

Local History and Genealogy Reading Room Vertical File Index

Family Name and Local History Newsletters

This alphabetical index lists family name and regional newsletters on file at the Reference Desk in the Local History and Genealogy Reading Room. To view these materials, please inquire at the Reference Desk.

The newsletters on file in the Local History and Genealogy Reading Room contain miscellaneous materials relating to specific family names and to the states, towns, and cities of the United States.

Materials in the Vertical File are not cataloged and do not appear in the Library of Congress Online Public Access Catalog; however, readers in the Local History and Genealogy Reading Room are able to view materials collected in the Vertical File.

Collection Statement

While it is true that, as a rule, that the Library collects comprehensively in the areas of genealogy and local history, there are exceptions. The credentials of the publisher, content of the work, amount of original research, scope, intended audience, and overall quality of the production, all play a role in the selection decision. For serials and newsletters, staff determine whether to acquire permanently, acquire current issues only, or not at all, and even for a title that would class in a subject area where the Library normally takes all.

Unpublished gift materials are reviewed on a case by case basis; materials of an ephemeral nature, brochures and pamphlets, are generally added to the Vertical File in the Local History and Genealogy Reading Room. Family history and local history newsletters are typically filed in the Local History and Genealogy Reading Room Vertical File until the Recommending Officer decides whether they should be sent forward for cataloging.
