

New Maps April – December 2020!

New maps online for April – December 2020, from the collections of the Geography & Map Division of the Library of Congress <http://www.loc.gov/maps/>. A monthly listing of maps added to G&M's online presence is available at: <http://www.loc.gov/rr/geogmap/monthly.html>. Due to restrictions of the SARS-CoV-2 (Covid-19) pandemic, G&M has been limited in being able to provide online access to its many objects. This report is a compilation of the listing during the affected.

Along with general maps and atlases, G&M was able to release one collection and greatly increase that of another:

The [Jay I. Kislak Collection](#) encompasses almost fourteen hundred rare books, maps, manuscripts, historical documents, graphic works, and archaeological objects related to the history of the early Americas, including the pre-Columbian cultures of the Caribbean and Mesoamerica. The dates of the collection items range from around 2000 BCE until the twenty-first century.

The [Sanborn Fire Insurance Maps](#) online checklist provides access to thousands of large-scale maps, dating from 1867, depicting the commercial, industrial, and residential sections of some twelve thousand cities and towns in the United States, Canada, and Mexico. While this collection came online years ago, G&M recently mounted troves of new images to the collection.
