação de artigos não essenciais às exigências econômicas básicas da República Argentina ou na manufatura de pneumáticos e câmaras de ar, exceto nas medidas e para os fins indispensáveis à satisfação de tais exigências;
 - e) estabelecer as necessárias providências para a concessão de licenças de importação correspondentes às quantidades de pneumáticos, câmaras de ar e outros artefatos de borracha, bem como para os materiais a serem importados, destinados à produção de tais artefatos, nunca excedentes às quotas estabelecidas como resultado do presente Acôrdo, de modo a permitir o funcionamento normal e o contrôle do atual sistema de distribuição e suprimento, no que diz respeito à República Argentina.
- 3 - Para permitir o estabelecimento metódico das medidas previstas no parágrafo 2 e dar tempo à conclusão dos necessários estudos técnicos, haverá um período intermediário de dois meses aproximadamente, a partir desta data, durante o qual serão tomadas as seguintes medidas, até a integração da República Argentina no regimen previsto no presente Acôrdo.

- a) fixar-se-á provisoriamente uma quota de 3.000 (três mil) pneumáticos e uma quantidade equivalente de câmaras de ar para a importação imediata do Brasil ou parcialmente dos Estados Unidos da América, pela República Argentina, dentro das disponibilidades das medidas e quantidades em que se dividirá a referida quota, como resultado de consulta especial a ser realizada entre as partes;
 - b) fixar-se-á uma quota provisória de 1.000 (mil) toneladas métricas de borracha sintética (GRS) e de materiais para a sua utilização na produção e reconstrução de pneumáticos e câmaras de ar na República Argentina, os quais serão imediatamente importados dos Estados Unidos da América ou dos estoques existentes no Brasil, pertencentes aos Estados Unidos da América;
 - c) serão efetuados estudos adequados pelos representantes designados pela República Argentina, em consulta com os representantes do Brasil e dos Estados Unidos da América, com o fim de determinar:
 - (1) as quantidades e medidas dos pneumáticos e câmaras de ar correspondentes às necessidades econômicas essenciais à República Argentina;
 - (2) a parcela dessas necessidades que deverão ser supridas pela fabricação na Argentina, utilizando-se os recursos existentes e as quantidades máximas de borracha sintética;
 - (3) a parcela dessas necessidades que deverão ser supridas pela importação do Brasil e dos Estados Unidos da América; e
 - (4) as quantidades e tipos de materiais necessários para assegurar o máximo suprimento das exigências locais, por meio da produção própria.
 - d) A República Argentina designará uma missão de técnicos, que irá aos Estados Unidos da América para estudar os métodos adequados à utilização máxima de borracha sintética e os Estados Unidos da América concederão todas as facilidades a essa missão, proporcionando-lhe a instrução técnica e ajuda, limitada exclusivamente esta ao conhecimento dos processos de utilização máxima de borracha sintética, durante o período de emergência;
 - e) com base nos estudos concluídos nos termos do sub-parágrafo (c) serão fixadas quotas regulares trimestrais de pneumáticos e câmaras de ar a serem importados pela República Argentina.
- 4 - Decorrido o citado prazo provisório e uma vez postas em prática pela República Argentina as providências acordadas acima, o Brasil e os Estados Unidos da América empregarão seus esforços no sentido de assegurar que as necessidades econômicas essenciais da República Argentina, relativas a pneumáticos e câmaras de ar e materiais necessários para a

sua manufatura, que devam ser obtidos mediante importação, sejam satisfeitas dentro das possibilidades de suprimento, em face das limitações dos estoques disponíveis, das exigências bélicas e com a devida consideração das necessidades essenciais dos demais países.

- 5 - Fica entendido e acordado que este Acôrdo vigorará enquanto dure a atual situação de escassez de borracha natural e que terminará noventa dias depois que as Partes interessadas decidam, por mútuo acôrdo, em que a referida situação de emergência deixou de existir.

Esta nota, a de Vossa Excelência e a do representante diplomático dos Estados Unidos da América junto ao Govêrno argentino, constituirão, desde esta data, Acôrdo entre os nossos Governos, que estará em pleno vigor enquanto não fôr denunciado pela forma estabelecida no seu parágrafo 5 (cinco).

Aproveito o ensêjo para reiterar a Vossa Excelência os protestos da minha mais alta consideração.

**ACTA FINAL
DE LA
CONFERENCIA INTERAMERICANA SOBRE PROBLEMAS
DE LA GUERRA Y DE LA PAZ**

En virtud de la invitación hecha el 10 de enero de 1945, por el Gobierno de los Estados Unidos Mexicanos, se reunieron en la ciudad de México, el 21 de febrero del mismo año, las Delegaciones de los países que en seguida se enumeran de acuerdo con el orden de precedencias que resultó del sorteo verificado—el mismo día 21—conforme al inciso g) del artículo 5o. del Reglamento de la Conferencia:

VIII

ASISTENCIA RECIPROCA Y SOLIDARIDAD AMERICANA

Los Gobiernos representados en la Conferencia Interamericana sobre Problemas de la Guerra y de la Paz,

CONSIDERANDO:

Que los pueblos americanos, animados de profundo amor a la justicia, permanecen sinceramente adictos a los postulados del Derecho Internacional;

Que son sus deseos que tales postulados, no obstante las difíciles circunstancias actuales, prevalezcan todavía con más fuerza en las futuras relaciones internacionales;

Que las Conferencias Interamericanas han proclamado más de una vez ciertos principios fundamentales, pero que éstos deben ser reafirmados en el momento en que se trata de reconstruir las bases jurídicas de la comunidad de naciones:

Que la nueva situación del mundo hace cada vez más imperiosa la unión y la solidaridad de los pueblos americanos para la defensa de sus derechos y el mantenimiento de la paz internacional;

Que los Estados americanos han venido incorporando a su Derecho Internacional, desde 1890, por medio de Convenciones, Resoluciones y Declaraciones, las normas siguientes:

- a) La proscripción de la conquista territorial y el desconocimiento de toda adquisición hecha por la violencia (Primera Conferencia Internacional Americana, 1890);
- b) La condenación de la intervención de un Estado en los asuntos internos o externos de otro (Séptima Conferencia Internacional

Americana, 1933, y Conferencia Interamericana de Consolidación de la Paz, 1936);

- c) El reconocimiento de que toda guerra o amenaza de guerra afecta directa o indirectamente a todos los pueblos civilizados y pone en peligro los grandes principios de libertad y de justicia que constituyen el ideal de América y la norma de su política internacional (Conferencia Interamericana de Consolidación de la Paz, 1936);
- d) El sistema de las consultas mutuas para buscar un procedimiento de cooperación pacifista, en caso de guerra o amenaza de guerra entre países americanos (Conferencia Interamericana de Consolidación de la Paz, 1936);
- e) El reconocimiento de que todo acto susceptible de perturbar la paz de América afecta a todas las naciones americanas y a cada una de ellas y justifica la iniciación de los procedimientos de consulta (Conferencia Interamericana de Consolidación de la Paz, 1936);
- f) La adopción de la vía de la conciliación, del arbitraje amplio, o de la justicia internacional, para resolver toda diferencia o disputa entre las naciones de América, cualesquiera que sean su naturaleza y su origen (Conferencia Interamericana de Consolidación de la Paz, 1936);
- g) El reconocimiento de que el respeto de la personalidad, soberanía e independencia de cada Estado americano constituye la esencia del orden internacional, amparado por la solidaridad continental manifestada históricamente y sostenida por declaraciones y tratados vigentes (Octava Conferencia Internacional Americana, 1938);
- h) La afirmación de que el respeto y la fiel observancia de los tratados constituyen norma indispensable para el desarrollo de las relaciones pacíficas entre los Estados y que ellos sólo podrán ser revisados mediante acuerdo de las partes (Declaración de Principios Americanos, Octava Conferencia Internacional Americana, 1938);
- i) La proclamación de su interés común y de la determinación de hacer efectiva su solidaridad, coordinando sus respectivas voluntades mediante el procedimiento de consulta, y usando los medios que en cada caso aconsejen las circunstancias, en cualquier ocasión en que la paz, la seguridad o la integridad territorial de las Repúblicas americanas se vean amenazadas por actos de cualquier naturaleza que puedan menoscabarlas (Declaración de Lima, Octava Conferencia Internacional Americana, 1938);
- j) La declaración de que todo atentado de un Estados no americano contra la integridad territorial o la inviolabilidad del territorio, contra la soberanía o la independencia política de un Estado americano, será considerado como un acto de agresión contra todos los Estados americanos (Declaración XV de la Segunda Reunión de Consulta de los Ministros de Relaciones Exteriores, La Habana, 1940);

Que el perfeccionamiento de estas normas, practicadas constantemente por los Estados americanos para garantizar la paz y la solidaridad entre las Naciones del Hemisferio, es un medio eficaz de contribuir al sistema general de seguridad mundial y de facilitar su implantación;

Que la seguridad y solidaridad del Continente se afectan lo mismo cuando se produce un acto de agresión contra cualquiera de las naciones americanas por parte de un Estado no americano, como cuando el acto de agresión proviene de un Estado americano contra otro u otros Estados americanos,

PARTE I

DECLARAN:

1o.—Que todos los Estados soberanos son jurídicamente iguales entre sí.

2o.—Que todo Estado tiene derecho al respeto de su personalidad e independencia por parte de los demás miembros de la comunidad internacional.

3o.—Que todo atentado de un Estado contra la integridad o la inviolabilidad del territorio, o contra la soberanía o independencia política de un Estado americano, será, de acuerdo con la parte III de esta Acta, considerado como un acto de agresión contra los demás Estados que la firman. En todo caso, se considerará como un acto de agresión la invasión, por fuerzas armadas de un Estado, al territorio de otro, traspasando las fronteras establecidas por tratados y demarcadas de conformidad con ellos.

4o.—Que en el caso de que se ejecuten actos de agresión o de que haya razones para creer que se prepara una agresión por parte de un Estado cualquiera contra la integridad o la inviolabilidad del territorio, o contra la soberanía o la independencia política de un Estado americano, los Estados signatarios de la presente Acta se consultarán entre sí para concertar las medidas que convenga tomar.

5o.—Que durante la guerra, y hasta tanto se celebre el tratado que se recomienda en la Parte II de esta Acta, los signatarios de ella reconocen que tales amenazas y actos de agresión, definidos en los párrafos tercero y cuarto constituyen un obstáculo al esfuerzo bélico de las Naciones Unidas y exigen que se adopten, dentro del alcance de sus poderes constitucionales generales y de guerra, los procedimientos que se estimen necesarios, a saber: el retiro de los Jefes de Misión; la ruptura de las relaciones diplomáticas; la ruptura de las relaciones consulares; la ruptura de las relaciones postales, telegráficas, telefónicas y radiotelefónicas; la interrupción de las relaciones económicas, comerciales y financieras; el empleo de las fuerzas militares para evitar o repeler la agresión.

6o.—Que los principios y procedimientos contenidos en esta Declaración entrarán en vigor inmediatamente, por cuanto cualquier acto de agresión o amenaza de agresión durante el presente estado de guerra se opone al esfuerzo bélico de las Naciones Unidas para obtener la victoria; y que en el futuro y con el objeto de que los principios y

procedimientos aquí estipulados se acomoden a las normas constitucionales de cada República, los Gobiernos respectivos tomarán las medidas necesarias para perfeccionar este instrumento con el fin de que esté en vigor en todo tiempo.

PARTE II

La Conferencia Interamericana sobre Problemas de la Guerra y de la Paz,

RECOMIENDA:

Que, con el fin de hacer frente a las amenazas o actos de agresión que después del restablecimiento de la paz se presenten contra cualquiera de las Repúblicas americanas, los Gobiernos de estas Repúblicas deberán considerar de acuerdo con sus procedimientos constitucionales la celebración de un tratado que estipule las medidas encaminadas a conjurar tales amenazas o actos por medio del empleo, por todos o algunos de los signatarios de dicho tratado, de una o más de las siguientes medidas: el retiro de los Jefes de Misión Diplomática; la ruptura de las relaciones diplomáticas; la ruptura de las relaciones consulares; la ruptura de las relaciones postales, telegráficas, telefónicas y radiotelefónicas; la interrupción de las relaciones económicas, comerciales y financieras; el empleo de las fuerzas militares para evitar o repeler la agresión.

PARTE III

La Declaración y la Recomendación anteriores establecen un acuerdo regional para tratar asuntos concernientes al mantenimiento de la paz y la seguridad internacionales susceptibles de acción regional en este Hemisferio. Tal acuerdo y los actos y procedimientos pertinentes deberán ser compatibles con los principios y propósitos de la organización general internacional, cuando ella se establezca.

El presente acuerdo se conocerá con el nombre de "ACTA DE CHAPULTEPEC".

(Aprobada en la sesión plenaria del día 6 de marzo de 1945).

En testimonio de lo cual, los Delegados de las Repúblicas americanas que participaron en la Conferencia Interamericana sobre Problemas de la Guerra y de la Paz, firman la presente Acta Final, hecha en español, en la ciudad de México, a los ocho días del mes de marzo de mil novecientos cuarenta y cinco.

La Secretaría General depositará el original en los Archivos de la Secretaría de Relaciones Exteriores del Gobierno de México, la que remitirá copias certificadas de la misma a los Gobiernos de las Repúblicas americanas, a la Unión Panamericana, a la Secretaría General de la Sociedad de las Naciones, a la Oficina Internacional del Trabajo, a la Oficina Sanitaria Panamericana y a la Unión Interamericana del Caribe.

La Unión Panamericana se encargará de hacer las traducciones de esta Acta a los demás idiomas oficiales de la Conferencia.

FINAL ACT
OF THE
INTER-AMERICAN CONFERENCE ON PROBLEMS OF WAR
AND PEACE

PURSUANT to the invitation extended on January 10, 1945, by the Government of the United Mexican States, the Delegations of the countries enumerated below met in Mexico City on February 21, 1945. The order of precedence was determined by a drawing of lots on February 21, in conformity with Article 5, paragraph (g), of the Regulations of the Conference:

VIII

RECIPROCAL ASSISTANCE AND AMERICAN SOLIDARITY

WHEREAS:

The peoples of the Americas, animated by a profound love of justice, remain sincerely devoted to the principles of international law;

It is their desire that such principles, notwithstanding the present difficult circumstances, prevail with even greater force in future international relations;

The inter-American conferences have repeatedly proclaimed certain fundamental principles, but these must be reaffirmed at a time when the juridical bases of the community of nations are being re-established;

The new situation in the world makes more imperative than ever the union and solidarity of the American peoples, for the defense of their rights and the maintenance of international peace;

The American states have been incorporating in their international law, since 1890, by means of conventions, resolutions and declarations, the following principles:

- a) The proscription of territorial conquest and the non-recognition of all acquisitions made by force (First International Conference of American States, 1890);
- b) The condemnation of intervention by one State in the internal or external affairs of another (Seventh International Conference of American States, 1933, [1] and Inter-American Conference for the Maintenance of Peace, 1936); [2]

¹ [Report of the Delegates of the United States of America to the Seventh International Conference of American States, Montevideo, Uruguay, December 3-26, 1933, Department of State publication 666, Conference Series 19.]

² [Report of the Delegation of the United States of America to the Inter-American Conference for the Maintenance of Peace, Buenos Aires, Argentina, December 1-23, 1936, Department of State publication 1088, Conference Series 33.]

c) The recognition that every war or threat of war affects directly or indirectly all civilized peoples, and endangers the great principles of liberty and justice which constitute the American ideal and the standard of American international policy (Inter-American Conference for the Maintenance of Peace, 1936);

d) The system of mutual consultation in order to find means of peaceful cooperation in the event of war or threat of war between American countries (Inter-American Conference for the Maintenance of Peace, 1936);

e) The recognition that every act susceptible of disturbing the peace of America affects each and every one of the American nations and justifies the initiation of the procedure of consultation (Inter-American Conference for the Maintenance of Peace, 1936).

f) The adoption of conciliation, unrestricted arbitration, or the application of international justice, in the solution of any difference or dispute between American nations, whatever its nature or origin (Inter-American Conference for the Maintenance of Peace, 1936);

g) The recognition that respect for the personality, sovereignty and independence of each American State constitutes the essence of international order sustained by continental solidarity, which historically has been expressed and sustained by declarations and treaties in force (Eighth International Conference of American States, 1938); [1]

h) The affirmation that respect for and the faithful observance of treaties constitute the indispensable rule for the development of peaceful relations between States, and that treaties can only be revised by agreement of the contracting parties (Declaration of American Principles, Eighth International Conference of American States, 1938);

i) The proclamation that, in case the peace, security or territorial integrity of any American republic is threatened by acts of any nature that may impair them, they proclaim their common concern and their determination to make effective their solidarity, coordinating their respective sovereign wills by means of the procedure of consultation, using the measures which in each case the circumstances may make advisable (Declaration of Lima, Eighth International Conference of American States, 1938);

j) The declaration that any attempt on the part of a non-American state against the integrity or inviolability of the territory, the sovereignty or the political independence of an American State shall be considered as an act of aggression against all the American States (Declaration XV of the Second Meeting of the Ministers of Foreign Affairs, Habana, 1940); [2]

The furtherance of these principles, which the American States have constantly practised in order to assure peace and solidarity

among the nations of the Continent, constitutes an effective means of contributing to the general system of world security and of facilitating its establishment;

The security and solidarity of the Continent are affected to the same extent by an act of aggression against any of the American States by a non-American State, as by an act of aggression of an American State against one or more American States;

PART I

The Governments Represented at the Inter-American Conference on Problems of War and Peace

DECLARE:

1. That all sovereign States are juridically equal among themselves. Juridical equality of States.

2. That every State has the right to the respect of its individuality and independence, on the part of the other members of the international community.

3. That every attack of a State against the integrity or the inviolability of the territory, or against the sovereignty or political independence of an American State, shall, conformably to Part III hereof, be considered as an act of aggression against the other States which sign this Act. In any case invasion by armed forces of one State into the territory of another trespassing boundaries established by treaty and demarcated in accordance therewith shall constitute an act of aggression. Attack against an American State.

4. That in case acts of aggression occur or there are reasons to believe that an aggression is being prepared by any other State against the integrity or inviolability of the territory, or against the sovereignty or political independence of an American State, the States signatory to this Act will consult among themselves in order to agree upon the measures it may be advisable to take. Acts of aggression.

5. That during the war, and until the treaty recommended in Part II hereof is concluded, the signatories of this Act recognize that such threats and acts of aggression, as indicated in paragraphs 3 and 4 above, constitute an interference with the war effort of the United Nations, calling for such procedures, within the scope of their constitutional powers of a general nature and for war, as may be found necessary, including: recall of chiefs of diplomatic missions; breaking of diplomatic relations; breaking of consular relations; breaking of postal, telegraphic, telephonic, radio-telephonic relations; interruption of economic, commercial and financial relations; use of armed force to prevent or repel aggression. Procedures in case of aggression, etc.

6. That the principles and procedure contained in this Declaration shall become effective immediately, inasmuch as any act of aggression or threat of aggression during the present state of war interferes with the war effort of the United Nations to obtain victory. Henceforth, and to the end that the principles and procedures herein stipulated shall conform with the constitutional processes of each Republic, the respective Governments shall take the necessary steps to perfect this instrument in order that it shall be in force at all times. Effective date.

of the Pan American Union*

Financial agreement between the United States of America and the United Kingdom. Signed at Washington December 6, 1945; effective July 15, 1946.

December 6, 1945
[T. I. A. S. 1545]

FINANCIAL AGREEMENT BETWEEN THE GOVERNMENTS OF THE UNITED STATES AND THE UNITED KINGDOM

It is hereby agreed between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland as follows:

1. Effective date of the Agreement. The effective date of this Agreement shall be the date on which the Government of the United States notifies the Government of the United Kingdom that the Congress of the United States has made available the funds necessary to extend to the Government of the United Kingdom the line of credit in accordance with the provisions of this Agreement.

Post, p. 1845.

2. Line of credit. The Government of the United States will extend to the Government of the United Kingdom a line of credit of \$3,750,000,000 which may be drawn upon at any time between the effective date of this Agreement and December 31, 1951, inclusive.

3. Purpose of the line of credit. The purpose of the line of credit is to facilitate purchases by the United Kingdom of goods and services in the United States, to assist the United Kingdom to meet transitional postwar deficits in its current balance of payments, to help the United Kingdom to maintain adequate reserves of gold and dollars, and to assist the Government of the United Kingdom to assume the obligations of multilateral trade, as defined in this and other agreements.

4. Amortization and interest.

(i) The amount of the line of credit drawn by December 31, 1951, shall be repaid in 50 annual installments beginning on December 31, 1951, with interest at the rate of 2 percent per annum. Interest for the year 1951 shall be computed on the amount outstanding on December 31, 1951, and for each year thereafter, interest shall be computed on the amount outstanding on January 1 of each such year.

Forty-nine annual installments of principal repayments and interest shall be equal, calculated at the rate of \$31,823,000 for each \$1,000,000,000 of the line of credit drawn by December 31, 1951, and the fiftieth annual installment shall be at the rate of \$31,840,736.65 for each such \$1,000,000,000. Each installment shall consist of the full amount of the interest due and the remainder of the installment shall be the principal to be repaid in that year. Payments required by this section are subject to the provisions of section 5.

(ii) The Government of the United Kingdom may accelerate repayment of the amount drawn under this line of credit.

5. Waiver of interest payments. In any year in which the Government of the United Kingdom requests the Government of the United States to waive the amount of the interest due in the installment of that year, the Government of the United States will grant the waiver if:

(a) the Government of the United Kingdom finds that a waiver is necessary in view of the present and prospective conditions of international exchange and the level of its gold and foreign exchange reserves and

(b) the International Monetary Fund certifies that the income of the United Kingdom from home-produced exports plus its net income from invisible current transactions in its balance of payments was on the average over the five preceding calendar years less than the average annual amount of United Kingdom imports during 1936-8, fixed at £866 million, as such figure may be adjusted for changes in the price level of these imports. Any amount in excess of £43,750,000 released or paid in any year on account of sterling balances accumulated to the credit of overseas governments, monetary authorities and banks before the effective date of this Agreement shall be regarded as a capital transaction and therefore shall not be included in the above calculation of the net income from invisible current transactions for that year. If waiver is requested for an interest payment prior to that due in 1955, the average income shall be computed for the calendar years from 1950 through the year preceding that in which the request is made.

6. Relation of this line of credit to other obligations.

(i) It is understood that any amounts required to discharge obligations of the United Kingdom to third countries outstanding on the effective date of this Agreement will be found from resources other than this line of credit.

(ii) The Government of the United Kingdom will not arrange any long-term loans from governments within the British Commonwealth after December 6, 1945, and before the end of 1951 on terms more favorable to the lender than the terms of this line of credit.

(iii) Waiver of interest will not be requested or allowed under section 5 in any year unless the aggregate of the releases or payments in that year of sterling balances accumulated to the credit of overseas governments, monetary authorities and banks (except in the case of colonial dependencies) before the effective date of this Agreement is reduced proportionately, and unless interest payments due in that year on loans referred to in (ii) above are waived. The proportionate reduction of the releases or payments of sterling balances shall be calculated in relation to the aggregate released and paid in the most recent year in which waiver of interest was not requested.

(iv) The application of the principles set forth in this section shall be the subject of full consultation between the two governments as occasion may arise.

7. Sterling area exchange arrangements.

The Government of the United Kingdom will complete arrangements as early as practicable and in any case not later than one year after the effective date of this Agreement, unless in exceptional cases a later date is agreed upon after consultation, under which immediately after the completion of such arrangements the sterling receipts from current transactions of all sterling area countries (apart from any receipts arising out of military expenditure by the Government of the United Kingdom prior to December 31, 1948, to the extent to which they are treated by agreement with the countries concerned on the same basis as the balances accumulated during the war) will be freely available for current transactions in any currency area without discrimination; with the result that any discrimination arising from the so-called sterling area dollar pool will be entirely removed and that each member of the sterling area will have its current sterling and dollar receipts at its free disposition for current transactions anywhere.

8. Other exchange arrangements.

(i) The Government of the United Kingdom agrees that after the effective date of this Agreement it will not apply exchange controls in such a manner as to restrict (a) payments or transfers in respect of products of the United States permitted to be imported into the United Kingdom or other current transactions between the two countries or (b) the use of sterling balances to the credit of residents of the United States arising out of current transactions. Nothing in this paragraph (i) shall affect the provisions of Article VII of the Articles of Agreement of the International Monetary Fund when those Articles have come into force.

Ante, p. 1410.

(ii) The Governments of the United States and the United Kingdom agree that not later than one year after the effective date of this Agreement, unless in exceptional cases a later date is agreed upon after consultation, they will impose no restrictions on payments and transfers for current transactions. The obligations of this paragraph (ii) shall not apply:

(a) to balances of third countries and their nationals accumulated before this paragraph (ii) becomes effective; or

(b) to restrictions imposed in conformity with the Articles of Agreement of the International Monetary Fund, provided that the Governments of the United Kingdom and the United States will not continue to invoke the provisions of Article XIV, Section 2 of those Articles after this paragraph (ii) becomes effective, unless in exceptional cases after consultation they agree otherwise; or

Ante, p. 1420.

(c) to restrictions imposed in connection with measures designed to uncover and dispose of assets of Germany and Japan.

(iii) This section and section 9, which are in anticipation of more comprehensive arrangements by multilateral agreement, shall operate until December 31, 1951.

9. Import arrangements. If either the Government of the United States or the Government of the United Kingdom imposes or maintains

quantitative import restrictions, such restrictions shall be administered on a basis which does not discriminate against imports from the other country in respect of any product; provided that this undertaking shall not apply in cases in which (a) its application would have the effect of preventing the country imposing such restrictions from utilizing, for the purchase of needed imports, inconvertible currencies accumulated up to December 31, 1946, or (b) there may be special necessity for the country imposing such restrictions to assist, by measures not involving a substantial departure from the general rule of non-discrimination, a country whose economy has been disrupted by war, or (c) either government imposes quantitative restrictions having equivalent effect to any exchange restrictions which that government is authorized to impose in conformity with Article VII of the Articles of Agreement of the International Monetary Fund. The provisions of this section shall become effective as soon as practicable but not later than December 31, 1946.

Ante, p. 1410.

10. Accumulated sterling balances.

(i) The Government of the United Kingdom intends to make agreements with the countries concerned, varying according to the circumstances of each case, for an early settlement covering the sterling balances accumulated by sterling area and other countries prior to such settlement (together with any future receipts arising out of military expenditure by the Government of the United Kingdom to the extent to which they are treated on the same basis by agreement with the countries concerned). The settlements with the sterling area countries will be on the basis of dividing these accumulated balances into three categories (a) balances to be released at once and convertible into any currency for current transactions, (b) balances to be similarly released by installments over a period of years beginning in 1951, and (c) balances to be adjusted as a contribution to the settlement of war and postwar indebtedness and in recognition of the benefits which the countries concerned might be expected to gain from such a settlement. The Government of the United Kingdom will make every endeavor to secure the early completion of these arrangements.

(ii) In consideration of the fact that an important purpose of the present line of credit is to promote the development of multilateral trade and facilitate its early resumption on a non-discriminatory basis, the Government of the United Kingdom agrees that any sterling balances released or otherwise available for current payments will, not later than one year after the effective date of this Agreement unless in special cases a later date is agreed upon after consultation, be freely available for current transactions in any currency area without discrimination.

11. Definitions.

For the purposes of this Agreement:

(i) The term "current transactions" shall have the meaning prescribed in Article XIX (i) of the Articles of Agreement of the International Monetary Fund.

"Current transactions."

Ante, p. 1425.

(ii) The term "sterling area" means the United Kingdom and the other territories declared by the Defence (Finance) (Definition of Sterling Area) (No. 2) Order, 1944, to be included in the sterling area, namely "the following territories excluding Canada and Newfoundland, that is to say—

"Sterling area."

- (a) any Dominion,
- (b) any other part of His Majesty's dominions,
- (c) any territory in respect of which a mandate on behalf of the League of Nations has been accepted by His Majesty and is being exercised by His Majesty's Government in the United Kingdom or in any Dominion,
- (d) any British protectorate or protected State,
- (e) Egypt, the Anglo-Egyptian Sudan and Iraq,
- (f) Iceland and the Faroe Islands."

12. Consultation on Agreement. Either government shall be entitled to approach the other for a reconsideration of any of the provisions of this Agreement, if in its opinion the prevailing conditions of international exchange justify such reconsideration, with a view to agreeing upon modifications for presentation to their respective legislatures.

ACTA FINAL
DE LA
CONFERENCIA INTERAMERICANA SOBRE PROBLEMAS DE
LA GUERRA Y DE LA PAZ

En virtud de la invitación hecha el 10 de enero de 1945, por el Gobierno de los Estados Unidos Mexicanos, se reunieron en la ciudad de México, el 21 de febrero del mismo año, las Delegaciones de los países que en seguida se enumeran de acuerdo con el orden de precedencias que resultó del sorteo verificado—el mismo día 21—conforme al inciso g) del artículo 5o. del Reglamento de la Conferencia:

IX

REORGANIZACION, CONSOLIDACION Y FORTALECIMIENTO
DEL SISTEMA INTERAMERICANO

La Conferencia Interamericana sobre Problemas de la Guerra y de la Paz,

CONSIDERANDO:

Que el sistema interamericano y los principios, instrumentos, organismos y procedimientos que le dan substancia constituyen la manifestación viva de la determinación de las Repúblicas soberanas de América de actuar unidas para el logro de sus propósitos comunes en el mantenimiento de la paz, la seguridad y el fomento del bienestar de sus pueblos;

Que el sistema interamericano se inspira y tradicionalmente se ha inspirado en un profundo sentimiento de cooperación universal;

Que el sistema interamericano, como expresión de los ideales, las necesidades y la voluntad comunes de la colectividad de Repúblicas americanas, debe mejorarse y fortalecerse aun más ahora para realizar el ajuste y la solución de los problemas interamericanos;

Que el sistema interamericano debe, además, mantener las más amplias relaciones con el organismo internacional general propuesto y asumir las responsabilidades pertinentes en armonía con los principios y propósitos de dicho organismo internacional general,

RESUELVE:

10.—Las Conferencias Internacionales Americanas se celebrarán ordinariamente cada cuatro años y serán el órgano interamericano que se encargue de formular la política general interamericana y de determinar la estructura y las funciones de los instrumentos y organismos interamericanos. La próxima Conferencia se reunirá en Bogotá en 1946.

20.—Las Reuniones Ordinarias de Consulta entre los Ministros de Relaciones Exteriores se celebrarán anualmente, previa convocatoria especial del Consejo de la Unión Panamericana, salvo el caso de que en el mismo año hubiere de celebrarse la Conferencia Internacional Americana prevista en el artículo anterior. La próxima reunión ordinaria de Ministros de Relaciones Exteriores se efectuará en 1947.

Corresponderá a las Reuniones de Consulta tomar decisiones concernientes a los problemas de mayor urgencia e importancia dentro del sistema interamericano y a las situaciones y disputas de todo género que puedan turbar la paz de las Repúblicas del Hemisferio.

Si excepcionalmente los Ministros de Relaciones Exteriores no pudieren concurrir, se harán representar por un Delegado especial.

30.—El Consejo Directivo de la Unión Panamericana se compondrá de sendos Delegados ad hoc, designados por las Repúblicas americanas, los cuales tendrán categoría de Embajadores y gozarán de los privilegios e inmunidades que como a tales les correspondan; pero no podrán formar parte de la misión diplomática acreditada ante el Gobierno en cuyo territorio se halle la sede de la Unión Panamericana. Esta norma regirá cuando termine el actual período de sesiones del presente Consejo.

40.—Además de sus funciones actuales, el Consejo Directivo de la Unión Panamericana

- a) Conocerá, dentro de los límites que le tracen las Conferencias Internacionales Americanas, o por encargo especial de las Reuniones de los Ministros de Relaciones Exteriores, de cualquier asunto que afecte al funcionamiento efectivo del sistema interamericano y a la solidaridad y bienestar general de las Repúblicas americanas;
- b) Convocará a las Reuniones Ordinarias de Consulta entre los Ministros de Relaciones Exteriores, previstas en el inciso primero del Artículo 2, o a reuniones extraordinarias, cuando ellas sean solicitadas, para tratar exclusivamente cuestiones de emergencia. En este último caso, la convocatoria se determinará por mayoría absoluta de votos de los miembros del Consejo;
- c) Supervisará los organismos interamericanos que estén relacionados con la Unión Panamericana, o que pasen a estar relacionados con ella, y recibirá y aprobará los informes anuales o especiales de esos organismos.

50.—La Presidencia del Consejo Directivo de la Unión Panamericana se designará por elecciones anuales y el Presidente no podrá ser reelecto para el período inmediato.

El Consejo Directivo de la Unión Panamericana se reunirá cuando menos una vez por semana.

La sede de la Unión Panamericana y del Consejo Directivo continuará en Washington.

El Director de la Unión Panamericana será designado por el Consejo para un período de diez años; no podrá ser reelecto ni ser sucedido por una persona de su misma nacionalidad.

Cuando se produzca vacante en el cargo de Director de la Unión Panamericana, se elegirá libremente su reemplazo hasta el término del período, y dicho reemplazo podrá ser reelecto si la vacante se hubiere producido en la segunda mitad del período.

El primer período comenzará a contarse desde el 1o. de enero de 1955.

La designación y reemplazo del Subdirector se regirá por las mismas normas anteriores, pero el primer período comenzará a contarse desde el 1o. de enero de 1960.

Queda entendido que en cualquier tiempo el Consejo Directivo podrá, con el voto de 15 de sus miembros, acordar la remoción del Director o del Subdirector por razones relacionadas con la eficacia del organismo.

6o.—Mientras la Novena Conferencia Internacional Americana, de acuerdo con el procedimiento que se establece adelante, crea o confirma los diversos organismos del sistema americano, continuarán en sus funciones los siguientes organismos creados por las Reuniones de Consulta entre los Ministros de Relaciones Exteriores: el Comité Jurídico Interamericano, el Comité Consultivo de Emergencia para la Defensa Política y la Junta Interamericana de Defensa.

7o.—En sustitución del organismo de emergencia que actualmente funciona con el nombre de Comité Consultivo Económico-Financiero Interamericano, créase un Consejo Interamericano Económico y Social, de carácter permanente que dependerá del Consejo Directivo de la Unión Panamericana, los miembros del cual serán designados por los respectivos Gobiernos y que tendrá facultades para:

- a) Procurar el cumplimiento de las recomendaciones de las Conferencias Internacionales Americanas;
- b) Actuar como organismo coordinador de todas las actividades oficiales interamericanas de carácter económico y social;
- c) Promover el progreso social y la elevación del nivel de vida para todos los pueblos americanos;
- d) Empezar estudios y otras actividades por iniciativa propia o a petición de cualquier gobierno americano;
- e) Recabar y preparar informes sobre asuntos económicos y sociales para uso de las Repúblicas americanas;
- f) Mantener contacto con la entidad correspondiente del organismo internacional, cuando se establezca, y con los organismos internacionales de carácter económico y social existentes o proyectados.

El Consejo Directivo de la Unión Panamericana tendrá facultad para organizar provisionalmente el Consejo Interamericano Económico y Social. La organización definitiva corresponderá a la Novena Conferencia Internacional Americana.

80.—Será mantenida la Oficina de Cooperación Intelectual con el objeto de intensificar, por todos los medios a su alcance, las relaciones espirituales entre los países americanos.

90.—Se encarga al Consejo Directivo de la Unión Panamericana de preparar, a partir del 1o. de mayo de 1945 y asesorándose de todos aquellos organismos panamericanos que estime convenientes, un anteproyecto de pacto constitutivo destinado a mejorar y fortalecer el sistema panamericano. El Consejo Directivo deberá someter a todos los Gobiernos del Continente dicho anteproyecto antes del 31 de diciembre de 1945.

El anteproyecto de Pacto proclamará en primer término:

El reconocimiento, por parte de todas las Repúblicas americanas, del Derecho Internacional como regla efectiva de su conducta y el compromiso de las mismas de observar las normas enunciadas en una "Declaración de Derechos y Deberes de los Estados" y en una "Declaración de Derechos y Deberes Internacionales del Hombre", que sirvan para precisar los principios fundamentales del Derecho Internacional y que deberán figurar como anexos al Pacto, a fin de que, sin necesidad de modificar éste, puedan ser revisadas de tiempo en tiempo con objeto de que correspondan a las necesidades y aspiraciones de la convivencia internacional.

Para la elaboración de la primera Declaración, deberán coordinarse los principios ya incorporados al patrimonio jurídico del sistema interamericano, especialmente los contenidos en la "Convención sobre Derechos y Deberes de los Estados", aprobada en la Séptima Conferencia Internacional Americana; en la "Declaración de Principios sobre Solidaridad y Cooperación Interamericanas", adoptada en la Conferencia Interamericana de Consolidación de la Paz; en la "Declaración de los Principios de Solidaridad de América" y la "Declaración de Principios Americanos", frutos de la Octava Conferencia Internacional Americana; en la "Declaración sobre Mantenimiento de las Actividades Internacionales dentro de la Moral Cristiana" y la Declaración relativa a "Asistencia Recíproca y Cooperación Defensiva de las Naciones Americanas", sancionadas respectivamente en la Primera y Segunda Reuniones de Consulta; y en las Declaraciones acerca de "Solidaridad Continental en la Observancia de los Tratados Internacionales" y "Política del Buen Vecino", y que adoptó la Tercera Reunión de Consulta. Se tomará también en cuenta el proyecto de "Reafirmación de Principios Fundamentales de Derecho Internacional", preparado por el Comité Jurídico Interamericano y cualquiera Declaración de Principios que pudiera adoptar esta Conferencia.

En cuanto a la segunda Declaración antes mencionada, el texto será el que, en cumplimiento de la misión que se le confía en otra resolución de la presente Conferencia, formulará el Comité Jurídico Interamericano.

Es el deseo de la Conferencia Interamericana sobre Problemas de la Guerra y de la Paz que se tome en cuenta la Comisión Interamericana de Mujeres, que por 16 años ha prestado eminentes servicios a la causa americana y a la humanidad y que se la incluya entre las instituciones que integran la Unión Panamericana, con las mismas prerrogativas e igual tratamiento de que gozan las otras instituciones interamericanas que han trabajado dentro y fuera de la Unión Panamericana con carácter permanente o de emergencia.

10o.—El anteproyecto de Pacto deberá proveer al fortalecimiento del sistema americano sobre las bases de esta resolución y con la creación de nuevos órganos o la eliminación y adaptación de los actuales, precisando sus funciones y su coordinación entre sí y con la organización mundial.

El mismo anteproyecto atenderá a la necesidad de acelerar la consolidación y extensión de los instrumentos interamericanos de paz ya existentes y a la simplificación y mejoramiento del organismo de paz interamericano; a este fin, el Consejo Directivo de la Unión Panamericana deberá utilizar los servicios del Comité Jurídico Interamericano. Asimismo, el anteproyecto procurará la consolidación y simplificación de todos los demás instrumentos interamericanos, con el propósito de que su acción sea más efectiva.

11o.—Los Gobiernos americanos enviarán al Consejo Directivo de la Unión Panamericana, antes del 1o. de septiembre de 1945, todas las iniciativas que se relacionen con los artículos anteriores.

12o.—El anteproyecto contendrá asimismo el establecimiento de un sistema equitativo de financiación para el sostenimiento de la Unión Panamericana y de todos los organismos conexos.

(Aprobada en la sesión plenaria del día 6 de marzo de 1945).

En testimonio de lo cual, los Delegados de las Repúblicas americanas que participaron en la Conferencia Interamericana sobre Problemas de la Guerra y de la Paz, firman la presente Acta Final, hecha en español, en la ciudad de México, a los ocho días del mes de marzo de mil novecientos cuarenta y cinco.

La Secretaría General depositará el original en los Archivos de la Secretaría de Relaciones Exteriores del Gobierno de México, la que remitirá copias certificadas de la misma a los Gobiernos de las Repúblicas americanas, a la Unión Panamericana, a la Secretaría General de la Sociedad de las Naciones, a la Oficina Internacional del Trabajo, a la Oficina Sanitaria Panamericana y a la Unión Interamericana del Caribe.

La Unión Panamericana se encargará de hacer las traducciones de esta Acta a los demás idiomas oficiales de la Conferencia.

SECOND NORTH AMERICAN REGIONAL BROADCASTING CONFERENCE
INTERIM AGREEMENT—ANNEX 3

North American Regional Broadcasting Engineering Committee

A. The members of this Committee shall be appointed by their respective Governments under such circumstances and for such periods as each may decide. The first meeting of the committee shall be convened before June 1, 1946 by the member appointed by the United States of America for the purpose of electing a chairman, and of adopting rules of practice and procedure to be followed in the performance of the functions herein after set forth. These rules shall include detailed requirements as to the methods of measurements, and other matters of importance to the Committee. The rules will be distributed to all interested Governments.

Appointment of members.

B. This Committee shall, whenever a request is made by any signatory or adherent to this Agreement, perform the following duties:

Duties of committee.

1. Inspect new installations or changes in existing facilities prior to regular operation to insure that adequate provision is made to prevent radiation toward other countries in excess of the acceptable maximum.
2. Investigate whenever observed interference indicates the possibility of maladjustments of radio transmitting equipment, and recommend adjustments or modifications to insure that the specified radiation in pertinent directions is not exceeded.
3. Investigate whenever observed interference indicates the possibility of other maladjustments of transmitting equipment resulting in objectionable interference from causes such as excessive frequency deviation, excessive modulation, spurious emissions, or other causes and to recommend all necessary adjustments or modifications to eliminate such interference.

C. Upon receipt of a notification for construction of a new station or changes in facilities of an existing station in another country, any Government receiving such notice may request that prior to regular operation there shall be an inspection by the North American Regional Broadcasting Engineering Committee. As construction nears completion, but prior to operation, the Government of the country in which the station is located shall notify the Government of the country requesting the inspection that the installation is ready for inspection. The representatives of these Governments on the Engineering Committee will then make immediate arrangements for inspection of the facilities.

Inspection of new stations.

D. When any Government signatory or adhering to this Agreement has reason to believe that interference in excess of that permitted by this Agreement is being caused to any station located in that country

Interference by stations in other countries.

as a result of the operation of a station located in another country signatory or adhering to this Agreement, such Government shall notify its representative on the North American Regional Broadcasting Engineering Committee and the Government of the country in which the alleged interfering station is located that it has reason to believe that excessive interference is being caused and shall state the general character of such interference. On receipt of the notice, the Government to which it is addressed will refer the same to its committee member. Within ten days the interested committee members shall meet at the location of the alleged interfering station and make such measurements as appear necessary to determine material facts bearing upon the issues raised in the complaint.

E. In the event the Government requesting an inspection or investigation or the Government of a country in which an inspection or investigation is requested does not have a representative on the North American Regional Broadcasting Engineering Committee, such Government shall designate a committee representative to serve the particular case. In any case where neither Government is represented on the standing committee, both shall designate committee representatives for that purpose.

F. In making field intensity measurements or inspections, committee members shall be governed by the standards of good engineering practice accepted by the Committee.

Provision of radio measuring equipment.

G. Each committee member shall be individually provided by his Government with appropriate items of radio measuring equipment or apparatus properly calibrated in accordance with mutually acceptable standards.

Report of committee.

H. Where examination shows that the construction referred to in Paragraph "C" hereof is in accordance with the notification, and that provisions have been made for protection in accordance with the notification, the Committee will so report to the Government of the country in which the station is located and at the same time communicate a copy of such report to the Government or Governments requesting the examination. Where the examination indicates that the construction is not in accordance with the notification, or that provisions have not been made for protection in accordance with the notification, the Committee shall make such report to the Governments together with recommendations as to changes of construction, modification, or adjustments of circuits necessary to comply fully with the notification.

I. Where measurements are made following a complaint by a signatory or adhering Government, the results of such measurements with recommendations of the Committee members shall be communicated forthwith to the interested Governments.

Corrections or adjustments.

J. Upon receipt of a report that inspection of facilities shows that adequate provisions had not been made to prevent radiations in excess of the accepted maximum with recommendations as to measure necessary for correction, the Government of the country in which the facilities are located shall take steps to see that the necessary corrections or adjustments are made prior to operation of the facilities.

K. Upon receipt of a report indicating that interference investigated is, in fact, excessive, the Government of the country in which the interfering station is located shall immediately take steps providing for the elimination of such interference. If the interference found by the Committee cannot be eliminated within ten days by adjustments of equipment, the power of the offending station shall be reduced as much as is necessary to eliminate such interference.

Elimination of interference.

L. Where the committee members of the interested Governments do not agree as to their report or recommendations relating to inspection of new or changed facilities, or upon the investigation of an interference complaint, each committee member shall make a complete report covering all material facts with respect to the matters under consideration and such recommendations as he may believe proper, transmitting the same immediately to the interested Governments. Copies of both reports shall be referred to the full committee. The full committee shall review the case and make such additional investigations as it may deem necessary and then report its findings and recommendations to the Governments of the stations concerned in the matter. Upon receipt of such recommendations, the Government of the country in which the facilities concerned are located shall take such steps as is necessary to comply with the recommendations of the Committee. If the interference found by the Committee cannot be eliminated within ten days by adjustments of equipment, the power of the offending station shall be reduced as much as is necessary to eliminate such interference.

Disagreement of committee on report or recommendations.

Review of case.

I certify that the foregoing is a true and exact copy of the Interim Agreement (Modus Vivendi) and its annexes, concluded at the Second North American Regional Broadcasting Conference, to regulate the use of the standard broadcast band in the North American region, held at Washington, D.C., from February 4 to 25, 1946, and signed in Washington in two originals in the Spanish and English language which are deposited in the archives of the Government of Cuba.

In testimony whereof, I, Alberto Inocente Alvarez, Minister of State of the Republic of Cuba, have hereunto caused the Seal of the Republic of Cuba to be affixed, and I have authenticated with my signature this copy, in the city of Habana, this 3rd day of June, 1946.

C., en la Segunda Conferencia Regional Norteamericana de Radiodifusión, del 4 al 25 de febrero de 1946, a fin de considerar los problemas inherentes a la expiración, el 28 de marzo de 1946, del Convenio Regional Norteamericano de Radiodifusión, firmado en La Habana, Cuba, el 13 de diciembre de 1937, así como la mejoría en el uso de la banda normal de radiodifusión en la Región Norteamericana,

A C U E R D A N

ARTÍCULO I

Continuar aplicando, dentro de sus respectivas jurisdicciones, durante el período provisional descrito en el Artículo XVII de este instrumento, todas las disposiciones administrativas y normas de ingeniería del Convenio Regional Norteamericano de Radiodifusión firmado en La Habana el 13 de diciembre de 1937, sujeto a las modificaciones y adiciones estipuladas más adelante.

ARTÍCULO II

Las Partes V y VI del Convenio Regional Norteamericano de Radiodifusión, Habana, 1937, serán inaplicables a este Convenio Interino.

ARTÍCULO III

Cuba está de acuerdo en ceder a los Estados Unidos de América, el uso del canal despejado de 1540 kc. para estación Clase I-A, a cambio de la frecuencia de 640 kc., en la forma estipulada en el Anexo 1 de este instrumento.

ARTÍCULO IV

Cuba tendrá derecho a usar las facilidades adicionales de radiodifusión detalladas en el Anexo 1 de este instrumento, con la potencia y bajo las condiciones de operación y limitaciones especificadas en el mismo. La llamada regla de las 650 millas, contenida en la Parte II,

C, Sección 4, párrafo B, del Convenio Regional Norteamericano de Radiodifusión, Habana, 1937, no será aplicable a Cuba en relación con el uso de las frecuencias relacionadas en el Anexo 1.

ARTÍCULO V

Cuba tendrá derecho a operar estaciones de la Clase II Especiales en las frecuencias regionales descritas en el Anexo 2, con la potencia y bajo las condiciones de operación y limitaciones especificadas en el mismo.

ARTÍCULO VI

El Gobierno de las Islas Bahamas cesará toda operación en la frecuencia de 640 kc. a más tardar el primero de agosto de 1946. El Gobierno de las Islas Bahamas notificará directamente al Gobierno de Cuba, en o antes del día primero de junio de 1946, la fecha exacta en que dejará de usar dicha frecuencia.

ARTÍCULO VII

Los Estados Unidos de América están de acuerdo en asignar la frecuencia de 1540 kc. con protección Clase I-A, de conformidad con el Convenio Regional Norteamericano de Radiodifusión, Habana, 1937, al Gobierno de las Islas Bahamas, con sujeción a las estipulaciones de este Convenio.

Los Estados Unidos de América están de acuerdo además, en colaborar con el Gobierno de las Islas Bahamas, después de que se hayan realizado pruebas en 1540 kc. o en otras frecuencias que pueden ser sugeridas por los Estados Unidos de América, con miras a determinar si la frecuencia de 1540 kc. o alguna otra frecuencia podría substituir, en las Islas Bahamas, la de 640 kc.

ARTÍCULO VIII

Los Gobiernos parte de este Convenio cooperarán para reducir al mínimo las interferencias a sus servicios respectivos. Reconociendo que la propagación sobre el mar es superior a la propagación sobre tierra y que las normas de ingeniería actuales no toman en cuenta de manera apropiada condiciones de esta naturaleza, los Gobiernos están de acuerdo en cooperar para reducir a un mínimo las interferencias, en caso de que las intensidades de la señal reflejada excedan de los valores estipulados en este Convenio.

ARTÍCULO IX

Salvo lo estipulado específicamente en este Convenio Interino, los Gobiernos signatarios están de acuerdo en que nada de lo que él contiene limitará o restringirá el uso de cualquier canal despejado, asignado por el Convenio Regional Norteamericano de Radiodifusión, Habana, 1937, para uso de estaciones Clase I-A en el país en el cual puedan estar ubicadas dichas estaciones.

ARTÍCULO X

Los Gobiernos signatarios y adheridos a este Convenio se comprometen a aplicar las disposiciones del mismo y a tomar las medidas necesarias para que las empresas particulares reconocidas o autorizadas por ellos para establecer y operar estaciones radiodifusoras dentro de sus países respectivos, cumplan dichas disposiciones.

ARTÍCULO XI

Las notificaciones contenidas en una lista completa de las estaciones radiodifusoras en la banda normal de radiodifusión actualmente en operación en cada país y que hayan sido hechas y aceptadas sin objeción por parte de los expresados Gobiernos de acuerdo con la Parte III del Convenio Regional Norteamericano de Radiodifusión, Habana, 1937, así como los cambios igualmente hechos y aceptados durante la vigencia de dicho Convenio, los continuarán reconociendo los signatarios y adheridos a este Convenio Interino, sujeto a los cambios y modificaciones específicos estipulados en este instrumento.

ARTÍCULO XII

Se establecerá un Comité Regional Norteamericano de Ingeniería de Radiodifusión compuesto de cuatro técnicos, uno de Canadá, uno de Cuba, uno de México y uno de los Estados Unidos de América, con el objeto de determinar hechos y hacer recomendaciones pertinentes que capaciten a los Gobiernos para cumplir las disposiciones de este Convenio, para su mutua satisfacción. La organización, deberes y procedimientos de este Comité serán regidos por el Anexo 3.

ARTÍCULO XIII

Con objeto de concertar un nuevo Convenio Regional Norteamericano de Radiodifusión en la fecha más próxima posible, los Gobiernos signatarios:

A. Iniciarán inmediatamente los estudios necesarios para la concertación de dicho Convenio.

B. Intercambiarán sus puntos de vista, una vez terminados sus estudios respectivos. Para este fin, cada Gobierno enviará a la Oficina Interamericana de Radio el primero de octubre de 1946, o antes de esa fecha, doce copias de sus conclusiones y datos que las fundamenten.

C. Celebrarán en la ciudad de La Habana, Cuba, una reunión de sus técnicos alrededor del día 2 de enero de 1947, en preparación de la Tercera Conferencia Regional Norteamericana de Radiodifusión, quienes examinarán los aspectos técnicos de los documentos presentados por los Gobiernos interesados. El informe general de los técnicos sobre sus puntos de vista, conclusiones y recomendaciones se hará circular entre los Gobiernos por la Oficina Interamericana de Radio, a más tardar el primero de marzo de 1947.

D. Comunicarán a los demás Gobiernos, a través de la Oficina Interamericana de Radio, después de considerar el informe general, y antes del primero de junio de 1947, sus proposiciones en relación con la Tercera Conferencia Regional Norteamericana de Radiodifusión.

ARTÍCULO XIV

La Oficina Interamericana de Radio será la encargada de preparar y hacer circular, a más tardar el primero de agosto de 1947, la Agenda para la Tercera Conferencia Regional Norteamericana de Radiodifusión.

ARTÍCULO XV

El Gobierno del Canadá tendrá a su cargo la organización y convocatoria de la Tercera Conferencia Regional Norteamericana de Radiodifusión, que tendrá lugar en Canadá alrededor del día 15 de septiembre de 1947.

ARTÍCULO XVI

Este Convenio Interino se aplicará en conexión con las disposiciones del Convenio Regional Norteamericano de Radiodifusión, Habana, 1937; pero, en caso de conflicto, prevalecerán las estipulaciones de este Convenio Interino.

ARTÍCULO XVII

Este Convenio Interino regirá por un período de tres años, a partir del 29 de marzo de 1946, a menos que, antes de su expiración, se haya firmado y ratificado un nuevo Convenio Regional Norteamericano de Radiodifusión.

ARTÍCULO XVIII

Este Convenio Interino estará abierto a la firma del Gobierno de la República de Haití, signatario del Convenio Regional Norteamericano de Radiodifusión, Habana, 1937.

EN TESTIMONIO DE LO CUAL, los representantes, debidamente autorizados por sus respectivos Gobiernos, firman este Convenio, cuyo texto ha sido redactado en español e inglés. SEGUNDA CONFERENCIA REGIONAL NORTEAMERICANA DE
RADIODIFUSIÓN CONVENIO INTERINO—ANEXO 3

Comité Regional Norteamericano de Ingeniería de Radiodifusión

A. Los representantes ante este Comité serán nombrados por sus Gobiernos respectivos, bajo las condiciones y por los períodos que cada uno señale. La primera reunión de este Comité será convocada para celebrarse antes del primero de junio de 1946 por el representante de los Estados Unidos de América, con el fin de elegir un Presidente y de adoptar las reglas de práctica y procedimiento que deben seguirse para el desarrollo de las funciones que se especifican más adelante. Estas reglas incluirán requisitos detallados para los métodos de mediciones y para otros asuntos de importancia para el Comité. Las reglas serán distribuidas entre los Gobiernos interesados.

B. Cada vez que un Gobierno signatario o adherido a este Convenio lo solicite, el Comité llevará a cabo las siguientes funciones:

1. Inspeccionar nuevas instalaciones o cambios en las existentes, con anticipación al comienzo de su operación regular, para asegurar que se han tomado medidas adecuadas tendientes a impedir una radiación hacia otros países que sea superior al máximo aceptable.
2. Investigar, cuando la interferencia observada indique la posibilidad de malos ajustes del equipo transmisor de radio, y recomendar ajustes o modificaciones para asegurar que no se exceda la radiación especificada en las direcciones que sean del caso.
3. Investigar, cuando la interferencia observada indique la posibilidad de malos ajustes del equipo transmisor de radio que den por resultado interferencia objetable motivada por excesiva desviación de frecuencia, excesiva modulación, emisiones espurias u otras causas y recomendar los ajustes o modificaciones necesarios para eliminar dicha interferencia.

C. Al recibo de una notificación sobre la construcción de una nueva estación o de cambios a las existentes en otro país, cualquier gobierno que la reciba puede solicitar que, con anterioridad a la operación regular, se lleve a cabo una inspección por parte del Comité Regional Norteamericano de Ingeniería de Radiodifusión. Al aproximarse la terminación de la construcción, pero con anterioridad a su operación, el gobierno del país en donde esté ubicada la estación notificará al gobierno que solicita la inspección, que la instalación está lista para ese objeto. Los representantes de estos Gobiernos ante el Comité de Ingeniería harán entonces arreglos inmediatos para la inspección de la instalación.

D. Cuando cualquier gobierno signatario o adherido a este Convenio tenga alguna razón para creer que una interferencia superior a la permitida por este Convenio está siendo producida a una estación

ubicada en su país, como consecuencia de la operación de una estación situada en otro país signatario o adherido al Convenio, dicho gobierno notificará a su representante ante el Comité Regional Norteamericano de Ingeniería de Radiodifusión y al gobierno del país en el cual esté situada la estación señalada como interferente, que hay razón para creer que se está causando interferencia excesiva y definirá el carácter general de tal interferencia. Al recibo del aviso, el gobierno al cual se dirige lo turnará a su representante en el Comité. Dentro de un plazo de diez días, los representantes interesados del Comité deberán reunirse en el lugar de ubicación de la estación señalada como interferente y realizarán aquellas mediciones que les parezcan necesarias para determinar hechos materiales que sostengan los puntos en que se basa la queja.

E. Cuando el gobierno que solicite una inspección o investigación, o cuando el gobierno de un país señalado para efectuar una inspección o investigación, no tenga un representante ante el Comité Regional Norteamericano de Ingeniería de Radiodifusión, ese gobierno designará un representante ante el Comité que actúe para el caso particular. En la eventualidad de que ninguno de los dos gobiernos esté representado en el Comité, ambos designarán representantes ante dicho Comité para tomar parte en la inspección o investigación solicitada.

F. Al efectuar mediciones de intensidad de campo o inspecciones, los representantes ante el Comité se regirán por las normas de buena ingeniería aceptadas por el Comité.

G. Cada representante ante el Comité deberá ser provisto individualmente por su gobierno de los elementos apropiados para el equipo destinado a mediciones de radio, o de los aparatos debidamente calibrados, de acuerdo con normas mutuamente aceptables.

H. Cuando el examen demuestre que la construcción a que se refiere el párrafo C de este Artículo está de acuerdo con la notificación, y que se han tomado medidas para la protección, de conformidad con la misma notificación, el Comité lo informará así al gobierno del país en el cual esté ubicada la estación y, al mismo tiempo, comunicará este informe al gobierno o gobiernos que solicitaron el examen. Cuando el examen indique que la construcción no está de acuerdo con la notificación, o que no se han tomado medidas para la protección conforme a la notificación, el Comité rendirá informe en ese sentido a los gobiernos, juntamente con las recomendaciones relativas a cambios de construcción, modificación o ajustes de circuitos que sea necesario efectuar para cumplir completamente con la notificación.

I. Cuando se hayan hecho mediciones como consecuencia de una queja de un gobierno signatario o adherido al Convenio, deberán comunicarse inmediatamente a los gobiernos interesados los resultados de dichas mediciones, con las recomendaciones de los representantes ante el Comité.

J. Al recibo de un informe en el sentido de que la inspección de la instalación demuestra que no se han tomado medidas adecuadas para evitar radiaciones superiores al máximo aceptado, juntamente con recomendaciones acerca de las medidas necesarias para la corrección, el gobierno del país en donde esté ubicada la instalación dará pasos

encaminados a que las correcciones o ajustes necesarios se lleven a cabo con anterioridad a la operación de la instalación.

K. Al recibo de un informe que indique que la interferencia investigada es, en efecto, excesiva, el gobierno del país en el cual esté ubicada la estación interferente tomará inmediatamente medidas tendientes a la eliminación de dicha interferencia. Si la interferencia encontrada por el Comité no puede ser eliminada dentro del término de diez días mediante ajustes del equipo, deberá reducirse la potencia de la estación interferente en la medida que sea necesaria para eliminar dicha interferencia.

L. Cuando los representantes de los gobiernos ante el Comité no estén de acuerdo en cuando al informe o las recomendaciones relacionadas con la inspección de instalaciones nuevas o modificadas, o sobre la investigación de una queja relativa a interferencia, cada representante ante el Comité rendirá un informe completo que cubra todos los hechos materiales con respecto a los asuntos sometidos a su consideración. Incluirá en él aquellas recomendaciones que estime apropiadas, y lo transmitirá inmediatamente a los gobiernos interesados. Se enviarán copias de ambos informes al Comité en pleno. I.

Preparation of peace treaties with Italy, Rumania, Bulgaria, Hungary and Finland:

As announced on the 24th of December, 1945, the Governments of the Soviet Union, the United Kingdom and the United States have agreed and have requested the adherence of the Governments of France and China to the following procedure with respect to the preparation of peace treaties:

Drafting of peace treaties.

1. In the drawing up by the Council of Foreign Ministers of treaties of peace with Italy, Rumania, Bulgaria, Hungary, and Finland, only members of the Council who are, or under the terms of the Agreement establishing the Council of Foreign Ministers adopted at the Berlin Conference are deemed to be, signatory of the Surrender Terms, will participate, unless and until the Council takes further action under the Agreement to invite other members of the Council to participate on questions directly concerning them. That is to say:

- A) the terms of the peace treaty with Italy will be drafted by the Foreign Ministers of the United Kingdom, the United States, the Soviet Union and France;
- B) the terms of the peace treaties with Rumania, Bulgaria, and Hungary by the Foreign Ministers of the Soviet Union, the United States and the United Kingdom;

Signing of treaties.

5. The peace treaties will come into force immediately after they have been ratified by the Allied States signatory to the respective armistices, France being regarded as such in the case of the peace treaty with Italy. These treaties are subject to ratification by the enemy states in question.

Entry into force.

I. ESTABLISHMENT OF THE COMMISSION.

A Far Eastern Commission is hereby established composed of the representatives of the Union of Soviet Socialist Republics, United Kingdom, United States, China, France, the Netherlands, Canada, Australia, New Zealand, India, and the Philippine Commonwealth.

II. FUNCTIONS.

A. The functions of the Far Eastern Commission shall be:

1. To formulate the policies, principles, and standards in conformity with which the fulfillment by Japan of its obligations under the Terms of Surrender may be accomplished.

¹ [The Paris Conference was convened on July 29, 1946 to consider the peace treaties with Italy, Rumania, Bulgaria, Hungary, and Finland.]

2. To review, on the request of any member, any directive issued to the Supreme Commander for the Allied Powers or any action taken by the Supreme Commander involving policy decisions within the jurisdiction of the Commission.

3. To consider such other matters as may be assigned to it by agreement among the participating Governments reached in accordance with the voting procedure provided for in Article V-2 hereunder.

B. The Commission shall not make recommendations with regard to the conduct of military operations nor with regard to territorial adjustments.

C. The Commission in its activities will proceed from the fact that there has been formed an Allied Council for Japan and will respect existing control machinery in Japan, including the chain of command from the United States Government to the Supreme Commander and the Supreme Commander's command of occupation forces.

Post, p. 1903.

III. FUNCTIONS OF THE UNITED STATES GOVERNMENT.

Directives.

1. The United States Government shall prepare directives in accordance with policy decisions of the Commission and shall transmit them to the Supreme Commander through the appropriate United States Government agency. 2. If the Commission decides that any directive or action reviewed in accordance with Article II-A-2 should be modified, its decision shall be regarded as a policy decision.

Interim directives.

3. The United States Government may issue interim directives to the Supreme Commander pending action by the Commission whenever urgent matters arise not covered by policies already formulated by the Commission; provided that any directives dealing with fundamental changes in the Japanese constitutional structure or in the regime of control, or dealing with a change in the Japanese Government as a whole will be issued only following consultation and following the attainment of agreement in the Far Eastern Commission.

4. All directives issued shall be filed with the Commission.

IV. OTHER METHODS OF CONSULTATION.

The establishment of the Commission shall not preclude the use of other methods of consultation on Far Eastern issues by the participating Governments.

V. COMPOSITION.

1. The Far Eastern Commission shall consist of one representative of each of the States party to this agreement. The membership of the Commission may be increased by agreement among the participating Powers as conditions warrant by the addition of representatives of other United Nations in the Far East or having territories therein.

The Commission shall provide for full and adequate consultations, as occasion may require, with representatives of the United Nations not members of the Commission in regard to matters before the Commission which are of particular concern to such nations.

2. The Commission may take action by less than unanimous vote provided that action shall have the concurrence of at least a majority of all the representatives including the representatives of the four following Powers: United States, United Kingdom, Union of Soviet Socialist Republics and China.

Action by less than unanimous vote.

VI. LOCATION AND ORGANIZATION.

1. The Far Eastern Commission shall have its headquarters in Washington. It may meet at other places as occasion requires, including Tokyo, if and when it deems it desirable to do so. It may make such arrangements through the Chairman as may be practicable for consultation with the Supreme Commander for the Allied Powers.

2. Each representative on the Commission may be accompanied by an appropriate staff comprising both civilian and military representation.

3. The Commission shall organize its secretariat, appoint such committees as may be deemed advisable, and otherwise perfect its organization and procedure.

VII. TERMINATION.

The Far Eastern Commission shall cease to function when a decision to that effect is taken by the concurrence of at least a majority of all the representatives including the representatives of the four following Powers: United States, United Kingdom, Union of Soviet Socialist Republics and China. Prior to the termination of its functions the Commission shall transfer to any interim or permanent security organization of which the participating governments are members those functions which may appropriately be transferred.

It was agreed that the Government of the United States on behalf of the four Powers should present the Terms of Reference to the other Governments specified in Article I and invite them to participate in the Commission on the revised basis.

The following agreement was also reached, with the concurrence of China, for the establishment of an Allied Council for Japan:

1. There shall be established an Allied Council with its seat in Tokyo under the chairmanship of the Supreme Commander for the Allied Powers (or his Deputy) for the purpose of consulting with and advising the Supreme Commander in regard to the implementation of the Terms of Surrender, the occupation and control of Japan, and of directives supplementary thereto; and for the purpose of exercising the control authority herein granted.

5. The Supreme Commander shall issue all orders for the implementation of the Terms of Surrender, the occupation and control of Japan, and directives supplementary thereto. In all cases action will be carried out under and through the Supreme Commander who is the sole executive authority for the Allied Powers in Japan. He will consult and advise with the Council in advance of the issuance of orders on matters of substance, the exigencies of the situation permitting. His decisions upon these matters shall be controlling.

6. If, regarding the implementation of policy decisions of the Far Eastern Commission on questions concerning a change in the regime of control, fundamental changes in the Japanese constitutional structure, and a change in the Japanese Government as a whole, a member of the Council disagrees with the Supreme Commander (or his Deputy), the Supreme Commander will withhold the issuance of orders on these questions pending agreement thereon in the Far Eastern Commission.

7. In cases of necessity the Supreme Commander may take decisions concerning the change of individual ministers of the Japanese Government, or concerning the filling of vacancies created by the resignation of individual cabinet members, after appropriate preliminary consultation with the representatives of the other Allied Powers on the Allied Council.

III.

Korea :

Provisional Korean
democratic govern-
ment.

1. With a view to the re-establishment of Korea as an independent state, the creation of conditions for developing the country on democratic principles and the earliest possible liquidation of the disastrous results of the protracted Japanese domination in Korea, there shall be set up a provisional Korean democratic government which shall take all the necessary steps for developing the industry, transport and agriculture of Korea and the national culture of the Korean people.

Joint Commission.

2. In order to assist the formation of a provisional Korean government and with a view to the preliminary elaboration of the appropriate measures, there shall be established a Joint Commission consisting of representatives of the United States command in southern Korea and the Soviet command in northern Korea. In preparing their proposals the Commission shall consult with the Korean democratic parties and social organizations. United Kingdom and the United States prior to final decision by the two Governments represented on the Joint Commission.

3. It shall be the task of the Joint Commission, with the participation of the provisional Korean democratic government and of the Korean democratic organizations to work out measures also for helping and assisting (trusteeship) the political, economic and social progress of the Korean people, the development of democratic self-government and the establishment of the national independence of Korea.

The proposals of the Joint Commission shall be submitted, following consultation with the provisional Korean Government for the joint consideration of the Governments of the United States, Union of Soviet Socialist Republics, United Kingdom and China for the working out of an agreement concerning a four-power trusteeship of Korea for a period of up to five years.

4. For the consideration of urgent problems affecting both southern and northern Korea and for the elaboration of measures establishing permanent coordination in administrative-economic matters between the United States command in southern Korea and the Soviet command in northern Korea, a conference of the representatives of the United States and Soviet commands in Korea shall be convened within a period of two weeks.

Four-power trusteeship of Korea.

Conference of representatives of U. S. and Soviet commands in Korea.

IV. China

The three Foreign Secretaries exchanged views with regard to the situation in China. They were in agreement as to the need for a unified and democratic China under the National Government, for broad participation by democratic elements in all branches of the National Government, and for a cessation of civil strife. They reaffirmed their adherence to the policy of non-interference in the internal affairs of China.

Mr. Molotov and Mr. Byrnes had several conversations concerning Soviet and American armed forces in China.

Mr. Molotov stated that the Soviet forces had disarmed and deported Japanese troops in Manchuria but that withdrawal of Soviet forces had been postponed until February 1st at the request of the Chinese Government.

Mr. Byrnes pointed out that American forces were in north China at the request of the Chinese Government, and referred also to the primary responsibility of the United States in the implementation of the Terms of Surrender with respect to the disarming and deportation of Japanese troops. He stated that American forces would be withdrawn just as soon as this responsibility was discharged or the Chinese Government was in a position to discharge the responsibility without the assistance of American forces.

The two Foreign Secretaries were in complete accord as to the desirability of withdrawal of Soviet and American forces from China at the earliest practicable moment consistent with the discharge of their obligations and responsibilities.

V. Rumania.

The three Governments are prepared to give King Michael the advice for which he has asked in his letter of August 21, 1945, on the broadening of the Rumanian Government. The King should be advised that one member of the National Peasant Party and one member of the Liberal Party should be included in the Government. The Commission referred to below shall satisfy itself that

(a) they are truly representative members of the groups of the Parties not represented in the Government;

(b) they are suitable and will work loyally with the Government.

The three Governments take note that the Rumanian Government thus reorganized should declare that free and unfettered elections will be held as soon as possible on the basis of universal and secret ballot. All democratic and anti-fascist parties should have the right to take part in these elections and to put forward candidates. The reorganized Government should give assurances concerning the grant of freedom of the press, speech, religion and association.

A. Y. Vyshinski, Mr. Harriman, and Sir A. Clark Kerr are authorized as a Commission to proceed to Bucharest immediately to consult with King Michael and members of the present Government with a view to the execution of the above-mentioned tasks.

As soon as these tasks are accomplished and the required assurances have been received, the Government of Rumania, with which the Soviet Government maintains diplomatic relations, will be recognized by the Government of the United States of America and the Government of the United Kingdom. [1]

VI.

Bulgaria

It is understood by the three Governments that the Soviet Government takes upon itself the mission of giving friendly advice to the Bulgarian Government with regard to the desirability of the inclusion in the Bulgarian Government of the Fatherland Front, now being formed, of an additional two representatives of other democratic groups, who (a) are truly representative of the groups of the parties which are not participating in the Government, and (b) are really suitable and will work loyally with the Government.

As soon as the Governments of the United States of America and the United Kingdom are convinced that this friendly advice has been accepted by the Bulgarian Government and the said additional representatives have been included in its body, the Government of the United States and the Government of the United Kingdom will recognize the Bulgarian Government, with which the Government of the Soviet Union already has diplomatic relations.

The Establishment by the United Nations
of a Commission for the Control of
Atomic Energy.

Discussion of the subject of atomic energy related to the question of the establishment of a commission by the General Assembly of the United Nations. The Ministers of Foreign Affairs of the Union of Soviet Socialist Republics, the United States of America, and the United Kingdom have agreed to recommend, for the consideration of the General Assembly of the United Nations, the establishment by the United Nations of a commission to consider problems arising from the discovery of atomic energy and related matters. They have agreed to invite the other permanent members of the Security Council, France and China, together with Canada, to join with them in assuming the initiative in sponsoring the following resolution at the first session of the General Assembly of the United Nations in January 1946:—

Resolved by the General Assembly of the United Nations to establish a Commission, with the composition and competence set out hereunder, to deal with the problems raised by the discovery of atomic energy and other related matters.

I. Establishment of the Commission

A Commission is hereby established by the General Assembly with the terms of reference set out under Section V below.

Post, p. 1908.

II. Relations of the Commission with the Organs of the United Nations

(a) The Commission shall submit its reports and recommendations to the Security Council, and such reports and recommendations shall be made public unless the Security Council, in the interests of peace and security, otherwise directs. In the appropriate cases the Security Council should transmit these Reports to the General Assembly and the members of the United Nations, as well as to the Economic and Social Council and other Organs within the framework of the United Nations.

(b) In view of the Security Council's primary responsibility under the Charter of the United Nations for the maintenance of international peace and security, the Security Council shall issue directions to the Commission in matters affecting security. On these matters the Commission shall be accountable for its work to the Security Council.

III. Composition of the Commission

The Commission shall be composed of one representative from each of those states represented on the Security Council, and Canada when that state is not a member of the Security Council. Each representative on the Commission may have such assistants as he may desire.

IV. Rules of Procedure

The Commission shall have whatever staff it may deem necessary, and shall make recommendations for its rules of procedure to the Security Council, which shall approve them as a procedural matter.

V. Terms of Reference of the Commission

The Commission shall proceed with the utmost dispatch and inquire into all phases of the problem, and make such recommendations from time to time with respect to them as it finds possible. In particular the Commission shall make specific proposals:

- (a) For extending between all nations the exchange of basic scientific information for peaceful ends;
- (b) For control of atomic energy to the extent necessary to ensure its use only for peaceful purposes;
- (c) For the elimination from national armaments of atomic weapons and of all other major weapons adaptable to mass destruction;
- (d) For effective safeguards by way of inspection and other means to protect complying states against the hazards of violations and evasions.

Work of Commission.

The work of the Commission should proceed by separate stages, the successful completion of each of which will develop the necessary confidence of the world before the next stage is undertaken.

The Commission shall not infringe upon the responsibilities of any Organ of the United Nations, but should present recommendations for the consideration of those Organs in the performance of their tasks under the terms of the United Nations Charter.

The British Ambassador to the Acting Secretary of State

BRITISH EMBASSY,
WASHINGTON, D. C.,

May 7th, 1945.

Ref: 826/8/45

DEAR MR. GREW,

With reference to recent conversations which have been held between this Embassy and the State Department I now enclose a memorandum entitled "Memorandum relating to the use and disposal of United Nations vessels captured or found in the course of operations for the liberation of Europe".

2. It is the understanding of His Majesty's Government in the United Kingdom that the United States Government are willing to apply the principles of the annexed memorandum to vessels of all the United Nations on a reciprocal basis and, with this end in view, will enter into similar agreements with all other United Nations willing to do so and will further take such steps as may be necessary to insure that claims in the nature of prize salvage will not be advanced in the United States courts against British vessels recovered in the course of the operations covered by the memorandum or against other vessels so recovered being vessels of other United Nations entering into similar arrangements. I take this opportunity of recalling to your attention the Prize Salvage Act, 1944, whereby His Majesty's Government took power to control and prevent prize salvage claims.
3. On these understandings and with these expressions of intent the present memorandum meets with the approval of His Majesty's Government in the United Kingdom. If it likewise meets with the approval of the United States Government, this note, together with your reply, indicating such approval and the concurrence of the Government of the United States, will be regarded as constituting an agreement between the two Governments. I suggest that the agreement should be regarded as being in effect from the 22nd October, 1943.
4. Similar notes are being exchanged by His Majesty's Government with the representatives of the Norwegian, Netherlands, Belgian and

Greek Governments in London, and also with the representative of the French Provisional Government.

I have the honour to be, with the highest consideration, Sir,

Your most obedient, humble servant,

(for the Ambassador)

JOHN BALFOUR.

The Honourable

JOSEPH C. GREW,

Acting Secretary of State,

Department of State,

MEMORANDUM CONCERNING THE USE AND DISPOSAL OF UNITED NATIONS VESSELS CAPTURED OR FOUND BY THEIR FORCES IN THE COURSE OF OPERATIONS FOR THE LIBERATION OF EUROPE

This Memorandum sets out the principles which shall determine the use and disposal of United Nations vessels captured or found by their Forces in the course of operations for the liberation of Europe.

PART I.

Immediate action to be taken as regards United Nations vessels captured or found in the area of operation.

Objectives.

1. The objectives to be attained are:—

(a) not to impede the Commander-in-Chief or operations in any way;

(b) to put the vessels into useful service as soon as possible, and

(c) to avoid all local disagreements between the various United Nations Forces which may be concerned in their recovery and also between persons or organisations who may be found to be in local control of the vessels.

Responsibility of
Commander-in-
Chief.

2. The Commander-in-Chief shall, accordingly, in the first instance be solely responsible for all clearance and emergency measures in the ports within the area of his control, and for immediate operational purposes shall have absolute discretion over all United Nations vessels captured by the forces under his command, whatever their nationality, or found within the area for which he is responsible. This discretion shall cover such matters as power to order the destruction of such vessels in accordance with military necessity, to order the loading or unloading of vessels, their movements and any other steps necessary to preserve them, to put them into use in his own name insofar as he may consider necessary for the immediate operations in progress.

Use of powers of
military requisition.

3. The Commander-in-Chief for these purposes will use any powers of military requisition which may be necessary, and neither he nor his Government, nor the forces operating under his command will be held responsible in any way for any action or the results of any action taken by him or on his authority apart from any question of

ultimate liability for payments for the use or for the loss of vessels taken up for his service.

4. Any vessel not immediately required by the Commander-in-Chief in the operational area shall be ordered away so that it can be dealt with in accordance with the provisions of Part II of this Memorandum.

Disposition of vessels not immediately required.

5. The Commander-in-Chief will not enter into any general Agreement even of a temporary character dealing with the chartering of groups of United Nations vessels with any Authorities he may find in liberated or captured territories. Any such matters will be dealt with by the Shipping Authorities of the United Nations. The question as to the time at which it may be appropriate to transfer the primary responsibility for dealing with such vessels from the Commander-in-Chief to the Shipping Authorities of the United Nations will be dealt with according to the course of the operations.

Chartering of U. N. vessels.

PART II.

Arrangements to be made for the disposal of United Nations vessels captured or found in the area of operations.

1. (a) The general principle is recognised that the Government of each United Nation shall subject to the provisions of Part I of this Memorandum ultimately be entitled to take over and dispose of, as it thinks fit, vessels belonging to that State. Vessels will be treated as belonging to a State

General principle.

- (i) if they were at the time when they fell into the hands of the enemy registered in the territory of that State;
- (ii) if at the time when they fell into the hands of the enemy they had the right to fly the flag of that State whether or not formally registered in its territory;
- (iii) if they were built for or acquired by or by any national of that State and registered in its territory (if liable to registration) after the occupation of its territory by Germany or her Allies.

(b) This general principle will apply irrespective of the place of capture or of the constitution or nationality of the United Nations force effecting the actual capture and of the flag which the vessel may be flying at the time when captured or found. Thus, if in a Norwegian harbour there were captured a formerly British vessel, a formerly Norwegian vessel and a formerly Netherlands vessel, then, subject to the provisions of Part I of this Memorandum, the first would ultimately be handed over to the United Kingdom Government, the second to the Norwegian Government and the third to the Netherlands Government, even though the forces actually capturing them were not British, Norwegian or Netherlands, but belonging to some other United Nations nationality.

2. The following additional principles are recognised and accepted in respect of any United Nations vessels captured or found in the area of operations:—

Additional principles.

(a) The vessels concerned will be handed back to the Government of the United Nation concerned and not to individual nationals of the

United Nations who were the original owners. It will be for the Government of the United Nation concerned to make the necessary arrangements with its own nationals as regards the ultimate ownership of any such vessels.

(b) The Governments of each United Nation will, in respect of any vessel handed over to it under the terms of this Memorandum:—

- (i) make the vessel available for the common purposes of the United Nations in accordance with the arrangements then existing;
- (ii) accept responsibility for all liabilities in respect of the vessel and
- (iii) indemnify the other United Nations Governments concerned against any claims made against them or any one or more of them arising out of the handing over of the vessel.

Vessels placed in a Prize Court.

(c) Some United Nations vessels have been placed by the enemy in a Prize Court. If such vessels are captured or found, some form of prize proceedings will be required to divest the enemy of their title and to revest it in the Governments of the United Nations concerned. The necessary proceedings will be brought in the Prize Court of the State to which the ship is to be ultimately returned, or, failing that, in a Prize Court of the State of which the Commander-in-Chief is a national, but action in the latter Prize Court would be without prejudice to the operation of the general principle as to return stated in sub-paragraph 1 of Part II above. Except in these cases Prize Court proceedings will only be taken if in any particular instance immediate action is necessary to bring a vessel into service.

Ante, p. 1911.

(d) There may be cases in which it is subsequently proved that the true owner of a particular vessel is a State or National of a State other than that in which the vessel is registered, or that parties who are not nationals of the State of registration hold equities in the vessel or the right to possession thereof. In such cases, it is understood that Allied Governments to whom a vessel has been transferred in accordance with Article 1 of Part II of this Memorandum have by such transfer acquired custody only and will release the vessel or make such other arrangements as may be necessary in the circumstances.

Vessels for which an indemnity has been paid.

(e) In the case of vessels in respect of which total losses have been paid by underwriters, the return to a Government under the arrangements agreed in this Memorandum will be subject to the safeguarding of any rights which underwriters may have. Thus, when the owner of a vessel whether a United Nations Government or a National of a United Nations Government, has been indemnified by the underwriters, the turning over of a vessel to that Government without taking into account such indemnification, would be in the nature of a gift and in such circumstances appropriate equitable adjustments will be made between the Governments concerned.

PART III.*Definitions.*

1. Throughout this Memorandum the term "territory" is used to include Colonies, protectorates and overseas territories or territories under suzerainty or mandate. "Territory."
2. Throughout this Memorandum the term "vessels" is used in the widest sense to include all categories of merchant vessels, e.g. ocean going, coastal and inland craft, but some latitude may be necessary in the application of all its principles to inland craft. "Vessels."
3. Further, the term "vessels" includes merchant vessels which, though operating as naval auxiliaries when captured or found, were not so operating at the time when they fell into the hands of the enemy. Vessels which at the time when they fell into enemy hands were operating as naval auxiliaries are not covered by the proposals set out in this Memorandum. "Vessels."
4. If for any operation or series of operations there is a Supreme Commander-in-Chief, then he is for the purpose of this Memorandum the Commander-in-Chief. If, however, the Naval Command is separate from the Land Command, then for the purpose of this Memorandum the Naval Commander-in-Chief is the Commander-in-Chief as regards ocean going and coastal vessels and the Land Commander-in-Chief as regards all other vessels. Commander-in-Chief.

DEPARTMENT OF STATE
WASHINGTON
June 15, 1945.

EXCELLENCY:

I have the honor to refer to your note of May 7, 1945 (reference 826/8/45) and to previous communications regarding the disposition to be made of vessels recaptured from the enemy in the European theater of operations and formerly belonging to one of the United Nations or to its nationals. With your note was enclosed a memorandum entitled "Memorandum relating to the use and disposal of United Nations vessels captured or found in the course of operations for the liberation of Europe".

In your note it is stated that His Majesty's Government in the United Kingdom understands that the Government of the United States of America is willing to apply the principles of that memorandum to vessels of all the United Nations on a reciprocal basis and, with this end in view, will enter into similar agreements with all other United Nations willing to do so, and will further take such steps as may be necessary to insure that claims in the nature of prize salvage will not be advanced in the United States courts against British vessels

recaptured in the course of the operations covered by the memorandum or against other vessels so recovered being vessels of the other United Nations entering into similar arrangements. In this connection you call attention to the British Prize Salvage Act, 1944.

You further state that "on these understandings and with these expressions of intent the present memorandum meets with the approval of His Majesty's Government in the United Kingdom". You add that if it likewise meets with the approval of the Government of the United States of America, your note, together with the reply indicating such approval and concurrence by the Government of the United States of America, will be regarded as constituting an agreement between the two countries. You further suggest that the agreement should be regarded as being in effect from October 22, 1943.

I have the honor to inform you that the Government of the United States of America approves the memorandum in question and concurs in the understandings expressed in your note, and will apply the principles embodied in the memorandum, on a reciprocal basis, to British vessels and to the vessels of other members of the United Nations which enter into similar agreements with the United States of America.

In accordance with the suggestion made in your note, that note and the present note in reply will be regarded as constituting an agreement between the Government of the United States of America and His Majesty's Government in the United Kingdom, which will be regarded as being in effect from October 22, 1943.

In view of the present agreement in the case of British vessels, the Government of the United States of America undertakes, on a reciprocal basis, to take such steps as may be necessary to insure that claims in the nature of prize salvage will not be advanced in the United States courts against British vessels recovered in the course of the operations covered by the memorandum. In case similar agreements are concluded by the United States of America with other members of the United Nations, the United States of America will also undertake on the basis of reciprocity to take such steps as may be necessary to insure that claims in the nature of prize salvage will not be advanced in the United States courts against vessels of such other members of the United Nations recovered in the course of the operations covered by the memorandum.

Accept, Excellency, the renewed assurances of my highest consideration.

No. 174.

SIR,

I have the honour to refer to your Note of October 10, 1945 (411.41 Ships/9-2045) in which notice was given that, in view of the termination of lend-lease by the Government of the United States, payments made by the United States Government on behalf of His Majesty's Government in the United Kingdom in the course of operations under the Knock-for-Knock Agreement of December 4, 1942, would be made under lend-lease only in cases where the claim arose prior to the expiration of 60 days following 12.01 a. m., September 2, 1945 (V-J Day).

56 Stat. 1780.

2. You suggested in your Note that discussions should be held between the representatives of the Government of the United States and of His Majesty's Government concerning the continuation of the waiver features of the Knock-for-Knock Agreement of December 4, 1942, and the handling of mutual legal aid and payments under Article IV of that Agreement beyond the 60 day period mentioned above on some basis other than an accounting under the lend-lease Act.

56 Stat. 1791.

3. I understand that the duly appointed representatives of our two Governments have now completed the discussions suggested in your Note under reference and I have the honour to state the agreement which the United Kingdom representatives report was reached as a result of those discussions:-

(i) It has been agreed that lend-lease and reciprocal aid funds will be available to discharge liabilities which arise from casualties occurring before midnight, October 31, 1945, and which are within the agreed scope of legal aid under Article IV of the Agreement and supplemental understandings. The Agreement, in both its waiver and legal aid aspects, will continue to operate thereafter and until notice is given to terminate it, but for liabilities arising from casualties occurring on or after November 1, 1945, which are within the scope of legal aid as determined from time to time, there will be substituted for payments under Mutual Aid the system of accounting on a cash basis which is provided for by the last sentence of Article IV.

56 Stat. 1781.

56 Stat. 1782.

56 Stat. 1781.

(ii) It is understood that for casualties occurring on or after November 1, 1945, the United States Navy will not require legal aid under Article IV of the Agreement or supplemental understandings.

56 Stat. 1780.

(iii) It has been further agreed that the continued operation of the Knock-for-Knock Agreement will be without prejudice to the possible adoption by the shipping authorities of our respective Governments of new policies in relation to the disposition of vessels, changes in status, and changes in insurance arrangements.

56 Stat. 1780.

4. I have the honour to suggest that, if the above statement of the agreement reached is concurred in by the Government of the United States, this note and your acknowledgment of it shall be considered as constituting, on the date of your acknowledgment, an Agreement between the two Governments for the continued operation of the Knock-for-Knock Agreement of December 4, 1942, modified as is required as a result of the termination of mutual wartime arrangements.

SIR:

57 Stat. 1416.

I have the honor to refer to my predecessor's note No. 738 of August 14, 1942, and to your reply No. 125 of August 15, 1942, regarding the establishment of an oil supply line which would be supplementary to that known as the Canol Project, which was dealt with by my predecessor's note of June 27th and your reply of June 29, 1942.

57 Stat. 1413.

In that exchange of notes it was agreed that the pipeline from Skagway to Whitehorse and the storage and loading facilities at Prince Rupert should remain the property of my Government until agreement after the war upon their disposition. It was further agreed that the pipeline and the other facilities mentioned should not be dismantled until such action was recommended by the Permanent Joint Board on Defence.

58 Stat. 1565.

Having in mind the fact that the major United States facilities at Prince Rupert are in process of being disposed of in accordance with the 33rd Recommendation of the Permanent Joint Board on Defence, which formed the subject of the Canadian Ambassador's note to the Secretary of State of November 22, 1944, and the Secretary of State's reply of December 20, 1944, I have now been directed to propose that the storage and loading facilities at Prince Rupert mentioned in the exchange of notes of August 14-15, 1942, and including several buildings and structures, an open storage yard, a railroad spur, and a dock, be disposed of under the procedure established by the 33rd Recommendation without the prerequisite reference to the Board contemplated in that exchange of notes.

Accept, Sir, the renewed assurances of my highest consideration.

Arrangement providing for participation by the United States of America in the Central Commission of the Rhine. Effected by exchange of notes signed at London October 4 and 29, and November 5, 1945.

FOREIGN OFFICE, S. W. 1.

No. W 12978/142/803.

4th October, 1945.

Immediate.

YOUR EXCELLENCY,

As Your Excellency is aware, informal discussions have recently taken place in London between representatives of the Governments of the United Kingdom, United States, France, Belgium and the Netherlands regarding the urgent need for the immediate coordination of all activities undertaken with a view to restoring navigation on the Rhine. As a result of these discussions the representatives agreed to recommend to their Governments that the necessary steps should be taken to invite the Central Commission of the Rhine to resume its functions without delay on an emergency and interim basis. It was, of course, understood that the resumption by the Commission of its pre-war functions would in no way prejudice the future determination of the permanent regime of the Rhine.

2. The above mentioned representatives also recommended that while the Commission operated on an interim basis it should include a representative of the United States Government. They proposed, for the consideration of the Governments concerned, either that the Allied military authorities controlling German riparian territory should be represented at the meetings of the Commission by liaison officers or that the Commission should include a representative of the Allied Control Commission in Germany. Lastly, they proposed that all the Governments and bodies represented on the Commission should have an equal voice in its decisions.

3. I have the honour to enquire whether Your Excellency's Government are prepared to endorse these recommendations and to propose that, in the event of all the Governments concerned signifying their agreement, His Majesty's Government should on their behalf address a communication to the Chairman of the Central Commission of the Rhine inviting him to summon a meeting of the Commission at an early date.

I have the honour to be, with the highest consideration,

No. 5028

LONDON, October 29, 1945

SIR:

I am instructed by my Government to acknowledge your note of October 4 and to say that the United States Government will be prepared to participate in the Central Commission of the Rhine on the following assumptions:

1. The United States will participate in the Central Commission of the Rhine on an equal basis as all other participating States, it being understood that each State will have one representative and one vote, and that the decisions of the Commission shall be taken on the basis of a majority of the members present and voting.

2. The United States will pay an equal share of the expenses of the Commission on the assumption that the expenses will be kept to a minimum necessary to enable the Commission to discharge its agreed functions.

3. The United States Government believes that it might eventually be desirable to have a representative of the Allied Control Commission in Germany on the Central Commission of the Rhine. However, in order to expedite the establishment of the Commission at the earliest possible date, the United States accepts the alternative that the Allied Military authorities controlling German riparian, territory should be represented at the meetings of the Commission by liaison officers.

4. It is understood that the Central Commission of the Rhine will be established on a purely provisional basis without prejudice to the conclusion of negotiations by the interested Governments for the establishment of a permanent regime. It is also understood that the Commission will exercise the powers and functions accorded to the pre-war Rhine Commission by the Conventions of 1868^[1] and 1919^[2] and that it will coordinate its activities with ECITO.

The Government hopes that it may be possible for the Commission to convene at an early moment in order that it may render its assistance to the task of restoring navigation on this important means of communication.

Accept, Sir, the renewed assurances of my highest consideration.

YOUR EXCELLENCY,

In your note No. 5028 of 29th October, Your Excellency was so good as to inform me that the United States Government had agreed to the proposal that steps should be taken to invite the Central Commission of the Rhine to resume its functions on an emergency and interim basis and with the participation of a representative of the United States Government.

2. I now have the honour to inform Your Excellency that the Belgian and Netherlands Governments and the French Provisional Government have also agreed to the above proposal and are of the opinion that in present circumstances the Allied military authorities controlling German riparian territory should be represented at the meetings of the Commission by liaison officers.

3. His Majesty's Government are accordingly requesting the French Provisional Government to invite the President of the Commission to summon a meeting at an early date.^[1]

**INTERIM AGREEMENT BETWEEN THE UNITED STATES OF
AMERICA AND SWITZERLAND RELATING TO AIR TRANS-
PORT SERVICES**

Having in mind the resolution recommending a standard form of agreement for provisional air routes and services, included in the final act of the International Civil Aviation Conference signed at Chicago on December 7, 1944, [1] and the desirability of mutually stimulating and promoting the sound economic development of air transportation between the United States of America and Switzerland, the two governments parties to this arrangement agree that the establishment and development of air transport services between their respective territories shall be governed by the following provisions:

ARTICLE 1

The Contracting Parties grant the rights specified in the Annex hereto necessary for establishing the international civil air routes and services therein described, whether such services be inaugurated immediately or at a later date at the option of the Contracting Party to whom the rights are granted.

ARTICLE 2

(a) Each of the air services so described shall be placed in operation as soon as the Contracting Party to whom the rights have been granted by Article 1 to designate an airline or airlines for the route concerned has authorized an airline for such route, and the Contracting Party granting the rights shall, subject to Article 6 hereof, be bound to give the appropriate operating permission to the airline or airlines concerned; provided that the airlines so designated may be required to qualify before the competent aeronautical authorities of the Contracting Party granting the rights under the laws and regulations normally applied by these authorities before being permitted to engage in the operations contemplated by this Agreement; and provided that in areas of hostilities or of military occupation, or in areas affected thereby, such inauguration shall be subject to the approval of the competent military authorities.

(b) It is understood that either Contracting Party granted commercial rights under this Agreement should exercise them at the earliest practicable date except in the case of temporary inability to do so.

Inauguration of air services.

Post, p. 1938.

ARTICLE 3

In order to prevent discriminatory practices and to assure equality of treatment, both Contracting Parties agree that:

(a) Each of the Contracting Parties may impose or permit to be imposed just and reasonable charges for the use of public airports and other facilities under its control. Each of the Contracting Parties agrees, however, that these charges shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

(b) Fuel, lubricating oils and spare parts introduced into the territory of one Contracting Party by the other Contracting Party or its nationals, and intended solely for use by aircraft of such other Contracting Party shall be accorded national and most-favored-nation treatment with respect to the imposition of customs duties, inspection fees or other national duties or charges by the Contracting Party whose territory is entered.

(c) The fuel, lubricating oils, spare parts, regular equipment and aircraft stores retained on board civil aircraft of the airlines of one Contracting Party authorized to operate the routes and services described in the Annex shall, upon arriving in or leaving the territory of the other Contracting Party, be exempt from customs, inspection fees or similar duties or charges, even though such supplies be used or consumed by or aboard such aircraft on flights in that territory.

Post, p. 1938.

ARTICLE 4

Certificates of airworthiness, certificates of competency and licenses issued or rendered valid by one Contracting Party shall be recognized as valid by the other Contracting Party for the purpose of operating the routes and services described in the Annex. Each Contracting Party reserves the right, however, to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to its own nationals by another State.

Certificates of airworthiness, etc.

Post, p. 1938.

ARTICLE 5

(a) The laws and regulations of one Contracting Party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be applied to the aircraft of the other Contracting Party, and shall be complied with by such aircraft upon entering or departing from or while within the territory of the first Party.

Laws and regulations.

(b) The laws and regulations of one Contracting Party as to the admission to or departure from its territory of passengers, crew, mail or cargo of aircraft, such as regulations relating to entry, clearance, immigration, passports, customs, and quarantine shall be complied with by or on behalf of such passengers, crew, mail or cargo of the other Contracting Party upon entrance into or departure from, or while within the territory of the first Party.

ARTICLE 6

Withholding or revocation of certificate or permit.

Each Contracting Party reserves the right to withhold or revoke a certificate or permit to an airline of the other Party in any case where it is not satisfied that substantial ownership and effective control are vested in nationals of either Party to this Agreement, or in case of failure of an airline to comply with the laws of the State over which it operates as described in Article 5 hereof, or to perform its obligations under this Agreement.

ARTICLE 7

Registration of Agreement.

This Agreement and all contracts connected therewith shall be registered with the Provisional International Civil Aviation Organization.

ARTICLE 8

Effective date; termination.

This Agreement shall become effective on the date of the diplomatic notes to which it is annexed.

Either Contracting Party may terminate this Agreement, or the rights for any of the services granted thereunder, by giving one year's notice to the other Contracting Party.

ARTICLE 9

Modification of routes or conditions set forth in Annex.

In the event either of the Contracting Parties considers it desirable to modify the routes or conditions set forth in the attached Annex, it may request consultation between the competent authorities of both Contracting Parties, such consultation to begin within a period of sixty days from the date of the request. When these authorities mutually agree on new or revised conditions affecting the Annex, their recommendations on the matter will come into effect after they have been confirmed by an exchange of diplomatic notes.

**ACCORD PROVISOIRE SUR LES LIGNES AERIENNES ENTRE
LA SUISSE ET LES ETATS-UNIS D'AMERIQUE**

Conclu à Berne, par échange de lettres, le 3 août 1945.

Date de l'entrée en vigueur: 3 août 1945.

Vu la recommandation concernant le modèle uniforme d'accord sur les routes aériennes provisoires qui figure dans l'acte final de la conférence internationale de l'aviation civile signé, à Chicago, le 7 décembre 1944,

attendu qu'il est désirable d'encourager et de favoriser réciproquement une saine évolution dans le domaine économique des transports par air entre la Suisse et les Etats-Unis d'Amérique;

les deux Gouvernements parties au présent accord provisoire conviennent que la création et le développement des lignes aériennes entre leurs territoires nationaux respectifs seront soumis aux dispositions ci-après:

ARTICLE PREMIER.

Les parties contractantes accordent les droits spécifiés à l'annexe ci-jointe, nécessaires à l'établissement des routes et lignes aériennes civiles internationales décrites à ladite annexe, que ces lignes aient, à fonctionner immédiatement ou ultérieurement au choix de la partie contractante à laquelle ces droits auront été accordés.

ARTICLE 2.

a) Chacune des lignes aériennes ainsi décrites sera mise en exploitation aussitôt que la partie contractante qui, en vertu de l'article premier, a le droit de désigner une ou plusieurs entreprises de transports aériens pour desservir la route dont il s'agit aura donné pareille autorisation. L'autre partie contractante, qui accorde ce droit, devra, sous réserve de l'article 6 ci-après, délivrer l'autorisation d'exploitation nécessaire à l'entreprise ou aux entreprises intéressées. Toutefois, l'entreprise ou les entreprises ainsi désignées pourront être appelées à justifier de leur qualification devant les autorités aéronautiques de la partie contractante qui accorde le droit en question et conformément aux lois et règlements normalement appliqués par ces autorités avant d'être autorisées à entreprendre l'exploitation prévue par le présent accord. En outre, dans les zones de guerre ou occupées militairement, ou encore dans les régions affectées par la guerre ou l'occupation, la mise en exploitation sera subordonnée à l'approbation des autorités militaires intéressées.

b) Il est entendu que chaque partie contractante exercera aussitôt que possible, à moins d'empêchement temporaire, les droits commerciaux que lui assure le présent accord.

ARTICLE 3.

Pour éviter des différences d'application et assurer l'égalité de traitement entre elles, les parties contractantes conviennent que

a) Chaque partie contractante pourra prélever ou permettre que soient prélevés des droits justes et raisonnables pour l'usage des aéroports publics et autres installations sous son contrôle. Les parties contractantes conviennent, toutefois, que ces droits n'excéderont pas ceux que leurs aéronefs affectés à des lignes internationales analogues paieraient pour l'utilisation de ces aéroports et de ces installations.

b) Les carburants, les huiles lubrifiantes et les pièces de rechange introduits sur le territoire d'une partie contractante par l'autre partie ou ses nationaux et destinés uniquement à l'usage des aéronefs de cette autre partie contractante recevront le traitement national et celui de la nation la plus favorisée en ce qui concerne les droits de douane, frais de visite et autres droits et taxes prélevés par la partie contractante sur le territoire de laquelle est entré l'aéronef.

c) Les carburants, les huiles lubrifiantes, les pièces de rechange, l'équipement normal et les provisions de bord restant dans les aéronefs civils des entreprises de transports aériens d'une partie contractante autorisée à exploiter les lignes décrites à l'annexe seront, à leur arrivée sur le territoire de l'autre partie contractante ou à leur départ, exemptés des droits de douane, frais de visite ou autres droits et taxes de ce genre, même si ces approvisionnements sont employés ou consommés par ou sur lesdits aéronefs au cours de vols au-dessus du territoire dont il s'agit.

ARTICLE 4.

Les certificats de navigabilité, les brevets d'aptitude et les licences délivrés ou rendus exécutoires par une partie contractante seront reconnus par l'autre partie contractante pour l'exploitation des lignes décrites à l'annexe. Chaque partie contractante se réserve, cependant, le droit de refuser de reconnaître pour les vols au-dessus de son propre territoire les brevets d'aptitude et les licences accordés à ses propres ressortissants par un autre Etat.

ARTICLE 5.

a) Les lois et règlements d'une partie contractante régissant l'entrée et la sortie du territoire de celle-ci pour les aéronefs exerçant la navigation aérienne internationale ou régissant l'exploitation et la navigation desdits aéronefs pendant qu'ils se trouvent à l'intérieur de ce territoire s'appliqueront aux aéronefs de l'autre partie et lesdits aéronefs devront s'y conformer à l'arrivée, au départ et pendant qu'ils se trouvent à l'intérieur du territoire de cette partie.

b) Les lois et règlements d'une partie contractante régissant sur son territoire l'entrée ou la sortie par aéronef des passagers, des équipages, des envois postaux ou des marchandises, tels que ceux qui s'appliquent à l'entrée, aux formalités de congé, à l'immigration, aux passeports, aux douanes et à la quarantaine, seront observés par ou pour les passagers, équipages, envois postaux ou marchandises de l'autre partie à l'arrivée, au départ et pendant qu'ils se trouvent à l'intérieur du territoire de la première partie contractante.

ARTICLE 6.

Chaque partie contractante se réserve le droit de refuser ou de retirer un certificat ou un permis à une entreprise de transports aériens de l'autre partie chaque fois qu'elle n'est pas convaincue qu'une part substantielle des droits de propriété ainsi que le contrôle effectif de cette entreprise sont entre les mains de ressortissants de l'une ou l'autre des parties au présent accord, ou chaque fois qu'une entreprise de transports aériens ne se conforme pas aux lois de l'Etat survolé, comme il est indiqué à l'article 5 ci-dessus, ou ne remplit pas les obligations que lui impose le présent accord.

ARTICLE 7.

Le présent accord et tous les contrats s'y rapportant seront enregistrés auprès de l'Organisation provisoire de l'aviation civile internationale.

ARTICLE 8.

Le présent accord entrera en vigueur à la date des lettres diplomatiques auxquelles il est annexé.

Chaque partie contractante pourra, par avis donné un an d'avance à l'autre partie, mettre fin à l'accord ou aux droits afférents à l'une des lignes ainsi autorisées.

ARTICLE 9.

Si l'une des parties contractantes désire modifier les routes ou les conditions indiquées à l'annexe ci-jointe, elle pourra demander que les autorités compétentes des deux parties se consultent, cette consultation devant commencer dans un délai de soixante jours à compter de la date de la demande. Si ces autorités conviennent que les conditions de l'annexe doivent être complétées ou révisées, leurs recommandations à cet égard acquerront force obligatoire après avoir été confirmées par un échange de lettres diplomatiques.
